

TORONTO ARCHI-
TECTURAL EIGH-
TEEN CLUB

SECOND ANNUAL
EXHIBITION 1902

CATALOGUE OF THE
SECOND EXHIBITION
OF THE TORONTO ARCHI-
TECTURAL EIGHTEEN CLUB

EDITED BY CHAS. D. LENNOX.

MAY 19th to MAY 31st,

1902

AT ONTARIO SOCIETY OF ARTISTS' GALLERIES,
KING STREET WEST, TORONTO.

Printed by R. G. McLean, Toronto.

PREFACE.

The Toronto Architectural Eighteen Club wish to thank the Architects for their generous response for drawings, photographs, sketches, etc., contributed to their Second Annual Exhibition ; also to those who have contributed and to the firms who have advertised and who have so materially helped to make this Exhibition a success.

A limited number of these catalogues will be for sale at the gallery or can be had on application to J. P. Hynes, Secretary, 32 Adelaide Street East, Toronto, 25 cents each, post-paid.

The authors of the designs illustrated in the catalogue may obtain the plates by communicating with chairman and paying expenses of carriage of plates.

The Northey Gas and Gasoline Hoist.

This is the latest and most up-to-date hoist for contractors' and builders' purposes, hauling bricks, materials, timbers, etc. The plant is cheaper in first cost, more economical in running expenses, handier and more compact than the steam plant. Our hoist is extremely portable, takes up little space and is very powerful for its size. Costs less than five cents per hour to operate, needs no experienced engineer to handle it, no steam to keep up, ready promptly when wanted, and there are no bulky fuel and water supplies to arrange for. The engine is equipped with friction clutch to throw engine into gear. It is built of the best obtainable materials and is fully warranted.

THE Northey
Company
Limited, Toronto

A Simple Test.

The mere comparison of the Globe White Lead with other brands has opened the eyes of many a painter to its good qualities. The superior whiteness of the Globe is clearly revealed by spreading a small quantity of different brands

of keg lead side by side on a piece of glass, and looking through from the reverse side.

But do not let such a test end the matter. Test Globe White Lead in every conceivable way and you will find that all claims we make for it will be confirmed by your practical experience.

We guarantee Globe White Lead will outcover and outwear any brand of lead in the market. Write for our prices.

RAMSAY'S EXTERIOR WHITE LEAD.

A SUN AND WEATHER TEST FOR WHITENESS AND DURABILITY.

This is a photographic reproduction of absolute pure White Lead, and Ramsay's Exterior White Lead after an exposure of seven months to the weather. The letters P-U-R-E are painted on with Ramsay's Exterior. The background is pure lead and is grey beside the whiteness of Ramsay's Exterior.

This is a similar test to the above, the letters E-X-T-E-R I-O-R being painted on with absolute Pure Lead. The background is Ramsay's Exterior, and is the whitest.

We Claim that Ramsay's Exterior White Lead will work easier, go farther, last longer, remain whiter than any pure White Lead in the world.

Ramsay's Exterior White Lead will not corrode, chalk, rub or wash off as pure White Lead will do.

It is better than pure lead for all kinds of buildings, either inside or out, and it costs no more.

Ask for our booklets on Exterior Lead.

There's Nothing Overlooked

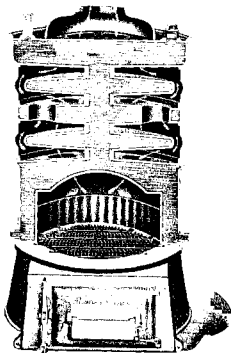

in our

New "Economy" Hot Water Boiler.

Every improvement that could possibly conduce to making a boiler perfect has been incorporated in it.

Every architect and practical mechanic must appreciate the great advantages which our SCREWED NIPPLE CONNECTIONS possess over the antiquated rubber gasket joints used in other boilers. But this is only one of many important improvements. We have the largest area of direct fire surface, an absolutely unimpeded circulation, a perfect grate and unequalled cleaning facilities.

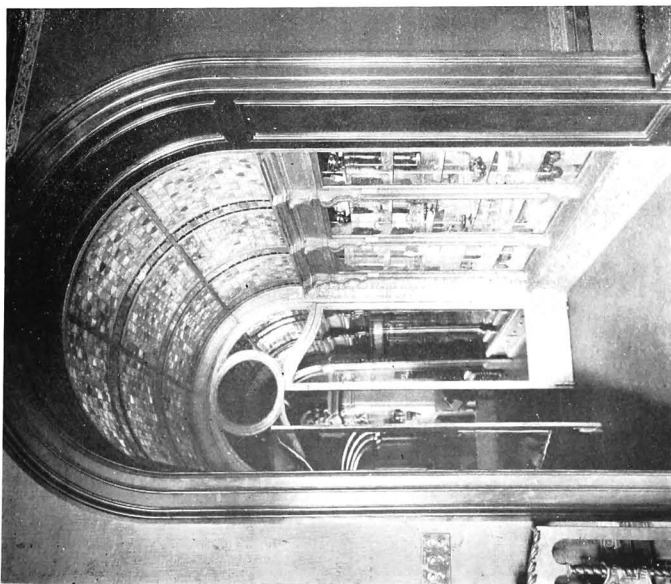

Every architect who aims to secure the best apparatus for his clients should see this boiler. We confidently invite the most critical investigation.

Incandescent Gas Lighting.

Highest Efficiency. Lowest Cost.

With modern burners, and GAS at the low price charged in Toronto, Incandescent Gas Lighting is about ONE-FOURTH THE COST of incandescent electric lighting.

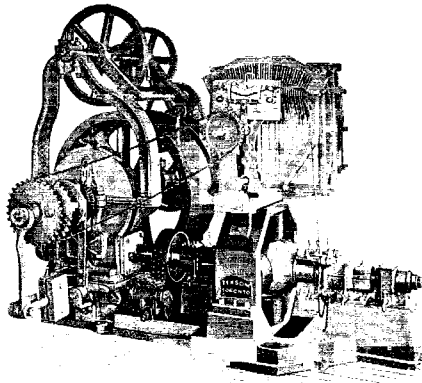

Architects will best serve the interests of their clients by recommending that all buildings be piped for Gas.

Parties about to build are warned against the folly of omitting the item of Gas Piping from their contracts. The inconvenience of being without a gas supply will soon be realized and regretted.
