PREFACE.

In presenting to the Public the "Toronto Directory" for 1856, I feel it necessary to make a few explanatory remarks.

Never before engaged in, or connected with any Publishing undertaking, the compilation and arrangement of this Work has in itself presented difficulties of no ordinary character,—not excepting those entailed on it during the process of collecting the matter, and its after progress in printing.

Almost a stranger in Toronto, comparatively unacquainted with its citizens and its localities, to obtain the assistance of competent collators was the main difficulty, each name appearing in the Work being taken at the respective residences personally throughout the entire City,—by which means it was thought almost impossible for any to be omitted; notwithstanding, in too many instances, names were entirely withheld. Advertisements frequently appearing in all the City dailies', together with a printed slip, left at every house, earnestly requested prior to a certain date, notification of any desired alteration or removal, and with such alterations (notified or not) as came under my own knowledge, it was hoped the information would be as

nearly correct as possible; but there is probably no department of book-making in which errors are more likely to be made than in the compilation of a Directory. To obtain the names, their profession, residence, and alphabetical arrangement (in this case under three distinct and separate heads), was attended with far greater trouble than most will imagine, and notwithstanding the many efforts made to have it correct, am prepared for, and shall not be surprised, if errors are discovered; but I sincerely beg the indulgence of subscribers, this the first issue under an entirely new arrangement of a Directory in the Province, being necessarily almost an experiment, it was next to impossible but to some extent, such should be the case.

Originally intended for issue in December, the removal of the Government to the City made it expedient to postpone it, until its many members were permanently settled in their various buildings and private residences,—the correct wherewithal of such being essential,—and as the result, a Governmental Directory as correct as (the returns from heads of each department can make it) is to be found, at page of this Work.

The Streets Directory (in the almost total absence of numbers to the houses) will be found of considerable value, as indicating the precise position in which an individual's residence may be found, and not unfrequently proving of service in cases where the name of the party is entirely forgot, the street on which he resides being only remembered. Many changes of necessity have taken place since this was compiled; but its usefulness will not be materially impaired, as in case of removal, application to the residence of the party as there designated will lead to information of the present abode.

The various Societies and Public Buildings were originally intended to be noticed at greater length, but the mere alphabetical matter has so far exceeded the first estimate that the curtailment (and in some cases exclusion) was a matter of absolute necessity.

In its future publication, however,—the next edition of which will take place January, 1858, and from thence continued annually,—I trust to make such arrangements for its printing as will admit of correction to within a week or so of its issue; an end only to be gained by a large outlay in type, so that each sheet set up will remain until the whole be completed; that not being the case with this,—every form, from necessity, being destroyed as soon as the required number of sheets for the edition were struck off, so that the type might be released and re-set up. Should such an expense be entered into, I hope it will be justified by the increased number of copies then (by reason of the growth of the City) required.

My thanks are due to many, the Managers of most of the Banks, the gentlemen of the City Press, the Chamberlain, and several Secretaries of Societies, for supplying the required information; and in the hope and belief that subscribers will overlook the many imperfections to be found in the present volume (a task easy of remedy in a second publication, the great difficulty, the arrangement of this the first being mastered),

I am, Respectfully,

W. R. BROWN.

Toronto, March 17*th*, 1856.

INTRODUCTION.

TORONTO,

FROM its favorable geographical position and peculiarly valuable natural advantages has become the most rapidly advancing and increasing of the Canadian Cities, preeminently the Queen City of the West, and (if not now, nearly) the chief commercial city of the Province.

The metropolis of Canada, and chief town of Canada West, it is situated on the north shore of Lake Ontario, towards its western extremity, in lat. 43° 39′ 25″ north, long. 79° 21′ 30″ west of Greenwich. It was founded by Governor Simcoe in 1794, and partly burned by the Americans in the war of 1813. In 1817, Toronto (then Little York), contained a population of 1,200 inhabitants; in 1826 it had increased to 1,677; in 1830 to 2,860. Its subsequent progress has been more rapid than any other town in Canada. In 1842 it contained 15,336 inhabitants; in 1845, 19,706; in 1851, 30,775; 1854–5, 40 to 45,000; and its population at this time nearly approaches to 55,000, having in the 33 years preceding 1850, increased its population 18 times, and between the years 1840 and 1850 increased 95 per cent,—New York, *the* City of the United States, and considered the most prosperous in the world, having an increase during the same period of but 66 per cent; Toronto thus comparing in prosperity with any city in the world, and presenting a magnificent example of the sturdy, business and energetic habits of the people of Western Canada.

Toronto was incorporated in the year 1834, and is now divided into six wards. Each ward returns annually two aldermen and two common councilmen, to represent them in the City Council; and the Council choose the mayor from among the aldermen. In this body is vested the legislative power of the city. Toronto also returns two members to represent her in the Parliament of Canada.

The improvements made in the city within the last few years have been astonishing. Many of its buildings are of cut stone. The public edifices are well adapted for their purposes, and some of them have a very striking appearance.

Among the buildings, those more particularly deserving of notice are the Banks-Osgoode and St. Lawrence Halls, the Lunatic Asylum, University, Cathedral of St. James', Roman Catholic ditto, Mechanics' Institute, (at present used as Government Offices), the New General Hospital, Trinity College, and Normal School. Of these the Asylum, the University, and Trinity College, are on the most magnificent scale.

Toronto harbour or bay, in which a considerable fleet might ride in perfect security, has an extent of about three miles, and is formed by a long and narrow peninsula, stretching out to the south-west for about seven miles, and terminating in Gibraltar Point, on which a light-house is erected. The bay is about one and a half miles across, and from its depth of water affords extensive and safe anchorage ground.

The following graphic description of Toronto appears in *The Maple Leaf or Canadian Annual for* 1848:—

"A noble bay, clasped in the wide-spread arms of a natural breakwater, on the north-western shore of Ontario, attracted the keen eye of Lieutenant-Governor Simcoe; and soon a few lowly roofs rising at the bottom of the harbour from the marshes at the mouth of the slow-paced Don, and a low fort commanding the entrance of the bay, with the red-cross floating over its humble battlement, broke the monotony of the wild forest landscape.

"The dwellings of the earliest settlers, the rude pioneers of civilisation, were in true patriarchal style—they abode in the field, sheltered by tabernacles that (as the legend runs) had made the circuit of the globe with the illustrious Cook. Rude indeed were those primitive days; Macadam was a name unknown—plank roads and gas-lights were fictions of lying travellers. Yet steadily though slowly the good town grew, and peace and plenty (with one brief interval) were the characteristics of its quiet life. Some few of those who bore the heat and burden of the day, and saw the first roof-tree rise from the marshes of 'Little York,' have lived to see themselves, their children and grand-children, citizens of a large and prosperous city; but the green turf wraps the graves of the greater part of those who knew it in its infant days.

"The tourist who would visit Toronto to indulge a taste for antiquarian research, will find but little to reward his labour. The red men have left their forests—they have sought other hunting grounds, and, true to their native habits, have left no trail; but if her history be brief, it is not wholly devoid of interest. In the last ten years of her life, she has acquired most of the substantial advantages of a European city.

"To the traveller, who looks with greater interest on evidences of health and vigor—on the busy wrestling of civilisation with the wilderness, than on ruin and decay, and the ivy creeping over the fallen remains of man's past energy, there are few places capable of exciting a livelier interest than Toronto. The present and the future occupy her thoughts far more than the past:—

'Let the Greek o'er annals poring,
Let the Roman mourn the past—
Like the Persian, morn adoring,
Her glances is onward cast!'

"Viewed from the noble highway of Ontario, the city, with her rectangular streets, presents a pleasing aspect. Gradually rising from the water's edge, her ranges of buildings are at length bounded by the green outline of pine forest, that seems to enclose her in its embraces. The prominent points are the tall spires of the Churches. At the eastern extremity of the bay, the fortress-like walls of a dark Prison look black in the bright sunshine: and the heights of Scarboro' bound the vision on that side. Towards the centre, a strange pile of brick, designed, it is said, after some Italian model [the City Hall and buildings] accommodates the collective wisdom of the city in its corporate character. Westward, a not very fierce-looking Garrison affects to protect the entrance of the harbour, and above it the 'meteor flag' dallies with the light breeze. * * * The garrison having been passed, as we approach from the west, we are just entering the bay; and there lies Toronto, stretched along the northern margin of that glorious sheet of water. As we draw near the busy quarter of the city, we observe villa residences scattered along that bank on our left, which rises abruptly from the water's edge. The long ranges of red brick, facing the bay, were once tuneful with the eloquence of our legislators, but are now the peaceful retreat of learning, (and is now, again devoted to the use of Government). In the main structure and west wing are the temporary

hall and lecture rooms of our noble University, whilst the building on the east is at present occupied as the Lunatic Asylum*—a playful illustration of the poetic adage—

'Great wit to madness nearly is allied.'

A little in the rear, above a thick plantation, may still be seen the staff, which in days gone by was wont to bear the flag that indicated to the lieges of Toronto the presence of the Lieutenant-Governor, in the official residence (old Government House,) embosomed by those dark trees. To the north in the handsome pile of Osgoode Hall—the Canadian inns of Court, with its columns and dome glistening in the clear atmosphere. Further on beyond, the clusters of houses, in the centre of its picturesque grounds, laid out with judicious attention to landscape gardening, and approached by a stately avenue of chesnut and other graceful trees, rise the white and massive walls of King's College (now Toronto University.)

"We will not trouble the readers with any lengthened description of the internal appearance of the city, with its busy population of nearly 23,000 (now over 50,000.) Splendid warehouses and shops, worthy of any American or European city, greet the eye —gas lights enliven the darkness—the forest supplies aggreeable *trottiers*—Macadam smoothes the roadway—and beneath the level surface on the streets—

'The prison'd water fills its iron cell.'

We may not stop to describe the various public edifices—the pleasant grounds and neat buildings of that admirable establishment Upper Canada College—the various institutes and associations—literary, philharmonic, national and mechanical—the extent of commercial dealings—the noble prospects that projected improvements seem to open. Suffice it to say, that there are few more striking results of British Canadian vigor than this city, carved as it has been by stout arms and loyal hearts out of the wild bosom of a transatlantic forest; nor will the stranger who visits it, we trust, fail to discover the appropriateness of its chosen motto—'Industry, Integrity, Intelligence.'"

Since the above description was written, many new buildings have been erected, some of them the largest and most beautiful in the City—such as the St. Lawrence Hall and Buildings, the Lunatic Asylum, St. James' Cathedral, St. Michael's (Roman Catholic) Cathedral, the Mechanics' Institute, many new Churches, Custom House, Post Office, the Normal School Buildings, and Trinity College—the two latter being most substantial-elegant specimens of architecture, worthy of any city, and a credit to those under whose care they were completed.

Toronto is now the seat of Government—the Parliament House being restored to its legitimate use, the old Government House being now occupied by the Governor General, His Excellency Sir E. W. Head, family and suite. The east and west wings of Parliament Buildings accommodate some of the Provincial Government Departments and Offices —viz., the Receiver General's Office, the Inspector General's Office, Offices of the Commissioner of Customs, and Audit Office, the other Departments of the Service being distributed amongst the New Mechanics' Institute Building, Old Hospital, Albany Chambers, and York-street.

If the clever contributor to the Annual, should find the wherewithal for so graphic a description of Toronto in 1848, what would not his lively pen indulge in were he to essay the same task in 1856. Eight short years truly, but ninety-six months of constant, progressive, steady increase and actual material prosperity, seldom, if ever (but with one exception, Chicago,) equalled in the history of any country in either ancient or modern times.

* A noble structure (most prominent,) on a line north from the Fort, has since been erected as an Asylum for lunatics.

Of late so much has been said and written in reference to Toronto by passing travellers, essayists, and the local press, its rapid advance, hourly presenting a fresh theme for abler pens than ours to chronicle, (even had we space,) that we feel we cannot more efficiently support such statements, than by giving in detail a few extracts from the many valuable articles constantly appearing, and all tending to prove the increasing growth of the Queen City. The *Globe* of September, 1855, in an article on the "extent of works within the city limits then in actual progress, just completed or about to commence," says :—

Sufficient will be presented to enable all our readers near and distant, to form an accurate idea of the rapid growth of our city in extent and population; but it must be left to time to determine whether such advance is the result of a healthful and growing prosperity, or a mere spasmodic effort caused by exterior and removable causes. For our own part, while we believe a small portion of its wonderful growth may be justly ascribed to the latter, we cannot resist the conviction that the prosperity which has of late years smiled upon our city is mainly due to causes which would not be affected were it at once known that the Seat of Government was about to be finally removed from within its boundaries.

The subjoined list will show that while building has been more or less general throughout each quarter of the city, the tendency of the population, and with it the general business, is westward. While a few scattered houses are to be seen going up, here and there, in the eastern portion of Toronto, they may be counted by entire rows in the opposite extremity of the town. Though other causes doubtless conspire, this is attributable in a considerable degree to the greater proximity of the latter to the principal public offices, the numerous *habitues* of which will prefer a residence near the scene of their business engagements.

It is also very noticeable how comparatively few houses are going up north of Queen street—a fact difficult of satisfactory explanation. It may, however, be in a great measure owing to the circumstances that the College Avenue, being surrounded by fences, imposes a positive barrier to the locomotion of residents in that vicinity; and they find themselves called, on every occasion when journeying in a westerly or easterly direction, to make a considerable *detour* to arrive at their place of destination. This is an inconvenience which, in the interest of land owners and residents, should be at once remedied. It is no argument to contend that the beauty of the Avenue would thus be destroyed, and its privacy as a park intruded on. In reply to the first objection we have the examples of the Parks in London and the Champs Elysees in Paris—all intersected by public ways and affording short communicating roads from one part to the other of the respective cities in which they are situated; while by making the Avenue a place of greater public resort, a positive advantage would ensue, as respectable people, of either sex, would be able to pass through it without the molestation to which all are now too much exposed.

While on the subject of city buildings, we would suggest to our Corporation the advisability of its taking measures for the immediate revisal of that valuable ordinance limiting the erection of frame or other easily destructible houses within certain limits, with a view to a still further extension of the present circle. The public welfare loudly calls for such a regulation, and no fitter time could be selected than the present, when building on speculation has become so common. It is a great injustice to those who invest largely in houses, that so much of their property should be at the mercy of any one who chooses to erect an inexpensive shanty, which, in case of fire, may jeopardize the property of an entire neighbourhood.

It is, however, gratifying to be able to state that the danger to which the city is at all times liable from this source is much less than might be anticipated. It is really remarkable to see how few, comparatively have availed themselves of their legal right to set up frame buildings, and what a large majority of brick houses have been erected this season. It does not thence follow, however, that the toleration to erect dangerous houses should be persisted in. Though the brick houses are doubtless so much more substantial than those of the prohibited materials, it is astonishing how deficient they are in certain comforts which one might expect to find. There is not one in a hundred of the new houses erecting this season which is provided with the accommodation of baths or heating apparatus. Nor, as a general rule, are the buildings of that thickness and solidity desirable in so cold a region, neither are they provided with those economisers of fuel—double windows.

But we must proceed to mention some of the houses now erecting in various parts of the city.

King Street West.—A large brick store and dwelling, between Bay and York-streets, south side, is being erected by Mr. J. G. Howard. Near Peter-street, two large brick houses, belonging to Mr. Hughes. Rent about £100. Also, seven frame and rough-cast buildings, likely to let at about £75. Four are built for Alderman Romain, on the corner of Peter and King-streets.

Adelaide Street.—Near York-street, north side, eight solid white brick houses, the property of Mr. John Ritchey, who also built them. These are probably the best houses ever built in a row in the city. They are fitted with every moderate convenience, and are in every respect first class dwellings.

Richmond Street.—Seven brick houses, near Church-street, north side, to be known as "Alma Terrace;" the property of Mr. Alexander Manning. Also, two brick houses on north side, near York-street.

Front Street.—Mr. James Lukin Robinson has recently effected great improvements on the block between Peter, John, Front, and Wellington-streets. He has opened a new street in the centre, and is rapidly filling it on each side with buildings. Facing the Bay, are two large substantial brick houses, with gable ends, showing an intention of adding other buildings, on a uniform plan. Behind them are four rough-cast houses, of a medium class. The whole will be a great addition to the neighbourhood.

Victoria Street.—Ten excellent houses are in process of construction on the north end of this street; seven being for Mr. Deputy-Sheriff Jarvis; and of the remainder, one each for Messrs. Hopkins, Kirby, and Patrick.

Gould Street.—Two brick houses in course of erection for Mr. Patrick Freeland.

Boulton Street.—Five new places, all rough-cast, are recently added. One belongs to Mr. Clark Gamble; two to Mr. J. H. Boulton, and the remainder to Mr. Lewis.

Peter Street.—Mr. F. H. Heward has a capital house, nearly finished, on this street, for his own use. Alderman Romain has also a large and fine brick house put up on this street. Mr. Grand, the architect, has added four frame and rough-cast houses, worth about £75 rental each. They are very neatly finished, and are furnished with gas and water.

Wellington Street.—At its west end, Mr. C. B. Jarvis is erecting a large brick-house.

Simcoe Street.—Mr. Harper is erecting a large and substantial brick residence.

St. George's Square.—Major Esten is having a large brick house erected.

Crookshank's Lane.—A large brick house for Mr. James Macdonald.

Church Street.—Four brick houses are being erected in place of those opposite the Roman Catholic Church, destroyed by fire in June last. They are to be one story higher than the old structures. Two are the property of Mr. Malcolm Gillespie, the others of Mr. Cooper. Two houses belonging to Mr. Preston, south of Shuter-street, are nearly completed, and there are two large stores, with dwellings attached, going up on the same side of Church-street, between Richmond and Stanley-streets.

Berkeley Street.—Herein are two large brick houses.

Jarvis Street.—Four detached houses, all of white brick, also one, the property of Mr. Mayer.

Yonge Street.—One small brick house for Mr. Briggs.

George Street.—The Mayor is building a large detached house, constructed of white brick. Mr. Snarr is erecting four of brick.

Jordan Street.—Mr. James Lukin Robinson is erecting a large building at the corner of Jordan and Melinda-streets, to be let out as Law Chambers. It is a handsome structure.

Elm Street.—Three brick houses.

Bond Street.—One brick dwelling-house for Mr. Williamson, and three frame houses.

Princess Street.—Two dwelling houses, one each for Messrs. Whitney and Galt.

Bathurst Street.—Two small frame houses are building between Front and King-St.

Adjoining the Roman Catholic Church of St. Mary's, in the same street, a frame house is being built for the officiating priest.

In this Street, north of King-street, extensive alterations and additions are being made on the residence of Mr. C. Z. Gzowski.

Van Aulay Street—Two frame houses of medium size are being erected on this St.

Besides these, there are many small frames and many additions and alterations, amounting in some cases almost to rebuilding, in progress, which are too numerous to obtain a place here.

At Homewood, the property of Mr. Allan, likewise at the residences of Hon. H. Killaly, in Wellington Place, and Mr. Brunel, the Superintendent of the Northern Railway, great alterations are being effected.

But we must proceed to refer to the buildings in course of construction by public bodies, having gone through those erecting by private individuals. In the first place, among these stands numerous railway works, consisting principally of very extensive freight houses, engine-houses, (absurdly called "engine-stables,") for the western section of the Grank Trunk, and another for the Toronto and Hamilton Railway Company, which is a substantial brick structure, two hundred and thirty feet long by fifty-three broad. The freight-house of the former approaches completion; but the engine-houses are by no means advanced, though the whole will be finished this fall. All these are situated near the Old Fort, by the Queen's wharf, as is also a semi-circular engine-house, now ready for use, belonging to the Northern Railway; it is a large dark structure lying east of the Grand Trunk works. The Northern Company is also erecting, at the corner of Front and Bathurst Streets, a long frame building, containing twelve or fourteen rooms, to be used as clerk's offices for the transaction of general business. It will be very soon in a state of completion, and the offices will be removed there from King Street.

Another large public edifice not yet finished, is the Toronto Exchange; this, however, having been previously described, requires, at present, no further allusion.

The new Congregational church at the corner of Bay and Adelaide-streets, is on the same spot, and intended as a substitute for the building which was destroyed by fire last winter.

A Presbyterian church for the Rev, Dr. Taylor's congregation is about to be commenced on the corner of Victoria and Gould-streets.

A contract is about to be entered into immediately for a Roman Catholic Hospital called the New Home of Providence. This is intended as a refuge for the destitute and for orphans, and an Hospital for the sick and infirm; also as a temporary home for poor emigrants, and is to be erected on a vacant piece of ground southward of St. Peter's Church, Power-street. The style of the edifice is that which prevailed in the north of France about the early part of the 16th century. Judging from the design of the architect, it will exhibit all the effect of some of the finest edifices of this class which are to be found on the continent of Europe. Mr. Wm. Hay is the architect.

The college of St. Michael and St. Basil's church, is another undertaking in progress at the expense of the Roman Catholics. The college, when complete, will accommodate about two hundred pupils. The principal wing is ninety feet in length by forty in breadth, and of a height of forty-eight feet. The dimensions of the church are one hundred feet in length by fifty in breadth. In the buildings of the college, will be found private rooms for the Superior and Masters, class-rooms, a community room, a refrectory, and the necessary dormitories. The church is in the style which prevailed in England about the middle of the thirteenth century. The effect of the whole is very imposing, and the style is, we believe, novel in this country, reflecting great credit on the skill and taste of the architect, Mr. Hay.

We have thus endeavored to give a tolerably full sketch of the buildings going on within the city, and if the list be not perfect, it is at least sufficient so to enable the reader to form a eorrect idea of the amazing growth of Toronto within the past two months. In addition to the public and private edifices in course of construction, there are many other large works going on around us; for instance, new sewers are being opened, the Esplanade is progressing, and the several railway lines, running into or through our city, are hastening to completion.

A large accession to our population has thus been gained, merely in the surplus number of mechanics that the flourishing condition of the labour market has allured hither. One firm alone, that of Messrs. Worthington & Co., who have extensive contracts in and around the city, give employment, at present, to three hundred and fifty men, and last month paid nearly $7,000 for their services. The great abundance of work, while it has kept up wages, has made it difficult to obtain mechanics in sufficient number. Some leading houses have, we learn, been even compelled to send to the United States in search of men to enable them to do work contracted for, within the specified time; and we learn, on what we believe to be indisputable authority, that some hundreds of additional men might yet find employment here in the different trades connected with building. The following are the prices *per diem* at present paid:—Carpenters, locksmiths, gasfitters, and plasterers, 8s 9d; bricklayers and masons, 10s; painters, 7s 6d; labourers, 5s. This scale is that which has ruled since the spring of 1854, when an advance of a quarter of

a dollar per day was made in the wages of workmen engaged in mechanical trades connected with house-building.

While there has been an advance since the corresponding period of 1854, in lumber, an article extensively required for building purposes, a diminution has taken place in the cost of another hardly less indispensable requisite—viz., bricks. A comparison of the present price with that which ruled in 1854 will show an average decrease of about three dollars per thousand, though they are still quoted much higher at Toronto than in the markets of the United States, the rates being very considerably in favour of the purchaser on the other side of the Lakes. While an inferior article here is easily sold at $7 per thousand, the New York papers note the prices in that State as but little over three dollars and a half. This difference against our own manufacture, when it might be fairly supposed we possessed equal facility for producing cheaply, is said to be rather attributable to the depressed state of the building interest in that portion of the United States, than to any advantage, natural or artificial that the American maker enjoys. Some even go the length to maintain that the bricks offered at that price are invariably sold at a positive loss. This seems to us probable, though, from our limited knowledge of the subject, we are not able to guarantee the truth of the assertion.

The fall of the price of bricks here is generally attributed to the introduction of machinery in the manufacture in the place of hand-labour—an innovation of quite recent date here. Worthington & Co., have recently established extensive works for this purpose, performing the process mainly by steam power, and producing a very beautiful article. But the extent to which the manufacture of bricks has arrived in this city makes the subject deserving of a fuller notice than we are at present able to devote to it; we may, however, refer again to the subject in a separate article, so soon as our space permits.

The foregoing is but one of many articles on a similar subject, and did the limits of this Work allow it many more equally as instructive evidences of the amazing growth of the city could be produced.

In a Commercial view alone we can also adduce substantial evidence of the increasing prosperity of Toronto; for while we find the net Customs revenue on Imports in the years

1842	was	£8,053	4	0½
1847	"	31,266	7	5
1852	"	91,334	2	8
1853	"	157,026	0	0

In 1854 they were £172,670, being an excess of £16,644 in 1854 over 1853 alone; or within the space of twelve years, the Customs Revenue at Toronto has risen from £8,390 3s. 3d. to £172,670, twenty-one times greater than in 1842.

The Exports for the years 1850	were	£67,557	0	0
1853	"	221,490	0	0
1854	"	273,765	15	8

Whilst in 1855 they were £403,389 18s. 3d., six times greater than in 1850, and nearly half as much again as in 1854.

The Imports for the corresponding years amounting to,

In 1850	£634,722	0	0
1853	1,605,036	0	0
1854	1,363,287	0	0
1855	1,350,099	8	2*

Striking evidence we think of the actual advance in prosperity of Toronto.

We give a comparative statement of the Exports and Imports of Toronto for the year ending 5th of January, 1856; the detail connected with it possessing considerable interest to the wholesale community, as well as some valuable mercantile matter.

* The apparent decrease in 1855 is owing to the Reciprocity Treaty taking effect in that year.

Comparative Statement of the Imports at the Port of Toronto, during the Years 1854 and 1855.

The Tariff having been altered in the early part of last year, the following classification applies to the year 1855, and only partially to the year 1854. Thus, many articles, which in 1854 paid from 2½ to 30 per cent. duty, in 1855 were admitted free under the Reciprocity Treaty, and for the sake of comparison, in the table which follows, are for both years classified under the head, "Free Goods."

Were more illustrations of the increasing prosperity and wealth of the City required, they could be abundantly furnished. The present years' assessment of real property is not yet returned by the various Assessors, but we have no doubt such will materially

exceed (and more than in proportion) those of prior years. The estimated value of real and personal property in 1851 being £3,116,400, the assessed value thereon, at 6 per cent. on the estimated £186,983 5s. In 1854 its estimated value was £4,885,000, the assessed being £290,950 ; while that for last year, 1855, per Assessors' Rolls, reached an estimated value of £5,793,200, or an assessed amount of £347,594 15.,—an increase in one year alone of nearly one million pounds in the estimated, and £56,644 15s. in the assessed value of property in Toronto. A gratifying increase truly,—20 per cent. in one year. What the returns for 1856 will show, we do not venture to contemplate ; but of this we are certain, hourly are new enterprises starting into life around us ; the respectable position we occupied as a manufacturing city is growing to still greater pretensions ; on every side is heard the clang of Industry, every hand full of projects ; awhile ago but faintly hoped, now realized,—and still greater ones contemplated.

In addition to the Northern Railway (and the Grand Trunk near completion), one more link, and that an important one, has the past year been added to the chain of Iron Work gradually extending and encircling the Province,—the Toronto and Hamilton we allude to, 40 miles only, but forming a most important addition, completing our line of direct communication with the Far West, the advantage and profit from which will be incalculable, and, as truly stated by Sir C. P. Roney, "If the immense traffic combinations of which these Railways (the Grand Trunk, Great Western, and Ontario, Simcoe and Huron) are susceptible, be carried into effect, the business in freight and passengers that will pass through that City (Toronto) will be enormous, for here will be the Junction of the great main Railway artery of the East with that running South-west, toward Hamilton and Detroit, with the Western continuation of the Grand Trunk line to Sarnia, and also with the Ontario, Simcoe and Huron line."

That the importance of this link was duly appreciated by the Citizens of Toronto, the Railway Demonstration *dejeuner* and ball sufficiently testify,—an event, whatever its merits may have been (and some have questioned its policy and reprobated the outlay), abundantly proves the value Toronto set upon its completion, the free and open exhibition of which somewhat riled our friends of the Sister City, and plucked a feather from her cap.

Illustrations multiply around us ; our space will only admit of brief allusion to the advantages derived by Toronto (certainly indicative of prosperity), from the many Educational Institutions flourishing in her midst. The several Colleges—Upper Canada, Trinity and University, and the Normal Schools, in themselves speak volumes for her well-doing,—the last-named building being erected at a cost of £25,000, and situated in what is now one of the finest parts of Toronto ; the sum spent in its erection being a noble outlay, and already yielding a return more than justifying the expenditure.

The least gratifying part of our notice is that relating to the Crime of Toronto, an evil under which all cities, however prosperous they may be (those of this Continent especially), suffer from. Containing a population of nearly 55,000 individuals, and made up as it is of some of the good, bad, and indifferent of almost every nation, serious crime as well as petty misdemeanour is no stranger to it,—the great majority of offences in the beginning arising from intemperance, an unfortunate evil, too readily admitted, and about the only real bane under which we suffer,—though its actual existence, however strange the statement may seem, adds yet another proof to the universal prosperity we enjoy, for the majority of cases of intemperance exist amongst the class of people who are, when sober, our hardest workers ; the constant employment, at high rates of wages, (a different state of things from the country they have just left,) together with the cheapness of the spirit, giving them the means of unchecked indulgence. We give a return of

committals, embracing a period of 10 years, from 1844 to 1853 ; as well as a report from the Chief of Police for the year 1855, showing the numbers arrested on various charges, how disposed of—the number of times brought up, and the countries to which they belong :—

Among the most complete returns in the collection is that prepared by Mr. Allen, showing the committals to the goal of the United Counties of York and Peel, for the ten years ending 31st December, 1853, distinguishing the number committed on criminal charges, the number committed for misdemeanor, and on civil process; showing also the number convicted of crime, distinguishing the crimes of which they have been convicted; and showing also the number of males, and the number of females, in each class. In 1844 the number of committals was—of males, 400; of females, 188. In 1845—of males, 431 ; of females, 218. In 1852, the number of committals was—of males, 491 ; of females, 295. In 1853—of males, 611; of females, 359. For the whole ten years the number of committals was—of males, 4,444; of females, 2,705, who were thus distributed: felons, 1,053 males, and 337 females; misdemeanants, 2997 males, and 2367 females; debtors (civil process), 433 males, 1 female. The number of *convictions*, for felonies of various kinds, during the ten years was—of males 447 ; of females, 147. Most of these convictions were for larceny, viz: males, 358; females, 139. 12 were convicted of burglary, 11 of cow-stealing, 11 of horse-stealing, 10 of receiving goods under false pretences. Only 3 were convicted of stabbing, 8 of manslaughter, and 5 of murder—4 males and 1 female. It is a curious circumstance, considering the great increase of population in the counties of York and Peel during the 10 years embraced by the return, that while the number of convictions for felony in 1844 were 63, in 1853 they were 49, or 14 less than in the first mentioned year. Of convicted misdemeanants, the total number for ten years was—males 2351, females 1824; *intemperance* furnishing two-thirds of this large number directly, and we doubt not indirectly a very large portion of the remainder. Under the head Drunk and Disorderly, we find 830 males and 974 females; drunk in the street, 482 males, 167 females; drunk and fighting, 31 males, 2 females. The only other considerable table in the class for misdemeanants is that of Assaults, for which there were convicted, 279 males and 34 females. Here again there was a falling off during the last year embraced in the returns as compared with the first; the number in 1844 being 42, and in 1853 only 21, exactly one-half. The number of drunken cases, however, has increased from 247 in 1844, to 371 in 1853. The convictions for offences of all sorts, including both felonies and misdemeanants, in 1844 were 389—in 1853 they had increased to 713.

Police Returns for 1855.

January.—Drunk and disorderly, 82 males, 27 females ; larceny, 17 males, 3 females ; assault, 11 males, 3 females; threatening, 13 males, 1 female ; trespass, 1 male ; non-payment of wages, 3 males, 1 female ; suspicion of murder, 14 males ; deserting employ, 1 male ; robbery, 6 males ; nuisance, 1 female ; keeping a danderous dog, 1 male ; breach of city law, 1 male. Total number of males, 150 ; total number of females, 36 ; grand total, 186.

February.—Drunk and disorderly, 71 males, 26 females ; keeping disorderly house, 2 females; larceny, 23 males, 9 females ; assault, 15 males, 6 females; threatening 6 males, 1 female ; trespass, 8 males, 1 female; deserting employ, 1 male ; robbery 1 male ; keeping a dangerous dog, 1 male ; breach of city law, 35 males, 1 female ; surrendered by bail, 1 male ; contempt of court, 1 male ; obtaining money under false pretences, 1 male. Total number of males, 164 ; total number of females 46 ; grand total, 210.

March.—Drunk and disorderly, 96 males, 38 females; keeping disorderly house, 2 males, 3 females ; larceny, 8 males, 6 females ; assault, 31 males, 5 females ; threatening, 18 males, 4 females ; trespass, 8 males, 3 females ; non-payment of wages, 3 males, 1 female ; deserting employ, 3 males ; robbery, 4 males ; nuisance, 1 male ; breach of city law, 10 males ; child desertion, 1 female ; passing bad money, 2 males. Total number of males, 186 ; total number of females, 61 : grand total 247.

April.—Drunk and disorderly, 121 males, 27 females ; larceny, 27 males, 4 females ; assault, 34 males, 3 females ; threatening, 12 males, 6 females ; trespass, 2 males, 1 female ; non-payment of wages, 7 males ; deserting employ. 1 male ; robbery, 4 males ; breach of city law, 11 males ; passing bad money 1 male. Total number of males, 220 ; total number of females, 41 ; grand total 261.

May.—Drunk and disorderly, 79 males, 27 femakes; keeping disorderly house, 1 male, 1 female; larceny, 7 males, 5 females; assault, 24 males, 1 female; threatening, 9 males, 6 females; trespass, 2 males; non-payment of wages, 5 males; robbery 1 male; keeping a dangerous dog, 2 males; breach of city law, 34 males, 2 females; surrendered by bail, 1 male; furious driving, 1 male; fighting, 4 males. Total number of males, 170; total number of females, 42; grand total, 212.

June.—Drunk and disorderly, 123 males, 35 females; keeping disorderly houses, 2 males, 4 females; larceny, 14 males, 4 females; assault, 26 males, 4 females; threatening, 14 males, 1 female; non-payment of wages, 1 male; deserting employ, 1 male; robbery, 2 males; keeping a dangerous dog, 1 male; breach of city law, 31 males, 1 female; fighting, 4 males. Total number of males 219; total number of females, 49; grand total 268.

July.—Drunk and disorderly, 128 males, 35 females; keeping disorderly house, 1 male, 6 females; larceny, 26 males, 6 females; assault, 45 males, 4 females; threatening, 19 males, 3 females; trespass, 7 males; non-payment of wages, 7 males; deserting employ, 5 males; robbery, 4 males; nuisance, 3 males; keeping a dangerous dog, 1 male; breach of city law, 4 males; surrendered by bail, 1 male; obtaining money under false pretences, 1 male; stabbing 1 male; riot, 28 males; fighting, 2 males. Total number of males, 283, total number of females, 54; grand total, 337.

August.—Drunk and disorderly, 136 males, 32 females; keeping disorderly house, 1 male, 3 females; larceny, 29 males, 1 female; assault, 55 males, 13 females; threatening, 18 males, 13 females; trespass, 2 males; non-payment of wages, 7 males; suspicion of murder, 1 male; deserting employ, 13 males; robbery, 4 males; nuisance, 2 males; keeping a dangerous dog, 2 males; breach of city law, 14 males; obtaining money under false pretences, 2 males; stabbing, 2 males; riot, 14 males; fighting, 6 males. Total number of males, 308; total number of females, 62; grand total 370.

September.—Drunk and disorderly, 160 males, 40 females; keeping disorderly house, 1 male, 2 females; larceny, 14 males, 2 females; assault 49 males, 12 females; threatening, 15 males 11 females; trespass, 2 males. 4 females; non-payment of wages, 8 males; suspicion of murder, 3 males; deserting employ, 1 male; robbery, 6 males; nuisance 4 males; keeping a dangerous dog, 2 males; breach of city law, 12 males; surrendered by bail, 1 male; passing bad money, 1 male; stabbing, 5 males; fighting, 10 males. Total number of males, 293; total number of females, 71; grand total, 364.

October.—Drunk and disorderly, 147 males, 44 females; keeping disorderly house, 2 males, 8 females; larceny, 15 males, 7 females; assault, 35 males, 20 females; threatening, 14 males, 2 females; trespass, 1 male, 1 female; non-payment of wages, 7 males; suspicion of murder, 4 males; deserting employ, 3 males; nuisance, 1 male; keeping a dangerous dog, 1 male; breach of of city law, 8 males; surrendered by bail, 1 male; house breaking, 6 males; lunacy, 1 male; horse stealing, 1 male; perjury 1 male; furious driving, 2 males; fighting, 6 males, 2 females; Total number of males, 253; total number of females, 84; grand total, 337,

November.—Drunk and disorderly, 100 males, 23 females; keeping disorderly house, 3 males, 4 females; larceny, 1 male, 2 females; assault, 30 males, 2 females; threatening, 17 males, 7 females; non-payment of wages, 8 males; deserting employ, 5 males; robbery, 2 males; keeping a dangerous dog, 3 males; breach of city law, 42 males, 1 female; obtaining money under false pretences, 2 males; selling spirits without license, 2 males; rape, 1 male. Total number of males, 222; total number of females, 49; grand total, 271.

December.—Drunk and disorderly, 114 males, 29 females; keeping disorderly house, 2 females; larceny, 24 males, 16 females; assault, 30 males, 16 females; threatening, 12 males, 5 females; trespass, 7 males, 1 female; non-payment of wages, 7 males; deserting employ, 2 males; robbery, 4 males; nuisance, 3 males; breach of city law, 14 males; surrendered by bail, 2 males; obtaining money on false pretences, 1 male; house breaking, 1 male; horse stealing, 3 males. Total number of males, 223; total number of females, 69; grand total, 292.

Punishments.

January.—Committed to gaol for one month and under, to hard labor, 15 males, 19, females; fine or imprisonment, 9 males, 1 female; summarily punished by fine, 17 males

1 female; committed for trial, 6 males, 2 females; bound to the peace, 8 males, 1 female; complaint withdrawn, 11 males, 3 females; discharged, 3 males, 2 females; dismissed, 6 males, 2 females; bailed for trial, 5 males; committed in default of bail, 2 males, 1 female; remanded or postponed, 14 males, 4 females. Total number of males, 150; total number of females, 36; grand total, 186.

February.—Committed to goal for one month and under, to hard labor, 18 males, 23 females; fine or imprisonment, 8 males, 4 females; summarily punished by fine, 54 males, 1 female; committed for trial, 19 males, 7 females; bound to the peace, 6 males, 1 female; complaint withdrawn, 4 males, 2 females; discharged, 48 males, 4 females; dismissed, 5 males, 1 female; committed in default of bail, 1 male, 1 female; remanded or postponed, 1 male, 2 females. Total number of males, 164; total number of females, 46; grand total, 210.

March.—Committed to gaol for one month and under, to hard labor, 20 males, 24 females; fine or imprisonment, 30 males, 2 females; summarily punished by fine, 28, males, 2 females; committed for trial, 9 males, 8 females,; bound to the peace, 12 males 1 female; complaint withdrawn, 8 males, 1 females; discharged, 32 males, 11 females; dismissed, 6 males, 1 female; remanded or postponed, 41 males, 16 females. Total number of males; 186; total number of females, 61; grand total, 247.

April.—Committed to gaol for one month and under, to hard labor, 28 males, 21 females; fine or imprisonment, 35 males; summarily punished by fine 22 males; committed for trial, 14 males, 1 female; bound to the peace, 14 males, 6 females; complaint withdrawn, 17 males; discharged, 40 males, 6 females; dismissed, 10 males, 1 female; bailed for trial, 6 males; committed in default of bail, 4 males; remanded or postponed, 30 males, 6 females. Total number of males, 220; total nnmber of females, 41; grand total, 261.

May.—Committed to gaol for one month and under, to hard labor, 23 males, 19 females; fine or imprisonment, 17 males, 1 female; summarily punished by fine, 37 males; committed for trial, 4 males, 2 females; bound to the peace, 8 males, 3 females; complaint withdrawn, 7 males; discharged, 47 males, 8 females; dismissed, 16 males, 3 females; committed in default of bail, 3 males; remanded or postponed, 8 males, 5 females. Total number of males, 170; total number of females, 42; grand total, 212.

June.—Committed to gaol for one month and under, to hard labor, 24 males, 28 females; fine or imprisonments, 39 males, 1 female; summarily punished by fine, 34 males, 3 females; commited for trial, 2 males, 1 female; bound to the peace, 3 males; complaint withdrawn, 8 males; discharged, 69 males, 8 females; dismissed, 4 males; committed in default of bail, 7 males, 1 female; remanded or postponed, 29 males, 6 females. Total number of males, 219; total number of females, 49; grand total 268.

July.—Committed to gaol for one month and under, to hard labor, 26 males, 28 females; fine or impisonment, 24 males; summarily punished by fine, 27 males; committed for trial, 8 males, 2 females; bound to the peace, 26 males, 2 females; complaint withdrawn, 5 males, 1 female; discharged, 83 males, 8 females; dismissed, 8 males, 1 female; bailed for trial, 1 male; commited in default of bail, 2 males; remanded or postponed, 73 males; 11 females. Total number of males, 283; total number of females, 54; grand total, 337.

August.—Commited to gaol for one month and under, to hard labor, 37 males, 22 females; fine or imprisonment, 42 males, 2 females; summarily punished by fine, 29 males, 4 females; committed for trial, 10 males; bound to the peace, 20 males, 10 females; complaint withdrawn, 12 males, 1 female; discharged, 83 males, 8 females; dismissed, 19 males, 4 females; bailed for trial, 7 males, 1 female; committed in default of bail, 2 males; remanded or postponed, 47 males, 10 females. Total number of males; 308; total number of females, 62; grand total, 370.

September.—Committed to gaol for one month and under, to hard labor, 33 males, 21 females; fine or imprisonment, 29 males; summarily punished by fine, 39 males, 7 females; committed for trial, 7 males, 1 female; bound to the peace, 4 males, 9 females; complaint withdrawn, 16 males, 4 females; discharged, 109 males, 16 females; dismissed, 18 males, 3 females; bailed for trial, 1 male; committed in default of bail, 2 males, 1 female; remanded or postponed, 35 males, 9 females. Total number of males, 293; total number of females, 71; grand total, 364.

October.—Committed to gaol for one month and under, to hard labor, 27 males, 23

females; fine or imprisonment, 19 males; summarily punished by fine, 54 males, 4 females; committed for trial, 8 males, 4 females; bound to the peace, 9 males, 4 female; complaint withdrawn, 6 males, 2 females; discharged, 87 males, 21 females; dismissed, 18 males, 10 females; committed in default of bail, 1 male; remanded or postponed, 29 males, 16 females. Total number of males, 253; total number of females, 84; grand total, 337

November.—Committed to gaol for one month and under, to hard labor, 18 males, 24 females; fine or imprisonment, 24 males; summarily punished by fine, 53 males, 1 female; commited for trial, 4 males, 1 female; bound to the peace, 10 males, 7 females; complaint withdrawn, 25 males 2 females; discharged, 48 males, 8 females; dismissed, 7 males, 1 female; bailed for trial, 2 males; committed in default of bail, 2 males, 2 females; remanded or postponed, 29 males, 3 females. Total number of males, 222; total number of females, 49; grand total, 271.

December.—Committed to gaol for one month and under, to hard labor, 29 males, 18 females; fine or imprisoment, 13 males; summarily punished by fine, 37 males, 1 female; committed for trial, 10 males, 9 females; bound to the peace, 8 males, 4 females; complaint withdrawn, 8 males, 7 females; discharged, 76 males, 14 females; dismissed, 13 males, 4 females; committed in default of bail, 2 males, 2 females; remanded or postponed, 27 males, 10 females. Total number of males, 223; total number of females, 69; grand total, 292.

COUNTRIES.

IRELAND.—1,809 males, 535 females. Total, 2,344.
ENGLAND.—361 males, 54 females. Total, 415.
SCOTLAND.—230 males, 22 females. Total, 252.
GERMANY.—19 males, 2 females. Total, 21.
CANADA EAST AND WEST.—176 males, 23 females. Total, 199.
UNITED STATES.—28 males, 6 females. Total, 34.
FRANCE.—20 males, 10 females. Total, 30.
NORWAY.—5 males. Total, 5.
INDIAN.—6 males. Total, 6.
COLORED.—37 males, 12 females. Total, 49.
Total number of males and females, 3,355.

NUMBER OF TIMES BROUGHT UP.

Once, 1,968 males, 458 females; total, 2,426. Twice, 451 males, 126 females; total, 577. Three times, 127 males, 42 females; total, 169 Four times, 70 males, 28 females; total, 98. Five times, 31 males; total, 31. Six times, 13 males, 4 females; total, 17. Seven times, 11 males; total, 11. Eight times, 9 males, 3 females; total, 12. Nine times, 2 males, 2 females; total, 4. Ten times, 3 males, 1 female; total, 4. Eleven times, 2 males; total 2. Twelve times, 3 males; total, 3. Thirteen times, 1 male; total, 1.

Grand total, 3,355.

Fines and costs received in Police Office	£662 10
Probable value of Stolen Property at present in charge of Chief of Police	30 0

SAMUEL SHERWOOD,
Chief of Police.

CHIEF OF POLICE OFFICE,
Toronto, Feb. 13, 1856.

It is unnecessary here to do more than advert to the various public edifices; we will endeavour however to afford an idea of the size and importance of the City, and its internal appearance which in part we shall do by availing ourselves of the pages of Rowsell's Directory of 1850, making such alterations as may be necessary.

Toronto contains upwards of one hundred and twenty streets, some of which are of great length; and *King-street*—the main street of the City—is one of the finest in America. The shops on this street, which display extensive stocks of goods, are finished and decorated in the English style, and in appearance some of them would bear comparison with those of Regent-street, London, and in the matter of rents even exceeding

them ; many houses on King-street pay a ground rent of £200, £300, and even £400 is not an uncommon rent for those most centrally situated. The public and private buildings on this street are—Trinity Church, and School-house attached; Trinity Parsonage Berkeley House (the residence of C. C. Small), which is said to be partially built upon the logs of a fisherman's hut, purchased for a temporary residence by Mr. Small's father, upon his arrival with Governor Simcoe, some fifty or sixty years ago, when not a single house was to be seen on the ground which now forms the site of this metropolis ; the substantial residence of Mrs. J. S. Baldwin ; the St. Lawrence Hall and Buildings ; the St. James' Cathedral ; the Royal Lyceum ; Northern Railroad Office ; Government House ; William Cawthra's residence ; Upper Canada College ; the old Toronto General Hospital, with a variety of public and private establishments of the best class.

Yonge-street is the second street of importance, and greatest in length (extending, as it does, 30 miles into the country). The portion of it lying within the city limits is however not quite two miles. It is the most centrally situated street in Toronto, and has a large wholesale trade ; that portion of it lying south of King-street being principally occupied by wholesale dry goods warehouses. The Banks of British North America and Montreal and City Bank, Montreal, are also situated in this locality. Yonge-street, north of the eastern entrance of the College-avenue, is principally occupied by private residences,—among which are Elmsley Villa and grounds (now Knox's College) ; further north, occupying a commanding situation, is Kearsney House, the residence of William Proudfoot, a building designed in the Roman villa style. Still further on is Clover Hill and Wickham Lodge, the late residence of the Hon. Mr. Justice Macaulay. There are many prettily situated streets running east and west out of this section of Yonge-street, the most remarkable of which are Shuter, Gerrard, and Carlton-streets, and the Sydenham Road (or Bloor-street), adjoining the thriving village of Yorkville. The second-mentioned (Gerrard-street), with Jarvis, a street running north and south at angles with Gerrard, are the handsomest streets of private residences in Toronto. Among the many dwellings situated thereon, those of J. S. Howard, J. A. Smith and Alex Dixon, are the most imposing. Sydenham Road, or Bloor-street, which is situated partly within and partly without the liberties, is a favourite and rather fashionable retreat. The villa residences here are both numerous and handsome. The modest and unpretending little suburban church of St. Paul is situated in this locality, as also the new Wesleyan Chapel, a handsome structure of white brick—from the upper end of the street, where a blockhouse is erected, a fine view may be had of the romantic and beautiful grounds of Rose Dale, lately laid out in building lots.

Front-street, running parallel with the bay, is another street of considerable magnitude, extending from the Market-square to the garrison. The western portion is principally occupied with private residences, some of which are very handsome. Among these may be mentioned that of the Honourable George Crookshank; the Bishop of Toronto's ; Lyndhurst, the late residence of Frederick Widder ; the new and tasteful residences of J. G. Spragge and Alfred Coulson. The Parliament Buildings and Knox's College (now Sword's Hotel), are also situated on this street. The southern side of Front-street extending along the Bay shore, is principally occupied with factories and manufactories of different kinds, the most extensive of which are the chair and furniture manufactory of Jacques & Hay, and the Ontario Brewery. The Custom House, Telegraph and Royal Engineer Offices, the Steamboat Offices, the Wharves, and the American and North American Hotels, are likewise situated on this street.

Queen-street is another of the leading streets of the city, and is divided like several others, into east and west: it extends from the Don-bridge in the east, to the

Lunatic Asylum,—a distance of over three miles. The public buildings on this street are the Asylum at its extreme west, and Trinity College, Osgoode Hall, a little east of the College-avenue, and Knox's Church. The principal private residences westward, are Denison's-terrace, the residence of George Denison, situated at the head of an avenue of the same name; The Meadows, the residence of the Hon. John Hillyard Cameron; and the Hon. Mr. Justice McLean's residence, the principal entrance to which is by Peter-street. On the east end of this street we have Moss Park, the residence of G. W. Allan, the cottage of S. Ridout, and McMahon cottage; the grounds of the latter having recently been laid out and sold in building lots; many new streets have opened out north from this part of Queen-street, which run through a delightful and rapidly improving section of the city.

Church-street, running parallel with Yonge-street, although not of such extent, is nevertheless another of the principal streets of Toronto; it commences on Front-street, and runs north about two miles. The portion of it south of King-street, like Yonge-street, is principally occupied by wholesale stores, mostly in the grocery and spirit trade; Russell's Hotel, and the railway ticket and stage offices are situated on this part of it. The Western Assurance Co. have also erected a spacious brick building of noble appearance. North of King-street may be said to be chiefly occupied by private dwellings, for which it is admirably adapted on account of its healthy locality and proximity to the business part of the city. St Michael's (Roman Catholic) cathedral and palace are situated on this street, and St. Andrew's church, and the rear and grounds of the Cathedral church of St. James', together with the School House. Ontario Hall is also situated on this street, a little north of King-street, near to which, a little in the rear, Court-street, is the Firemen's Hall, and the building at present used by the Mechanics' Institute, they having leased the magnificent premises lately erected by them to the Government, who have appropriated it to the Crown Land and Post Office Departments. There are extensive ranges of private residences of two and three stories high; the principal detached edifice, however, is Oakham House, the residence of Mr. Thomas, architect, which is designed in the Tudor-Gothic style, having a high decorated front. The grounds of the Model School extend to this street, preserving a fine open square, abutting as they do on and bounded by Gerrard, Gould and Victoria-streets.

The next street east of and running parallel with Church, is *Jarvis-street.* This street is of considerable length, being a continuation of Nelson-street, which is intersected at Queen-street east, running through direct to Yorkville. The park-like character of the neighbourhood through which this runs gives it quite an alluring and healthy appearance, which has not failed to attract public notice; villa residences and houses of stately dimensions having been rapidly built, most of them in a very tasty style. The Unitarians have recently erected a handsome brick building on this street, and the rapid improvements taking place cause it to be regarded as the principal suburban street of the city.

Duke-street, commences on Nelson and runs east to Parliament-street. The character of the buildings here may be described as respectable; they are principally occupied by private families. The house most worthy of notice is that of the Hon. Jas. Gordon, (a house of some antiquity, having been formerly the residence of Sir Wm. Campbell), and Mr. Latham. That well-known monetary institution, the Bank of Upper Canada, is on this street. The Canada Company's office is situated a little to the south of King, on Frederick-street, which runs out of Duke-street.

The space alloted to our prefatory remarks will not admit us, nor can we be expected to describe the streets separately or consecutively, in speaking of a place of such magnitude. We cannot close our remarks however on this subject,

without taking a glance at some of the other streets in the city, most of which are well worthy of notice, such as Parliament-street, at the head of which stands St. James's Cemetery, and a little to the east the Toronto Necropolis, another Cemetery. The large plot of ground known as the "North Park," is situated in this direction, and extends from the cemetery on the east of Parliament-street south to King-street, then east to the Don-bridge, and then north along the Don river to the Necropolis; and though not equal in appearance to St. James's or Hyde Park in London, or the Phœnix in Dublin, boasts of a Regent and St. James's-street. Palace-street runs east from the Market-square, towards the upper end of which the Gaol is situated. We must not omit to mention Wellington-street,—the Commercial Bank, Wellington Hotel, the Marriage License Office, the Loretto Nunnery, and Dr. Cadwell's are situated on this street. The Toronto Exchange, but recently completed, stands here also, a fine building, opened for business but a few weeks ago. Towards the west end there are some very good private dwellings. Wellington-place, is a wide and handsome thoroughfare running from Brock to Portland-street, in the western portion of the city; there are some good private residences situated on it.—Adelaide and Richmond-streets (which are divided into east and west) are long and populous streets. On Richmond-street west is situated the Richmond-street Methodist chapel and United Secession Church; Beverly House, the residence of the Hon. Chief Justice Robinson is near its western extremity. The Congregational Church is situated on Adelaide-street, corner of Bay, and the Adelaide-street Wesleyan Methodist chapel on its eastern section; and the New Court House, a most spacious building of white brick and stone, standing on the south-side; a little to the south of the Wesleyan chapel, on Toronto-street, is the newly-erected Registry Office for the County of York. The new Post Office, a plain but commanding building, and a splendid block of red brick premises, known as "York Buildings," occupied as offices and chambers. Bay and York-streets are each worthy of notice; the ranges of buildings erected on that portion of Bay lying south of King-street, for uniformity and extent, are certainly second to none in the city. The United Presbyterian Church is on Bay-street. Immediately north of King-street, a little in the rear, is the Apostolic Church; contiguous to which, with questionable taste, a racquet-court has been erected. The Fireman's Hall, No. 2, completes the public buildings on this street. On York-street, the principal buildings are the new Hotel, corner of King-street, in course of erection by Messrs Rossin Bros., a building designed on a most extensive scale, and calculated to accommodate 500 guests, and which when completed will be second to none in British America, and "Albany Chambers" opposite. "The Cottage," the residence of James M. Strachan, at the foot of the street, is a pretty and tasteful residence. This street affords a good view of Osgoode Hall.

Toronto has also her squares. *St. George's-square*, on which St. George's church is situated, the spire of such being much admired on account of its chaste simplicity and harmony of proportion: "The Grange," the residence of Mrs. D'Arcy Boulton, may be said to bound it on the north; to the west of which, approached by a semicircular road, is the fine range of buildings known as Beverly-street, St. George's-square. Immediately east of the Grange, approached as before mentioned, is "Pinehurst" (occupied as a ladies' seminary, under the superintendence of Mrs. Foster), which may be termed St. George's-square east. *McGill-square* may be said to be bounded by Church-street on the east, Bond on the west, Shuter on the north, and Queen on the south. Victoria, Gerrard, Carlton, Shuter and Bond-streets are worthy of notice, some of the finest private houses erected in the city being found upon them. Nor must the new premises erected on Moss Park property be passed over,—at present, although few, those that are there being of aristocratic pretensions. The new building designed for the

being extremely picturesque,—the fine view of the City, Bay and Lake from the high ground extending from the country across Yonge-street, presenting much beauty. Educational Institutions of high order, and Public and Private Seminaries for both sexes are numerous; and, together with a climate, its temperature warm in summer it is true, but a winter of beautiful, clear, dry, bright, invigorating weather,—free from all those foggy, damp days common to England,—renders Toronto as a residence, one of the most elligible Cities in Canada. Every appurtenance and appliance of luxurious and even fashionable life is here to be had for money. Society, certainly not so pleasant and open as it might be (and even is in the sister City, Hamilton), is nevertheless to be obtained and enjoyed.

If we argue for the future from the past, we are, ere long, to see Toronto the chief City of United Canada; her increase in importance and prosperity, great as it is, may still be materially augmented by the more independent management of its Civic concerns, members of Council and Aldermen more determined, fearlessly, to do their duty to their constituents, and scrupulously to discountenance jobbery of every description, will shear the City of many an incubus and difficulty,—improvements will take place, and fresh works will be projected. Contracts once entered into will be completed without any delay, detrimental either to her accommodation or interest; her taxes will be lighter, and, instead of presenting in her Civic Legislation (as she frequently has done) a lamentable want of unity, prudence, and miserable exhibition of ignorance, will shine before the other cities of the Continent as an example of Industry, Integrity and Intelligence.

We close with the following from the "Englishwoman in America," an article not bearing upon Toronto individually, but an interesting and just tribute to the enterprise of the Canadians*:—

In addition to the wealth gained in the cultivation of the soil, the settlers are seizing upon the vast water-power which the country affords, and are turning it to the most profitable purposes. Saw mills, grist mills, and woollen mills start up in every direction, in addition to tool and machinery factories, iron foundries, asheries, and tanneries. Towns are everywhere springing up as if by magic along the new lines of railway and canal, and the very villages of Upper Canada are connected by the electric telegraph. The value of land is everywhere increasing as new lines of communication are formed. The town of London, in Upper Canada, presents a very remarkable instance of rapid growth. It is surrounded by a very rich agricultural district, and the Great Western Railway passes through it. Seven years ago this place was a miserable looking village of between two and three thousand inhabitants; now it is a flourishing town, alive with business, and has a population of 13,000 souls. The increase in the value of property will appear almost incredible to English readers, but it is stated on the best authority: a building lot sold in September, 1855, for £150 per foot, which ten years ago could have been bought for that price per acre, and ten years earlier for as many pence. In Upper Canada there appears to be at the present time very little of that state of society which is marked by hard struggles and lawless excesses. In every part of my travels west of Toronto I found a high degree of social comfort, security to life and property, the means for education and religious worship, and all the accessories of a high state of civilisation, which are advantages brought into every locality almost simultaneously with the clearing of the land. Yet it is very apparent, even to the casual visitor, that the progress of Canada West has only just begun. No limits can be assigned to its future prosperity, and, as its capabilities become more known, increasing numbers of stout hearts and strong arms will be attracted towards it. The immense resources of the soil under cultivation have not yet been developed; the settlers are prodigal of land, and a great portion of the occupied territory destined to bear the most luxuriant crops is still in bush. The magnificent districts adjoining Lake Huron, the Georgian Bay, and Lake Simcoe, are only just being brought into notice; and of the fertile valley of the Ottawa, which it is estimated would support a population of nine millions, very little is known. Every circumstance that can be brought forward combines to show that Upper Canada is destined to become a great, a wealthy, and a prosperous country.—*Englishwoman in America.*

* We would earnestly recommend the perusal of an interesting article, "The Future of Western Canada," to be found at page 33 of the "Almanac" at end of this Work.

Canadian Institute is also in the neighborhood, the laying the first stone of which, by the Governor General some short time ago, was an event of considerable interest. The ground on which it will stand being a gift of G. W. Allan to the Institute.

In closing our remarks (and had we space many more could be presented), we will just allude to some of the main advantages Toronto possesses. In the first place, it is now the seat of Government, a circumstance in itself causing a vast difference to the prosperity and gayness of any city. The streets are well lighted with gas, and in the better class of private dwellings it is introduced.

There are Water Works for the supply of the different houses, and for the purpose of extinguishing Fires, at present certainly somewhat inadequate to the emergency, yet arrangements are, we believe, in progress by the City Authorities to ensure a more extensive and purer supply.

The various streets, new and old, are rapidly becoming well drained into the common sewers. There is constant communication by Railway to the most distant parts of the Province,—the Northern Railway, several times a day, running to Barrie and Collingwood, from whence boats and stages are in readiness for further transport; the Toronto and Hamilton Railway, three or four times daily, conveying passengers to Hamilton to join the Great Western to our sister City of London, and connecting with the Western States of the neighbouring Republic. The Falls of Niagara, one of the wonders of Nature, and that elegant fairy-like structure, the Suspension Bridge, one of the greatest wonders of Art, are both within two or three hours distance,—and from which last named place diverge in all directions Railway communication with our other Cities, and those of the East, Montreal and Quebec. Our Telegraph communication also extends to and connects with the neighbouring States, a more complete chain of which does not exist we believe in any other country. Omnibusses hourly traverse the street to convey passengers to the west of the City, as well as to Yorkville, a suburb some two miles from the City. Cabs and stands are abundant, the former under stringent regulations of the civic authorities. In the summer, pleasure Steamers and sailing craft cross the Bay to the Island opposite; and this season a new steamer will run to the Humber River and back several times during the day, by way of a trip,—individual and family tickets may be taken, at a trifling cost, for this healthful and invigorating pleasure.

We have also a respectable and well-conducted Theatre, the Royal Lyceum, at which place of amusement are constantly produced some of the best dramas of the present and more remote times, the talent displayed in their representation being of a very creditable character. The St. Lawrence Hall, a spacious building, with its balls and concerts in due season, producing its pleasures. The Canadian and Mechanics' Institutes, Philharmonic Society, Literary and Debating Societies,—Cricket, Curling and many other Clubs of similar amusement, abound in pleasant resources for the recreation and advance of a portion of our citizens. The St. Lawrence Market (the meat market, probably the finest on this Continent) is well supplied with every article of luxury in season, and in summer time fruits of every description, peaches, melons, &c., abound; most of the fruit and vegetables the old countryman is accustomed to see at home, are here to be obtained, also Poultry and Game of the choicest description; Fish of fine and various sorts in season procurable. There is a regular Police Force shortly to be considerably augmented, and an efficient paid Fire Brigade.

The Hotels are both numerous and commodious,—that of the Messrs. Rossin Bros., in course of erection at the corner of York and King-streets, when completed, will be second to none in the Province, and favourably compare with any in America. Places of Public Worship, of every denomination, are at convenient distances in the City and suburbs; and numerous public walks and drives in the country running north and east,

CITY CORPORATION.

ELECTED JAN., 1856.

Council meets in the City Hall every Monday evening.

JOHN BEVERLEY ROBINSON—*Mayor.*

ST. ANDREW'S WARD.—*Aldermen*—John Worthington, R. P. Crooks. *Councilmen*—Henry Prettie, Henry Sproat. *Inspector*—Andrew Brown.

ST. DAVID'S WARD.—*Aldermen*—William Henderson, J. G. Bowes. *Councilmen*—Adam Beatty, John Carruthers. *Inspector*—William Evans.

ST. GEORGE'S WARD.—*Aldermen*—John Duggan, G. A. Phillpotts. *Councilmen*—Geo. Netting, Edward Wright. *Inspector*—John Higgins.

ST. JAMES'S WARD—*Aldermen*—John Harrington, John Hutchison. *Councilmen*—John Wilson, John Cameron. *Inspector*—Samuel Garside.

ST. JOHN'S WARD.—*Aldermen*—John Bugg, Richard Dempsey. *Councilmen*—Robert Moodie, Joseph Rowell. *Inspector*—James Spence.

ST. LAWRENCE WARD.—*Aldermen*—Alexander Manning, Wm. Strachan. *Councilmen*—Wm. Davis, William Murphy. *Inspector*—James Humphery.

ST. PATRICK'S WARD.—*Aldermen*—J. B. Robinson, Jonathan Dunn. *Councilmen*—T. Shortis, T. Earls. *Inspector*—William Caiger.

The members of the Common Council are elected by a majority of the registered voters of the City of Toronto. The lists of persons entitled to vote for each Ward are exhibited in the City Hall, from the first Monday in December until the day of the election (the second Tuesday in January.) Persons interested should make a point of seeing that their names are not omitted or mis-spelt, as no alterations in such lists can be made unless four day's notice is given in writing to the Clerk of the Common Council of the desire to have any name altered, inserted or erased; and no one is allowed to vote whose name does not appear on the said lists.

By the Municipal Act of 1849, each Ward returned but *one* Alderman; but by the amended Act, each Ward returns *two*, as formerly.

As it is not altogether uninteresting, and may prove useful, we add a list of the Aldermen and Council who put in for nomination—the number of votes each received being opposite their respective names :—

St. James's Ward.—For Alderman—Harrington, 427; Hutchison, 346; Hewitt, 272. For Councilman—Wilson, 317; Cameron, 244; Thompson, 174; Mitchell, 158; St. Germain, 84. For Inspector—Garside.

St. Lawrence Ward.—For Alderman—Manning, 204; Strachan, 180; Feehan, 138. For Councilman—Davis, 199; Murphy, 176; Ernest, 175. For Inspector—Humphrey.

St. David's Ward.—For Alderman—Henderson, 340; Bowes, 318; Brooke, 261. For Councilman—Beatty, 328; Carruthers, 235; Mallon, 221; Ramsey, 215. For Inspector—Evans, 263; Kenny, 183.

St. Andrew's Ward.—For Alderman—Worthington, 279; Crooks, 205; Ritchey, 182. For Councilman—Prettie, 276; Sproat, 260; Fisher, 138. For Inspector—Brown.

St. George's Ward.—For Alderman—Duggan, 172; Philpotts, 122; Brunel, 115. For Councilman—Netting, 127; Wright, 131; Myers, 101. For Inspector—Higgins.

St. John's Ward.—For Alderman—Bugg, 347; Dempsey, 319. For Councilman—Moodie, 336; Rowell, 241; Carnegie, 141. For Inspector—Spence.

St. Patrick's Ward.—For Alderman—Robinson, 279; Dunn, 171; Wilson, 140. For Councilman—T. Shortis, 221; Earls, 206; Reeves, 135. For Inspector—Caiger.

YORKVILLE ELECTION.—The following were elected Councillors for the Village of Yorkville, to some portion of which our Directory extends:—John Wickson, 106; Peter Hutty, 110; Dr. Philbrick, 110; James Dobson, 104; Geo. Bostwick, 93.

OFFICERS OF THE CORPORATION.

Coroners—John King, M.D.; Geo. Duggan, jun.; Dr. Scott, M.D.; Dr. Hodder, M.D.
Chamberlain—Andrew T. McCord.
Assistant—John Boyd.
Police Magistrate—George Gurnett.
Clerk—F. B. Orris.
Clerk of Common Council—Charles Daly.
Assistant—John Wilson.
Junior Clerk—S. Radcliffe.
Chief Constable of Police—Saml. S. Sherwood
Assistant—William Andrews, jun.
High Bailiff—John Watkins.
Clerk of the Market—Robert Trotter.
Assistant Clerk—James Mills.
Weigh Master and Clerk of Fish Market—John Dempsey.
City Inspector East—Thomas Garlic.
City Inspector West—Charles McLennan.
City Surveyor—Thos. Henry Harrison.
Deputy Engineer—(Not appointed.)
Auditors—Nathan Gatchell, and George A. Barber, sen.
Assessors—James Trotter, Joseph Dixon, William Osborne, Thompson McCleery, Thomas Griffith, Charles Stotesbury, and T. H. O'Neill.
Collectors—St. Lawrence Ward, J. R. Smith.
St. James' Ward, J. Watkins.
St. Andrew's Ward, R. Britton.
St. Patrick's Ward, John Cleary.
St. George's Ward, J. Nixon.
St. David's Ward, W. Sheppard.
St. John's Ward, A. Fleming.
Inspector of the Wood Market—T. Allen.
General Inspector of Licenses—Robt. Beard.

The Recorder's (late Mayor's) Court is held in the Court House, four times in each year—viz., the second Monday in January, April, July and October—the jurisdiction of which extends over the City and Liberties. The Mayor, for the time being, presides, assisted by one or more of the aldermen.

The Police Court is in the City Hall. The Police Office is also in the City Hall.

The Eastern Station House is under the City Hall, where policemen are always on duty, and can be obtained in case of necessity.

The *Western Station House* is on Queen-street, between Peter and John. *Yonge-street Station*, opposite Chrookshank-street; *York-street Station*, corner of King and York; *East Station*, King-street, opposite Parliament-street,—constables being always on duty at each Station, the whole force amounting to 30 men.

STANDING COMMITTEES AND BOARDS OF THE COMMON COUNCIL.

Finance and Assessment.—Aldermen Hutchinson (Chairman,) Crooks, Dempsey, Henderson, Philpotts, Strachan; Councillor Earl.

Board of Works.—Aldermen Worthington (Chairman,) Bugg, Dunn, Harrington; Councillors Beatty, Davis, Wright.

Applications for Office.—Aldermen Manning (Chairman,) Bugg; Councillor Carruthers, Netting, Prittie, Shortis, Wilson.

Fire, Water, and Gas.—Aldermen Henderson (Chairman,) Manning; Councillors Cameron, Earl, Sproatt, Rowell, Wright.

Wharves, Harbours, &c.—Aldermen Philpotts (Chairman,) Bowes, Crooks, Harrington, Strachan; Councillors Earl, Moodie.

Railroads.—Aldermen Duggan (Chairman,) Bugg, Crooks, Henderson, Hutchinson; Councillors Davis, Earl.

Public Walks and Gardens.—Aldermen Bowes (Chairman;) Councillors Murphy, Shortis.

Board of Health.—Councillor Rowell (Chairman;) Aldermen Duggan, Henderson; Councillors Cameron, Murphy, Prittie, Shortis.

Affairs of Market Block.—Aldermen Duggan (Chairman,) Dunn; Councillors Cameron, Carruthers, Davis.

Police, Prisons, &c.—Councillor Wilson, (Chairman,) Aldermen Dunn, Manning, Phillpotts; Councillors Beatty, Rowell, Sproatt.

Public Buildings, Repairs, &c.—Aldermen Harrington (Chairman,) Strachan, Worthington; Councillors Earl, Moodie, Netting.

Public Markets.—Aldermen Dunn (Chairman,) Hutchinson; Councillors Carruthers, Moodie, Murphy, Prittie, Wright.

Printing.—Councillor Cameron (Chairman,) Aldermen Henderson, Strachan; Councillor Moodie, Netting, Shortis, Sproatt.

LIMITS OF THE CITY AND LIBERTIES.

Commencing at the distance of one chain on a course south sixteen degrees east from the south-westerly corner of lot number two, in the first concession from the Bay in the Township of York, in the County of York; thence, southerly, in the direction of the side line between lots number two and three, in that concession, to the distance of five hundred feet from the point at which the said line intersects the margin of the water on the shore of Lake Ontario; thence westerly through the waters of Lake Ontario, following the direction of the curvatures of the shore, and keeping always at the distance of five hundred feet from the margin of the water till the point is attained, which is five hundred feet from the north-westermous point of the Island or Peninsula, forming the harbour; thence, across the Bay or harbour of Toronto to a point where a line, drawn southerly from the north-easterly corner of park lot number twenty-nine in the said Township of York, in the direction of the easterly boundary line of the said Park lot, intersects the margin of the water on the shore of Lake Ontario; thence northerly in the direction of the said line so drawn from the said corner of the said Park lot through the said corner, to the point at which the said line so drawn through the said corner intersects the northerly boundary line of the allowance for Road between the Park lots and the second concession trom the Bay in the said township of York; thence easterly along the said northerly boundary line of the said allowance for Road, to the easterly shore or water's edge of the River Don; thence southerly along the water's edge on the eastern side of the said River, to the point where the said water's edge intersects the southerly boundary line of the allowance for road, in front of the said first concession; thence easterly along the southerly boundary of the allowance for Road in front of the said first concession, to the place of beginning.

LIMITS OF THE CITY.

Commencing at the distance of one chain, on a course north seventy-four degrees east from the south-east angle of Park lot number three, in the said Township of York, thence south sixteen degrees east, upon a continuation of the allowance for road between Park lots numbers two and three to the water's edge of the Bay in front of the said City;

thence westerly along the water's edge of the said Bay to the point at which the westerly limit of the allowance for road between Park lots numbers eighteen and nineteen, in the said Township of York, being produced southerly, intersects the said water's edge; thence northerly in the direction of the said westerly limit of the said allowance for road to the distance of four hundred yards north of the northerly boundary line of Queen street, thence easterly parallel to Queen street to the easterly boundary line of the allowance for road between Park lots humbers two and three; thence south sixteen degrees east along the easterly boundary line of the said allowance for road, four hundred yards more or less, to the place of beginning. And the remainder of the said tract, to constitute the liberties of the said City.

The City is divided into seven Wards, called respectively the Wards of St. James, St. David, St. Lawrence, St. George, St. Andrew, St. Patrick, and St. John's, and comprise the following portions of the said City respectively, that is to say:

Ward of St. James—all that part of the City, lying between the northerly boundary line of King Street east, the westerly boundary line of Yonge Street, the easterly boundary line of Nelson Street, and the northerly boundary line of Queen Street east.

Ward of St. David—all that part of the City lying to the eastward of the westerly boundary line of Nelson Street, and to the north of the northerly boundary line of King Street east.

Ward of St. Lawrence—all that part of the City lying to the southward of the northerly boundary line of King street east, and to the eastward of the westerly boundary line of Yonge Street.

Ward of St. George—all that part of the City lying to the southward of the northerly boundary line of King Street, and to the westward of the westerly boundary line of Yonge Street.

Ward of St. Andrew—all that part of the City lying between the northerly boundary line of King Street east and the northerly boundary line of Queen Street east, and west the westerly boundary line of Yonge Street.

Ward of St. Petrick—all that part of the City lying to the north of the no:therly boundary line of Queen Street west, from the College Avenue to the northern limits of the City on the west and north.

Ward of St. John—all that portion of the City lying to the north of the boundary line of Queen Street from its intersection at the north west corner of Yonge and Queen Streets westward to the College Avenue to the northern limits of the City, and west of the boundary line of Yonge Street.

Liberties of the City—lying	south and east of St. Lawrence Ward		are attached to each such Ward respectively.
do.	do.	north and east of St. David's Ward	
do.	do.	north and west of St. George's Ward	
do.	do.	north and west of St. Patrick's Ward	
do.	do.	north of St. James's Ward	
do.	do.	west of St. Andrew's Ward	
do.	do.	north west of St. John's Ward	

The limits between the respective portions of said liberties to be ascertained by the extension of the boundary lines between the said Wards respectively through the said Liberties, except the boundary line between the portions attached to St. Lawrence and St. David's Wards—which consist of the northerly boundary line of King Street east to the River Don,

---

Annexed is the 13th Annual Report of the Financial Committee on the Estimates for the year 1854,—those of the present year following, from which a useful comparison may be drawn:

The Standing Committee on Finance and Assessment beg leave to submit their Estimate of the Receipts and Expenditure of the City for the present financial year, being their Report No. 13.

The first part of the Estimate shows that your Committee have applied the sum of £1,350 in the redemption of some of the over-due Debentures out of the balance remaining at the credit of the Consolidated Loan Fund account, leaving still the sum of £572 5s. 8d. at the credit of that account, which your Committee believe will be quite sufficient to meet the outstanding City Notes likely at any time to be presented.

the meantime by arrangement made between the City and the Railway Company the City is idemnified against.

Your Committee beg further to submit to the Council the following Statement of the issue of Debentures for several preceding years exclusively of those issued for School and Railway objects, in order that the same may form the subject of reflection whether it is prudent much longer to pursue such a system to the extent which has lately been practised, for it is apparent the accumulation of our debt year by year, even in the ratio it is now increasing, may and must, if steadily persisted in, at length reach such a point when neither our prospects nor progress will warrant or sustain a further burden.

Debentures issued in 1846	£1,180	0	0
Do. " 1847	250	0	0
Do. " 1848	1,071	17	6
Do. " 1849	5,140	18	0
Do. " 1850	6,160	0	0
Do. " 1851	12,680	12	3
Do. " 1852	12,524	10	3
Do. " 1853	21,630	13	8
Do. " 1854	19,277	7	1
Issued in 1855 under By-laws passed in 1854	10,800	0	0
Still to be issued under the same By-laws	4,600	0	0
Proposed to be issued in and for 1855	19,570	0	0

The rate of last year of 3s. in the £, your Committee have been enabled to reduce to 2s. 10d. as the rate for this year, but to retain the rate at this sum, or at even an approximation to it, it is manifest the issue of Debentures for the future must be carefully and judiciously pursued. All which is respectfully submitted.

Dated, 13th July, 1855. ADAM WILSON, *Chairman.*

STATEMENT OF THE ESTIMATED RECEIPTS AND EXPENDITURE FOR THE YEAR 1855.

ESTIMATES.

[No. 1.]

CONSOLIDATED LOAN FUND.

Amount at the credit of said Fund, Dec. 31, 1853	£2,658	17	10
Paid in 1854, City Notes and Debentures	736	12	2
	£1,922	5	8
Debentures due in 1855, payable out of Fund—Nos. 145, 261 to 263, 345 and 346	1,350	0	0
Balance at credit of Fund	£572	5	8

[No. 2.]

SPECIAL RATE AND SINKING FUND ACCOUNT.

Balance of Assessment at the credit of Sinking Fund for 1853	£2,535	12	5
Total amount assessed in 1854	11,586	5	0
	£14,121	17	5
Less paid one year's Interest on Loan for 1854, being the currency of the interest on £82,000 Debentures, in sterling, payable in London, at 6 per cent. per annum	6,198	3	11
	£7,923	13	6

£4,000 of the above balance of £7,923 13s. 6d. invested in Hospital Debentures on the 12th March, 1855, leaving at the credit of the Special Rate account £3,923 13s. 6d., and a further sum of £500 for profit made upon investment of the above. £4,000 ..... £4,423 13 6

The second part of the Estimate, giving the details of the Special Rate and Sinking Fund of the Consolidated Loan account, shows a balance at the credit of the Special Rate of £4,423 13s. 6d. still to be invested, which sum it was intended should have been devoted to the reduction of the Special Rate of the same account for this year, and which would have reduced the Special Rate from 10d. to 6¾d. in the £, but His Excellency has declined to sanction such an appropriation of the said surplus, as being, in his opinion, contrary to the provisions of the Consolidated Loan Act, passed in the year 1853.

It will be perceived that the Council for this year have, in addition to their own burdens, to provide for a deficiency upon the last year between the two items of account due by the City for 1854	£21,771	9	6
And due to the City for the same year	19,938	12	0
Equal to	£1,832	17	6
And for a further deficiency consisting of the Debentures due in 1852, 1853, and 1854, of	2,523	0	0
And Debentures Nos. 145, 262, and 263, mentioned in part No. 1 of the Estimates	250	0	0
Inasmuch as funds were raised for the purpose of paying these Debentures in former years which have not been applied to that purpose.			
Then to these three sums has still to be added a third sum of	120	0	0
For loss of interest upon the Sinking Fund account for 1853, which was omitted to be invested for the whole of 1854.			
Making a total deficit upon last year to be made good in this year of	£4,725	17	6

The item of £6,840 for interest upon the Debentures of the City for general purposes, it will be seen will be increased in next year by the sum of £2,055, or twice the amount of £1,027 10s. 0d., which has been provided for six months of this year, being the interest on the required issue of Debentures for this and for the last year of £34,250 0s. 0d.

In the sixth item of £9,915 will be found an increase this year of £850 for Gas beyond the Estimates of last year, and an increase of £1,672 10s. 0d. for Police and Municipal expenditnre for Salaries in this above the past year.

In the same item is a sum of £500 provided for the cost of a survey of the Esplanade, which it is believed may not all be required, but the Committee thought it advisable to state such a sum as would not render it likely that any further call would be made upon the Council upon this account.

And in the same item is a further sum of £750 required by the Board of Health for removing Nuisances, &c. This item, although not contained before in any estimate, and which of rather greater amount than might have been expected, may probably be a sum it may be most judicious to expend at the present time.

Your Committee have done nothing more than to include this sum in their estimate, as they feel bound to give effect to the requisition of the Board of Health in this respect, to whom was delegated full authority to provide the means necessary in their opinion to insure the health of the City during this year.

The other items of expenditure for Common Schools, for the Lunatic Asylum, and for the Consolidated Loan Fund, your Committee have merely stated as in each case the rates for such purposes have been fixed specifically by Statute, which sums together form an aggregate of no less a sum than £19,890 12s. 6d.

To meet the debit side of this account, amounting in all to the sum of				£84,400	2	6
There are the Arrearages due to the City for the last year of	£19,938	12	0			
The Rental, Licences and Fines	12,543	16	1			
An Issue of Debentures proposed	5,170	0	0			
The Special Assessment above alluded to of	19,890	12	6			
And the General Assessment of 1s. 7¾d. in the £	27,567	14	2			
Beside the Dog Tax and Statute Labor of	400	0	0			
Equal to	£85,510	14	9			
Which, after deducting for probable loss of	1,100	0	0			
Will leave available				£84,410	14	9

Your Committee beg leave to point out, that upon completion of the Grand Trunk Railway this Corporation will be bound then to make provision for the payment of the interest upon the £100,000 Debentures issued and delivered to the Railway Company, which in

PROVINCIAL LUNATIC ASYLUM, TORONTO.

Two and a-half Miles West from the City Hall, on Queen-street.

Property vested in the Crown. Government appoint Medical Superintendent and Bursar, and four visiting Commissioners quarterly, two of whom are residents of the City, who frame by-laws for its government, thoroughly examine the Asylum, and report to the Governor General. The building was designed to accommodate, when the wings are erected, 250 patients; there are at present 370 in it. The Institution is open to the public between the hours of 12 noon and 3 p.m., every day, Saturdays and Sundays excepted, by application to the Medical Superintendent at the Asylum. The admission of patients is regulated by the Act, 16 Vic. chap. 188, which requires that the patient be examined by three licensed medical practitioners, verified by Reeve or Mayor collectively, who certify to the insanity. From the overcrowded state of the house, admissions are at present made as vacancies occur, according to priority of applicants. Idiots and persons afflicted with paralysis are inadmissible. Visiting Commissioners—James Beaty, Chairman, Hon. Samuel Mills, Wm. Cawthra, and Robert Armour. Officers of the Institution—Medical Superintendent, Joseph Workman, M.D.; Bursar, J. McKirdy; Steward, G. McCullough; Matron, Mrs. ——.

William Ormiston, A.B., Second Master; Archibald McCallum, Teacher of Book-Keeping,; William Hind, Teacher of Drawing; Henry Goodwin, Teacher of Gymnastics and Calisthenics, Model Schools: in which the Normal School Students practice the art of Teaching, Archibald McCallum, Master of Boy's School; Warren Rock, Frst Assistant; David Ormiston, Second Assistant; Dorcas Clark, Mistress of Girl's School; Henrietta Shenick, First Assistant; Helen Clark, Second Assistant; and the Teachers of Music Drawing, and Gymnastics and Calisthenics in the Normal School. The Sessons of the Normal School commence on the 15th May and 15th of November, of each year, and continue for five months each.

GRAMMAR SCHOOLS.—Each of these Schools is managed by a Board of Trustees, appointed by the County Couecil. There is one Grammar Sehool in each County Town, which receives at least £100 per annum; and where the funds will admit of it, others may be established in different parts of the County. Pupils attending these Schools are prepared for matriculation in the University and Colleges. There were 64 Grammar Schools, with 4,287 pupils, in Upper Cauada, in 1854.

COMMON SCHOOLS.—Each township is divided into School sections of a suitable extent for one School; and in each of these sections three Trustees are elected to manage its school affairs. In cities, towns, and villages they are managed by a Board of School Trustees elected for each ward or municipality. There were 3244 Common Schools, with 204,168 pupils, in Upper Canada, in 1854.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal Corporation desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent. on local appropriations, and supplying books from the Depository in connection with the Department. During the last year and a half (October, 1855) about 250 Libraries have been established, containing 115, 508 volumes.

The Total number of educational institutions reported by the Department of Public Instruction in operation in Upper Canada during 1854, was 3,512, attended by 214,734 pupils, and expending £239,128 11s. 3d. in their support.

"THE CANADA GAZETTE OFFICE," King-street west.—Derbishire & Desbarrats, Queen's Printers.

JUDICIARY.—(See "Almanac," pages 80, 81.)

THE LAW SOCIETY OF UPPER CANADA.—The Society was first established in 1797, by 37 Geo. III. ch. 13. which enabled the practitioners of the law to form themselves into a society, and make rules for its government, under the inspection of the judges as visitors. The act of 1822, 2 Geo. IV., ch. 5. incorporated the "Treasurer and Benchers of the Law Society," giving a perpetual succession and a common seal, in the usual manner of acts of incorporation.

Under these statutes the Society is governed by the Board of Benchers, very much in the manner of the various law socities in London. The benchers sit in convocation every term, and admit students and barristers. The examination for students, which is a scholastic examination, is conducted in the presence of the benchers, and the examination of barristers, at the end of the term of five years after admission, is conducted by the benchers in convocation. This examination is in the various branches of legal learning. Each student, on admission, is a member of the Society, and entitled to the use of the library. The revenue of the Society consists of the fees paid by students and barristers on their admission, and the fees, called term fees, charged to practising barristers. By an agreement with the government, the society furnish the superior courts with suitable accommodation for ever, for the sum of £6000 currency. The library of the Society is of considerable value, and is of great service to the students and practitioners. The Treasurer is elected annually in Michaelmas Term. and enters upon his duties on the first day of the following Term. *Present Treasurer*—J. G. Spragge, Esq; *Secretary and Librar a and Examiner*, Hugh N. Gwynne, Esq.

Scotch Cemetry, north side of Bloor-street, Yorkville.
Toronto Necropolis, Sumach-street, near the Don, at the north-east angle of the City.

TORONTO GENERAL

STREET DIRECTORY,

FOR

1856.

EXPLANATION OF THE NUMBERS OF THE HOUSES.

In the TORONTO DIRECTORY published by Mr. George Brown for 1846–7, the plan adopted for Numbering the Houses is so well explained that we give it in preference to any explanation of our own. It is as follows :

"All those streets which cross Yonge-street are divided into two—*East* and *West*; the numbers of both divisions begin at Yonge-street, and strike off East and West: thus the store of Messrs. Ridout Brothers, is No. 1, King-street East; and that of Messrs. Haycraft, Small and Addison, the opposite corner, is No. 1, King-street West; the next houses each way are Nos. 3, East and West, respectively—the odd numbers being on that side, and the even ones on the opposite: thus Betley & Kay's Establishment is No. 2, King-street East; and that of Mr. Dow, No. 2, King-street West, and so on.

"In all the streets running in the same direction as King, although not crossing Yonge-street, the numbers begin at the end nearest Yonge-street, and rise as they advance East or West.

"In all the streets running East and West, parallel with the Bay, the odd numbers are on the North side, and the even ones on the South ; and in all those running North and South, at right angles with the former, the odd numbers (beginning at the end at or nearest the Bay) are on the West side, and the even ones on the East.

" By the plan of the Corporation, where vacant lots occur a given space is allowed for a number, to prevent any disturbance of the order arising from the erection of new houses upon such lots. In some instances, this plan has not been strictly adhered to ; indeed, it was almost impossible for a person, without accurately measuring the ground, to place the numbers properly."

In consequence of so many of the houses not being numbered, the labour and expense attending the compilation of this work has been greater than it need have been, besides rendering it less complete and satisfactory ; indeed the absence of numbers on most of the houses is felt to be a great inconvenience to residents, particularly to strangers who have recently come to reside among us. We would therefore respectfully suggest to the Corporation the propriety of having all the houses comprised within the City and Liberties regularly numbered. In this work, however, the difficulty is partly met, the

bearing of the several streets, as also any vacant lot, rear, or side of buildings (when taken and practicable) being given, preserving the continuity of the street,—so that the situation of the house occupied by a party on any street, may be determined by counting from the first house, as thus:—

Albert Street.

W. S. of Yonge.—S. S.

Taylor, Robert.....Grocer.
Stoddart, William.....Baker.
Brown, W. Richard.....Auctioneer of Real Estate.

Brown, W. Richard, therefore being in the third house, S. S. of Albert-street, commencing from Yonge-street.

The letters W. S. standing for West side; S. S., South side; E. S., East side; N. S., North side; as also where the word "off" occurs, indicating the house inhabited by that party is built off the street; and in like manner, the word "rear" that the only entrance to it is behind that occupied by the preceding name.

The line, "here James's-street intersects," as in the case of Albert, means that the houses on Albert-street are divided by James'-street running across.

In all cases where obtained, the names of boarders or others lodging in the various houses are given, and two or more names coupled together in a bracket signify that the second and following names are only occupying part of the premises, the first name being the actual householder. In two or three instances, streets are more generally known by other names than those appearing on the Survey; to prevent confusion, they are given under the best known name.

Adelaide Street, East.

E. of Yonge.—N. S.

Shaw, S.

JOHN CONRAD,

(FROM QUEBEC)

WATCH MAKER,

Repairer and Manufacturer of Chronometers and all kinds of Watches,

KING STREET WEST, TORONTO, C. W.

G. L. ELLIOT,

DENTIST,

Office—20 King Street East, over John Cawthra's Dry Goods Store, Toronto.

MR. E. gives his personal attention to the manufacture of Mineral Teeth, of the best quality, from preparations which produce a life-like appearance. The facilities of his establishment for the manufacture of MINERAL TEETH, the different methods of attaching them to gold plates, rendering them firm in mastication, the ease and comfort with which they are worn, enables him to offer a *guaranty against defective mechanism*, and in all cases to meet the reasonable demands of his patients.

Every operation on the Teeth, viz:—Filling, Extracting, &c., &c., will be performed with care, and *warranted*, or no charge will be made. Particular attention is paid to regulating Children's Teeth.

FREELAND & TAYLOR,

SOAP & CANDLE MANUFACTURERS,

Corner of Yonge and Front Street, Toronto.

FULTON, MICHIE & CO.,

GROCERS,

WINE & SPIRIT MERCHANTS,

AND GREAT ST. JAMES STREET, MONTREAL.

JOHN GRAY,
NURSERYMAN,
&c. &c. &c.

KEEPS constantly on hand a General Assortment of Fruit and Ornamental Trees, Flowering Shrubs, Roses, Green-House and Bedding-out Plants, &c.

☞ BOQUETS OF CHOICE FLOWERS AT ALL SEASONS.

LAKEVIEW NURSERIES,

AT THE FIRST TOLL-GATE, QUEEN-STREET WEST, TORONTO.

S. E. GREGORY,
COMMISSION MERCHANT,
BROKER,
Land and General Agent,
Office: Corner of King and Yonge Streets, Toronto.

AGENT for Lelegard & Co's Imperial Champagnes, Haut Sauterns, and the best brands of French and German Wines, French Patent Sperm Candles, &c.

CLOTHING FOR THE MILLION.
WM. B. HAMILTON,
No. 5, City Buidings, King Street East, Toronto, C. W.,

WHOLESALE and Retail Dealer in READY-MADE CLOTHING. Superior Cloths, Cassimeres and Vestings always on hand. A complete and general assortment of Gentlemen's Furnishing Goods, Hats, Caps, and Under Clothing. *Particular attention.*—The Tailoring Department is under the especial charge of Foremen of long and proved ability. None but the best workmen employed. All ordered work made and trimmed in the latest style, of the best materials, and at the shortest notice. A trial will convince the public that this is the best and most economical place to purchase clothing in the City of Toronto.

JAMES LEISHMAN,

(LATE BURGESS AND LEISHMAN)

CORNER OF KING AND CHURCH STREETS,

ADJOINING THE OLD COURT HOUSE, TORONTO.

THE Subscriber would respectfully intimate to his Customers the arrival of his NEW GOODS, amongst which are his SPRING supply of

CLOTHS, CASSIMERES AND VESTINGS,

CLOTHS—Reversibles, Plain Broads, West of England Broads, French Coatings, Beavers, Whitneys, &c.

TROUSERINGS—Plain and Fancy Cassimeres, Doeskins, Tweeds, West of England Trouserings, French Fancy Trouserings, &c.

VESTINGS—Fancy Satins and Silks, Cut Fancy Velvets, Plain Satins, Velvets, Silks, and other Fancy Materials.

COATINGS—An excellent assortment of Plain and Fancy Materials for Business, Office, and Walking Coats.

As these goods have been purchased in the best British and Foreign Markets for Cash, Gentlemen may depend on the soundness and quality of the cloth, the novelty of the style, and the reasonableness of the prices.

The Subscriber would further intimate to his Customers and the Public his success in securing the services of two able and experienced Cutters—Mr. HENRY M. MACKIE and Mr. ALEXANDER BAIN, under whose management the Tailoring department will be conducted; and he feels quite assured that all misfashions and disappointments will be entirely obviated, and Gentlemen may depend upon being furnished with their garments as they order them, or according to the prevailing Fashion.

THE LATEST

LONDON, PARIS, & NEW YORK FASHIONS,

Have also come to hand, of which the Subscriber receives regular monthly supplies.

READY-MADE CLOTHING,

Well cut and well made, suitable for Spring and Summer wear. A large stock constantly on hand, and for sale Wholesale and Retail. Country merchants would find it to their advantage to examine before purchasing elsewhere.

THE DRY GOODS STOCK

Is also very complete, amongst which will be found some exceedingly Cheap Goods, and every article necessary for Gentlemen, Ladies, Families, and Domestic use.

☞ NO SECOND PRICE. ☜

LYMAN, BROTHERS & CO.,

KING STREET, TORONTO,

MACLEAR & CO.,

BOOKSELLERS,

STATIONERS,

PRINTERS, BINDERS,

AND

LITHOGRAPHERS,

16 King Street East, Toronto,

KEEP on hand a large Stock of STANDARD BOOKS in every department of Literature, Science and Art; and receive regularly from the Publishers the NEW PUBLICATIONS of the day, including *Blackwood's Magazine, The London Quarterly, Edinburgh, North British* and *Westminster Reviews*, &c. &c.

IN STATIONERY,

Their Stock is very extensive, embracing every requisite for Public Offices, Banks, Railroads, Municipalities, and Merchants in Town and Country.

Importing as they do from the Manufacturers direct, and manufacturing extensively themselves, they are prepared to offer advantages to all classes of customers, which set competition at defiance.

THEIR STEAM-POWER BOOK AND JOB

PRINTING OFFICE,

ONE OF THE MOST COMPLETE IN CANADA,

Enables them to execute orders in that department in a style fully equal to the est English work. As samples of which they may name the TORONTO DIRECTORY the CANADIAN ALMANAC, the ECHO NEWSPAPER, and the CANADIAN QUARTERLY REVIEW.

BOOKS, PAMPHLETS, MAGAZINES, NEWSPAPERS, CATALOGUES, PROGRAMMES, POSTERS, HAND-BILLS, RAILROAD, AND STEAMBOAT SHOW BILLS;

Circulars, Invitations, Funeral Cards, Prospectuses, Business Cards, Druggists' and other Labels.

PRINTING IN GOLD BRONZE AND COLOURS

EXECUTED IN FIRST RATE STYLE.

MACLEAR & CO.,

TO MEET THE GROWING DEMAND FOR WORK

IN THE LITHOGRAPHIC DEPARTMENT,

HAVE added considerably to their previous resources, by employing several of the best Artists to be found, the purchase of new Presses, and all necessary materials, and are now in a position to execute orders to any extent in

MAPS,	DIAGRAMS,	BILL HEADS,
CHARTS,	DEBENTURES,	ARCHITECTURAL DESIGNS,
PLANS,	CHEQUES,	CIRCULARS,
SURVEYS,	BANK NOTES,	PORTRAITS, &c.

In the highest style of art, at prices far below engravings on copper or steel, and in many instances not perceptibly inferior in execution. They would call the especial attention of Land Owners, Surveyors, and all others who may require plans of property, to this department, for M. & Co. believe that during the past season, the majority published in Upper Canada have been issued from their office, some of them of so elaborate and finished a character as to take the position of Works of Art; and those who are interested in such matters should remember that a well-executed Plan is an essential element in the successful disposal of all kinds of Real Estate. Parties requiring such work will do well to visit their establishment, as from the experience and constant practice of their workmen, they are often enabled to make valuable suggestions for its effective execution. Lithographic Printing in Colours with accuracy and elegance. Business and Private Cards, Bill Heads, &c., engraved on Copper Plate and printed. Envelope Dies cut, and Envelopes stamped, either plain or in colors.

THE BINDERY

Is complete in all its details, including facilities for binding in every style, from the cheapest to the most elegant, in any quantity, at reasonable prices, and on the shortest notice. By their RULING MACHINE they can execute any desired pattern in

BLANK BOOKS,

And having recently added a PAGING MACHINE, they are prepared to furnish Account Books paged throughout; also to PAGE BOOKS (old or new,) at a very small charge. They believe that the resources at their command in every department of their establishment are unsurpassed in any part of the Province. The very flattering amount of patronage bestowed upon them since entering upon the business of the late HUGH SCOBIE, has encouraged them to spare no expense in perfecting their working plant, and in adopting every vement to facilitate the execution of orders entrusted to them; and they are determined, by the employment of first-rate workmen, by attention, punctuality and economy, to merit a continuance and increase of the same favors.

GALLERY OF ART.

J. E. PELL,

CARVER, GILDER,

LOOKING GLASS AND PICTURE FRAME

MANUFACTURER,

No. 64 KING ST. WEST,

TORONTO,

Respectfully invites the attention of those requiring

LOOKING GLASSES,

PICTURES,

GILT MOULDINGS,

WINDOW CORNICES,

Or any other articles in his Line of Business, to his

ELEGANT AND EXTENSIVE STOCK,

Feeling assured that they cannot meet with anything to compare with it in any place in the Canadas, or even this side of New York City.

Millinery, Mantle,

AND

DRY GOODS

ESTABLISHMENT.

WILLIAM POLLEY

TAKES advantage of this valuable Directory to intimate to the Citizens of Toronto and its vicinity, that he has now to hand a splendid assortment of STAPLE AND FANCY DRY GOODS, imported expressly for this city, replete with every article in the line requisite for a First Class Trade, to which he invites their special attention!

Having made extensive alterations, and otherwise improved his premises, now second to none in the city—determined not to be undersold, and that nothing shall be wanting on his part to merit a continuation of that patronage so liberally bestowed to him.

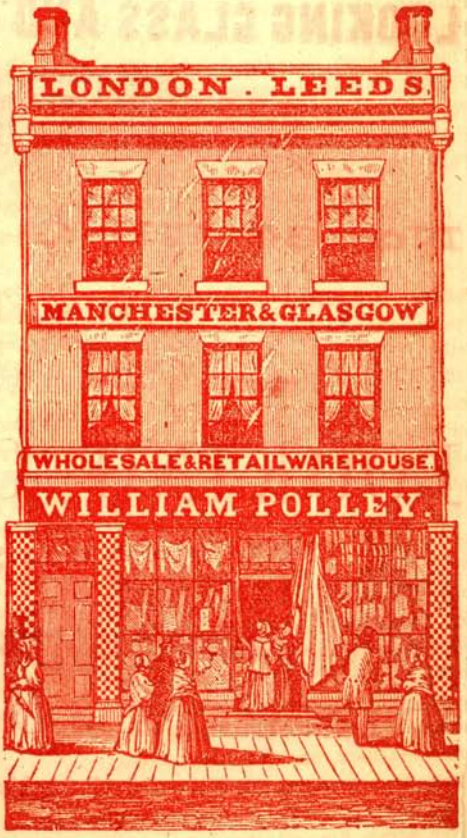
THE

MILLINERY AND MANTLE

DEPARTMENT

Is under the management of an experienced Lady from one of the leading Millinery and Mantle Rooms in New York. Ladies will please bear in mind that this is the First Millinery Season of this Establisament, consequently NO OLD STOCK. Every article will be made from new material, in a style creditable to Toronto.

Orders Executed Promptly to the time specified.



WILLIAM POLLEY

THIRD DOOR WEST OF CHURCH STREET.

Every description of Hats and Caps Made to order.

NEW YORK HAT STORE,

62, KING STREET EAST, TORONTO.

JOHN SALT,

HATTER AND LEADER OF FASHION,

Receives twice a week every novelty which appears in the New York and Boston Markets.

He keeps only the best workmen, and no establishment in the world turns out handsomer or more fashionable goods in GENTLEMEN'S HATS AND CAPS, or at LOWER PRICES.

His FUR MANUFACTORY is complete, and during the whole season is fitting Ladies and Gentlemen with Choice and Rich Furs, both European and Canadian.

BOAS, VICTORINES, CUFFS, MITTS, GAUNTLETS,

Buffalo and all kinds of Fancy Sleigh Robes. GIVE HIM A CALL.

THE FREE TRADE HOUSE!

2, ST. LAWRENCE BUILDINGS, KING STREET EAST, TORONTO.

ROBERT SARGANT & Co.,

Importers and Wholesale and Retail Dealers in

DRY GOODS, CLOTHING AND BOOTS AND SHOES

R. S. & Co., being among the few merchants who import their goods direct from the manufacturers, have every advantage over most of the establishments in the city, and are thereby enabled to offer, to Country Dealers and the Trade in general, their goods considerably lower than any other house.

REMEMBER THE FREE TRADE HOUSE! NO SECOND PRICE!

M. SHEWAN

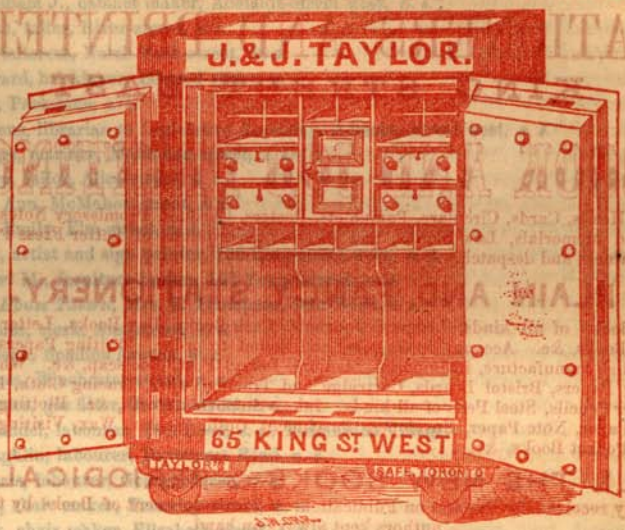
PROVINCIAL SALAMANDER SAFES.

SECURED BY HALL'S POWDER PROOF LOCK.



BANK VAULTS & BURGLAR PROOF SAFES.

J. & J. TAYLOR,

65, King Street West, Toronto,

MANUFACTURERS of the Improved Double Bevel Fire and Burglar Proof Salamander Safes, made according to Wilder's Patent, with the latest improvements; warranted Free from Dampness, and furnished with Hall's celebrated Powder Proof Lock, which took the First Prize at the World's Fair, in 1851. Vault Doors made on the same principle to order. Parties, before purchasing, are respectfully requested to call at the Store of the undersigned, when they cannot fail to be convinced of the superiority of their Safes over all others ever imported into Canada, and at 20 per cent less than the United States Safes. An Assortment of Salamander Safes, at prices from $30 and upwards, always on hand. Safes for Jewellers, Banks, Railways, and Record Offices, Plate and Money Chests, &c., made to order.

N. B.—Second-hand Safes taken in exchange.

BANK LOCKS.

Also, Manufacturers of all kinds of Powder Proof, Permutation, Combination, and Detective Bank Locks.

J. & J. TAYLOR are also manufacturers of all kinds of IRON FURNITURE, Portable Iron Folding Bedsteads, Half Tester, French Canopy, Tent, and Children's Bedsteads, Folding Chairs, &c.

Plain and Ornamental Iron Railings, for Public Buildings, Dwellings, Balconies, Verandah's, Stair Cases, Parks and Tombs, &c., all of the newest designs.

Folding and Revolving Iron Shutters, on a new Principle.

J. & J. TAYLOR, 65 King Street West, Toronto.

THOMPSON & CO.,

THE DAILY COLONIST

Is printed and published every morning, (Sundays excepted) by Thompson & Co, King Street, Toronto, Price £1 10s. per annum, or £1 5s. paid at the Office in advance.

THE BRITISH COLONIST

Is printed and published every Tuesday and Friday morning, by Thompson & Co., King Street, Toronto, Price £1 per annum, or 15s. paid at the Office in advance.

THE NEWS OF THE WEEK

Or, WEEKLY COLONIST,

Is printed and published every Saturday morning, by Thompson & Co., price 10s. per annum, or 7s. 6d. paid in advance.

THE COLONIST, (Daily, Bi-Weekly, and Weekly) is the best advertising medium in Canada. The Daily Colonist is found on almost every gentleman's breakfast Table in Toronto. The Semi-Weekly and Weekly Editions are read by all classes throughout Upper Canada, the Clergy, the Merchant, and the Farmer; as well as at the fireside of the Backwoodsman, thousands upon thousands of whom receive the News of the Week, or Weekly Colonist. No other Journal in Canada has so respectable, and at the same time so universal a circulation. The wholesale and retail Dealer, the Forwarder, the Professional Man, the Artizan, and those seeking employment, will find it to their interest to advertise in a Newspaper which is certain to reach the highest as well as the humblest classes. Every Advertisement which appears in the Colonist passes through all the editions, and is seen by hundreds of thousands of Readers. Merchants and others advertising by the year, will be charged at the same low rates as by the United States papers.

UPPER CANADA BUILDING AND INVESTMENT SOCIETY.—Edward Shortis, Secretary and Treasurer. Office—Jordan-street, corner of King-street west.

Building and Saving Societies were introduced into Upper Canada in the year 1845, or 1846, the intention of them being, as stated in the Statute under which they were established, "for the purpose of raising, by small periodical subscriptions, a fund to enable the Members thereof to obtain unencumbered Freehold or Leasehold Property."

That the public have viewed them with favour, is amply evidenced by their increase in this City, Province, and Cities of the United Kingdom.

When well and properly managed, the accumulation of profits is very large; the effect of compound interest upon the increase of the General Fund, being one secret of their well doing. Exception to every rule applies unfortunately, in some instances, to these societies (particularly in England); several of the many established there having proved anything but profitable (though, truly) investments,—nearly in all cases, owing to such being first set afloat by some needy, unoccupied, speculative, sanguine gentlemen, desirous of easy and remunerative employment; and also, not unfrequently, to be attributed to the circumstance of its very Directors and responsible officers, absorbing its members' funds, by advances far beyond value on their own already encumbered property.

Those in this city, however, being based on sound principles, and enjoying the zealous mutual co-operation of some tried public commercial men, are happily free from such results. By way of instance, at the first annual meeting of the Canada Permanent Building and Investment Society, (J. H. Mason, Secretary and Treasurer,) held so recently as the 3rd inst., a profit of £22 per cent., reckoned compound monthly interest, was declared to its investing members. To the borrower, a great advantage accrues; he not paying the large interest in reality (so erroneously reported), for he cannot be a borrower without being a shareholder; and as such, he is to a certain degree a lender to himself, thereby materially reducing the per centage he seems to pay, by a participation in the gains of the society.

The Directors and other officers are not named; each society calculating its year from different dates, and annually changing its directions, &c.

WARMING AND VENTILATING
PUBLIC & PRIVATE BUILDINGS.

THE SUBSCRIBERS, after much practical experience, are now prepared to furnish the most approved **Warm Air Furnaces and Ventilating Apparatus**, which recent investigation and the most rigid philosophical tests have sanctioned. They have taken universal pains to inform themselves, respecting the various plans which have been adopted in the United States and Europe; and trust their improvements and workmanship will meet the approbation of the community, and give entire satisfaction to their customers.

They are prepared to execute Orders from any part of Upper or Lower Canada, in the most prompt and satisfactory manner; and to furnish and arrange all the most approved Furnaces in use. But experience and observation have convinced them that the Celebrated

CHILSON FURNACE

Is superior to any and all others introduced to public notice. It has taken the First Premium at different State Fairs, in all the Northern and Eastern States, and

Took the Prize Medal at the Great World's Fair, in London.

We shall, in all cases, attend personally to the setting of these Furnaces, and arranging the ventilation in such a manner as to ensure success in Heating Buildings, and supplying them with an agreeable and wholesome atmosphere.

We are permitted to refer to the following Gentlemen and Public Institutions in Toronto:

JOSEPH LESSLIE, P.M., Toronto.
LEWIS MOFFATT, } Church Wardens.
THOMAS D. HARRIS, }
W. HAY, Esq., Architect.
C. P. THOMAS, Architect.
CUMBERLAND & STORM, Architects.
Rev. Dr. MACNAB, Bowmanville.
H. GILLETT, Esq., Port Hope.

Having commenced this Business in the City of Toronto, and meaning to devote to it our undivided attention and energy, we hope and trust we shall merit the patronage and confidence of Architects, Builders, Public Institutions, and the Citizens generally. We are prepared to furnish every size and variety of **Hot Air Registers, Ventilators, &c.**, embracing all of the newest designs and latest improvements, at Manufacturers' Prices; also all the Tin Pipes and other work connected with this Business.

Furnaces, Registers, and Ventilators, may be seen at the Store of T. D. HARRIS, King Street, or at the Subscribers,

J. R. BEGOLE & CO.,
Colborne Street, first Store East of Russell's Hotel.

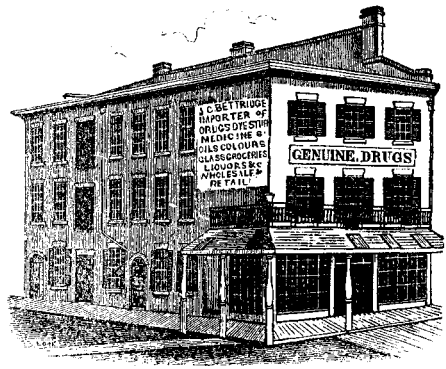
EMERSON'S VENTILATOR.

ALL THE VARIOUS SIZES AT THE MANUFACTURER'S PRICES.

This is the best Ventilating Top ever invented, for Public Buildings, Steam-Boats, Railroad Cars, &c. It is also a sure cure for smokey Chimneys, affected by any change of Winds.

J. R. B. & Co.

ESTABLISHED 1833.



YONGE STREET GENERAL DISPENSARY.

SHAPTER & COOMBE,

(SUCCESSORS TO MR. J. C. BETTRIDGE.)

In the Grocery Department will be found fresh Young Hyson Teas, also a very choice article of Black Tea, Green and Roasted Coffees, Muscovado Sugars, Refined Loaf and Crushed Sugars, Tobaccos, Spices, Currants, Raisins, Corn Brooms, Patent Pails, &c. &c.

They also keep on hand a well-selected Assortment of

PATENT MEDICINES AND ESSENCES,

PERFUMERY & OTHER TOILET ARTICLES.

PRESCRIPTIONS AND RECEIPTS

Carefully compounded from the finest English Drugs, as ordered by the London Pharmacopœa, under the immediate superintendence of the Principals.

☞ HORSE AND CATTLE MEDICINES,

OF EVERY DESCRIPTION.

BEST DICTIONARY OF THE BIBLE IN EXISTENCE.

THE POPULAR CYCLOPŒDIA OF BIBLICAL LITERATURE, by JOHN KITTO, D.D, author of the "Pictorial Bible," &c., assisted by a number of the most eminent Contributors, both clergymen and laymen.

It forms a concentration of the light which modern science and research in every direction, throw on the pages of Scripture, and is invaluable for the Pulpit, the Class, the Family and the Closet. It is recommended by large numbers of the highest Clergy and Laymen in Britain and the States. Fresh recommendations are also continually received from every part of Canada. One large volume of 800 pages, with 336 illustrations by Jackson. British Edition, 15s. cy.

CHALMERS, REV. DR., LIFE. By Dr. HANNA. 2 Vols., 15s.

ALISONS HISTORY OF EUROPE. British Edition, in $1 volumes.

NEW AND CHEAP BRITISH EDITION OF THE WORKS OF DR. CHALMERS, BOTH ORIGINAL AND POSTHUMOUS.

THE whole Works of this Divine, rich as they are, and priceless in worth to all, are being issued entire, excepting the omission of a very few papers which were either of ephemeral interest or whose topics were elsewhere treated. Besides his Lectures on the Romans and all his Sermons, it will include, in an unabridged form, his treatises on Natural Theology, Moral Philosophy, the Evidences of Christianity, Political Economy, the Parochial System, Literary and Ecclesiastical Endowments, the Institutes of Theology and the Notes on Butler and Paley. Uniform with the cheaper editions of the Life and Scripture Readings, it will form the Standard Edition of the Author's Works. Every pains will be taken in its execution, and a complete Index to all Dr. Chalmer's writings will be appended to the closing volume.

The twenty-eight volumes of the original British edition will be condensed into twelve. Price, 6s. 3d. a volume. The only uniform edition ever offered in America. On fine paper, finely printed, full cloth. Actually cheaper than the incorrect and common reprints. Vols. 1, 2, 3, 4 and 5, now on hand, containing Lectures on the Romans and Sermons. Vol. 4th completes all the Sermons published under different titles.

HENRY'S COMMENTARY, PICTORIAL EDITION. 3 Vols., 4to., with upwards of 700 illustrations by the first Artists. Edited with copious supplementary notes, by a Committee of Clergymen. 15,000 copies sold in Britain alone. By far the best edition in existence of this, the best of all Standard Commentaries. $14.

COPY YOUR LETTERS—INVALUABLE TO ALL.

THE COPYING PRESS SUPERSEDED—By Royal Letters Patent.

THE CHINESE TRANSCRIPT FLUID, 3s. 9d. A BOTTLE.

"A writer with this Fluid is enabled to produce a Copy of his Letter, or writing, without trouble, and in a moment."—*Times.*

JOHN C. GEIKIE,

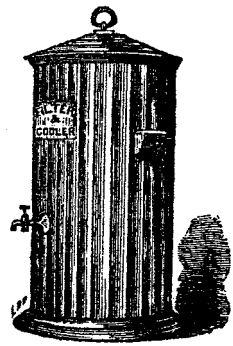
HALL & MORAN'S

PATENT ASCENSION,



FILTER AND COOLER,

MADE ALL SIZES,

FROM TWO TO ONE HUNDRED GALLONS!

ORDERS PUNCTUALLY ATTENDED TO.

THIS article combines in one action all the requisites to supply PURE COLD WATER. It is both elegant in appearance, and perfect in principle. By a simple process, the impurities, instead of accumulating in the filtering medium, are collected in a chamber below, and can be removed as often as necessary. The objection hitherto made to Filters of the ordinary construction, which, by allowing the water to pass downwards, become choked with impure vegetable matter, and consequently unfit for lengthened service, is thus entirely done away. Another advantage it possesses is its connection with a cooler, whereby ICE, when necessary, is not only preserved, but *cleansed and rendered wholesome.* The fact that pure soft water is an essential to health, needs no further proof than is afforded by the statistics of different localities in this country and Europe, clearly showing that cholera and other diseases are directly traceable to its absence. It becomes, therefore, a duty incumbent on all to provide such a simple and efficient preventive; and the inventors confidently appeal to Heads of Families to make trial of the above, which they unhesitatingly recommend as the most efficient water purifier ever introduced. They are made in five sizes, capable of purifying from 10 to 100 gallons of rain or river water per day, and are suitable for Offices, Stores, small and large Families, Hotels, Steamboats, Railroad Cars, &c.

Manufactured and sold, wholesale and retail, by

Vide daily "Leader" of 29th of August, 1855:

Mr. Nasmith's Biscuits.

In the Paris correspondence of the Montreal *Gazette*, special notice is taken of the Biscuits shown in the Exhibition by Mr. Nasmith. Prince Napoleon ate of them heartily one day, pronounced them superior to anything on exhibition of the same nature, and, in short, as much as intimated that in that particular department Toronto will carry off the prize from the world. We need not say that we heartily congratulate our townsman on the distinguished honor that appears to be awaiting him.

The Proprietors of this valuable Medicine have been engaged in business for nearly half a century, and from the most careful investigations they now, without any hesitation, positively affirm, that it has given more general satisfaction than any other medicine of the present or any former age; and it is fearlessly asserted, that there is no other medicine known which possesses such valuable and extraordinary properties as those existing in BUCHANS APERIENT AND DIGESTIVE BITTERS- for the removal of constipation, Indigestion or- Dyspepsia, Impurities of the Blood, &c.

For Students and all others of sedentary employment and habit, it is the very best medicine in the world for preventing Constipation and Indigestion or Dyspepsia, Bilious attacks, and for removing impurities from the body.

In corroboration of these Important Facts, the Proprietors have the free and unsolicited acknowledgments of some of the most eminent and unbiassed members of the Medical Profession at home and abroad, as well as the unbought and uninfluenced testimony of the million, from every quarter of the world.

BILIOUS ATTACKS,

IMPURITIES OF THE BLOOD,

AND

KINDRED DISORDERS.

FOR SALE BY

BUTTLER & SON,

LONDON,

AND

S. F. URQUHART,

YONGE STREET, TORONTO.

"*In spite of the somewhat extravagant laudation of the proprietors, we do not doubt that this is an excellent medicine.*" This is the voluntary and honestly expressed opinion of one of the first medical periodicals in Europe, and even stronger testimony is given by the best medical periodicals on the continent of America, as well as by many of the medical profession in both hemispheres.

The following is what thousands say of this Medicine—"It is the best Medicine I ever used.—It is the only Medicine that is of use to me. Before I began to take it, I suffered severely from disordered digestion and the evils which usually accompany it.—I was a martyr to Dyspepsia, Constipation, Sick-Headache, and various other derangements of the system, till I took BUCHAN'S APERIENT AND DIGESTIVE BITTERS; but now I am thankful, for my health is excellent—no one can enjoy better. Several of my acquaintances have been and are now using the BITTERS with the most beneficial results.—I was covered with blotches all over my body before I began to take this Medicine, but of which I am now perfectly clear."

Such evidence as the above can be seen at the Proprietor's Office, from all parts of the world.

CASTILIAN HAIR INVIGORATOR!

THE Proprietors of this superior Toilet Preparation have the snpreme satisfaction of knowing, from their customers in all parts of the world, that it gives universal satisfaction!

For the preservation and restoration of the Hair, for promoting its growth and softness, and for giving it a smooth and glossy appearance, for preventing baldness or premature grey hair, for preventing its falling out, for the removal and prevention of scurf and dandruff, and for the cure of tetter or ringworm, and other skin diseases which frequently attack the head, nothing ever offered to the public can approach this article,—and, what is of the utmost importance, we warrant it to be perfectly harmless.

The Castilian Hair Invigorator

Has been used for more than a century by the nobles of Spain, but more especially by the ladies of that nation, so justly famed for their luxurious and beautifully dark glossy hair. The *Invigorator* usually causes the hair to retain, and also frequently restores, to the latest period of life, the original color of the hair; only causing it to assume a darker shade, if originally very light.

For sale wholesale and retail by Buttler & Son, London, and by

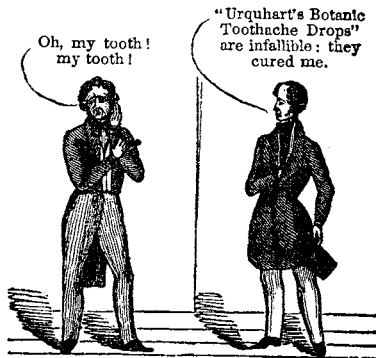
TOOTHACHE CURED IN A MINUTE!



A NEW and *extraordinary Remedy*, is warranted to cure this disease quicker than any other medicine in use. Its great value, peculiarity, and superiority over all other toothache remedies, consists in its *instantaneously curing the toothache*, and *preserving the Teeth from further Decay*, as well as not injuring the gums or sound Teeth with which it may come in contact, which is more than can be said of any other remedy in existence. It is also rather pleasant than otherwise to some people.

CANADA PERMANENT BUILDING & SAVINGS' SOCIETY,

Established in 1855, *to succeed the Toronto and Farmers' and Mechanics' Building Societies,*

ON AN IMPROVED SYSTEM.

Board of Directors.

JOSEPH D. RIDOUT, Esq., President; PETER PATERSON, Esq., Vice-President
J. G. CHEWETT, Esq.; E. F. WHITTEMORE, Esq.; T. D. HARRIS, Esq.;
J. G. BEARD, Esq.; A. NORDHEIMER, Esq.; THOMAS MACLEAR, Esq.;
Solicitor—E. C. JONES, Esq.; Surveyor, W. B. CREW;
Secretary & Treasurer—Mr. J. HERBERT MASON. Bankers—Bank of Upper Canada.

Office—The Office lately occupied by the Farmers and Mechanics' Building Society, TORONTO STREET, TORONTO.

Shares, £100; Half Shares, £50; Quarter Shares, £25.

THE certain and highly profitable return secured to Investers by Institutions of this nature when properly conducted, as exemplified in the successful termination of the two Societies above named, is now well understood. New Members will be received at any time, and will share in the profit from the time of their subscriptions commencing. Shares may be paid up by monthly instalments, or if paid in advance a discount will be allowed. To Non-Members, the Society offers all the advantages of a SAVINGS' BANK, together with a higher rate of interest. Money will be received, for which interest will be paid, at the rate of six per cent. per annum, on sums of ten pounds and over, and five per cent. under that amount, withdrawable at any time on notice being given.

Applications for Loans for any period, from one to six years, will be received by the Secretary, from whom any further information can be obtained, on application, if by letter, post-paid.

D. O. FRENCH,

SURGEON DENTIST,

CORNER OF BAY AND MELINDA STREETS,

UNITY
GENERAL ASSURANCE ASSOCIATION,

FOR

LIFE ASSURANCE, ANNUITIES, AND LOANS.

CAPITAL, £500,000 STERLING.

CHIEF OFFICES—Unity Buildings, 8 & 10 Cannon Street, London.

LONDON BOARD OF DIRECTORS.

CHAIRMAN—The Rev. E. Johnstone, Vicarage, Hampton.
DEPUTY CHAIRMAN—Rear Admiral Sir Watkin Owen Pell, Greenwich.
Thomas H. Baylis, Esq., 4 Nottingham Terrace, York Gate, Regent's Park.
George Borrett, Esq., J. P., Southampton.
Edward Gould Bradley, Esquire, 13 Berners Street, Oxford Street.
Sir William Cunningham Dalyell, Bart., Bennis, Linlithgow and Greenwich.
Robert Garland, Esq., Belfiore Lodge, Highbury.
Albert Francis Jackson, Esquire, Putney Hill, Surrey.
Edward Lloyd, Esquire, M.D., 4 Suffolk Place, Pall Mall East.
Mayor Martin Mulkern, 35 Allsop Terrace, New Road.
Edward Taylor, Esquire, Clapham Common.
Thomas Vaughan, Esq., Stoke Newington.

THE Provincial Directors are the same as those named in the Fire Branch of the Association.

The Unity General Assurance Association, offers the following advantages to Assurers:

1. The list of Shareholders in this Association comprises the names of nearly two thousand persons, of the highest respectability.

2. The present annual income, arising from premiums on Life Assurances, exceeds £25,000 per annum.

3. A paid up capital of nearly sixty thousand pounds, all of which will be profitably employed by granting loans in connection with Life Assurance, and in other operations conducive to the business of the Association and to the interest of the Assurers.

4. No entrance money, admission fee, or policy stamp required from the Assurer except on Loan Policies.

5. Moderate rates of Premium offering peculiar advantages to young lives.

6. The benefit of Mutual Assurance without its liability.

7. Participation in Profits, and the additional advantages of the Annuity and Educational Funds.

8. Policies absolutely indisputable, by which all doubt and litigation are avoided.

9. Policies need never be forfeited.

10. Premiums may be paid annually, half-yearly or quarterly.

11. Thirty days grace allowed for the payment of Renewal Premiums on annual Policies, and fifteen days on those paid half-yearly or quarterly.

12. Lapsed policies may be redeemed within three months upon satisfactory evidence of the unimpaired health, by payment of a fine of ten shillings per cent, and the premium in arrear, together with the interest thereon.

13. All claims on Policies paid immediately after satisfactory proof of death, by the Toronto Central Board.

14. In all cases of suicide, duelling, or deaths by the hands of Justice, the Association will pay claims under policies bona fide and legally assigned; but where the Policy is held by the Assurer at the time of his death, the premiums paid will be returned to his representatives.

15. Officers in the Army and Navy, Assured at ordinary rates, when not engaged in actual service.

16. Tables of Premiums to cover every risk and contingency, whether for families, joint lives, or individuals.

UNITY FIRE ASSOCIATION.

CAPITAL, £2,000,000 STERLING.

Manager and Agent—Mr. William Stewart McFarlane.

GREAT ADVANTAGES TO INSURERS FROM FIRE.

Division of Profits.

THE Directors of the Unity Fire Insurance Association invite the attention of the Public to the principles and Advantages afforded to insurers in this Institution:—

I. Complete security by the largest proprietary body in the world, consisting of thousands of Shareholders whose names and addresses are published.

II. The prompt and liberal settlement of every claim.

III. Division of two-thirds of the profits, thus eventually reducing most materially the Premium for Insurance.

IV. The opportunity of becoming a Shareholder, and thus securing every advantage that mutuality can afford.

V. The Limitation of Liability to the amount of the Shares subscribed for.

New Shares.

The original Capital of One Million Sterling having been fully subscribed in thirteen months by nearly Five Thousand Shareholders, and the demand for shares still continuing, at an Extraordinary General Meeting of the Shareholders in England in November, 1854, One Million new Shares, of £1 each, were created to be issued at 2s. 6d. premium. The Capital of the Association now consists of Two Millions Sterling, in Two Million Shares of £1 each, with a deposit of 2s. 6d. per share. The premium on the new Shares will be 2s. 6d. until notice shall have been issued by the Directors that an increased premium will be required on all Shares allotted. Nearly 240,000 of these new Shares have been already subscribed.

BUSINESS.

The amount of Insurance effected by this association now exceeds Nineteen Millions Sterling.

AGENCIES.

The Directors will appoint Agents of influence where none are appointed. Applications for Shares, Prospectuses, &c. are requested to be made either personally or by letter, addressed to the Manager at Toronto, or to any of the Local Agents throughout the country.

All losses will be settled by the Toronto Board without reference to the London Directors.

HENRY SKYNNER, *Secretary and Manager, Temporary Offices, Toronto Street.*

IMPORTANT ADVANTAGES TO ASSURERS.

NON-FORFEITURE OF POLICY.

A MOST desirable provision is made for Assurers in this Association, who from any cause are unable or not desirous of continuing the payment of Premiums on an Assurance. After five annual payments on a whole term of Life Policy, the Directors will at any time give the Assurer a "paid up" policy for the amount he may have paid, securing that sum to his representatives at death. Thus, supposing a person aged 30 to have Assured for £1000, with profits for the whole term of life, and paid five years' premiums, he could under such circumstances have paid the sum of £113 2s. 6d. Should he desire then to drop the Assurance, or if he be compelled to do so, he may receive a "paid up" policy for that amount. This would be an absolute and indisputable reversion, payable to his representatives after his death. The justice and safety of this arrangement cannot be questioned. It is fair alike to the Assured and to the office, while it serves to consolidate their Mutual interests.

I. In the case of the assurer, it will place his contract with the Office in a position of certainty, and remove all doubts from his mind as to being compelled to sacrifice to others the premiums he may have paid on his Policy.

II. In the case of the Office the profit derived will be that of the compound interest of the accumulated premiums and the "preservation of its connection." For after all, a Life Assurance Company does but perform the part of Banker or Trustee. It earns interest for the deposits it receives in the way of Life premiums, and if the Interest on money in ordinary banking transactions lodged in banks "at call" be remunerative, (of which there cannot be a doubt) surely it must be much more so to a Life Assurance Office, when it is remembered that the money remains in some instances for 30 to 40 years, working at compound interest, all of which belongs to it. This is one important element of profit to the Office, the other is the "preservation of its connection."

With respect to the latter, there can be no doubt that all persons who have been compelled to allow their Policies to lapse have felt naturally the injustice of forfeiting to other more fortunate policy holders the amounts they may have paid, and thus has arisen a most unsatisfactory termination of the transaction—leading, as it inevitably must do, to the severance of the assured from the institution, it leaves on his mind an unfriendly feeling. Whereas by giving him a "paid up" policy for the amount he has paid to the office as premiums, his constant advocacy will have been secured on behalf of the institution. To all those indeed who may have any dealing with the Unity, it is confidently believed that neither under this nor any other conceivable contingency can there arise any other feeling than that of perfect confidence in the integrity of the office. and perfect satisfaction with the liberal engagements into which it enters. The provision of non-forfeiture, just stated, combined with the avoidance of all uncertainty of litigation, by making policies absolutely indisputable, obviates both the objections which have hitherto so seriously impeded the progress of Life Assurance.

MODE OF DIVIDING PROFITS.

I. To assurers either by an addition to the amount of their policies, by an immediate payment in cash, or by the reduction and ultimate extinction of future premiums—Fifty per cent.

II. To assurers or shareholders for an annuity fund to relieve members in reduced circumstances—Ten per cent.

III. For an Education, Apprenticeship Fee, or Endowment Fund for the children of the assured and shareholders—Ten per cent.

IV. For purchasing up the Shares of the Company, so that the entire interests and assets may ultimately revert and belong to the Association, which shall then become a Mutual Life Assurance Company, when all the profits will belong to the assured—Ten per cent.

V. To the Shareholders—Twenty per cent.

Thus it appears that instead of the profits of this Association being applied to but two objects, as is the case in some other offices, they are applied to no less than five—three of which will be found to be of great moment to assurers. By the unity mode of dividing profits they secure.

I. Large Bonus addition to policies for their families.

II. Assurance from pecuniary want for themselves.

III. Education and Apprenticeship fees for their children.

Medical Referees—Dr. Hodder and Dr. Small.

H. SKYNNER, *Secretary and Manager.*

TO THE READER.

Sun's Rising and Setting.—There are two kinds of time used in common Almanacs, for the Sun's Rising and Setting. One is *Clock* time, and the other is *Apparent* or Sun time. *Clock* time is *always right*, while Sun time *varies* every day, and is alternately too "Fast" or too "Slow." Hence it is that two Almanacs made by the same calculator, for the same year and place, will give the Sun's rising and setting very differently, if a *different* kind of time is used in each. Persons observing this must not think that either is wrong. According to apparent time the sun will always rise and set at six o'clock, at the time of its crossing the equinoctial; but this is never the case according to Clock time, or *true* time. If the sun was in the meridian, or at the noon mark, at 12 o'clock every day, then *apparent* time would be true, and the sun would always rise and set at 6 o'clock, when at the equinoxes. People generally suppose it is 12 o'clock when the sun is in mid-heaven, or at the noon mark. In this there is a great mistake, for the sun is so irregular, that it does not come to these points at 12 o'clock oftener than four times in a whole year. In *this* Almanac we give the time exact to the nearest second that a correct clock must show, when the sun is in the meridian and shadow at noon mark, for every day in the year. When the sun is at the noon mark it is *noon*, but not twelve o'clock very often.

To ascertain the Length of the Day and Night.

At any time of the year add 12 hours to the time of the Sun's setting, and from the sum subtract the time of rising for the length of the day.

Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning, for the length of the night. These rules are equally true for *apparent* time.

Explanation of the Signs used in this Almanac.

● New Moon, and Moon generally. ◐ First Quarter. ○ Full Moon. ◑ Last Quarter. ☊ Moon's ascending Node. ☋ Descending Node. ⊗ in Apogee—farthest from the Earth. ● in perigee—nearest to the earth. ● Highest—Moon farthest North. ⊗ Lowest—Moon farthest South. ♄ Saturn. ♀ Venus. ♂ Near together. ♃ Jupiter. ☿ Mercury. □ 90 apart. ☍ Opposition, or 180° apart. ♂ Mars. 7* Stars. ☉ Sun. ♅ Herschel. ♆ Neptune.

Directions for finding the True Time.

The Sun, as we have stated before, is on the meridian at 12 o'clock on four days only of the year. It is sometimes as much as 16¼ minutes before or after twelve, when its shadow strikes the noon mark on the sun-dial. On each calendar page of this Almanac is shown the exact time when the sun reaches the meridian, or the shadow the noon mark; and in order to set a clock or watch correctly, it must, when it is noon by the sun dial or noon mark, be set at the time indicated in the Almanac. Thus, on the 25th of January, when the sun is on the noon mark, the watch must be set 12 minutes and 34 seconds past 12, which will be the true time. The Practice of setting time-pieces by the rising or setting of the Sun or Moon, is not strictly correct; as the unevenness of the earth's surface and intervening objects, such as hills and forests, near the points of rising and setting, occasion a deviation, in every place from the time expressed in the Almanac, which time is adapted to a smooth, level horizon. The only means of keeping correct time, is by the use of a noon-mark or a meridian-line.

Astronomical Notes for 1856.

The Moon will run lowest this year on October 6th, to the 3rd degree of Sagittarius, having a declination of 28° 36′ 1.2″ south. It will run highest October 18th, to the 3rd degree of Gemini, having a declination of 28° 35′32.2″ north.

This declination is a *maximum*, by which the Moon can run north or south farther than the sun can. Longitude of Moon's Ascending Node, Jan. 1, is 30° 11.1′, and December 31, it will be 10° 51′ 4. Apparent Obliquity of Ecliptic July 9, is 23° 27′ 36.11″.

Distance of Sun, July 2nd, 96702364 miles. Its mean distance March 31, and Oct. 3rd is 96103800 miles. The Sun will be north of the equator this tropical year 186 days 11 h. 4 m., and south of it 178 d. 18 h. 47 m., shewing a difference of 7 d. 16 h. 17 m., caused by the slower motion of the earth when in or near the aphelion.

Mercury will be brightest, and visible in the west soon after sunset, about January 29, May 23, and Sept. 19. Also in the east just before sunrise about March 18, July 16, and November 5th. The first and last dates quite unfavourable.

N. B.—The constellation Pisces is the *first* sign in the zodiac. Aries was first *once*, but is now 30° east of the equinox. In consequence of not knowing this, some think the Almanac is wrong.

TABLE,

Shewing the Illuminated Portion of the Discs of Venus and Mars.

The numbers given in this table represent the sizes of the Illuminated portion of the Discs—the apparent diameters of the planets being considered at *unity*.

1856.	Venus.	Mars.	1856.	Venus.	Mars.
January 15.	0 ·656	0 ·907	July 15.	1 ·000	0 870
February 14.	0 ·759	0 ·935	August 15.	0 ·992	0 ·872
March 15.	0 ·838	0 ·985	September 15.	0 ·964	0 ·884
April 15.	0 ·903	0 ·991	October 15.	0 ·922	0 ·900
May 15.	0 ·952	0 ·933	November 15.	0 ·864	0 ·919
June 15.	0 ·986	0 ·886	December 15.	0 ·792	0 ·938

Star Table.

To ascertain when any star found in the following table will be on the meridian, *add* the numbers opposite in the left-hand column of figures to the preceding meridian transit of the north Star found in the calendar pages. For the Rising of a star, *subtract* the number opposite in the right-hand column of figures from its meridian passage. For the Setting of a Star, *add* the same number to its meridian passage. Those marked (.....) revolve in a circle of perpetual apparition, and do not rise or set north of the latitude of Toronto (Lat. 43° 39′ 35″ N.) for which latitude the semi-diurnal arcs are calculated and corrected. The civil day begins at the preceding midnight, and consequently 24 hours after midnight, or 12 hours from noon, is *morning* of the succeeding day; and 24 to 36 hours from noon, is *evening* of the next day. This table is arranged in the order of culmination.

Explanation of the Articles in the Calendar.

These Pages are calculated for Toronto, and for a point midway between Montreal and Quebec, which point is about on the latitude of Three Rivers and Fredericton. They will serve very accurately for every *City and Town in the British Provinces and North America.*

The Sun's Rising and Setting, is given in mean time; and for Toronto, it is corrected for a mean horizontal refraction of 36 min. 6.86 sec., of arc, and is also suited to the *upper limb.* Its declination is for mean noon.

The Moon's Rising is given from Full to Change, and the Setting from Change to Full.

Moon's Place.—The symbols and numbers in this column indicate the Moon's place in the sigus or Constellations of the Zodiac, to the nearest degree of longitude, at 7 o clock P. M. Toronto Time. Pisces being regarded the *first* of the signs.

Moon's Age.—This column shows to the nearest tenth of a day, the Moon's Age at noon, Toronto.

Moon South.—This column shows the time the Moon is "south," or in the meridian of Toronto, and is nearly the same for all parts of the Provinces.

Twilight.—This table shows at intervals of six days, the times of beginning of Twilight in the morning, and of the end at evening—the sun, at the computed instants, being 8 degrees below the horizon.

The Moon's Phases.—This table shows the time for two meridians, when the Moon passes the geocentric longitudes of 0 dg., 90 dg., 180 dg., and 270 dg., from the Sun.

The Column of "Pole Star in Meridian," shows for every day in the year, the exact time when the North Star makes its transit over the upper meridian of longitude, 5 h. 8 m. 12 s. west of Greenwich, and is sufficiently exact for ordinary use in all of the British Provinces.

The time of the Lower Transit for any given day may be found by adding 11 h. 58 m. 2.045 s. to the time of the preceding Upper Transit. This column is designed to facilitate the computation of the Rising, Setting, and Meridian Passage of the brightest Fixed Stars, by using the numbers opposite the same in the Star Table. It will also be found of some service to surveyors and astronomers. When great exactness is required, the meridian passage of the Pole Star, for several places, may be obtained by applying the following corrections to the times expressed in the calendar

pages. For Toronto, subtract 2.55 seconds; for Kingston, add 0.22 sec.; for Montreal add 2.24 sec.; for Quebec, add 3.36 sec.; for Fredricton, add 6.32 sec.; and for Halifax, add 8.78 sec.

The times of greatest eastern elongation of the Polar Star, may be found for any day by *subtracting* the following constants from the time of Upper Transit; and the time of greatest Western elongation may be found by *adding* the same constants. For Toronto, 5 h. 53 m. 26.9 sec.; for Kingston, 5 h. 53 m. 21.4 sec.; for Halifax, 5 h. 58 m. 15 sec; for Montreal, 5 h. 53 m. 4.4 s.; for Fredericton, 5 h. 52 m. 56.8 s.; and for Quebec 5 h. 52 m. 46.75 s. In computing these constants, the mean polar distance of the North Star for 1855 was assumed at 1° 28′, and the slight variations in that distance will not produce an error of more than two seconds in the constants, when the variations have their greatest value.

There is not sufficient room for a table of the "Azimuth of Greatest Elongation" of the Pole Star. But this can be very easily found for any place by the following formula, the star's polar distance, and the co-latitude of the place being known; the former of which is given for every day in this Almanac.

Log. Sine Azimuth = 10 + Log. Sine Polar distance — Log. Sine co-Lat.

Eclipses for the Year 1856.

There will be two Eclipses of the sun, and two of the Moon this year as follows:—

I.—A Total Eclipse of the Sun, April 5th, invisible.

II.—A partial Eclipse of the Moon, April 20th, in the morning, *visible*. The Moon will set in the Canadas at about 5 h. 9 m. with 1.2 digits eclipsed. Size at the Middle 8.544 digits on the northern limb, See the Table below.

III.—An Annular Eclipse of the Sun, September 29th, invisible in Canada.

IV.—A Partial Eclipse of the Moon, October 13, in the Evening, visible. The Moon will rise at 5 h. 11 m. with 8·64 digits eclipsed. Size when largest, 11.976 digits on the Southern limb. See the Table below.

Places.	Eclipse of April 20.		Eclipse of Oct. 13.

Hamilton	2 14	2 46	5 34	7 8
London C. W.	2 9	3 41	5 29	7 3

Jupiter will be eclipsed by the Moon on the 19th of August, at about 1 o'clock in the morning, visible. Duration 54 minutes.

Mathematical Acknowledgements.

We have the pleasure to notice a very large number of Solutions of the Problems in the Almanac for 1855 from various correspondents. We connot print the Solutions for want of room, nor was this our design, as we do not intend to make the Almanac take the place or character of a mathematical work. The *Answers* of the Problems will be published, and those who solve them correctly will be noticed. In examining the solutions, we have discarded mistakes in the operations, where the *principles* of working were correct. In such cases we accord to the author the honour of a right solution. We cannot pledge ourselves to *look* for such errors when the answers are wrong, and correspondents are requested to be very careful in the operations. In some instances we may have overlooked the merits of our correspondents, where their results have been wrong, not from any want of skill, but from some small mistakes they have made. The majority of the solutions sent were correct. Particular notice is due to Messrs. Jordan, Dunne, Cowan, Clark, Ralph, Somerville and Sheehan, for full solutions, and finely executed diagrams. We give *instead* of the *solutions*, the answers in *literal formulæ* as far as possible, by which *rules* can be made. We invite all to send for the Almanac, original and well-selected problems, with solutions on *separate* sheets of paper, and if approved will be inserted next year. They should be in the hands of the publishers on or before the 15th of May, 1856.

The Problems in this Almanac are of a highly practical character, and combine utility with the theoretical. Persons who send *correct solutions* of 15 or more of these Problems (post-paid) to the Publishers, Messrs. Maclear & Co., Toronto, before July 1st, 1856, will have the same publicly acknowledged in the issue for 1857.

We have received correct solutions from our Correspondents as shown below:—

Mr. Thomas Jordan, School Teacher, of Oxford, Probs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 15, 16, 17, 18, 20, 21, 22, 24, 28, 29, 31, 32, 33, 34, 35, and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 31, 32, 33, 34, 35, 36, 37, 38 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, and Geom. Prob. 1.

Mr. William Cowan, School Teacher, No. 6, Guelph, Probs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, (in part.) 13, 14, 15, 16, 17, 18, 20, 21, 22, 23, 24, 26, 29, 31, 32, 33, 34, 35; and Exs. 1, 2, 3, 4, 5, 6, 7, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40 42, 43, 44, 45, 46, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, and Geom. Prob. 1.

Mr. William Ralph, London, C. W., Probs. 1, 2, 5, 6, 7, 8, 9, 10, 12, (in part), 13, 14, 15, 16; and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 19, 20, 23, 24, 25, 26, 28, 29, 30, 31, 33, 34, 35, 37, 39, 40, 42, 43, 44, 46, 49, 50, 53, 54, 55, 56, and Geom. Prob. 1.

Mr. Charles Clark, C. M. Teacher, Cayuga, Probs. 1, 2, 4, 5, 6, 8, 9, 10, 12, 13, 14, 15, 17, 18, 22, 24, 28, 29, 30, 31, 32, 33, 34: and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 19, 20, 22, 23, 24, 25, 26, 28, 29, 30, 32, 33, 35, 37, 39, 40, 42, 43, 46, 48, 49, 50, 52, 53, 54, 56, and Geom. Prob. 1.

Mr. William Dunne, of St. James, and Teacher in No. 4, Onondaga. Probs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 15, 16, 17, 18, 20, 21, 22, 23, 25, 27, 28, 29, 30, 31, 32, 33, 34, 35; and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59; and Geom. Prob. 1.

Mr. John Sheehan, C. T., Onondaga, Brant Co., Probs. 1, 2, 5, 6, 7, 8, 10, 12, 13, 14, 15, 16, 20, 21, 22, 23, 24, 27, 28, 29, 31, 32, 33, 34, 35, and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 28, 29, 30, 31, 32, 33, 34, 35, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59; and Geom. Prob. 1.

Mr. Robert Somerville, School Teacher, in Darlington, Probs. 2, 5, 6, 7, 8, 9, 10, 13, 15, 32, and Exs. 1, 2, 3, 4, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 18, 19, 20, 22, 24, 25, 26, 28, 29, 33, 40, 42, 43, 46, 48, 49, 50, 53, 54.

Mr. JAMES A. LYNAM, Teacher, Pond Mills, Westminster, Probs. 1, 2, 4, 5, 6, 7, 8, 10, 13, 17, 18, 22, 31, 32, 34; and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 14, 15, 16, 18, 19, 20, 22, 26. 28, 29, 31, 33, 34, 37, 39, 40, 48, 49, 50, 53, 54, 56.

Mr. WALTER HENDERSON, C. S. T., Wainfleet, Welland Co., Probs. 2, 4, 5, 6, 7, 8, 9, 13, 15, 31, 35; and Exs. 6, 8, 10, 11, 12, 13, 14, 15, 16, 18, 23, 24, 26, 28, 29, 30, 34, 37, 40, 43, 46, 49, 54, 57.

Mr. V. M. CLEMENTI, Peterboro, Exs, 4, 6, 10, 11, 13, 14, 15 16, 26, 29, 46, and Geom Prob. 1.

Mr. DENIS SMITH, Pensioner, No. 7 Tower, Quebec, Probs. 1, 2, 4, 5, 7, 6, 8, 9, 10, and Exs. 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12, 13, 14, 15, 16, and Geom. Prob. 1. *Also Prob*, 19, *in the Almanac of* 1854.

Mr. JAMES SUTHERLAND, of Carradoc. Probs. 2, 5, 6, 7, 8, 9, 10, 17, 24. 29, 31, and Exs. 1, 2, 4, 5, 6, 7, 10, 11, 12, 13, 14, 15, 16, 19, 20, 22, 23, 24, 26, 28, 29, 30, 31, 34, 39, 40, 48, 50, 54, 56, and Geom. Prob. 1.

Mr. THOMAS MAGINNIS, St. Andrews, Probs. 2, 5, 6, 7, 14, 22, and Exs. 6, 7, 8, 11, 12. 13, 14, 15, 16, 17, 19, 20, 22, 24, 26, 29, 30, 31, 46, 48, 49, 50, 54, 58.

Mr. JAMES MCCLELLAND, Teacher, No. 10, Scarborough, Probs. 1, 2, 5, 6, 10, 13, 22, and Exs. 1, 5, 6, 8, 48, and Geom. Prob. 1.

Mr. JOSEPH OSBORNE, S. T., Enniskillen, Probs. 2, 5, 6, 22, 31, 32.

Mr. JOHN JERRETT, S. T., of Elmgrove, Essa, Probs, 5, 6, 7, 10, 13, 22.

MR. BENJAMIN WALDEN, C. S. T., Elginfield, Probs. 2, 5, 10, 22.

Mr. THOMAS RAMAGE, Etobicoke Probs, 2, 4, 5, 6, 8, 9, 14, 22.

Mr. JAMES GAHAN, York, Probs. 1, 2, 5, 6, 7, 10, 13, 14, 15, 16, 17, 19, 20, 21, 22, 31, 32, 33, and Exs. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 19, 20, 22, 24, 26, 27, 28, 29, 30, 31, 32, 33.

Mr. JOHN CAMPBELL, Teacher, Carradoc, Probs. 1, 2, 4, 5, 6, 8, 9, 10, 13, 14, 15, 17, 18, 22, 24, 29, 31, 32, 34, (in part) and Exs. 1, 2, 4. 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 28, 29, 30, 31, 34, 39, 40, 43, 44, 48, 49, 50, 53, 54, 55, 56 and Geom. Prob. 1.

MARY CAMPBELL, of Carradoc, Probs. 1, 2, 5, 6, 8, 11, 12 (in part), 13, 15, 22, 24, 31, 32, 34, (in part.)

Mr. CHARLES CAMPBELL, Mapleton, Prob. 8, and Exs. 1, 2, 5, 6, 7.

Mr. GEORGE THOMSON, of Tuckersmith, Probs. 2, 5, 6, 8, 9, 10, 14. 15, 22; and Exs. 4, 5, 6, 7, 8, 12, 14, 15, 16, 19, 20, 25, 28, 43, 56.

Mr. NICHOLAS DOWN, S. T., Cobourg, Probs. 2, 5, 6, 7, 13 14, 20, 31, 34,35, and Exs. 6, 13, 14, 15, 16, 26, 29, 40.

Mr. GEORGE T. EVANS, C. S. T., Missouri West, Probs. 2, 5, 6, 9, 14, 15, 33, and Exs. 4, 5, 6, 7, 8, 10, 13, 14, 18, 19, 20, 24, 26, 29, 30, 33, 37, 40, 43, 46, 49, 50, and Geom. Prob. 1.

Mr. JAMES DEVLIN, F. C. Teacher, Maidstone, Probs. 7, 20, 32, 35; and Exs. 10, 41.

Mr. JOHN IRELAND, C. S. T., Deleware, Probs. 1, 2, 4, 5, 10, 12, 31, 24, 13, 14, 15, 32, and Ex. 2.

Mr. JOHN MILLS, C. S. T., Portsmouth, Probs. 2, 5, 6, 8. 10, 13. 14, 15, 16, 22, 28, 32, 34, 35, and Exs. 2, 4, 5, 6, 8, 10, 12, 13, 24, 25, 26, 28, 29, 33, 46. (Mr. Mills' name, last year was printed Niles.)

Mr. DAVID TROWBRIDGE, Waterburgh, N. Y., Probs. 2, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 16, 19, 22, 24, 26, 28, 29, 30, 31, 33, 35.

Mr. WILLIAM MCCONNELL, P. L. S., St. Andrews, C. E., Probs. 2. 5, 6, 8. 10, 13, 14, 22, 31, 32, 35; and Exs. 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 19, 20, 24, 26, 29, 30, 34, 37, 39, 40, 43, 46, 48, 49, 53, 54, 56, 57, 58.

Mr. A. C. O'REILLEY, of Wainfleet, Probs. 1, 2, 5, 6, 7, 9, 10, 12, 13, 14, 15, 22, and Exs. 2, 3, 4, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 19, 20, 29, 30, 43, 46, 48, 50, 58.

Mr. G. W. SHELDON, C. S. T., Harwich, Probs. 2, 5, 6, 7, 10, 13, 16, and Exs. 1, 3, 5, 12, 13, 14, 15, 16, 24, 26, 29, 42, 46, and Geom. Prob. 1.

Mr. BERNARD DE SCUDAMORE, Newburg, Probs. 1, 2, 5, 6, 9, 13, 14, 15, 17, 22, 24, 27, 28, 31, 32, 33, and Exs. 1, 2, 3, 4, 6, 7, 8, 11, 13, 16, 18, 19, 22, 24, 25, 28, 32, 37, 40, 42, 43, 44, 48, 49, 54.

Mr. GEORGE L. LITTLEJOHNS, Yonge, Probs. 2, 5, 6, 7, 8, 10, 13, 22, 34, and Exs. 5, 13, 16, 29.

Mr. MARSHALL MACKLIN, Sen., of Scarborough, Probs. 2, 5, 6, 10, 13, 31, 32, 34.

Mr. WM. LEWIS, of Lorraine, Probs. 2, 5, 6, 7, 10, 13.

Mr. ARCHIBALD MCLELLAN, Dumfries, Probs. 2, 5, 6, 22.

Mr. D. MURRAY, Junior, Montreal, Probs. 2, 5, 6.

Mr. JAMES BURGESS, Etobicoke, Prob. 34.

Mr. JAMES TURNBULL, East Zorra, Probs. 2, 5, 6, 8, 13, 22, and Exs. 1, 8, 12, 13, 16, 40, 49, 54, and Geom. Prob. 1.

Mr. JOHN CAREY, Plympton, Probs. 1, 2, 5, 6, 10, 13, 14, and Exs. 4, 5, 6, 10, 28, and Geom. Prob. 1, and 32 of 1854, nearly.

Mr. JAMES R. DAVIS, Cobourg, Probs. 2, 6, 5, 22, 33, 35, and Exs. 1, 2, 4, 5, 6, 9, 10, 12, 13, 14, 15, 16, 18, 19. 20, 24, 25, 26, 31, 29. 40, 42, 43, 46, 49, 50, 53, 54, 56, 57, and Gem. Prob. 1.

Mr. JOHN JACQUES, of Scarboro, Probs. 6, 22, 5, 34, and Geom. Prob. 1. (in part.)

Mr. JOHN MURRAY, St. Andrews, Probs. 2, 6, 22, and Exs. 8, 16, 24.

Mr. DANIEL DONOGHUE, of Emily, Prob. 2, 5, 6.

Mr. JOHN LORRANER, of Verulam, Prob. 2, 5, 10, 32.

Mr. JAMES FURGUSON, of Kingston, Probs. 5, 6.

Mr. CHARLES RYND, C. S. T., Blanshard, Probs. 2, 5, 6, 22, 32.

Mr. WM. HARRIS, of Morris, Probs. 2, 5.

Mr. PETER SCOTT, of Esquesing, Probs. 5, 6, 31, 32, and Geom. Prob. 1.

Mr. DONALD MCGILLIS, of St. Andrews, Probs. 2, 6, 22; and Exs. 8, 11, 16.

Mr. ANGUS MCDONALD, of St. Andrews, Probs. 2, 6, 7; and Exs. 8, 20, 24, 26.

Mr. WILSON S. WILLIAMS, of Grantham, Probs. 5, 6, 13, 10; Geom. Prob. 1, in part.

Mr. MALCOLM CURRIE, S. T., Sunnidale, Probs. 1, 2, 4, 5, 6, 8. 9, 22, 31, 32, 35; and 32 of 1854.

NOTE.—The Problems for 1854. 1855, and 1856, are, with a very few exceptions, entirely original with ourselves, and the formulæ we publish this year are also, for the most part new. It is quite possible that in these there may be some errors, and if any we will thank our friends to point them out. We shall depend hereafter, upon the friends of the "Exact Science," for problems for the Mathematical department.

SAMUEL H. WRIGHT.

July 15th, 1855.

Day of Month	Day of Week.	Remarkable Events.	Astronomical Notes.	Polar Distance of Pole Star.	Mathematical Problems.

30	Wed.	Charles I. beheaded, 1643.	Venus South, 9.17 mo.	1 27 10	much water will run
31	Thur.	Guy Fawkes executed, 1606.	Mercury in Ascen. Node	1 27 11	over?

ANSWERS TO THE PROBLEMS FOR 1855.

Prob. 1.—1st \$3382.705; 2nd \$3872.875; 3rd \$4744.42 Ans.

Prob. 2.—$\frac{1}{3}+\frac{1}{6}=7\div24=$ what both do in 1 day, and in 3 days will do $3\times7\div24=7\frac{7}{8}$. Ans.

Prob. 3.—Let $4=a$, then the side of the required pentagon$=2a\div\left\{(\sqrt{5}+1)+\frac{1}{5}\sqrt{(30+6\sqrt{5})}\right\}$
$=1.47263$ feet Ans.

Or $a\div2.7162194=1.47263$ Ans.

Prob. 4.—Let each side $=12,=2a$, and $x=$side of the square required, then $x=2\,a\,(3-\sqrt{3})$
$=15.21539$ Ans.

Prob. 5.—The heirs will share the estate in the ratio of 16,000, 12,000, and 8,000, or as 4, 3, 2

Now $4+3+2=9$.

And 9 : 4 :: 20,000 : 8888 8-9=1st.
" 9 : 3 :: 20,000 : 6666 2-3=2nd.
" 9 : 2 :: 20,000 : 4444 4-9=3rd. } Ans.

Prob. 6.—$24+1=$sum of extremes. $25\times24\div2=300$ Ans.

Prob. 7. — $\frac{3}{4}+\frac{9}{10}+\frac{13}{20}=\frac{46}{20}$. Now $\frac{46}{20}-2\times\frac{13}{20}=1=$twice A.'s work.

$\frac{46}{20}-2\times\frac{18}{20}=\frac{1}{2}=$ twice B's work, and $\frac{46}{20}-2\times\frac{15}{20}=\frac{4}{5}=$ twice C.'s work, and *once* the work of each will be $\frac{1}{2}$, $\frac{1}{4}$, and $\frac{2}{5}$, and they must share the pay in *this* ratio, which is as 10, 5, and 8. Again $10+5+8=23$. Now 23 : 10 :: 26.45 : \$11.50=A.'s, 23 : 5 :: 26,45 : \$5.75=B.'s, and 23 : 8 :: 26.45 \$9.20=C.'s Ans.

Prob. 8.—Let $18=a$, then the side of the square $=\frac{1}{2}a\sqrt{2}=12.7279$ Ans.

PROB. 6.—The bulge diameter of a cheese is 19 inches, and side diameter 18 inches. It is 6 in. deep at the edges, and 7 in. at the centre of the sides. Required its solid contents.

PROB. 7.—The three lines drawn from the angles of a triangle perpendicular to the opposite sides, meet in a point—if the length of these lines from the angles to the point where they meet are 1, $\sqrt{6}$, and $\sqrt{6}$ respectively, it is required to determine the sides of the triangle by quadratic equations.

PROB. 8.—Given $x^4-2x^3+x=2$, to find x.

Day of Month	Day of Week.	Remarkable Events.	Astronomical Notes.	Polar Distance of Pole Star.	Mathematical Problems.

ANSWERS TO THE PROBLEMS FOR 1855.

Prob. 9.—Let $20=a$, then the side of the octagon $=a(\sqrt{2}-1)=8.28427$ Ans.

Prob. 10.—$14467.504 Ans.

Prob. 11.—Let $r=4000\times5280$ feet; $g=32\frac{1}{6}$, then the time $=\frac{1}{2}(3.1416)\sqrt{r}\div\sqrt{g}=1272.81$ seconds, Ans.

Velocity $=\sqrt{gr}=400\sqrt{4246}=26064\cdot533$ feet Ans.

Prob. 12.—Number of bounds will be *infinite.* Distance moved 36 feet, or 24 feet in *descent*, and 12 in ascent. The *times* of ascent and descent are computed in conformity to the law of falling bodies, and it (the time) is $=5.034472866$ seconds, or about 1-12th of a minute, Ans.

Prob. 13.—$(3\times3\times14\times4\times90\times12)\div(18\times5\times15\times7\times6)=9$ 3-5 hours Ans.

Prob. 14.—Dividing line $=13{,}583$ inches. Length of the pieces 5.6676894 feet, and 6.3323106 feet, Ans.

Prob. 15.—Let $x=$ radius of semicircle, then $x\sqrt{2}=$radius of quadrant. Now $x^2=\sqrt{a}=10$, in which the area $100=a$. Hence diameter $=20$, Ans.; and $x\sqrt{2}=14.142136$ Ans.

Prob. 16.—The length of plane must be twice the height, since the sine of $30°=\frac{1}{2}$ radius. Now let $x=$the height, then $\sqrt{(2\times32\frac{1}{6}\times x)}=600$; hence $64\frac{1}{3}=3600$, and $x=5595.855$ feet, and twice this$=11191.71$ feet, Ans.

Prob. 17.—Let $32=d$, $43=a$, $45=b$, $40=c$, and the required height$=x=\frac{1}{d}\sqrt{\left\{\frac{1}{3}\left(a^2b^2+b^2c^2+a^2c^2-a^4-b^4-c^4-d^4+d^2(a^2+b^2+c^2)\right)\right\}}=37.974$ feet Ans.

PROB. 14.—A loaf of bread in the shape of a hemisphere of radius $9=a$, is to be baked until it is half crust, which must be of the same thickness top and bottom. How thick will it be?

PROB. 15.—Required the dimensions of the strongest rectangular beam that can be sawed from a log 4 feet in diameter.

PROB. 16.—A bar of iron of uniform dimensions, weighing 300 lbs., is fastened to a vertical wall at one end by a hook, the other end being attached to a pulley fixed in a horizontal line with the hook, and at a distance from it equal to the length of the bar. If the pulley rope have a weight of 100 lbs. attached to it, what angle of inclination to the horizon will the bar take?

ANSWERS TO THE PROBLEMS FOR 1855.

Prob. 18.—Let $28=a$, $30=b$, $34=c$, $50=d$, and length of pole$=x$,

$$\text{Then } x=\frac{1}{d}\sqrt{\left\{\tfrac{1}{3}\left(-a^2b^2-b^2c^2-a^2c^2+a^4+b^4+c^4+d^4+d^2(a^2+b^2+c^2)\right)\right\}}$$

$=42.36144$ feet, Ans.

Let the distances from the corners to the foot of the pole be y, z, and s, then

$$y=\frac{1}{d}\sqrt{\left\{\tfrac{1}{3}\left(-a^2b^2-b^2c^2-a^2c^2+a^4+b^4+c^4+d^4+d^2\,(-2a^2+b^2+c^2)\right)\right\}}$$

$=31{\cdot}7882$ feet Ans.

$$z=\frac{1}{d}\sqrt{\left\{\tfrac{1}{3}\left(-a^2b^2-b^2c^2-a^2c^2+a^4+b^4+c^4+d^4+d^2(a^2-2b^2+c^2)\right)\right\}}$$

$=29.90804$ feet, Ans.

$$\text{and } s=\frac{1}{d}\sqrt{\left\{\tfrac{1}{3}\left(-a^2b^2-b^2c^2-a^2c^2+a^4+b^4+c^4+d^4+d^2\,(a^2+b^2-2c^2)\right)\right\}}$$

$=25{\cdot}2684$ feet, Ans.

Prob. 19.—Let P$=30$ lbs., $a=6$, and $\frac{1}{2}$ of $4=b$, then the *horizontal* force on the upper hinge *outward*, and on the lower one *inward*, is$=$P $b\div a=10$ lbs. The *downward* force is 15 on each hinge. Hence the first force is$+10$ lbs. and-10 lbs.

Prob. 20.—Sides 29, 29, 40, in one; in the other 37, 37, 24. Ans.

Note.—This we think has an indefinite number of answers; thus two triangles whose sides are 10, 10, 12, and 11.38, 11.38, 9.231 proves, according to Mr. Cowan; as also 58, 58, 80, and 74, 74, 48 according to Mr Gahan.

Prob. 21.—Ans. 12, 15, and 20.

PROB. 21.—A pile driver weighs $2\frac{1}{4}$ tons, and falls upon a pile with a descent of 10 feet. Required its driving force.

PROB. 22.—Required the sides of three right angled triangles, in whole numbers, such that their areas shall all be equal.

PROB. 23.—The base A B, of a triangle, is 16, and a line drawn from a point C, in the line A B, to the vertical angle D, measures 11; the diameter of the circumscribing circle is 20, and A C is to B C as A D is to B D. Hence A D and B D are required.

ANSWERS TO THE PROBLEMS FOR 1855.

Prob. 22.—Let $6=a$, $24=b$, then $\sqrt{ab}=12$ lbs. Ans.

Prob. 23.—Let $30=a$, $20=b$, $10=c$, then the side required $=2\sqrt{\left\{\frac{1}{2}\left(a^2+b^2+c^2\pm\sqrt{\{6(a^2b^2+b^2c^2+a^2c^2)-3(a^4+b^4+c^4)\}}\right)\right\}}=20\sqrt{7}=52.9150262$ rods.

The area$=\frac{1}{2}\sqrt{(3)}\left(a^2+b^2+c^2\pm\sqrt{\left\{6(a^2b^2+b^2c^2+a^2c^2)-3(a^4+b^4+c^4)\right\}}\right)=700\sqrt{(3)}$ $=(7.57772225$ acres, Ans.

Prob. 24.—Let x=the seconds, the second body had fallen when it overtakes the other; then $(x+2)^2(16\ 1\text{-}12\text{th})=x^2(16\ 1\text{-}12)+100$, whence $x=\frac{107}{193}=.5544$ of a second, Ans.

Prob. 25.—Let x=the radius of the garden, and $p=3.1416$, then $(2x^2p^3\div6)+(x^2p^3\div2=43560$ square feet.

Hence $2x$=Diameter$=82{\cdot}11796$ feet, Ans. and

xp=the rope$=128{\cdot}9908915$ Ans.

Note.—This question involves the quadrature of the involute of a circle, which we cannot explain here. We have had but one solution of this, and but two of No. 19, and we believe but one to No. 26 of the Probs.

Prob. 26.—The sag$=p(1-\cos.\ a)=26.68$ feet, Ans.

In this formula, p=the tension or pressure at the lowest point of the rope, which takes the form of the *catenary curve*, and a= the angle of inclination, of lowest point, with the fixed point. To find a, we have, Hyperbol. log. $(0.43429)(80)\div100=0.347432=a\times\log.\left(\left\{1+\sqrt{(a^2+1)}\right\}\div a\right)$, in which we find by a few trials that $a=.67$, and this corresponds to the Nat. Cot of 50° 10′.

Again $p=100\div\left(2\sin a\right),=60.24$, and $1-\cos a=.443221$. Hence $p(1-\cos a)=$ 26.68 feet, Ans.

PROB. 28.—A ladder 100 feet long, of uniform thickness, weighs 100 lbs., and bears against a vertical building at an angle of 60° to the horizon. If a person weighing 150 lbs. ascends it 40 feet, what will be the pressure at the top, and thrust at the bottom of it?

PROB. 29.—Each side of a pentagon is 20. Required its circumscribed, and largest inscribed equilateral triangle.

PROB. 30.—The sides of a pentagon are 12 each. Required the greatest and least diameter, the distances of the centre from the vertices, and from the middle of each side, and the longest and shortest chord, also the area.

ANSWERS TO THE PROBLEMS FOR 1855.

Prob. 27.—Area of a transverse section of the ring $=0{\cdot}12526953$ (nearly $= 1 \div 80$); distance of the centre of gravity of that section from the base of it $=1000 \div 24352=0{\cdot}04106$; to this add the radius of the ring $=(7 \div 20)=.35$, and we have .39106. Twice this $=.78212$, and then multiply by $3.1416=2{\cdot}4671$, and this multiplied by the sectional area $0{\cdot}12526953=0{\cdot}03084$ solid inches, Ans.

Note.—This is worked by the Centrobaryc Method, and the external surface is supposed to be *convex* of course, as all *wedding rings* are, we suppose. Most of our correspondents have worked this supposing it to have *two* flat surfaces.

Prob. 28.—Let the mean radius of the Earth $=20887680$ feet $=a$, and 5 miles $=26{,}400$ ft $=b$. 16 1-12 $=m$. Then $\sqrt{(2am)}=25920.783$, $=$ the velocity the ball must have, if discharged at the surface of the earth, with which velocity its centrifugal force just balances the centripetal. But gravity acts with *less* power above the surface, hence $25920.783\sqrt{(a \div a+b)}=25904.1936$ feet, Ans.

Note.—The velocity a body would acquire in falling $(7912+10)$ miles is that which answers our purpose. But the action of gravity at the *commencement* of motion will be less than 16 1-12th per second. It will be $=16\ 1\text{-}12(3956 \div 3961)^2 =16{\cdot}0428$—feet.

Prob. 29.—Let $4=a$, $b=2$. Then $\sqrt{\left(a^{\frac{2}{3}}+b^{\frac{2}{3}}\right)^3}=8.35864$ feet Ans.

Prob. 30.—Let 100 rods $=a$ feet, and $1=b$, then $a^2 \div b=2722500$ feet $=515\frac{5}{8}$ miles, Ans.

Note.—This question requires the rectification of the line called the involute of a circle.

Prob. 31.—Ans. 59.

Note.—This may be worked by Indeterminate Analysis, or by the least common multiple.

ANSWERS TO THE PROBLEMS FOR 1855.

Prob. 32.—Let $15=2a$, and $66825=b$, then the numbers will be

$$=a\pm\sqrt{\left\{\sqrt{\left(\frac{b}{10a}+\frac{4a^4}{5}\right)}-a^2\right\}}=\tfrac{1}{2}(15)\pm\tfrac{1}{2}(3)=9 \text{ or } 6 \text{ Ans.}$$

Prob. 33.—Let x=the required velocity. Then $(2)^4(16\ 1\text{-}12)+2x=400$. Hence $x=167\ 5\text{-}6$ths, Ans.

Prob. 34.—5 weights, if used on both scales, viz. 1, 3, 9, 27, 81 lbs. But if used in one only 7 weights, viz. 1, 2, 4, 8, 16, 32, 37 lbs. Ans.

Note.—The most general mode of solving questions of this nature, is by the ternary scale of notation.—See "Barlow's Theory of Numbers," Chap. 10.

Prob. 35.—Let x^2+y^2 be the numbers=a cube. Now let $x=rz$, and $y=sz$, then $r^2z^2+s^2z^2=x^2+y^2$=a cube. Put $(z^3\div v^3)=r^2z^2+s^2z^2$, then $z=v^3(r^2+s^2)$, $x=rv^3\ (r2+s^2)$, and $y=sv^3\ (r2+s^2)$, in which r, s, and v, are any numbers we choose to make them. If $r=2$, $s=1$, and $v=1$, then $x=10$, $y=5$, and hence $x^2=100$, $y^2=25$, Ans.

Prob. 19, of 1854. By Dennis Smith, Quebec. Given $x^6y^3-x^{12}=9728$ and $x^2y^5+x^8y^2=40320$ to find x and y. Put $y=x^2r$. Then $x^{12}r^3-x^{12}=9728$, and $x^{12}r^5+x^{12}r^2=40320$. Hence $x^{12}=9728\div(r^3-1)=40320\div(r^5+r^2)$. Therefore $9728r^2(r^3+1)-40320+(r^3-1)=0$. Hence $r=1.5$.

Then $x^{12}=9728\div(2.375)=4096$. Hence $x=2$, and $x^2r=y=6$. Ans.

Note.—This solution is the only one received, yet it is not complete, for the determination of r is not plain. Will others furnish short solutions?

Geom. Prob. 1.—Let $8=a$, $2=b$, and $3.1416=p$. Then the surface$=bp^2(a+b)=197.392$ inches Ans.

Solidity$=\frac{1}{4}\,b^2p^2(a+b)=98{\cdot}696$ cubic inches, Ans.

PROB. 44.—Suppose a man starts from London at 12 o'clock Monday noon, and travels westward with a speed that will carry him around the earth in twenty-four hours, where or in what longitude will the inhabitants first tell him that it is Tuesday noon?

PROB. 45.—If the diameter of the earth were 8,000 miles, and it were divested of all segments so as to render it a solid of 20 equal sides, it would have 12 similar and equal pyramidal mountains. What would be their height?

PROB. 46.—Required the smallest four figures which being divided by 2, 3, 4, 5, 6, 7, 8, and 9, will leave 1 each time.

ANSWERS TO THE EXAMPLES FOR 1855.

Ex. 1.—Let $39=a$, and $21=b$, and x=a side of the required square; then $x=ab\div(a+b)=$ 13 13-20ths. Ans.

Ex. 2.—Let $40=a$, and $3=b$, then the sides about the right angles$=\frac{1}{2}(\frac{1}{2}a+b)\pm\sqrt{\left\{\frac{1}{4}(\frac{1}{2}a-b)^2-\frac{1}{2}b\right\}}=15$, or 8, and hence the hypothenuse$=17$. Ans.

Ex. 3.—Let $4=a$, $8=b$, $12=c$, then the required chord $=\left(\sqrt{(4c^2-a^2)b}+a\sqrt{(4c^2-b^2)}\right)\div\frac{1}{2c}=11.676$. Ans.

Ex. 4.—Let $29=a$, $35=b$, $48=c$, then the radius required$=abc\div\sqrt{\left\{4a^2c^2-(a^2+c^2-b^2)\right\}}=24\frac{1}{6}$. Ans.

Ex. 5.—Superficial area $=\frac{1}{4}\sqrt{\left\{(a+b+c)(a+c-b)(a+b-c)(b+c-a)\right.}$, or if $2p=a+b+c$, then area$=\sqrt{\left\{p(p-a)(p-b)(p-c)\right.}$. Ans.

Ex. 6.—Let $13=a$, $20=b$, $21=c$, then the perpendicular required$=\sqrt{\left\{(a+b+c)(a+b-c)(a-b+c)(-a+b+c)\right\}}\div 2c=12$. Ans.

Ex. 7.—Let $25=a$, $51=b$, $52=c$, then the diameter required$=\sqrt{\left\{(-a+b+c)(a-b+c)(a+b-c)\right\}}\div\sqrt{(a+b+c)}=19\frac{1}{2}$ Ans.

Ex. 8.—Let $3=a$, $5=b$, and $6=c$, then diagonal required $=\sqrt{\left\{2a^2+2b^2-c^2\right\}}=4\sqrt{2}=$ 5·6568 Ans.

Note.—This question was impossible as it reads. If one diagonal be 6, then the other is as above.

PROB. 52.—Required the smallest four figures which being divided by 2, 3, 4, 5, 6, 7, 8, 9, will leave 1, 2, 3, 4, 5, 6, 7, 8.

PROB. 53.—The base of a triangular pyramid is 4, 5, and 6 feet, and altitude 12. Required the largest cube, and largest globe, that can be cut out of it, the cube being cut from the lower part, and the globe adjoining above.

PROB. 54.—The three lines drawn from the vertices of an equilateral triangle to a point within, are 10, 12, and 16. What are the sides of the triangle?

ANSWERS TO THE EXAMPLES FOR 1855.

Ex. 9.—Let $a=60$, $b=91$, and $c=161$=the two sides, the *three* being=252.

Then $\sqrt{\left\{a^2+\frac{1}{2}\left(b\pm c\sqrt{(c^2-4a^2-b^2)}\div(c^2-b^2)\right)\right\}}=100$, or 61. Ans.

Ex. 10.—Let a, b, c, be the numbers 17, 25, 28, then the distance of the point from the corners $=abc\div\sqrt{\left\{(a+b+c)(b-a+c)(a-b+c)(a+b-c)\right\}}=14\frac{1}{6}$.

Ex. 11.—Let $a=13$, $b=20$, $c=21$, $r=4$ 2-3rds, then the radius of circumscribed circle$=abc\div 2r(a+b+c)=10$ 5-6ths. Ans.

Ex. 12.—Let $109=a$, $302=2b$, then the sides required$=\frac{1}{2}\left\{b\pm\sqrt{(2a^2-b^2)}\right\}=91$ or 60. Ans.

Ex. 13.—Let $100=r$, then the sides of the octagon required$=r\sqrt{(2-\sqrt{2})}=76.536$. Ans.

Ex. 14.—Let $100=a$. The side of the pentagon required$=\frac{1}{2}a\sqrt{(10-2\sqrt{5})}=117.558$. Ans.

Ex. 15.—Let $100=a$, then the side of decagon required$=\frac{1}{2}a\left(\sqrt{(5)}-1\right)=61.8034$. Ans.

Ex. 16.—Let $100=a$. Side of triangle$=a\sqrt{3}=173.205$. Ans.

Ex. 17.—Let $60=a$, $b=15$, $c=34$ 17-30ths; then the base$=2b\sqrt{(2ac-4bc-b^2)}\div(a-2b)=43$. The sum of the other sides$=2(a-b)\sqrt{(2ac-4bc-b^2)}\div(a-2b)=129$. Their product$=2ac$, from which it is found that the sides required=68, and 61. Ans.

Ex. 18.—Let $4\sqrt{3}=a$, then the diameter of the required circle$=2\sqrt{(a\sqrt{3})}=6.928$. Ans.

Note.—In this case the vertex of the triangle is supposed to lay in the middle point of the arc. If the entire base of the semi-circle be the base of the triangle, then it $=2\sqrt{\left(\frac{a}{3}\sqrt{3}\right)}=4$. Ans.

Prob. 59.—From a cask containing 324 gallons of wine, a certain quantity is drawn, and then it is filled with water, and then the same quantity of the mixture is drawn, and so on for four times, filling up with water at every draught, when 81 gallons of pure wine was in the cask. How much wine was drawn each time?

Prob. 60.—In an isoceles triangle there are inscribed 3 circles; the radius of the largest and smallest are 16 and 9. Required the size of the triangle.

ANSWERS TO THE EXAMPLES FOR 1855.

Ex. 19.—Let $52=2a$, $104=b$, $\sqrt{(2029)}=c$, then the sides$=\frac{1}{2}b\pm\sqrt{(a^2+c^2-\frac{1}{4}b^2)}=53$ and 51. Ans.

Ex. 20.—Let $75=a$, $61=b$, $\sqrt{(3889)}=c$, then the base$=2\sqrt{\left\{\frac{1}{2}(a^2+b^2)-c^2\right\}}=56$. Ans.

Ex. 21.—Let $194=b$, $66=a$, and $200=d$, then the one side$=\sqrt{\left\{\frac{1}{m}(a^2n+mn^2)\right\}}=81.3656$, and the other $=\sqrt{\left\{\frac{1}{n}(a^2m+nm^2)\right\}}=157.4395$.

In these formulæ, $m=\frac{1}{2}b+\frac{1}{2}\sqrt{(b^2-4r^2)}$ and $n=\frac{1}{2}b-\frac{1}{2}\sqrt{(b^2-4r^2)}$, and r=the product of the segments of the base, or $r=a\left\{\sqrt{(\frac{1}{4}a^2+de)}-\frac{1}{2}a\right.$, in which $e=\sqrt{\left\{\left(\frac{1}{2}(d-b)\right)^2+b\left(\frac{1}{2}(d-b)\right)+\frac{1}{2}d\right\}}=124{\cdot}31$.

Ex. 22.—Let $12=a$, $7=r$, then the sum of the legs$=2r^2\div(2r-a)=49$, and their product$=2r^2a\div(2r-a)=588$. The legs will be expressed by $r\left\{r\pm\sqrt{(r^2-4ra+2a^2)}\right\}\div(2r-a)$,$=21$, or 28. Ans.

The hypothenuse$=2r(a-r)\div(2r-a)=35$. Ans.

Ex. 23.—Let $12=a$, then the radii of the circles required$=a(2\sqrt{3}-3)=5.568$. Ans.

Ex. 24.—Let $4=a$, then $a\left\{\frac{1}{2}(3\pm\sqrt{5})\right\}=10.472$, or 6.472. Ans.

Note.—As the question reads, it is immaterial about the base.

Ex. 25.—Let $39=a$, $b=24$, and $8:5::m:n$, then one side$=\sqrt{\left(b^2+\left(am^2\div(m^2-n^2)\pm\sqrt{\left\{a^2m^4\div(m^2-n^2)^2-a^2m^2\div(m^2-n^2)-b^2\right\}}\right)^2\right)}=40$. The other side$=40n\div m=25$ Ans.

ANSWERS TO THE EXAMPLES FOR 1855.

Ex. 26.—Let $21=a$, $30=b$, and $80°=A$, then the area $=\frac{1}{2}ab \sin A=310.214457$. Ans.

Ex. 27.—Area $=\frac{1}{2}\ 3x^{4x}=\frac{1}{4}\sqrt{2}(3x^{4x}+x^{6x})$, or $6x^{4x}=\sqrt{2}(3x^{4x}+x^{6x})$. Hence dividing by x^{4x} we get $\sqrt{2}\ (x^{2x}+3)=6$. Squaring both sides, after transposing, we get $x^{4x}=\frac{1}{2}(54-36\sqrt{2})$. Therefore $\frac{1}{2}\ 3x^{4x}=\frac{1}{2}(81-54\sqrt{2})=2.3162328$. Ans.

Ex. 28.—Let $108=a^2$, then sides will $=\frac{1}{2}a\sqrt{6}=9\sqrt{2}$; $\frac{2}{3}a\sqrt{6}=12\sqrt{2}$; and $\frac{5}{6}a\sqrt{2}=15\sqrt{2}$. Ans.

Ex. 29.—Let $10=a$, the side $=a\sqrt{(2-\sqrt{3})}=5\cdot17687064$. Ans.

Ex. 30.—Let $4140=\frac{1}{2}a$, $202=b$, $41=c$. The perpendicular falling upon $c=a\div c$; and the third side $=\sqrt{\left\{c^2+b^2\pm2\sqrt{(b^2c^2-a^2)}\right\}}=207$, or 205.234. Ans.

Note.—Mr. Sheehan has furnished a formula for this problem substantially the same as the above.

Ex. 31.—Let $25=a$, $35=b$, $31=c$, $19=d$, and x=diagonal, then $x^2=\frac{1}{2}(a^2+c^2)\pm\sqrt{\left\{b^2d^2-\frac{1}{4}(c^2-a^2)^2\right\}}=(37\cdot9)^2$; and $\frac{1}{2}\ x^2=\frac{1}{2}(37\cdot9)^2=718\cdot205$ area required. Ans.

Ex. 32.—Let $20.2825=a$, and $3x$=perp. and $4x$=the base, then $5x$=hypoth., and $2x$=diameter of inscribed circle. Then $\frac{12}{7}x$=side of inscribed square. Hence $x^2\times3.1416-\left(\frac{12x}{7}\right)^2=a$, and $x=\sqrt{\left\{a\div(3.1416-144\div49)\right\}}=10$. Hence $3x=30$, $4x=40$, $5x=50$. Ans.

Ex. 33.—The area enclosed by the circumferences of the two circles is intended to be understood. Ans. 12115.06, the two small segments being=765.5.

Can some one give us a literal formula for this?

ANSWERS TO THE EXAMPLES FOR 1855.

Ex 34.—Let $100=a$, $65=b$, $55=c$, then one line$=\frac{2}{6}\sqrt{(2b^2+2c^2-a^2)}=22.3606797$; another $=\frac{2}{6}\sqrt{(2a^2+2b^2-c^2)}=53.15$; and the other$=\frac{2}{6}\sqrt{(2a^2+2c^2-b^2)}=49.244$. Ans.

Ex. 35.—Let $50=a$, $1560=\frac{1}{2}b$, base$=x$, then $x^3+\frac{1}{2}ax^2=b^2\div 2a$; from which $x=39$, and perp. $=80$. Ans.

Will some one give us a simpler formula?

Ex. 36.—Let $100=a$, $109=b$, $c=50$, then the base$=(ab-c^2)(a+b)\div(ab+c^2)=131$ 1-67th. Ans.

Ex. 37.—Let $100=a$, diameter$=7912=2r$, then he can see $a\div 2(r+a)=25\div 2028$ of the surface. Ans.

Ex. 38.—Let $95=a$, $98=b$, $100=c$, $x=$base. Then $x=2a^2b\sqrt{c}\div\sqrt{(2a^4b^2c^2+2a^2b^2c^4+2a^2b^4c^2-2a^4c^4-b^4c^4)}=115.99519$. Ans.

Ex. 39.—Let $100=a^2$, then one leg$=a\sqrt{\left(\sqrt{(2\sqrt{5}-2)}\right)}=12{\cdot}5392$; the other$=a\sqrt{\left(\sqrt{(2\sqrt{5}-2)}\right)}=15.9498$. Ans.

Ex. 40.—Let $2=a$, $3=b$, $5=c$, then the perpendicular$=(a+b+c)=10$; the side$=\frac{2}{3}\sqrt{3}(a+b+c)=11.547$. Ans.

Area$=\frac{1}{3}\sqrt{3}\,(a+b+c)^2=\frac{1}{3}(100\sqrt{3})=57.735$. Ans.

Ex. 41.—35.80737, 47.40728, and 59.41143. Ans.

Note.—Will some one find a set of formulæ for this?

Ex. 42.—One leg$=2\sqrt{(4a^2-b^2)}\div\sqrt{15}$, the other$=2\sqrt{(4b^2-a^2)}\div\sqrt{15}$, and hypothenuse $=\frac{2}{5}\sqrt{(5a^2+5b^2)}$

Ex. 43.—Let $a=18$, $b=17$, and $6:5::m:n$; then one side$=m\sqrt{(a^2-b^2)}\div\sqrt{(m^2-n^2)}=30$; the other side$=n\sqrt{(a^2-b^2)}\div\sqrt{(m^2-n^2)}=25$. Ans.

PROB. 81.—What is the 5th root of $32x^5 - 30x^4 + 80x^3 - 40x^2 + 10x - 1$?

PROB. 82.—If the measure of Problem 88 be emptied so as to let 3 inches of the bottom appear, what will be the convex surface and solidity of the empty and filled space?

PROB. 83.—If the measure of Problem 88 be emptied so as to show 4 inches of the bottom, what will be the solidity and *entire* surface of the filled and empty space, and the distance around the edge of the water?

PROB. 84.—Required the surface and solidity of a solid bounded by four equilateral triangles, each side being six feet.

ANSWERS TO THE EXAMPLES FOR 1855.

Ex. 44.—Let $29=a$, 10 and 10-41ths$=b$; then the sides required$=\frac{1}{2}\left\{b\pm\sqrt{(a^2+b^2)}\pm \text{ or } \mp \sqrt{\left\{\frac{1}{4}a^2-\frac{1}{2}b^2\mp\frac{1}{2}b\sqrt{(a^2+b^2)}\right\}}\right\}=21$ or 20. Ans.

Ex. 45.— $x=4.016698$; $y=2.825716$. Ans.

Ex. 46.—Let $10=a$, then the diameter$=$1-5th $a\sqrt{(50+10\sqrt{5})}=17.013$. Ans.

Ex. 47.—Let $17=2a$, then $8\frac{1}{2}=a$; and diameter of circle$=3.28976=b$. Then $4ax^2-bx^3=4ab^2$, in which the base$=x=4.27612$. The other sides$=8.19412$ each, and the angles$=30°32'$, and $74°44'$, and $74°44'$. Ans.

Note.—We think the question will allow of several answers.

Ex. 48.—Let $20=a$, $97=b$, then the legs will$=a+\frac{1}{2}b\pm$ or $\mp\frac{1}{2}\sqrt{(b^2-4ab-4a^2)}=72$ or 65. Ans.

Ex. 49.—Let $4\sqrt{3}=a$, then the side of the required inscribed triangle$=\frac{1}{2}a\sqrt{3}=6$, and of the circumscribed$=a\sqrt{3}=12$. Ans.

Ex. 50.—Let $137=a$, $111=b$, $124=c$, then the radius required$=\frac{1}{2}\sqrt{\left\{\left((b+c-a)(a-b+c)(a+b-c)\right)\div(a+b+c)\right\}}=35$. Ans.

Ex. 51.—Let $8=a$, $6=b$, $7=c$, $x=$radius required; then $x^3+x^2\left(\frac{ab}{2c}+\frac{ac}{2b}+\frac{bc}{2a}\right)=\frac{1}{2}abc$, from which we find $x=3.443963$. The sides are 11.01, 12.13644, and 13.31718. Ans.

Note.—Will some one favor us with full formulæ for this problem?

Ex. 52.—Let $29=a$, $b=\sqrt{29(2\sqrt{2}-3)}$, and $x=$one of the lines, and $y=$the other, then $x=\frac{1}{2}b\pm\sqrt{\left\{(a^2-b^2)\div(2+\sqrt{2})+\frac{1}{4}b2\right\}}$ and $y=\sqrt{\left\{(a^2-b^2)\div(2+\sqrt{2})+\frac{1}{4}b^2\right\}}-\frac{1}{2}b$.

Now put $m=x$, and $n=y$, then radius of circle$=\sqrt{\left\{m^2-(a^2+m^2-n^2)\div4a^2\right\}}=6$, from whence the sides are easily determined. They are 21 and 20. Ans.

PROB. 88.—The diameter at the top of a round tin-measure is 4 inches and at the bottom 10 inches; its height is 4 inches. If it be filled with water, and then it be poured out until the bottom appears, what will be the convex surface and solidity of the water left in, and of the empty space.

PROB. 89.—Required the surface and solidity of a solid bounded by eight equilateral triangles each side of which is 8 feet.

ABSTRACT OF METEOROLOGICAL OBSERVATIONS,

MADE AT THE

Magnetical Observatory Toronto, Canada West,

FROM 1840 TO 1855 INCLUSIVE.

Calculated and arranged from the original observations and private memoranda, by Serj. JAMES WALKER, Royal Artillery.

PROVINCIAL OBSERVATORY TORONTO.

Latitude, 43°. 39′.4 North. Longitude, 79°. 21′. 5. West, or 5 hours, 17 minutes, 26 seconds Slow of Greenwich Time. Elevation above Lake Ontario, 108 feet. Approximate Elevation above the Sea, 342 feet.

The Provincial Observatory is now attached to the University of Toronto, and is in the charge of Prof. KINGSTON, and three Assistants.

TABLE OF SEMI-DIURNAL ARCS,

Calculated for the Principal Places in British North America.

ANSWERS TO THE EXAMPLES FOR 1855.

(*Concluded from page* 29.)

Ex. 53.—Let $245=b$, $120=p$, and $343=s$, x=difference of sides; then $x=b\sqrt{\left\{(s^2-b^2-4p^2)\div(s^2-b^2)\right\}}=5$. The sides are $\frac{1}{2}s\pm\frac{1}{2}b\sqrt{\left\{(s^2-b^2-4p^2(\div)s^2-b^2)\right\}}=169$, or 174. Ans.

Ex. 54.—Let $2\sqrt{5}=\frac{1}{2}a$, then the side of required square=1-5th $a\sqrt{5}=4$. Ans.

Ex. 55.—Let $72=a$, and perimeter$=360=p$. (The number 258 was wrong.) The sides$=\frac{1}{2}p(a+\frac{1}{2}p)\div(a+p)\pm$ or $\mp\frac{1}{2}p\sqrt{\left\{(a-\frac{1}{2}p)^2-2a^2\right\}}\div(a+p)=120$ or 90. Ans.

Sum of the legs$=p(a-\frac{1}{2}p)\div(a+p)=210$. Hypothenuse$=\frac{1}{2}p^2\div(a+p)=150$. An.

Ex. 56.—Let $9=a$, $12=b$, $15=c$, and x, y, and z, the required sides.

Then $x=\frac{2}{3}\sqrt{(2b^2+2c^2-a^2)}=17.088$. Ans.

$y=\frac{2}{3}\sqrt{(2a^2+2c^2-b^2)}=14.422$. Ans.

$z=\frac{2}{3}\sqrt{(2a^2+2b^2-c^2)}=10$. Ans.

Ex. 57.—Let $24=p$, $25=b$, $40=c$, $x=\frac{1}{2}$ base, then base$=2x=2\sqrt{(qn^2-nq^2+qp^2)}\div\sqrt{(n-q)}=200\sqrt{14}\div7=106.903$. Ans.

In this $n=\sqrt{(c^2-p^2)}=32$, and $q=\sqrt{(c^2-p^2)}-\sqrt{(b^2-p^2)}=25$.

Another side$=\sqrt{\left\{(n+x)^2+p^2\right\}}=88.756$. Ans.

A third side$=\sqrt{\left\{(x-n)^2+p^2\right\}}=32.188$. Ans.

Ex. 58.—Let $a=6$, $b=4$, $c=5$, $d=3$, and r=radius; then $\frac{1}{4}\sqrt{\left\{(ab+cd)(ac+bd)(ad+bc)\right\}}\div\sqrt{\left\{(s-a)(s-b)(s-c)(s-d)\right\}}=1\text{-}40\text{th}\sqrt{(17290)}=3.2875$. Ans.

$s=\frac{1}{2}(a+b+c+d)=9$.

Ex. 59.—Let $10=a$, $20=b$, $30=c$, $x=\frac{1}{2}$ side, then the side$=2x=\sqrt{\left(2(a^2+b^2+c^2)-2\sqrt{\left\{6(a^2b^2+b^2c^2+c^2a^2)-3(a^4+b^4+c^4)\right\}}\right)}=20\sqrt{7}=52.9150262$. Ans.

Note.—If the given point had been *within*, the + sign should have been used before the radical.

REMARK.—Owing to the difficulty of putting mathematical formulæ in type, no doubt there will be obscurities and errors in the foregoing pages, but we trust due allowance will be made for such. Any errors we have pointed out to us we shall be thankful for. There is not another set of so extensive and useful formulæ published in the English language, that we are aware of, and we trust they may be acceptable to our friends. We have received a few problems for 1856 (but too late for insertion), which will appear next year. We request correspondents to *generalize* their solutions for 1856, as far as possible, by using or making literal formulæ, the answers then serve for all similar problems.

THE FUTURE OF WESTERN CANADA.

You are perhaps an Immigrant from Europe, and have landed on the shores of Lake Ontario with a view to establish for yourself a new and permanent Canadian home. Like tens of thousands who seek and reach the banks of the St. Lawrence, or the region of the Great Lakes, you have no distinct idea of the country, its productions, its inhabitants, or its scenery. You are anxious to acquire some information which will enable you to shape an opinion as to the spot best adapted to meet your views and circumstances. If you could enjoy a birds-eye view of the country, and grasp distinctly many of its leading physical features, it would, doubtless, assist you in making choice of a suitable spot for a future home; although you would be wise enough, perhaps, not to be led by actual appearances altogether, but would resolve, after the first favourable impression had been produced, to discover whether the social and even political tendencies of the inhabitants were such as you could sympathize with and enjoy.

Place a map of Canada and of the Northern States of the Union before you, and accept me for a guide; if what you see and hear does not please or convince, you will only have to regret the loss of an hour's attention, which the most industrious can generally find time to spare.

We will select Toronto, the capital of Western Canada, as our starting point; and proceeding nearly due north by the Northern Railway, we shall arrive in three-and-a-half hours at Collingwood Harbour, in Georgian Bay, a part of Lake Huron. To our left are the Blue Mountains: let us ascend them until we attain an altitude of nearly 1,000 feet above Lake Huron, in the township of Euphrasia, and some ten miles from Collingwood Harbour. You are now standing on the highest land in that part of Western Canada which lies to the south of the distant, rugged, northern shores of Lake Huron. Our view is still circumscribed, and exhibits no other features beyond a blue expanse of water far to the north, and forest, forest, forest, all around us. From this elevated and central spot, however, we may contemplate with our mind's eye the whole expanse of Western Canada, and see throughout the short future of the next ten years to come, the wonderful changes which will have been worked out in the vast region at our feet. But where are the boundaries of Western Canada? where the mineral region? where the famed agricultural region? and where the exhaustless timber region?

The boundary line of Upper Canada runs through the centre of all the great lakes and their junction rivers; so that starting from Pigeon River on Lake Superior, near its most westerly extremity, you may, with a steamboat, follow for more than a thousand miles, the imaginary line which separates Western Canada from the United States. Let us trace out this immense water communication and see how it invests the country on all sides. From Pigeon River, 1,900 miles from the Gulf of St. Lawrence, and 600 feet above the sea, we steam across Lake Superior, and reach the Sault Ste. Marie Canal, descend 17 feet through locks 70 feet broad and 350 feet long, pass on into Lake Huron and through the River St. Clair, Lake St. Clair and Detroit River, thus sweeping round the southern extremity of the great peninsula of Western Canada. On then through Lake Erie to the mouth of the Welland Canal; here we descend 350 feet through 27 locks, each 150 feet by 26½ feet, to the deep waters of Lake Ontario; then through the exquisite scenery of the thousand islands, until we arrive at the St. Lawrence Canals, through which we pass by means of 19 locks 200 feet long by 45 feet broad, letting us slowly down upwards of 150 feet to the level of the Ottawa, where it joins the mighty St. Lawrence. We have now reached the utmost eastern boundary of Western Canada, and must steam up the great river of the north, (Ottawa,) overcoming its rapids by means of locks, until we reach the City of Ottawa; and thus, without changing our steamer, we have traversed in the direction of two sides of a triangle, at least two-thirds of the boundary of Western Canada. But we may still progress up the noble north-eastern boundary, in steamer or canoe, until we reach Lake Tamiscamang. Here we have arrived at the height of land which separates the waters flowing into the Gulf of St. Lawrence from those which reach the Hudson's Bay. From Lake Tamiscamang to Pigeon River, an imaginary curved line, following pretty accurately the direction of the shores of Lakes Huron and Superior, forms the last link of the boundary of Western Canada. This vast region occupies an area of about 147,000 square miles, and extends over sixteen degrees of longitude and eight degrees of latitude.

We are now in latitude 44° 30′; and if we trace the continuation of this parallel through Western Canada we shall find to the south of it lying the great agricultural region, distinguished in a remarkable manner for the fertility of its soil, and the adaptation of its climate to the purposes of husbandry. Is there any reason for this arbitary division you will ask. Yes, a great geological reason to account for its fertility, and a great climatological reason to account for its adaptation to vegetable growth.

1. The parallel of latitude before named, marks the northern limit of the sedimentary rocks in Western Canada; rocks which have been deposited at the bottom of ancient seas, and have in great part retained their flat surfaces undisturbed. Upon the level groundwork of these rocks have accumulated vast deposits of drift clays, which have been produced by the grinding up and slow decay of the granite rocks north of this parallel (44° 30′). The sedimentary rocks themselves consist of limestone and shale, giving rise after disintegration and decay, to abundance of those necessary components of soil which plants require for their nourishment and support.

2. The 44th parallel of latitude cuts off a peninsula portion from Western Canada, and you may extend the term peninsula to that entire part south of the parallel where we now stand. If we trace the 44th parallel through Europe, we shall find that it intersects the south of France and Tuscany, countries rich in olives, the cereals and the grape. The most southern portion of Western Canada is touched by the 42nd parallel, which, when continued through Europe, is found to intersect the northern part of Spain and the Roman States. Those vast inland seas, Huron, Erie, and Ontario, which almost encircle the peninsula portion of Western Canada, soften summer heat, temper winter cold, and preserve a moist atmosphere in which vegetables luxuriate. The adaptation of these conditions to secure the excellence we claim for Western Canada as an agricultural country, you will shortly better appreciate when we have completed our external survey, and travel southwards through the interior of the country.

North of the 44° 30′ parallel is a mixed mineral and timber region, where are millions of acres in the valleys of the tributaries of the Ottawa and the rivers flowing into Lake Huron, capable of yielding a rich harvest of lumber for a century to come. Now draw an imaginary air line from where we stand on the Blue Mountains, to the county of Essex, the most westerly portion of Western Canada. Let this line revolve about ourselves as a pivot, first to the left, until its extremity rests near Kingston, and then back again to the right, until it rests near the Bruce Mines. You see you have swept over nearly the whole of the agricultural region of Western Canada, with the exception of the Valley of the Ottawa before mentioned, occupying about 10,000 square miles. Now from the Bruce Mines, let your imaginary air line sweep over the country towards the north and east, until it again rests its extremity near Kingston. You have traversed the mixed mineral and lumber region; and beyond the Bruce Mines, all along the northern shore of Lake Huron and the northern shore of Lake Superior lies the great mineral region.

If we had leisure we might pause to reason upon the extraordinary difference which may arise in course of time, between the characters and social position of the future inhabitants of these diverse regions, but that is a speculation which coming events render difficult indeed.

We have now examined and traced out the boundaries of our country, let us proceed to establish our relationship to neighbouring States and Provinces which may influence our industrial or social position. North-east lies Eastern Canada, north-west the trackless regions of the Hudson's Bay Company's territories. Every other part of Western Canada is surrounded by the several States of the American Union. In order, proceeding from east to west, these are New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin and Minnesota. We lie like a wedge between them—New York, Pennsylvania and Ohio on one side, Michigan and Wisconsin on the other—our communication by water complete with all that have been mentioned, and with the ocean, without obstruction, by means of the St. Lawrence; or by numerous railroads and canals with the Atlantic seaboard. And herein lies our strength and the hopes of our future. Set aside the advantages of *position* in relation to the neighbouring States of the Union and the ocean, and the progress of this country would be like the slow, yet steady flow of the rivers which

glide to the south, compared with the tumultuous rush of those we see hurrying on to the north and west. And what use have we yet made of this great advantage of position? little indeed as yet; but the beginning has been auspiciously entered on, and this advantage will suddenly and convulsively increase to results which at the first glance appear too astonishing and overwhelming for belief. To our east lies a vast consuming country, incapable of satiety; from its circumstances incapable of supplying its own wants; and from a spirit, nay, a necessity of accumulation, always seeking, and instantly absorbing whatever we have to offer. To our south and west, and north-west, lies an equally vast producing country, capable of indefinite extension; and from a spirit of restless activity, and an unquenchable thirst for gain, always producing and setting in motion the accumulations of its industry to supply the necessities of the east, and receiving, as we do, in return, the varied results of mechanical skill. We lie between these extremes; the nearer they are brought to one another the greater gain to both, and the greater stimulant to both to pursue their incessant interchange of rude industry on the one hand and capital and skill on the other. We know how astonishingly the influence of rapid and uninterupted communication between distant centres of industry is developing itself around us; to whatever country we look, examples without number start up before us in testimony of the life and vigour which is infused as soon as rapidity and perfect freedom of communication is established. Besides this great advantage of position, we have immediate and uncontrolled communication with the sea, the highway of nations. When the east or the west fails us, or are temporarily incapable of relieving us of surplus productions, we can always find ourselves in a better position than our western neighbour, because we are nearer to the markets abroad. And lastly, may we not look upon resources within ourselves? Have we not the power of increasing tenfold the products of our mines, our forests, and our farms.

The relation of our country to the North-Western and Western States of the Union is most remarkable; and in order to understand this important question in its wide extent, you must familiarize yourself with a few general truths which a little quiet reflection will render almost self-evident. What has led to the construction of the Sault Ste. Marie Canal. You will answer, the great mining region of Lake Superior—copper in inexhaustable abundance, and iron distributed in mountain masses, not only on the shores of that cold fresh-water sea, but profusely scattered throughout northern Michigan and Wisconsin! Think you that the vast demand for iron in the new North-western States will allow those rich mines of metal to remain idle. Will it be cheaper to bring the coal of Ohio and Illinois to Chicago, Milwaukee, Superior City, or take the ore to the Eastern States, smelt it, manufacture it, and then send it back again to the far west. No—the region of the great lakes will manufacture its own railroad iron as soon as speedy and cheap means of communication are opened out and maintained. From Chicago or Milwaukee to the mining region of Lake Superior, a railroad is now contemplated, and a few months on this continent will teach you that to "contemplate" in such matters signifies "to construct." From Milwaukee to Copper-range is about 350 miles, part of the line runs through the richest iron region; and when all things are dependant upon iron, the south shore of Lake Superior must soon find that population and industry for which it is so remarkably adapted; and then follows the north, the great mineral region of Western Canada. But look beyond the lakes —see Iowa, Minnesota, Wisconsin and Illinois, what are they to do with their surplus grain? It must all seek the lake ports. It must be stored where there is no prospect of growth and fermentation taking place. The damp and warm voyage over the heated waters of the Gulf stream is impracticable. The Mississippi and its affluent the Missouri, are useless in great part as avenues for the exportation of the wheat of the west. This has led to that wonderful star-work of railways which radiates from Chicago—for, as a general rule, *all* traffic follows the direction of a *leading* traffic. Extending into the rich prairies of Illinois, Indiana, Iowa and Wisconsin, not less than thirteen different railways radiate from Chicago, a city which has sprung up as it were in a night; in 1840 it had 4,479 inhabitants, it now embraces 85,000 souls, an increase absolutely without parallel on this continent, and yet a true reflection of the commerce, industry and activity of the west. In like proportion, railways from Milwaukee and from Green Bay ramify into the interior. The same argument applies to the lake ports of Huron, St. Clair, and Erie, resulting in the general proposition, that the region of the Great Lake draws to itself a mighty traffic which naturally belongs to other water sheds. Once on the lakes whither do these accumulations tend? You will answer to the seaboard, for home consumption, or for exportation to Great Britain, Ireland, or the West India Islands. But in seeking the sea-board they have to find the easiest and speediest route in their descent to the sea level. In Lake Superior, Lake Michigan, and northern parts of Lake Huron, every cargo of western produce is 570 feet above the sea. It must be let down step by step until it reaches this universal level. This may be effected by a short, safe and rapid step, nearly in a straight line, or it may be effected by a circuitous route, and by a long and often precarious descent. No one doubts that the more rapid and safe the communication between east and west, the more sudden and elastic will be the ebb and flow of that mighty commercial stream whose course, if wisely, though ever so gently directed in the first instance, will soon carry away every obstruction and impediment to its perfect freedom. Now look at Western Canada, and see the barrier which this wedge-shaped country introduces between the east and west; happily it is only a physical barrier; formerly it was also a political and commercial one. As a physical barrier what has high art and generous enterprize done to bring nearer to one another the fruitful west and the insatiable east. We have now in active operation the Great Western, (Lake Huron and Lake Ontario at Hamilton; and State of New York at Suspension Bridge, 220 miles,) the Northern Railway (Lake Huron and Lake Ontario 96 miles,) traversing the barrier; and the Welland Canal, (Lake Erie and Ontario,) letting down the produce of the west to the level of Lake Ontario, without breaking bulk. Are these means of communication taxed to the full; the Welland Canal thronged to the utmost, answers for itself; the Great Western Railway for half its length as a mere preliminary step, has to be immediately doubled in capacity by means of a new branch from London to Sarnia, with double track from London to Hamilton; the Northern, which a year ago was thought to be a weak and exotic fledgling, has already taken wing with a power and vigour indicative of great inherent strength; the Lake Huron and Buffalo Railway, the Anglican name for the late Buffalo, Brantford and Goderich Railway (Lake Erie to Lake Huron 157 miles, 82 now open,) will be finished in a twelvemonth; the Grand Trunk which stretches its long length through the centre of the most fertile part of Western Canada, and thence onward to the sea, will soon unite the upper lakes with the Atlantic; and yet all these connecting links between the west and east will be insufficient to serve that vast commercial expansion which treads so rapidly upon, and fills to repletion the present artificial means of communication. There are additional stupenduous works in "contemplation." First, a ship canal connecting Georgian Bay, the northern part of Lake Huron, with Lake Ontario at Toronto. Second, a ship canal connecting the head of Lake Huron by the route of Lake Nippissing, with the Ottawa, and thence with the sea or Lake Ontario. Third, the Great Southern Railway, establishing a third line of communication between the head of Lake Erie and the Niagara River. You may well smile at the interpretation given to the word "contemplate" with us, yet think that all the railways just named were only "contemplated" some three or four years ago, and now they may be said to be constructed. So in five years to come you will find that vast change to have occurred in relation to these new projects, which the wonderful growth of the Great West is now forcing upon our attention. Whatever each succeeding year is doing for the Great West it is doing for Canada. It is not only increasing population by the influx of strangers, to a degree totally unparalleled, but opening out new fields of enterprise, and establishing new centres of industry, where five years before existed desolate and uninhabited wilds. Every mine opened on the south shore of Lake Superior, benefits us on account of our geographical position; and whatever may be said of the prospective wealth and importance of that extensive mineral region of our neighbour's may be said with equal confidence of our own. So with respect to every additional acre cultivated in Iowa or Minnesota; it adds its mite to the traffic which is filling to excess every avenue of communication we have opened between the west and east; and our future difficulty will be to keep pace with the increase of those accumulations which will seek to be set in motion from the commercial centres of the north-western lakes. It will be well to examine in as brief a manner as possible, the present ascertained commerce of the lakes, in order to see if our ex-

pectations of the future are likely to be borne out by fact. In 1851, Mr. Andrews (Report to United States Government,) estimated the value of the commerce of the great lakes to be about £80,000,000. We are now at the close of the year 1855, very nearly four years have elapsed since Mr. Andrews made his calculation and report, and during that short space of time £30,000,000 have been added to the value of lake commerce; or in other words, at the present moment the commerce of the great lakes is estimated at one hundred and ten millions currency. The imports and exports of this region by the River St. Lawrence alone, exceeded in 1853 £8,000,000, and they were exclusively Canadian. There is much of promise in this for the future, much to induce us to be up and stirring, in order to secure our position and render it immovable.

The construction of railways, the increase of population, the high price of grain, and the removal of fiscal regulations, have effected, during the past two years, so startling a change in the prospects for the future of this country, that it has become a matter of difficulty to select an appropriate subject for the purpose of illustrating the curious effects of our progress, effects which we all feel and see around us for the time being, but are not much in the habit of searching for five or ten years ahead, and of their probable influence then. Take the item, fire-wood. The number of families in Western Canada, reckoning five persons to a family, is about 250,000. Each family consumes for fire-wood, or destroys in the process of clearing, at the lowest average twenty cords of wood per annum. In other words, 5,000,000 cords of wood are annually annihilated by this means alone. The consumption of our railroads at the close of the present year will be about 200,000 cords; steam boats consume at least an equal amount; so that the total quantity is 5,400,000 cords, which at sixty cords per acre is equal to the growth of 90,000 acres. In 1851-2, the area of wooded and wild land surveyed and held was 6,123,132 acres; and we may with justice assume, that notwithstanding the annual additions to the surveyed lands, yet the *accessible* portion of our wooded land at present does not exceed 5,000,000 acres, or enough to last for fire-wood purposes not longer than twenty-five years, making due allowance for increase of population, and consumption in various ways. Will this consumption take place? Certainly not; rise in price will check it; the more valuable woods will gradually be preserved for exportation and manufacturing purposes. The Paris exhibition, in which we have so signally distinguished ourselves as a practical, common-sense people, will secure this new field of industry for us. What then is to be the substitute? Coal, the coal of Ohio and Pennsylvania; perhaps as years roll on the coal of Illinois; it may be too that the coal of Michigan will yet be found serviceable. The future commerce in coal is an easy problem. The great west, though possessing boundless prairies and mines, has but little timber, and many of the coal-fields are imaginary. Not less than three-fourths of the so-called coal-fields of Dr. Owen will have to be swept from the map. She must look to the East, to the Lake region, for her fuel for most purposes. Chicago now requires for 1855, 80,000 tons, Milwaukee 30,000, Toronto 17,000 tons; and in short the great lakes generally, including the towns on their coasts and the steamers on their waters, no less an amount than 700,000 tons? What will be the requirement in 1860? What in 1865?

Again, take the item iron. Our railways are groaning under their incessant burdens; but iron, strong as it is, cannot endure for ever; and you may safely say that the average period of the durability of the iron of a railroad does not exceed five years. This is an ascertained fact, and a most important one; it amounts to this—that before 1860 all the railways in North America will require on an average to renew their iron tracks? Where is the iron to come from? Can Europe supply her own increasing want and ours besides; or will not rather enterprise and necessity open out that vast mineral region of Superior, and give our own manufacturers iron within the borders of the great Lakes? In 1851 the United States imported 188,626 tons of iron, of an agregate value of $4,900,000, and at a cost of $26 per ton. In 1854 the same country imported 282,866 tons, having a value of $12,020,000, and, including duty, at a cost of $49 49c. per ton, or not far short of double the price in 1851.

I have selected two items, coal and iron, because they are at the foundation of all modern enterprise; they constitute in themselves the crude yet mighty means by which the United Kingdom has reached its incalculable wealth and gigantic power. They are equally the means by which the United States of America and the Canadas have arrived at their present position, and on which they found their hopes for future greatness. Of what value would the richest prairies loaded with grain be, if means of export were closed? Of what value is that prostrate pine, which lies in huge magnificence at our feet, as long as there exists no hope of conveying it where it may be made to serve some useful purpose. It will rot where the storm has laid it, and so will thousands around us until means of communication are opened out; then they become of value, and the nearer they are to market the greater their worth. It has pleased Providence to withhold one of these mighty engines of enterprise and wealth from us. Coal no doubt once existed in vast abundance in Western Canada, but it has long since been swept away, and the outlying patches in the United States just touch our borders. But in our deprivation we find another strong necessity for extending our means of communication, to supply not only ourselves but the ports and cities of Lake Ontario Valley. A very large portion of our mineral region is covered with trees which are not fit for commercial purposes, but may be converted into charcoal with the greatest advantage, and thus meet in some degree, as far as iron and copper is concerned, the want of coal. All the excellent Swedish iron is smelted by means of charcoal, and as soon as means of communication render our mineral region commercially accessible, charcoal can be manufactured at one-fourth of the price it obtains in Europe. The Huron, Lake Nippissing and Ottawa Canal, will change that dreary wilderness into a bustling centre of industry.

Now imagine, for the sake of grasping this subject more easily, that a ship canal between Lake Huron and Lake Ontario were constructed; that it were capable of letting down the produce of Lake Huron some 350 feet into Lake Ontario, in propellors or screws, carrying at least 1,000 tons. The length of the canal would be about 100 miles, and it would save in actual distance alone not less than 300 miles. It would become one of the great highways for merchandize of every description going to the East, and from the East going to the West. Its extremities would be converted into depots of coal to supply the steamers running to and from Oswego, Rochester, and Ogdensburg, being on the line of traffic, and the nearest points to the mines of Ohio, from which they must derive their supplies. Chicago, which in 1854 shipped nearly 13,000,000 bushels of wheat, would send every grain by that short route to Oswego and the St. Lawrence ports. But if Chicago shipped 13,000,000 in 1854, what will she do in 1860; and what will the other ports of Lake Michigan, emulating her in enterprize and courage, send to swell the traffic which must cross the great barrier of Western Canada, to find the cheapest route by way of Oswego and the St. Lawrence, to the most profitable markets in the East, and beyond the seas? Whatever argument applies to exports, holds good with imports; an equal tide of traffic will return by the same route for Lake Michigan and Lake Huron Ports; in a word for the great North West. The rush for land is even greater in the Western States than in Western Canada. In 1854 the United States government sold the enormous area of 3,276,000 acres in Iowa alone, at an average price of $1 24 cents the acre. In Missouri, 2,896,000 acres were sold during the same period, at an average price of 43 cents per acre. The total amount of land sold in the United States and its territories during 1854 amounted to 14,869,368 acres, payment being made in cash, the receipts being $105,49,000. It is a most fortunate circumstance for Western Canada, that her form is that of a wedge, penetrating among the Southern States of the Lake region. That single geographical condition secures to her a large share of the traffic between these States and the East, as already exemplified on the Great Western railway; thus leaving for Central Western Canada and the Ottawa Valley the commerce of Lake Michigan ports led directly into Lake Ontario. This subject might be greatly amplified, and with advantage, but time warns us to limit these encouraging speculations, and to turn our attention to the internal condition and prospects of the country we are surveying.

A new state of affairs has arisen in Western Canada during the past two years. High prices have had a marvellous effect, and one which is not without hazard to the farmer, whose industry lies at some distance from the leading lines of traffic. As an illustration we may take Toronto markets, and trace the effects of high prices among many of the smaller farmers of that neighbourhood. The illustration will hold good for every other town and village in the country.

It is necessary to remind you that the majority of the

farmers of Canada have once belonged to the class either of labouring men, or mechanics. They have purchased their farms, probably as wild land, at a time when land could be obtaned from 10s. to 20s. per acre. The gradual settlement of the country, added to the results of their own labour, has placed them not only in an independent position, but often made them comparatively wealthy men. How have they expended their wealth? First, in surrounding themselves with comforts; secondly, in purchasing fresh farms (wild land) for their children or themselves. Generally they have retained the primitive method of simply accumulating dollar by dollar the necessary funds, and retaining it in their own homes until a favorable opportunity for expending it occurred. This hoarding process, though very general, has not until lately exhibited any evil effects, because the accumulations were slowly made, small in amount and limited in number. But during the past two years, high prices have enabled farmers to accumulate rapidly and to a large amount. As heretofore, their gains have been expended in the purchase of wild land, and the price of land has risen enormously. Suppose that in one day the farmers about Toronto receive in cash £2,000 for the wheat they bring to market: this sum with a very small deduction disappears at once from circulation; so on day by day until the recipients have accumulated sufficient to make fresh purchases of land, probably in some remote township. Payments are generally made by instalments; and under the prospect of continued high prices, the temptation to secure "lots" of land is irresistable. Not only is a very large sum of money thus withdrawn from circulation, producing a pressure upon commercial transactions, but tens of thousands render themselves liable for payments which the bare occurrence of a decline in the price of wheat to a dollar the bushel would make it difficult, perhaps impossible, for them to meet. It is easy to see how this condition of affairs would react upon the small storekeepers throughout the country, and ultimately upon the merchants. Again it may be observed that during the past two years the value of every kind of farming produce has risen in the same proportion as products adapted for exportation, and must so continue until our great lines of traffic are completed through the great barrier. When these are in active operation, it is possible but not very probable that a reduction may take place. The great increase of population in the Atlantic States, the remarkable falling off in their capabilities to supply themselves, and "reciprocity," will most probably operate in maintaining present remunerative prices for all articles not dependent upon foreign demands. We possess a strong sprit of nationality which keeps us within our own borders. The American, so called, cares not whether he makes his home in Ohio or in Minnesota, in Indiana or in Iowa; he is still in the Union, and knows no home tie sufficiently strong to overcome the desire for gain to be won by moving a thousand miles to the West. Our farmers, it is true, are continually selling out and going deeper into the bush, but this is a process which must gradually exhaust itself, as far as the agricultural region is concerned. They remain, however, in Canada ultimately, as permanent settlers, and become, under the instruction of a continual stream of practical farmers and labourers from the old contry, excellent husbandmen. The importance of this feeling of Nationality is liable to be overlooked; it is essentially valuable as conducive to the improvement of the soil and the prevalence of good husbandry. An American of the great producing Western States, rapidly exhausts his farm by repeated croppings, sells out, and seeks new land; a general rise in price, owing to increase of population, settlement, railroads, &c., amply remunerating him for his "improvements." This goes on continually, and the march of the pioneer farmer is always westward. The result is, that the average amount of crops raised in the older states has been continually diminishing for years past; and those which are considered the most advantageously situated with regard to soil, climate, and means of communication, such as Ohio for instance, are positively behind Western Canada in average production. We are continually increasing our averages and improving our farms; ameliorating rather than deteriorating the condition of the soil, because we are a comparatively stationary people. In the States of the Union, the contrary decidedly prevails. We shall soon exceed in absolute production any single state of the American Union, as we now exceed them in relative production. We possess many singular advantages as an agricultural country which are not generally enjoyed by our neighbours. Exactly crossing the centre of Western Canada is a vast series of gypsum beds, from which the excellent fertilizer may be extracted in a state of great purity at a trifling expense: the same rocks extend as a stripe into New York on the one hand and Northern Michigan on the other. In nearly every part of Western Canada we find limestone, and if not always in the form of massive beds, still as layers between beds of argillaceous shale, and sufficiently pure for agricultural purposes. In the drift clays which cover the country, lies, however, our chief wealth: over the whole of the agricultural region, with the exception of pine-clothed sand ridges, these drift clays constitute the subsoil, sometimes ten, sometimes two hundred feet thick, and holding up that priceless treasure, pure spring water. So marked is the influence of the Lakes which surround us on our climate, that species of trees which in the Atlantic states only reach the latitude of the middle of Ohio, are found growing in the utmost luxuriance in the valley of the Thames in Western Canada. Neither have we so frequently to lament the occurrence of drought, or of sudden deluges of rain, which distinguish the climates of the North Western States. Under these circumstances of climate, soil, and people, is it not reasonable to anticipate a bright future for the agricultural industry of Western Canada? What then will be the position of this country in 1860? Is this a problem difficult of solution, or is it not partially worked out in the lessons which the past two years have taught us? Let us dwell for a few moments on the scene aronnd us, and then draw conclusions as to what we may be permitted to see before the close of another decade. Yonder to the north, the dividing ridge between the Ottawa Valley and Lake Huron is already gained by the adventurous lumber-men, and the farmers are following from the Ottawa rapidly in their footsteps. Hitherto the rivers and streams flowing to the East have borne, during each spring freshet, the labours of the winter towards the St. Lawrence. The summit ridge has been gained, however, and Lake Huron, begins to receive the treasures of our forests to supply the wants of the WEST. The crest of the dividing ridge, at the head waters of the Petawawee and Matawa, great affluents of the Ottawa, gives rise to the Muskoka, the Maganetawan and French River, which flow into Lake Huron, and down these noble rivers the first instalment of a vast supply of lumber is preparing for its spring journey to the West, while here and there along the north coast, at the mouths of the rivers, mills are being erected, and the site of future towns marked out. We know what has led to the construction of the slides on the Ottawa; the same necessity will soon overcome the obstacles to be met with in the course of the most important rivers flowing into Lake Huron. Now turn to the south and glance along the lines of railway already completed. See, where the thick forest held absolute sway two years ago, thousands of bright spots illuminated by the sunlight which now reaches them, and growing into little life-giving centres to the scattered industry which has hitherto existed in loneliness and hardship, almost cut off from the humanities of life. Watch these expanding day by day, diffusing life, vigour and hope all around them, and along the great lines of traffic continually increasing in number, and growing in strength, converting silent woods into bustling farms, and pushing the blessings of industry and civilization into the cold heart of the wilderness on every side. Lastly, glance at the Ottawa Valley, and thence to the shores of Lakes Huron and Superior along our wild north-eastern and northern boundary. See how our mineral wealth is already glittering on the surface, won from inexhaustible stores of copper and iron, of more worth to us than "wedges of gold" or "heaps of pearl." One word more before we part. There is nothing illusory in the scene you have been surveying. No mirage to bring out into unnatural relief the brighter spots of the picture; all is solid and severe. The nature and extent of the useful part you may hereafter play in the future of Western Canada, depends entirely upon yourself. All varieties of scene and occupation are open to you, each anxiously seeking to adopt and claim you for its own. And as your heart begins to warm towards those among whom you may choose to cast your lot, seek to acquire and spread a feeling of respect and affection for your new Canadian home, not so much on account of the gifts it so freely and generously offers, but for the independent future it promises to yourself and your children. Remember that you have become one of a PEOPLE, and that you have a proud feeling of nationality to reverence in others and acquire for yourself, which some day, perhaps, may come upon you unawares, bringing with it deep thankfulness for the blessings you have so peacefully won.

THE ROYAL FAMILY.

HER MOST EXCELLENT MAJESTY (ALEXANDRINA-) VICTORIA, By the Grace of God, of the United Kingdom of Great Britain and Ireland Queen, Defender of the Faith. Her Majesty, the only child of His Royal Highness Edward Duke of Kent, fourth son of King George III., was born on the 24th of May, 1819; succeeded to the Crown on the demise of her uncle, his late Majesty William IV., on the 20th June, 1837, and married Feb. 10, 1840, Francis-Albert-Augustus-Charles-Emmanuel, Duke of Saxe, Prince of Coburg and Gotha, who was born August 26, 1819. Issue: *Victoria-Adelaide-Mary-Louisa, Princess Royal*, b. Nov. 21, 1840; *Albert-Edward, Prince of Wales*, b. Nov. 9, 1841; *Alice-Maud-Mary*, b. April 25, 1843; *Alfred-Ernest-Albert*, b. Aug. 6, 1844; *Helena-Augusta-Victoria*, b. May 25, 1846; *Louisa-Caroline-Alberta*, b. March 18, 1848; *Arthur-William-Patrick-Albert*, b. May 1, 1850; *Leopold-George-Duncan-Albert*, b. April 7, 1853.

Post Office Department.—R. Defries, Post Master; Joseph Blais, Assistant Post Master; P. Laliberte, Messenger.

ADDRESS.—To the Honourable the Legislative Assembly of Canada in Provincial Parliament Assembled:
The Petition of——

Humbly Sheweth, That, &c.
Wherefore your Petitioners humbly pray, &c.
[*Place and Date.*]

☞ No Petition to the Legislative Assembly will be received unless there be three genuine signatures on the sheet of paper or Parchment on which the conclusion of the Petition is written or printed. The usage has been, in the Legislative Assembly, to receive *only written* Petitions, but at a late session (1853), the Assembly adopted a resolution to receive *printed* Petitions in that House. All Petitions must be dated.

POST OFFICE DEPARTMENT.

NEWSPAPERS.

All newspapers published within the Province of Canada, pass by mail free of postage within the Province, whether posted from the office of publication or otherwise.

Newspapers posted in Canada for either of the other British North American Provinces, or coming from thence into Canada, pass free of charge.

Newspapers passing from Canada to the United Kingdom are, if conveyed by the ordinary weekly English mail by way of the States, liable to a charge of one penny each on delivery, being the transit rate levied by the United States; and newspapers from the United Kingdom to Canada, conveyed by the same route, must be pre-paid two pence each in Great Britain.

Newspapers posted in Canada for the United States, pass free to the Frontier. United States newspapers coming into this province are liable to charge at the rate of one penny for every four numbers to regular subscribers, and to ½d. each on transient papers, to be collected by the delivering postmaster.

Newspapers for foreign countries and parts abroad, pass under the regulations and rates of charge prescribed by the Imperial Post Office.

Newspapers re-posted in Canada pass free within the Province.

Publishers of newspapers and periodicals may send to their subscribers inclosed in their publications, accounts for subscription and receipts for the same. free of charge.

Newspapers when posted, must be so put up as to shew clearly that the packet or envelope covers newspaper matter only—no marks or signs to serve the purpose of written communication will be permitted, either on the paper itself or on the cover, nor any writing other than the address to which the paper is to be sent, and the name of the sender—and if these conditions are not complied with, the newspaper will be liable to charge as a letter by weight.

As much irregularity and disappointment in forwarding newspapers by post is frequently occasioned, when the parcels are insecurely made up or carelessly addressed for the post, at the offices of publication, postmasters are enjoined, whenever such want of due consideration for the nature of the service to be performed by the post office is frequently manifested, to call the attention of the publisher to the circumstance and request that greater care may be exercised.

Magazines, Periodical and other Printed Matter.

On each magazine or other periodical publication passing between any post office in Canada and any place in British North America, the United States or British West Indies, the ordinary postage rate is—

If not exceeding 3 oz. in weight.....½d.
If over 3 oz. in weight.....2d.

If the postage on periodicals published in Canada, be paid quarterly in advance, either at the office where posted or at the office of delivery, one half the above rates are charged.

Periodicals when sent in packets to one address within the limit of 4 lbs. to each packet, pass at the rate of 3d. per lb. or fraction of a lb.

The regulations of January 1854, (*see last C. Almanac, p.* 40,) exempting periodical publications exclusively devoted to the promotion of Science, Education, Temperance, or of Agricultural instruction, from postage charge, remain in force.

Printed circulars, prices current or hand bills, and other printed matter of a like description, and books bound or unbound, passing as above, are charged a rate of one halfpenny per ounce or fraction of an ounce, whether sent singly or in packets to one address, under the weight limit of 4 lbs. per packet.

Pre-payment of the foregoing rates on periodicals and circulars and all other printed matter is optional, except when addressed to the United States or British West Indies, and in such cases the charge must invariably be pre-paid; further, on all such printed matter received from the United States and British West Indies, the Canada rate always remains to be collected by the delivering postmaster in this province.

Circulars and other printed papers must be sent unsealed to pass as such, and pamphlets, periodicals, magazines, books, &c., must be put up in covers open at the ends or sides, so that the character of the matter may be seen, and are subject to the same restrictions as to the presence of writing and penalty of letter postage for infringement of regulations, which are hereinbefore detailed as applying to newspapers.

The regulations under which prices current and commercial lists, books, &c., are transmitted to and from the United Kingdom remain unchanged.

Letters, &c., to and from the Government and Legislature of the Province.

All letters and other mailable matter addressed to or sent by the Governor of this Province, or sent to or by any Public Department at the Seat of Government are exempt from provincial postage.

All letters and other mailable matter addressed to or sent by the Speaker or Chief Clerk of the Legislative Council or of the Legislative Assembly or by or to any member of the said branches of the legislature during any session of the legislature, and letters, &c., so addressed or sent to the same at the seat of government ten days prior to the day fixed for any meeting of the legislature for the despatch of business, and for ten days subsequent to the close of any session of the same, are free of provincial postage.

All public documents and printed papers may be sent by the speaker or chief clerk of the legislative council, or of the legislative assembly, to any member of either of the said branches of the Legislature of Canada, during the recess of Parliament, free of postage.

Members of either branch of the legislature may send during the recess of parliament, by mail, free of postage, all papers printed by order of either branch of the Legislature of Canada.

The public documents and printed papers sent under this clause should bear as part of the superscription, the *bona fide* signature of the Speaker, Chief Clerk (or officer specially deputed for this purpose to act for those functionaries,) or member sending the same.

REGULATIONS OF MONEY-ORDER OFFICES.

The following Post Offices are authorized to grant and pay Money Orders for any sum not exceeding £25 Currency :—

Do. over £17 10s. and not exceeding £20.	2	0
Do. over £20 and not exceeding £22 10s.	2	3
Do. over £22 10s and not exceeding £25	2	6

Money Orders are issued and paid at the Money Order Offices between the the hours of 9 a. m. and 4 p. m., and also, at the larger Offices, on Mondays and Thursdays, from 6 to 8 p. m.

Any number of Money Orders may be issued to any one person, but no single Order shall exceed in amount £25 c'y.

Money Orders may be transferred by the *Payee* endorsing the same, payable to another party named. Payment of a Money Order must be obtained before the expiration of the month following that in which it is issued, otherwise a new Order must be obtained, for which the usual commission will be charged.

Money Orders are not granted for fractional parts of a penny.

A Money Order may be repaid at the Office from which issued, but only to the party who originally obtained it.

These economical modes have been devised expressly with a view to the security of property; it may reasonably be expected that all persons having occasion to transmit money will avail themselves of the opportunity of securing it; and in no case, *by committing property* UNREGISTERED *to the letter boxes*, RISK ITS LOSS.

Letters containing valuable matter may be registered on the pre-payment of 1d. The words "Money Letter" are no longer of any use for the sure transmission of letters.

POSTAGE RATES ON LETTERS FROM CANADA TO EUROPE.

Reduction of postage rates on letters from Canada to France, and to certain countries in Europe, sent from England through France.

Under a postage convention recently concluded between Great Britain and France, letters from Canada and the other British North American Provinces for France, or for the undermentioned countries when intended to be forwarded from England *via* France, will for the future be subject to the following rates, when posted for the ordinary closed mails by British mail steamers:—

COUNTRIES.	Not exceeding ¼ oz. in weight.	Exceeding ¼ oz. and not over ½ oz.	Exceeding ½ oz. and not over ¾ oz.	Exceeding ¾ oz. and not over 1 oz.	Exceeding 1 oz. and not over 1¼ oz.	Exceeding 1¼ oz. and not over 1½ oz.	Exceeding 1½ oz. and not over 1¾	Exceeding 1¾ oz. and not over 2 oz.

OBSERVATIONS.

Letters for Luxemberg, Holland, Prussia, and the German States, intended to be sent *via* France, must be so directed.

Letters for Cadiz and Vigo, are forwarded by Peninsular Packet, unless specially addressed *via* France.

Letters for Portugal, intended to be sent *via* France, must be so directed.

Letters for Venetian Lombardy are forwarded through France, unless otherwise addressed; but letters for any other part of the Austrian dominions, intended to be sent *via* France, must be so directed.

Letters for the Ionian Islands and the Northern States of Europe, intended to be sent *via* France, must be so directed.

Letters for Alexandria intended to be sent by the French Mediterranean Packets, must be so directed.

The Postage upon letters for Spain and Portugal, as well as those intended to be sent *via* Austria to Parma, Modena, Greece, and the Ionian Islands, must be paid in advance; but letters addressed to any other of the above mentioned countries and places may either be paid in advance or forwarded unpaid, at the option of the sender.

If Letters for France, or for any of the countries above named, *via* France, are forwarded from Canada by Quebec and Halifax, or by Canadian steamer, there will be a reduction on the foregoing rates of:—

On each Letter weighing not exceeding ½ oz. .....2d. Sterling.
On do. over ½ oz., and not exceeding 1 oz. .....4d. Sterling.
On do. over 1 oz., and not exceeding 2 oz. .....8d. Sterling.

Being the transit rate payable to the United States, on letters sent in the ordinary closed Mails *via* Boston.

When such letters are forwarded in the closed Mails by way of New York for conveyance to England by American Government Packet, the charge will be 1s. Sterling per oz., in addition to the rates calculated for the transmission by Boston British Packet.

POSTAGE RATE ON LETTERS TO AND FROM THE UNITED KINGDOM.

In consequence of the withdrawal of many of the Atlantic Steamers belonging to the Cunard line, to meet the exigencies of the war, the mails between America and England have, since last autumn, been carried in alternate weeks by British and United States Government Packets—the former plying once a fortnight to Boston and the latter to New York—the postage rate upon letters between Canada and the United Kingdom, when sent in the weeks supplied by the British Packets, is 8d. sterling, (10d. currency) per ½ oz.; but when transmitted by the mails sent in the weeks served by the United States Government Steamers the rate is 1s. 2d. stg. (1s. 4d. currency) per ½ oz.

* Hohenzollern, Birkenfeld, Hesse Homburg, Lippe Detmold, Schwartzburg, Rudolstadt, Reuss, Anhalt, Nassau, Saxe Coburg Gotha, Saxe Meiningen, Hildburg, Hausen, Hesse (Electoral), Hesse Darmstadt, Saxe Weimar Eisenach, Frankfort on the Maine, Hamburg, Bremen, and Lubeck.

† Hanover, Saxony Mecklenburgh-Schwerin, Mecklenburgh Strelitz, Brunswick, Oldenburgh (except Birkenfeld), Servia, Poland and Russia.

Letters forwarded through the United Kingdom, between Canada and Her Majesty's forces in Turkey, Greece, the Black Sea, (including the Crimea) the Baltic and the White Sea, must be invariably pre-paid :—		When sent in Mails carried by British Packets *via* Boston.		When sent in Mails carried by U. States Packets *via* New York.	
GREECE, TURKEY, AND BLACK SEA, INCLUDING THE CRIMEA.		Sterling.	Equal to Currency.	Sterling.	Equal to Currency.
Letters for or from Commissioned or non Commissioned Officers, Soldiers, Seamen, or any other person belonging to the Army, Navy, Ordnance, Commissariat, Medical Department, Land Transport Corps, Army Work Corps, or Turkish Contingent.	Weighing under ¼ oz.	0s. 11d.	1s. 2d.	1s. 5d.	1s. 9d.
	Exceeding ¼ oz. and not exceeding ½ oz.	1s. 2d.	1s. 6d.	1s. 8d.	2s. 1d.
	do. ½ oz. and not do. 1 oz.	2s. 4d.	2s. 11d.	3s. 4d.	4s. 2d.

BALTIC, WHITE SEA, AND HELIGOLAND.					
Letters to or from Commissioned or Warrant Officers, Seamen or any other person serving on board Her Majesty's Fleets in the Baltic and White Sea, and to or from Commissioned or non-Commissioned Officers, Soldiers or any other person serving in the Foreign Legion at Heligoland.	Weighing under ¼ oz.	0s. 11d.	1s. 2d.	1s. 5d.	1s. 9d.
	Exceeding ¼ oz. and not exceeding ½ oz.	1s. 2d.	1s. 6d.	1s. 8d.	2s. 1d.
	do. ½ oz. and not do. ¾ oz.	2s. 1d.	2s. 7d.	3s. 1d.	3s. 10d.
	do. ¾ oz. and not do. 1 oz.	2s. 4d.	2s. 11d.	3s. 4d.	4s. 2d.
	do. 1 oz. and not do. 1¼ oz.	3s. 11d.	4s. 10d.	5s. 11d.	7s. 4d.
	do. 1¼ oz. and not do. 1½ oz.	4s. 2d.	5s. 2d.	6s. 2d.	7s. 8d.
	do. 1½ oz. and not do. 1¾ oz.	4s. 5d.	5s. 6d.	6s. 5d.	8s. 0d.
	do. 1¾ oz. and not do. 2 oz.	4s. 8d.	5s. 10d.	6s. 8d.	8s. 4d.

Letters addressed to non-commissioned officers, soldiers or seamen, serving in Her Majesty's forces at the Seat of War, may be forwarded from Canada *via* Quebec and Halifax, on payment of one penny at the time of posting—provided that the letter does not exceed half an ounce in weight; if above that weight, letters so addressed are liable to the ordinary postage rates as laid down in the foregoing tables.

BOOK POST WITH ENGLAND.

Printed books, magazines, reviews or pamphlets, whether British, Colonial or Foreign, may be sent through the post between Canada and the United Kingdom, under the following regulations:—

A book packet may contain any number of separate books, publications, works of literature or art, almanacs, maps or prints, and any quantity of paper, vellum or parchment (to the exclusion of letters whether sealed or open), and the books, maps, paper, &c., may either be written, printed or plain, or any mixture of the three, and may be either British, Colonial or Foreign.

The name and address of the sender, or anything else not in the nature of a letter, may also be written or printed upon the envelope or cover of the packet in addition to the name and address of the person to whom it may be forwarded.

All legitimate binding, mounting or covering of the same, or of a portion thereof, will be allowed as part of the packet, whether such binding, &c., be loose or attached, as also rollers, in the case of prints and maps, and whatever may be necessary for the safe transmission of literary or artistic matter, or usually appertains thereto, and the postage is to be rated upon the gross weight of the packet.

The rates of postage on book packets remain as at present, viz.:—

For each packet not exceeding ½ lb..... 6d. stg., 7½d. cy.
Do. above ½ lb., and not ex. 1 lb. 1s. stg., 1s. 3d. cy.
Do. above 1 lb., and not ex. 2 lbs. 2s. stg., 2s. 6d. cy.
Do. above 2 lbs. and not ex. 3 lbs. 3s. stg., 3s. 9d. cy.
and so on, adding 1s. sterling for each additional lb. weight.

The following conditions must be carefully observed, as prescribed by the Imperial Post Office:—

Every book packet must be either without a cover, or in a cover open at the ends or sides.

It must not contain any letter, open or sealed, or any sealed enclosure whatever.

No packet must exceed two feet in length, breadth or width.

The postage of book packets must be paid in advance.

Printed votes and proceedings of the Imperial Parliament and Colonial Legislatures are subject to the above charges and regulations when sent by book post between Canada and the United Kingdom.

All book post matter intended to be sent to the United Kingdom from Canada, must, as heretofore, be forwarded upon Quebec for transmission either *via* Halifax; or in summer, by Canadian steamer.

Books cannot be forwarded except at letter postage rates by the mails sent to England through the United States.

ACT TO EXTEND JURISDICTION OF DIVISION COURTS.

[*Assented to* 30*th May*, 1855.]

I. Any suit or cause of action cognizable in a Division Court in amount, may be entered and tried in the Court holden in the Division in which the cause of action arose, or in the Court holden in the Division in which the defendant, or either of them when there are more than one, shall reside or carry on his business at the time the action is brought, notwithstanding that the defendant or defendants may at such time reside in a different county or division, or different counties or divisions, from that in which the cause of action arose: and all such proceedings shall be taken for the obtaining judgment and the recovery thereof, and in the same manner to all intents and purposes as if the defendant or defendants resided, and the cause of action arose in the same division, except that no writ in the nature of a writ of *Fieri Facias* or attachment, shall be executed out of the limits of the county or united counties over which the Judge of the Court from which the same issued, shall have jurisdiction: Provided that when the defendant, or when there is more than one defendant, when one of them resides in a county adjoining the one in which the action is brought, and none of the defendants resides in the last mentioned county, the summons shall be served fifteen days, and when the defendant does not, nor does either defendant where there is more than one, reside in the county, where the action is brought, or an adjoining county, the summons must be served twenty days at least before the holding of the court at which the cause is to be tried, and if the defendant or defendants desire to make any defence mentioned in the forty-third section of the Upper Canada Division Courts Act of 1850, he, or one of them, shall give notice thereof in writing to the Clerk of the Division Court in which the action is to be tried, in the manner provided by that section, at least five days before the holding of such court; provided that if it shall appear to the Judge that such notice had not been given, without the wilful default of the defendant or defendants, and that injustice would be done unless such defence should be allowed, he may adjourn the hearing of the cause, or such defence thereto, or any part thereof, until the next sitting of the court, upon such terms as to payment of costs as shall appear to him to be just.

II. The Bailiff of any Division Court in Upper Canada may, and he is hereby authorized and required to serve and execute all summonses, writs and orders of any Division Court that shall be delivered to him for service, although the same may have been issued from a Division Court of which he is not Bailiff, and to return the same to the Clerk of the Court of which he is Bailiff: Provided that he shall not be required to travel beyond the limits of the Division of which he is Bailiff, or allowed to charge milage for any distance travelled beyond the limits of the county in which the Court of which he is Bailiff is situated, in the service or execution of such process: And provided that nothing herein contained shall be construed so as to alter the law for the issuing or execution of attachments as provided for by the said Division Courts Act of 1850.

III. It shall be the duty of the Clerk of any Division Court in Upper Canada, upon the application of the plaintiff or defendant, or one of them when there are more than one, having an unsatisfied Judgment in his favour in such Court, or his agent, to prepare a transcript of the entry of such Judgment in such Court, and to send the same to the Clerk of any other Division Court, in any other county in Upper Canada, with a certificate at the foot thereof, signed by such Clerk and attested by the seal of the said Court, stating the amount unpaid upon such Judgment, and the date at which the same was recovered, which certificate shall be addressed to the Clerk of the Division Court to whom it is intended to be delivered; and it shall be his duty upon the receipt of such transcript and certificate, to enter the transcript in a book to be kept in his office for such purpose, and the amount due on such Judgment according to such certificate; and all other proceedings shall and may be had or taken for the enforcing and collecting such Judgment in such Division Court, by the officers thereof, that can be had or taken, under the Upper Canada Division Courts Acts, upon Judgments recovered in any Division Court, for the like purpose; such Clerk shall also be bound when required, to forward all summonses to the Clerk of any other Division Court for service, and to receive the same when returned, and to receive those sent to him by any other Division Court Clerk for service, and to enter them in a book to be kept for that purpose, and to hand the same to the Bailiff for service, and to receive them from the Bailiff, and to return them to the Clerk from whom he received them; and also to give to any party to a suit, or his agent, copies of subpœnas for his witnesses, when requested so to do.

IV. All the provisions of the Upper Canada Division Courts Acts, in reference to costs in any suit brought in any Superior Court for a cause of action cognizable in a Division Court under those Acts, shall apply to any action which shall be so brought for any cause of action cognizable in the Division Courts under this Act.

V. And whereas it is desirable to increase the fees of the Clerks and the Bailiffs of the said Courts: Be it enacted, that from and after this Act shall come into force, the said Clerks shall be entitled to the fees enumerated in the Schedule A, hereto annexed, for the services therein mentioned, instead of the fees mentioned in the said Acts; and that the Bailiffs shall be entitled to five pence per mile instead of the milage allowed by the said Act.

VI. This Act shall come into force on the first day of July next after the passing thereof.

George T. Meckellean—New construction of mangle for mangling clothes. November 24, 1843.
George Riley—New mode of distilling and rectifying spirituous liquors. December 15, 1843.
A. Adams—Machine for grinding clay. Jan. 8, 1844.
Hiram Bigelow—New and improved revolving drying kiln. January 9, 1844.
Frederick Hull—Self propelling gate. January 27, 1844.
J. M. Holland—Spike machine. March 6, 1844.
William McCall—Mode by which power to be derived from the use of the wheel and screw may be applied to any kind of machinery. May 30, 1844.
William Langmead—Improvement in the manufacture of cooking stoves. June 29, 1844.
John Hearle—Engine pump or fire engine. June 29, 1844.
William Armstrong—Portable fire extinguishing machine. September 3, 1844.
Thomas Proudlock—Method of pumping ships and other vessels, called "The Seaman's Friend." Oct. 14, 1844.
George Milligan—New method of constructing piano fortes. November 21, 1844.
Joseph Smolinski—A new cast-iron cooking and caloriferous stove; and an alteration in the construction of the crockery or brick stove, being an improvement on the stove introduced by one John Vannerous. Nov. 21, 1844.
Chandos Hoskys—An improvement in the truss for the alleviation and cure of Hernea. Jan. 31, 1845.
Jean F. C. Oullet—New method of propelling vessels, carriages, &c., by machinery, without the agency of fuel. March 6, 1845.
Elias Nichols—New method of constructing water wheels. April 4, 1845.
Ebenezer E. Gilbert—A new and useful method of constructing counter balance machines. May 21, 1845.
Nicol Hugh Baird—New method of constructing paddle wheels, of the description termed sweeping paddle wheels, for propelling steam and other vessels. May 30, 1845.
E. E. Gilbert—Counter balance machines. June 25, 1845.
Samuel R. Warren—Method of constructing harmonic attachments for piano fortes. July 9, 1845.
J. Griffiths—Improvement in riding saddle. July 14, 1845.
Lewis Ives—Improved capstan for loading or unloading merchandize or timber from vessels, denominated "Ives's connected capstan. July 16, 1845.
Lewis Ives—Improved method of loading and unloading timber vessels. July 19, 1845.
William Watts—Potatoe digger. July 19, 1845.
John Harris—Revolving horse rake. August 4, 1845.
John Maitland—New principle of distillation and rectification. August 12, 1845.
Albert Young—Metalic coil spring-tooth horse rake. August 16, 1845.
Albert Young—New method of making rakes for making hay and grain. August 22, 1845.
James McKay—New and improved steam engine. Sept. 10, 1845.
Francois Nadeau—New and improved mode of constructing windows. September 18, 1845.
AlexesHebert—New and improved sawing machine. Oct. 10, 1845.
Moyse Morin—New and improved nets for taking seals and porpoises. October 15, 1845.
Benjamin F. Tibbetts—New and improved steam engine. November 10, 1845.
James Cull, Jr., and Charles Cull—New principle in the construction of a still. November 29, 1845.
Jasper Ball—New and improved churn. Jan. 7, 1846.
Jenkins Lloyd—Cast iron plough. January 17, 1846.
Albert Young—House pump or fire engine. Feb. 14, 1846.
George K. Burrows—New method of making presses for the purpose of pressing clay and other ductile substances. February 27, 1846.
W. McKinlay—Horse thrashing machines. Feb. 27, 1846.
A. Trepanier—Machine for working stone. March 4, 1846.
Francis Gore Wilson—Important improvements in the tanning mill. March 13, 1846.
George Riley—Still for distilling and rectifying spirituous liquors. March 18, 1846.
Horatio A. Rockwell—Yoke for Oxen. March 24, 1846.
Louis Lemoine.—Apparatus for raising all kinds of nets or other instruments used in taking porpoises and other species of fish. April 6, 1846.
Richard H. Oates—Improved method of making mill stones. April 25, 1846.
David J. Ellis—Machine for making brick. April 25, 1846.
Henry Ruttan—Furnace by which houses and other buildings may be heated by hot air. May 2, 1846.
Ephraim Duell—New and improved churn. May 6, 1846.
William McLean—Revolving battery. May 26, 1846.
Jonas Philip Lee—Improvement in the method of constructing knitting looms. June 4, 1846.
Samuel S. Jones—Cooking stove. June 13, 1846.
Harrison Colby—Gas generator. June 22, 1846.
James Campbell—Towing machine, for towing vessels up rapids. June 22, 1846.
G. Warren Johnson—Hoisting Machine. June 24, 1846.
Gordon Warren Johnson—Improved hoisting machine. June 26, 1846.
Noah Shaw—Portable Grist Mills. August 3rd, 1846.
Charles Midgley—Planing machine. August 10, 1846.
Henry Ruttan—Hot air generator. August 23, 1846.
John Mills—Improved method of generating and distributing heated air. September 1, 1846.
Joseph Paradee—Revolving joint tooth horse rake. September 24, 1846.
Amos Tyler—Coupling machines for railroad cars, or self-detachers. September 26, 1846.
Amos Tyler—New method for constructing bee-hives. September 26, 1846.
Amos Tyler—Snow excavator, for removing the snow from the track of rails. September 26, 1846.
A. Tyler—Spark arrester and extinguisher. Sept. 26, 1846.
George Riley—Stills for distilling and rectifying spiritous liquors. October 1, 1846.
Joseph Paradee.—A new method of constructing rakes for making hay and grain, called the improved revolving joint-tooth spring lever horse rake. Oct. 8, 1846.
John Mills—Hot-air furnaces. October 10, 1846.
William T. Barnes—Improved description of "tue iron" to be used in blacksmith's forges. October 21, 1846.
Stephen Mills—Improvement in constructing wooden bridges. Nov. 28, 1846.
Harrison Colby—New gas generator. December 12, 1846.
John Livingston—New description of water wheel. December 14, 1846.
Henry Ruttan—Inventor of a metal heater for houses, &c.; a cooking range, and hot-air, and vapour generator. December 15, 1846.

William McLean—Steamboat regulator. Dec. 17, 1846.
J. McLaren—Improved stump extractor. Jan. 11, 1847.
Daniel Cleal—New mode of setting boilers and arranging the flues for applying heat to the same, for steam engines. January 23, 1847.
Louis Lemieu—Machine for making wooden shavings, suitable for the fabrication of band-boxes for hats, matches, and cases of all descriptions. Jan. 25, 1847.
Henry Ruttan—Improved cooking range and hot-air vapour generator. January 27, 1847.
I. Carter—Hot air cooking and heating stove. Mar. 13, 1847
Jonathan B. Massey—New and improved method of constructing cisterns. April 3, 1847.
Horace H. Davison—Improved heelring for fastening the scythe to the snath. April 10, 1847.
Horace H. Davison—Improved double flue steam generator and boiler for locomotives, steamboats and other purposes. April 10, 1847.
Horace H. Davison—Improved portable lamp fluid. April 10, 1847.
Jason C. Gillett—Machine for cutting shingles, staves, veneres, &c. May 1, 1847.
Wm. Armstrong—Portable fire extinguishing machine. May 3, 1847.
J. Westman—Machine usually named bellows. May 9, 1847.
Sandford A. Fleming—New method of propelling locomotives. June 4, 1847.
Gilbert McMicken—Certain improvements in the use and application of the principle of the electro-magnetic telegraph. June 8, 1847.
Peter Fraer—New description of machine for churning. June 26, 1847.
Gilbert McMicken—Improvement in the method of constructing electro-magnetic telegraph. June 29, 1847.
Peter R. Beaupre—Improvement in the manner of making, using and working a lifting and floating marine dock. July 19, 1847.
James McGee—New and useful method of rotting hemp and flax by artificial means. August 6, 1847.
Peter Deal—Preparation for all kinds of oil paints, for house painting and other kinds of painting, and especially to be used with lead paints. August 7, 1847.
Melzer T. Thomas—Improved churn. August 14, 1847.
A. Adams—A revolver brick receiver. August 14, 1847.
James McGee—New method or process of rotting of hemp and flax by artificial means. August 14, 1847.
E. S. DeRottermund—Improvement in constructing grist mills.—Aug. 21, 1847.
E. S. DeRottermund—Flour sifters. August 26, 1847.
Thos. Brill—A screw right and left reversed water-wheel. September 3, 1847.
G. Fabes Prouse—Hot-air furnace. September 11, 1847.
Wm. Muir—New mode of constructing the bed plates of end working fire engines, and in the method of placing the supply and delivery valves of such engines. Oct. 27, 1847.
Michael Dyer—Shower-baths November 10, 1847.
Peleg Bowen—New coiled spring tooth revolving horse rake. December 13, 1847.
William Walsh—Horse collar. January 8, 1848.
T. Brown—Smut mill for cleaning grain. March 2, 1848.
James Baillie—Saw gates for saw mills. April 12, 1848.
Horace H. Davison—Double revertable flue steam generators and boilers. April 19, 1848.
William Partridge—Ditching machine. April 22, 1848.
John Butler—Improved machine for manufacturing bricks. May 2, 1848.
John McMichael—Improvement or addition to a stump extracting machine. May 26, 1848.
Antipas M. Byron—Hay rakes. June 19, 1848.
John Ritchie—Saw mills for slabing logs and sawing slabs. June 19, 1848.
Henry Ruttan—Discoverer of the true philosophical principles upon which buildings may be ventilated; and also of machinery by which the ventilating air may be warmed. June 23, 1848.
John Helm—Certain improvements in the construction of mills for the manufacture of lumber with circular saws. June24, 1848.
Augus McQueen—Economical power machine or hydraulic force pump machine for raising buildings, stumps, &c. June 24, 1848.
Peter R. Lamb—Improved method of manufacturing glue. June 26, 1848.
Edward T. Jones—An improvement in the construction of four-wheeled carriages, to wit, a plan for facilitating the turning of the same in a short space. June 27, 1848.
Henry Ruttan—The Canadian ventilator. July 25, 1848.
Reuben P. Cotton—Improvement on Buck & Hathaway's patent cook stove. August 1, 1848.
R. P. Colton—Improved air-tight box stove. Aug. 1, 1848.
Nathan Wharton—New process for tempering and hardening the teeth of saws used for milling and other purposes. August 1, 1848.
Charles Midgley—New and improved paddle wheel for steam boats and horse boats, and for propelling vessels. August 10, 1848.
George P. Warren—A useful method of constructing the apparatus for taking of the friction of the axle of a bell, and for making the tongue of a bell strike the top when elevated. August 14, 1848.
Walter Perkins Newman—Hydro-pneumatic water wheel. September 5, 1848.
Martin Pierce—Washing machine for washing clothes, &c. September 15, 1848.
James Stuart—Improved method of constructing horse power to be applied to thrashing machines and other descriptions of machinery. October 14, 1848.
O. LaGrange—Carriage and waggon wheel. Nov. 6, 1848.
Peleg Bowen—Coiled spring tooth revolving horse-rake. November 14, 1848.
Walter H. Wells—Aeroform or atmospheric churn. November 17, 1848.
John. P. Bostwick—Office sliding calendar. Nov. 20, 1848.
Patrick McQuilkin & Joseph Henry—Improvement in the machinery of ship's windlass. January 20, 1849.
C. Midgley—New and useful paddle wheel for steam boats, horse boats, and for propelling vessels. Jan. 27, 1849.
Ananias Smith—Air distributor or grate. Jan. 30, 1849.
Nirum W. Rockwell—A limited horse swing. Feb. 5, 1849.
Elias J. Severance—Thrashing machines. March 6, 1849.
John Baird—Certain improvements in the arrangement and construction of the steam engine. May 5, 1849.
Elias J. Severance—Improvement in the manufacture of thrashing and winnowing machines. May 5, 1849.
Charles M. Tate—Improved method of raising and lowering weights. May 11, 1849.
Charles Midgley—Improved hinge. August 2, 1849.
Charles Midgley—New and useful saw-mill. Aug. 13, 1849.
C. Midgley—Improved accoucheurs assistant. Aug. 13, 1849.
Peter R. Higley—Improved churn called the propeller churn. Aug. 30, 1849.
Daniel Mandigo—Japan varnish called the chemical elastic japan varnish. August 31, 1849.
Charles M. Tate—New and improved method of raising and lowering weights. September 3, 1849.
John Angell Cull—Certain important inventions and improvements in the art of starch making, whereby the process is greatly improved, and rendered more certain and effectual. September 24, 1849.
Richard Tremain—Improved straw cutter. Sept. 24, 1849.
John Winger—Pump surpassing all others heretofore made, in utility. September 28, 1849.
John Gilmour—New method of constructing capstans, called and designated "Gilmour's Parent Capstan." Dec. 11, 1849.
William Arms—New and useful machine for tilling land, called the "Lion Plough." December 28, 1849.
Daniel Mandigo—Improved carriage spring. Jan. 22, 1850.
Daniel Mandigo—Improved plough, called "Mandigo's Improved Plough." Jan. 30, 1850.
Wm. Nixon—Improved drilling machine. Feb. 28, 1850.
James Henry Sampson—New and useful machine or apparatus for cutting men's boots, and determining with accuracy the situation of the spring in centre upon which the foot moves. March 6, 1850.
Thomas Penney—Improvement in the process of tanning leather. March 6, 1850.
Alexander Carpenter—A portable and stationary safe for holding ashes. March 13, 1850.
I. Carter—Improved summer and winter ventilating air stove. March 13, 1850.
David P. Bonnell—An improvement in the process of grinding and manufacturing wheat and other grain into meal and flour. March 20, 1850.
Alfred Wilbur—A materially improved heater of water and other liquids. March 20, 1850.
Norbert St. Onge—Machine called "Saint Onge's Stump Extractor." March 22, 1850.
Alfred Wilbur—An improvement in cooking stoves. March 27, 1850.
W. R. Seaver—Seaver's improved stave dresser. April 2, 1850.
W. R. Seaver—Seaver's improved stave joiner. April 2, 1850.

Alexander Fleck—Fleck's new and improved plough, or subsoil grubber—May 25, 1850.
John C. Lloyd—Obstetrical supporter. May 27, 1850.
L. Howick—Improvement in fanning mills. May 27, 1850.
Albert Bennett—Self-protecting bee-hive. June 12, 1850.
Jacob Barnes—An apparatus serviceable as a blast regulator, applicable to smith's forges. June 13, 1850.
James Trehearne—Portable saw-mills, for sawing timber. June 27, 1850.
James R. Armstrong—Cooking stove. June 28, 1850.
L. Houck—Improvement in Fanning Mills. July 22, 1850.
John Counter.—Manufacturer of Stoves of a new pattern, and on a new principle, discovered and invented in this Province by one Charles Tripp, a citizen of the United States of America. August 28, 1850.
James Maclaran—Tile for covering houses and other buildings. October 5, 1850.
Henry Trout—Improvement in the principle of propelling locomotives along inclined planes, and also in the wheels of locomotives, and rail for railroads, by means of which locomotives can be propelled along inclined planes. October 7, 1850.
David Kidd—Portable grist mill. October 14, 1850.
Saml. Hurlbert—Improvement in the agricultural plough. October 17, 1850.
Oliver Tiffany—Certain improvements in apparatus for warming air for warming houses and ventilating houses and other inhabited apartments, for green-houses, grain, fruit, malt-drying and other kilns and other uses. Oct. 30, 1850.
Charles Midgley—The spark killer and heat retainer. Nov. 2, 1850.
Ilhamar P. Smith—New and improved combination of machinery for a cutting-box for cutting straw, hay, or stalks. December 7, 1850.
Thomas Hewson—Improved method of making horse-shoes. December 9, 1850.
James Hamilton—An improved plough. Dec. 13, 1850.
Eusebe Dupont—New and improved pump. Dec. 17, 1850.
Daniel Mathias Lamb—Improved machine for making nuts and washers. December 28, 1850.
George Fabes Prowse—The Prowsonian hot-air cooking range or furnace. Jan. 7th, 1851.
George Hooper Mead—Improved method of constructing piano fortes. January 8, 1851.
William Griffin—A clover-seed gatherer. Jan. 9, 1851.
Joseph Watson—An improvement on an old patent bedstead for the sick and wounded. Jan. 31, 1851.
John Hearle—Improvements on engine pumps and fire-engines. Jan 31, 1851.
John Darling—A new and useful composition to be used as a soap for the saving of labour in washing clothes. Jan. 31, 1851.
Henry Ruttan—A machine which he calls a ventilating stove, and also of the means by which the ventilating air may be made to circulate under a floor and between the joists. January 31, 1851.
James Kent Griffin—Several important improvements in cooking stoves, and in the method of applying and using heat for cooking purposes. March 13, 1851.
William Holton—New kind of plough. March 15, 1851.
John Angel Cull—Certain machines which he calls a rouser and bran washer, to be used in the manufacture of starch. March 17, 1851.
John Angel Cull—Certain improvements in the method of making starch. March 17, 1851.
John Kiely—New kind of suspension truss, to be applied in constructing bridges and roofs. March 22, 1851.
A. J. Thompson—New and useful improvement upon the plough. March 24, 1851.
W. J. Holmes—New and useful improvement on the method of applying the heat generated in stoves or fire places to the purpose of warming apartments or houses. April 12, 1851.
Thomas S. Fox—A rabbeted complete revolving air and water tight joint. April 12, 1851.
James Rogers Armstrong—New and improved cooking stove, to be called "The Giant Cooking Stove." April 17, 1851.
John Rourke—Self-acting ribbed warp knitting looms. May 1, 1851.
Thomas Hewson McLean—New shape of bar-iron for horse shoes. May 1, 1851.
Daniel Mandigo—New and improved method of cutting hay, straw, chaff or other vegetable food for cattle. May 2, 1851.
Chester Shattuck—Cross-cutting machine. May 21, 1851.
J. H. McKenzie—New mode of constructing a cider-mill and press. June 16, 1851.
Sherman S. Jewett—Improved iron stove for heating rooms and for other purposes. June 16, 1851.
Edwin Jenney—New and useful machine for cutting and sawing staves with unprecedented rapidity and correctness. June 16, 1851.
Roswell Tompkins—New and useful machine for separating and cleaning wheat and other grain. June 16, 1851.
Thomas J. Fuller—New and improved cooking stove, to be called "The Salamander Cooking Stove." June 18, 1851.
Charles Lemon—New and improved plough, which he calls a double iron beam plough. June 24, 1851.
C. Palmer—Improved weighing machine. June 30, 1851.
Geo. Hawley—Shingle-making machine. July 4, 1851.
Henry Markle—Certain Improvements in the construction of agricultural plough. July 12, 1851.
James Trehearne—New method of running the perpendicular saw for sawing timber. August 21, 1851.
Isaac Carter—Cooking stove, the hot air from which is by him now for the first time successfully applied to heating purposes. August 21, 1851.
Reuben P. Colton—New and improved method of constructing cooking stoves as exemplified in what he calls "The Brockville air-tight cook stove." Sept. 8, 1851.
Benjamin Fuller—New and improved whirlpool wheel or pressure water power. November 6, 1851.
Thomas J. Fuller—New and improved machine called the "Excelsior cylindrical thrasher;" also, a new and useful machine called "The Excelsior horse power." Nov. 6, 1851.
William Coleman—Circular and straight moulding, rabbeting, ploughing and architrave machine. Nov. 6, 1851.
Peter R. Lamb—New and improved machine for the manufacture of laths. November 6, 1851.
Peter R. Higley—New and improved machine for cutting hay and straw. November 6, 1851.
Thomas Mills—New method of constructing carriages and other vehicles by which they are enabled to turn in much less space than formerly. November 25, 1851.
James Maclaren—Improved mode of making bricks and architectural ornaments. January 8, 1852.
Joseph Pagnuelo—Improved furnace. Jan. 8, 1852.
Prudent Nicol and Thomas Nicol—Improved thrashing mill. January 14, 1852.
Nevens Jones—New and useful improvement in the construction of waggons, combining the springs and coupling. January 19, 1852.
Alexander Anderson—Certain improvements to a machine called a grain separator. January 19, 1852.
James Anderson—New and useful plan of building houses. January 19, 1852.
Asa Willard—Butter machine. January 23, 1852.
Justus S. Jones—New and improved method of constructing carriages. March 20, 1852.
Charles Dawson—Improvements in the manner of working Mulay saws and the machinery attached thereto. March 20, 1852.
Charles Lemon—New and improved method of constructing ploughs. March 31, 1852.
Samuel Cutter—New and improved apparatus or lamp for burning benzole or hydrocarbons. April 19, 1852.
William Perry—Direct action fire engine. April 30, 1852.
Horatio A. Rockwell—New and useful method of constructing yokes for oxen. May 8, 1852.
Thomas C. Gregory—Self-acting apparatus for disconnecting the carriages of a railway train from the tender upon the engine leaving the rails. May 28, 1852.
Peter Murdock—Improvement in the composition and form of wheels for all kinds of carriages. May 28, 1852.
Louis Lemoine—New and useful improvement in the manufacture and construction of steam generating apparatus. June 9, 1852.
Benjamin Gumear—Churn called the reciprocating churn. June 15, 1852.
Lawrence Hager—New and useful improvement to the seed drill, &c. June 30, 1852.
Lawrence Hager—Increasing twist and curvilinear mould board for Canadian ploughs, on the principle of a continuous increasing curvilinear twist from the point of shear to the back end and on sole of mould board. June 30, 1852.
Abram Longbottom—New and useful mode of purifying illuminating gas. July 29, 1852.
Robert Might—R. Might's portable, horizontal and self-acting sawing machine. August 10, 1852.
Samuel Andres—New and scientific mode of constructing flues or chimneys. August 12, 1852.

George William Lester—Improved draft and damper box smoothing iron. August 24, 1852.
John Rourke—Millstone pickers. August 24, 1852.
Edward Trenholm—Trenholm's elevator. Aug. 26, 1852.
Thomas J. Fuller—New and useful improvement in Mulay saw mills. August 31, 1852.
R. Lossing—Washing and churning machine. Aug. 31, 1852.
James K. Griffin—Several new and useful improvements on cooking stoves. September 7, 1852.
Samuel Hurlbert—Improvement on the plough for which he has already obtained a patent, dated 17th October, 1850. September 20, 1852.
Alfred Gifford—New and useful improvement on a machine for cutting straw, patented to Richard Tremain the 24th September, 1849, and now owned by Lonson Butterfield, of the village of Oshawa, county of Ontario. September 20, 1852.
George M. Sperry—Improved method of constructing corn crackers. September 21, 1852.
Edward C. Ennis—Machine for making carriage wheels. September 30, 1852.
H. Bernier—New and improved cooking stove. Oct. 5, 1852,
Samuel I. Russell—New and improved harrow. Oct. 8, 1852.
Charles Gosselin—New and useful improvement in the mode of constructing double stoves. October 13, 1852.
Joseph Paradis—New and useful improvement in the method of constructing thrashing machines. Oct. 15, 1852.
Charles Midgley—Improved churn. October 27, 1852.
Charles Midgley—Improved bee hive. October 27, 1852.
William Brown—New and useful improvement in making grain rakes. November 6, 1852.
Frederick Tiffany—New and improved apparatus for warming air, and for warming and ventilating houses and other inhabited apartments. November 6, 1852.
Patrick Flinn—Compound action water wheel. Nov. 8, 1852.
George Stacy—New and useful method of constructing spike machines. January 20, 1853.
William Allchin—Improved scythe holder. Jan. 26, 1853.
G. Ansley—Centrifugal and centripetal churn. Feb. 8, 1853.
Ezekiel Burley—Improvement on the wooden plough. February 14, 1853.
Daniel Mandigo—New and useful improvement in the construction of lightning rods. February 16, 1853.
Albert Rounds—New and useful improvement in the construction of lightning conductors. February 16, 1853.
Peter R. Higley—New and improved machine for cutting hay and straw. March 7, 1853.
Aretus A. Wilder—New and useful machine for planing, tonguing and groving boards. March 7, 1853.
Peter Murdock—New and improved running gear for vehicles. April 15, 1853.
George Anslay—Portable hot-air furnace and cooking stove. April 15, 1853.
James Russell—New and useful machine called Russell's corn crusher. April 15, 1853.
Peter Murdock—New and improved seed drill to be attached to a plough. April 15, 1853.
Charles Lemon—Improvement in construction of ploughs. April 15, 1853.
Charles H. Tetu—New and useful process of manufacturing leather from the skin of the whale or porpoise. April 16, 1853.
Charles H. Tetu—New and useful mode of manufacturing whale and porpoise oil. April 16, 1853.
Joseph Paradis—Useful improvement in the construction of thrashing machines. April 29, 1853.
William C. Ruttan—Improved gun barrel and projectile. April 29, 1853.
Edmund Richard—Machine for sawing straight and crooked wood of equal and unequal dimensions. April 29, 1853.
David Bell—Press or machine for the manufacture of earthenware, pipes and draining tiles. April 29, 1853.
Joseph Plamondon—Machine for cutting tobacco, without moistening it. April 29, 1853.
Daniel P. Brigham—New and useful improvement in the construction of fanning mills. April 29, 1853.
Asaph Buck—Self-gigging, self-setting and self-regulating saw-mill. April 29, 1853.
John Dean—Double reflector for baking purposes. April 29, 1853.
Daniel Smith—New and improved carriage and feeding and gigging-back-works for steam and water saw mills. May 11, 1853.
Zenas Everitt—Improved ladder. May 12, 1853.
William A. Holwell—Improvement in the construction of reins or bridles to be called the Duplex safety rein. May 12, 1853.
Joseph Woods—New and improved cant hook for piling and otherwise handling and disposing of railway iron bars. May 28, 1853.
Benjamin F. Tibbetts—Improved mode of constructing steam engines. June 11, 1853.
Nirum W. Rockwell—Limited horse swing. June 11, 1853.
Charles W. Smith—New and useful improvements in the construction of harvesting machines. June 20, 1853.
John Morley—Improved mould-board for ploughs. June 20, 1853.
Jackson McIntyre—File-cutting machine. June 20, 1853.
Charles S. Rodier—New and useful improvement in the construction of trashing machines. June 20, 1853.
John W. Armstrong—New and useful improvement in the construction of ploughs. June 21, 1853.
J. Handford—Improved threshing machine. June 21, 1853.
Calvin P. Ladd—Metalic burial case. July 8, 1853.
Robert Thomas—Paddle box tubular raft. July 19, 1853.
Alexander S. Walbridge—New and useful machine for sawing and planing, by one operation, of all lumber. July 20, 1853.
Geo. Urquhart—Improvement in metalic carriage springs, called "The Urquhart elliptic springs." July 20, 1853.
Wm. J. Spence—Self-adjusting paddle wheel. July 26, 1853.
Alexis Robitaille—New and improved apparatus and method of working for, obtaining, and producing gas for the purposes of illumination, from rosin and oil, and other substances of like nature, and from the decomposition of water. September 2, 1853.
John Dean—Improvement in the mode of constructing the double reflector for baking purposes, invented by him, for which letters patent were issued on the 29th April, 1853. September 7, 1853.
Alexander Anderson—New and useful machine for planting potatoes. September 15, 1853.
Masa B. Southwick—New and useful apparatus for, and method of, crushing, drying, and otherwise preparing potatoes and other vegetable substances as well as fruits and meats, for the purposes of food. Sept. 15, 1853.
Lewis Reese—New and useful improvement in the manufacture of straw-cutting machines. September 19, 1853.
Alexander Turnbull—New and useful improvement in the construction of Canadian ploughs. October 5, 1853.
Nathan Buchannan—New and useful apparatus for, and method of desiccating lumber and other materials. October 6, 1853.
Robert E. Stephens—New and improved excavator for the purpose of cutting or excavating and moving clay, sand, gravel or other substances. October 6, 1853.
John Parsons—Improved machine for making bricks. October 6, 1853.
John Parsons—Apparatus for the purpose of cleansing or drawing off beer from the fermenting tuns. Oct. 13, 1853.
Dalrymple Crawford—Improved machinery for arresting the progress of railway trains. October 15, 1853.
Isaac Modeland—New and useful improvement in the construction of ploughs. October 19, 1853.
Jacob Wood—New and useful improvement in the present mode of constructing churns. February 2, 1854.
Levi Howell—New and useful improvements in the construction of the cider mill and press. Feb. 2, 1854.
J. T. Forbes—Improved elevating bedstead. Feb. 2, 1854.
William Bowman—Improvement in railway cars and carriages. February 2, 1854.
Lewis Armsbury—New and useful improvement in the construction of churns. February 2, 1854.
Stanistlas Kwesneski—Prize hot-air and cooking furnace. February 8, 1854.
George Dunham—Improved method of running paddle wheels. February 11, 1854.
Antoine St. Jacques—New and useful improvement in the construction of post augers. February 22, 1854.
John Winer—New and useful improvement for heating air for warming apartments by the waste heat of a stove or other fire grates, to be denominated "Winer's pyrpneumatic fire grate. March 22, 1854.
Benjamin Cole—New way of closing shop window shutters. March 23, 1854.
Hiram Scovell—Cider mill and press. March 28, 1854.
William H. Soper—Improvement in the grooving and inside finishing of rifle barrels. March 28, 1854.
Lewis Reese—New and useful improvement in the construction of a machine for cutting hay or straw. March 30, 1854.
George Williston—New and useful machine for straightening or curving rails. April 4, 1854.
Pierre Gauvreau—New and useful cement to be called "Gauvreau's Canadian hydraulic cement." April 5, 1854

Jonas P. Lee—New and useful improvement in a machine called "Double acting knitting machine." April 10, 1854.
John H. Charnock—New and useful machine for moulding all descriptions of tiles, pipes and bricks for drainage, sewerage, building or other purposes, from clay or other plastic substances. April 17, 1854.
Peter Murdoch—Compound carriage so constructed as that all kinds of wheel carriages may be converted into sleighs. April 18, 1854.
Peter Murdoch—Improvement in double dash churn. April 18, 1854.
R. Lossing—Rolling screen fanning mill. April 21, 1854.
John Parsons—Apparatus for cooking, for bakers' ovens, for drying and roasting malt and other vegetable produce, seasoning timber, drying room with self-acting ventilator, for laundries, hatching poultry, heating irons, and keeping cooking provisions hot by the application of gas. April 28, 1854.
Joseph Thirkell—Improvements in the forming, shaping and casting of iron ploughs. May 29, 1854.
Benjamin Wait—Combination of machinery for the making of barrels, kegs, tubs and other bilge works. June 6, 1854.
Joseph Scobell—New and improved method of manufacturing peat-bog, by drying, pressing and cooking for fuel and other purposes. June 7, 1854.
Daily Seleck—New and useful improvement in the construction of churns. June 14, 1854.
Joseph Scobell—New and improved method of covering roofs with slate. June 14, 1854.
Richard D. Chatterton—Floating gangway, boat launch and life raft. June 19, 1854.
R. Hoyt—Improved obstetrical supporter. June 29, 1854.
William J. Huckett—Improved signal light for railways. June 30, 1854.
Richard Muchal!—Machine for working irregular surfaces, so as to form a piece of timber to any required shape. July 13, 1854.
Thomas Murgatroyd—New and useful improvement on carriages. July 21, 1854.
John Brown—Seed sower. July 21, 1854.
D'Arcy Porter—New and improved sewing machine. July 21, 1854.
John Pye—New and improved method of constructing water closets. August 14, 1854.
Stephen R. Andres—New art of manufacturing paper from the plant known by the Linnean-generic name of Gnaphalium, and vulgarly called cud-weed or life-everlasting. August 25, 1854.
Michael Egan—New and improved mode of making moulds for copper, brass and composition castings. Aug. 26, 1854.
John H. Gatis—New and useful improvement in the apparatus for cleaning and scouring wheat, rye and buckwheat. August 28, 1854.
Joel B. Hayden—Improved hub for carriage and waggon wheels. September 4, 1854.
William Nixon—Potato and seed drill. Sept. 4, 1854.
John Brown—Improved straw cutter. September 4, 1854.
Henry Miller—New and useful machine for expeditiously arresting the progress of railway cars by almost sudden steam brakes. September 19, 1854.
Lewis B. Carpenter—Improved hand-lantern. Oct. 6, 1854.
Henry C. Lindo—New and useful process for depriving hides and skins of the hair, wool fur or bristles, preparatory to being tanned. October 19, 1854.
Robert Romaine—Certain improvements in machinery or apparatus for effecting agricultural operations. October 19, 1854.
Robert E. Stephens—Improved bedstead. Oct. 20, 1854.
J. H. Gatis—Central discharge water-wheel. Oct. 28, 1854.
Charles DuBerger—New mode of preventing railroad cars from running off the track or rail, consisting of a safety-hook. November 7, 1854.
Samuel Cutter—New and improved method of making gas and applying it to, and for the purpose of illumination, or heating, &c. November 7, 1854.
Charles H. Waterous—Machine for making nuts and washers from a heated bar of metal. Nov. 8, 1854.
Leon A. Lemire—New polishing buff called the wheel or hand buff, for daguerreotype purposes. Nov. 14. 1854.
Robert Thomas—Machine for clearing snow from off railway tracks, to be called "Thomas's snow exterminator." November 30, 1854.
James B. Smith—New and useful improvement in the construction of portable or stationary steam or water mills. December 6, 1854.
Rodolphus Lounsburg—Canadian thistle-killer and cultivator. December 8, 1854.
Alexander Anderson—Potato digger. December 13, 1854.
William Bowman—New and useful improvements in the construction of railway cars. January 12, 1855.
Homer P. Brown—Improvement on the chaff cutter or cutting box. January 19, 1855.
John Helm, the younger, and John Wade—Machine for boring holes in the ground for fence posts or other purposes. January 20, 1855.
Ruth Adams—Reverse cooking stove. January 20, 1855.
William Fitzpatrick—Certain improvements in nail machine feeder. January 20, 1855.
James Overholt—Horizontal sawing machine for cross-cutting logs of wood. January 20, 1855.
Benjamin McBeth—Longitudinal motioned fanning mill. February 3, 1855.
Henry Cowing—Certain improvements upon machinery. February 8, 1855.
Jacob Pingle—Potato digger. February 8, 1855.
John McDougall—Cooking and boiling apparatus. March 6, 1855.
Thomas S. Fox—Switching apparatus, &c. March 6, 1855.
Alexander Anderson—Improved cultivator. March 6, 1855.
Leonard Robinson and James Woolbridge—Safety lever buckle. March 13, 1855.
A. Palmer—New & useful reaping machine. March 13, 1855.
Henry Markle—New and improved double dasher churn. March 15, 1855.
Charles Petch—Improvements in machinery for manufacturing waggon spokes and other articles irregular in their form. March 22, 1855.
James Atkinson—Improvement upon the drill and broadcast sowing machine. March 22, 1855.
William Fitzpatrick—New and useful improvements in nail machine feeders. March 22, 1855.
Henry Sewell—New and useful machine for picking oakum. March 22, 1855.
Dalrymple Crawford—Improved machinery for filling steam boilers with water. March 24, 1855.
Michael Egan—New and improved method of oiling car journals. March 27, 1855.
Samuel Darling—Art of raising sunken vessels or other objects, by means of buoys and weights. April 5, 1855.
Charles Dorion—New and improved method of constructing cutters, for the purpose of racing. April 10, 1855.
Nicholas Lacroix—New and improved water wheel, called "Turbine helicoide." April 10, 1855.
A. D. Cole—New and useful water wheel. April 10, 1855.
Thomas D. Flood—New and improved method of constructing that part of the action of a pianoforte called the hopper. April 10, 1855.
Charles S. Rodier—New and useful machine for sawing wood. April 10, 1855.
Abraham Steers—New and improved method of quick tanning. April 20, 1855.
A. Steers—New and improved method of manufacturing the dye, saccharine salts or extracts of vegetable substances, without the usual evaporation. April 21, 1855.
John Williams—New and useful improvement in the blast of locomotive engines. April 24, 1855.
Samuel Morse—Improved plough. April 28, 1855.
William Holborn—Washing machine. April 28, 1855.
Josiah, James, and John Dennis—Washing machine. May 4, 1855.
Eli B. Hungerford—Cast iron fastener for the putting together of posts and rails of bedsteads. May 8, 1855.
James B. Young, Richard S. Brown, and Henry Davis—New and useful invention for propelling boats against the wind, and in all directions with the same wind. May 9, 1855.
Isaac G. Ogden—New and useful improvement in the construction of water wheels. May 15, 1855.
William Bowman—New and useful mode of constructing railway car wheels. May 15, 1855.
William Niblock—Improvement in the manner of constructing horse rakes for raking hay. May 26, 1855.
Jonas P. Lee—Round rotary or circular knitting loom. May 28, 1855.
Robert Pooler—New and useful improvement in the construction of a breech loading fire-arm, either rifle or smooth bored. June 4, 1855.
Ruther McDougall—Improved oil box for oiling axles of rail car wheels. June 8, 1855.
Jacob Barnes—Reciprocal acting pump. June 14, 1855.
James B. Young, Richard S. Brown and Henry Davis—Self-opening railway gate. June 14, 1855.

MUNICIPALITIES, CANADA WEST.

In the following compilation will be found all that is either useful or important, relative to the Counties and Union of Counties in Canada West. Similar information was applied for to the municipal authorities of Canada East, but could not be obtained sufficiently full for publication, owing to the new Municipal Act of Lower Canada coming so recently into force; the Compiler, however, tenders his sincere thanks to all those gentlemen in Lower Canada, who so kindly afforded him such information as was in their power. For the lists of Magistrates, we are indebted to the courtesy of the Provincial Secretary, who remarks:—"I have not specified in the list the Magistrates who have qualified, as it would not have been in my power, from the returns sent to this office, to have given you a perfectly correct statement in that respect." We would also mention that the names of those who have died since their appointment, have not in all cases been left out; but errors of this kind have been corrected as far as the means at our command permitted.

1.—Brant.

Acres—1,218,852.
Population in 1852—25,426.
Assessed Value in 1855—£1,255,129.
Liabilities—None.

County Officials.

Warden—Allen Good, Brantford.
Treasurer—Hamilton Biggar, Brantford
Registrar—T. S. Shenstone, Brantford.
Clerk—John Cameron, Brantford.
Solicitors—Cameron & Rubridge, do.
Judge Co. Court and Chairman Quarter Sessions—S. J. Jones, Brantford.
Sheriff—John Smith, Brantford.
Clerk of Peace—J. Cameron. Brantford.
Clerk of Co. Conrt and Deputy Clerk of Crown, Duncan Cameron.
Judge Surrogate—Stephen J. Jones, Brantford.
Deputy Registrar Surrogate—Walter Rubridge, Brantford.

Clerks of Division Courts.

Division I.—Henry Racey, Brantford.
Division II.—John A. Penton, Paris.
Division III.—S. Stanton, St. George.
Division IV.—W. M. Whitehead, Burford.
Division V.—James Malcolm, Scotland.
Division VI.—T. Butler, Tuscarora.

County Town—BRANTFORD.

Chief Magistrate—William Mathews, Brantford.
Clerk—George Varey, Brantford.
Population—5,800.
Assessed Value in 1855—£40,324.
Taxes per £ Annual Value—3s.

Municipalities.

Townships—Brantford, Burford, Dumfries South, Oakland, Onondaga, Tuscarora; Towns of Brantford and Paris.

Magistrates.

Jones, Stephen James, Brantford.
Stanton George, South Dumfries
Moyle, Henry, Brantford Township.
Wilkes, John Asten, Brantford Town.
Digby, Alfred, do.
Cook Abraham, do.
Capron, Hiram, Paris.
Christie Robert, South Dumfries.
Smith, Abraham K., Brantford Town.
Smith John. Paris.
Biggar Herbert, Brantford Township.
Wyld James C., do.
Shenstone Thomas S., do.
Malcolm, Eliakim, Oakland.
Toyne, John, do.
Eddy John, do.
Daniels, Lawrence, Burford.
Perley Charles S., do.
Foster Alonzo, do.
Oswald, James, do.
Beemer, George, do.
Horner, Henry, do.
Malcolm, James, Oakland.
Chapin, Charles, do.
Thompson. Wm., do.
Finlayson, Hugh, Paris.
Totten, Daniel, do.
Spottiswoode, Alex. Paris.
Hamilton, Norman, do.
Anderson, Daniel, South Dumfries.
Mullen William, do.
Roy. William, do.
O'Niel, Daniel, do.
Latshaw, Henry, do.
Sharp. James, do.
Cope, David, do.
Kitchin, Edward, do.
Burt, Robert, do.
Smith, Carleton C., do.
Beemer, Joseph, do.
Burnet, Arthur, do.
Clement, Joseph D., Brantford Town.
Kirkland, Alexander, do.
Cockshutt, Ignatius, do.
Huntingdon, Arnnah, do.
Strobridge, Richard R. do.
Dalton, Joseph, do.
Sproule, Robert, do.
Muirhead, William, do.
Moore, John Henry, do.
Wilkes, James, do.
Smith Arthur, Onondaga.
Soules William D., do.
Conboy, Thomas, do.
McNaughten, Dan. do.
Algar, William N. do.
Kelly, Alpheus, J., do.
Butler, Thomas, do.
Hill, Amos, Brantford Township.
Campbell John, do.
Batson, Thomas D., do.
Smith, George, do.
Weaver. Peter, do.
Brown, David, do.
Hawley Harvey, do.
Tufford, John, do.
Maxwell James, do.
Griffin, Nathaniel F., do.
Tapley, Samuel, do.
Cook, Thomas, do.
Phelps, Hiram, do.
Chapin Lyman, do.
Smith, Thaddeus, do.
Keith, James, do.
Muir Robert, Burford.
Horner, Thomas, do.
Smith, Russell, do.
Kelly John, do.
Kerby William, K. do.
Ross, Hervey, do.
Hedges Charles, do.
Kinney Hiram, do.
Vanderlip, Edward, Brantford Town'p.
Likins, John, do.
Lampkins, John, do.
Hawley, Abraham, do.

Wilkes, John A., Brantford.
Digby, Alfred, do.
Smith, Abraham K. do.
Clement, Joseph D. do.
Steele, John, do.
Kirklands, Alexander, do.

2.—Carleton.

Acres—574,520.
Population—31,882.
Liabilities—£699 10s. 4d.
Amount of Debent. issued—£464 17s.

County Officials.

Warden—Joseph Hinton, Richmond.
Treasurer—Daniel O'Conner, Ottawa.
Registrar—Edward Sherwood, Ottawa.
Clerk—Charles H. Pinhey, Ottawa.
Solicitor—John Bower Lewis, Ottawa.
Surveyor—Isaac Mactaggart, Ottawa.
Judge County Court and Chairman Quarter Sessions—Christopher Armstrong, Ottawa.
Sheriff—Simon Fraser, Ottawa.
Clerk of Peace—F. C. Powell, Ottawa.
Clerk of Co. Court and Deputy Clerk of Crown—H. J. Friel, Ottawa.
Judge Surrogate—Christ. Armstrong.
Registrar Surrogate—H. J. Friel.

Clerks of Division Courts.

Division I.—George R. Burke, Ottawa.
Division II.—J. A. Bryson, Richmond.
Division III.—John Fenton, Huntley.
Division IV.—Wm. D. Pigott, Fitzroy Harbour.
Division V.—W. Cowan, North Gower.
Division VI.—Thomas Baillie, Osgoode.

County Town.—OTTAWA.

Chief Magistrate—John Bower Lewis.
Clerk—William P. Lett.
Population—Above 10,000.
Assessed Value, 1855, £38,805 12s. 5d.
Taxes per £ Annual Value, 3s.

Municipalities.

Townships—Fitzroy, Gloucester, Goulburn, Huntley, March, Marlborough, Nepean, North Gower, Osgoode, Torbolton; City of Ottawa and Village of Richmond.

Magistrates.

Armstrong, Christopher, Ottawa.
Eastman, John, North Gower.
McDonell, Alexander, Osgoode.
Shirreff, Robert, Fitzroy.
Richey John, do.
Baker, George W., Nepean.
O'Connor, Daniel, Ottawa.
McNaughton, John, do.
Stevenson, James, do.
Stewart, William, do.
Chitty, John, do.
McLaren, David, Torbolton.
Campbell, William, Marlborough.
Bradly, William B., Huntley.
McArthur, Donald, Ottawa.
Thompson, William H., do.
Buckham, John, Torbolton.
Thomson, William, Nepean.
McNabb, John, Osgoode.
Hanna, Henry, do.
Robertson, John, Nepean.
Robinson, Nelson G., do.
Goodman, John G., March.
Hinton, Joseph, Goulburn.
Sumner, John, do.
Grant, Robert, do.
McBride, Henry, Huntley.
Manyon, John, do.
Lowry, Hamilton, Fitzroy.
Taylor, William P., do.
McDonell, Angus R., do.
King, George, do.
Smyth, William, Gloucester.

Bradley, Clements, Gloucester.
Nelligan, Patrick, do.
McNabb, Peter, Osgoode.
Cameron, Daniel, do.
Grant, Robert, do.
Hippinstall, Richard, do.
Burritt, George L., Marlborough.
McKie, William, do.
Bottum, Elijah, do.
Craig, James, North Gower.
Besserer, Louis T., Ottawa.
Barreille, Jean, do.
Patterson, George, do.
Porter, John, do.
Lindsay, James, North Gower.
Thompson, John, do.
Collins, Dennis, Marlborough.
Hill, Hamnet, Ottawa.
Malloch, Edward, do.
Shillington, Thomas, North Gower.
McLachlin, Daniel, Ottawa.
Farley, Robert, do.

COBOURG AND PETERBORO' RAILWAY—The Cobourg and Peterborough Railway was built by the inhabitants and municipality of Cobourg, under a charter obtained in November 1852; it is completed to Peterboro', a distance of twenty-eight miles, with privilege of extension up the Otanabee River to the various extensive mills now in active operation, and on which are a succession of mill privileges of vast power; also, by amended charter, to extend a branch to the Marmora Iron Works, which is now under survey. An important feature in this Railroad is the connection of the north and south shores of Rice Lake, three miles apart, by a pile and truss bridge, thus overcoming a barrier to the trade of the back country, with Cobourg its nearest port. This road did not get into working operation before 1st of June, 1855, since which there has been transported over it 18,705 tons of freight, including 9,553,161 feet of lumber and 7,254 passengers, the gross receipts for which amount to $27,151 81-100ths, or, $60.34 per mile per week.

Peterboro', the present terminus of the railway, is a town of rising importance; and in addition to its usual exports of grain and flour, must supply an immense quantity of lumber and timber from the unbroken forests surrounding and connected with it by water communication through lakes and rivers to the unsurveyed forests reaching to the sources of the Ottawa River.

Cobourg, through this connection, must rapidly increase in population and wealth; the G. Trunk Railway Co. having purchased some seventy acres in the heart of the town, purpose establishing a central depot of more than ordinary extent. The harbour is entirely artificial, of beautiful construction and position, accessible throughout winter. This work, like the railway, is the property of the town, and is a source of rapidly increasing wealth. By the assessment in January, the property of the town was valued at £456,370 10 0

The estimated value of the harbour, as represented by last year's nett revenue of £3,500	50,000	0	0
Corporation real estate	5,000	0	0
Invested in the Railway	125,000	0	0
Total	£636,370	10	0

The liabilities of the Town are—

To the Municipal Loan Fund	£125,000	0	0
To Ordinary Debentures	28,000	0	0
Total	£153,000	0	0

The above works (The Cobourg and Peterboro' Railway, and Cobourg Harbour,) of so much public importance, are the fruits of a well-directed local enterprise, entitling the population of the town of Cobourg, of some five thousand people, to much credit.

JUDICIARY—UPPER CANADA.

Court of Appeal.—Judges, the Judges of the Superior Courts of Law and Equity. Clerk, the Registrar of the Court of Chancery, Toronto.

Court of Queen's Bench.—Chief Justice, Hon. Sir J. B. Robinson, Bart. Puisne Judges, Hon. W. H. Draper and R. E. Burns. Clerk of the Crown and Pleas, C. C. Small. Reporter, J. Lukin Robinson, Toronto.

Court of Chancery.—Chancellor, Hon. W. H. Blake. Vice-Chancellors, Hon. J. C. P. Esten and J. G Spragge. Master, A. N. Buell. Registrar and Reporter, A. Grant. Long vacation from 1st July to 21st August.

Court of Common Pleas.—Chief Justice, Hon. J. B. Macaulay. Puisne Judges, Hons. A. McLean and W. B. Richards. Clerk of the Crown and Pleas, L. Heyden. Reporter, E. C. Jones, Toronto. Clerk in Chambers, W. B. Heward, Toronto

Clerks of Assize.—W. A. Campbell, Toronto: the Deputy Clerks of the Crown are ex officio Clerks of Assize and Marshals in their respective counties.

Deputy Clerks of the Crown.—The Clerks of the County Courts will be ex officio Deputy Clerks of the Crown and Pleas of their several counties as the present incumbents vacate by death or otherwise.

Law Terms.—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins 1st Monday in June, and ends Saturday of the ensuing week; Trinity begins last Monday in August, and ends on the Saturday of the ensuing week; Michaelmas begins third Monday in November and ends Saturday of the ensuing week. Long vacation commences 1st July, and ends 21st August.

Circuits.—The Circuits are held twice a year in each County, between Hilary and Easter Terms, and between Trinity and Michaelmas Terms, except in the County of York, where there are three in each year, commencing on the first Thursday in January, the first Monday in May, and the second Monday in October, in each year. There are six Circuits, as follows, viz.:—The *Eastern:* Perth,

* The above, relating to some of our Canadian Railways, has been supplied by their respective Managers. It was expected that all our lines of Railway would have been noticed, but this was not deemed desirable by some of the Managers, who withheld the necessary information.

Cornwall, Bytown, L'Orignal, Brockville. *Home:* Niagara, Whitby, Hamilton, Cayuga, Barrie, Sydenham. *Western:* St. Thomas, Sandwich, Sarnia, Chatham, London, Goderich. *Midland:* Peterborough, Cobourg, Belleville, Picton, Kingston. *Oxford:* Simcoe, Brantford, Guelph, Berlin, Stratford, Woodstock. *Toronto:* Toronto.

Heir and Devisee Court.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. Clerk of Commissioners, W. B. Heward.

Court of Probate.—Official Principal, S. Brough, Toronto; Registrar, C. Fitzgibbon, Toronto.

Surrogate Court.—Judge, S. B. Harrison; Registrar, Wm. J. FitzGerald, Toronto.

County Courts.—Presided over by resident Judge in each county; these Courts possess equity powers.

Quarter Sessions.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of larceny, misdemeanor and other offences. Sittings, first Tuesday in January, April, and July, and the third Tuesday in November, with power of adjournment.

Recorders' Courts.—In the Cities of Toronto, Hamilton, and Kingston, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. The City Sessions are held on the first Monday in January, April, July and November.

Division Courts.—For the summary disposal of cases by the County Judges. Courts are held once in two months in each division, or oftener, at the discretion of the Judge. The divisions are established by the Courts of Quarter Sessions. The jurisdiction of these Courts has been enlarged by the Act of last Session—(See page 43.)

Insolvent Debtor's Court.—The County Judge in each county presides.

JUDICIARY—LOWER CANADA.

Court of Queen's Bench—Chief Justice, Hon. Sir L. H. Lafontaine, Bart.; Puisne Judges, Hons. T. C. Aylwin, J. H. Duval, R. E. Caron. Appeal Side, Terms—Quebec, 7th to 18th January, and 1st to 12th July. Montreal, 1st to 12th March, and 1st to 12th October. Crown Side, Terms—Quebec, 20th January and 14th July. Montreal 14th March and 14th October. Three Rivers, 2nd February and 11th September. Sherbrooke, 12th February and 20th September. Kamouraska, 5th April and 5th November. Aylmer, 10th June and 10th Dec. Gaspe: The Circuit Judges exercise criminal jurisdiction in Term.

Superior Court—Chief Justice, Hon. F. Bowen; Puisne Judges, Hons. William C. Meredith, A. N. Morin, and J. T. Badgley, Quebec; Hons. C. D. Day, James Smith, C. Mondelet, and George Vanfelon, Montreal; Hon. D. Mondelet, Three Rivers; Hon. E. Short, Sherbrooke. Terms—Montreal, from 17th to 27th February, March, April, May, June, September, October, November and December. Quebec, from 1st to 5th February, March, April, May, September, October and December, and 20th to 25th June and November. Three Rivers, 12th to 25th February, 1st to 11th June, and 1st to 14th November. Sherbrooke, 20th to 27th January, 1st March, and October 8th to 15th of June. Kamouraska, 26th March to 24th April, and 26th October to 4th November. Aylmer, 1st to 10th February, and 1st to 10th July. Perce, 21st to 30th August. New Carlisle, 4th to 13th September. The sittings at Perce and New Carlisle, in the District of Gaspe, form only one Term. The Governor may authorize the holding of another Term annually, in this District.

Circuit Courts.—Judges—Wm. Power, Esq., Quebec; H. Guy, J. S. McCord, and J. C. Bruneau, Esqrs., Montreal; J. G. Thompson, and J. F. DeBlois, Esqrs., Gaspe: J. A. Taschereau, Esq., Kamouraska; and W. K. McCord, Esq., Aylmer.

Quarter Sessions.—Quebec, Montreal, Three Rivers—commence severally, 8th January, 4th April, 4th July, and 4th October. Sherbrooke—commence 8th January, 8th April, 8th July, and 8th October. Kamouraska, from 7th to 15th January, and 15th to 24th July. Aylmer, 5th April and 5th October. Gaspe—At Perce and at the Basin, and at New Carlisle and Carleton, the three days succeeding the sittings of the Circuit Court at these places respectively.

Vice Admiralty Court.—Judge, Hon. H. Black, Quebec; Registrar, Charles Drolet; Marshal, J. B. Parkin.

Commissioners' Courts held monthly in the country Parishes, for determining cases in a summary, way not exceeding £6 currency each in amount.

Clerk of Appeals—J. U. Beaudry, Quebec.

Wickson, A.M.; E. Ebbs; J. T. Byrne, and J. B. Robinson; Messrs. A. Christie, Peter Freeland, W. F. Meudell; John Nasmith, John Snarr, and E. Childs. Rev. A. Lillie, D.D., Professor of Theology, &c.; Rev. A. Wickson, A.M., Classical and Hebrew Tutor. Course, Four Sessions of eight months each, from middle of Oct. to middle of June.

Divinity Hall of the United Presbyterian Synod.—The Divinity Hall meets in Toronto on the 3rd Tuesday in October and continues in session till 2nd Thursday of April. Professor, Rev. John Taylor.

Universite Laval—Faculte de Medecine. J. Blanchet, M.D., Professeur de Physiologie et des Institutes de la Medecine; J. A. Sewell, M.D., Professeur de la Therrie et de la Practique de la Medecine, et de Clinique Medicale; J. Z. Nault, M.D., Professeur de Matiere Medicale et de Therapeutique, et de Clinique Medicale; J. C. Fremont, M.D., Professeur des Principes et de la Practique de la Chirurgie, et de Clinique Chirurgicale; A. A. Jackson, M.D., Professeur de l'Obstetrique et des Maladies des Femmes et des Enfants; J. Landry, M.D., Professeur d'Anatomie et de Clinique Chirurgicale; E. Lemieux, M. D., Professeur de Jurisprudence Medicale, et Demonstrateur en Anatomie; S. S. Hunt, Ecuyer, Prof. de Chimie; T. Z. Nault, Secretaire.

Council of Public Instruction for Upper Canada.—Hon. Samuel Bealy Harrison, Q.C., Chairman; Rev. Egerton Ryerson, D.D., Chief Superintendent of Schools; Right Rev. A. F. M. de Charbonnel, D.D., Roman Catholic Bishop of Toronto; Rev. H. J. Grasett, B.D.; Joseph Curran Morrison, Q.C., M.P.P.; James Scott Howard; Rev. John Jennings, and the Rev. Adam Lillie, D.D. Members for the purpose of the Grammar School Act, Rev. John McCaul, LL.D., President of University College, and the Presidents of the Colleges affiliated with the University of Toronto; John George Hodgins, Recording Clerk.

Provincial Normal and Model Schools.—For the instruction and training of Teachers. Normal School: Thomas Jaffray Robertson, Head Master; Rev. William Ormiston, A.B., Second Master; Archibald McCallum, Teacher of Book-Keeping; William Hind, Teacher of Drawing; Henry Goodwin, Teacher of Gymnastics and Calisthenics. Model Schools: in which the Normal School Students practice the art of Teaching. Archibald McCallum, Master of Boy's School; Warren Rock, First Assistant; David Ormiston, Second Assistant; Dorcas Clark, Mistress of Girl's School; Henrietta Shenick, First Assistant; Helen Clark, Second Assistant; and the Teachers of Music Drawing, and Gymnastics and Calisthenics in the Normal School The Sessions of the Normal School commence on the 15th May and 15th of November of each year, and continue for five months each.

Grammar Schools.—Each of these Schools is managed by a Board of Trustees, appointed by the County Council. There is one Grammar School in each County Town, which receives at least £100 per annum; and where the funds will admit of it, others may be established in different parts of the County. Pupils attending these Schools are prepared for matriculation in the University and Colleges. There were 64 Grammar Schools, with 4,287 pupils, in Upper Canada, in 1854.

Common Schools.—Each township is divided into School Sections of a suitable extent for one School; and in each of these sections three Trustees are elected to manage its school affairs. In cities, towns and villages they are managed by a board of School Trustees elected for each ward or municipality. There were 3244 Common Schools, with 204,168 pupils, in Upper Canada, in 1854.

Public School Libraries—Each School and Municipal Corporation desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent. on local appropriations, and supplying books from the Depository in connection with the Department. During the last year and a half (October, 1855) about 250 Libraries have been established, containing 115,508 volumes.

The Total number of educational institutions reported by the Department of Public Instruction in operation in Upper Canada during 1854, was 3,512, attended by 214,734 pupils, and expending £239,128 11s. 3d. in their support.

MEDICAL.

Medical Board Upper Canada, Toronto.—President, The Hon. C. Widmer, M.D., and F.R.C.S., Eng.; Secretary, E. Clarke, F.R.C.S.E.; W. C. Gwynne, M.B.; W. Telfer, L.R.C.S.E.; W. Durie, K.H.; J. King, M.D.; W. Beaumont, M.R.C.S., Eng.; G. Herrick, M.D.; W. B. Nicol, M.D.; John Rolph, M.R.C.S.; James Bovell, M.D.; Joseph Workman, M.D.; Edward M. Hodder, M.C. and F.R.C.S.E.; Jas. Sampson, Kingston; Harmanus Smith, Ancaster; James Wilson, Perth; Basil R. Church, Merrickville; W. H. Brouse, Prescott; Robert Edmondson, Brockville; W. H. Howard, Farmersville; Henry H. Wright, Toronto; W. Allison, Markham; Roderick McDonald, Cornwall; George H. Park, Hamilton; James Mitchell, Dundas; John Fraser, Pelham; Thomas T. Macklem, Chippawa; Ephraim Cook, Norwich; John B. Crouse, Simcoe; George Southwich, St. Thomas; W. Aikins, Toronto, and T. D. Morrison, Toronto.

Toronto General Hospital.—Incorporated 1847—Trustees: Appointed by Government. Hon. C. Widmer, M.D. James Beaty, and John Doel; by Corporation, G. W. Allan; by Board of Trade, Thos. Clarkson. Consulting Phys. & Surg., Hon. C. Widmer, M.D. Attending Phys. and Surg.'s, W. Telfer, M.R.C.S., Edin.; G. Herrick, M.D.; W. R. Beaumont, M.D., F.R.C.S., Eng.; E. M. Hodder, M.D., F.R.C.S., Eng.; James Bovell, M.D., L.R.C.P., London; J. Scott, M.D., M.R.C.S., Eng.; James H. Richardson, M.D., M.R.C.S., Eng.; Resident Surgeon, Edward Clarke, F.R.C.S., Eng.; Secretary and Treasurer, J. W. Brent. Hours of attendance, 12 o'clock, noon, daily. Visitors are permitted to see their friends every day from 3 to 5 p.m., except Saturday and Sunday.

Provincial Lunatic Asylum, Toronto.—Two-and-a-half miles West from the City Hall, on Queen Street. Property vested in the Crown. Government appoint Medical Superintendent and Bursar, and four visiting commissioners quarterly, two of whom are residents of the city, who frame by-laws for its government, thoroughly examine the Asylum, and report to the Governor General. The building was designed to accommodate, when the wings are erected, 250 patients; there are at present 370 in it. The Institution is open to the public between the hours of 12 noon and 3 p.m., every day, Saturdays and Sundays excepted, by application to the Medical Superintendent at the Asylum. The admission of patients is regulated by the Act, 16 Vic. chap. 188, which requires that the patient be examined by three licensed medical practitioners, verified by Reeve or Mayor collectively, who certify to the insanity. From the overcrowded state of the house, admissions are at present made as vacancies occur, according to priority of applicants. Idiots and persons afflicted with paralysis are inadmissable. Visiting Commissioners, G. S. Tiffany, Chairman, E. F. Whittemore, W. L. Perrin, and John Simpson, Esquires. Officers of the Institution: Medical Superintendent, Joseph Workman, M.D.; Bursar, J. McKirdy; Steward, G. McCullough; Matron, M.A. Parkes.

NOTE.—The Compiler, on the conclusion of his labors, regrets that want of space forbids the insertion of an Addenda correcting many typographical errors, and in particular, the List of Magistrates, as published under the head Municipalities. He regrets, also, to announce, that he has been compelled to exclude from the present Almanac, valuable Governmental Returns relating to the Provinces of Nova Scotia, New Brunswick, Prince Edward's Island and Newfoundland, kindly furnished him by officers in their respective governments. To them, however, and the very many gentlemen who afforded him information respecting the Government of Canada, the Municipalities, and other departments of the Almanac, he would tender his most sincere thanks for their valuable assistance.

CANADA PERMANENT
BUILDING AND SAVINGS SOCIETY,

ESTABLISHED IN 1855.

TO SUCCEED THE TORONTO, AND FARMERS' & MECHANICS' BUILDING SOCIETIES.

ON AN IMPROVED SYSTEM.

BOARD OF DIRECTORS.

JOSEPH D. RIDOUT, Esq., *President.*
PETER PATERSON, Esq., *Vice President.*

J. G. Chewett, Esq. — E. F. Whittemore, Esq.
T. D. Harris, " — J. G. Beard, "
A. Nordheimer, " — Thos. Maclear, "

Solicitor—E. C. Jones, Esq. — *Surveyor*—W. B. Crew, Esq.

Secretary and Treasurer—Mr. J. Herbert Mason.

Bankers—The Bank of Upper Canada.

Office—The Office lately occupied by the Farmers and Mechanics' Building Society, Toronto Street, Toronto.

Shares, £100; Half Shares, £50; Quarter Shares, £25.

TO INVESTING MEMBERS.

THE certain and highly profitable return secured to Investors of either large or small amounts by institutions of this nature, when properly conducted, as exemplified in the successful termination of the two societies above named, is now well understood; and in this Society the Investing Member has the additional advantage of being able to withdraw the amount paid in on his stock, with compound interest, whenever he desires, on giving a limited notice. New members will be received at any time, and will share in the profits from the time of their subscriptions commencing. Shares are paid up by monthly instalments of £1 1s. each, extending over six years, on which a discount will be allowed when paid in advance. A payment at the time of entering, of £64, entitles a Member to the full amount of his share, at the expiration of the time specified, and half or quarter shares in proportion.

TO DEPOSITORS.

To persons not members, the Society offers all the advantages of a Savings Bank, together with a higher rate of interest and more accommodating terms than those institutions are able to afford. The whole capital of the Society is pledged for the security of money received on deposit, and being all loaned on real estate, no safer guarantee can be given or required. Money will be received, for which interest will be paid at the rate of six per cent. per annum, on sums of ten pounds and upwards, and five per cent. under that amount, withdrawable at any time, on notice being given.

TO BORROWERS.

The Society will make advances, repayable by monthly contributions covering principal and interest, according to the following

LOAN TABLE:

	One Share of £100 0 0	Half Share of £50 0 0	Qr. Share of £25 0 0
be repaid in 1 year—a monthly payment of.....	£8 18 4	£4 9 2	£2 4 7
" " 2 " " "	4 15 0	2 7 6	1 3 9
" " 3 " " "	3 7 3	1 13 7	16 10
" " 4 " " "	2 13 2	1 6 7	13 4
" " 5 " " "	2 5 0	1 2 6	11 3

Applications for loans will be received by the Secretary, from whom copies of the Rules and Prospectus, and any further information may be obtained on application—if by letter, post-paid.

JAMES LEISHMAN,
MERCHANT
TAILOR,
READY-MADE CLOTHING,
IMPORTER OF
CLOTHS, CASSIMERES, VESTINGS,
AND
DRY GOODS,
KING STREET, TORONTO.

FALL IMPORTATIONS
AT THE

80, KING STREET EAST, TORONTO,

As any other retail store in the City. Also,

TAILORING IN ALL ITS BRANCHES.

CALL AND PROVE IT!

PLAIN FIGURES ONLY ARE USED, AND NO SECOND PRICE.

GEORGE LONGMAN.

"THE LEADER."

LITTLE more than three years ago, the Proprietor of the *Leader*—without having canvassed for party support, without having established any intermediate agencies for the enlistment of public patronage, without having covenanted beforehand for the co-operation of a single individual either in public or in private life—announced his intention of publishing a first-class Political Journal. The bitterness, the personal as well as the political animosity which characterized party journalism throughout the Province, led him to anticipate that a Newspaper which should introduce a new era in the Periodical Literature of the Province, by discussiug public questions solely on their merits —by discarding personalities, unless when these were indispensable—by assuming to storm the citadel of public opinion by argument, rather than by appeals to passion and to prejudice—could not fail to win its way into favor and influence with an intelligent community. Taking a retrospect from the present stand-point, the Proprietor feels that he can congratulate himself on the realization of his highest anticipations. Only a few months after this Journal was first published, the readiness with which the public supported it justified an enlargement. A few months more, and he found himself warranted in increasing the issues of the Journal from a Semi-Weekly to a Daily Edition. An enlargement in the Daily, the Semi-Weekly, and the Weekly, had to be made at a later date; and more than twelve months ago, by the incorporation of the *Daily Patriot* with the *Leader*, another important step in advance was taken by the issue of an Evening as well as a Morning Edition, along with the two Semi-Weekly and two Weekly Editions. Eighteen separate issues each week were thus given forth from the same Press, and under the same Proprietorship as that which first sent forth the Semi-Weekly bantling of 1852, to win its way to public favor. A few months subsequently, and before the *Leader* had completed the third year of its existence, a step still more important in newspaper improvement was made by the Proprietor. At a sacrifice which every other Journal in this Province, and every other Journal on this Continent—the New York *Tribune*, *Herald*, and *Times* alone excepted—has shrunk from, he determined on discarding the handbill system of advertising by the use of large type displayed over a great surface, and not only occupying space which might be devoted to reading matter, but destroying that harmony in the mechanical appearance of the Paper, which forms so marked a feature in English Journals, as compared with those of the United States, France, and Germany. Along with this plan of condensation, the Proprietor made, simultaneously, another change, which probably aggravated the sacrifice, without being correspondingly satisfactory in the shape of an improvement. This change, it is needless to say, was the adoption of the quarto form of publication. All these changes, however, it is proper to state, exemplified a progress in the history of Journalism which the Province had never before witnessed. And how sensible the reading public were of the improvement, may be gathered from the fact, that before the completion of the third year of the Journal's existence, our Paper was in the hands of FIFTEEN THOUSAND Families! and could count between Ninety and a Hundred Thousand Readers! This patronage—altogether unprecedented in the Province—was procured by no agency, save that of the voluntary co-operation of an appreciative public. The readers of the various Editions of our Journal have not been indifferent to the fact, that we had sacrificed, in some measnre, the patronage of the advertising community solely for their benefit—in order, in the first place, that there might be more reading matter in the Paper, and in order that the taste of an intelligent people might be gratified by the introduction of important mechanical improvements.

In the Fourth year of the Journal's existence, we sit down to chronicle yet another step in its progress. We have already alluded to the sacrifies which we have made of advertising patronage, purely for the benefit of the reading community. The time has come when, we think, the interest both of our readers and our advertisers may be advanced, by an improvement altogether new in the progress of Canadian Journalism. To give proper facilities to advertisers for display, at the same time that we jealously protect the interests of our readers, by an ample record of the news of the day, is a problem which has cost us some labour to solve. Whether we have succeeded, the future must, in part, be left to determine. Our present conviction is, that we *have* succeeded. Our plan is to discard the Quarto form, and throw open our columns for advertising display. We introduce, also, the fine broad column of the English Daily Journals—so well suited to show off Advertisements, and yet so well adapted to purposes of condensation, when space is valuable, as it always must be, in a leading Political and General Newspaper. With the introduction of the broad columns, the Proprietor has determined, also, on improving the quality of the printing paper; and along with these changes, we add a large space, equal to four broad columns, to the size of the Journal. The tendency of our improvement, however, is more towards mechanical excellence and perfect workmanship, than towards indefinite enlargement. We purpose showing those who follow our Leadership, what can be done in the way of newspaper progress and improvement, and we have confidence in the intelligence, the refinement, and the good taste of a Canadian community, that we shall not labour in vain.

In regard to the Literary department of the Journal, the Public are the fittest judges whether there is a corresponding improvement. On this point, it is out of place for us to say anything. Our Journal professes to speak in behalf of the intelligence of the Province. We claim for it the character of calmly discussing questions of political interest; of working with and for the body of the people, rather than slavishly serving a party; and of furnishing intelligence of the most valuable kind in advance of any other Journal in Canada.

THE MORNING EDITION

Of the *Leader* is published at the rate of Five Dollars a-year, every penny of which is expended in procuring the naked sheet on which we print; payable in advance, otherwise Six Dollars.

THE EVENING EDITION

s published at the same rate, and contains all the News of each day, up to Four o'clock P.M.

THE SEMI-WEEKLY EDITION

Is published on Tuesdays and Fridays, at Three Dollars a-year, paid in advance, and Three-and-a-half Dollars credit.

THE WEEKLY "LEADER,"

One of the best Journals for Country Circulation in Canada, is published every Wednesday Morning, at One Dollar a-year, strictly in advance. When not paid in advance, the charge is Two Dollars.

THE WEEKLY "PATRIOT"

Is also published every Wednesday, and is a First-class Weekly Paper, circulating more largely than any other Journal in Canada. It will be furnished on the same terms as the Weekly Leader.

Advertisements for the Daily Editions are inserted in the Semi-Weekly and Weekly Issues, without extra charge, at rates as low as those of Journals of the smallest circulation, notwithstanding that each Advertisement which appears in our Columns is seen by at least ONE HUNDRED THOUSAND PERSONS!

WORTHY OF NOTICE.

REV. DR. LYMAN BEECHER to Messrs. Reed, Cutler & Co., Boston.

Gentlemen,—I have used the *Vegetable Pulmonary Balsam* myself with benefit in Catansial Coughs and Colds, and have known it to be used with good effects in the early stages of Pulmonary Affections, in families around me.

(Signed) LYMAN BEECHER.

Boston, October 20, 1855.

Rev. Dr. Leonard Woods, (late Abbott Professor in Andover Theological Seminary,) writes to Messrs. Reed, Cutler & Co., as follows:—"From a long use of the *Vegetable Pulmonary Balsam* in my family circle, and in some instances among Theological Students, I have been led to regard it as a safe and efficacious medicine."

HOW ESTEEMED BY PHYSICIANS.—JOHN. A. BERRY, M.D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope it will be better known and more generally used."

OPINIONS OF THE TRADE.—August 1st, 1854—"We know of no medicine which has deservedly sustained so high a reputation for so long a term of years, or which more rarely disappoints the reasonable expectations of those who use it." [Signed,]

WHITEFIELD'S CANADIAN VIEWS.

THESE are the largest, most elaborate, and reliable Views that have ever been published, and embrace the Cities of Quebec, Montreal, Kingston, Bytown, Toronto, Hamilton, London, Port Hope, &c.

Size of Engraving 36 inches by 24 inches.

Price per single copy (plain)	£1	5	0
Do. do. (fully colored)	2	0	0
Do. for the set, complete (plain)	8	0	0
Do. do. (colored)	15	0	0

These Views are got up in the First Style of the Art, and printed on the finest quality of paper, made expressly for them, and they are well adapted for the parlor, or as presents to friends in the Old Country.

Orders sent to MACLEAR & Co., 16 King Street East, Toronto, will be promptly attended to.

NOTICES FROM THE PRESS.

VIEW OF MONTREAL.—We are sure all will admit that it would be impossible to have completed a picture more faithfully correct than Mr. Whitefield's View of Montreal.—*Montreal Pilot.*

We are satisfied, from this specimen of his handicraft, that Mr. Whitefield is no pretender, but an accomplished Artist, with the minute fidelity of Portraiture, and much skill in perspective and coloring, and that his picture is infinitely superior to anything of the kind that has ever been attempted.—*Montreal Transcript.*

Mr. Whitefield has completed the most faithful view of our city that we have ever seen.—*Montreal Gazette.*

Mr. Whitefield's view is a remarkably faithful one—the perspective very correct, and well worthy the talents of the artist; and we are glad to have it in our power to add our decided testimony to that of our cotemporaries, respecting the merits of this picture.—*Montreal Courier.*

We have no hesitation in saying, that a more beautiful and elaborately correct view of Montreal could not possibly be executed.—*Montreal Herald.*

VIEW OF QUEBEC.—Mr. Whitefield has completed his view of Quebec, and we have no hesitation in saying, that it is the best, the most correct, and the most judiciously sketched view of Quebec yet taken.—*Quebec Morning Chronicle.*

VIEW OF HAMILTON.—We have been shown by Mr. Whitefield, an engraved copy of his View of Hamilton, which is really beautiful, and in our opinion, as correct as it well could be.—*Hamilton Spectator.*

We have been favored with a glimpse of Mr. Whitefield's View of Hamilton. His correct delineation, style, and artistic skill have more than realized our expectations.—*Hamilton Gazette.*

We consider it admirably well executed. It is a faithful engraving of a beautiful city, and well deserves the patronage of our citizens.—*Daily Evening Journal.*

THE VIEW OF TORONTO which Mr. Whitefield has shown us is the only one which we have yet seen which does anything like justice to this city.—*Old Countryman.*

I am glad to say that Mr. Whitefield has achieved a great feat—he has drawn a good view of Toronto; a thing I scarcely deemed possible.—*Anglo American Magazine.*

Mr. Whitefield has, from the point he has selected, been able to introduce all the striking buildings that adorn our streets, and to give a very pretty view of the bay.—*Toronto Globe.*

Mr. Whitefield's productions far surpass in size and artistic excellence any we have yet seen.—*Canada Christian Advocate.*

Mr. Whitefield's views of Ottawa (late Bytown,) are perfect gems. * * * * He has a happy knack of always hitting on the best point from which to make his sketch, added to the masterly manner in which they are executed, is sure to please.—*Anglo-American Magazine.*

Mr. Whitefield's view of Port Hope is an admirable, and at the same time a truthful picture.—*Port Hope Pilot and Ensign.*

☞ A vast number of notices similar to these could be added were there room sufficient for the purpose.

MACLEAR & Co.,

16, KING STREET EAST, TORONTO,

HAVE great pleasure in embracing this opportunity of laying before their friends and the public generally, a few remarks on the facilities which they possess for supplying every demand connected with their business.

Booksellers. As Booksellers, they keep constantly on hand a full supply of valuable works, in every department of Literature, Science and Art. The Clerical Profession will find a large stock of Standard Works in Divinity, Theology, Sacred Criticism and Practical Christianity, the production of the most celebrated English and American Divines. Their stock of BIBLES is extensive and complete, comprising in size, every edition, from the elegant miniature for the pocket to the magnificent Quarto Illustrated, Imperial and Comprehensive Bibles, for family use, of Messrs. Blackie & Son, of Glasgow, Scotland, and in price, from the strong, useful sheep cover at a few pence, to the most costly productions of the binder's and gilder's art. In Hymn Books, they have the various collections used by different denominations of Christians, either bound up with the Bible, or separately, viz.: Psalms and Hymns for the Church of Scotland, Wesley's Hymns, Watts', and the Supplement to Watts', or Congregational Hymn Book. Church Services in great variety. Prayer Books, roan, gilt edges, from 25 cents each. Catechisms, &c. In Medical Books, they need only say that they are the agents for Messrs. Blanchard & Lea, of Philadelphia, and keep a stock of their valuable medical and Surgical works on hand; also, the best publications in this department of other houses, Home and Foreign. The London Lancet (monthly) supplied at $5 per annum. The Medico-Chirurgical Review (quarterly) for $3, and Braithwaite's Retrospect (half-yearly) for $2. To the Legal Profession M. & Co. beg to intimate that they are the publishers of several valuable legal works, and keep also every publication of importance on the subject necessary for the study or reference of gentlemen connected with the law. Under the head of Mechanism and the Useful Sciences, they have works on Engineering, Railway and Farm Machinery, Architecture, Ornamental Designs, Electricity, Chemistry, &c., in addition to the very useful series of Elementary Works published by Weale, of London, England. To the general reader they can offer an immense variety, suited to every age and taste, in History, Biography, Travels, Poetry, Essays, Fiction, &c. &c. All works of importance in this department can be procured of M. & Co. as soon as published. Educational Works, including Common School, College and other Text Books, wholesale and retail; Grammars, Dictionaries, Reading and Composition Books, in Greek, Latin, Hebrew, French, German, Spanish and Italian. In Periodicals, they receive and supply regularly all the principal publications, English and American. They will spare neither trouble nor expense to procure for their subscribers early copies. Under this head they may mention that they are agents in Canada for the Re-publication of Blackwood's Magazine and the four great English Reviews—The Edinburgh, the Quarterly, the Westminster and the North British, the whole of which are supplied for $10 per annum. These Reviews, it is known to many, are among the greatest efforts of English literature; their contributors are men of the highest standing; the topics they discuss are always of the utmost importance, and the manner as befits the most powerful intellects of this or any other age. Among the host of great names, living or dead, who have contributed to their pages, they may mention Lords Jeffrey, Brougham and Campbell, Rev. Sydney Smith, T. B. Macaulay, Sir Walter Scott, J. G. Lockhart, Dr. Chalmers, H. Rogers (author of the Eclipse of Faith), Carlyle, Mazzini, Sir David Brewster, Sir W. Hamilton and many others; and it is not too much to say, that no man can be conversant with the full development of English literature, who is not a reader of these Reviews, while the amount for which they are supplied is less than a third the published price. The Illustrated London News, Punch, and other English papers, immediately upon the receipt of the mail every week. M. & Co. will be happy to procure, either from England or the States, any works to order which they have not in stock.

Sacred Literature. Bibles, &c. Medical. Legal. Scientific and Useful. General Reading. Educational. Periodical. Blackwood and the Reviews. Their Contributors.

Stationery Maclear & Co. have imported direct from the manufacturers in Great Britain an immense stock o PAPER, of every make, size, weight and quality. They believe that they will thus effect to their customers a considerable saving over those houses who, not importing themselves, have to pay an extra per centage for the agency on this side. The stock consists of Book and Writing Papers, Foolscap, Pott, Letter and Note Paper, Copying, Blotting, Cartridge and Wrapping Paper, Drawing, Tissue and Music Paper, Tracing Cloth and Paper, &c.; Ledgers, Journals, Day, Cash, Bill and other Blank Books of all sizes; while, with their facilities for ruling, paging, binding, &c., they are enabled to execute upon the shortest notice every description of book to order for Counties, Municipalities, Railroad Companies, Bankers, Shippers, Merchants, &c. &c. Clerks of the Peace and Clerks of the Council of the different Counties are respectfully requested to inspect the Pattern Books for use in their offices. Stephens' Blue Black Writing Fluid, Waters' Black and Carmine do, Perth Office, Copying, Printing, Red and Blue Inks of

Imported Direct. Blank Books made to order. Inks.

superior quality, wholesale and retail; Gold, Steel and Quill Pens and Holders, Envelopes, Wax, Wafers, Vestas, and every article required for the desk or counting room. In Law Stationery, they have Deeds on Paper and Parchment, Full Covenants do. under the statute, Mortgages with power of sale, do. with insurance clause and power of sale, Chattel Mortgages, Leases, Quit Claim Deeds. All forms of Division Court and Magistrates' Blanks. LAW FORMS, viz: Subpœnas, Cognovits, Writs of Summons, Notices to Admit, Affidavits of Service, Chancery Blanks, &c. &c. Skins of Writing Parchment in great variety and of superior quality. Their stock of Miscellaneous Stationery it would of course be quite impossible to particularize. They have everything that is required and usually found in such establishments, suitable for the Surveyor, the Artist, the Tradesman, the Teacher, and the Private Individual; also many useful and ornamental novelties in Copying Presses, Writing Cases, Papier Mache Portfolios and Inkstands, Envelope Cases, Date Boxes, Newspaper and Letter Files, Taper Stands, Rogers' Sheffield Desk and Pocket Knives, &c. &c.

Law Station'ry

Miscellaneous.

The Printing Office.

Their facilities for Book and Job PRINTING are all of the very first order, both in extent and completeness. They have some powerful Presses by Adams and Hoe, the most celebrated American makers, worked by a Model Steam Engine, together with a large and varied stock of new type, which is being constantly augmented by the addition of every novelty, as produced, for Ornamental Printing. But of their capabilities in this matter they are fortunately not required to say much. As samples of the work performed by them, they may point to the Canadian Journal, the monthly organ of the Canadian Institute, the execution of which has been affirmed to be of a character that would do credit to the oldest Printing Houses in Europe; or if the reader has not seen that publication, they need only refer to this present work—THE CANADIAN ALMANAC. They do not hesitate to say that it will bear a favorable comparison with any similar production published in any part of the world. Those who are conversant with the getting up of an Almanac—who know the double necessity resting upon the compilers, of embodying the latest information, and yet publishing early in the fall, and the consequent haste with which it is printed, will look upon it as a marvel of elegance and correctness. They are prepared to execute in an equal manner,

Specimens of Work.

The Almanac.

Newspapers,	Posting Bills,	Invitations,
Books,	Hand Bills,	Funeral Cards,
Pamphlets,	Railroad Bills,	Prospectuses,
Magazines,	Steamboat Bills,	Druggists' and other Labels,
Programmes,	Show Bills,	Business Cards,
Catalogues,	Circulars,	&c. &c.

Printing in Gold, Bronze and Colors executed in first rate style.

Lithography

In the LITHOGRAPHIC DEPARTMENT, Maclear & Co., to meet the growing demand for work in this line, have added considerably to their previous resources, by employing several of the best artists to be found, the purchase of new presses and all necessary materials, and are now in a position to execute orders to any extent in

Maps,	Diagrams,	Bill Heads,
Charts,	Debentures.	Architectural Designs,
Plans,	Cheques,	Circulars,
Surveys.	Bank Notes,	Portraits, &c.

in the highest style of art, at a price far below that of Engraving on Copper or Steel, and in many instances not perceptibly inferior in execution. They would call the especial attention of Land Owners, Surveyors, and all others who may require plans of property, to this department. M. & Co. believe that during the past season, the majority published have been issued from their office, some of them of so elaborate and finished a character as to take the position of works of art, and those who are interested in such matters should remember that a well-executed plan is an essential element in the successful disposal of all kinds of real estate. Parties requiring such work will do well to visit their establishment, as from the experience and constant practice of their workmen, they are often enabled to make valuable suggestions for its effective execution. Lithographic Printing in Colors with accuracy and elegance. Business and Private Cards, Bill Heads, &c., engraved on Copper Plate and printed. Envelope Dies cut, and Envelopes stamped, either plain or in colors.

To Land Owners and others.

The Bindery.

The Bindery is complete in all its details, including facilities for binding in every style, from the cheapest to the most elegant, in any quantity, at reasonable prices and on the shortest notice. By their Ruling Machine they can execute any desired pattern in Blank Books, and having recently added a Paging Machine, they are prepared to furnish Account Books paged throughout; also to page books (old or new,) at a very small charge. They believe that the resources at their command in every department of their establishment are unsurpassed in any part of the Province. The very flattering amount of patronage bestowed upon them since entering upon the business of the late Hugh Scobie, has encouraged them to spare no expense in perfecting their working plant, and in adopting every improvement to facilitate the execution of orders entrusted to them; and they are determined by the employment of first-rate workmen, by attention, punctuality and economy, to merit a continuance and increase of the same favors.

Ruling and Paging.

*** The Publishers of the Canadian Almanac regret that in consequence of the pressure of Advertisements, they have been obliged to refuse several applications for space, also to leave out a list of their own publications, which they had prepared.

THE ORIGINAL AND ONLY GENUINE

SIR ASTLEY COOPER'S

MILD APERIENT ANTI-BILIOUS PILLS,

FOR THE CURE OF

Bilious Disorders, Liver Complaint, Indigestion or Dyspepsia, Habitual Costiveness, Sick Headache, Giddiness, Heartburn, Flatulency, Loss of Appetite, Irritability, Nervousness, Languor, Lethargy, Low Spirits, General Debility.

THE distinguished patronage with which these sterling Pills have long been honored, the beneficial effects which have constantly resulted from their use, the purity of the ingredients which enter into their composition, their careful and peculiar mode of preparation, and the great and increasing demand for them from every quarter of the globe, prove at once their superiority over all similar preparations in Europe or America. Prepared from the original recipe of the distinguished Physician and Surgeon, the late SIR ASTLEY COOPER.

IMPORTANT CAUTION.

In consequence of the great demand for these most excellent Pills, they have been extensively counterfeited by several unprincipled persons both in Canada and the United States, and in order to secure the public for the future, from all danger or risk of counterfeits, the proprietors have caused to be engraved, at great expense, a highly-finished label, which is placed on the outside of the wrapper, and also on the top of each box, and on which is engraved the likeness of the late Sir Astley Cooper, from the celebrated painting by Lawrence, with the words, "SIR ASTLEY COOPER'S APERIENT ANTI-BILIOUS PILLS."

And in order to afford the public a still further protection, the proprietors have placed the fac-similie of their signature on the outside wrapper, and also on the directions which accompany each box; without these marks of authenticity, they are spurious and an imposition.

MACPHAIL & Co., Sole Proprietors,
London and New York.

Sold at 25 cents, 50 cents, and $1 00 per Box, with full directions for use, by A. B. & D. Sands, 100 Fulton Street, N. Y.; Schiffelin, Brothers, & Co., 170 William Street; Boyd & Paul, 149 Chambers Street; C. V. Clickener & Co., 81 Barclay Street; Olcott, McKesson & Robbins, 127 Maiden Lane; Rushton, Clark & Co., 165 Broadway; C. H. Ring, 192 Broadway, and by all respectable Druggists and Dealers in Medicine throughout the civilized world; and wholesale and retail at the depots, 150 Oxford Street, London, and 141 William Street, New York.

☞ For Sale by all respectable Druggists and Dealers in Medicine in Upper and Lower Canada. ☜

PERRY DAVIS'

VEGETABLE PAIN KILLER

STILL TRIUMPHANT.

And after a thorough trial, by innumerable living witnesses, has proved itself

THE MEDICINE OF THE AGE.

ALTHOUGH there have been many Medicinal Preparations brought before the public since the first introduction of PERRY DAVIS' VEGETABLE PAIN KILLER, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world, as the best Family Medicine ever introduced.

As an Internal and External Remedy it is truly a source of

JOY TO THE WORLD ! !

One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits, as the Proprietors have not resorted to Advertising to gain for it the rank it now holds among the great number of preparations of the present time. The effect of the Pain Killer upon the patient, when taken internally in cases of Cold, Cough, Bowel Complaints, Cholera, Dysenterry, and other affections of the system, has been truly wonderful; and has won for it a name among medical preparations that can never be forgotten. Its success in removing Pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Sting of Insects and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. The magical effects of the Pain Killer, when taken or used according to directions, are certain. You have only to be sure that you buy the genuine article and adhere to the directions in its use, and you will admit its wonderful medicinal properties.

The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words, "Davis' Vegetable Pain Killer" blown in the glass, and with two Steel Engraved Labels on each bottle—one an excellent likeness of Perry Davis, the Original Inventor of the Medicine, the other a steel engraved note of hand—none others can be relied upon as genuine.

Price of Bottles—12½ cents, 25 cents, 50 cents, and $1, respectively.

Perry Davis & Son, Proprietors,
No. 7, High Street, Providence. R. I.

NEW PRINCIPLE! NEW REMEDY!! NO POISON!!!

RHODES'S FEVER & AGUE CURE;

OR ANTIDOTE TO MALARIA;

For the Prevention and Cure of Fever and Ague, or Chill Fever; Dumb Ague, and other Intermittent and Remittent Fevers; also of Bilious Fever, accompanied by Typhoid Symptoms; Typhoid Fever, Yellow Fever, Ship and Jail Fever, General Debility, Night Sweats, and all other forms of Disease which have a common origin in

MALARIA OR MIASMA.

THE diseases are common to many localities of the United States; but wherever they prevail, North, South, East or West, they all equally spring from the same miasmal cause. The great variety of symptoms and forms of disease is owing principally to difference in age, sex, constitution and habits of the sufferers; but as the cause is the same, they will all equally yield to a remedy that is competent to overcome or remove that cause.

By the laws of Nature, every principle has its opposite, and for every disease, or cause of disease, there is a re-agent, or in other words a specific remedy. All Malaria, whether arising from Marshes, Stagnant Water, decomposition of animal and vegetable matter, or even newly cleared lands, is the same in character and effect; is a poison floating in the atmosphere, causing disease to all who breathe it. In accordance with those unalterable laws governing the unerring affinity subsisting between opposites, there is in the preparation before us, offered to the public,

THE NATURAL ANTIDOTE TO MALARIA,

which neutralizes the poison wherever it comes in contact with it, even in the open air, and when taken internally completely purifies the system affected by it of its baneful influence, and thus restores and preserves health.

The remedy is believed to be entirely new, and unknown to any but the proprietor, who distinctly claims the following extraordinary results from its use:

It will instantly check the ague in persons who have suffered for any length of time; from *one day to twenty years*, and by continuing its use, according to the directions, a radical cure will be effected; the patient continuing free from the complaint for years.

In its operation upon the poison in the system, it will immediately relieve all the distressing symptoms of bilious or ague diseases, and when the disease is cured, it will entirely prevent the accession of

GENERAL DEBILITY AND NIGHT SWEATS,

which so often follow the administration of other medicines. The patient at once begins to recover appetite and strength, and continues to improve until restored to perfect health.

By its use Fever and Ague may be banished from every family and class in the community; farmers, mechanics, and all labouring people may be using this article as a

PREVENTIVE,

and pursue their respective avocations in perfect safety from ague or bilious attacks during the sickly season, which is often to them the most valuable part of the year.

Since the introduction of the CURE in every part of the United States, its success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordinary merit.

When these declarations were made, at the date of its introduction, they seemed incredible to many, even of the most candid minds, because all the resources of science had been taxed in vain to subdue Ague or Bilious diseases; and what was still worse for Ague sufferers, all their remedies or treatment, whether scientific or empirical, have been limited to the use of poisonous and destructive drugs, such as Arsenic, Quinine, Mercury, Salicine, &c. The effects of these are sometimes worse than the disease they subdue, and when such remedies fail, or give only temporary relief, their poisonous effects are superadded to the poor sufferer's first complaint.

On this account Ague sufferers should be particularly careful about using any secret Fever and Ague remedies, notwithstanding the makers of them uniformly assert they may be taken with perfect safety, even when it is notoriously well known that their potency depends solely upon destructive poisons.

Now, as a proof that the Remedy is not only valuable on account of its power to cure disease, but that it is also

WORTHY OF PUBLIC CONFIDENCE BECAUSE OF ITS SINGULAR AND ENTIRE HARMLESSNESS.

The following certificate from one of the most celebrated chemists in the United States, has been obtained, and a copy of it is attached to every bottle:

"NEW YORK, Monday June 11, 1855.

"I have made a chemical examination of Rhode's Fever and Ague Cure, or Antidote to Malaria, and have tested it for Arsenic, Mercury, Quinine and Strychnine, but have not found a particle of either in it, nor have I found any substance in its composition that would prove injurious to the constitution.

"JAMES R. CHILTON, M.D., Chemist."

It is a stubborn fact, therefore, that this Remedy is destined not only to relieve the human family from malarious diseases, but to do an equally good work by preventing the taking of other medicines which do harm.

The entire absence of any baneful ingredient makes this Remedy not more valuable as a Cure than it is a preventive.

No class of disease is so easily managed as the one under consideration, if the medicine be taken in advance. This is owing to the diseases being produced by one and the same cause, and therefore all, both residents and travellers, should protect themselves by the timely use of this preventive, and not wait for the poison already lurking in their veins to develop itself in a violent attack. Take the Cure as a preventive, and so destroy the poison before it does harm.

DIET.—Directious for Diet are highly important, and must be closely observed. The Diet should be simple, plainly prepared, and in other respects such as the patient has found to agree best with him. If, however, he is naturally bilious, much meat while in a hot climate, will be found to be decidedly injurious, and a vegetable and highly nutritious diet far preferable. Those differently constituted may use a more generous diet. Meat, when eaten, should be tender, juicy, and not overdone. The food should be thoroughly masticated, and regular hours for meals observed. Since costiveness or unhealthy looseness of the bowels is very pernicious during the sickly seasons the state of the bowels should be closely watched, and, if possible, regulated by diet. The patient can in most cases easily accomplish this most desirable end, by refraining from things which constipate, and taking such diet as loosens the bowels if costive, and so on the contrary if too loose, avoid everything of a relaxing nature.

Among other articles of diet, the following possess constipating qualities: common fine wheat bread, more especially that made by "the baker," because it too often contains alum in its composition; boiled milk; cheese; pepper in any form; salted and smoked meats and fish, and refined sugars; but coarse wheat bread of domestic make, corn bread, corn and rye bread, fresh butter, raw milk, rarely cooked fresh meats, especially venison and pork, raw sugars and molasses are laxative.

HABITS OF LIFE.—Avoid outdoor air from the time of sunset until an hour or two after sunrise, for the malaria or miasma of infected districts is most abundant and active during the night; a bright sun soon causes it to disappear. Also avoid exposure to damp, chilly winds, over exertion, irregularity of habits, anxiety of mind, or other like predisposing causes. Sleeping apartments located in the upper stories are much more healthy than those of the first or lower one, because the poisonous air is the heaviest. The system should have all necessary repose.

Some constitutions are able to resist all influences for months or years, while others are prostrated by an ague attack after only a few days' exposure. And it generally happens that those cases most speedily produced are the most speedily cured, while those whose constitutions have been gradually undermined by the subtle poison lurking in the system for a length of time, require a greater period in which to regain their health.

In most instances there are several days warning given by premonitory symptoms before the disease breaks out. Be sure to heed these, and by commencing the use of this medicine according to directions, you are assured of arresting it in advance, and of being *entirely free from any Ague attack* during the whole season. Just compare the *trifling cost* of this article with the immense loss of time consumed by sickness, and observe what an argument the great difference is in favour of using this *certain preventive.*

The following directions for using this medicine must be strictly observed:

If the patient is suffering from any form of Intermittent Fever or Ague, it should be taken three times a day, half an hour before each meal, and so continued until the patient feels that a permanent and radical cure is effected. Merely "breaking the chill" is not curing the disease; it is only the commencement. If the patient has been diseased a long time, or for a long time exposed to Malaria, the greater the period required for an effectual cure. Such may require several bottles of this remedy. One or two bottles will suffice for ordinary cases; one bottle will occasionally answer, but cannot be always relied upon for a permanent cure. It will also be prudent to take it once or twice a day, according to the unhealthiness of the locality, until a heavy frost appears, if in a cold or temperate climate; if where frosts do not occur, then it should be taken till some little time after every vestige of the complaint has disappeared.

It will generally be found necessary to precede this medicine by a mild cathartic or antibilious purgative. The very best thing for general use is a moderate dose of Castor Oil, the object of which is to cleanse the stomach and free the biliary passages. REMEMBER that where this is necessary, or there is costiveness it MUST BE TAKEN or the operation of the antidote will be seriously obstructed.

THE DOSE.—The bottle must first be shaken until all the ingredients are thoroughly mixed. The quantity for an adult is a table spoonful. It will be best, however, for ladies or feeble patients to commence with two-thirds the quantity. Any sensation of nausea, or unpleasant feeling at the stomach, is a signal for the dose to be lessened. Most people could take three times the amount without any uncomfortable feelings.

For children above six years of age, about one-half of a table spoonful; and from three to six years, one-third of a table spoonful. From one to three years, thirty drops; and under one year, ten to fifteen drops taken clear or in a little water. Much larger quantities, however, than are necessary to expel disease, may be taken without any injury.

ONLY CAUTION.—In certain specified cases, pour the contents of one or more bottles of the Cure into shallow vessels, (dining plates,) and place them in sleeping-rooms; for the vapour rising from the medicine, and also the air wafted across, or circulated over the dregs of it, after the liquid is evaporated, will counteract and destroy, to a degree commensurate with its exposure, the miasmata or poison contained in the apartment. This mode of exhibiting the Cure should likewise be resorted to when very young infants are exposed to malarious situations.

The bottles in which the medicine is put up have the words "RHODES'S FEVER AND AGUE CURE" blown in the glass, and on the outside wrapper is the name of the medicine, (the copyright of which is secured,) and the signature of the proprietor. These precautions are adopted to prevent counterfeits and imitations.

The reliance for its success is entirely upon its actual merits wherever introduced and used. These will be considered sufficient.

Prepared and sold by the proprietor. JAMES A. RHODES, Providence, R. I.

Extract of a Letter from Professor Fletcher, who was cured while engaged at Brown University, Prov., R. I.

INDIANAPOLIS, IND., March 1, 1855.

JAMES A. RHODES, Esq.—Dear Sir:—Yours of 15th ult., has been received, and I am glad to hear that a medicine so efficacious is to be introduced into this AGUISH country. I have the greatest confidence in its success, and can reassure you of its happy effect upon me in entirely breaking up the chills and leaving me strong and healthy.

I like the statement on your wrappers that you will let the medicine stand on its own merits, and standing thus, I am most sanguine of its success.

I expect to travel over a large portion of our State this Spring, and I shall have abundant opportunity to recommend it verbally. Wherever I go I shall take great pleasure in thus testifying to its merits; and if you will instruct your agent to let me have a few bottles, I will carry them with me to distribute for your benefit.

In haste, I remain, truly yours,
MILES J. FLETCHER.

HAD THE AGUE FOR TWELVE YEARS!!!

PROVIDENCE, June 29, 1855.

Having been informed of the illness of a poor but worthy woman, who has not been free from Fever and Ague a month at a time, for the last twelve years, I supplied her gratuitously with Rhodes's Fever and Ague Cure. She took in all four bottles, which completely restored her to health and strength, and as four months have now elapsed, there is no reason to doubt the permanency of the cure.—I am also aware of many other cases in which it has been used, and have never known it to fail. C. A. P. MASON, *Apothecary.*

LETTER FROM A POSTMASTER.

MAXWELL, Delaware County, Ohio, August 19, 1855.

MR. J. A. RHODES.—Dear Sir,—Your medicine has met with the most favorable success in this neighbourhood. I have about five bottles left. I gave it to them at first, "if no cure no pay," although I was not authorized by you to do so; but I took the responsibility on myself. But not a bottle has come back, and as I am almost out of the article, I wish you would forward me one gross of the bottles, if you see proper to do so, and I will be punctual in payment. I enclose fifteen dollars on the medicine I have received, for which please send me a receipt. Ship the Cure to me as soon as you can; there never has been as much Chills and Fever, since I lived in the State, as at present.

Yours, &c., RICHARD MARTIN, *Postmaster.*

FEVER AND AGUE MEDICINE.

In another column of to-day's paper will be found an advertisement for "*RHODES' FEVER and AGUE CURE*" We are not in the habit of puffing medicines, but desire to say, for the benefit of the afflicted, that Wm. N. Rowe, Merchant, Sharpsburgh, who has it for sale, informs us that he has sold several dozen bottles. and in every case it has effected a cure. This proves the medicine to be good, and we take pleasure in bringing it before the notice of the public.—*Odd Fellow, Boonsboro', Md., Sept. 4.*

At this season, when there is so much danger to be apprehended from the malaria in the atmosphere, we are constantly breathing, no person should be without the great preventive and sure cure for Fever and Ague, and all bilious complaints.

This is "*RHODES' FEVER and AGUE CURE.*" With a bottle of it in his possession, any one is safe, though he may be in the most sickly locality. And at the same time, he may feel assured he is taking no remedy worse than the disease. The certificate of its entire innocence, of the celebrated Dr. Chilton, is attached to each bottle.

CANADA LIFE ASSURANCE COMPANY,

HEAD OFFICE, HAMILTON, C. W.

AGENCY, KING STREFT, TORONTO;

WITH AGENCIES THROUGHOUT CANADA, AT ST. JOHN'S, N. B., AND ST. JOHN'S, NEWFOUNDLAND.

Capital **£250,000**
Accumulated Fund **£65,000**
Annual Income **£22,500**

MANAGEMENT local and economical; Premiums lower than those of the majority of offices, yet safer, because carrying a larger margin for contingencies; Funds invested in the Province at high rates of interest.

The growth of business has been steady and continuous. The increase of the accumulated assurance fund—a good criterion of prosperity in life assurance—has been, and is, in a ratio fully equal to the advance of income and liabilities. A comparison of the proportion of this fund to the duration of the institution and the extent of its assurances, with the proportion exhibited by other and older offices doing business in the Province, will result largely to the credit of the Canada Company.

At the date of the last-published balance-sheet, the total liabilities were £172,186, and the total assets £244.029, showing a balance in the Company's favor of £71,843. The last year's dividend of profit awarded to assured in the Mutual Branch, of seven years' standing, was equivalent to fifteen per cent. upon the gross premiums received in the twelve months.

Assurances are granted of ordinary or special kinds: for life, with or without Profit, Endowments, Half-Credit, on Joint Lives and Survivorship. Annuities, immediate and deferred. Assurance and Annuity combined on a new and simple plan.

Money received at interest or for accumulation at higher rates than are allowed by banks or savings' banks, and on terms of withdrawal not less advantageous.

Detailed information and all requisite papers may be obtained on application to THOS. M. SIMONS, Secretary, Hamilton, or to any of the Company's agents.

DR. HOOFLAND'S

CELEBRATED GERMAN BITTERS.

Prepared by Dr. C. M. JACKSON, Philadelphia, Pa.

WILL effectually cure LIVER COMPLAINT, DYSPEPSIA, JAUNDICE, Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach.
Such as Constipation, Inward Piles, Fulness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots of Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well-known physicians and individuals in all parts of the country, is immense.

The general want of success in treating diseases of the liver and stomach, has not been a deficiency of pathological knowledge of their functions, but of a suitable compound that would act upon the disease and all the sympathetic affections. That has been gained in these Bitters; and they can be used by persons with the most delicate stomach with perfect safety—as they at no time debilitate the patient, but give strength and increase the nervous energy. They can be taken at all times, and under all circumstances. No ordinary exposure will prevent them having a salutary effect, and no bad effect can result from an over dose.

If patients will persevere in the use of this remedy, and use it strictly according to directions, it will cure the foregoing diseases in every instance, if not beyond the power of medicine. It has caused many to enjoy the blessing of renewed health, and in many desperate and abandoned cases, a perfect and radical cure.

THEY ARE ENTIRELY VEGETABLE,

And free from Alcoholic Stimulant, and all injurious ingredients; are pleasant in taste and smell, mild in their operation, will expel all morbid secretions from the body, give bloom to the pallid cheek, and health and vigor to the frame.

Price 75 cents per bottle.

SANDS' SARSAPARILLA,

IN QUART BOTTLES,

For Purifying the Blood, and for the Cure of Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.

This scientific preparation combines, in a highly concentrated form, all the medicinal virtues of Sarsaparilla, compounded with other rare vegetable extracts, potent in the cure of disease, and yet incapable of injuriously affecting the most delicate constitution. It acts simultaneously upon the stomach, bowels, kidneys, liver and the circulation. It determines and carries off the products of unhealthy secretions, and gently stimulates, while it disinfects and expels from the stomach and bowels all that is irritating, until they are cleansed, and restored to a sound and healthy condition.

Another Cure of Scrofula.

Troy, N. Y., September 1st, 1854.

Messrs. A. B. & D. Sands: Gentlemen,—I have for nearly three years been troubled with that dreadful disease, Scrofula; so much so, as to be offensive to my husband and to myself; and to obtain relief have tried every kind of medicine that came under my notice, without effect. One of my neighbours who had been cured of a similar complaint by your Sarsaparilla, advised me to make a trial of it, and I can truly say that it has done me a world of good, having completely cured me. Hoping that my evidence may induce others similarly afflicted to adopt the same remedy, with the same satisfactory results,

I remain, gratefully yours, SARAH A. J. POHLMAN.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Druggists and Chemists, 100 Fulton Street, corner of William, New York. Sold by druggists generally throughout the United States and Canadas. Price $1 per bottle; six bottles for $5.

For sale by J Musson & Co., and J. Bowles, Quebec; W. Lyman & Co., Montreal; S. F. Urquhart, Toronto; T. Bickle & Son, Hamilton; G. Baker & Co., Kingston; B. A. Mitchell, London; O. C. Mills & Co., Brantford; Canada; Morton & Co., Halifax, N. S.: and T. Walker & Son, St. John, N. B.
