EDITORIAL NOTICE

This is the Second Edition of the "DIRECTORY OF DIRECTORS IN CANADA," the first having been brought out in 1906.

Blank forms similar to the copy on the opposite page were sent to every incorporated company in Canada. Out of nearly ten thousand sheets sent out about five thousand have been returned in a more or less complete condition. Hence this Edition is not by any manner of means complete.

It seems an extraordinary thing that a company which has been incorporated and which undoubtedly does business with the public hesitates about making known the persons who are responsible for the conduct of that Company. Are these Companies ashamed of their directors or is it that these directors have no business to act as directors? The trend of the age is for publicity and incorporators must be prepared to satisfy the curiosity of those with whom they do business.

We will furnish our subscribers with the names of the directors of any incorporated company not included in this Edition.

Street addresses in many cases are omitted owing to the printed forms not being properly filled in

In future editions we hope Secretaries of companies will take the trouble to give us full and accurate information
