Crain

Takes but a Moment to Remove or Add Sheets

Simply insert the key over a rod, give a few turns (as shown in illustration) and the ledger binder can readily be expanded, old sheets removed and new ones added without taking off the cover or disturbing other sheets in ledger.

To lock the binder, turn the key until resistance is felt. The sheets are held in a grip as powerful as a vise. Only the custodian of the key can remove them without tearing them out. Furnished if required with our Patent Sealing Attachment rending removal of sheets altogether impossible without proper authority.

May we send you more information on this simplest, handsomest and strongest of ledger binders?

WE MANUFACTURE SYSTEMS FOR ANY BUSINESS

Crain

Just a Minute

"I would like my account please."

"Yes, Sir!" "Just a minute."

The customer will get his account in that short time, because this wide-awake merchant has installed the Crain Monthly Account System.

By the Crain System, customers' accounts are written up daily from the counter check books. Account is always ready for the customer. Tear it out and hand it to him.

The customer may be surprised at such promptness, and it's ten to one he says to himself "that man certainly knows how to run his business."

Also ten to one that the merchant gets paid on the spot because everybody appreciates business-like methods.

May we send you the folder "The Retail Dealer's Friend" which contains complete information of the Crain Monthly Account System?
