BIRTH MONTH STONES

"It is the Lucky Stone!

Go, wear it: and in the din of battle,

The peaceful hour, or struggle against fate,

Success shall wait upon thy steps—

No harm can come to thee, if thou but wear it true!"

THE Romans held that birthstones had peculiar power, especially in warding off disease and danger. To this belief the modern custom of the birthstone ring owes its origin. Because of its significance and sentiment the birthstone ring makes a delightfully personal gift.

With the exception of the diamond rings which are mounted in 18-kt., all the settings are in 14-kt. gold. All the pearls are "whole" pearls.

We do not stock rings in sizes larger than 8, those under \$5.00 no larger than size 6. Larger sizes are made at an additional charge of \$1.00.

PERHAPS the most important reason why gifts of jewellery are the most appropriate for the little folks is because of their lasting qualities—for the older they grow the more they are treasured.

Almost every girl or woman has a very real affection for pearl jewellery. For any gift occasion when something inexpensive is sought, you will hardly find anything more acceptable than these pearl-set Lace Pins. Baby rings cannot be supplied in sizes larger than 4.

Distinctive Class Pins produced
in our Workshops. Sketches and
quotations will be submitted glad-
ly and without charge.

THERE is no gift that a lodge mem-
ber appreciates more than some
little emblem of his order. The cor-
rectness of design and the heavy weight
of metal employed are two of the fea-
tures of our lodge jewellery.

While the selection here is repre-
sentative, there are many designs that
limited space forbids us to show.

Sketches and quotations on special
patterns will be furnished promptly,
without obligating you in the least.

It is really wonderful what can be done with an old ring—how different your stones will look in a new and attractive setting. The cost, too, is surprisingly reasonable. Let us send you estimates.

Settings H1 to H9 are particularly good examples of the newer conceptions in the ring-maker's art. They can be fitted with any size of stone.

Transforming Old Jewellery

Settings H8 and H9 are for two and three stones respectively. If you have a small solitaire we can supply the additional jewels to complete one of these handsome rings.

I2

There are several ways in which a heavy, old style wedding ring like number 12 can be transformed. It can be remodelled in the newer shape 13, or it can be overlaid with an engraved shell of platinum as is done in 11.

I3

Illustrations 14 and 15 show new shapes and patterns of engraving. These may be executed in gold alone or with the platinum overlay. In making of these designs the original gold is, of course, used to retain the treasured associations of the wedding ring.

I5

L1

A very old ring set with three fine diamonds was sent to us and we transformed it into this charmingly simple platinum and diamond lavalier.

J2

J1 When you look at J2 and then at the bar pin J1 and the ring J3 you can hardly believe that such transformations are possible. Yet we make them every day. The old jewellery that you value but are unable to wear will produce equally good effects.

K1

J3

Rings like L3 were once upon a time the height of fashion, but even in their hey-day they were never so smart as this platinum and diamond lavalier which we created from the same stones.

L4

An out-of-date setting filled with lovely precious stones is beauty going to waste. We have removed this wasted beauty from K1 and set it into a delicately pierced platinum bar pin K2—an ornament that will be worn with pride.

K2

M5

From this heavy, clumsy old watch chain—M6—valued because it had been in the family for years—we fashioned the distinctive pattern, M5—a chain that any man would take pleasure in wearing.

M6

A word of warning—are your diamonds secure in their settings? It is not worth while to risk the loss of a valuable stone for the trifling cost of examination and repair. We can serve you in this—efficiently and without delay.

One of those old settings so much in vogue half a century ago. The jewel has simply been reset. Besides being more attractive, the new setting better displays the size of the stone.

N2

We want to be your family jewellers and we would like to take care of your little repairs. Our equipment is the most modern we can obtain, our craftsmen are experts, and our charges are very reasonable indeed.

N3

N4

What a difference a new setting can make in a ring! The three stones have been taken out of the heavy old-fashioned mount and placed in one of the newer simple and effective designs.

FINE jewels, mounted in settings too old-fashioned for you to wear, are literally buried alive.

Every woman's jewel case contains pieces like these treasured heirlooms, kept because of their intrinsic and sentimental value, yet never worn. It entails no trouble and very little expense to have them made smart and attractive again.

For years our workshops have made a specialty of remodelling jewellery. Only the most skilful designers and craftsmen are employed and the results of their labours are very beautiful indeed.

The illustrations on this page give you an idea of the possibilities. For special designs the services of our artists are at your disposal free of charge.

B429015. This is one of our most popular ribbon Wrist Watches. The case and clasp are plain 14-kt. gold, and its movement is our favourite PICCAOILLY, \$35.00

B429016. It is not easy for an "outsider" to appreciate the reason for the higher price of this watch. The value is there, however, as the movement is one of our very best—the CLIVE. The case is 14-kt. gold with double back, \$75.00

B429017. This Watch has the same high-grade CLIVE movement as B429016 but the case is of 10-kt. gold, \$65.00

YOU do not rely upon a man just because he wears good clothes and, likewise, the handsome case has nothing to do with the dependability of a watch. That lies in the movement.

Since you cannot inspect the movement of a watch you are forced to trust the merchant from whom you buy.

There is more to our watches than attractive appearance. Inside each of these irreproachably well-bred cases there is a movement equally reliable.

The confidence of our customers is our greatest asset. We sell only trustworthy watches—watches that we can depend upon to preserve our good name.

There are thirteen watches on this page, priced from \$18.00. As for appearance—

WALTHAM Watches
in all standard movements
are carried in our stock

GOLD FILLED

14-KT. GOLD

B431004. Our dependable movement is fitted into a fine gold-filled case. This makes a watch that is as good looking as it is accurate — yet it only calls for an expenditure of \$20.00

B431005. The doctor or nurse will find this watch particularly useful. It has a long easily readable central sweep second-hand and the case is of heavy 14-kt. gold with a dust-proof inner back. \$75.00

B431006. This watch is the same design and has all the good points of B431005, but the case is of heavy sterling silver, \$30.00

B431007. For the athlete and the man who spends much of his time out-of-doors here is a serviceable watch with a sterling silver case. It is substantially built in every way and thoroughly tested for dependability. The price is surprisingly modest, \$18.00

B431008. The sterling silver case of this watch is practically the same as that of B431007 but in it we place the same kind of movement as we use in our solid gold watches — the 15-jewel ST. JAMES. All the time-keeping qualities of the most expensive watch at the moderate price of \$25.00

B431011. A handsome "cushion" shaped case of sterling silver, equipped with our 15-jewel ST. JAMES movement. You get the accuracy and dependability of the higher priced watches at the moderate cost of \$30.00

B431010. This distinctively shaped case is made from heavy-weight sterling silver, that will stand hard wear. The movement is our 15-jewel MAJESTIC, a fine timepiece reasonably priced. \$35.00

B431009. A reliable movement in a case of sterling silver. The dial and hands are luminous, readable at night. This accurate watch sells for only \$12.00

YOU expect the watch you buy to give you years of reliable service. Otherwise it is not a good investment. Whether or not it lives up to your expectations depends upon the real worth built into the movement.

While we have watches in all styles of cases and at various prices you can always feel sure that the timepiece you select here has a movement of dependable accuracy and lasting durability.

Fine Watches IN 14-KARAT GOLD AND GOLD-FILLED CASES.

B432002. The same case, containing a still higher grade movement—our 16-jewel FAIRFAX sells for \$30.00.

B432001. In spite of the popularity of the open-faced watch there are many ladies who still have a real preference for the hunting case model. The delightful simplicity of this fine gold-filled case can be enhanced by a crest or monogram. The movement is our 15-jewel ST. JAMES noted for its dependable time-keeping qualities, \$25.00.

B432007. For those who do not care to spend quite so much the same case as B432006 is supplied with our fine 21-jewel ROXBOROUGH movement, \$100.00.

B432006. "Grandfather's Watch"—sometimes here and there you will find a watch that has been in a family for generations, and is still keeping time today. If you want a watch capable of giving that kind of service you will find it illustrated above. The lines of the 14-kt. gold case are too simple and dignified to ever grow old-fashioned, while the movement is that 21-jewel aristocrat, our CENTURY. It is just as sterling value as it is good looking, \$120.00.

B432011. It would be hard to find a more dependable watch than our 19-jewel DOWNING STREET. It is a timekeeper that will give unfaltering service for every dollar invested, 14-kt. gold case, \$65.00.

B432010. A watch that will fit into your pocket as if it had always belonged there. The movement is our 17-jewelled CAVENORIS. It is a timekeeper that will give unfaltering service for every dollar invested, 14-kt. gold case, \$65.00.

B432005. SPECIAL. Some people used to think that a really good gold watch should cost at least a hundred dollars. The most critical expert would have to pronounce this watch "Good" and yet it is priced at only half that amount. It comes in a case of 14-kt. gold and is equipped with the sturdy and accurate SERVICE movement, 15-jewels. A remarkably good value at \$50.00.

B432009. A thin model watch for the business man. It takes up but very little room in the pocket. The case is of 14-kt. gold and the movement is our 17-jewel BROKER, an accurate dependable time-measurer. A very good investment at \$100.00.

B432014. The same fine movement in a durable gold filled case, \$50.00.

B432004. An added touch of quality is given by placing the 16-jewel FAIRFAX in the same 14-kt. gold case, \$40.00.

B432003. Another hunting case model, similar to B432001. The case, however, is of 14-kt. gold in a simple and dignified design. The movement is the reliable 15-jewel ST. JAMES, \$35.00.

B432008. Those who have never owned a Repeater Watch have yet to appreciate what a convenience it can be. This one in its handsome 18-kt. gold case is specially accurate and dependable. At night it is no trouble to find the time. You have only to press the lever on the side of the case and your watch chimes the hours, quarters and minutes. It will give you years of faithful service, \$300.00.

B432013. The Downing Street 19-jewel movement, the same case as B432012 gives you a watch you are proud to compare with anyone's, \$80.00.

THE daintiness of ivory toiletware has given it a popularity all its own. Our ivory combines all the beauty of the natural article with far greater durability. Extremes in temperature will not produce the unsightly cracks that so often mar the genuine ivory. The loveliness of ivory is enhanced by the addition of an enamel filled monogram matching in colour the decoration of milady's

boudoir. For designs and prices, see inside back cover.

While a complete set of ivory toiletware is a beautiful gift, pieces may be purchased one by one until the assortment is complete.

When you consider the fine quality and really superior workmanship you will find the price very reasonable indeed.

We have always regretted that, in displaying things like ivory, we cannot show you the actual pieces. An illustration falls so far short of doing it justice. Limited space forbids us to illustrate examples of the many lovely sets of decorated ivory that we stock. Particulars of these will be sent to anyone interested.

GUARANTEED PERFECTION

ALTHOUGH our diamonds are bought in large quantities in order to give you advantages in price, they are not selected collectively.

Each stone must pass an expert, critical examination before it is allowed to enter our stock.

Thus you get a diamond of guaranteed perfection, yet at even less cost than a stone of doubtful merit.

D445706. This modestly priced three-piece set is very popular with its engraved two-letter monogram. It is just as attractive in appearance as it is useful, \$21.50; without monogram, \$19.00.

Handy Things for His Pocket

THERE is no gift that will please a man more than some useful, durable accessory such as a pocket knife or a magazine pencil.

Yet, for all their attractiveness these appropriate gift articles are priced at very modest figures.

A man has a thousand and one uses for a pocket knife and he wants a good one—one that is sharp and will stay sharp.

The blades of these pocket knives are all of the very best finely-tempered Sheffield steel.

An ordinary pencil has to be constantly sharpened (a "messy" job at best) and in addition to that, it is always getting lost.

The EVERSARP pencils are "ever-sharp" and the strong pocket clip ensures them against loss.

All pencils except D455812 have an eraser

A NEW CONCEPTION IN CHINA

THIS unusually attractive ware achieves distinction through its delicate canary colouring and graceful lines.

The wide shaded areas in illustration are of the canary tint, while the wreaths are black on a white ground—a colour combination that is as novel as it is pleasing.

THIS English ware is so attractive and yet so moderate in price that we are sure its first appearance in the pages of the *Year Book* will find favour.

It is an "open stock" pattern, and a few pieces bought now may form the

nucleus of a full set to be completed at a later date.

The illustrations of the ever-popular *MINTON* china do not, of course, show the beautiful colourings of the originals.

BRASSWARE THAT LASTS

THE lasting good appearance and the durability of brassware depends entirely upon the weight of metal of which it is made. In this, as in everything, we have put quality first. We cannot afford to sell inferior articles for the sake of a superficially attractive price. The prices on our brassware are just as moderate as generously heavy weight and expert craftsmanship will allow.

WHILE the worshipper of My Lady Nicotine welcomes such useful gifts as a smoker's set or a humidor, they also find favour with the mistress of the house as good-looking additions to the library or den.

The practically designed smokers' accessories on this page are just as reasonable in price as they are handsome in appearance. Their exceptionally heavy weight gives many added years of service.

Usually, however, the price includes two profits, that of the manufacturer and that of the retailer.

Our silver is manufactured in our own workshops and there is only one reasonable profit for you to pay.

IN the place of the household gods of the Romans stands the family silver of today. Families cling to it through centuries of reverses and adversities.

First in the heart of the Mistress of the House is her silverware. Around it the family life centres, and each new addition to it marks an event of importance.

For the Bride, on the foundation of a new home, there is no more appropriate gift than "household gods"—a chest of lovely, everlasting sterling silver.

MUCH of the silver-plated ware you see in these pages is produced in our own craftshops. Other pieces are bought in large numbers to supply the requirements of seven shops.

In the first case economical manufacturing, and in the second, quantity buying enables us to offer a very superior quality at prices that compare favorably with those of less worthy wares.

WHEN you think of the many silver-plated articles in your own home that have given you faithful service throughout the years, you appreciate how practical is a gift in dependable silver-plate.

Articles like the practical and handsome pie plate, E498402, make good-looking, useful yet inexpensive gifts.

All silver-plate looks alike, yet its lasting qualities depend upon the thickness of the silver coating — that is, upon the expert knowledge and reliability of the merchant from whom you buy.

Each piece shown on this page is absolutely protected by our reputation and our guarantee.

Samples of Crests, Monograms and Addresses for use on Stationery

IT has been said that people can be judged better by the letters they write than by their conversation. It is equally true that good stationery reflects one's personality and good taste.

Embossing your crest, monogram or address on your stationery makes it distinctive. By "embossing", an impression is raised on the paper, giving a much finer appearance than ordinary printing. Stationery can be embossed

plain or with any colour ink. In order to do this work, it is first necessary to engrave a steel "die" by hand.

Above are shown a few samples of different styles in crests, monograms and address dies. In each case the price is for making the die, which then becomes your property and can be used as desired. Prices and samples of stationery will gladly be sent on request.

PRINTING FROM COPPER PLATES

ENGRAVED INVITATIONS, ANNOUNCEMENTS, VISITING CARDS, ETC.

FOR all social occasions, custom demands that invitations, announcements, visiting cards, etc., be printed from hand-engraved copper plates instead of from ordinary type. The reason for this is easily understood as copper plate printing is so much superior in appearance to the best work done from type.

This superiority is so marked that it more than makes up for the additional cost.

Before printing any of the forms shown above, it is necessary to engrave the wording, by hand, on copper. The prints are then made, one at a time, after which the plate is cleaned and stored away for future use.

If desired, we will gladly send samples and further information.

SUGGESTIONS ABOUT ORDERING

We want you to feel that you are at perfect liberty to purchase from any of our houses, regardless of where you live. However prompt service is obtained by sending your order to our nearest establishment.

HOW TO ORDER. Please do not cut the Year Book.

Write us in your own way if you prefer, but by using the order form which you will find at the back of this book, you will help us to give better service, especially at Christmas. Please use prefix "Miss," "Mr." or "Mrs."; in the last case always use the husband's initials. To prevent delay all mail should be addressed to the firm.

Correspondence not relating to order should be written on a separate sheet.

If you order when away from home, please also mention your home address.

If you have moved since Year Book was mailed to you, please advise us.

MONEY MAY BE SENT SAFELY by Express Order, Registered Letter, Post Office Order, Bank Order, Canadian Postal Note or Marked Cheque. Don't risk enclosing cash in a letter without registering it. Cheques should be made payable at par in the city to which the order is sent.

DO NOT INCLUDE MAILING CHARGES. We reserve the right to ship by mail or express, whichever is the most economical. We prepay everything, except ecclesiastical goods, to all points in Canada, including the Yukon. Parcels too heavy to mail will be sent to the nearest Express Office.

ENGRAVING. Please print all engraving instructions. For prices and designs see charts above.

We cannot guarantee to do any engraving on orders received between Dec. 10th and 24th. Goods will be shipped promptly and may be returned after Christmas to have the engraving done.

SELECTIONS SENT ON APPROVAL. Except in December, we will gladly send selections on approval to customers who have charge accounts with us, or who enclose

satisfactory references from a bank or reliable business house. This involves no obligation to purchase and you assume no risk, as all goods are insured by us until the purchase has been completed. You will save time by giving us an idea of the price and style required. However, in reality every order sent is "on approval," as we will promptly refund the full purchase price of any article that is not satisfactory.

SPECIAL SELECTIONS. The articles illustrated in the Year Book are, of course, only a small portion of the large and varied stocks we carry. If you do not find just what you require in these pages it is very probable that it is contained in our store stock. An inquiry giving us as detailed a description as you can, will be answered promptly and attended to with just as much care as an actual order.

In many cases our experts can be of service to you in making suggestions and drawing attention to special values and new and exclusive lines. This service is, of course, without charge.

If you have a charge account, or will send us the usual references, goods will be sent on approval.

EXCHANGES. Within a month from date of purchase you may return for exchange or refund any unused goods, except such as have been made to order or lettered.

OLD GOLD AND SILVER. We buy old gold and silver (not plated ware) allowing metal value at current rates.

IN SENDING GOODS TO US please be sure to mark your name and address on the wrapper, also send a separate letter giving list of articles and full instructions. Never send a parcel of value by post without registering it, and securing a receipt which insures safe delivery.

WE ASSUME ALL RISK. We guarantee the safe delivery of every package. Each article is enclosed in a suitable box.

May we send our Year Book to your friends either here or in the United States? Just send us their names.

Gift suggestions for American friends are on page 101

The general index is on inside front cover.
