

FISHING GUIDE *and* ROAD MAP

This map outlines in detail the best fishing waters available by motor and railroad from Toronto. It has been very carefully compiled with first hand information gleaned from many sources. In addition to being of immense value to fishermen, this map will be found very useful to hunters in the fall season.

A Word on Conservation

THE wild life of to-day is not ours to do with as we please. The original stock is given to us in trust for the benefit of both the present and the future.

The true sportsman is one who, thoroughly enjoying the benefits of our forests, fish and game, is personally interested in conserving these natural resources, not only for his own use, but for those who are to follow him.

The protection of wild life, and the preservation of all other natural resources which underlie national prosperity, must depend fully upon the support and willing service of every citizen.
