INTRODUCTION.

We now present to our readers our Twentieth Annual production of the Toronto City Directory, and are glad to be able to state that, notwithstanding the disturbing elements in the business of the City, our patronage is still on the increase. The public generally, are becoming aware of the fact, that they get good value for the money invested in advertising with us, and we are happy to say, this is the best year we have ever had, in advertising patronage.

We have, as usual, endeavoured to give our patrons the most reliable and complete information that can be procured, and although there will be found errors of omission and commission, we are still satisfied that there is no City Directory published that will be found as replete in useful matter, as our Toronto City Directory.

While we return thanks to most of our business houses for the kind and generous assistance they have given our canvassers in procuring the information that is necessary to produce a correct book, we regret to have to state that there are a few stupid and mean cranks, who refuse us the privilege of securing such information, and these are the parties who will be the first to find fault, and condemn the whole book, if one letter in their name or occupation is wrong.

We are glad to be able to announce that our beautiful City is still growing. We have not had time to count the number of individual names, yet although we have this year omitted inserting the names and addresses of the Domestics and the young ladies who are living with their parents, we have about thirty-six pages more in the Alphabetical list of names than last year; this would make an increase of about 1,500 names; this with about 1,500 Domestics, etc., left out, would show an increase of about 3,000, which multiplied by our Directory multiple would give an increase in the population of about 9,000, and which added to our 223,000 estimated for 1895 would give us a population in Toronto for 1896 of 232,000, yet we presume there are residents, who will still maintain that we have not 200,000.

While the Real Estate business is still dull, we are of the opinion that there never will be a better time, for parties who purpose residing in Toronto, to procure a home and be their own landlord with the privilege of voting on money and all other by-laws, etc. There is every prospect of times being good from now on, and there is no nicer City on earth in which to make a permanent abiding place.

Yours very truly,

THE MIGHT DIRECTORY CO. OF TORONTO, (LTD),

J. M. MIGHT, *President and Managing Director.*

CITY WORKS OF 1895.

EXTRACTS FROM THE ENGINEER'S DEPARTMENTAL REPORT.

According to the final report of the City Engineer, presented to the Board of Works, there has been expended during the past six years, on account of Ashbridge's Bay improvements, $108,943.

The expenditures on account of special services, for the past six years, exclusive of the general works, and including the Esplanade agreement, level crossings, relief savers and extensions, amounted in 1890 to $201,595; 1891, $82,534; 1892, $167,317; 1893, $377,846; 1894, $153,642; 1895, $50,108.

The local improvement works for the same years amounted in 1890, to $1,274,617; 1891, $790,871; 1892, $432,972; 1893, $186,386; 1894, $219,178; 1895, $176,964.

There were 2.28 miles of new single street railway track laid during 1895.

During the year 1895, there were over five miles of pavements laid, as follows :

Class of pavement :	Lin. Ft.
Asphalt pavements	6,101
Cedar block pavements on sand	9,256
Brick pavements on concrete	3,927
Cedar and granite pavements on concrete on track allowance	1,196
Scoria block pavement on concrete on track allowance	620
Granite sett pavement on concrete on track allowance	449
Concrete pavements	377
Macadam	8,783
	30,709

During the year 113,924 loads of refuse were collected, of which 34,588 were garbage.

Eleven flush tanks were built, making 59 now in use.

Over 107 miles of sewers were flushed and 136 new man-holes constructed.

Nearly two miles of concrete sidewalk and about 1 1-5 miles of asphalt were laid.

The old bridge at the Humber was extensively repaired, but it is only a matter of a few years when it will have to be replaced by a new and permanent steel structure.

On King street, west of the subway 365 feet of block pavement was laid, and in order to determine the respective wearing qualities of different hard-woods, hemlock, beech, soft elm, rock elm, white pine, and Norway pine were used.

The macadam roadway in Queen's Park was not completed.

The trolley street sprinkling tanks travelled 14,189 miles, and 41,823,500 gallons of water were used.

Citizens drank 4,857,150 gallons of pure water brought from outside points during the conduit break water famine.

Prompt attention was given to 1,801 complaints of defective walks and roadways.

The carts removed 49,286 loads of street sweepings.

The number of gallons of water pumped last year was 6,639,763,535.

Forty-two fire hydrants were placed.

The Hawley down-draft furnaces in the waterworks system saved about 30 per cent. in coal.

The Sieman-Adamson water meter now in general use gives complete satisfaction.
