We import all our diamonds direct from the European cutters, thus saving you the middlemen's profits. All our diamonds are mounted under our own careful supervision, thus assuring you of first-class workmanship and artistic design.

Remounting Old Jewellery We shall be pleased also to supply designs for remounting your diamonds in modern platinum settings, see page 64 for some examples of artistic mountings. Pages 2, 3, 4 and 5 also show many beautiful designs in which your diamonds can be mounted.

FOREWORD

Buying Office:
24 & 26 Rue Des Petits-Hôtels
Paris, France.

THIS business is something more to us than simply our daily work. It is a tradition handed down by our ancestors, who for many years in Toronto and earlier in England, had been creditably associated with the diamond, watch and silver trades.

¶ To sell only goods of outstanding merit is a basic policy with us, and "QUALITY" is always our watchword, both in manufacturing and buying.

¶ And as to "VALUE," we invite your close comparison of the new prices quoted in this catalogue, which show a substantial saving in all Departments. No effort has been spared to effect the maximum reduction possible.

¶ Please remember that all transactions with us rest upon our fundamental policy "Money back if not satisfied."

Like all Community patterns they are of the highest possible grade in plated ware and not only are they protected by a very heavy, pure silver plate, but also have the wearing surfaces covered by an extra silver overlay.

We guarantee every piece to give absolute satisfaction and will replace any article that is found defective.

Dozens and half dozens are supplied in flannel rolls; the fancy pieces in lined boxes. The two patterns illustrated on this page are both the same price.

REMODELLING OLD JEWELLERY

Scarcely ever worn as a ring, the same five stones in this beautiful bar pin now give constant pleasure.

A dinner ring, made from the old style, round cluster is a good example of the many transformations effected.

The diamonds from this old-fashioned star produced the lovely oval platinum brooch shown above.

A very excellent way of preserving the sentiment and romance associated with old jewellery is to have it remodelled into modern white gold or platinum mountings. We show here a few examples of the wonderful transformation that can be effected in old treasured heirlooms. Our French Designer will submit sketches and estimates without charge.

Our specially designed octagon 3-stone setting is here shown. Its magic in transforming small diamonds into large ones is well known to many delighted customers.

This magnificent solitaire diamond looked quite out of place in its old claw setting. Now it is gorgeous in a new domed lace work setting of platinum with a few tiny diamonds.
