GARDNER'S BAKING POWDER

IN 1 lb. PACKETS FOR 25 cts.

AND 6 PACKETS FOR $1.25.

Ten reasons why it should be used in preference to all others.

1st.—Bread or Cakes made with it are MORE WHOLESOME than if made with yeast or any other process.

2nd.—Its PURITY is such that it will stand the test of the most perfect analysis.

3rd.—After having been extensively used for the last 14 years in NOT ONE instance has it failed to give ENTIRE SATISFACTION.

4th.—Families that have used it pronounce it THE BEST, and will use no other.

5th.—It contains no SALERATUS nor does it impair the digestive organs like those powders where SODA or an excess of ALKALI predominates.

6th.—It never gives to Bread or Cakes an unpleasant ALKALINE or MAWKISH taste.

7th.—The ingredients that form its composition are more BENEFICIAL than otherwise.

8th.—Dyspeptic subjects can eat HOT Bread or Rolls made with it and derive BENEFIT by its use.

9th.—Every packet contains its full weight: One pound packets weigh SIXTEEN OUNCES.

10th.—It is ALL that it is represented to be, namely:

"UNRIVALLED FOR PURITY AND CHEAPNESS."

DEPOT AND MANUFACTORY:

375 NOTRE DAME STREET,

MONTREAL.

J. GARDNER, CHEMIST,

Sole Proprietor and Manufacturer.

GARDNER'S "DOMESTIC COUGH REMEDY."

IN BOTTLES AT 25 Cts. AND 50 Cts. EACH.

A trial is all that is necessary to prove its value.

Read testimonials from the Hon. James Ferrier and Geo. F. Prowse, Esq.:

MONTREAL, 4th Dec., 1868.

JOHN GARDNER, ESQ., Dear Sir,—Your "Cough Remedy" has been used by myself and family for several years. So satisfied are we as to its curative powers that we are happy to communicate our grateful testimony of the benefit we have derived from its use.

I am, dear sir, yours truly, J. FERRIER.

(From G. F. PROWSE, ESQ.)

MR. GARDNER,—Your "Cough Remedy" acts like a charm.

For sale by Druggists everywhere. Depot and Manufactory: 375 Notre Dame Street.

The above truly USEFUL and VALUABLE ARTICLES can be procured from Grocers, Druggists, and General Dealers in Belleville and vicinity, and in all parts of the Dominion of Canada.

1868-69.

DIRECTORY

OF THE

COUNTY OF HASTINGS,

CONTAINING

A FULL AND COMPLETE LIST OF HOUSEHOLDERS OF EACH TOWN, TOWNSHIP, AND VILLAGE IN THE COUNTY, A CLASSIFIED LIST OF TRADES AND PROFESSIONS OF BELLEVILLE, TOGETHER WITH STATISTICAL AND OTHER INFORMATION, LOCAL AND PROVINCIAL, AND ADVERTISEMENTS OF THE PRINCIPAL BUSINESS HOUSES, EMBELLISHED WITH

LITHOGRAPHIC MAPS

OF THE COUNTY, BELLEVILLE AND THE PRINCIPAL VILLAGES.

PUBLISHED BY MACKENZIE BOWELL.

Belleville:
NTED AT THE INTELLIGENCER OFFICE, FRONT STREET.
1869.

INTRODUCTION.

THE Publisher believes, in presenting to the public the Third Edition of the *County of Hastings Directory*, that it will give the same general satisfaction which the preceding volumes received. Great care and pains have been given in its compilation. The chief improvement in this Edition is in the Map which accompanies it, comprising the County, which embraces the latest surveys and the principal Villages in the County, together with the Town of Belleville. The best evidence of its value to the public, and its worth to business men, are evidenced in the large number of copies subscribed for, and the many advertisements it contains from all classes of business from all parts of the County.

COUNTY OF HASTINGS.

THE County of Hastings is situated on the north shore of the Bay of Quinté, commanding a frontage on the Bay of about thirty miles, and extending to within five miles of the head of said waters. It comprises within its limits several townships, a town, and many growing and prosperous villages. The incorporated village of Trenton, the townships of Sidney, Thurlow and Tyendinaga, and the town of Belleville, lie immediately adjacent to, and fronting the Bay of Quinté; Rawdon, Huntingdon and Hungerford are immediately in their rear; Marmora, Madoc and Elzevir to the north, and Lakes Tudor and Grimsthorpe are to the north of these. During the last eight years a number of new townships have been laid out, which will be observed by reference to the map accompanying this work. Through the latter, a public road known as "The Hastings' Road," has been opened by the Provincial Government, and free grants of land are made to those who desire to go in and settle the country. By a late Act of Parliament, the County has been divided into three Ridings for electoral purposes. The East Riding consists of the townships of Thurlow, Tyendinaga and Hungerford; the West Riding comprises the townships of Sidney, village of Trenton, and town of Belleville; the North Riding takes in all the townships and municipalities north belonging to the County. The County has access by railway and water to the Eastern and Western markets, both of the United States and the Dominion. The navigation of the Bay is convenient and secure and free from those dangers to which vessels on the lakes are liable. All kinds of vessels ply regularly between Trenton, Belleville and Montreal, Belleville and Kingston, and Belleville and Oswego, thereby affording a frequent, cheap and comfortable means of conveyance for the purposes of travelling and commerce. The emigrant who wishes to settle in or visit the County of Hastings, can proceed from Quebec, either by railway or steamer to Belleville. From Belleville, stages run daily to the principal villages in the

back country; and for a trifling sum, the traveller can go and examine the lands in any of the townships. From Belleville to Trenton, the western boundary of the County, it is twelve miles by water. Here we arrive at the head of the Bay, which is separated from Lake Ontario by a narrow strip of land. It has been contemplated to cut a canal connecting Lake Ontario and the Bay of Quinté, the preliminary steps to secure which have already been taken. By this canal the dangerous navigation along the Prince Edward shore would be avoided, and the route from the far west to Montreal shortened some fifty miles.

ITS MANUFACTURING RESOURCES.

Few counties in Canada possess such splendid water-power privileges as those of Hastings. Three large and rapid streams pursue their winding course throughout the County, fed by numerous tributaries, furnishing at a thousand different points splendid mill sites, and an ample supply of water to drive any description of machinery. These streams take their rise from 75 to 100 miles to the north. The largest stream is the *Trent*, situated in the western section of the County, and possesses by far the best privileges for driving the machinery, though up to the present, these privileges are comparatively unoccupied. The Trent is a rapid stream, and in many places broad and deep. The *Salmon* running through the eastern section of the County, empties into the Bay at Shannonville. It is a fine stream, and furnishes a large number of flourishing saw and flouring mills with motive power. The River *Moira* empties into the Bay at Belleville, and for sites for mills and factories, and machinery of every description, presents unrivalled advantages. For twenty and thirty miles back flouring and saw mills are erected at different points on the river; and at Belleville we have very extensive mills and factories of various kinds, supplied with water power from this river. These factories might be increased tenfold without affecting the supply of water. Large quantities of square timber and scores of thousands of logs are every Spring brought down these rivers from the extensive lumbering districts, 50 and 100 miles back, and made up into rafts to go down the Bay and the St. Lawrence to Quebec, or manufactured into lumber at the extensive mills at Belleville,

Trenton, Mill Point, Mill Island, Ameliasburg and Shannonville. It will be seen at a glance that our manufacturing resources are abundant; and it only wants capital to make the County one of the best manufacturing districts in British America. And may we not reasonably expect, when the extent of these resources becomes more widely known, when the inexhaustible supplies of mineral wealth with which the County abounds, are brought to light, that capitalists will find it to their advantage to invest here, where they will be certain of profitable returns?

ITS MINERAL WEALTH.

The mineral products of North Hastings are varied and extensive enough to entitle it to the name of a mining district, and to justify the belief that it will in time contribute largely to the resources and wealth of this country. Copper, lead and bismuth are known to exist in considerable quantities at various points but whether they will ever be worked to advantage can only be determined, as in all mining enterprises, by an expenditure of capital in actual working; this is certain however, that the same indications in a country where people were accustomed to mining adventures would be eagerly followed up, and there can be no doubt that as the attention of miners is turned to this region they will before long be developed. Antimony, zinc and nickle have also been found, but not as yet in appreciable quantities.

Iron is well known to exist in limitless quantities at various points; the beds upon Crow Lake, formerly worked by the Marmora Company, have, since the last edition of this work, gone into the hands of an American Company, who are exporting the ore by way of Rice Lake and the Cobourg and Peterborough Railway to the States; they have built a Railway from the ore beds to the navigable waters of the Trent, and have bought out and revived the old Cobourg Railway for the purposes of this traffic alone. They have spent a very large sum of money in this enterprize, and the results are fully justifying the outlay; they expect as soon as they can get their ores fairly introduced to furnace owners that the business will assume enormous proportions; a village of some seventy five houses has grown up at the mines, where two years ago

there was not a dwelling, and they are carrying on mining with great vigor summer and winter.

Much of their richest ore crumbles in mining so that it cannot be conveniently transported, and for the present has to be laid aside. This could be made with great facility into charcoal iron, but the proprietors are largely engaged in making iron in the States, and having their attention fully occupied by their interests at home they value this property chiefly as it gives them a supply of ores for their furnaces there.

They would be glad, however, to see charcoal iron works carried on at the furnaces of the old Marmora Company, and the writer is authorised to say that they would give every facility to any one undertaking it. They would supply this broken ore at about the cost of mining, and would give a long lease of the works at a nominal rent, with conditions of renewal on fair terms; making their profits out of the increased value of their village property at Marmora.

If a small company would take hold of this enterprise and be satisfied to work it upon business principles, there can be no doubt that the favorable conditions under which it could be carried on, would ensure liberal success. The following extract from the article *Iron* in the *New American Cyclopedia*, will give the attentive reader an idea of the elements necessary to the successful working of iron ores, and of their cost at the principal American furnaces. We quote all that the writer says under the heading "Cost of Manufacture:"

"The legitimate items which make up the cost of producing pig iron are few, and may be valued with tolerable correctness, but beside these are contingencies such as result from accident and bad management, that cannot be reckoned in any estimate, and frequently swell the expenses per ton beyond all calculation. Without further reference to these, the cost may be considered as made up of ore, fuel, flux, labor at the furnace, interest on capital, repairs and superintendence. Ore, fuel and labor are the chief items. The cost of the first two, depending in great part on transportation, varies widely according to the locality and convenience of supply. That of the remaining items is more particularly affected by the magnitude of the establishment, diminishing per ton of iron produced as this increases. Each iron-making district possesses its peculiar advantages, one having ore of excellent quality and cheap,

another fuel, another producing iron of superior quality, which, by its high value, admits of the use of expensive materials; and if another is found possessing all the requisites for the production of the best iron at little cost, its distance from the great market commonly counterbalances these advantages. Some estimate may be given of the approximate cost of manufacture in a few of the principal districts of the United States. The furnaces on the Hudson River use $\frac{2}{3}$ to $\frac{3}{4}$ hematites from Columbia, and Duchess Cos., N. Y., and the neighboring counties in Massachusetts and Connecticut, and $\frac{1}{3}$ to $\frac{1}{4}$ magnetic ores from Lake Champlain and from the highlands below West Point, the mines not less than five miles back from the river. The Champlain ores cost, delivered, from $3.50 to $4.50 per ton; those of the highland about $2.50; the hematites from mines owned by the furnace about $2.25, and from this to $3. The average for the hematites may be considered $2.50 per ton, and for the magnetic ores $3.50. Of the former about two tons, and of the latter one ton, are required to the ton of iron. The cost of ores is then $6.75; anthracite two tons at $4.50, $9; flux 35 cents; labor and superintendence, as sometimes done by contract, $4; total $20.10. Repairs and interest on capital may be considered as making the actual cost full $21. In the great iron district of the Lehigh, the ores are supplied from such various sources that the average of their cost is not easy to determine. The magnetic ores are brought to the furnace from New Jersey, and the hematites from the mines scattered about the valley between the Blue mountains and the South mountain in Lehigh and Berks counties. The magnetic ores are generally valued at about $3.50 per ton, and for the hematites as much as $2 per ton is sometimes paid for transportation, and $1 more for mining, besides 25 or 50 cents for the value of the ore in the mine. The average cost of the mixed ores is probably about $3 per ton, and $2\frac{1}{2}$ tons are required to the ton of iron. The cost per ton of pig iron is then as follows: ores $7.50; anthracite, two tons at $3, $6; other items as above, $4.35; total $17.85; making the whole cost not far from $19. The greater convenience of the Hudson River furnaces to the great markets of New York, Troy and Albany, and the better quality of their iron, fully compensate for the higher cost of production. The furnaces making iron with charcoal for fuel on Chesapeake Bay, near Baltimore, run at an average expense not varying materially from the following estimate: ore $2\frac{1}{2}$ tons at $3.62\frac{1}{2}$, $9.06; fuel $3\frac{1}{2}$ cords at $2.50, $8.75; flux oyster shells 30 cents; labor (including $1.50 for charring) $2.75; other expenses $2; total $22.86. Nothing but the excellent quality of the iron sustains these furnaces, and enables their product to find a market in the rolling mills and nail factories of Massachusetts."

The foregoing are prices before the war.

From the foregoing it will be observed that the cost of fuel and ores to the ton of pig iron, at the three furnaces named, is respectively $15.75, $13.50, and $19.31; now it may be safely assumed that at Marmora the cost of labor, &c., will be no more than at the places named. And the only other element is the cost of ore and fuel at the furnace; the ore will not cost over $1, delivered; wood can be got for a long time yet at $1.25 per cord, the account then will stand thus:

2½ tons ore at $1.00	$2.50
3½ cords wood at $1.25	4.37½
Charring $1.50	1.50
Cost of fuel and ore for a ton of pig iron	$8.37½

Any one who has not given this subject some attention, will be surprised to learn that *four-ninths* of all the iron made in the States is smelted by charcoal, but such is the fact.

The article above quoted from gives, as the total production of pig iron for the year 1856—the last year to which it brings down its tables—812,917 tons; of this 394,509 tons was made with anthracite coal, 44,481 tons with coke, 25,073 tons with bituminous coal, and 348,854 tons with charcoal; the price at Philadelphia of pig iron made by anthracite coal, was, in the above year, $25 per ton, making the value of the whole production of the year $9,862,725. The price of pig iron made by charcoal at the same time in the same market was $30 per ton, making the value of the whole production of the year $10,465,620. In 1858, the average price in Philadelphia for anthracite pig iron was $20, and for charcoal pig iron $24, being the same relative price of twenty per cent. in favor of charcoal. The famous iron of Norway and Sweden is made from precisely such ores as ours by charcoal, and that too of a very inferior quality. They have little else there than pine; and a large part of their charcoal is made from the slabs of the pine saw-logs, and in some places in Norway they float their timber for making charcoal down the rivers, as we do saw-logs in this country, for a distance of fifty English miles, and yet they make iron at a great profit: the iron masters of those countries are the wealthiest people there.

Iron is also found in Madoc, Elziver and other Townships of the County, and once a prosperous business was begun at Marmora, furnaces would spring up at these points.

But perhaps that which has called the most general attention to this County is the discovery of

GOLD.

In the edition of this work published in 1864, the following words occur: "It is the opinion of many that the more precious "metals will be found in our back townships; indeed, GOLD was "found last summer in appreciable quantity in a quartz vein in "the neighboring township of Belmont."

But neither the writer nor any one else at that time dreamed that within two years, such marvellous deposits of GOLD would be found as were discovered in the now historical RICHARDSON MINE in the autumn of 1866. Still less did it enter into any one's thoughts that, next to not finding it at all, the worst thing that could happen to the mining interests of the district was the finding gold so concentrated, yielding so richly.

Two or three men following down what they supposed were favorable indications for copper, came upon seams in the rock so rich in gold that it seemed like the realization of a fairy tale; further exploration shewed that the rock itself was heavily charged with gold, both visible and too fine to be detected even by a powerful glass.

By a series of unfortunate complications which need not be detailed here, the property became almost at once entangled in the meshes of a couple of Chancery suits, and the mine was closed by an injunction.

In the meantime the fame of the discovery had spread over Canada and the neighboring States, and the country was literally flooded with gold-seekers. Belleville, which is the "Golden Gate" to this new *Eldorado*, had all its hotels crowded with strangers, and the modest two-horse stage which had theretofore supplied the travelling needs of the Madoc country was supplanted by six or eight four-horse coaches which went out every day loaded inside and outside with eager fortune hunters.

This "rush" continued till long after the snow made prospecting impossible, and still men came, many of them looking as though they had staked their "bottom dollar" on the venture, only to go away disappointed and soured with the country, when they should have blamed their own want of thought.

This rush and the disappointment which followed, was the first bad result of the finding gold so richly, but a worse evil followed, one which led directly and indirectly to nearly all the disasters which have overtaken the gold mining interests of the district, and from which it is only now beginning to recover.

The summer of 1867 brought about a settlement of the Richardson gold mining suit, and immediately a company with a nominal capital of $300,000, was formed upon one-third of the property, and another company with a nominal capital of $600,000 upon another third; thus representing two-thirds of a property which had cost in the whole $35,000 by nearly a million!

Had gold been found in ordinary quantities, no sane men would have thought of paying dividends upon amounts so astoundingly in advance of the original cost, but it seemed as though no capital could be thought of large enough to represent the value of this new Gold mine.

The proprietors, like all the rest of the community, as ignorant of gold mining as a blind man of colors, fancied because they had found a crevice full of gold, and saw the yellow metal studding the rock here and there, that all that was needed was to throw the stones into one end of the mill and pick the gold up at the other; acting upon this conviction, they built a handsome stone structure and filled it with expensive machinery, sparing neither time nor money to make it worthy of the great enterprise it was to inaugurate.

The summer of 1867 also decided that surface diggings were not to be expected, and confined prospectors to looking for gold in the rock; and here the original discovery proved disastrous again; the gold at the Richardson mine, occurs under conditions and in rock unlike anything that had been seen carrying gold elsewhere; similar rock is found in numerous places over the country and generally carries ores of iron or copper more or less resembling gold. Every man who found a bed of this rock or anything like

it, at once recognised himself as a millionaire, and rushed off to an assayer to confirm his good fortune. It is a law of political economy, that every demand creates a supply, and so there were not wanting assayers to report favorably upon nearly every application ; according to some of these gentlemen the whole north country was gold ; instead of finding it here and there and in particular kinds of rock as in Australia or California, it was as one enthusiastic " Doctor" declared " *unanimous.*"

Of course no respectable assayer would lend himself to these frauds, but as it was an entirely new branch of business in this part of the country, people had to depend almost altogether on the examinations of strangers who came in with great professions of skill and science, men whose science was probably on a par with their honesty ; and whose whole stock in trade consisted in a knowledge of the fact that the more favorable reports they made the more customers they would get. There were no doubt honest men amongst these assayers, and it is due to an honorable and scientific man to mention one of this class. Mr. J. T. Bell, an old resident of Belleville, had long been a diligent student of the natural sciences, and on the discovery of gold in Madoc placed his knowledge and character at the command of the public, as an assayer, and they have been of vast service to parties " seeking truth under difficulties," painstaking and skillful he has found gold where it existed ; and the very mirror of honesty, he has been the terror of the swindlers.

So far the assayers ; but another class of gentry precipitated themselves upon the new gold country, like crows upon the freshest carrion ; these were the *practical miner* men, who with a sublime contempt for science professed unbounded faith in themselves because they had worked in gold mines, but usually according to their own account of themselves as overseers or agents ; they were quite as enthusiastic as the assayers on the "unanimous" distribution of the gold, and came out particularly strong, as we shall presently see, when the test mills got into operation.

Late in the fall of 1867, two small crushers, intended as custom mills, to test the mines by actual working, went into operation ; it must be borne in mind that at that time nearly every place where any mining had been done, was in the hands of companies, which

in nearly every instance had as managing man, or actively engaged in its operations, and largely interested in the stock, one or more of these excellent practical men who had learned the whole art and mystery of developing gold mines, in far away countries, while their verdant confreres were following the plough or attending to their shops or offices at home.

Well, the custom mills worked like a charm, the assayers pointed to the returns in triumphant vindication of their certificates, and the practical men declared that it was just as they had said, such another mining country did not exist under the sun.

As might be expected several companies "went in" for mills on the strength of the returns from the assayers and custom mills, for what better test could any man want than the results of actual mill-work ?

For a time all was bustle, excitement and expectation.

Meanwhile the Richardson mill after vexatious delays, got into operation in January, 1868, the returns were about $15 to the ton. A very handsome thing in other gold countries, but absurdly small for a mine that was to surpass all the world.

So they shut down, and at great expense of money and time made a complete change in their amalgamating machinery; they got to work again in time, but found that the new machinery would not produce more than the old; the Directors had advanced largely out of their private means for current expenses; the enormous cost of putting up the mill and making changes had accumulated a large debt.

The Directors refused to advance further unless the stockholders came to their assistance, the latter were bewildered and savage, the result was the mill was closed, and whether it should ever open again was left to the chapter of accidents.

About the middle of last summer, several mills got into operation, and as the knowing ones had begun to predict, were nearly all failures; some were designed and put up by men, who really knew nothing of the business; and others were built upon veins that had turned out charmingly in the hands of the assayers, and at the custom mills, but had never shewn any gold afterwards.

Honest people who had put their time and money into these enterprises began to get their eyes open, bits of information began

to leak out, the early history of other gold countries began to be enquired into, and it was soon established that skillful *practical* operators had been "SALTING" assays and crushings all winter and spring; the utmost confusion and want of confidence prevailed on every hand; for a time no one could tell whether he had "a genuine think" or whether they were not all bogus together; many who had believed a few months before that the whole country was bottomed with gold, now sprang to the conclusion that the whole thing was a swindle, or at best a failure.

As usual, the truth lay between extremes; there were many bogus mines; if they had all been genuine, the Township of Madoc alone would have produced more gold than all California,—but at the same time there were several genuine ones; the Richardson Company after a suspension of some months, at the suggestion of the present manager made a few inexpensive alterations in their amalgamating process, and began running quietly and prudently; the result has been very encouraging, and uniformly so, and this mine may now be put down as a success; the errors of the past, such as have marked the beginning in every quartz mining country, have taught valuable, if dear bought, lessons,—and they will be profited by.

Meanwhile thorough and honest prospecting has been going on in various parts of Madoc and the neighboring townships; just across the line in Marmora, the township west of Madoc, a vein known as the "Feigle mine," was found shewing fine specimens of free gold about the beginning of 1868, and for some months, a mill has been at work upon it with most satisfactory results; this mine like the Richardson, has shewn the estimation in which it is held by getting into two chancery suits already; which has much delayed its development; but even with this drawback, it has yielded a large sum in gold. At three other points in Marmora, veins have been opened carrying heavy charges of free gold, and giving promises of paying largely in the mill, but want of capital on the part of the owners has prevented them putting up mills.

In Elzevir, the township east of Madoc, two or three veins giving large shows of free gold have been found, and on one of these a crusher to be driven by water is being erected.

A crusher has also been in operation at the "Barry mine," a mine which in the earlier days of the gold excitement was said by scientific men to be one of the most promising in the Hastings gold region, but with what success is not known.

At Bridgewater where gold was found in several excavations near the surface, a crusher was erected by the Hon. Billa Flint, but there was some difficulty with the amalgamating process, and the mill has been closed until the various experiments which are being made in the separating of gold from the ore, are thoroughly tested. There is little doubt from the repeated tests made in this vicinity by reliable men, that gold will yet be obtained from the various mines opened, in paying quantities.

In Hungerford gold has also been said to be found in quantities, which will prove amply remunerative; so well satisfied were the proprietors of the property of this fact that they have erected a crushing mill, which at the time of this writing has not been fairly tested.

A steam crusher is also being put up at Bannockburn, to reduce rock from a vein in Tudor, which the proprietors think highly of, and the best evidence of their confidence is the fact that they are expending large sums upon the mill.

There is no reason to doubt that of the gold bearing veins already discovered, more than half a dozen are good paying ones, and they afford scope enough for the operations of scores of companies.

Reports of the recent discovery of other valuable veins are made on what appears to be trustworthy evidence, including the whole ranges of townships north of the above, but in a work like this, it is best to speak only of those which are well established. There can be no doubt, however, of the existence of other gold bearing veins in the neighborhood, but if no others were ever found, there is enough already shown to justify the investment of a great deal of capital in legitimate mining. The age of speculation which has been the bane of every new gold district has passed; the race of swindlers and salters have nearly all departed to seek for pastures green among some more verdant people, and the few that are left are so well-known as to be harmless. Matters are settling down to steady *work*, holders of mining property are beginning to get

rational ideas of what they should ask for it, and investors instead of "thinking in millions," as they did a year ago, are beginning to ask themselves if they should not be satisfied with handsome returns on the amounts *actually* invested. And there is now every reason to think that by the time the Hastings gold fields have been before the world as long as those of Nova Scotia, they will have been as successful and as far developed; speaking of Nova Scotia which is now regarded as a most valuable gold country, it should be borne in mind that it is only within a year or two that much work has been done, and yet it is some ten years since gold was discovered there, and during all this time they have been going through a series of experiences not unlike our own.

No one will misunderstand anything in the foregoing remarks, as reflecting on the honest practical miners, who have sought "these diggings;" some of them have made valuable discoveries, and all have been useful members of the new community; the class we have referred to, are men who are too lazy to dig, though not always ashamed to beg.

The "winter of our discontent," in mining matters, is passing away, and with the lessons of the past open before us, there is good reason to believe that the future of these enterprises, as well in gold as in other minerals will be successful and prosperous.

In this event, the County of Hastings will present attractions to the capitalist, to the emigrant of moderate means, and to the laborer, unequalled by any county in Canada. The agricultural resources of the southern part of the county are unsurpassed in the Dominion, and the operations of its mines and smelting works at so many points in the rear, will give profitable employment to great numbers of men, who, in turn, will consume everything that the farmers in these neighborhoods will have to sell, turning to account a thousand things, which distance from market renders now nearly valueless; and bringing under cultivation tens of thousands of acres of land which, too rugged to work to advantage while remote from markets, will supply the large resident population employed about mines, with mutual profit to producer and consumer.

The Hastings Road.

By the Act 22nd Vict., cap. 14, 30th June, 1858, the following townships contiguous to the Hastings road, were "attached to the County of Hastings for all purposes whatsoever."

McLure,	Bangor,	Monteagle,
Faraday,	Mayo,	Limerick,
Wicklow,	Herschel,	Carlow,
Dungannon,	Wollaston,	Cashel.

The Hastings road agency also includes the townships of Tudor Lake, and Grinsthorpe previously annexed, and the townships of Lyel, Sabine, Murchison, and Airey, unannexed.

The area of the agency is one million one hundred and eighty-nine thousand one hundred and twenty-nine acres, including water and roads. Of this area five hundred thousand acres are surveyed and divided into farm lots of 100 acres each.

The proportion of the whole which is fit for agricultural purposes, according to the official map published by the Commissioner of Crown Lands in 1863, is about 40 per cent. of the entire area, or four hundred and seventy-six thousand acres, the remaining sixty per cent. being made up of rough, broken, rocky lands which will never be fit for the plough; and of beaver meadows, ash, swales, and cedar swamps, which will eventually be valuable farm lands, when the country becomes thickly settled.

The Hastings free grant road intersects the new townships in a line nearly north and south, having its southern termination on the north boundary of Madoc, one of the old settled townships of the county. From this point it is connected with Madoc village by the new County gravel road, twelve miles, and with Belleville, by the County road from Madoc, twenty-eight miles.

The free grant lots extend for a distance of seventy-eight miles in a direct line from the southern termination of the road, and also for a distance of thirty three miles east, and west on the Peterson road which connects the Hastings with the Opeongo and Bobcaygeon free grant roads. The point of intersection of the Peterson road with the Hastings is 100 miles north of Belleville. Settlement has already extended on the Hastings road to a distance of fourteen miles beyond this point.

The number of acres cleared in 1864 was 5000 acres. Since that period but very little progress has been made in the settlement of the road, though considerable additional land has been cleared by the settlers on the road. It was found that the original location of the Hastings road was defective and it was found necessary to make several deviations from the original road. Of these alterations about thirty miles have been made within the last two years, greatly facilitating communication with the front. We give a brief description of the newer Townships:

CASHEL.—On second tier east of road, thirty miles N. E. from Madoc. Some fine land in southern and central portions. There is a small settlement in S. W. corner, of people from the County of Prince Edward. This township is well situated, but there is no means of access to it as yet.

LIMERICK.—Second township on east side of road; contains some excellent land in southern portion. The free grants are all occupied, though generally of inferior quality as compared with those further north. There are two large lakes in Limerick, well supplied with salmon, trout and other fish.

WOLLASTON.—Second township on west side; same general character as last township. Free grants all occupied, though generally poor; some land being level, with hardwood in the central and south-western portions. Surveyed in 1863. The surveyor's report on the lands in the central and southern parts of Wollaston, is very favorable, and settlers are going in pretty rapidly. There is a spendid water power at the foot of Eagle Lake in this township.

DUNGANNON AND FARADAY.—First range of townships north of the height of land; generally hilly, with large masses of crystalline limestone on the surface in some places. There are in these townships some very fine uplands of deep sandy loam, free from surface stone, and heavily timbered with hardwood and mixed pine and hemlock. There is a thriving settlement along the road here. Grist and saw mills are in operation at Lamb's Lake; there is also a general store and a post-office at York River on the Hastings road.

MONTEAGLE, HERSCHEL, WICKLOW, MCLURE, AND BANGOR. —These townships form probably the best *large block* of good land remaining in the hands of the Crown in Canada West. They are rather too far from the front for recent immigrants, without greatly improved roads, but they will undoubtedly sustain a large population before many years. There is a thriving settlement along the road in Monteagle and Herschel. Good saw and grist mills are in operation close to the intersection of the Peterson and Hastings roads in Wicklow. In Bangor also, along the Peterson road, there is a very prosperous thriving settlement. The township of Herschel contains an area of 58,405 acres, partially surveyed in 1857 and 1865. Two thirds of the land is well adapted for agricultural purposes.

FLORA OF HASTINGS.

We are indebted to Mr. John Macoun, teacher of School No. 1, Belleville, for the following interesting paper on the "Flora of Hastings."

In the Directory of the County of Hastings, for the years '64 and '65, I called the attention of farmers to the fact that in the County of Hastings alone, we had over one-third of all the plants of the United States, East of the Mississippi; in this I shall compare our flora with that of the great State of Ohio, a state famous for its dairies, its wheat crops and its vineyards and boasting itself as being the greatest state of the Great West. To those who are unaware of the importance of a diversified flora, I might state that wherever there is a uniformity of species over any particular district, that tract is always unfitted for a diversity of crops without *careful treatment* by the farmer.

Any person of average intelligence, on looking over the following table, will be struck with the great number of plants indigenous to the County of Hastings as compared with those of the State of Ohio.

	No. of Orders.		No. of Genera.		No. of Species.	
	Observed in Ohio.	Detected in Hastings.	Observed in Ohio.	Detected in Hastings.	Observed in Ohio.	Detected in Hastings.
Dicotyledons.....	98	84	418	276	975	601
Monocotyledons..	20	17	123	95	354	295
Acrogens.....	4	4	19	19	53	49
	122	105	560	410	1382	945

If Hastings with an area of about 1200 square miles produces almost two-thirds of the plants of Ohio, which contains an area of 39,960 square miles, is it any wonder that our farmers can raise abundance of everything raised by the farmers of any part of the Union. It is time that we should wake up to the fact that we possess a soil better fitted for agricultural purposes than any other County in Canada or any of the same area in the neighbouring States.

During the last few years a number of Cheese Factories have sprung up in the southern townships of the county, and have been very successful in competing with the whole Province at the late Provincial Fair. Now does this success arise from natural or artificial causes? I answer from the former. A late writer on the flora of Ohio says of its northern and eastern parts: "This region was originally covered with a dense forest of beech, maple, tulip, elm, ash, hickory and basswood, and is agriculturally especially adapted to grazing. This *fact*, and *no* preference of its inhabitants, has made the Western Reserve the dairy of the West." The front townships of our county are or were covered by a growth of timber almost similar. We have beech, maple, elm, ash and basswood as the leading forest growth, on those very localities where Factories have been established.

The Americans are finding out that Canada produces better grain than they do. Nearly all writers say it is on account of climate; but I am satisfied it is on account of soil. Again, Canada is becoming famous for the fineness of its fruit, which is also set down to climate, yet a few years since we were told that our climate was too severe to grow them.

That it is our soil which is the cause of our success in grain growing and fruit raising must be evident to every unprejudiced person who has thought ever so little on the subject. The New England States have a climate much like our own, but their products are as nothing compared with ours. Now all persons that know anything of botany are well aware that a soil which produces but few species of trees or herbaceous plants in a state of nature is not a soil fitted to give large returns to the husbandman; whereas a soil that is prolific in species and genera always produces abundant crops of all kinds. That our county is well adapted to Grape Culture, will very soon be apparent to all who take an interest in the advancement of the county. At a late meeting of the Vine Grower's Association of Ohio, it was stated that wherever a species of grass, known to botanists by the name of *Poa compressa*, abounded, there Grape Culture would be successful. Now, I have observed this grass in many parts of the county, but particularly in the vicinity of Belleville, and hence I infer that the day

is not far distant when the Bay of Quinté will be as famous for its apples, pears and wine, as it is at present for its wheat, barley and cheese.

OUR PEAT BOGS.

Another production of our county, which deserves particular attention at this time is our immense stores of peat, a production which from present appearances will very soon rival both wood and coal as an article of fuel.

There is not a township in the county which has not its peat beds, though it is in North Hastings where they have their greatest development.

Almost every Tamarack swamp is a peat bog; all our beaver meadows, are more or less composed of peat, every cranberry marsh is a real peat bog, while almost every lakelet or pond in the whole county, is surrounded by marsh or bog from two to thirty feet deep; even the marsh below Belleville, on the opposite side of the bay, is an immense peat bed.

The "open tamarack swamps" and cranberry marshes of our county, have the same vegetation, and general aspect of peat bogs throughout North America, and any farmer who has one on his farm, can tell by actual examination how much peat he possesses without going to the expense of sinking a *shaft*.

OUR FOREST TREES.

The productions of our forests, at present, are the most valuable of our natural products. At the head of these stands the white pine (Pinus Strobus), a tree which stands unequalled in North America, for its many uses. It has been and will be for many years, a source of great wealth to the County. Next in value is the sugar maple (Acer-Saccharinum), whether we prize it as an article of fuel, for its sugar, or for its use in the arts. Were the wood of this tree properly brought before the manufacturers of Europe, it would be largely exported for veneering purposes.

The red pine (Pinus resinosa), white spruce (Abies alba) and tamarack (Larix Americana), are abundant in many parts of the County. The former, however, being confined almost exclusively to the rear townships of the North Riding. All three are of great value to the shipbuilders for various purposes.

Another of our forest monarchs—the hemlock (Abies Canadensis) is of great value in the arts, on account of its tanning properties. By a new process this tannin, it is said, can be concentrated and exported in small bulk. If this should be so, it will be a greater source of wealth to our back townships than the manufacture of potash. The extraction of this tannin would be a surer road to fortune than a large investment in our best gold mine.

The white cedar (Thuja Occidentalis) is rapidly assuming an important place amongst our articles of export; for over two years the Moira has been filled at certain seasons with immense quantities which are exported to the neighbouring States.

My limits will not allow of a more extended notice of our remaining forest trees than merely a passing glance at the most prominent. There is not one, however, that is not of use in the arts for some purpose or other.

The balsam and black spruce are abundant at the north. and in some instances, attain a large size. "They are much used when young, as rafters for barns and houses. Both species are highly ornamental, delighting the eye of the most careless, and giving a charm to the most uninviting prospect." The "gum" of the former is much used by lumbermen, both as an outward application and internal remedy. In fact, it is the "medicine chest" of the backwoodsman.

Red cedar is found in a few localities along the Moira and Bay of Quinté. Its wood is manufactured into bedsteads, which are said to be a terror to bed-bugs. Its wood seems to be indestructible, as whether buried in the ground or exposed to the atmosphere it shows scarcely any symptoms of decay.

We have, at least, six species of oak, all of which are useful, especially the white and blue, which are cut by the lumbermen for export as squared timber, while the others cut into lengths and manufactured into staves, are a source of income to those who are unable, through want of means, to engage in the manufacture of squared timber.

Of elms we have three species, and perhaps one or two varieties. Two of these, the rock and swamp or white elm, are exported in large quantities, while the ashes of all three are counted the best for making potash. The bark of the slippery elm is much used by medical men, as it contains a mucilage, which seems to act beneficially in many complaints.

Three species of ash are scattered over the County; the white ash on our uplands, the red or rim ash along our rivers and streams, while the black ash forms extensive swamps in many localities. All three are of great use in the manufacture of carriages, sleighs and almost all our agricultural implements.

We have three birches—the yellow, the black and the white or canoe birch. The two former are much used in cabinet work, while the latter is almost invaluable to the Indian on account of its bark, of which he makes his canoe.

Of our remaining trees, the principal are the beech, the basswood, the hickory, the bitter-nut, the butter-nut, the balm of Gilead, the black cherry and the red or soft maple, all of which are

used more or less for useful or ornamental purposes. In all we have forty species of forest trees, nearly all of which are used by our own mechanics for the manufacture of every article used by the farmer—for all our conveyances—for nearly all our household furniture—in the building of our steamboats and sailing vessels and in the erection of our houses.

Having all the necessaries of life, and many of its luxuries, at their doors, let the farmers of Hastings be well satisfied, by actual observation and comparison, that the much lauded West is superior to their own highly-favoured land, before leaving for a region that has to depend on other lands for every article of luxury or utility, and whose soil, though wonderfully adapted to the raising of Indian corn, can never compete with the forest lands of the north in growing those cereals which truly constitute the staff of life.

WHAT WE MAY EXPECT.

After reviewing briefly the capabilities, resources and prosperity of the County of Hastings, we naturally look to the future, and ask ourselves what may we expect when the rich and inexhaustible resources of this County are developed? The present prosperity of the County is exceedingly gratifying to the pioneers who hewed out for themselves a home and fortune in the backwoods; it is gratifying to the men of energy and enterprise, who have contributed to make it what it is, but after all it has only commenced its career of greatness. In the front and middle Townships there are as rich farming lands as can be found in Canada. The County is rich in minerals, which will abundantly repay the expenditure of a large amount of capital, skill and enterprise; and for manufacturing purposes, we have facilities in the three great streams which traverse the County, unsurpassed in this country. With these natural advantages, add a railway to the mineral regions of the north; give us a canal to connect Lake Ontario with the Bay of Quinté, and we may expect to become the most important County in the Dominion.

COUNTY INFORMATION.

SENATE.

Hon. BILLA FLINT, Belleville, P. O.

HOUSE OF COMMONS.

Hon. ROBERT READ, East Riding, Sidney, Belleville, P. O.
MACKENZIE BOWELL, North Riding, Belleville, P. O.
JAMES BROWN, West Riding, Belleville, P. O.

LEGISLATURE OF ONTARIO.

HENRY CORBY, East Riding, Belleville, P. O.
Dr. G. H. BOULTER, North Riding, Stirling, P. O.
KETCHEN GRAHAM, West Riding, Sidney, Belleville, P. O.

COUNTY COUNCIL,—1868.

A. F. WOOD, Madoc, Warden.

ELZEVIR.—Hon. Billa Flint, Reeve.

HUNGERFORD.—Felix Gabourie, Reeve; George Stokes, Deputy Reeve.

HUNTINGDON.—Thomas Emo, Reeve; James Finlay, Deputy Reeve.

MADOC.—A. F. WOOD, Reeve; Thos. Cross, Deputy Reeve.

MARMORA.—Hugh Jones, Reeve.

RAWDON.—George Conly, Reeve; Thomas Walker, Deputy Reeve.

SIDNEY.—Baltis Rose, Reeve; John Rowe and Clement Armstrong, Deputy Reeves.

STIRLING.—Peter Chard, Reeve.

THURLOW.—James J. Farley, Reeve; P. R. Daly and Philip Clapp, Deputy Reeves.

TRENTON.—James Cummings, Reeve.

AGRICULTURAL SOCIETIES.

Under the new Statute, the County is divided into three Agricultural Divisions, named respectively North, East and West.

The North Riding is composed of the Townships of Huntingdon, Rawdon, Madoc, Marmora, Elzevir, Tudor and Lake, and the village of Stirling, and any other surveyed Township lying to the north of the said North Riding.

The West Riding consists of the Town of Belleville, the Township of Sidney and the village of Trenton.

The East Riding consists of the Townships of Thurlow, Tyendinaga and Hungerford.

The annual meeting for the election of officers takes place on the third Saturday of January.

INSPECTORS OF WEIGHTS AND MEASURES.

Robert Francis of Trenton, Inspector for South Hastings.
Robert T. Ferguson of Madoc, Inspector for North Hastings.

MASONIC.

This district is composed of the Counties of Hastings, Prince Edward, Lennox, Addington and Renfrew.

Belleville Lodge, Belleville.—Donald Bain, W.M.; John Paul, S.W.; A. Webster, J.W.; J. Parker Thomas, Secretary. Meets the first Thursday in each month.

Moira Lodge, Belleville.—A. Diamond, W.M.; P. D. Conger, S.W.; Smith Stephens, J.W.; Jas. Peard, Secretary. Meets on Wednesday of each month or on preceding Full Moon.

Trent Lodge, Trenton.—Dr. H. W. Day, W.M.; David Roblin, Secretary. Meets on Tuesday in each month before Full Moon.

The Clerk shall make returns quarterly of all fees.

Licenses terminate on the 21st December, of each year.

Bonds renewable yearly.

Upon demand of any Township Councillor, or any Constable, pedlars must show their license; otherwise their goods may be seized, and recusant examined before the nearest magistrate.

If a pedlar produce his certificate, but has not taken out a license, magistrate may inflict a fine of not less than one dollar, nor more than twenty dollars if no certificate is produced; or if it appears that he never had one, the maximum fine shall be inflicted.

PAYMENT OF COUNCILLORS.

BY-LAW NO. 73.

This By-law is superseded by Resolution, which provides that each Councillor shall receive one dollar and fifty cents per day for attendance at Council meetings, and travelling expenses.

SALARIES OF OFFICERS.

BY-LAW NO. 92.

Enacts that the salary of the County Treasurer be £200 a year; County Clerk, £100. The County Surveyor receives $600 per annum by Resolution.

PURCHASING ROADS AND MAKING THEM FREE.

BY-LAW NO. 123.

Enacts that the Roads built by the Corporation of the County of Hastings, under the provisions of By-law No. 71, be Free Roads.

Empowers the Warden to purchase from the Joint Stock Road Companies, owning Roads within the limits of the County of Hastings, and abutting or joining the roads constructed by the County, at a price not to exceed $60,000, and to issue Debentures in payment therefor, at a period not to exceed twenty years.

To meet the debt and the interest, a special rate of one-eighth of a cent on the dollar, is authorized to be levied.

By-law to come into force on the 16th day of September, 1860.

BY-LAW NO. 126.

Passed 29th June, 1860, authorizes the purchase of the following Roads:—

The Road called "Caniffs' Mills Road," leading from Belleville to the Bridge crossing the Moira at Canifton, at $4,000.

The Road known as "The Farmer's Union Road Company's Road," at $14,000.

The Road known as the "Forest Road Company's Road," at $2,000.

And empowers the Warden and Treasurer to issue Debentures to the amount of $20,000, payable 29th December, 1864.

To meet the payment of these Debentures, a special rate of one-tenth of a cent is authorized to be levied.

BOARDS OF PUBLIC INSTRUCTION.

BY-LAW NO. 124.

Provides that the North Hastings Circuit Board shall consist of the Village of Stirling, the Townships of Rawdon, Marmora, Madoc, Tudor, Elzevir, Hungerford and Huntingdon.

BY-LAW NO. 139.

Enacts that the Belleville Circuit Board shall be composed of the Town of Belleville, the Townships of Thurlow, Tyendinaga, Sidney and all villages within said limits.

AUCTIONEERS' LICENSES.

BY-LAW NO. 127.

Enacts that the license of an Auctioneer shall be $25, which license shall be for one year from the date of issue, and empowering the Treasurer to issue said license.

Penalty for Auctioneers selling without license, not less than forty shillings, nor more than £10, for each offence; in default, imprisonment, not less than five, nor more than twenty days.

BY-LAW NO. 193.

Passed 27th October, 1864, authorizes the County Treasurer to grant Licenses for any of the minor Municipalities within the County, at the following rates:—For one year, $10; for half a year, $6; for quarter of a year, $4.

DUTIES OF COUNTY SURVEYOR.

BY-LAW NO. 215.

Passed Feb. 21st, 1867, repeals other By-laws relating to this subject and defines the duties of County Surveyor as follows:

County Surveyor at the first meeting of the Council in every January, to furnish detailed statement with plans, specifications and estimates, of the cost of all work in progress, and also of all work he considers necessary to be done during the year, with like plans, &c.

To report at each subsequent meeting in writing, the condition of work done, and whether, when completed, the original estimate will be exceeded.

No contract to be entered into until estimate and plans of the work to be done have been approved of by the Council or Warden, except when the sum to be expended shall be less than one hundred dollars.

No contract to be entered into until tenders have been advertised for in two public newspapers, and by posting handbills in the most public places in the vicinity where said work may have to be done. Tenders to be opened by the Council in session who shall decide which shall be accepted.

The Surveyor to report to the Council at every regular meeting the true condition of all the County Roads, repairs necessary, and also to report the condition of all the County property.

WEIGHTS AND MEASURES.

BY-LAW NO. 161.

Provides for the appointment of two Inspectors of Weights and Measures, one for the South Riding (not including Belleville) who shall be the senior Inspector; and one for the North Riding

---

GRAMMAR SCHOOLS.

BY-LAW NO. 168.

Provides for the appointment of eight Trustees for each Grammar school in the County.

LOCAL SUPERINTENDENTS OF EDUCATION

BY-LAW NO. 169.

Divides the County into two divisions, consisting of South and North Hastings respectively; one local superintendent for each division.

COUNTY ROADS AND BRIDGES.

BY-LAW NO. 156.

Establishes the following roads and bridges as County roads and bridges :—

1st. The road leading from Madoc village, between the fifth and sixth concessions of Madoc, to the Hastings road in Tudor.

2nd. The road leading from the village of Stirling to the side line between lots Nos. 18 and 19, in the third concession of the township of Rawdon, thence north to the eighth concession of said township, thence west along the eighth concession road to the town line of Seymour.

3rd. The road leading from Caton's school-house in the township of Hungerford, to Stoco village, and from thence to Bogart's mills in the said township, which may be better known as the road now travelled.

4th. The road between lots Nos. 5 and 6 in the township of Tyendinaga, assumed in lieu of the town line road between Thurlow and Tyendinaga.

5th. The road from the village of Roslin to Shipman's mills.

6th. The road leading from the village of Tweed to the village of Bridgewater, and thence on the road known as the Flinton road to the town line between Elzevir and Kaladar.

7th. The road leading from Shipman's Mills, by the way of Waterhouse's Corner, along the second concession of the township of Hungerford to the town line between Camden and Hungerford, and to be assumed instead of the town line between Tyendinaga and Hungerford.

8th. The road leading from Marmora village to the Belmont line, and known as the Norwood road.

9th. The road leading from the village of Lonsdale to the Tyendinaga station of the Grand Trunk Railway, commencing

One or nine foremen to be appointed who shall be under the control of the Committee.

County Surveyor to obey all instructions of the Committee.

County Treasurer to pay requisitions of the foremen when countersigned by the chairman, and accompanied by detailed statement.

Committee empowered to make contracts for keeping roads in repair as designated by the Council, said contracts to be given out by tender.

Committee to report at every regular meeting of the Council, accompanied with pay lists.

Committee to meet at such times as may be appointed. Chairman to be allowed the same rate per diem as a Councillor for any further service required by the Committee.

PRESERVATION OF PUBLIC MORALS.

Under the provisions and by the authority of Chapter 54, of the Consolidated Statutes of Upper Canada, section 282, the Corporation of the County of Hastings enacts as follows:

1st. That it shall not be lawful for any person to sell or give intoxicating drinks of any kind to any child, apprentice, or servant under the age of 16 years, idiot, or insane person, without the consent of the parent, master, legal protector, or physician of such person or child.

2nd. That it shall not be lawful for any person to post or circulate any indecent placard, writing or pictures, or write any indecent words, or make any indecent pictures or drawings on any wall or fence, or any other place whatever, or circulate the same within the limits of the County.

3rd. That it shall not be lawful for any person to utter or employ any profane oath, or any obscene, indecent, blasphemous or grossly insulting language, in any of the streets, public places or highways in the said County.

4th. That it shall not be lawful for any person or persons to throw any dirt, filth, carcase of animals or rubbish on any street, road, lane or highway.

5th. That it shall not be lawful for any person indecently to expose his or her person, or to be guilty of any indecent, immoral or scandalous behavior, in any street, highway, or public place within the County.

6th. That it shall not be lawful for any person to bathe, or indecently expose his or her person by bathing or washing in any waters within the County, lying or running near any public place or highway, between the hours of six o'clock in the morning and nine o'clock in the evening, unless provided with, and in a proper bathing dress, sufficient to prevent any indecent exposure of the person.

7th. Be it further enacted by the authority aforesaid, That any person or persons guilty of a violation of any of the provisions of this By-law, shall upon conviction thereof before any Justice of the Peace, having jurisdiction in the County, be liable to a fine of not more than twenty dollars nor less than one dollar, besides costs, to be levied and collected by distress and sale of the goods and chattels of the offender or offenders; and in case no goods and chattels are found belonging to such offender or offenders as aforesaid, it shall be lawful for any such Justice of the Peace to commit the offender or offenders to the Common Gaol, or any Lock-up House within the County, for a period of not more than thirty days nor less than one day, with or without hard labor, as the Justice shall determine.

8th. Be it further enacted by the authority aforesaid, That all fines and penalties imposed and collected under this By-law, shall belong to the township or incorporated village, in which the offence was committed.

9th. That all vagrants going at large in the County shall be subject to the penalties of this By-law.

TO PRESERVE PEACE AND GOOD ORDER AT RAILWAY STATIONS AND WHARVES.

BY-LAW NO. 148.

Whereas it is necessary for the protection of the public, that some provisions should be made for the preservation of the peace and good order at the Railway Stations and Public Wharves in the County of Hastings, and to prevent the use of profane swearing, obscene, blasphemous, or grossly insulting language at such places.

Be it therefore enacted by the Corporation of the County of Hastings, and it is hereby enacted by the same, that no cabman, hotel runner, porter, or other person or persons soliciting passengers for any hotel, cab, or omnibus, shall go upon any wharf, railway platform, station or other place where passengers are received

from, or where they pass to, any railway train, steamboat, or public conveyance by railway or by water, without the consent of the agent or person in charge, for the time being, of such platform, station, or wharf.

2nd. That no profane swearing, blasphemous, obscene, or grossly insulting language, shall be used by any person at any of the said places mentioned in the next preceding section.

3rd. That any person who shall violate the foregoing provisions of this By-law, or any of them, may, by summons upon the information of any person upon oath, be brought before any Justice of the Peace for this County, and, upon conviction, he or they shall forfeit or pay for every offence, any sum not less than two dollars, nor more than five dollars, together with all costs, to be levied against his or her goods and chattels, and in default of goods and chattels, to be imprisoned in the Common Gaol of the County for any period not exceeding ten days.

GENERAL INFORMATION.

THE ROYAL FAMILY.

HER MOST EXCELLENT MAJESTY (ALEXANDRINA) VICTORIA.—By the Grace of God, of the United Kingdom of Great Britain and Ireland Queen, Defender of the Faith. Together	$10,234,290
Present Annual Income	$800,000

M. BOWELL, Agent for BELLEVILLE.

Life Bonus already Declared.

AT THE LAST DIVISION OF PROFITS IN 1863, OWING TO

(a) *the very careful Selection of lives;*

(b) *the much smaller Mortality experienced than that provided for by the Company's tables;*

(c) *the stringent limitation by the Deed of Settlement of the Expenses chargeable to the Life Fund;*

(d) *and the Funds having been so advantageously invested, as to yield a much higher rate of Interest than that assumed in the Company's calculations;*

The Queen Insurance Company has been enabled to allot to those insured on the participating scale, a reversionary Bonus averaging **46** per cent. of the premiums paid, and which in many cases reached as high as **65–70** and even **75** per cent.

The Bonuses may be applied at the option of the Assured, either

(a) *to increase the amount Assured;*

(b) *as a payment in actual cash;*

(c) *to the reduction of further payments of premiums, and the eventual extinguishment of the same;*

(d) *or taken in the shape of a separate free Bonus Policy, without any condition whatever, absolutely payable at the death of the Assured, irrespective of the fate of the original Policy.*

This latter feature is believed to be peculiar to this Company.

Valuation of Life Liabilities.

The liabilities are valued on the most approved principles, and such as are admitted by the most prudent and experienced Actuaries, to be the *only sound mode of valuing the engagements of a Life Office.* Other modes would show a much larger *apparent present profit,* but the experience of the past shows *undeniably,* that an Office *desiring to meet its engagements,* must neither assume too high a rate of Interest nor anticipate future profits, *which may or may not be realized.*

Management of the Company.

Intending Assurers should ascertain that the business of the Company in which they propose to Assure is properly and carefully managed, and that due provision is made for an efficient Audit of its Accounts. The Accounts of this Company are regularly Audited, for the satisfaction of both Shareholders and Policy-holders, by PROFESSIONAL ACCOUNTANTS of the highest standing in London and

Liverpool. In addition to this, each of the Directors throughout the world is required to hold a large stake in the Capital of the Company; this secures *effectually* the most diligent watchfulness on their part in the Management of its affairs.

Progress of the Company.

It is also important to Intending Assurers to ascertain that the Company is making sufficiently rapid progress. The progress of this Company has far exceeded that of almost *any other Office whose figures are published* at the same period of its career. The following figures exhibit the growth of the new Life business :—

In the year 1862, **133** New Policies were issued, insuring **£88,050.**
" 1865, **529** " " " **304,777.**

Advantages offered by the Company.

Among other benefits conferred upon Queen Life policy-holders are the following :—

(a) *If an Insurer desires to discontinue his policy, he may, after two years, at any time have a surrender value (never less than* **35** *per cent. of the premiums paid),*

Or, at certain ages, obtain a free paid-up *policy for the* total amount *of the premiums paid, together with any bonus which may have been added.*

(b) *Premiums may be paid yearly, half-yearly, or quarterly; and under a special table, a very low premium for the first five years may be paid, without leaving a debt on the policy; or only one-half of the premiums may be paid for the first few years, the unpaid half premium remaining as a debt at 5 per cent. interest, extinguishable at pleasure; or a higher premium may be paid for a term of years, and then payments cease altogether, the policy still being in full force, and participating in its proper share of profits.*

(c) *The policies contain no unnecessary restrictions as to Foreign residence and travelling.*

(d) *They are unchallengeable except when actual fraud is proved.*

(e) *Policies may be made payable during lifetime at specified ages, or earlier in event of death.*

(f) *One-third of the premiums of ordinary whole Life Assurances may be allowed to accumulate as a debt at interest, extinguishable at pleasure or at death.*

M. BOWELL, Agent for BELLEVILLE.

Rates to Insure £100 payable at Death.

Rates for intermediate Ages and other benefits in the Book prospectus.

The Directors invite Applications for Agencies, from Gentlemen of position and influence, where the Company is not already efficiently represented. Every information will be afforded on application at the Chief Office of the Company in Montreal. Persons desirous of representing the Company, and having Fire or Life Insurances at command, will be treated with Liberality.

A. MACKENZIE FORBES, *Resident Secretary.*

35 & 37 St. François Xavier Street,
Montreal.

BELLEVILLE.

Although the following brief historic sketch of the early settlement of Belleville appeared in the edition of this Directory four years ago, the facts and incidents and information are of such a character that they will bear re-publishing, and indeed, a Directory of Belleville would not be complete without it.

ITS HISTORY.

During the American revolutionary war, and within a few years after its close, a large number of U. E. Loyalists turned their steps toward what was then the wilderness of Upper Canada. Kingston being a place conveniently reached, it was there that the settlement along the bay of Quinté commenced. As the number of refugees increased, the settlement was gradually extended up the bay; and by the year 1790, there might have been seen, here and there, all along its thickly wooded and beautiful shores, the rudely constructed log-house surrounded by a comparatively few acres of cleared land.

These pioneers, whose only mode of transport was by batteaux, took possession of that land which could be the most conveniently reached; and, when the best of it along the bay had been taken up, they ascended the various rivers which emptied into the bay, by the boats, when it was possible; and when impossible, the river was taken as a guide whose bank was followed until such land was discovered as promised to yield fruit to the tiller.

Among those who first settled at the western extremity of the bay, on the northern shore, were Captain Singleton, Captain Myers, and John Taylor; all of them British soldiers of the revolutionary war. Captain Singleton, who had been living a few years in Ernestown, came to Thurlow in 1789, having received from Government 400 acres of land to the east of, and adjacent to an Indian reserve of 200 acres on the east side of the river Moira at its mouth. He erected a log house on what is known as the old

Canniff property. The site of the house was on a rise of ground not far from the bay, just at the present easternmost limits of the town, south of the Kingston road. An old half filled well yet marks the spot. He was the first settler in the neighborhood of Belleville.

John Taylor, the father of Sheriff Taylor, came soon after, and purchased from Captain Singleton, lot No. 5, upon which he built his log-house.

Captain Myers, who had settled several years previously near the Trent river, came to the Moira river, not many years after. He was the first one to improve the valuable water power of the river, and for many years after, the settlement on the river as well as the river itself, was known by the inhabitants of the bay as Myers' Creek. But prior to the time at which Captain Myers constructed his log-mill and his cabin adjacent thereto, there had been one or two shanties erected at the mouth of the river. Here, stretching down the bay a short distance, was a clear space of some thirty acres, called the plains. The earlier navigators up and down the bay would generally see upon this spot a number of Indian wigwams. The rest of the land between the two hills on either side of the river was an uninviting cedar swamp. A path led up and down the bay, and another up the east bank of the river as far as the fourth and fifth concessions. It was not until the first part of the second decade of the nineteeth century that the buildings began to multiply at the mouth of the river, and the place could be regarded as a village. In 1810, there was not more than a dozen buildings in existence, and these were mostly of an inferior kind. Captain Myers' brick house on the hill, and a two-story frame building in the swamp at the foot of the hill, in front of where now stands the jail, and which has recently been taken down, were the only buildings of note in the place, and these were quite outside the village.

In the year 1816, just after the Declaration of peace, Myers Creek, or the village of Thurlow, as it was sometimes called, received the name of Belleville, and under the following circumstances: Governor Gore and his wife Lady Bella travelled, it is said, through the Province, and stayed a night at Myers Creek. Shortly after, there was met one evening at Mrs. Simpson's tavern

the principal men of the village. Among those present were the two McNabs. Feeling very loyal, and at the same time the importance of the village, it was suggested by one of them that the place should be named Belleville after the Lady Bella Gore. The happy suggestion received the hearty approval of all present and thereafter the village was so called. By this it will be seen that the way in which the name is at present spelled is not correct: instead of Belleville it ought to be Bellville.

The same year the Government instructed Surveyor Wilmot to lay out the 200 acres of Indian reserve, lot number four, into town lots of half an acre each. It cannot be recorded that Mr. Wilmot discharged his duty to his credit or to the advantage of the town. In the first place he made the serious mistake (it has been questioned whether it was a mistake) of placing the line between Sidney and Thurlow, upwards of sixty feet to the east of that marked by the original survey. The consequence was that the line between lots numbers three and four, instead of being mainly in the river, where it ought to have been, was established where now is Front street; and thereby, a valuable strip of land belonging to the Reserve was added to private property on the western side of the river, while the owner of lot number five, Mr. Taylor, was a loser to a corresponding extent. Another mistake was the very few cross streets laid out, the inconvenience of which is felt daily by many; although some new ones have been opened latterly. A third error was the respect he paid to a hotel which stood a little to the east of where now stands the Victoria buildings. This hotel had been erected on the ground where the street in surveying happened to come. The result is the unseemly turn in its course at Pinnacle street. While the hotel gave a name to the street, the name commemorates the cause of its ugliness. The town lots were disposed of by Government to petitioners, true subjects of His Majesty, on a payment of a fee of thirty dollars. No one could obtain more than a single lot. Several plots were reserved. One for a Hospital, one where stands the Catholic Church, the Scotch Church, the Grammar School building, the English Church, also, the Parsonage House, the old Market Square and the Jail.

In the year 1834, a petition was submitted by the inhabitants

of Belleville to Parliament, the result of which was "an Act to establish a Board of Police in the town of Belleville, passed 6th March, 1834."

It would seem that the Act passed did not come into operation, for in 1836, an Act was passed repealing the former one. This latter Act was in many respects the same, but making further provisions. The same year the town record begins. The boundaries were, "commencing at the limits between lots numbers five and six, in the first concession, so as a line at right angles will run on the northerly side of Wonnacott's bridge, thence south seventy-four degrees west to the limits between lots numbers two and three, thence sixteen degrees east to the bay of Quinté, thence easterly, following the winding of the bay to the limits between lots numbers five and six aforesaid, thence north sixteen degrees west to the place of beginning, together with the island and the harbour." There were two wards, each of which elected two members of the Board of Police, and these four selected a fifth. The body then selected one of themselves for President. Those elected the first year were, Wm. McCarty and Asa Yeomans for first ward; Zenas Dafoe and Wm. Connor for second ward; Billa Flint was elected the fifth member; and was also chosen President; Geo. Benjamin to be clerk to the Board.

Up to this time there had been no side-walks, and at the same time there was no drainage. The consequence was that in the rainy seasons, the streets were almost impassable—quite as bad as those of Muddy York are said to have been. The first pavement was laid in 1836, the stones for which were taken from the river. Some portion of this stone pavement yet remains.

It is impossible to say definitely what was the number of inhabitants at any one period. There were, however, in 1818, according to Talbot, about 150, about 500 in 1824, 700 in 1829, and in 1836 not far from 1000.

After this the town increased more rapidly in size and importance. Steps were taken to have built a Court House and Jail, as the nearest place of safe confinement of prisoners was at Kingston; and in 1838, just at the close of the rebellion, the present building was finished. The following year a "Court of Request," in accordance with an Act passed in 1792, was established in Belleville.

This Court was to collect small debts under ten pounds. The following gentlemen received their commission as magistrates for the first division, Belleville, viz: John Turnbull, Thomas Parker, Francis McAnnany, Charles Willard, Captain Henry Baldwin, Doctor Anthony Marshal, George Bleecker. In accordance with the Act, two or more of these might sit on the first and third Saturday of every month. Those who generally acted were George Bleecker, Captain Baldwin, Francis McAnnany, and Doctor Marshal, who was the clerk.

This Court of Request was abolished in 1841, and the Division Court established in its stead. Under the new Act, Benjamin Dougall was first appointed Judge of the County Court, which office he held for a number of years, when William Smart, the present incumbent, received the office. In 1839, also, the first Sheriff, J. W. Dunbar Moodie, was appointed to office, which he filled till the year 1863, when he resigned, and was succeeded by George Taylor.

The early provision for education in Belleville was not very great. In 1810, there was standing on the ground now occupied by the Wesleyan Church a very small school-house, into which no one could enter without stooping, and which one night was overturned by two or three young men making themselves merry and mischievous. At the present time, however, the school-houses of Belleville are an ornament, and the college an object of worthy regard.

The college, which is under the control of the Episcopal Methodist Church, was commenced in 1857, and opened in 1858.

ITS SITUATION.

Belleville is situated in the township of Thurlow, at the mouth of the river Moira, and on the shores of the Bay of Quinté. It covers an area of 1200 acres, and for beauty of situation cannot be surpassed. Occupying a beautiful elevation of land, gradually inclined from the water on either side, with the aid of sewerage through the principal streets, very little difficulty is experienced in keeping the town free from filth and impurities.

Very few towns or cities present such fine situations for private residences as the elevations to the east, west and north of the busi-

ness portion of the town. Taylor's hill, to the eastward, seems to have been the choice of the largest proportion of our wealthy merchants, professional men and mechanics; and a more delightful location could scarcely be wished for quiet and comfortable homes. Within the last few years a large number of handsome and costly residences have been erected in this part of the town, which with their tastefully arranged grounds, will stand side by side with the best in our large cities, and not suffer in comparison. On the slopes to the westward there are many handsome private dwellings, with richly ornamented grounds; and to the northward, also, are pleasant locations, which are being taken advantage of by those who have grown rich with the town's prosperity. Nearly all our churches are located on the hill to the eastward, many of which are costly and imposing edifices.

The river Moira, a rapid stream, which furnishes unlimited water-power privileges, runs through the town. The principal business portion of the town is on the east side of the river.

ITS STREETS.

Front street, running in a northerly and southerly direction, is the principal business thoroughfare. Within the last few years, the appearance of the street has almost entirely changed. A large number of dilapidated frame tenements have been swept away by fire or torn down, and in their place have been erected a class of shops which in size, style of architecture and beauty of finish, will compare favorably with the finest in our largest cities. Pinnacle street, running parallel with Front, is well laid out, and will in the course of a few years be one of our principal business thoroughfares. The Court House and market front on this street, the Montreal and Merchants Banks, both imposing structures, and the Dafoe House are located here. On Mill street, extending from the upper bridge to the Grand Trunk railway station, are situated some of our largest foundries and factories. Dundas street, running in an easterly and westerly direction, and forming one of the leading roads into the town, contains some first-class private residences, and a number of eligible locations for dwellings. Bridge street, running east and west through the central portion of the town, is occupied by several business houses, and by some of our most ele-

gant residences. Church, John, George, William, Ann and Coleman streets, running northerly and southerly, are beautifully situated, and are rapidly filling up with a good class of dwellings. Moira, Hotel and other streets, running easterly and westerly, will grow in importance as the town advances in trade and commerce.

ITS MANUFACTURES.

Few Towns in Canada can boast of having such extensive manufacturing interests as Belleville. Possessing one of the finest water privileges in the Province, and having access to foreign markets by railway and water, the inducements to invest capital in manufactures are by no means inconsiderable, and these privileges have been taken advantage of by men of capital and enterprise, who are rapidly adding to their own wealth, and contributing largely to the permanent prosperity of the town. Several water-power privileges still lie idle, which enterprising men might render profitable to themselves as well as advantageous to the Town. The manufacturing interest in Canada may be said to be still in its infancy, but under an enlightened protective system, we may reasonably expect it to increase in proportion with the country's growth; and that within a few years we will be able successfully to compete with the manufacturers of Great Britain and the United States.

Few places in Canada present more excellent manufacturing facilities than Belleville and vicinity, or a better prospect of a remunerative return. Capitalists in Great Britain, or other countries, who desire to profitably invest their means, should visit Belleville and examine the advantages we have over other localities. A brief glance at some of our manufacturing establishments will give the reader an idea of what is being done.

THE LUMBERING BUSINESS.—The lumber trade has long been a source of prosperity to Belleville and the County, and although the country has been pretty well cleared up for twenty and thirty miles back, the supply is by no means exhausted. Immense forests exist still further into the interior, and for many years to come the lumber business must contribute to the wealth of the County. For some years past, the number of saw logs brought down the

Moira have averaged from 150,000 to 200,000 a year. The greater part are manufactured at the different mills here, of which we have some of the largest, west of the Ottawa, while some are rafted and towed to Oswego and other parts to be manufactured. The two largest are those of Messrs Flint & Yeomans, which is situated at the foot of Water Street, and that of Messrs H. B. Rathbun & Son, on the island at the mouth of the River. The capacity of both is about equal. In each there are from 90 to 100 saws, chiefly in gangs, capable of manufacturing from 75,000 to 100,000 feet of lumber every 24 hours. A good idea of the extent of the business done at these mills may be obtained from the fact that, when in full blast, a sufficient quantity of lumber is made at each mill to load a schooner every 24 hours. Employment is given on both to between 160 to 200 men, whose weekly wages amount to about $1000. Another mill on the south line of the Bay is owned by Messrs. Page & Co., the owners of the mill on which was formerly known as Baker's Island. It was erected in 1864, and its capacity has since been largely increased. It now manufactures about 50,000 feet per day. There is also a saw mill on what is known as Myers' dam, owned by Mr. William Bleecker having 25 saws.

Foundries and Agricultural Works.—Belleville has long been noted as having some of the most extensive iron works and agricultural implement manufactories in the Province. Year after year have these establishments carried off prizes at Provincial Exhibitions; and, as a natural consequence, the demand for their manufactures throughout the Province is yearly increasing. The Messrs. Brown are the largest manufacturers in the town. Their premises front on Mill, Foundry and Church streets, and cover a large extent of ground. During the past year, a large portion of their premises have been rebuilt, and they now have one of the finest and most complete establishments in the Province of Ontario. The business of the firm is chiefly iron work, and since the discovery of gold in north Hastings they have manufactured a number of the finest Quartz Mills which have been erected in the gold district. Of patterns, there is not a larger or more varied assortment in the Province, and there are few establishments which are more

complete. In the same line of business is the firm of James Walker, & Co., at Coleman's dam. Commencing a little over four years ago, as successors to the Messrs. Patterson, they have built up a business as iron manufacturers and makers of agricultural implements, not much inferior in extent to the best in the Province, while their work will compare favorably with the best. The members of the firm are all practical men, of large and varied experience, and it is gratifying to know that their business is yearly increasing. The gold excitement has also had a favorable effect on their business, their foundry having already contributed two of the many Quartz Mills which have been sent out to the Hastings Gold District. The Victoria Foundry, owned by Mr. Wm. H. Wallbridge, is situated on Pinnacle street, and within the last few years, has largely increased its capacity for manufacturing. This establishment also is largely engaged in the manufacture of agricultural implements, as well as engines, ploughs, castings, &c. There is another iron foundry, situated near the steam saw mill of Messrs. Flint & Yeomans, owned by Mr. Charles Martin, and known as the Moira foundry. It has all the machinery for the manufacture of steam engines, ploughs, stoves, and general castings, and the work turned out of this establishment ranks among the best.

The Crushing Mill at Bridgewater which is as neat and well executed as any built in the County, was constructed by Mr. Martin.

IRON AND STEEL WORKS.

There has been a falling off in the finer class of iron and steel works, and the only establishment of any importance in the town is that of Mr. E. Burrell.

SEWING MACHINES.—Messrs. J. C. Irwin & Co., whose names throughout Canada are becoming as familiar as household words, have within the last two or three years been compelled to increase their capacity for the manufacture of their celebrated family sewing machines. Every year they have carried off first prizes at the Provincial Exhibitions, and the World's Fair at Paris, awarded their machine a diploma. It is an important branch of industry and is yearly increasing in value.

CHAIR AND CABINET FACTORY.—One of the most important manufactories in town is that of Mr. Louis Roenigk. For years past he has been adding one piece of machinery to another until he has now facilities for manufacturing not much inferior to some of the first-class establishments in the Province. Everything connected with the manufacture of chairs and other furniture is made on the premises, and having all the required machinery, and the best class of workmen he can supply dealers on as good terms as the largest factories in the Province.

OTHER MANUFACTURES.—There are other branches of manufacture established at different points on the river, which contribute largely to the prosperity of the town. We have four sash, door and blind manufactories, carried on respectively by Messrs. George Walton, A. Diamond, A. N. Pringle, and Thompson & Reddick, giving employment to between thirty and forty men. Since the establishment of cheese factories, the demand for cheese boxes has been so great as to warrant the establishment of a factory specially devoted to this business. It is carried on by John P. Lever. A new and large woollen manufactory has been established by John Lazier, on the site of what is known as Reed's dam. It is a building four stories high, and is fitted up with the necessary machinery for the manufacture of cloths of all kinds. Another factory of the same kind is that of S. Ostrom, who has recently enlarged his premises and largely increased his facilities for business. There are three flouring mills; one occupied by Mr. James Grant, which has three run of stone, and is considered a first-class mill; Mr. James Canniff still occupies the large stone mill, just outside the limits of the town, and a better mill can scarcely be found in the County. The old Sidney mill, on Coleman's dam is occupied by Mr. James Wallace, who has every facility for flouring and gristing. In addition to the foregoing, we have the soap and candle factory of F. A. Phippen, the extensive potashery of Mr. John A. Phippen, the large distillery, owned by the Hon. Robert Read; two breweries, owned respectively by Messrs. Bennett & Bain, and Mr. L. J. Williams; and other manufactories of various kinds. As we have before said, our manufactures are yet in their infancy, and with the immense resources at our command, they can be indefinitely increased.

STATISTICAL INFORMATION.

At the time of the incorporation of Belleville in 1836, the population was about 1000. In 1861, according to the census returns it numbered 6227 inhabitants. No census has since been taken of the town, but it would be within bounds to state, considering the rapid progress made since 1860, that the present number of inhabitants is between 9000 and 10,000. If the town continues to progress in the same ratio, it will not be long before it will take its place among the cities of Canada. The following is a comparative return of the imports and exports of Belleville for the eight years ending December 30th, 1863:

	Imports.	*Exports.*
For the year 1856	$305,843	$342,771
" 1857	203,515	265,516
" 1858	169,428	592,239
" 1859	187,794	289,726
" 1860	172,949	400,008
" 1861	173,955	291,594
" 1862	150,279	276,225
" 1863	126,224	391,799
	$1,489,987	$2,849,878

Showing a surplus of exports over imports in eight years of $1,359,891.

Commencing with 1864, the fiscal year ended in June instead of in December, and the returns are accordingly made up for the first six months:

	Imports.	*Duty.*	*Exports.*
30th June, 1864	$ 33,091	$4,531.09	$ 70,199
" 1865	101,050	7,131.79	319,730
" 1866	127,038	8,598.82	550,217
" 1867	145,583	16,229.58	597,510
" 1868	150,178	18,428.52	532,129
	$556,940	$54,919.80	$2,069,785

Showing a surplus of exports over imports in the four years and a half of $1,512,645.

The comparative statement of imports for the first eleven months of the years 1867–68, are as follows:

	1867.		1868.	
	Value.	*Duty.*	*Value.*	*Duty.*
January	$7,131	$1,257.45	$6,127	$1,052.09
February	3,399	660.32	7,036	1,232.87
March	11,760	1,858.83	17,260	2,370.85
April	18,358	1,325.73	15,285	2,757.68
May	22,292	921.12	14,564	834.05
June	8,394	834.70	10,779	1,178.75
July	11,630	1,077.85	10,241	1,674.24
August	12,925	1,274.35	23,469	1,963.76
September	17,636	1,916.97	24,397	2,750.08
October	17,227	1,663.10	20,907	1,890.78
November	10,623	1,721.07	35,999	1,971.03
	$141,375	$14,511.50	$186,064	$19,076.18

The disparity between the amount of imports and duty for November, is accounted for by grain being admitted free under the tariff of 1868. Had the former tariff remained in force, the collections for this month would have more than doubled that of the corresponding period of 1867.

SHIPPING.

One of the most important commercial advantages of Belleville, is the facility for building ships. Our forests furnish everything for the building of any description of vessel, and everything else is obtainable here from the keel to its complete outfit. Within the last few years several vessels of the largest class have been built here, and have found profitable employment in the carrying trade between this port and Oswego. Many of these schooners may also be found on Lake Erie as well as Lake Ontario.

ITS FUTURE.

Few places in Canada have such a promising future before it as Belleville. Being the outlet of the vast mineral wealth of the Hastings district, surrounded with a good agricultural County,

having excellent gravelled and macadamised roads leading into it, having hourly communication by means of an extensive ferry with the rich and fertile County of Prince Edward, possessed with excellent water power privileges for all kinds of manufactures, connected with the chief markets of the Dominion and the United States by water and railway and, withal, having an enterprising people there is nothing to prevent Belleville becoming at no distant period one of the chief cities of Canada

LOCAL INFORMATION.

TOWN GOVERNMENT.

The Town of Belleville was incorporated in 1836. It is divided into four Wards, which are bounded as follows:

Baldwin Ward is bounded on the north by the River Moira, on the east by the Town limits, on the south by Bridge street, and on the west by Pinnacle street.

Coleman Ward consists of all that part of the Town lying west and north of the River Moira.

Ketcheson Ward is bounded on the north and west by the River Moira, on the east by Pinnacle street, and on the south by Bridge street.

Samson Ward comprises all that part of the Town south of Bridge street, on the east side of the River Moira.

The Corporation of the Town is composed of twelve members, three for each Ward, who hold their seats for three years, one of whom retires annually in rotation. The nomination of Mayor takes place at 10 o'clock A.M., and that of Councillors at 12 o'clock noon on the last Monday but one in December and the election on the first Monday in January, the polls opening at 9 o'clock, A.M., and closing at 5 o'clock, P.M.

TOWN COUNCIL—1869.

The Council meets once in two weeks, on Monday, at half past seven o'clock, P.M.

Mayor.—P. D. Conger.

Baldwin Ward.— Messrs. Thos. Holden, C. J. Starling and J. J. B. Flint.

Coleman Ward.—Messrs. Alex Robertson, A. Watters and J. Vandusen.

Ketcheson Ward.—Messrs. John Sutherland, James Kennedy and Thos. Kelso.

Samson Ward.—Messrs. Geo. E. Henderson, R. Tannahill and W. A. Foster.

OFFICERS OF THE CORPORATION.

Town Clerk.—Robert M. Roy.

Solicitor.—L. H. Henderson.

Treasurer.—James Blacklock.

Lessee of Market.—James Mackie.

Street Surveyor.—John Thompson.

Tax Collectors.—John Kerr and Dunham Ockerman.

Police Department.—Peter Foxton, Chief of Police; John McCrudden, Sergeant; Thomas Downs, Stephen Garrett, Wm. Massey, Policemen; James Wilson, Messenger.

Fire Department.—James Blacklock, Chief Engineer; John Taylor, Assistant Engineer; Wm. Rankin, Engineer Steam Fire Engine.

POLICE COURT.

The Police Court is held in the Town Hall at eleven o'clock A.M., each day. A. Diamond, Police Magistrate, R. M. Roy, Clerk.

CUSTOM HOUSE.

Office, north-west corner of Bridge and Pinnacle streets. W. F. Meudell, *Collector;* J. W. Verner, *Surveyor;* W. A. Beamish, *Preventive Officer;* W. McIntosh, *Packer.*

BANKS.

MERCHANT'S BANK OF CANADA.

Head Office, Montreal. Capital, $6,000,000.

Hugh Allan, *President.* Jackson Rae, *Cashier.*

Arch. Cameron, *Inspector.*

Belleville Branch.—Andrew Thomson, *Manager;* Robert Thomson, *Teller;* Walter H. Scott, *Accountant;* John G. Campbell, *Discount Clerk;* G. W. Neilson, *Clerk.*

BANK OF MONTREAL.

Head Office, Montreal. Capital, $6,000,000

T. B. Anderson, *President.* E. H. King, *General Manager.*

Belleville Branch.—W. R. Dean, *Manager;* Chas. Henry, *Accountant and Teller;* W. F. Egan, *Clerk.*

POST OFFICE, BELLEVILLE.

M. Sweetnam, Post Office Inspector, Kingston.

J. H. Meacham, Post Master; J. Brotley, Assistant; J. Lacy andGeorge Weagan, Clerks.

EDUCATIONAL.

ALBERT COLLEGE.

This institution was opened in 1857. It is owned and controlled by the Episcopal Methodist Church in Canada, and has been erected into a University. One hundred students can board and lodge within the building, while the class-rooms are sufficient for four hundred. The course of instruction includes all the branches of Common School, Grammar School, and Collegiate training. Ladies can take a thorough course in science and languages, especially prepared for them, and receive diplomas. Candidates for admission to the Preparatory department, must be able to read and

write, and have some knowledge of grammar, arithmetic, and geography. There are three terms in the year, beginning early in September, early in January, and late in April. The County Council have voted by By-Law an annual sum of $200, towards an endowment of a Professorship of Mines and Agricultural Chemistry in Albert University.

A SYNOPSIS

OF THE

BY-LAWS OF BELLEVILLE.

FIRES AND FIRE COMPANIES.

BY-LAW NO. 1.

2. Enacts that every person between the ages of fifteen and sixty years is required to assist at fires, at the request of officers of Fire Companies, members of the Corporation, and Constables.

12. All Carters are obliged to draw water to fires.

13. Sextons of each Church having a bell, are required to ring the bell for fifteen minutes, upon the breaking out of a fire.

16. Any officer appointed by the Town may search any premises where there is reason to believe there is anything hazardous or dangerous in causing fires; shall notify owners or occupiers to have such nuisance removed, and if not done in six hours, a penalty is incurred; in case it is not abated within 24 hours, the officer may cause its removal.

17. Stove pipes not passing through stones, earthen pots, or pipe cylinders, must be kept six inches from any part of the wood of the partition, and at least six inches from the ceiling.

18. Stove pipes not to be carried through a window or side or end of a building.

19. Stove pipes passing through the roof of a building to be secured in a brick flue, built from the garret floor, and three feet above the roof.

20. Pipe holes not in use must be kept closed, and fire-boards must be covered with tin or iron.

21. Stoves must be nine inches from any wooden partition, unless such partition be protected by tin.

22. Blacksmiths' shops within four rods of any other building, shall have a return flue in the chimney.

23. Persons must not carry lighted coals through streets unless in a covered vessel of iron.

24. Provision must be made by every occupier of a house for a safe receptacle of ashes; a person keeping ashes in boxes or in any

wooden material in his tenement, is liable to the penalty imposed by this By-law.

25. Persons not allowed to carry a lighted candle into a stable unless enclosed in a lantern.

26. No person shall have in his possession a lighted pipe or cigar in any mill, or workshop, wherein are combustible materials, or in any stable or barn.

27. Persons requiring to burn chips, straw, &c., shall do so on a damp day, when there is no wind, and at least 20 feet from any building or vessel.

29. Buildings of two storeys or more to have a scuttle on the roof, and a staircase or ladder leading to the same from the inside. Penalty $1 for every three days such building is unprovided with such conveniences.

80. Every building not more than two storeys high, must be provided with a ladder from the ground three feet above the eaves of the building, and one from the eaves to the ridge of the roof.

31. The mayor and any two members of the Council have power to destroy a building for the purpose of retarding a fire.

32. Provides for the appointment of a Chimney Viewer, who, when called upon, shall cause to be swept the Chimneys of such persons who desire it, for which he will be entitled to the following rates;

For sweeping a chimney not exceeding in height a ground floor and a garret, 6d; each additional flue, 3d.

For sweeping a chimney not exceeding in height two floors, and a garret, 9d; each additional flue, 3d.

For sweeping a chimney not exceeding in height three floors and a garret, 1s; each additional flue, 4d.

For sweeping a chimney higher than is named above, 1s. 3d; each additional flue, 6d.

33. The Chimney Viewer shall call upon every occupier of a house once in six months, and tender his services to have the chimney swept.

35. No person to sweep chimneys unless under the direction of the Chimney Viewer.

36. No person shall in any way hinder such Chimney Viewer or his servants in the discharge of their duties.

BY-LAW NO. 91.

1. The Town Council shall appoint the Chief Engineer and the Assistant Engineer of the Fire Department, from such persons as may be nominated by a majority of the members of any Fire Company or Companies.

4. Any Company of Active or Volunteer Militia Force offering their services as a Fire Company, shall be held to be a fire Company, and the officers of such Company shall have similar powers as the selected officers of any Fire Company.

5. Monthly returns of the condition of the Fire Department to be made to the Council.

6. Each fireman to receive not exceeding $6 per annum, by resolution of the Council.

NUISANCES.

BY LAW NO. 122.

1. Persons depositing building material on any public ground, upon being notified to remove it by the Street Surveyor, or any member of the Town Council, shall do so within 24 hours; provided it be not required for immediate use, and then the space occupied by such material shall not be more than half the width of the street opposite the building site.

2. Persons not allowed to deposit or encumber any street or public ground with any article except for the purpose of immediate removal.

3. Carriages, hand carts or barrows, not permitted to stand on any footpath or crossing, so as to incommode travellers.

4. Bathing publicly within the limits of the Town between the hours of 6 a.m. and 9 p.m., prohibited; and no person permitted to indecently expose his or her person, or conduct himself or herself in an obscene manner.

5. Dead animals, carrion, or other nuisance, not allowed to be placed in any street or public ground, or in the river or bay, or on the shores of the waters.

6. No person shall suffer any carrion or other nuisance to remain on any lot or premises belonging to him.

7. No person shall suffer drinking, gambling or fighting on his premises, to the annoyance of the public.

8. Fishing, shooting, or the use of fire-arms on the Sabbath day, prohibited.

9. Bawdy houses, or houses of ill fame, prohibited.

10. Persons prohibited from frequenting houses of ill fame.

11. Persons who shall by any means cause to flow any water, filth, or matter on any street, or on the premises of any other person, shall be liable to a fine.

12. Horses standing in any street or public place, must be tied or properly secured.

13. Persons prohibited from riding or driving at an immoderate rate through the streets, or faster than a walk on any bridge.

14. Horses not permitted upon any sidewalk, except for crossing the same.

15. No person shall discharge any fire-arms, or set off fire-balls, squibs or rockets in any street, or within 200 yards of any building, or play at ball in any street.

16. No person shall obstruct any water-course or drain, or remove without permission of the Street Surveyor, any portions of side walk or crossings.

17. Every occupier of a house or shop, and the owner of any vacant lot on Front street between Dundas street and the upper Bridge, shall remove the snow upon the sidewalk directly in front thereof.

18. Fighting or challenging to fight, prohibited.

19. Persons prohibited from making any disturbance in, near or contiguous to any place of public worship, or to utter or employ any profane swearing, oath, obscene, blasphemous or grossly insulting language and other immorality in streets, highways and public places.

20. No person shall encourage any dog to fight or worry any other dog in the Town.

21. No person allowed to injure or destroy any tree or shrub in any public place for shade or ornament, or injure or deface any sign, window or building, or to paint, draw, or inscribe any indecent words, characters, pictures, &c., on any building, wall, fence, &c.

22. Persons driving with a sleigh, obliged to have two or more sleigh bells affixed to the harness of the horse or horses.

23. No person shall slide down any of the hills on any of the streets or sidewalks, upon any hand or other sleigh.

24. Repeals By-law No. 2.

25. Penalty for the infraction of any of the provisions of this By-law, not less than fifty cents, nor more $20, and costs, in default, imprisonment not exceeding twenty days.

BY-LAW NO. 57.

1. The Health Officer shall visit daily all Slaughter Houses within the limits of the town, and order the prompt removal of all offal, &c.; not immediately complying, the owner is liable to the penalty of this By-law.

VAGRANTS AND DISORDERLY PERSONS.

BY-LAW NO. 4.

1. Constables to arrest and convey any vagrant, drunkard, vagabond, mendicant, street-beggar, or any drunken or disorderly person to gaol.

2. Any person who may be called upon by a Constable, is required to assist such Constable in making any arrests.

3. No person shall hinder or obstruct Constables in the performance of their duty.

IMPOUNDING CATTLE, GOATS, &c.

BY-LAW NO. 5.

1. Provides for the appointment of two Pound Keepers, one for that part of the Town east of the River Moira, and the other for that part west of the river, who shall provide a suitable place for a pound.

2. Pound Keepers to impound all horses, cattle, sheep, geese and swine, that may be running at large, or that shall trespass upon the land or premises of any person, (being enclosed by a lawful fence) and detain them until all fees and damages are paid. Pound Keepers shall be allowed over and above any claim for damages and the penalty: for every horse or head of cattle, 1s 3d; every hog, 1s 3d; every sheep, 3d and for every goose 3d. They shall be allowed for posting the requisite notice, 1s; for attending for the appointment and serving copies of the same upon the appraisers, 2s; and for the sale of every distress, 1s 3d. They shall be obliged to provide the necessary food and drink for the animals impounded, for which they are entitled to charge the following rates: for every horse, 1s 3d per day; for every head of cattle, 1s per day; for every sheep and hog, 6d per day each, and for every goose three cents: which several sums shall go to the Pound Keepers for their fees.

5. Pound keepers shall, within 48 hours and not before 24 hours after the distress shall have been impounded, cause a notice thereof in writing to be posted on the Pound gates, and in three other public places in the Town, giving description of the distress, and specifying when and where the same shall be exposed for sale; and in case the owner does not redeem the same, by paying all fees and claims within eight days after such notice is given, the Pound Keeper may proceed and sell the distress to the highest bidder; after deducting his own legal charges, they shall pay the damages, if any, to the person entitled thereto, and the penalty, one-half to the person taking such distress to the Pound, and the other half to

the Town Treasurer for Town purposes; and the overplus, if any, to the owner of such distress, if known, and if not known, to the Treasurer, and if not claimed within three months, to be applied to Town purposes.

6. A person taking animals. to the Pound, obliged to state what demands he may have for damages, and in case the owner tender to the Pound Keeper the sum which may afterward be awarded, with the costs incurred, he shall not be liable for costs afterwards incurred, but all such subsequent costs shall be paid by the party claiming extravagant damages.

7. In case the owner objects to the damages claimed, the Pound Keeper shall apply to the Mayor or any Councillor, who shall appoint three disinterested persons to appraise the damages.

8. Pound Keepers to give notice to the Clerk of the Council immediately after the impounding of any animals with the name of the person who delivered the same to the Pound, and the amount claimed for damages.

9. Owners of animals impounded to pay the following penalties: for every stallion, $4; for every mare or gelding, 50 cents; for every ox, 50 cents; for every sheep, 12½ cents; and for every hog, 25 cents.

11. Pound Keepers to make quarterly returns to the Clerk of the Council.

12. Provides that in case Pound Keepers make any unlawful charges, they may be fined or suspended from office.

BY-LAWS NOS. 120 AND 121.

1. Extends the provisions of By-law No. 5, to any goat or goats, running at large, and to the owner or owners thereof.

2. Any owner or owners of goats or swine knowingly letting such animals run at large, he, she, or they, subject themselves to a penalty not exceeding $1 for each such animal. In default, imprisonment not exceeding ten days.

ENCROACHING ON STREETS.

BY-LAW NO. 15.

2. Provides that the Town Surveyor shall give the lineation of lots situated in front of streets, squares or other public ways whenever called upon, for which he is entitled to receive three pence per foot, for every foot frontage; and no person shall erect, rebuild, or enlarge any house, building or wall upon the front of streets, squares, or other public way, without having first obtained the lineation of the same from the Street Surveyor.

ERECTION OF WOODEN BUILDINGS.

BY-LAW NO. 17.

2. Provides that any person erecting a building within certain limits, (described in By-law number eighty-six,) which shall be adjacent to any other house or building, shall build a guard and substantial party wall of brick or stone, on the side adjoining any other building, which wall shall not be less than 12 inches thick, if of brick, and not less than 16 inches thick, if of stone, and be terminated at the top by a fire-guard wall of the same thickness, with proper coping and raisings not less than 18 inches above the roof; provided that if such description of wall be previously standing in the adjoining house, then the person erecting such new house shall not be required to make a second wall.

3. No blacksmith's shop shall be erected within the limits of the Town, including the west side of Front street to the bank of the river, of any other material than brick or stone, and the ceiling thereof to be plastered; nor shall any chimney be built in such blacksmith's shop that is not constructed according to the self-consuming principle.

BY-LAW NO. 127.

Provides that no wooden clapboarded, or frame dwelling-house, kitchen, shop, warehouse, coach house, stable, shed, or other wooden clapboarded or frame building, except where contracts for the same are already entered into, shall be begun, carried on, built or erected, or placed in that part of the town of Belleville, lying within the following limits, that is to say: The west side of Front street to the bank of the river Moira, and the east side of Front street to the depth of the lots on said Front street, from the line of the upper bridge on Front street to the line of Dundas street on Front street, including Hotel and Bridge streets, from Front to Pinnacle streets. Nor shall any addition be made to any wooden building already erected within said limits, unless the said addition be built of brick or stone; nor shall any building hereafter to be erected within the limits aforesaid, be covered with any other covering than tin, or iron, or slate, or shingles laid in mortar, or shingles covered with fire-proof composition. Provided always, that all outbuilding being thirty feet distant from the main buildings, may be built of wood, and the roof, if shingled, shall have the shingles laid in mortar, or covered with fire-proof composition, and any person violating this section, to pay a fine of £5 and costs, and a farther sum of £5 per week until such building is removed; and every person employed in building any house, &c., contrary to the provisions of this By-law, is subject to a fine of from $4 to $20.

PUBLIC HEALTH.

BY-LAW NO. 53.

1. Board of Health to have power to enforce the laws of the Province against infectious and pestilential diseases.

2. During the existence of any epidemical disease, or upon a probable approach thereof, power is given to open a hospital at the public expense.

3. Gives power to the Board of Health to employ Physicians and to procure nourishment and necessaries for the use of the sick.

5. Keepers of Public Houses, Hotels and Boarding Houses, are required to report the number of persons sick, the nature of the disease, all deaths and causes, and to enforce such regulations as the Board may think proper.

BY-LAW NO. 63.

1. Enacts that the Health Committee or any two of them, or any officer appointed by the Committee, may enter upon and examine any premises within the Town, and if they find those premises in an unclean or filthy state, or any matter existing thereon which might endanger the public health, they shall direct the occupant or proprietor to cleanse the same and remove all offensive matter; and in case parties refuse or neglect to comply with such order, then the Health Committee or officer may call in any assistance necessary to have the premises cleansed, and remove or destroy anything that might be necessary for the preservation of the public health.

2. In a case where a malignant disease exists in any dwelling situated in a crowded part of the Town, or in a neglected or filthy state, or inhabited by too many persons, the Health Officers may compel the inhabitants of such dwelling, at the cost of the Town, to remove therefrom, and place them in sheds or tents, until such dwelling is properly cleansed, ventilated and purified.

3. Any person resisting or obstructing the Health Officers in the discharge of their duty, are liable to a fine of $20.

5. Graves to be five feet in depth, and no more than one body interred in one grave.

6. Health Officers have power to employ surgeons.

7. Persons must not allow stagnant water to remain on their premises.

8. Privies must be at least eight feet deep, five feet from the boundary side line of the lot, and not less than fifty feet from any street; in case the lot will not admit of the privy being placed fifty feet from the street, then it shall be placed as the Health officers shall direct,

9. No feculent matter, filth or rubbish whatever, or any foul or corrupted water or liquors exhaling fetid odors, allowed to be deposited in any street, lot, gutter, or on any pavement, or bank of the river, or in any public place.

10. No animal shall be slaughtered within 100 yards of any inhabited dwelling, nor shall any green hides be exposed to dry within said limits.

11. No distiller, soap-boiler, or chandler, or other person, shall keep any foul, tainted or corrupted water or liquor, or store up or keep any tallow, grease, or other matter, in a state of putrefaction, or use any such water, liquor, tallow or grease.

12. Any animal dying within the limits of the Town, shall be buried by the owner, at a sufficient depth below the surface, beyond the limits of the Town.

GUNPOWDER.

BY-LAW NO. 61.

1. Enacts that no person shall keep more than 25 pounds of gunpowder at any one time on his premises where fire is used, or in any building adjacent to any other building where fires are used, nor shall any person sell or weigh powder in any less quantity than by the keg, except between the hours of sunrise and sunset.

2. No person shall store a greater quantity of Gunpowder than fifty pounds in any building, except such building shall be isolated, and at least 200 feet from any other building, street or highway.

BY-LAW NO. 115.

Enacts that the following shall be added to the 8th clause, after the words "public highway," "or except such building shall be a properly constituted magazine of brick or stone with fire-proof roof and doors, and fire-proof shutters to any openings in the walls of such magazine, and situated at a distance of not less than forty feet from any other building, or from any public highway."

WEIGHTS AND MEASURES.

BY-LAW NO. 62.

2. Inspector to attend at the Town Hall, (after having given public notice thereof,) and with stamps and copies of weights and measures, and to examine, and compare and stamp, if found correct, all such weights and measures as shall be brought to him for that purpose.

3. The Inspector is required to enter every shop or place where weights and measures are used, and upon examination, if it be found that any are light or otherwise unjust, the same shall be seized and forfeited, and the person owning them is subject to a fine not exceeding $10 for the first offence, and $20 for every subsequent offence.

BY-LAW NO. 110.

1. Inspector to hold office during pleasure of Council.
2. A copy of the standard weights and measures to be procured.
3. Inspector to have all the powers conferred by 12 Vic., c. 85.
4. Inspector to visit all places where weights and measures are used.
5. False weights and measures to be destroyed by Inspector, where he thinks necessary.
6. Persons having false weights in their possession, subject to a fine of not less than $1, nor more than $20. In case of default, to be imprisoned in common gaol not longer than twenty days.

WOOD MARKET.

BY-LAW NO. 200.

Establishes the wood market at the east side of Pinnacle street, opposite the Butchers' Market, and appoints Levi Taylor, Inspector. The Inspector pays $60 a year to the Town, and takes the fees as provided by By-Law No. 110.

MARKETS.

1st. That there shall be appointed by the Council an Inspector of Firewood, whose duty it shall be to take charge of the Wood Market, and to keep the approaches thereto clear of obstructions and easy of access, to regulate the standing of vehicles in the said market, to preserve order therein, and to collect the Tolls by this By-Law imposed. It shall further be the duty of such Inspector, at the request of either the buyer or seller and on the payment of the proper fee by the person requiring the same, to measure in accordance with the provisions of this By-Law, any Firewood bought or sold within the Town, and to give a certificate of such measurement; provided that he shall not be required to measure Firewood on the vehicle containing the same at any place except at the Wood Market.

2nd. The cord of Wood shall be, as established by law, one hundred and twenty-eight cubic feet, consisting of sticks or pieces of not less than four feet in length, to be measured from point to scarp, and shall be piled together as solidly as practicable; the Inspector shall make a proper and proportionate reduction when the wood is less than four feet long, or is in his opinion not properly piled.

3rd. The fee or toll to be paid to the Inspector, shall be for standing on the Market, and including the measurement,

For each load of half a cord or less..... 3 cents.
For each load over half a cord..... 5 cents.

to be paid by the seller before removing from the market. And the fee for measurement at any other place than on the said Market, shall be:

For any quantity less than two cords.....10 cents.
For two cords and over..... 5 cents.

4th. From and after the time of this By-law going into effect, it shall not be lawful for any person or persons to expose or offer for sale any load or loads of Firewood on any of the public streets or places of the Town within four hundred yards of the Wood Market, except at the said Wood Market, or to cause or allow any Firewood intended for sale to remain standing on any public street or place except at the said Wood Market.

5th. Penalty: not less than fifty cents, nor more than $4; in default, not more than three days in jail.

BY-LAW NO. 107.

Establishes the Market (except for Wood) on lot No. 21, on the west side of Pinnacle street, and on east side of Front street.

Every day in the year shall be a market day, except Sundays and Christmas day, Good Friday, or any day set apart as a holiday by proclamation.

That the market shall be opened at sunrise, and closed at sunset, except the butchers' market, which shall be opened at sunrise and closed at noon on all market days except Saturdays, on which days the butchers' market shall remain open until nine o'clock P.M.

That the tolls of the market other than rents from butchers' stalls, shall be farmed, leased or rented to the highest bidder, subject to the approval of the Market Committee on the third Monday in May in each year. Upset price to be $1300.

Lessee of market to furnish tickets for the weighing of hay, straw, or other things, specifying weight, quantity, &c.

Lessee to pay the Town Treasurer monthly, and to attend to the opening and closing of market.

Lessee to have control of market under superintendence of Market Committee, to enforce regulations, &c.

Section 10 gives power to remove lessee in case of misconducting himself, and provides for collecting tolls in such cases.

That it shall not be lawful for the said Clerk of the market to trade directly or indirectly, or have any direct or indirect interest in the sales or profits of any articles or animals, which shall be brought to or exposed for sale in the said market, or to purchase any such for or on behalf of others.

That no person shall buy, sell or offer for sale any game, fish, poultry, eggs, butter, cheese, grain, vegetables, or fruit exposed for sale, or marketed within the Town of Belleville, until the seller has paid the market fees required by this By-law, or has obtained a ticket from the Collector of Tolls of the market of the Town of Belleville as provided for by this By-law, and before the hour of ten o'clock in the forenoon no person shall forestall, regrate or monopolize any market grains, meats, fish, fruits, roots, vegetables, poultry or dairy products within the Town of Belleville; provided always that before the hour of twelve o'clock, noon, no butcher's meat, fish, hay or straw, shall be bought or sold by any person in any part of the Town, except at the public market place in the Town of Belleville, and further that before the hour of eleven o'clock in the forenoon no huckster or runner living within the municipality of the Town of Belleville, or within one mile from the outer limits thereof, shall purchase any market grains, meats, fish, fruits, roots, vegetables, poultry, and dairy products brought to the said public market.

That no person or persons but butchers shall sell any meat in less quantity than by the quarter, and butchers shall not expose any meat for sale at any other place than in the market stalls, except by the quarter.

That all stalls in the market shall be numbered in the manner determined by the Market Committee.

That each butcher shall have his name painted in full on a board of uniform breadth, and placed over his stall.

That the butchers' stalls shall be let annually on the third Monday of December by public auction, to the highest responsible bidder, above any upset price to be affixed by the Market Committee previous to such sale; possession to be given on the first day of January; and the person or persons leasing the said stalls

shall pay the rent thereof in equal weekly payments, which shall be payable the Treasurer of the Town of Belleville weekly in advance, and immediately after the stalls have been awarded, each of the parties to whom they have been awarded shall, before entering into possession, enter into bonds to the Corporation, themselves in the sum of $100 each, and each with two sufficient sureties in the sum of $50 each, which bonds shall be conditioned for the due payment of rent, and compliance on the part of such Lessee, with all By-laws, Rules or Regulations established, or that may be established for the government of the market, and that the stalls shall not be sublet to, nor occupied by any other person without the written consent of the Chairman of the Market Committee; provided always, that the Market Committee shall have the power of letting the stalls privately, if by so doing justice be done and the interest of the Town subserved.

That no butcher shall sell or expose for sale in his stall, or allow to be sold or exposed in the same, any other article than meat and poultry; and it shall be the duty of each butcher to keep his stall in a clean and sweet state; and no butcher or other person shall allow hides, skins, or any offal to remain in or about the market after market hours; and no butcher or other person shall bleed any animal, in or on the market, or on any street adjacent thereto; and no butcher or other person shall harbor or keep any dog in or about the market.

By-law No. 138 substitutes the following for clause 14 of By-law No. 107. That all butcher's meat that shall and may be offered for sale or disposed of in the market, or on the market grounds, by any other than a lessee or occupant of a butcher's stall in the market, shall be subject to the following charges in addition to the charges on the waggon, sleigh or vehicle in which the same may be brought, namely:

For every quarter of Beef,.....	10	cents.
For every quarter of Veal, Mutton or Lamb,.....	3	"
And for every carcase, or part of a carcase not less than a quarter of Pork not exceeding 100 lb. in weight.....	5	"
The same, exceeding 100 lbs. in weight,.....	10	"

Provided always, that such additional charges shall not be required to be paid by any farmer or other person offering for sale any of the above enumerated articles, when the same shall be actually raised or produced by such person on his or her place or farm, or shall have been the property, or in the actual possession of such person, for a period not less than six months.

That every person bringing any of the aforesaid articles or any live animals to market for sale, shall pay the Lessee of the market before offering the same for sale, the following fees:

If in a waggon, cart, sleigh, or other vehicle, drawn by one or more draught animals,.	5	cents.
If in a hand cart,.	2	"
If on a horse, in a wheelbarrow, or by hand.	1	"
For every horse, mare, or gelding, brought for sale,...	5	"
For every head of cattle, brought for sale,.	2	"
For every sheep, calf, or pig, if not in a waggon or other vehicle,.	1	"

Parties bringing provisions for sale or otherwise, must take as many feet frontage as may be requisite for the sale of such provisions, and pay for the same two cents per foot frontage per day. For permission to occupy a permanent stand in addition to other charges, per quarter, one dollar and a half. And that all parties getting articles weighed or measured by the Lessee, shall pay for such weighing or measuring the following charges:

For weighing every draught on hay scales,.	20	cents.
For weighing every draught on market scales, under 100 lbs,.	1	"
For weighing every draught on market scales, from 100 to 200 lbs.,.	2	"
For every additional 100 lbs.,.	½	"

Provided that no charge shall be made for weighing the vehicle in which hay, straw, or any other article has been weighed on the hay scales, and the 20 cents to include all market fees. Any person neglecting or refusing to pay the aforesaid fees shall be subject to the penalties hereinafter mentioned.

That no person shall bring to market, or expose or offer for sale in any part of the town, any tainted or unwholesome meat, poultry, fish, or other articles of food.

That no person shall sell hay within the Town weighed at any other place than at the Town hay scales, nor shall offer with such hay any Weigh Ticket or Certificate, signed or purported to be signed by any other person than the Market Lessee.

That the said Lessee shall deliver to every person having a load of hay or other articles weighed by him on the hay scales, a certificate of the weight.

It shall be the duty of the Clerk of the market to keep open the Weigh House on every market day during market hours, and the scales, weights and measures, and everything connected with the said Weigh House, shall be maintained in a clean and orderly manner, and the Lessee shall weigh or measure the different articles that are sold or disposed of in the market, whenever he shall be thereunto required by the parties interested therein, or either of them.

That all waggons or other vehicles shall be placed in such place and order on the market grounds, as the Lessee of the Market shall direct, and he shall have power to enforce the removal of every waggon or vehicle from the market grounds, as soon as the produce contained therein shall have been sold.

That the Lessee shall attend to the scales for weighing hay, on every market day, during market hours.

That the Lessee of the market shall keep a book containing duplicates of the weights of the several loads of hay or other articles weighed on the Hay Scales by him, which book shall at all times be open for inspection by all parties interested in the weight of any such load or draught; and before any certificate is granted, the fees must be paid thereon.

That the Lessee of the Market shall give every person getting a draught weighed on the hay scales, or bringing grain or other articles or animals to market, upon the fee being paid thereon, a ticket marked with the day of the month, the article or articles weighed or to be sold, and the name of the Lessee, which the seller shall show to every person purchasing from him when required so to do.

That no person shall have or use on the public market place, any fraudulent or unstamped scale, beam, balance, weight and measure, nor shall any person sell or offer for sale, any article or thing, as of or for a greater weight or measure than the same may actually be; and any purchasers who shall suspect any fraudulent dealing, or deem themselves wronged in the weight or measurement of any articles bought by them in the market, may demand to have such articles measured or weighed by the Market Lessee; and in case the articles so measured or weighed be found correct, the purchaser shall pay the charges of re-measuring, or re-weighing; but if otherwise, such charges sball be paid by the seller, besides the penalty imposed.

That no person having scales and weights for their own use in the market, shall weigh or suffer to be weighed with such scales and weights any article whatever for other individuals.

Penalty: not less than $1, nor more than $20; in default, not less than 2 days in jail, nor more than 20.

BILLIARD TABLES.

BY-LAW NO. 119.

Billiard Tables may be licensed $40 per annum for one table, and $10 per anuum for each additional table so kept by the same proprietor in the same premises.

No minor permitted to frequent Billiard Rooms or play at Billiards.

No Billiard Room to be opened after 12 o'clock at night.

TAVERN AND SHOP KEEPERS.

BY-LAW NO. 126.

1. No Liquor or Beer to be sold in the Town without a license first having been obtained.

2. Two Inspectors of Taverns and Shops to be appointed by the Council as soon as may be after the third Monday in January, who shall receive, in addition to their fees, ten dollars a year each.

3. All applications for licenses, shall be accompanied by a petition signed by at least thirty Municipal Electors of the Town stating that the applicant is a loyal subject and of good moral character, which is to be read in open Council. Then it may be referred to the Inspectors, who shall, after $71 have been deposited by the applicant, with the Treasurer, proceed to examine the premises of such applicant, and if he has the requisite accommodation, grant him a certificate, provided the number allowed by By-law, has not already been given.

4. Inspectors, from time to time, to examine all licensed premises, and diligently enquire into any violation of the law, and report the same to the Mayor, or take such steps to prevent such violation of the law, as they see fit.

5. Shop and Tavern Licenses to be in force from the first day of May in every year, until the last day of February in the following year, unless forfeited.

6. No Shop License to be granted unless a proper store is provided, and a stock of $500 kept on hand, which must be certified to by the Inspectors. No license, or certificate for license, to be issued by the Treasurer, until bonds have been entered into for the due observance of the provisions of the By-laws of the Town; applicant in a sum of $200, and two securities of $100 each.

7. $70, in addition to the $10 paid to the Revenue Inspector, to be paid to the Town Treasurer for every Tavern License; and $1 to the Treasurer for blanks, $2.50 to the Clerk of the Council, on the bonds being entered into.

8. Shop Licenses to be $40; and $2.50 to be applied as in section 7.

9. No Shop License to be transferred, without the permission of the Inspectors,

10. Inspectors may endorse on the license permission to sell liquor other than in his own house, upon his getting permission so to do, from the Mayor, or in his absence the police Magistrates.

11. Tavern keepers may remove from one house to another, after having first obtained permission from the Council, when the Inspector may endorse such removal upon his license.

12. No Inspector to grant a certificate for a license unless the applicant has at least four good furnished bed rooms, in addition to those required by his own family, two good traveller's rooms, in addition to the bar-room, and sheds and stabling for at least three spans of horses.

13. No minor to be allowed to frequent public house nor gambling, nor any kind of riotous or disorderly conduct upon the premises.

14. Tavern keeper not to allow persons to become intoxicated, or permit any minor to frequent his premises; nor suffer any gambling or any riotous or disorderly conduct, upon his premises.

15. Shop keepers not to sell liquor in less quantities than a quart; except in case of illness, when any quantity can be sold upon the production of a Doctor's certificate.

16. Shop keepers not to permit any liquor, which they may sell, to be drunk upon the premises.

17. Shop and Tavern Licenses may be granted for six and for three months at the following rates: Tavern License for six months forty dollars; for three months, thirty dollars: Shop Licenses for six months, $22.50; and for three months, fifteen dollars. Any license issued within six months after the first day of March, shall be for one year; those issued after six months, and not exceeding three months, shall be for six months; all licenses to expire on the last day of February.

18. The number of houses to be limited to the number allowed by statute; three may be saloons.

19. Shops to close at 9 P. M.; Taverns at 11 o'clock, P. M. No liquor to be sold after these hours.

20. Inspectors to remain in office until their successors are appointed.

21. Penalty for the infraction of any of the provisions of this By-law, not to exceed twenty dollars; in default imprisonment in common jail, not to exceed twenty days.

22. Repeals all other By-laws having reference to the sale of liquor.

BREAD, ITS WEIGHT, &c.

BY-LAW NO. 134.

1. Loaf of Bread shall weigh 4 lbs., and a half-loaf 2 lbs. avoirdupois weight.

2. Any Bread offered or exposed for sale, which shall be found deficient in weight, is subject to seizure, and forfeiture to the Corporation, to be disposed of as that body thinks fit.

3. All Bread seized to be immediately taken to the Police Office, and publicly weighed, and if the deficiency be found to be trifling or less in proportion of one ounce to 4 lbs., on each loaf or half-loaf, and the Magistrate is satisfied that such trifling deficiency is the result of accident and not of design, he may remit such forfeiture; and provided further, that if the owner or vendor of the said Bread shall prove that it had been baked or drawn from the oven twenty-four hours previous to the time of its being seized, or shall satisfy the said Magistrate that such Bread is of the description known as Cottage, French or other Bread, which by reason of its being baked separately and more thoroughly than the ordinary loaf of bread, and from no other cause is deficient in weight, such forfeiture shall not be enforced.

4. No Bread that has been forfeited owing to light weight to be offered for sale, subject to penalty.

5. Chief of Police, or Chief Constable to make seizures, at any time when they may discover light Bread.

6. The Inspector of Weights and Measures, when required by the sitting Magistrate, shall attend at the Police office, with the stamped weights and scales, to weigh any seized Bread, without fee or charge for the same.

7. Any person obstructing any officer in the performance of his duty, subjects himself to a fine not exceeding $8; in default imprisonment not exceeding twenty days.

HAWKERS, PEDLARS, AND PETTY CHAPMEN.

BY-LAW NO. 135.

1. No person who has not become a householder or permanent resident of Belleville, allowed to exercise the trade or calling of a Hawker, Pedlar, or Petty Chapman, in any way, until he has first obtained a license.

2. All licenses to be signed by the Mayor and countersigned by the Treasurer upon payment of $10 by the applicant. License to be in force for a period not exceeding thirty days.

3. No person, though he may have a license, is permitted to offer his wares in any part of the Town in such manner as to bring a crowd of persons together, so that they would obstruct or interfere with persons passing or driving along or across any street, bridge, or sidewalk.

4. Penalty for infringing the provisions of this By-law not to exceed $20. In default, imprisonment not exceeding twenty days.

PUBLIC FAIR, OR MART.

BY-LAW NO. 112.

1. The second Tuesdays in the months of March, June, September and December, are declared to be days upon which Public Fairs shall be held, and "that no market fees or sums of any kind, except for weighing, shall be imposed or collected on any marketable article or animal brought to or exposed for sale on the public market-place or grounds," and that the "Public market place or grounds for said days shall be the place or ground which may be marked or set out by the proper authority from time to time as the site of the said Public Mart or Fair, instead of the present market for the said days."

2. Not to apply to the sale of meat by Butchers.

AUCTIONEERS.

BY-LAW NO. 117.

1. Auctioneers selling without a license, subject to fine.
2. Auctioneers encumbering the street or highway with their wares, subject to the penalties imposed by the By-law.
3. Licenses may be issued quarterly, half-yearly or yearly.
4. Treasurer of the Town to issue license, on the payment of $40 for a yearly license; $30 for a half-yearly license; $20 for a quarterly license, together with a fee of $1.
5. Treasurer to place all moneys received for licenses to the credit of the General Revenue of the Town, and lay a quarterly statement of all licenses issued, and notify the Town Constables immediately on the expiration of each license.
6. No license to be transferable, or to confer any power upon the clerk, agent, partner, or deputy of the licensee, to act in the place or stead of such licensed auctioneer.
7. Sheriff's sales, or sales under landlord's warrant, not affected by this By-law.
8. Penalty for contravening this By-law, not less than $2 nor more than $20; in default, not less than five nor more than twenty days in jail.
9. All fines to be paid to the Treasurer of the Town.

BY-LAW 162.

Provides for licensing Exhibitions of various kinds
Fee for Circus, $60 for one day.

Fee for Wild Animals alone, $30.

HOLDEN'S DRUG STORE,

(ESTABLISHED 1835,)

CHANGE OF NAME.

The business heretofore carried on by R. HOLDEN & CO., as wholesale and retail Druggists, and managed the past fifteen years by J. C. HOLDEN, will be continued from this date under the name and style of J. C. HOLDEN & CO.

RUFUS HOLDEN,
JAMES C. HOLDEN.

In connection with the above, the subscribers having the past year opened up connections with the leading Drug Houses in Europe, are now prepared to supply every thing in their line, as low for cash as they can be bought in Canada.

ACKERILL'S MEDICINES,

They wish also to draw particular notice to the fact that they have just been appointed by DANIEL ACKERILL, Veterinary Surgeon, sole Agents for his valuable Horse and Cattle Medicines.

COAL OIL.

Having the only Coal Oil Vaults in this part of Canada, we have always a large supply of the best quality on hand which we can sell in quantities at a lower rate than it can be laid down here for from any place in Canada.

RINTOUL BROS., GENERAL AGENTS,

J. PARKER THOMAS, AGENT,

BELLEVILLE.

Chronic Diseases.

DR. JAMES,

ECLECTIC PHYSICIAN,

SURGEON AND ACCOUCHEUR, OCULIST AND AURIST,

Graduate of Eclectic College of Pennsylvania, and Licentiate of the Eclectic Medical Board, Toronto,

WOULD respectfully state to the people of Belleville, and the Counties of Hastings and Prince Edward, that he has resumed his practice among them, and is now treating successfully the following diseases:—Epilepsy, or Falling Fits, in their worst form; Consumption, in its varied stages—with Eclectic remedies. Consumption is no longer an incurable disease; Bronchitis, Catarrh, Asthma, Gravel, Dropsy of the chest, Abdominal Dropsy, General Dropsy, &c.; patients who have been tapped several times are curable under Dr. James' treatment; diseases of the Heart, diseases of the Eye and Ear; Dyspepsia, and Liver diseases, and diseases of women and children, errors of Youth, Nervous Debility, Premature Decay, and all the effects of indiscretion of youth—a sure cure is guaranteed in every case. Also, Cancers cured without cutting, and little pain, Diseases which have hitherto been thought incurable, are now rapidly yielding to his treatment, as his grateful patients are willing to testify. No Calomel, no Mercury, no Mineral Poisons will be administered in any form, in any disease. Paralysis cured by a new treatment.

These Fits, even after they have been pronounced by the medical profession of ten and twenty years' standing, incurable, and when patients are partially insane, are now being restored to sound health by Dr. James.

With Dr. James' remedies Consumption is no longer an incurable disease. When patients have lost the use of one entire Lung they can be restored to good health, so that such persons can attend to their occupations with great comfort to themselves for many years, and ultimately die of other diseases.

OFFICE,—In Neilson's Hall, Front Street, Belleville. Office hours from 11 a.m. to 4 p.m. No charge for consultation.

FIRST PRIZES

HAVE BEEN AWARDED TO

C. IRWIN & CO.,

BELLEVILLE, ONT.,

AT THE VARIOUS PROVINCIAL EXHIBITIONS,

FOR

THE BEST SEWING MACHINE,

AS FOLLOWS:

First Prize, KINGSTON, 1863.
First Prize, HAMILTON, 1864.
Extra and only Prize, LONDON, 1865.
First Prize and Diploma, MONTREAL, 1865.
Extra Prize for the Best Family Sewing Machine, TORONTO, 1866.
First Prize for the Best Machine for all kinds of work, KINGSTON, 1867.

ALSO DIPLOMA FROM PARIS EXPOSITION, 1867,

BESIDES

NUMEROUS COUNTY PRIZES

AT VARIOUS EXHIBITIONS THROUGHOUT THE PROVINCE.

After a careful examination, and a thorough test of Sewing on all kinds of work, for nearly five hours, by WELL-SELECTED and COMPETENT Judges, in Kingston, our Machine was declared to be superior for all kinds of work, over the following machines, viz:

WHEELER & WILSON, New York, this machine took a gold medal at Paris, 1867.
ELIAS HOWE, Jr., New York, this machine also took a gold medal at Paris, 1867.
I. M. SINGER & CO., New York, who, too, pretend to make an Improved Family Sewing Machine.

Also over the various Sewing Machines manufactured in the Dominion—facts which incontestibly prove that WE are making the BEST MACHINES now offered to the public, for all varieties of Sewing, both light and heavy work.

Every Machine Warranted for One Year, if Used with Proper Care.

All parties purchasing Sewing Machines from us, shall have them carefully packed and shipped according to order. Each Machine is furnished with a Gauge, Hemmer, Feller, Braider, &c., &c., complete; and full directions for operating and keeping it in order, where our Agent is not convenient to be called upon.

To Ministers of Religion and Charitable Institutions, a liberal per centage will be allowed as usual; and to all who engage in the sale of our Machines we will sell on such terms as to allow them a large margin for their time and labor.

C. IRWIN & CO., Belleville, Ont.

NEW DOMINION
GALLERY OF ART,

NEILSON'S HALL, BELLEVILLE,

HAS now been furnished with the latest styles of Scenery and Furniture. Arrangements have been made in Europe to receive from this date, all the new and latest styles of Scenery, &c., for Photographic purposes, every month from Paris, &c. A First Class Artist has been engaged to color Photographs in all the Fashionable Styles. The Gallery will also be superintended from this time by one of the best Photographers in America, so that parties wishing to get Photographs in the latest styles and of the very best quality, can rely upon them being all that they are represented to be.

LIFE SIZE PHOTOGRAPHS,

In all the latest styles, that cannot be surpassed either in quality or cheapness. Life size Photographs have become very fashionable for the heads of families, in fact no family should be without them. All work warranted to give satisfaction.

The very best quality of CARD PHOTOGRAPHS only $1.25 per dozen,
And other sizes in proportion.

☞ Remember the New Dominion Gallery of Art, Neilson's Hall, Belleville. Only $1.25 per dozen, just as good and better than you will pay two or three dollars per dozen in other galleries.

JOEL JELLYMAN,
ARCHITECT AND BUILDER.

Plans and specifications for all descriptions of Buildings made to order and works superintended on the most reasonable terms.

CARRIAGE & BLACKSMITH SHOP,

Front Street, Belleville.

HENRY McINNINCH,

IN returning thanks to the people of Belleville and the County, for the liberal patronage extended to him for the past four years, begs to say that he carries on the business on the old site, where he is prepared to do ALL KINDS OF WORK connected with the CARRIAGE and BLACKSMITH BTSINESS, in the best manner, and at the LOWEST PRICES. He has always on hand heavy and light

WAGGONS, BUGGIES, PHÆTONS, &c.,

Which for style, durability and cheapness,

ARE NOT SURPASSED.

In the Blacksmithing Department he has none but *first class Workmen*, and the whole is under the immediate personal superintendence of the subscriber, who overses ALL HORSE SHOEING, and is confident that any one entrusting him with their Horses, will receive every satisfaction.

AND

COAL OIL.

All Orders for Soda Water, Belfast Ginger Ale and Ice promptly attended to.

DENTAL SURGERY.

G. V. N. RELYEA, L.D.S.,

Office established over twenty years.

MR. RELYEA is now using Aluminum as a base for artificial teeth, in the place of rubber. It is as strong, as thin, and as pleasant and durable as gold, and cheaper than rubber.

Mr. R. is also using the NITROUS OXIDE GAS for

EXTRACTING TEETH WITHOUT PAIN,

with great success, having administered it to about 500 patients within the last three years.

The following is the testimony of a few who have taken it:—

"Go and do likewise; fear not."
"Decidedly the most pleasant feeling I have ever experienced."
"Never can describe the pleasant sensation."
"God bless you."
"Long may you live to ease the ache."

Not one half enough said in its favor.

FURNITURE EMPORIUM!

Front Street, Belleville.

LOUIS ROENIGK

BEGS to announce to the trade and the public that, within the last year he has introduced in his Factory NEW and IMPROVED MACHINERY, by which he is now prepared to manufacture

ALL KINDS OF FURNITURE!

As GOOD and as CHEAP as any establishment in the Dominion.

His workmen are all first-class, and he has secured as Foreman the services of one of the best men from the Factory of Jacques & Hays, Toronto. Using the BEST MATERIAL, with the aid of labor-saving machinery and the best of skilled labor, he can compete with the largest manufactories in Canada.

HIS MACHINERY FOR THE MANUFACTURE OF

CANE SEAT CHAIRS

is now complete, and he is prepared to retail as cheap as can be obtained at wholesale in other places.

HE HAS ALWAYS IN STOCK

SOFAS OF ALL PATTERNS;

Couches, Lounges, Divans, Ottomans, Crickets, Bureaus, Pier, Centre, Side, Card, Toilet, Dining, and Work Tables.

Chairs of all kinds, Bedsteads, Mattresses, &c., always on hand.

The UPHOLSTERY DEPARTMENT is complete, and all orders promptly attended to.

☞ *Dealers, Hotel Keepers, and the public generally, are invited to call and examine before purchasing elsewhere.*

UNDERTAKING!

MR. ROENIGK would call special attention to his facilities for furnishing Funerals. His long experience enables him to guarantee the utmost satisfaction in that line. A new and splendid Hearse furnished FREE OF CHARGE. Coffins always on hand. Funerals in the Country as well as in Town promptly attended to.

BRIDGEWATER.

This village is situated in the Township of Elzevir, about four miles from the village of Tweed, and twenty-eight miles distant from Belleville. It is pleasantly situated on the Scootamata River, a deep, narrow stream, one of the tributaries of the Moira, and which at this place, furnishes one of the most valuable water power privileges in the County. Thirteen years ago, Bridgewater was comparatively a wilderness; now it numbers about 500 inhabitants. It is chiefly the property of the Hon. Billa Flint, under whose encouraging hand it has sprung into existence and prospered. This gentleman has erected here the largest flouring mill in the County, and surpassed by few in Canada. It has five run of stone; and connected with it are oat and barley mills, all having the latest and most improved description of machinery. He has also a large saw mill, and on the same privileges several factories have been erected within the last two or three years, among which are the following: a large foundry carried on by Mr. W. Garrett, where all kinds of stoves, plough and other castings are made; an extensive chair and cabinet factory carried on by Mr. Frost, which has facilities for the manufacture of everything in that line of business. There is an axe and edge tool manufactory, carried on by Mr. J. W. Robinson, which has all the latest and improved machinery for the manufacture of scythes, axes and other edge tools. Several prizes have been taken at the Provincial Exhibition for work from this establishment. In the same building, Mr. V. J. Warren, formerly of Belleville, is extensively engaged in the manufacture of hammers, the demand for which is continually increasing. His factory is supplied with the best of machinery, and it turns out 40 dozen hammers per day. A tannery is carried on by Mr. John Bragg, which manufactures all kinds of upper and harness leather. This tannery has been rebuilt recently, and is capable of tanning 1500 hides a year. A woolen factory carried on by Mr. George Wolfe, does a very successful business. In connection with this factory

BRIDGEWATER TANNERY.

JOHN BRAGG,

Respectfully informs his friends and the public that this Tannery has been recently rebuilt and new and improved machinery added. He is prepared to manufacture all kinds of Leather, in a style not surpassed by any in the County. Having the best of workmen, and all work being done under his own supervision he can guarantee satisfaction.

BRIDGEWATER FOUNDRY,

WM GARRETT,

MANUFACTURER OF

Ploughs, Cooking, Box and Parlor Stoves,

AGRICULTURAL CASTINGS, &c., &c.,

BRIDGEWATER, C. W.

SCYTHE & EDGE TOOL FACTORY,

BRIDGEWATER, TWEED,

J. W. ROBINSON,

Begs to inform the trade of Canada, that he is prepared to Manufacture

SCYTHES OF SOLID CAST STEEL,

Drawing Knives, Stave Knives, and Straw Cutter Knives,

MOWING MACHINE KNIVES, AXES,

Which he is prepared to furnish at fair prices. His machinery is complete, and he has facilities for Manufacturing not surpassed in Canada.

BRIDGEWATER HARNESS and SADDLERY SHOP

WM. SPENCER,

Informs the inhabitants of Elzevir and the surrounding Townships that he his prepared to manufacture all kinds of Harness, double and single, and Saddles in a style which cannot be surpassed. He uses none but the best of Leather and can warrant his work to be of the best description. All kinds of repairing done on short notice.

is a knitting machine for knitting drawers and shirts. It is also supplied with an improved weaving machine, and, in fact, has all the latest improved machinery for a first-class carding and woolen factory. There is a saddlery and harness establishment owned by Mr. William Spencer, which does a good business; a large tin manufactory of Mr. J. W. Turner, and other branches of industry, which aid in the material prosperity of the village.

During the last four years a number of new buildings have been erected, amongst which is a magnificent church, built entirely of marble, and as neat a church as can be found in the County. Several new dwellings have gone up within the last year or two, which ornament and add to the beauty and prosperity of the village. Among the public buildings is a large school house, built of marble, and well supplied with maps, globes, &c. One is surprised to see in such a new country, and so far in the interior, so many substantial and costly buildings, some of which would be considered an ornament to large cities. The public buildings, in their style and architecture, evince remarkably good taste, and the neat cottages, with their well-cultivated gardens, pleasant lawns and gravelled walks, strike the stranger as evidences of thrift and prosperity. Within the limits of the village, very extensive quarries of white marble exist, and in the immediate vicinity, marble, iron ore, lead and other minerals abound.

The gold excitement had a visible effect on the business and prosperity of the village. Gold was found in several localities within the limits of the village and in the immediate vicinity, and from the peculiar quality of the quartz and repeated tests by washing and assaying, it was confidently anticipated that large results would follow. To accommodate the large additions made to the population, and in anticipation that hundreds of gold seekers would flock to this section of the County, the Hon. Billa Flint had the Temperance Hotel kept by Mr. William Wemp, enlarged and increased in height, and had it thoroughly refurnished and fitted up with every conveniences of a first-class house. In size and appointments it is the largest hotel in the county, and though too large for the accommodation of the present population and travellers, it is believed that not many years will elapse before it will be too small for the wants of the community. The Hon. Billa Flint had

BILLA FLINT.

a quartz mill erected at Bridgewater, which was worked for some time, but the results proved that the separating process was deficient, and until some efficient process has been obtained for separating the gold from the quartz, operations at the mill have ceased.

The Township Hall, a fine building, is located at Bridgewater.

The Wesleyan Methodists, Episcopal Methodists and Bible Christians, each have service in the village, the Wesleyan Methodists on the Sabbath both at 11 o'clock A.M., and 6 P.M. They have a Sabbath school at 3 o'clock, with an average attendance of 40.

Bridgewater is supplied with an excellent village Library, comprising over 100 volumes.

THURLOW MILLS,

CANIFTON, ONT.,

JONAS CANNIFF, Jr., Proprietor.

FLOURING AND GRISTING IN ALL ITS BRANCHES.

COARSE GRAINS CRACKED AND GROUND.

STIMERS' HOTEL,

SIGN OF THE CROSS KEYS,

CANIFTON.

J. L. STIMERS, - - - Proprietor.

THIS House is kept on first-class principles and has excellent accommodation for MAN and BEAST. The Bar is supplied with Choice Wines, Liquors and Cigars. Good Yard and Stabling, and a careful hostler.

CANIFTON.

Canifton is situated on the River Moira about three miles from Belleville. It has some of the finest water power privileges to be found in the County, on many of which are some large factories and mills. The village was first settled by the late Jonas Canniff, Esq., from whom it took its name. Within the past few years a marked improvement has taken place in the appearance of the village, a number of new buildings have been erected, mills and factories have been enlarged, School houses have been built, and other evidences of thrift and prosterity are manifest.

Among the mills and factories is the woollen factory belonging to Mr. Alexander Sutherland. It has three carding machines, one fulling machine, four looms, a spinning jenny, and all the machinery essential in the manufacture of tweeds, satinetts, &c. Its capacity is 100 yards per day of 12 hours.

There are two tanneries, owned respectively by Mr. D. Mullet, and Mr. Osborne.

An extensive saw mill, which is owned by Mr. A. Sutherland, cuts from 25,000 to 30,000 feet of lumber daily. In addition to single upright and circular saws, it has a gang of 26 saws.

There is another saw mill owned by Mr. Jonas Canniff, jun., and leased by Mr. Benninger, which manufactures from 12,000 to 15,000 feet of lumber every 24 hours.

A short distance from Canifton towards Belleville is the saw mill of Mr. Wm. Stinson. It has recently been thoroughly overhauled, enlarged and capacity greatly increased. It has 57 saws and is capable of cutting 40,000 feet of lumber every 24 hours. During the last season 4,000,000 feet of lumber were manufactured.

There are two flouring mills, one owned by Mr. Jonas Canniff, jun., which has two run of stone, and is capable of turning out about fifty barrels of flour daily; the other, which is owned by Mr. A. Sutherland and leased by Mr. Wm. Lingham, has three run of stone, and manufactures from 60 to 70 barrels of flour every 24

hours. There are some other factories of less importance, one or two small stores, groceries, cooperages, a pottery, carriage, and blacksmith shops, &c. It has one Church, built of stone, and belongs to the Episcopal Methodist denomination; a new Church for the Wesleyan Methodists is in process of construction. It is to be built of stone and will be an ornament to the village. The Church of England holds service in the same building once in two weeks. The Wesleyan Methodists have service in the court room every Sabbath afternoon at three o'clock. The education of the youth is well cared for, there being two school-houses, both first class brick buildings, and well supplied with maps, globes, &c.

Canifton possesses remarkably good facilities for manufacturing purposes, and whatever progress it may make hereafter will be dependent upon the prosperity of its manufactures. Population about 600.

Episcopal Methodist Church.—Rev. L. A. Betts, Pastor.

Wesleyan Methodist Church.—Rev. J. E. Howell. M. A., Pastor.

A Good Templar's Lodge exists in the village and is in a flourishing condition. A Branch Bible Society is in successful operation.

The Canifton Cheese factory which has a capacity of 600 cows, is located in the village. Francis Brenton, President.

Adams, Chas., sailor.
Allingham, Hugh, cooper.
Anderson, Rev. H.
Baker, Mrs.
Barnes, Mrs., widow.

CARLOW.

This Township is bounded on the north by the Township of Bangor, on the east by the Township of Raglan, on the south by the Township of Mayo, and on the west by the Township of Monteagle, It was surveyed in 1866, by Mr. C. F. Aylsworth, and contains an area of 48,308 acres, including water and roads. Mr. Aylsworth in his report says: "The greater portion of the Township is composed of excellent farming land. The soil is principally sandy-loam, and the timber chiefly maple, beech and basswood, (that is, on the best land.) The south-east corner of the Township, about 2,500 acres, is rough, and, in some places, very rocky. There were in 1867, twenty clearings, comprising in all 270 acres, and the settlers all appear to be doing well, and in very good circumstances. The crops generally have been good: the average yield of wheat to the acre, is 30 bushels, oats about 40, and hay from 2 to 2½ tons per acre. Roots and vegetables do well in this Township—in some instances 200 bushels to the acre have been raised.

The Township is well watered by lakes, rivers and creeks; the lakes and rivers being plentifully supplied with fish, such as salmon, trout, pike, bass, perch, and speckled trout. The York Branch of the Madawaska River, which runs through the Township, is a splendid stream of water, on which are two good mill sites, with a plentiful supply of water all the year.

DUNGANNON.

This Township is bounded on the north by the Township of Monteagle, on the east by the township of Mayo, on the south by the township of Limerick, and on the west by the Hastings Road, and the township of Farraday. It contains 54,337 acres; part of which was surveyed in 1857 and part in 1864. The township is naturally divided by York River and its main tributary Egan's Creek, into three sections, viz: the north western, south western and eastern. The first mentioned section is generally rugged and hilly, some of its hills attaining the magnitude and continuity of mountains, and about a fourth of the whole fit for settlement. The south western section, containing about 16,000 acres is better adapted for agricultural purposes, about one-half being fit for settlement. The eastern section, containing about 14,000 acres, consists of low, flat hills, alternating with narrow swamps and marshes along the principal streams. The prevailing timber is pine. This township is well watered, the principal streams being York River, Egan's Creek, and L'Amable's Creek. The bed of York River is deep and narrow, current swift and high banks generally to Egan's Farm, were it becomes broader and less swift, with low banks and large marshes. The lakes are few and small, shallow and muddy.

Wilson, John, yeoman, lot 27, 10th concession.

ELZEVIR.

The Township of Elzevir, although comparatively new, is one of the most flourishing in the North Riding of the County. It is bounded on the north by Grimsthorpe, on the east by Kaladar, on the south by Hungerford, and on the west by Madoc. Elzevir has been a good lumbering district, and its timber resources are by no means exhausted. The river Scootamatta, in the eastern part of the township, Black Creek, in the western extremity, and the Little Scoot, more in the centre, tributaries of the Moira, furnish ample facilities for bringing the lumber to market. These streams have excellent water-power privileges, and at different points, mills and factories have been erected. Villages have also sprung up as if by magic, the most important of which is Bridgewater,—a description of which will be found in connection with the alphabetical list of names for the village. Queensboro' is a small village, in the western extremity, situated on Black Creek. Mr. Daniel Thompson, the principal proprietor, has a large saw mill and flouring mill at this point. The soil of the township is varied; in some parts fertile and productive, and in others rocky and mountainous. This township abounds in various kinds of minerals. Iron ore of a good quality has been found near the village of Bridgewater, and explorations indicate extensive quantities. Copper and lead have also been found, chiefly on the surface, and mica has been found in large quantities. The best of white marble, pronounced to be as good as the Vermont marble is found in great abundance in different parts of the township.

Gold has been found in several parts of Elzevir, at Bridgewater and in other places, a description of which will be found in another part of this book. The population of the Township is about 2500.

Township Council, 1869.—Hon. Billa Flint, Reeve; J. W. Turner, D. Thompson, Robert Barry, John G. Rhodes.

Township Officers.—C. R. Flint, Clerk; O. S. Frost, Treasurer; John Hailstone, Collector.

Vance, Samuel, yeoman, Hastings road.
Vance, William, yeoman, Hastings road.

FRANKFORD.

The village of Frankford is situated on the river Trent, in the Township of Sidney, and is distant from Belleville fourteen miles, Trenton seven miles, and Stirling seven miles. Population about 600. It has a number of mills and factories, which are supplied with water from Cole Creek, which at this point empties into the river Trent. The flouring mill is worked by Mr. W. Craske, and is supplied with excellent machinery. There are two saw mills owned by the Messrs. Roblin; an extensive woolen factory, owned by Mr. John S. Huffman; a foundry, owned by Mr. Roblin, a tannery, by Mr. Ostrom. A pump factory, carriage shops, cabinet and cooper shops, blacksmiths, and nine or ten first-class country stores. The village can boast of having one of the finest school-houses in the county. It is a substantial stone building, 34 × 54 feet. There are three very handsome churches, with spires—two of brick and one of stone—belonging respectively to the Wesleyan Methodists, Episcopal Methodists, and the Roman Catholics. Scarcely any progress has taken place in the village during the past four years, and the population remains about the same as at that period.

The village can boast of having one of the finest manufacturing water privileges in Canada. During the last year, Sills & Brother have erected a fine large stone Paper Mill capable of turning out one ton per day. The Messrs. Roblin have also during the year, finished a dam across the river Trent by which there is created water power to the extent of fifteen hundred horse power suitable for any kind of Manufacturing.

Wesleyan Methodist Church.—Rev. J. G. Phelps, pastor. Hours of service, 10 A.M, and 6 P.M.

Episcopal Methodist Church.—Rev. Wm. Campbell, Pastor. Hours of service, 10 A.M. and 6 P.M.

W. CRASKE,

FRANKFORD MILLS, FRANKFORD,

Manufacturer of Flour, and dealer in all kinds of Grain.

THIS Mill has been thoroughly repaired and fitted up with new Machinery, and is in every respect equal to any Mill in the County.

Keeps on hand and for sale at the lowest remunerating prices,

A LARGE STOCK of Wheat, Rye, Buckwheat, Flour, Oatmeal, Sifted Corn Meal, Bran, Shorts, &c.

Will pay at all seasons of the year the Belleville Market price for

Wheat, Rye, Corn, Barley, Oats, Peas, Buckwheat, &c.

Having leased the SAW MILL belonging to the late Chas. Harris in Murray, he is prepared to do all kinds of work in a satisfactory manner and at moderate prices.

Young, Amos, miller, Mill st.

HUNGERFORD.

This township is bounded on the north by Elzevir and Madoc; on the south by Tyendinaga; on the east by Sheffield, in the County of Lennox; and on the west by Huntingdon. It has the largest area of any of the townships, containing 546 lots, in farms of 200 acres each, equal to 109,200 acres, a very large portion of which is well adapted for the purpose of raising grain. This township is well watered, lakes, rivers, and rivulets abound in every direction. The Moira river runs through the township, and affords at different points valuable water-power privileges. It contains several rising villages; Tweed and Thomasburg are the most promising. Descriptions of these places will be found in connection with the list of names for these villages. In the eastern portion of the township there is a fine tract of land, owned by A. L. Bogart, Esq., of Belleville, who has, within the last few years, converted the wilderness into fruitful and well-cultivated fields, and built up a flourishing settlement.

On Mr. Bogart's property, as well as in other parts of this township, Gold has been discovered, and a Quartz mill has been erected. Reference to these mines as well as other minerals discovered in this township, will be found in another part of this book. Adjoining Tweed is the village of Georgetown, situated on the Stoco Lake. Here is located the Town Hall of Hungerford, a large and substantial frame building. The growth of this township in population and wealth has been most rapid. The soil is very productive; and in travelling through the township, you see every where, evidences of industry and good farming; you will see as substantial farm-houses commodious barns, well-cultivated fields, and well stocked farms, as in the front townships. In 1839 the population of Hungerford was 646; in 1860–61, according to the census returns, the number of inhabitants was 4,354: it has now a population of not less than 5,000.

Township Council, 1869.—Felix Gabourie, Reeve; Geo. Stokes, Deputy Reeve; John Graham, William Rath, and Richard Gabourie, Councillors.

Township Officers.—George Howell, clerk; Joseph Elliott, Treasurer; John Carleton, Collector.

Fourth Division Court.—Robert McCamon, Clerk; Post office address, Tweed.

HUNTINGDON.

The Township of Huntingdon is bounded on the north by Madoc, on the south by Thurlow, on the east by Hungerford, and on the west by Rawdon. It is situated in the North Riding of the county, and is one of the most populous and flourishing in that section. The soil is generally fertile, and in most parts of the township, in a good state of cultivation. Within the last few years considerable progress has been made in building. Substantial brick and stone houses have taken the place of log and frame,—and commodious barns and sheds have replaced those no longer large enough to contain the increased produce of the land. The Town Hall, a substantial stone building, is situated in the second concession, on lot 11, at a village called Moira.

In 1839, the population of this Township was but 690; in 1850, it was 2,548; in 1860-61, according to the census returns it was 2,917; the estimated number of inhabitants now within the Township is 3,500.

Township Council, 1869.—Thomas Emo, Reeve; James Findlay, Deputy Reeve; Richard Newton, John R. Sills, and Mathew Robinson, Councillors.

Township Officers.—James J. Ryan, Clerk, William Morton, Treasurer; John B. Fox, Collector; John Gerow, Tavern Inspector; Owen R. Ketcheson, Surveyor; John B. Fox and Gilbert Sharp, Constables.

Commissioners of Affidavits.—Thomas Emo and James J. Ryan.

7th Division Court.—Office at Town Hall, James J. Ryan, Clerk. Post office address, Moira.

Post Offices.—Moira, 2d concession, lot 11, Henry Ostrom, Postmaster; West Huntingdon, 2d concession, lot 1, P. Luke, Postmaster; Ivanhoe, 7th concession, lot 7, Thomas Emo, Postmaster.

Churches.—Wesleyan Methodist, stone Church, lot 12, in the 3d concession, Rev. David Ryan, Minister; also in lot 8, in the 8th concession, Madoc road, Rev. Thomas Lawson and Rev. Mr. Ford, Ministers. Bible Christian, lot 6, in the 8th concession, Rev. Mr. Bodle, Minister. Episcopal Methodist Church, on lot 2, in the 3d concession, Madoc road. Rev. D. Pomeroy, Minister; Presbyterian Church, on lot 7, in the 7th concession, Rev. Mr. Goldie, Minister.

LAKE.

This is the first of the tier of townships on the west of the Hastings road. For municipal purposes it is partly connected with Marmora, and partly with Tudor. It was surveyed in 1827, but very little has been done towards its settlement. Copper and lead ores in large quantities have been found in different parts of this township.

LIMERICK.

This is the second Township on the east side of the Hastings Road. It is bounded on the north by the Township of Dungannon, on the east by the Township of Cashel, on the south by the Township of Tudor, and on the west by the Hastings Road. It contains 54,139 acres, including roads and water, and was partly surveyed in 1857, by Q. Johnson, and in 1863, the residue (40,539 acres) was surveyed by H. A. F. McLeod. About one-fifth of the land is good and well fitted for the purpose of agriculture; three-tenths may be classed as fair, and is rather indifferent for farming purposes, being shallow and rocky; the remaining half may be put down as poor, being light, sandy and rocky, quite unfit for farming. There are some extensive beaver meadows, from which the settlers and lumbermen mow quantities of hay, and which, with a little cultivation, would become excellent meadows. The largest part of the Township is covered with hemlock, pine and cedar. The Township is well watered with streams and lakes, the largest of them, Salmon Lake, covers 1539 acres. Large quantities of salmon are caught in the lakes. Deer are very numerous, and are a great assistance to the settlers. There is also a good deal of trapping on the lakes and rivers.

MADOC (VILLAGE).

The village of Madoc is situated on Deer Creek, in the centre east and west, and near the southern boundary of the Township of Madoc. It is distant north from the town of Belleville about 26 miles, to which place a fine gravel road runs. It is about midway between the east and west boundaries of the County, and nearly central in the North Riding. Roads extend on the south-east, twelve miles to the village of Tweed, in Hungerford; on the east, nine miles to Bridgewater, in Elzevir; north-east, nine miles to Queensboro', in Elzevir; north, ten miles to Bannockburn, in Madoc; west, eleven miles to Marmora village, in Marmora; south-west, to Stirling, sixteen miles in Rawdon. It is principally surrounded by an agricultural country, producing wheat, rye, barley, oats, peas, &c.; but it is also rich in minerals. Two miles to the north-west are large mines of iron ore, which have been successfully worked by U. Seymour, Esq., and others; but the carriage over the old mud road to market was too much of a barrier, and the works were temporarily suspended. It is expected that steps will soon be taken to put them again into operation. East, west, north and south from the village, discoveries have been made in gold, and a large number of quartz mills have been erected and are in course of erection. There is a quartz mill in the village, the property of the Merchants' Union Mining Company. Within half a mile of the village, is a splendid quarry of marble. The extent of these deposits is, as yet, comparatively unknown; though from the formation and the excavations which have taken place, there is no doubt of their existence in large quantities, and when fully developed must make Madoc village a place of very great importance. From the extensive mineral resources of this districts and being surrounded by a fine agricultural country, and being the outlet of the Hastings road, it commands a steady and safe business. As that road is opening up, and the country is settling with an industrious and enterprising population, business must increase, and the village become an important town.

The chief road of the County runs through the village, extending north of it over 80 miles, and about 100 miles north of Belleville. Thirty-eight miles of this is a good gravel road, and the balance is now being put in a most efficient state of repair by the Government. Since the last Directory was issued, a large population has found its way into the Townships north of the York Branch, and large tracts of good land being found, there is every prospect of its development adding materially to the wealth of the County, and particularly to Madoc village, it being the outlet through which the wealth of that section of the country passes. Already large supplies of merchandise of various kinds are daily shipped from this place to that part of the country, in exchange for cash received by the settlers from the large lumbering firms in that section, for their produce. The village made but slow progress for some years after the first cluster of houses took that name; but when the gravelled roads were opened from Belleville, and the country on the Hastings road began to be developed, a new life was infused into it, and the gold excitement of the last two years has also made a decided change in the character of the place. A large number of new buildings have been erected, among which can be enumerated a new church, extensive improvements to churches already erected, two large buildings for hotel purposes, and a quartz crushing mill. There are two flouring and grist mills; one in nearly the centre of the village. The building is of frame, three and a half stories in height, and has two run of stones. The arrangements of the mill are of the most convenient kind, and the machinery of the most improved description. The mill is supplied with water by a tank leading from a dam about 150 feet up the stream. The capacity of the mill is from 70 to 80 barrels per day. In the southern part of the village is another flouring mill, owned by Mr. Charles Kirk. This mill was originally intended to be run by steam during the summer, when water was low; but it was deemed too expensive, and has been dispensed with. The mill has two run of stones, and is principally used for gristing purposes.

The village possesses five churches—Presbyterian, Church of England, Wesleyan Methodist, Episcopal Methodist and Roman Catholic. There are two grist mills, one saw mill, five general

stores, six grocery stores, one clothing store, one druggist, one tin and hardware shop, three hotels, one foundry, two planing mills, one carding and fulling mill, four carriage shops, four blacksmiths, one tannery, one harness shop, two cabinet shops, four shoe shops, two tailors shops, five millinery shops, two cooper shops, two butchers, two daguerreian artists, a watchmaker, a brickmaker, two painters, two bakers, a telegraph office, three law offices, one pump maker, one livery stable, a billiard room.

In its relations to the rest of the County, this village is one of the most important in it. It is in the centre east and west, and occupies a central point north and south. North of Hog Lake about two miles, the road that crosses the lake, by bridges from island to island—and the only place where bridges could be built—passes through the village, consequently a large section of country, comprising not less than twelve Townships, must pass through it in order to reach Belleville. It is the central point in the North Riding, and in case of a division of the County, will likely be the County Town. It is remarkable for the enterprise of its inhabitants, when the size of the place is taken into consideration. First class stores, first class hotels, large and handsome churches, and a superior building for school purposes.

The Madoc *Mercury* is published weekly in the village, by Mr. A. Smallfield.

There is a fine brick school house, in which a free school is kept, under the charge of a male and a female teacher. The present teachers are Mr. J. W. Dafoe, and Miss E. Mowatt.

A daily mail leaves every morning for Belleville, and returns every evening. The population is about 1,000.

Police Trustees.—John Dale, D. C. Brown, Edward Mouncey.

Wesleyan Methodist Church.—Rev. J. Lawson and Rev. E. Ford, Pastors. Hours of Service, half-past ten, a. m., and half-past six o'clock, p. m. Sabbath school with an average attendance of forty.

Episcopal Methodist Church.—Rev. D. Pomeroy and Rev. J. Sparrow, Pastors. Hours of service, half-past ten, a.m., and half-past six, p. m. Sabbath school with an average attendance of forty.

Presbyterian Church.—Rev. David Wishart, Pastor. Hour of service, eleven o'clock, a. m. Sabbath school with an average attendance of sixty. Library contains 600 volumes.

Church of England.—Rev. M. Mockeridge, Pastor. Dr. Loomis and T. S. Agar, Churchwardens. Hours of service, half-past ten o'clock, a. m. Sabbath school with an average attendance of thirty.

Roman Catholic Church.—Rev. M. Lawlor, Priest. Hour of service half-past ten o'clock, a. m.

Township Library.—The library contains about 300 volumes, of a miscellaneous character. Any resident of the township can obtain the loan of a book for two weeks, on payment of one cent. E. Mouncey, librarian.

Adams, H., carpenter, with J. Fitzgerald.
Allt, John, clerk, with A. Wright.

Maybee, A., painter, south side Cooper street.

Medical Hall, Durham St., Madoc.

C. G. WILSON,

CHEMIST & DRUGGIST,

DEALER IN

Drugs, Chemicals, Perfumery, Patent Medicines, Dye Stuffs, Paints, Oils and Varnish; Stationery and School Books.

E. MOUNCEY,

MERCHANT TAILOR

AND CLOTHIER,

MADOC VILLAGE,

NEW STORE.

WILLIAM WARD,

Has established a Store in Madoc, where he has opened out a good Stock of GROCERIES, BOOTS and SHOES, and CROCKERY. His Stock of Groceries will always be found complete; the Boot and Shoe Department has everything suitable for wear; and the assortment of Crockery will be varied and complete.

Doing business on the ready pay system, his goods have been marked at a small advance on the cost, and he feels warranted in saying that he can give as good bargains as can be obtained in Belleville.

Remember the Store in the ARMSTRONG BUILDINGS, adjoining Hudgin's North American Hotel, MADOC.

LOUIS WEISS,

DEALER IN

BOOTS AND SHOES,

DURHAM STREET, MADOC VILLAGE.

A GOOD ASSORTMENT OF BOOTS AND SHOES OF ALL SIZES AND DESCRIPTIONS KEPT CONSTANTLY ON HAND.

REPAIRS EXECUTED WITH NEATNESS AND DESPATCH.

Wood, Thomas S., east side Durham street.
Wright, Andrew, grocer, baker and confectioner, west side Durham street.

MADOC.

The Township of Madoc is situated in the North Riding of the County, and has made more rapid progress than any other municipality in the back country. It is bounded on the north by Tudor, on the east by Elzevir, on the south by Huntingdon, and on the West by Marmora. The principal village—Madoc—has gone ahead with remarkable rapidity, and bids fair soon to be a large and prosperous town. A description of the village will be found in connection with the alphabetical list of names.

Bannockburn, situated in the 5th concession, lot 28, is a place of growing importance. It is the property of James Brown, Esq., of Belleville, and possesses capital sites for mills and factories. A flouring and two saw mills are in operation. The mills are leased by A. A. McCallum, Esq., and there being a good supply of water during the greater part of the season, a large and successful business is being done. Here, too, the gold excitement has resulted in the erection of a fine Quartz Mill for the Toronto and Whitby Mining Company, whose property is close by, and where gold has been repeatedly found in paying quantities. The mill was built by Messrs. G. & J. Brown, founders, Belleville, and is one of the finest in the gold region.

Eldorado, also in the same township, is famous as the location of the celebrated Richardson mine, and for being the rendezvous in the fall and winter of 1866–67 of gold adventurers from all parts of this continent. A village sprang up here as if by magic, and in six months after the discovery of gold, about one hundred buildings had been erected. Village lots were sold at $100 to $200 each, and places for a large town were laid out. Three or four quartz mills were erected, and every thing indicated an extensive and prosperous business. The reaction came, however, before half the expectations of gold seekers were realized, and now gold operations at this point, with the exception of the Richardson mine, are nearly at a stand still. It is the belief, however, of

experienced miners from other countries that the Richardson hill is rich with gold, and that quartz sufficient will be found there to keep half a dozen mills running profitably for the next thirty years. The gold discoveries here, as well as elsewhere, will be found treated in a more elaborate manner in another part of this book.

The soil in most parts of the Township of Madoc is excellent for agricultural purposes. One of the best evidences of this fact are the flourishing settlements, the comfortable farm-houses, the commodious barns and stables, the well-cultivated fields, which meet one at various points throughout the township. In addition to its being a good agricultural township, it abounds in mineral wealth. The iron ore of Madoc has been pronounced by the highest authority, not inferior to any in the world, but the mines have not yet been worked to any great extent.

There are also lead mines and valuable quarries of marble and lithographic stone. The change in the Township during the last four years is very remarkable. Stone farm houses have taken the places of log and frame, and commodious barns and stables have replaced the dilapidated sheds and small roofs that covered the farmer's stock from the winter storms. The present population of the Township is about 5,000.

Township Council, 1869.—A. F. Wood, Reeve; Thos. Cross, Deputy Reeve; James Blair, S. Ross, J. Tassie.

Township Officers.—John R. Ketcheson, clerk; E. Mouncey, treasurer; D. Nicholson, collector; Henry Dunn, License Inspector.

Post Offices.—Madoc, E. D. O'Flynn, Post Master; Cooper, 9th concession, lot 22, Thos. Allen, P.M.; Bannockburn, 5th concession, lot 28, W. H. Carpenter, P.M.; Eldorado, R. Dixon, P.M.

6th Division Court.—G. D. Rawe, clerk; P. O. address, Madoc.

Presbyterian Church.—One in Madoc Village, St. Peters; one at Allen's settlement, St. Columba; one at Rupert's, St. Johns, Rev. D. Wishart, minister.

Church of England.—One at Madoc Village, Rev. Mr. Mac keridge, Incumbent.

Wesleyan Methodist Church.—One in Village of Madoc, and one at Hazzard's Corners; Rev. J. Lawson, and Rev. M. E. Ford, ministers.

Episcopal Methodist Church.—One in Village of Madoc, Rev. D. Pomeroy and Rev. J. Sparrow, ministers.

Bible Christian Church.—One at Hazzard's Corners, no minister.

MARMORA (VILLAGE).

The village of Marmora is known all over Canada, and in many parts of the Old World, not on account of its size and wealth, but from its connection with the Marmora Iron Works, which were established many years ago. These works were erected at a cost of over $100,000, and a large amount, estimated at $300,000, has been expended upon them since. Tons and tons of iron have been made at Marmora; and at one time the village presented a busy scene; but through bad management, and the difficulty of transportation, operations at the mines have been at a stand-still for some years. Since the last publication of the Directory, the Marmora Works, with all the Company's lands, have been amalgamated with the Cobourg and Marmora Railway Company. Mining operations have been carried on at the ore bed in Belmont, and large quantities of ore have been taken out and conveyed to Cobourg, and from thence shipped to the United States, where it is manufactured. At this point the ore is apparently inexhaustible, and the quality is improving the deeper the excavations. It is believed that, during the next season, additional smelting works will be erected at Marmora Village by the Cobourg Company, and operations on an extensive scale carried on.

Some improvements have been made in the Village within the last year or two, amongst the most important of which is the erection of a new grist mill by Messrs. Pearce & Son. It is a fine building, three stories high, has two run of stone, and all the machinery of a first-class flouring mill. A new saw mill has also been built, and a carding and woollen factory is in course of construction. Business has greatly improved within the last two or three years. Several new stores have been established, and other branches of trade are in a flourishing condition. The water privilege here is not excelled in the County, and if the Marmora Iron Works are

Watson, Robert, teamster, with A. S. Page & Co., Forsyth street.
Watters, Daniel, clerk, with A. M. Chisholm.
Weese, Henry, shoemaker, McGill street.
Weese, Nathaniel, laborer.
Wilson, John, yeoman, Madoc street.
Wilson, William, teamster, Madoc street.

MARMORA.

The Township of Marmora is situated in the North Riding, and is bounded on the north by Lake, on the east by Madoc, on the south by Rawdon, and on the west by Belmont, in the County of Northumberland. This Township attracted early attention from the immense deposits of iron ore found within its borders. A description of the iron works will be found in connection with the village of Marmora. In addition to iron ore, copper and lead have been found in abundance in the Township, and valuable beds of lithographic stone have recently been discovered within the limits of the village, and immediately adjacent thereto. Marble is also found in great abundance in the township, and is of excellent quality. The Township abounds in mineral wealth; and no place in Canada presents a better field for the enterprising capitalist. There are some good lands in the Township, and they are chiefly in the hands of those who may be regarded as thrifty and well-to-do farmers. During the last year gold has been found in various parts of the Township, and in conditions which induce the belief that the Township will turn out to be the richest gold region in the County. This subject, however, is treated at greater length in a general description of the mineral wealth of the Hastings District. In 1839, the population of Marmora and Lake was 369; in 1860-61, it was 1699; now it is estimated at 2000. The Township Hall is located at the village of Marmora.

Township Council, 1869.—Hugh Jones, Reeve; Solomon Johns, Solomon Johns, jr., Wm. Leonard and Geo. Wiggins, Councillors.

Township Officers.— Wm. Phillips, Clerk; Geo. W. Bleeker, Treasurer.

Post Office.—Marmora village, B. Johnson, Postmaster, Shamrock, lot 15, 6th concession.

10*th Division Court.*—B. Beddome, Clerk; Post Office address, Marmora.

Churches.—Services are held in the Township by Rev. M. Groutt, Church of England; Rev. J. Doxsee, Wesleyan Methodist; Rev. J. V. Adams, Episcopal Methodist; Rev. Mr. Goldie, Presbyterian; and Rev. E. P. Lalor, Roman Catholic.

Wright, George, yeoman, 5th concession, part lot 24.

MILL POINT.

This enterprising Village is beautifully situated on the Bay of Quinté, at the north-eastern extremity of the County. It is seven miles from Napanee, eight from Shannonville and seventeen from Belleville. Situated for the most part on a slope of ground, it commands a magnificent view of the Bay of Quinté, which at this point presents some of the finest views to be found on its waters. Stretching towards the south there is what is known as the "Long Reach," a narrow part of the Bay, some miles long with high bluffs on either side; to the east the eye stretches far away up the Napanee River, which empties into the Bay not far from Mill Point; and to the west, looking up the Bay, there is a magnificent landscape, and as beautiful views as the eye could wish to rest upon.

Mill Point was first established during the season of 1849, by Thomes Y. Howe, Lewis E. Carpenter, and H. B. Rathbun, from Auburn, N. Y. At that time, there was but one building on the present site of the Village. The Mill was started in 1849, and it commenced sawing in 1850. During that year, the number of feet of lumber manufactured was probably half a million feet. Since that period, the capacity has gradually increased, last year's returns showing over 13,000,000 feet of lumber manufactured besides 2,250,000 lath, 2,000,000 heading, and 750,000 shingles. The property some years since came wholly into the possession of H. B. Rathbun & Son, and evidences of their skill, enterprise and taste are everywhere visible, in the neat dwellings erected for themselves and their workmen, the ornamentation of their grounds and the general appearance of thrift and prosperity which are everywhere to be seen. The mill is a model of what a mill should be. It has about 250 saws, besides those in the manufacture of edging, butting, lath and heading. The saw logs used at the mill are chiefly brought down the Salmon and Moira Rivers, though a considerable portion comes down the Napanee

and Trent Rivers. They are towed in rafts to the mill by steam tugs belonging to the firm. These logs are obtained at a distance of from 40 to 85 miles back. A large number of vessels are kept constantly employed in the transportation of lumber and supplies for their immense lumbering shanties, most of which are owned by the firm.

An extensive ship yard, is attached to the property, which during the last year or two has been greatly increased in capacity. Some of the largest and finest vessels that float on our lakes were built at Rathbun's Ship Yard, and to give an idea of the extent of the business here we may mention that during the last season, not less than thirty vessels were on the ways. The yard has all the appurtenances for hauling out the largest ship that floats, and all the facilities for building and repairing vessels. In the extensive lumbering district owned by this firm, everything is obtainable for building a vessel from the keel up. The situation is excellent, and in the hands of such enterprising men as the Messrs. Rathbun, it is destined to become one of the largest ship yards in the Dominion.

The docks are well constructed, with a capacity of loading fifteen vessels at one time. A large quantity of grain is annually exported from this port. The population is about 800, the principal part of the adult male portion of which are employed by the Messrs. Rathbun. A number of new buildings have been erected during the past year, among which is a large frame Church, which is designed for the accommodation of different religious denominations, and there are other unmistakable signs that the place is going ahead.

MILLTOWN.

Is situated in the Township of Tyendinaga, about one mile east of Shannonville, on the Belleville and Richmond Road, and on the line of the Grand Trunk Railway. The Salmon River runs through it, and furnishes one of the best water-power privileges on the stream. On this privilege are two flouring mills, two saw mills and a foundry and machine shop. The upper mill is owned by David Smith, Esq., and leased by N. S. Appleby. It has two run of stone, and is capable of grinding from 100 to 150 bushels a day. There is a saw mill attached, with three saws. Immediately below is the flouring mill, owned and worked by the Messrs. Lazier. The mill has three run of stone, and will grind from 30,000 to 40,000 bushels a year. A saw mill is also connected with this mill. Opposite are the premises of Mr. R. F. Pegan, which consist of a large foundry and machine shop, and a cabinet and chair factory. There are one or two carriage and blacksmiths' shops, shoemakers, &c. Population about 200.

Affie, John W., yeoman.
APPLEBY, N. S., miller, north side Main st.—*See Adv. p.* 321.
Appleby, Thomas D., yeoman, north side Main st.
Barrage, Wm., grocer, south side Main st.
Bower, William, carpenter, south side Main st.
Connell, John, laborer, west side Colborne st.

R. L. LAZIER & S. A. LAZIER, - - Proprietors.

GRISTING & CRACKING OF ALL KINDS DONE WITH DESPATCH.

Flour and Feed of all descriptions always on hand.

THE HIGHEST PRICE PAID FOR GRAIN.

MILLTOWN FOUNDRY,

Cabinet Ware and Chair Factory,

MILLTOWN, NEAR SHANNONVILLE.

R. F. PEGAN,

In returning thanks for past support, would say to the people of Tyendinaga, County of Hastings, and adjoining Counties, and his friends generally, that he is now getting up a Stock of articles in each of the above lines of business, that will ensure satisfaction to those who may favor him with their patronage.

PLOUGHS.—Ploughs and Plough Points constantly on hand. He would call the special attention of the Farmer to his AMSTERDAM PLOUGH, which for general use, he believes, not to be surpassed by any in the country.

STOVES.—Farmer's Improved Cooking Stove, heavy castings. Box Stoves, extra heavy.

FURNITURE.—Furniture and Chairs constantly on hand, and made to order.

Lazier, Richard, lumberman.

Smith, William, gardiner, north side Main st.
Taylor, J. F., cooper, north side Main st.
Vader, John, yeoman.
Vandervoort, John M., wagonmaker, north side Main st.

RAWDON.

The Township of Rawdon is bounded on the north by Marmora, on the south by Sidney, on the east by Huntingdon, and on the west by Seymour, in the County of Northumberland. It possesses good soil, and many portions of the Township are in a high state of cultivation. Within the Municipality is the thriving village of Stirling, now incorporated. Its proximity to the extensive mines of Marmora will always be of great advantage to the Township. When those mines come to be developed, Rawdon will find an excellent market for her surplus produce there, as well as at Belleville and Stirling. The population of this Township in 1839, including the Village of Stirling, was 1067; in 1860-61, according to the census of that year, the population was 4,344; it is now estimated at 5,000.

Township Council, 1869.—Wm. Conley, Reeve; H. Walker, Deputy Reeve; Samuel Vandervoort, John Stewart, Gideon Mosier

Township Officers.—Andrew Glass, Clerk; Frederick Sine, Treasurer.

5th Division Court.—Wm. Judd, Clerk, Post office, Stirling.

Post Offices.— Stirling, Wm. Judd, Postmaster; Harold—8th concession, lot 12, Richard Buck, Postmaster; Wellman's Corners —5th concession, lot 18, George Empey, Postmaster.

SHANNONVILLE.

Shannonville, which has a population of about seven hundred inhabitants, is situated in the Township of Tyendinaga, about a mile from the shore of the Bay of Quinte. It is on the line of the Grand Trunk Railway, and distant from the Town of Belleville about nine miles. It was first settled in 1820, by Frederick Keeler and Warren Noble, who erected the first mill, and obtained from the Mohawk nation a lease of the privilege for 999 years, together with 200 acres of land, which is principally situated on the west side of the river. This lease was afterwards confirmed by the government, and is owned by Francis Wallbridge, Esq., who pays the Indians a yearly rental of thirty barrels of flour. The port, or shipping place of the village, is situated on the Salmon River, about a quarter of a mile below the mills. Vessels of light draught can come up to this port, but the water of the river is becoming in the summer season more shallow every year. The first white settlers in this vicinity were the Portts, who came from the banks of the Shannon, and by them the river was named Shannon, in honor of the far-famed river of their native Isle. The village received from them the name of Shannonville; but the original or Indian name of the river was Salmon, so called from the abundance of fish of that name which was found in the river, and by that name it has by common consent since been called. Shannonville benefits largely from the lumber trade. The principal dealer here is Mr. Francis Wallbridge, but down the Salmon the extensive lumber firm of H. B. Rathbun & Son, of Mill Point, bring a considerable portion of their lumber. Mr. Wallbridge has a large saw-mill in the centre of the village, having some sixty or seventy saws which cut some 4,000,000 or 5,000,000 feet of lumber yearly. Adjoining is one of the largest flouring mills in Tyendinaga, and one of the finest in the County, owned by F. Wallbridge, Esq., and worked by Thomas Earle, Esq. The building is of stone five stories in height, the machinery is of the best description, and, for neatness of finish

and durability, will compare favorably with the best mills in the country. It has three run of stone, and is capable of grinding 60,000 bushels a year. There are two tanneries in the village, several merchants' shops, carriage and blacksmiths' shops, &c., &c. Shannonville has three churches: Church of England, Wesleyan Meihodist, and Episcopal Methodist, each having a resident minister; one common school, with two teachers, and having an average attendance of over 100 schollars. The railway station is about a quarter of a mile from the village.

Division Court.—Hiram Holden, clerk; post office address, Shannonville.

SIDNEY.

The Township of Sidney is bounded on the north by Rawdon, on the east by Thurlow and the town of Belleville, on the south by the Bay of Quinté, and on the west by the river Trent and the Township of Murray. The river Trent, a large, rapid stream, furnishing numerous and valuable water-power privileges, passes through a portion of the Township. Sidney has nine concessions: in the fifth is the thriving village of Frankford. The water-power privileges of the village are numerous, and most of them are occupied by flouring mills, saw mills, woollen factories, &c. Sidney is one of the oldest settled Townships in the County, as well as in the Province; and no one who has passed through the various concessions and observed the well-cultivated farms, the substantial dwellings and commodious barns, but must see that the farmers generally are opulent. The soil is fertile and highly productive.

In 1839 the population of Sidney was 2,768; in 1850 it was 4,574; in 1860-61 it was 5,082; it is now estimated at nearly 6,000, showing a steady increase.

Township Council, 1869.—Baltis Rose, Reeve; C. Armstrong and John Rowe, Deputy Reeves; R. Grass, John A. Chisholm.

The Town Hall is situated in the 5th concession, lot 24.

Township Officers.—Jas. Chisholm, Clerk; Jas. T. Bird, Collector; J. S. Huffman, Treasurer.

Second Division Court.—Office at Town Hall. B. C. Ketcheson, Clerk. Post office address, Wallbridge.

Post Offices.—Frankford, William Gilbert, Postmaster; Trenton, James Cumming, Postmaster; Wallbridge, 5th concession, lot 24, E. B. Snow, Postmaster.

Episcopal Methodist Church.—White's Chapel, lot 12, on the front of Sidney; Brick Church, between 2nd and 3rd concessions, Rev. A. Campbell.

Wesleyan Methodist Church.—One on lot 19, in the 3rd concession, one in the 4th concession, lot 32, and one on the front of Sidney, Rev. S. C. Philp, and Rev. Edward A. Ward.

Church of England.—Front of Sidney, Rev. Wm. Bleasdell, Pastor.

B. S. WILSON, M.D.,

Physician and Surgeon,

Graduate of McGill College, Montreal,

LICENTIATE OF THE COLLEGE OF PHYSICIANS AND SURGEONS.

Late Apothecary in the Montreal General Hospital,

STIRLING.

STIRLING.

Stirling is a thriving and prosperous village, located partly in the Township of Rawdon and partly in the Township of Sidney. It was incorporated in the year 1858, and has a population of 900. Located in the heart of a thickly settled and fine agricultural part of the County, and possessing one of the best flouring mills in the country, two foundries, and other manufactories; it must become an important Town. The original flouring together with a woollen factory, which was all of stone, was first erected by Mr. William Baker, in 1852. In February, 1866, the flouring mill was totally destroyed by fire. The whole of the property was afterwards purchased by Mr. D. McDougall, who fitted up the woollen factory, which is a four story building, at a great expense, as a flouring mill, and by introducing the best machinery, with all the latest improvements, has made it one of the best in the country with three run of stone; it is amply supplied with water from the Rawdon creek, a tributary of the Trent. In the summer of 1868, Mr. White of Madoc, purchased the site and ruins of the old mill, has rebuilt it, and fitted it up for a first class foundry, and with its capabilities and the surrounding country, must do a good business. The village is well supplied with first class dry goods stores, groceries and mechanics' shops, of various kinds. Its facilities for education are excellent, possessing one grammar school, and one common school, with an efficient staff of teachers under the management of a United Board of County Grammar and Common School Trustees. Its church accommodation is ample, and some of the churches would be an ornament to places of greater pretensions.—The buildings generally are of a substantial character many being of stone and brick. Stirling is distant from Belleville 15 miles; Trenton, 16; Frankford, 7; Marmora, 16; Madoc, 19; Campbellford, 16 miles. Stages twice a day to Belleville; 8 A.M., and 2 P.M. Once a day to Marmora, 1 P.M., and on Mondays, Wednesdays and Fridays to Campbellford, 1.30 P.M.

Municipal Council.—(1869.)—Peter Chard, Reeve; William Martin, Chas. Craig, D. McDougall and G. D. Allan.

Village Officers.—F. B. Parker, Clerk; H. G. Thurber, Treasurer; Stephen Wescott, Collector; A. Stickles, sen., Street Surveyor; Urial Wright, Police Constable, and Inspector of Licenses.

THOMASBURG.

Thomasburg is a pleasant little village, situated on lot No. 1, fourth concession of the Township of Hungerford, on the gravel road leading from Belleville to Bridgewater. It is distant from Belleville, seventeen miles and from Bridgewater twelve miles. It has two general stores, a tannery, carriage and blacksmith shops, shoemaker, tailor, one hotel, &c. There is a good stone school-house, well supplied with maps, globes, &c., and there are two churches, the Church of England, and the Wesleyan Methodist. The Bible Christians and Episcopal Methodists hold regular services in the village. There is also a fine brick Orange Lodge, potash works, &c. The cheese factory for the section of the Township is situated at Thomasburg. It is a large building well adapted for the purpose, and is in a highly prosperous condition. It uses the milk of 280 cows.

Ashton, Harry G., general merchant.

Stokes, Wm., superintendent cheese factory.
Thompson, Alice, widow.
Wheeler, Henry, tanner and currier, with Joseph A. Brason.
Wilson, Jane S., widow.

THURLOW.

The Township of Thurlow fronts on the Bay of Quinté, and is one of the oldest settled in the County. The soil is fertile, and there is less broken land than in any other in the County. Its proximity to Belleville, and having the advantage of unlimited water-power privileges, has proved of great benefit to the township. There are two or three small villages in the township, the largest of which is Canifton, about two miles and a half from Belleville. A description of this village, with its manufacturing facilities, will be found with the alphabetical list of names for Canifton. All along the river which runs through this Township are numerous flouring and saw mills which do a very extensive business. Plainfield or at least the mills there which lately belonged to Mr. H. G. Gillespie, have become the property of Mr. Jas. Barnes. During the last season he has gone to great expense in rebuilding the dam and improving the property. At this point is a first class flouring mill having the latest improved machinery and one of the largest saw mills in the County. A short distance above Plainfield are Latta's mills, where there is a flouring and three saw mills. Corby's mills and distillery are also located in this Township, about a mile and a half above Canifton. This mill is one of the largest and most complete in the County; and attached to the distillery is a large stone stable, well ventilated and capitally arranged, capable of stocking one hundred cattle.

In 1839 the population of Thurlow, exclusive of Belleville was 2037; in 1860–61 it was 4864: and is now estimated at 6000.

Township Council, 1869.—J. J. Farley, Reeve; P. R. Daley, Philip Clapp, Deputy Reeves: J. N. Diamond and W. H. Sills Councillors.

Township Officers.— S. H. Fairman, clerk; John Thompson Treasurer, Collector.

8th Division Court.—Office at Canifton, J. H. Sills Clerk.

WM. HUDSON,

CARRIAGE MAKER & BLACKSMITH,

And Manufacturer of

Harrows, Cultivators and other Farming Implements,

CARRIAGES and LUMBER WAGGONS always in Stock and made to order.

All kinds of blacksmith work done at short notice.

ROSLIN.

TRENTON.

Trenton, a village incorporated in 1853, is also a port of entry and is situated at the confluence of the river Trent with the Bay of Quinté, at the head of that picturesque area of Lake Ontario.—The fertile peninsula of the County of Prince Edward forms the opposite shore of the Bay to the mainland, and is united to it by the Isthmus or portage of the Carrying Place. The latter place being distant from Trenton a little over four miles.

This village contains a population of 2000 (including its immediate outlets) and before its incorporation was in the Township of Murray and County of Northumberland for the greater part of its extent, but since that period it has formed a portion of the County of Hastings. Its position at the head of the Bay of Quinté and the mouth of the river Trent is beautiful and presents many positions on the high lands and ridges which almost surround it, and the charming views of the bay, and the windings of the river Trent contribute to furnish views such as the painter would delight to delineate with all his artistic skill. The rapids of the river, which extend from a mile above Trenton to eight miles into the interior beyond the village of Frankford, afford many a striking and picturesque view as the waters rush wildly on between wooded islets andthe deep banks of the stream. A local poet, long ago removed by the hand of death has beautifully described these peculiarities of the Trent in language congenial to such an appropriate theme.

The vicinity of Trenton presents to the naturalist and geologist much of especial interest, and more particularly to the latter, for here are the upper shaly beds of the Trenton limestone, of the New-York and Canadian classification of the Lower *Silurian* series of rocks, and abounding in fossils. Here in particular spots are crinoids, corals, trilobites, brachiopods, gasteropods and cephalopods in abundance: and three miles up the river and on the banks of a tributary stream on its west side near Gordon's mills, there is

evidence of glacial action in the shape of an immense boulder 22 feet high at its highest point and whose longitudinal circumference is about 114 feet, lateral do 77 feet, whole length 42 feet, and breadth 24 feet. This boulder compares favorably with many published accounts of such in other parts of the world in bulk and is not destitute on its storm-beaten sides of botanic interest; for Professor Lawson then of Kingston and now of Dalhousie College, Nova Scotia, on the 6th of June 1862, collected seventeen different species of plants (chiefly cryptogamic) found growing upon it.

EARLY HISTORY.

James Smith, Esq., was County Judge in Schoharie County New-York previous to the American revolutionary crisis. As an United Empire Loyalist he drew the land on the East side of the river Trent in the Township of Murray and came and settled there in 1790. He built his dwelling at the foot of Bunker's Hill: traces of which remained until within the last few years.

After his death the property came into possession of his son John. About 1800 Lot two and all the land west of it on the east bank of the river was disposed of by the latter to Henry Ripsom who came from Schoharie County, New-York (as it is believed). He erected the Grist Mill two miles up the river on the east bank and the mill race and other traces of it still exist. He erected also the stone house now the residence of A. H. Meyers, Esq., formerly M. P.P. for Northumberland County, and it is stated to have been the first stone dwelling house in that County.

About the year 1807 there came to this vicinity from Germany Adam H. Meyers who settled here, the father of the first named; he laid the foundation of the mercantile business of Trenton in conjunction with his avocations as a lumberman on the river and was very successful. The Ripsom property had by this time passed into the hands of an American of the name of Bardon or Barder. Mr. Meyers eventually purchased it from the latter and in the hands of his children it has remained to the present time.

After him came the late Sheldon Hawley, Esq., in 1817, and entering into the mercantile and lumbering business was thus early associated with the progress of the village, as at this period the

chief business was on the east side of the river. Near the same time came the late David Johns, Esq., of Marmora. He purchased the remaining portion of the Judge Smith property consisting of lot No. 1 of the frame hotel erected on it by John Smith on the east bank of the river from the late John Rowe, Esq., of Sidney, and succeeded him as the keeper of the latter as he, Mr. Rowe had been previously the purchaser from and successor of Smith whilst at the same time he lumbered on the river. He afterwards sold his property in Trenton to Sheldon Hawley and his brother Josiah. And this brings it down to a very recent period.

To the west side of the river in 1790 came John Bleecker (a son-in-law of the famous Captain Meyers of the revolutionary war celebrity) as an United Empire Loyalist and took up the Lot on that side of the stream which had been granted to him by the authorities. He was originally from Crown Point on Lake Champlain, and following the fortunes of those with whom he was associated by marriage he built his first log house near Bleecker's Grove (hence its name) and afterwards a frame one on the top of the Hill on the York Road. He died in 1807, and his widow removed the frame to the place where the second house erected in Trenton stood. This was the site of the present garden of S. Cooley, Esq. Here an hotel was kept by the widow and afterwards by his son John R. Bleecker for many years, and who is still living and in his eightieth year. The Bleecker property passed from the hands of the latter to the late Captain John V. Murphy, an early settle in Trenton after the late Colonel S. Hawley, and about the year 1820.

From Captain Murphy this property was disposed of in part to the late Hon. R. C. Wilkins of the Carrying Place, Adam H. Meyers, Wm. Robertson and Dennis McAulay, Esquires, and others, and these three latter in the respective order of their names were the first merchants in West Trenton and largely contributed to its present commercial prosperity. With these were associated in business afterwards the late Jacob Ford, Esq. at this early period. He came from New York State and was first most usefully employed as a school teacher on the front of the Township of Sidney, and was we understand the earliest school master in these parts, and removing subsequently to Trenton shared with the above in lumbering, mercantile and other avocations.

The broken front of the Gore of Sidney in the County of Hastings and within the eastern limits of the corporation of Trenton was purchased in 1803 by the late Hon. and Rev. Dr. Strachan, first Bishop of Toronto, from the Government. He laid out there a Town Plot and named it Annwood after the maiden name of Mrs. Strachan, but this designation is now merged in that of Trenton. He gave the site of St. George's Church and other lots by way of endowment and £100, in addition to one from Colonel S. Hawley, towards its erection. The lot west of the Bleecker property and forming the western limits of the village was a Clergy Reserve Lot, and the portion on the south side of Dundas Street being in the possession of the Bleecker family, the right was purchased from John R. Bleecker by the late R. C. Wilkins and Joseph Shuter, Esqs. and eventually the free-hold from the Government. On the north side of the road grants were made to the Roman Catholics and the Church of England of five acres each. Town lots were disposed of to private individuals at different times; some lots eventually to the Wesleyan Methodists and Presbyterians on the Hill, whilst the northern portion became a portion of the Meyers estate.

The name of the Village previous to Incorporation was successively River Trent and Port Trent and since then it has been named Trenton.

LUMBER TRADE.

A large business has been done here for near seventy years back in the rafting of square timber for the Quebec and other markets, great quantities being brought down the River Trent for this purpose from the immense range of country intersected by it and its tributaries and is chiefly white pine with oak and elm. The whole of this is re-rafted here and formed into bands or drams suitable for progress down the rapids of the St. Lawrence to Quebec. The period the lumber men are detained is from a fortnight to four weeks and gives a lively business to the merchants in Trenton.

Another and increasing feature of this business is that of Saw Logs. At the present season about 357,500 is the estimate of the logs that will be brought down the river, of which 332,500 will be sawn up here, and the residue elsewhere, whilst 22,000 by the

Moira River will be towed here for the same purpose. This gives employment during the season of navigation to a large number of barges and schooners in the conveyance of the same lumber to Oswego and other American ports; and from which is brought back salt, plaster, water lime, &c.

MILLS AND MACHINERY.

Three miles up the River is an excellent grist mill erected by the late Cyrus Weaver, Esq. and now owned by Geo. H. Gordon, Esq. which has three run of stones and its capacity is about from four to five hundred barrels per week. Close by is the Paper mill of Mr. Peter Ford propelled, also by water power and containing machinery capable of manufacturing three tons of paper per week and giving employment to eight persons. There are also a Stave and barrel Factory worked by Messrs Packenham & Calkins and a Carding and Fulling mill by Mr. George Clarke. Above and below these establishments together on the west bank of the stream of the Trent, are mill sites in abundance and water power on both banks powerful enough to drive machinery, cotton, woolen and flax Mills, &c., which if they were only in the hands of capitalists would, from the copious supply of water, afford ample manufacturing power for these purposes and such as would give the banks of the Canadian River Trent something of the aspect of the celebrated Lowell in the State of Massachusetts, the Manchester of the United States. Above Mr. Gordon's mill a long talked of and much needed bridge has been projected and it remains for the enterprize of the future and the authorities of the County to carry it out. Passing near these mills an excellent gravel road runs from Trenton to Frankford eight miles and thence to Stirling and Marmora. Two miles lower down upon a tributary stream of the Trent are two grist mills belonging to the estate of the late E. W. Meyers, Esq. The lower one is in the occupation of Mr. R. Cochrane and with this mill is associated a carding mill occupied by the above named. In the Village is a large stone Tannery worked by steam power and owned by W. H. Austin, Esq. also a Factory belonging to Wm. Shea, Esq. for the wholesale manufacture of tin and copper ware and the fitting up of Cheese Factories with other necessary apparatus. There is also an estab-

lishment for the manufacture of pumps, &c., belonging to Mr. D. L. Powell.

On the east side of the river and just below the bridge and Gilmour's wharf is a new mill erected for grinding plaster and belonging to Messrs Purdy Brothers. It is 60 by 25 feet in the main body with steam engine of 25 horse power and is capable of producing 25,000 barrels per annum; associated with it is a new wharf of 200 feet by 50 feet. Close by it is the large Stone Foundry and machine shop erected by the late Sheldon Hawley, Esq. and now leased and worked by Mr. Shea for machinery purposes, Stoves, Agricultural Implements, and Jobbing work. Much lower down and on the shore of the Bay of Quinte is the brewery, and stove and barrel factory of J. F. Flindall Esq. worked by steam power.

There are two large steam saw mills in this vicinity. One owned by Messrs. Gilmour & Co. of Quebec, on the bay shore below St. George's Church, and the other on an island below, now named Mill Island and owned by Messrs. A. S. Page & Co., but formerly belonging to Sandford Baker, Esq. The mill of Messrs. Gilmour did saw annually from ten to fourteen million feet of boards and the daily capacity was from 100,000 to 110,000 feet during the day of twenty four hours. But as this establishment has been recently renovated and improved, this estimate of its capability must be greatly increased. In this mill are five gangs of saws besides double and single edging, splitting and cutting saws, lath machine, planing machine &c., gaving employment to 100 men.

The mill of A. S. Page, & Co., has been greatly improved of late, so that instead of employing sixty men it now employs in all one hundred and sixty hands, and will cut twenty million feet of boards each season, in place of its former 10,000,000 feet of boards, merchantable in the American market. It now contains a steam engine of 100 horse power, two slabbers, two stock gangs, one Yankee gang, butting table, double edgers and lath mill, which employs twelve boys. There are in all 102 upright saws, and 10 circular saws. The shipping or wharfage capability of this mill consists of two docks, one 428 feet long and capable of one million feet of lumber, and the other 1000 feet long, and will contain four million feet. The sawn lumber is conveyed by cars to the dock.

The dimensions of this mill is 120 feet, 80 feet wide, and 46 feet in height.

GRAIN TRADE AND EXPORTS.

Trenton, as a grain market is steadily enlarging and attracting farmers from a larger section of country, to dispose of their produce here. The shipments of grain and flour from this port for the fall of 1866, were about 200,000 bushels of coarse grain, in perhaps about equal quantities of peas, rye, and barley, and about 25,000 barrels of flour. But little wheat is shipped, there being so many mills in this section of the country, the greater part being floured before shipping.

The shipments of grain in 1867, owing to the short crop in the country, generally fell considerably behind 1866, making probably a difference of half the amount. The shipments of 1868, will reach probably 150,000 bushels of coarse grain, chiefly rye and barley, beside some small shipments of wheat, and probably about 20,000 barrels of flour.

The pea crop which is usually an important one in this section, being almost an entire failure, the shipments this year are consequently much less than expected.

There is a considerable amount of butter shipped from this point, and there is no way of arriving at the exact amount. In pork, but little is bought for shipment, but the Messrs. Gilmour always buy largely of what is fed in the immediate neighbourhood and also a great amount from the adjoining Counties, but this is consumed in their extensive lumber operations and of course does not appears in shipments from this port.

Of hops from 40 to 50 tons have been shipped this season; of cheese just beginning to attract attention, several parties having lately gone unto the business, and others in prospect, some 25 to 30 tons have been shipped this year, (1868.)

Of paper from a large mill on the Trent at Frankford, belonging to the Messrs. Sills, and that of Mr. Peter Ford, before mentioned; there have been from 200 to 300 tons shipped and the quantitity is increasing.

The exports from the Port of Trenton, from April 1st to October 1st, 1868, (six months) according to the books of Alexander

McAulay, Esq., collector of customs, is as below. This return applies only to the United States, (exclusive of grain &c.,) and does not include what is sent to Montreal, Quebec and elsewhere.

Sawed Lumber,	23,437,000 feet	$272,627.00
Floats,	33,000 "	1,320.00
Red Pine,	400 pieces	800.00
White Pine,	3,000 "	4,500.00
White Pine,	20,000 feet	1,000.00
Lath,	1,760,000 "	2,852.00
Cord wood,	120 cords	240.00
Stave Bolts,	405 "	1,165.00
Stave Bolts,	164,000 feet	1,968.00
Cedar,	16 cribs	739.00
	Total Value	$287,211.00

The number of schooners, barges, &c., that have cleared at this port, during the above six months has been 176, exclusive of the trips of that Steam Boats of the Trenton and Montreal line, (the St. Helen and the Ottawa,) which carry away a large amount of produce to Montreal, as freight from this Port.

SHIP-BUILDING.

The facilities for ship-building at Trenton, are great and cannot easily be surpassed in the Province of Ontario. Materials can be so readily procured there, and ships could be built for Ocean navigation at the head of the Bay of Quinté, from which, by the St. Lawrence they would have easy access to the Atlantic. A large schooner was built here in the summer, of 1864, by the Messrs. Gilmour, & Co., in conjunction with Captain Denck. Length of keel 115 feet; breadth of beam, 26 feet; depth of hold, 9 feet 6 inches; tonnage 285 tons.

MERCANTILE ESTABLISHMENTS, &C.

There are in Trenton ten dry goods stores, one hardware store, three tin smiths, one crockery and glass store, three harness shops, two drug stores, stationers, provision stores, two boot and shoe stores, grocers, hotels, &c., &c., sufficient for the community in and around the village. A large amount of European and Canadian

manufactured goods are brought up from Montreal, during the year by water and by rail. The imports from the United States, from the Castern House returns for the year ending September 30th, 1868, amounted as follows:—

Goods paying duty		$20,869 00
Goods free	do	6,887.00
	Total	$27,756.00

The value of the goods from Montreal and elsewhere of different kinds, brought here and disposed of annually according to recent date will amount to about $130.000.

PUBLIC BUILDINGS, &c.

There is a Town Hall of stone, 60 x 40 feet, of some architectural pretensions, having in addition to the Hall a Council Chamber, and ante-room in the second story. The lower story is occupied with butchers' stalls, clerks' office, and lock-up, &c. Around it is an open space with hay scales, fire engine house, and ground for outside market.

Close by it is the recently erected Drill Shed the dimensions of which are 50 x 80 feet.

The places of worship are four in number as follows:—

St. George's Church, Trenton, of stone, with a square tower, and a nave of over sixty feet in length, a chancel twenty feet in length and in the advanced early English style of ecclesiastical architecture. Hours of Service 10.30 a.m., to 7 p.m. At the latter the seats are free.

Rector.—Rev. W. Bleasdell, M.A., Examining Chaplain to the Lord Bishop of Ontario. *Church Wardens.*—John F. Flindall and Wm. Shea, Esquires.

Wesleyan Methodist Church.—Frame with a good spire. Rev. T. Cobb, Minister.

Canada Presbyterian Church.—(Free) a neat building of frame—(vacant.)

Roman Catholic Church.—(Frame) Rev. H. Brettargh.

St. George's Church has an excellent brick Rectory, on the west side of river. The Wesleyan Methodists have also an excellent frame building for their Minister, and the Roman Catholics have a tasteful stone one, close by the Church.

Of Sunday Schools, St. George's Church has two, one at the Church, and the other on the west and opposite side of the river and these are held at 2.30 p.m., every Sabbath.

The Wesleyan Methodists have one at the same time on the west side of the river.

The incorporated Village of Trenton covers ground sufficiently large for a Town or even a City, if all the lots within were occupied by buildings and its surveyed streets filled up. This is being done progressively and recently some excellent brick buildings for shops and private residences have been erected, which add much to its appearance. The future will doubtless add more of these, now that the public spirit is becoming more active in this matter. Fires in past years have destroyed some excellent buildings, and they have not in all cases been replaced. The large three storied stone block belonging to A. H. Meyers, Esq., has not been replaced by another since its destruction by fire and its ruins in the most prominent position in the village is a great draw back to its appearance. The new brick residences of J. W. Thompson, Esq., and Charles Francis, Esq., on opposite sides of the river are real ornaments to the village, whilst the three storied brick store of Messrs. Thompson and Gordon, erected by Mr. Wert, and those of Messrs. Purdy and Barker, are contributing to give an appearance to the village of solidity which it lacked before their erection.

Trenton is distant from Toronto 101 miles, Kingston 66 miles, Belleville 12 miles, Frankford, 8 miles, and Brighton, 10 miles. The Railway Station is about a mile and a quarter from the centre of the village.

Grand Trunk Railway Station, master, Mr. John McColl; baggage master J. McDonald.

PUBLIC SCHOOLS, &c.

Grammar School.—Head master, A. W. Wright, B.A., of University College Toronto, situated in Crown Street, in Trenton east.

No. 1. Common School in Crown Street also, Thomas S. Gillon, master.

No. 2. Common School, Francis street in Trenton west, James B. Young, master.

Roman Catholic separate school in King Street west Trenton, master, J. McGuire.

VILLAGE MUNICIPAL COUNCIL.

James Cumming, Esq., Reeve; Wm. H. Austin, George H. Gordon, John Denck, Denis McAulay, councillors.

Jeremiah Simmons, clerk; David Roblin, treasurer; Patrick Walsh, high constable; Alexander McAulay, collector of customs.

9th *Division Court.*—Clerk; Jeremiah Simmons, P.O. Trenton; Bailiff, Lewis Cruickshank.

ASSOCIATIONS AND SOCIETIES, &c.

St Andrew's Society Officers.—James Cumming, Esq., president; Peter McPherson, 1st vice-president; Adam Young, 2nd vice-president; James B. Christie, treasurer; Thomas S. Gillon, secretary; L. Cruickshank, marshall; R. Young, standard bearer; H. W. Day, M.D., physician.

ST. MARK'S CHAPTER OF ROYAL ARCH MASONS NO. 26 C. R.—TRENTON.

No. of Members 27.

Officers.—V. E. Comp., P. Begg, Z.; V. E. Comp., H. W. Day, H.; V. E. Comp., John Denck, J.; R. E. Comp., H. W. Delany, P. Z.; V. E. Comp., H. W. Day, P. Z.; V. E. Comp., Rev. W. Bleasdell, M.A., P. Z.; E. Comp., P. J. Flindall, P. G.; E. Comp., David Roblin, Scribe E.; E. Comp.; E. Roblin, Scribe N.; E. Comp., L. L. Abbott, P.; E. Comp., W. T. Barker, S. S.; E. Comp., G. A. Smith, J. S.; E. Comp., Oronhyatekha, M.D., Organist.

TRENT LODGE OF FREE MASONS NO. 38 C. R.

Officers.—R. W., H. W. Day, D.D.G.M.P.E.D., W. M.; W. B., H. W. Delany, P. M.; Br. John Dench, S. W.; Br. P. J. Flin-

dall, J. W.; Br. J. B. Christie, F.; Br. D. Roblin, T.; Br. Rev. Wm. Bleasdell, M.A., C.; Br. N. T. Barker, S. D.; Br. Wm. Jeffs, J. D.; Br. S. S. Bonter, Br. Thos. Jeffs, Stewards; Br. C. Francis, D. C.; Br. L. S. Abbott, J. G.; Br. Joseph Bryant, Tyler.

ORANGE LODGE NO. 160.

Meets every 2nd Monday in the month. No. of members 26.

Robert Loughead, Master; J. W. Hyde, D.M.; Wm. H. Alley, S.; George R. Reeves, T.

BRITISH ORDER OF GOOD TEMPLARS ORGANIZED, AUGUST 8TH, 1866.

No. of Members, 92.

T. A. Garratt, W.C.; E. Lott, W.V.; G. R. Irish, W.S.; John Brook, W.T.; D. Mitchell, W.F.; M. McColl, W.R.H.S.; H. Smith, W.L.H.S.; Dr. A. B. Rose, W.C.; George Young, W.M.; S. Morrison, W.D.M.; H. Bulles, W.J.G.; M. Graham, W.O.G.; G. Hubble, P.W.C.

MILITARY.

Trenton Garrison Battery of Artillery.—Captain H. W. Day, M.D.; 1st Lieutenant, S. S. Bonter; 2nd Lieutenant, Charles Francis. Pay master of 49th Battalion, G. H. Gordon, Esq., Trenton.

Montreal Telegraph Office.—Agent, James B. Christie; operator, Robert Marsh.

Trenton Post Office.—Post master, James Cumming; Deputy post master, James B. Christie; clerk, Robert Marsh.

Express Office.—John S. McColl, agent; Trenton Station.

Issuers of Marriage Licences.—Alex. McAulay, Esq., David Roblin, Esq.

Trenton Branch Bible Society.—Depositary, W. T. Barker, Chemist and Bookseller, apothecaries' hall, Water Street.

Trenton Courier.—Published every Thursday. Established in 1866. George Young, editor and proprietor, Office, Old Post Office Building, Ridgway Street.

STEAMBOATS.—The Steamers St. Helen and Ottawa, owned by the Trenton and Bay of Quinté, and Montreal Steamboat Company, ply between Trenton and Montreal during navigation.

REEVES OF TRENTON.

1853, Alexander McAulay, Reeve; 1854, E. W. Meyers, Reeve; 1855, S. Hawley, Reeve, part of the year, and A. C. Thompson, the remainder. 1856, D. R. Murphy, Reeve; 1857, E. W. Meyers, Reeve; 1858, G. H. Gordon, Reeve; 1859, J. S. Peterson, Reeve; 1860, J. Cumming, Reeve; 1861, Robert Francis, part of the year, and D. R. Murphy, the remainder. 1862, 63, 64, 65 and 66, Wm. Shea, Reeve; 1867, 1868 and 1869, James Cumming, Reeve.

Allen, David, baker, W. Fifty-foot.
Alley, William H., watchmaker, Ferry street.
Alore, Baptiste, laborer, south John street.
Arnott, Stephen.
Asseltine, Miss & Co., milliners, east Front street.
Auger, George, laborer, Water street.
Auger, John, laborer, Water street.
AUSTIN & HILTON, merchants, south Ferry street.—*See Adv. p.* 405.
AUSTIN, W. H., J.P., general merchant, Ferry street.—*See Adv. p.* 405.
Baird, John, painter.
Baker, Guy, carpenter, Victoria street.
Baker, Joseph, farmer, King street.
Baker, Julis C., carpenter, E. Rear street.
BARKER, WM. T., druggist, Front street.—*See Adv. p.* 405.
Barry, Edward, laborer, Spring street.
Barry, Thomas, laborer, George street.
Barton, Thomas, tinsmith, Henry street.

TUDOR.

The Township of Tudor was connected with Madoc, for Municipal purposes until the year 1859, when it was erected into an independent municipality. It has owed its prosperity in a large degree to the opening up of the Hastings road by the Government. Eight or nine years ago, there were but a few settlers, now there are over 200 occupiers of land. The soil is on a blue limestone formation, and in many portions of the Township is considered excellent for agricultural purposes. Like most of the back townships, Tudor is rich in mineral wealth. Lead ore of a very rich quality has been discovered in great quantities, and some of the mines have been successfully worked by Mr. Kersteman, and others. The great obstacle in the way of developing these mines is the difficulty of transportation. When once the Railway to the back country is built, Tudor will furnish a large share of its freight traffic. Copper has also been discovered in Tudor, but the explorations have not yet been carried on to any great extent. Since the gold discoveries have taken place a great deal of prospecting has been done in this Township, and many supposed valuable discoveries have been made. In lead, particularly, extensive explorations and mining have been done by Messrs. Hill and Kershaw, not far from Millbridge. Reference to their operations is made in another part of this book.

In the north-eastern part of the townships are several large lakes, in which fish in great quantity abound, such as salmon, trout, &c. There are also numerous mill privileges, the most important of which is at the Jordan, a small village which, in time will become, of considerable importance.

Township Council. (1869).—J. Caldwell, Reeve; P. R. Smith, J. Smith, Joseph Pigden, Councillors.

Township Officers.—William Harper, Clerk; William Harper, Treasurer, Millbridge P. O.

Post Offices.—Glenmire, Edward Tapp, Postmaster; Millbridge, R. M. Norman, Postmaster.

VANKLEEK HOUSE,
MILLBRIDGE, TUDOR,
ROBERT VANKLEEK, - - - Proprietor.
FIRST CLASS ACCOMMODATION,
CHOICE WINES, LIQUORS & CIGARS,
Good Yard and Stabling.

TWEED AND GEORGETOWN.

Tweed and Georgetown—we couple them together for the purposes of the Directory, as the extreme limits of each are scarcely a quarter of a mile apart—are situated in the Township of Hungerford, and distant from Belleville about 25 miles.

Tweed is on the Moira, which is here a wide and deep stream, and having considerable fall, furnishes a splendid water-power privilege. The principal proprietor of the property, James C. Jamieson, Esq., within the last two or three years, made some very valuable and substantial improvements in the mills and dams. The wooden foundations of the flour and saw mills were replaced by heavy stone work, the height of the flour mill was raised one story, and its capacity increased by adding a third run of stone. A new water lime dam or flume, six feet in thickness, and 120 feet in length, was constructed, affording facilities for additional factories. The saw mill has two uprights, a circular, and a lath machine. Both the flour and saw mill are owned by Mr. Jamieson. On the opposite side of the river is the woolen factory of Mr. Dyer, which does a fair business. Several new building have been erected within the last two or three years, old and dilapidated ones have been repaired, and there is an air of neatness and thrift about the place,which gives indication of real prosperity. Tweed is surrounded with an excellent agricultural district. The soil is chiefly sandy loam, with now and then a mixture of clay, and the well-cultivated farms, the substantial and neatly built farm-houses, with their commodious out-buildings, and the superiority of the stock, are all evidences of thrift and industry. The village has two or three first-class country general stores, tinsmith, carriage, and blacksmith shops, tailors, bakers, shoemakers, &c. Its religious welfare is well provided for, there being three churches—the Church of England, Wesleyan Methodist, and Bible Christian, in which service is held at stated periods. It possesses one of the most efficient schools in the North Riding. Its natural advantages are such, that

JOHN F. CARLETON,

Harness & Saddle Maker,

TWEED, HUNGERFORD.

All kinds of Harness and Saddles manufactured in the neatest style from the best material and warranted to give satisfaction Repairing and Jobbing done promptly, neatly and cheaply.

TWEED, HUNGERFORD.

with a judicious expenditure of capital and a proper spirit of enterprise, which is being displayed, it must become an important inland town.

Georgetown, is situated on Stoco Lake, a short distance from Tweed. This lake is about seven miles in length, and from one to two in width, and is one of the finest of the chain of lakes in the back country. Georgetown is the capital of Hungerford, the Township Hall, a commodious building, being located here. It also possesses a fine school, which is conducted on the free system.

Fancy and Staple Dry Goods,

GROCERIES, CROCKERY, BOOTS and SHOES, &c.

Which he guarantees to sell as cheap as any other store in the County. Produce taken in exchange for Goods.

TYENDINAGA.

The Township of Tyendinaga is bounded on the north by the Township of Hungerford, on the east by the Township of Richmond in the County of Lennox, on the south by the Bay of Quinté, and on the west by the Township of Thurlow. The Mohawk reserve is situated in Tyendinaga, and until recently, it has proved to be a serious drawback upon the settlement of this portion of the County, but a law passed a few years ago permits the Indian to sell his lands. Few, however, have taken advantage of the law. In all probability it will be many years before this section of the township will undergo much change. Tyendinaga is one of the most fertile townships in the county; the soil is chiefly clay, sandy and vegetable loam, with subsoil of gravelly marl. The River Salmon, a large stream on which are numerous flouring and saw mills, factories, &c., runs through the Township. There are several villages the most important of which are Mill Point, the property of H. B. Rathbun & Son, and Shannonville. Descriptions of these places with Alphabetical lists of names for these villages will be found under their appropriate headings. In 1839 the population of the township was 2,092; in 1850 it numbered 6,200 inhabitants; in 1860,61, according to the census returns, the population was 7,812, of which 543 were Indians. The same returns show that there were 786 occupiers of lands; there were 41,340 acres under cultivation, and of wood and wild lands 36,112. The cash value of farms was estimated at $1,133,150: cash value of farming implements $65,280.

Township Council, 1869.—N.S. Appleby, Reeve; D. Anderson, Thos. Deasey, Deputy Reeves; Jas. Meagher and Chas. Hudson.

The Town Hall is situated on lot No. 15, in the 2nd concession, in the village of Melrose.

Township Officers.— Michael Nealon, Clerk; Francis English, Treasurer.

Post Offices.—Shannonville, H. Holden, postmaster; Blessington, 5th concession, lot 7, John Lally, postmaster; Lonsdale, 2nd concession, lot 32, Richard Wildman, postmaster; Marysville, 1st concession, lot 30, John Kemp, postmaster; Melrose, 3rd concession, lot 15, George Duncan, postmaster; Mill Point, James Brown, postmaster.

3rd Division Court.—Hiram Holden, Clerk; Post office address, Shannonville.

Church of England.—There are two churches, one on lot 34, concession A; and one on lot 17, 3rd concession. Rev. G. A. Anderson, Pastor.

Presbyterian Church.—There is a church at Melrose, on lot 15, 3rd concession, and one at Lonsdale, lot 32, 3rd concession.

Wesleyan Methodist Church.—A church at Shannonville, and one on lot 34, 5th concession.

Episcopal Methodist Church.—One at Shannonville.

Roman Catholic.—There are two churches, one at Marysville, lot 24, 1st concession, Rev. M. McKay, Priest; and at Blessington, lot 16, 5th concession, Rev. M. McMahan, Priest.

Abbreviations—In this township there are two *first* concessions, and two *second* concessions, which are divided by what is called the "Slash road," and where names occur with the letters "*S.R.*" it signifies South of the Slash Road, and with the letters "*N.R.*" it signifies North of the Slash Road.

WOLLASTON.

This is the second township, on the west side of the Hastings road. It was surveyed in 1863. In the central and south western portions, there is some fine level hard-wood land, of which the surveyor's report speaks very favorably. There is a splendid water-power privilege at the foot of Eagle Lake in this Township. The Township contains 59,015 acres, partially surveyed in 1857 and completed in 1864. The largest portion of this Township is fit for settlement. The only stream of importance is Deer River, a tributary of Crow River, which skirts along the western boundary of the Township.

Welman, James, yeoman, 6th concession, part lot 20.

POST OFFICE SAVINGS BANKS.

CANADA.

1.—The following Post Office Savings Banks are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

2.—The direct security of the Dominion is given by the statute for all deposits made.

3.—Any person may have a deposit account, and may deposit yearly any number of dollars, from $1 up to $300, or more, with the permission of the Postmaster General.

4.—A depositor in any one of the Savings Bank Post Offices may continue his deposits at any other of such offices in the list, without notice or change of Pass Book, and can withdraw his money at that Savings Bank Office which is most convenient to him.

5.—Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

6.—Every depositor's account is kept in the Postmaster General's Office in Ottawa, and, in addition to the Postmaster's receipt in the Pass Book, a *direct acknowledgment from the Postmaster General for each sum paid in* is sent to the depositor.

7.—When a depositor wishes to withdraw money, he can do so by applying to the Postmaster General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

8.—Interest at the rate of 4 per cent. per annum is allowed on deposits in the ordinary Pass Book deposit account, and the interest is added to the principal on the 30th June in each year.

SPECIAL DEPOSIT ACCOUNT.

9.—Any depositor who has $100 at his credit in his Pass Book, or ordinary account, may request the Postmaster General to transfer that sum to a special account, and will then receive from the Postmaster General a certificate of special deposit for each $100 so transferred. These certificates bear 5 per cent. interest, and are redeemable on such previous notice as may be thereon expressed. When repayment is required, the $100 will be repaid to the depositor at any Savings Bank Post Office which he may name.

10.—Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

11.—No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage on communications with the Postmaster General in relation to their deposits.

12.—The Postmaster General is always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank business.

A. CAMPBELL,
Postmaster General.

INSTRUCTIONS AND INFORMATION

FOR

PERSONS INTENDING TO SETTLE

IN ONTARIO.

Geographical Position.

The Province of Ontario (formerly Upper Canada,) constitutes the western portion of the Dominion of Canada, and is bounded on the east by the Province of Quebec, (late Lower Canada) on the south and west it is separated from the United States by the River St. Lawrence and Lakes Ontario, Erie, Huron and Superior. It comprises an immense extent of good land excellently adapted for agricultural purposes, and enjoys very superior advantages for the transit of produce by rivers, lakes, and railways. Further west lies the Red River territory an extensive region of the richest land, as yet almost untouched by the hand of civilization. A direct communication will soon be opened with this fertile and extensive territory belonging to the British Crown, a consummation which cannot fail to be pregnant with advantages to the whole Dominion and to Ontario in particular.

Constitution and Government.

An integral part of the British Empire, Canada enjoys religious, social and political freedom. All public offices and seats in the Legislature are open to any candidate possessing the confidence of the people, holding a certain limited amount of property, and being a British subject. Candidates for the Local Assembly of Ontario, are not required to possess any property qualification. Three years residence entitles a foreigner to all the rights and privileges of a natural born citizen. Aliens can buy, hold and sell land.

Climate, Products, Forests, Minerals, &c.

The climate of Ontario, is the mildest of any of the Provinces composing the Dominion, and its salubrity is fully attested by the healthy appearance and longevity of its inhabitants. The great lakes on two sides tend greatly to modify the extremes of summer heat and winter cold, to which a large portion of the more northerly parts of this continent is subjected, and afford longer time and wider range for performing the various operations of farming, including the raising of different kinds of live stock. All the cereals commonly cultivated in Britain do well. Indian corn is more, or less, generally raised, and in some districts hops and flax. From the head of Lake Ontario round the Niagara frontier, and all along the shores of Lake Erie, the peach and grape ripen well in the open air. The latter

has of late been successfully tried, and without artificial protection, in various places of the interior, and many acres are now being devoted to the raising of this fruit for making wine, of which samples have been produced of excellent quality. Apples attain to great perfection in growth and flavor in all parts that have hitherto been well settled, wherever judgment has been used in selecting proper sorts adapted to varying conditions of soil and climate. In the south western parts of the Province, several of the choicest varieties are produced: such as the Early Harvest, Duchess of Oldenburgh, Ribston Pippin, Snow Apple, Greening, Northern Spy, Fall Pippin, Pomme Grise, Golden Russett, &c. Most other kinds of fruit adapted to the temperate zone, succeed equally well when properly attended to; and melons, tomatoes, cucumbers, &c., are often raised in great abundance and of excellent quality, in the open air. The agricultural, and industrial arts generally, have of late years made great advancement in Ontario, which produces wheat and other grains in abundance and of great excellence. The Government, with, perhaps, unequalled liberality, contributes to the support of Agricultural Societies, embracing also the mechanical arts; and the Annual Provincial Exhibitions are admitted by foreign visitors to be, both in magnitude and quality of material, no where surpassed.

Most of Ontario was formerly heavily timbered, a certain indication of a good soil, and there yet remain extensive area of primitive and valuable forest. Upon the lighter lands the different varieties of pine abound, while on the heavier and richer soils, the oak, elm, maple, beech, and sometimes black-walnut predominate. Other kinds of wood are interspersed,

possessing more or less exchangeable value. The lumber trade of Ontario is of immense importance, and yields a large annual revenue.

In several parts of the Province iron and copper of superior quality abound, and the gold region of Madoc has attracted much attention. Silver and lead have also been discovered. Limestone is widely diffused and very excellent sulphate of lime (Plaster of Paris) is extensively worked on the Grand River. Freestone, marble and other materials of economic importance, have been discovered in different parts, and will become more readily available for the purposes of commerce when railways and other means of transit now contemplated or under construction are completed. Salt of excellent quality has recently been discovered on the shores of Lake Huron, and is rapidly becoming an important article in domestic consumption, and ultimately no doubt for exportation. Petroleum or rock oil is also found in large quantities in the Western portion of the Province.

The advantages which Canada offers to emigrants must, when they come to be generally known, be sufficient to decide their choice in favor of the wood-lands of the Province, watered by beautiful lakes and living streams, which abound with every variety of fish; where the certainty of health, and the chances of life are far greater than in the flat prairies in the West, and where water power is everywhere abundant, just where it is required, in the midst of forests of valuable timber. The backwoods settler in Canada finds a ready cash market with the lumberer for his hay, oats, peas, and potatoes, thereby saving the latter the cost of transport. It is the mission of the lumberer to wage war on the gloomy forest, and

of the settler, on the rugged soil. While the advance of settlement has enabled the lumberer to push his enterprise further and further up the stream, it is mainly in consequence of the trade in its timber, that the country is so fast filling up with inhabitants, the wants of the lumberman affording to the farmer a ready market for his produce at high prices.

There is generally on Crown lands an unlimited supply of the best fuel. The conditions of sale allow the settler to cut and sell from his lot whatever timber he thinks proper, by taking out a license, which can be had on application to the Crown Land Agent. The value of the timber thus cut is applied in payment of the purchase money due the Crown. Even in burning the timber which he does not sell, the settler can convert the ashes into potash, which will meet a ready sale at from £7 to £9 currency per barrel.

Purchasers of land, after paying a first instalment, can raise from the land itself and from the timber on it, the means of paying the balance of the purchase money, and by their own exertions, in a short time be possessed of a valuable property; the pioneer settler thus becoming the independent farmer.

Free Grants and Homesteads.

The Free Grant and Homesteads act of 1867 as amended in 1868 provides that the Lieutenant-Governor in Council may appropriate as free grants to actual settlers, any public lands suitable for settlement or cultivation, (except mineral or Pine Timber Lands,) within the districts of Algoma and Nipissing

and lands between the Ottawa River and Georgian Bay, to the west of a line drawn from a point opposite the south-east angle of the Township of Palmerston northwesterly along the Western boundaries of the Townships of North Sherbrooke Lavant, Blithfield, Admerston, Bromley, Stafford, and Pembroke to the Ottawa River and to the north of the northerly boundaries of the Townships of Oso, Olden, Kennebec, Kalavar, Elzevir, Madoc, Marmora, Belmont, Dummer, Smith, Ennismore, Somerville, Laxton, Carden, Rama and the River Severn.

The act provides that any person wishing to take advantage of it and become a locatee, shall make affidavit to be deposited with the agent authorized to make such location, that he or she has not been located on any land under the act, that he or she is eighteen years of age or upwards, and believes the land applied for is suitable for settlement and cultivation, and is not valuable chiefly for its mines, minerals or pine timber, and that the location is desired for his or her benefit and for the purpose of actual settlement and cultivation of such land, and not either directly or indirectly for the use or benefit of any other person, nor for the purpose of obtaining or disposing of any pine trees on the land, or any benefit or advantage therefrom or any gold, silver, copper, lead, iron or other mines or minerals, or any quarry or bed of stone, marble or gypsum thereon.

The following are the settlement duties required to be performed, to clear and have under cultivation at least 15 acres, whereof at least 2 acres shall be cleared and cultivated *annually* during the 5 years next after the date of the location, to build a house fit for habitation at least 16 feet by

20, to reside actually and continually upon and cultivate the land for 5 years next after the date of location and from thence up to issue of patent, one month however from date of location is allowed to enter on and occupy the land, and an absence if not more than 6 months in all during any one year is not to be considered a cessation of residence provided the land be cultivated. The patent is not to issue till after the lapse of 5 years from the date of the location nor unless the settlement duties have been properly performed, if the duties are not performed the location will be forfeited and the right of the locatee cease.

All pine trees and all gold, silver, copper, lead, iron, or other mines or minerals shall be considered as reserved from the location and to continue the property of Her Majesty except that the locatee and those claiming under him or her may cut and use any trees necessary for building, fencing and fuel on the land located, and may cut and dispose of any trees required to be removed in actually clearing the located land for cultivation, no pine trees (except such as are necessary for building fuel and fencing) are to be cut beyond the actual clearing, if any are so cut they will be subject to the payment of the same dues as are payable by holders of licenses to cut timber or saw logs. All trees remaining on the land when the patent issues will pass to the patentee.

If the locatee dies either before or after the issue of patent his interest in the land will pass to his widow during widowhood, instead of dower.

The locatee cannot alienate (except by will) or mortgage or pledge the land located or any right or interest therein before the issue of the patent.

The locatee cannot after the issue of the patent and within 20 years from the date of the location and during his wife's lifetime mortgage or pledge the land located except by will or deed if by the latter mode his wife must be one of the grantors.

The land located will not be nor will any interest therein be liable to any debt or liability of the locatee his widow, heirs or devisees before the issue of the patent nor after the issue of patent, and for 20 years from the date of the location so long as the land or any interest in it is owned by the locatee his widow heirs or devises, will the land or interest so owned be liable to debts except on a mortgage or pledge made after issue of patent. The act does not however exempt the land located from sale for taxes.

In what Townships Free Grants will be made.

The following notices issued by the Crown Lands Department of Ontario, will shew in what townships free grants will be made :—

DEPARTMENT OF CROWN LANDS,

Toronto, 18*th April*, 1868.

Notice is hereby given, that the lands in the townships of Humphrey, Cardwell, Watt, Stephenson, Brunel, Macaulay, McLean, Muskoka, and Draper, in the Territorial District of Muskoka, and in the townships of McDougall and Foley, on

Parry Sound, (Georgian Bay), are open for location under the provisions of " The Free Grants and Homesteads Act of 1868." Application for locations in the townships of McDougall, Foley, Humphrey and Cardwell are to be made to N. P. Wakefield, Esq., Crown Lands Agent, at the village of Parry Sound, and for locations in the townships of Watt, Stephenson, Brunel, Macaulay, McLean, Muskoka and Draper, applications are to be made to W. C. Lount, Esquire, Crown Lands Agent, at Bracebridge, in the township of Macaulay.

Locatees, in addition to obtaining the free grant of 100 acres, will be allowed to purchase an additional 100 acres at fifty cents an acre cash, subject to the same reservations and conditions, and the performances of the same settlement duties as are provided in respect of free grant locations by the 9th and 10th sections of the Free Grants Act, except that actual residence and building on the land purchased will not be required.

For further information respecting the conditions on which the lands will be granted, apply to the above named Crown Lands Agents or to the Department at Toronto.

S. RICHARDS,
Commissioner of Crown Lands.

NOTE.—The route to Parry Sound is by the Northern Railway to Collingwood, and from thence by steamer once a week to the Sound, and to Bracebridge by the Northern Railway to Barrie or Bell Ewart, thence by steamer on Lake Simcoe (daily) to Washoga, on the river Severn, and by stage from thence to Gravenhurst, on Lake Muskoka, and by steamer on the lake and river to Bracebridge.

DEPARTMENT OF CROWN LANDS.

Toronto, 10*th June*, 1868.

NOTICE is hereby given, that part of the lands in the Township of Cardiff, Chandos, Monmouth, and Anstruther, in the County of Peterborough, are open for location under the provisions of the Free Grants and Homestead Act of 1868.

Applications for locations are to be made to WHEELER ARMSTRONG, Esq., Crown Lands Agent, in the Township of Cardiff.

Locatees, in addition to obtaining the free grant of 100 acres, will be allowed to purchase an additional 100 acres at 50 cents an acre cash, subject to the same reservations and conditions, and the performance of the same settlement duties as are provided in respect of free grant locations by the 9th and 10th sections of the Free Grants Act, except that actual residence and building on the land purchased will not be required.

For further information respecting the conditions on which the lands will be granted, apply to the above named Crown Lands Agent, or to the Department at Toronto.

S. RICHARDS,
Commissioner of Crown Lands.

Directions to Emigrants and others wishing to purchase Crown Lands.

Emigrants and others desirous of purchasing Crown Lands should make application to the respective local Crown Land

Agents, who are required by law to furnish all applicants with correct information as to what lands are open for sale.

The Government Emigration Agents at Quebec, Montreal, Ottawa, Kingston, Toronto, and Hamilton, will afford information and advice to emigrants respecting the best means of reaching the localities in which they intend to settle.

Instructions to Emigrants with some capital.

Emigrants with some capital, desirous of settling on land, and unaccustomed to life in the bush, would do well to purchase a Lot with a House, Outbuildings, and a few acres of clearance. Lots of this description are always to be found in the newly settled districts, the title to which is still in the Crown. In such cases a sum must be given for the right and improvements of the original purchaser. The patent would then be issued on payment of the balance of the purchase money due to the Crown, and on completion of the required settlement duties.

The Crown Land Agents will aid Emigrants inquiring for Improved Lots within their Agencies, for which patents have not been issued. They will say where such Lots are to be found, and they will assist, if requested, in drawing up the necessary assignment to the purchaser, for registration in the Department of Crown Lands.

(Signed,) S. RICHARDS

Commissioner of Crown Lands for Ontario

Toronto, March 20, 1869.

St. George's Society, Belleville, 1868–69.

The Officers for 1868–69 of the St. George's Society of Belleville, are:

President.—W. C. Nunn.

Vice-Presidents.—Jos. Reeves, and Chas. Wilkins.

Chaplain.—Rev. S. Jones.

Secretary.—Geo. Meredith.

Treasurer.—Geo. Wallbridge.

Committee.—A. Fletcher, W. Crowther, George Thomas, Wm. Boswell.

THE STANDARD LIFE ASSURANCE COMPANY.

ESTABLISHED 1825,

WITH WHICH IS NOW UNITED THE COLONIAL LIFE ASSURANCE CO.

IT was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions in Great Britain. Its income has now reached THREE-MILLION THREE HUNDRED and SEVENTY-SIX THOUSAND NINE HUNDRED and FIFTY-THREE DOLLARS, and its Accumulated and Invested Funds amount to nearly NINETEEN MILLION DOLLARS. Its Profits have been very large and persons assured have derived very valuable benefits from their connection with the Company. The STANDARD has also acquired a marked character for liberal management, being the first institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contract increased value and stability in other ways.

As an example of the STANDARD COMPANY, it may be stated that a Policy opened in November, 1825, for £1000, was increased in value in 1865 to £2727 Stg.

Those who do not wish to add the amount of the Bonus to the Sum Assured are permitted to take the value of the addition in a present sum or to apply its value to the reduction of the Annual Premium for five years.

For Example:

1. A man resident in Canada, aged thirty, assured his life in 1847 for £1000, and the Bonus Additions to the Policy amounted in 1864 to £310. Those additions may be surrendered for a present cash payment of £126 16s. 10d.; or by surrendering £291 12s. 4d. of the amount, he will be relieved of payment of his Premium for five years, the Company being liable, should he die during that period, to pay his heirs the original Sum Assured and the balance of the Bonus Addition not surrendered—viz., £18 7s. 8d. This Policy will be entitled to future additions at the end of each period of five years the party survives.

POLICIES WITH PROFITS purchased at any time after payment of one year's Premium, and Policies without Profits for the whole term of life, after three years' Premiums have been paid.

NO POLICY OF FIVE YEARS' DURATION shall be liable to any ground of challenge whatever, connected with the original documents on which the Assurance was granted, but the sum assured shall, subject to the payment of premiums, and extra premiums, if any, be payable in terms of the Policy, after proof of death to the satisfaction of the Directors.

IN THE CASE OF POLICIES OF FIVE YEARS' DURATION, upon which no debt exists, payment of Premium, with a fine, may be made at any time within one year after the days of grace expire; and should the assured die during that period, the claim is binding on the Company, under deduction of Premium unpaid and fine.

Assurances effected on the different systems suggested and approved by a lengthened experience, so as to suit the means of every person desirous of taking out a Policy. Every information on the subject of Life Assurance will be given at the Company's Office, No. 47 Great St. James street, Montreal, or at any of the Agencies throughout Canada.

Directors in Montreal:

B. H. LEMOINE, ESQ., Banker. ANDREW ROBERTSON, ESQ., Advocate.
H. COTTE, ESQ., Banker. GEORGE STEPHENS, ESQ., Merchant.
W. M. RAMSAY, Manager.
RICHARD BULL, Inspector of Agencies.
L. H. HENDERSON, Agent, Belleville. C. FRANCIS, Agent, Trenton.
CHARLES JAMES, Agent, Napanee. H. J. THORP, Agent Picton.
