Quality Counts

The pictures in this catalogue, excepting those on page 4, illustrate Durocco ware, our high-grade line of single coat grey enamelled kitchen ware. Durocco is not a cheap bargain-counter ware but is a product of highest quality made with great care, carefully selected as to uniformity of color and mottling and will not chip or scale with ordinary care.

The shapes are up-to-date, are made of heavy gauge enamelling steel especially prepared for the Durocco coating, and this great care in the selection of material and in the method of manufacture, coupled with the rigid inspection after the ware is finished, enables us to guarantee that each piece of Durocco ware shipped from our plant will reach our customers' shelves in absolutely first-class condition.

For those who want the higher priced lines we make the lines of double and triple coated ware illustrated on page 4, viz., White, Iris and Acme.

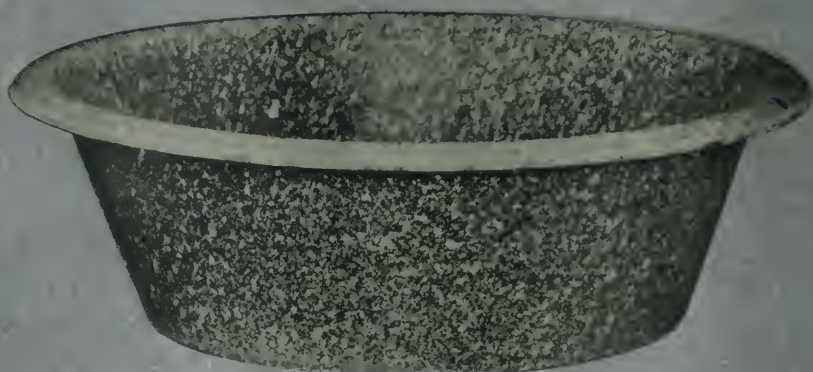

For the convenience of our customers we have arranged the different articles in alphabetical order.
