# CATALOGUE PRINTING and BOOK-BINDING

*E are Book-makers in the fullest sense of the word. Our printing and book-binding plants are complete and thoroughly modern in every respect. Every part of the work in the mechanical production of commercial printing, books, catalogues, periodicals, or color printing, from type-setting to book-binding, is done on our own premises and under our personal supervision. We are specially equipped for book printing in all its branches. Our workmen have, for the most part, been trained in our employ, and are therefore conversant with the best ideas in modern printing.*

*We should be glad to submit quotations at any time on any work required.*

WARWICK BRO'S & RUTTER

PRINTERS AND BOOK-BINDERS

68 & 70 Front Street West, TORONTO

# On the MAKING of ACCOUNT BOOKS

*HE Making of Account Books, ruled, printed and bound to order, is a specialty with us. Our books are in use in the offices of many of the business houses, banks, financial and insurance companies in Canada and they are recognized everywhere because of their attractive appearance.*

*While we devote some effort to the finish of our books, we give special attention to the hidden parts of their construction—the sewing, lining, glueing, rounding, etc.*

*We recommend the ledger papers that we use for their strength and writing qualities, and the materials entering into the construction of our books are the best that experience can furnish.*

*We guarantee every Blank-book that we make and are pleased at all times to submit quotations and samples of papers.*

## Collar and Cuff Comfort, as well as Necktie and Scarf Security

**WE ARE MAKING** a button that is five articles in one; collar front and back, bosom and cuffs, as well as necktie and scarf holder—each perfect for the purpose.

**THAT** requires little or no effort in buttoning and never disappoints.

**THAT** makes shirt and collar practically one garment and ensures a fit.

**THAT** requires no moistening of the holes, which defaces the collar.

**THAT** has no metal next the skin to bring on blood poisoning or skin disease.

**THAT** makes the buttoning of a collar a delight, rather than a dread.

**THAT** is especially fitted for use on collars that button at the back.

**THAT** holds and utilizes all pin ornaments for either the neck or the cuffs.

**THAT** entirely obviates the necessity for using vigorous language in the morning when dressing, and leaves the user in a more equable state of mind for enjoying a good breakfast, and necessarily better fitted for the daily duties.

**THAT** you cannot do without after having once used, and to supplement all these good things it is the cheapest on the market.

Mr. Wm. Moneymaker,

100 Business Street,

Dollartown.

Dear Sir,

If we could meet you face to face, we would have no trouble in showing that it would pay you to use some of our fac-simile letters. A great many of the most prominent firms in Canada are now doing so to their profit.

Fac-simile letters have stood the test and are now recognized as the ne-plus-ultra of dignified persuasion. This is a fair sample of our work, being one of 5,000 copies of this letter. The cost is not much when used in quantities.

We are prepared to make a contract to address your envelopes, fold, insert and seal your circulars and mail them.

Before doing anything in this line, see us and you can save Time, Labor, Vexation and Money, or call us up, Phone Main 2229, and we will come and see you.

Yours truly,

# Significant Facts about Elevators and Hoists

A PERFECT HOISTING OR ELEVATING MACHINE CAN ONLY BE BUILT BY THOSE HAVING A THOROUGH UNDERSTANDING OF MECHANICAL SCIENCE. THERE CAN BE NO UNTRIED OR UNCERTAIN METHODS OF CONSTRUCTION EMPLOYED. EVERY PART ENTERING INTO THIS PARTICULAR TYPE OF MACHINERY AS WELL AS THE ASSEMBLING AND THE INSTALLING MUST BE ABSOLUTELY CORRECT. THERE ARE THREE STANDARD POWER SYSTEMS — ELECTRIC, HYDRAULIC AND STEAM; DUMB WAITERS, EVEN, TO BE SATISFACTORY MUST BE DESIGNED BY AN ELEVATOR CONCERN.

THE up-to-date method of retaining the patronage of your old customers, and also of making new ones, is to communicate with them in the form of correspondence. Our system of re-producing personal letters in typewriting, and inserting the individual name and address in each case, is so perfect, that it takes an expert to detect it from a personal letter. It costs very little more than a printed circular but it brings more business.
