DIAMOND FURNACE

With Double RADIATION and Ribbed Fire Pot.

PATENTED 1886 and 1888.

3 REASONS WHY

THE

Diamond Furnace

Gives the Best Satisfaction

1st.—Because the Castings are all heavy and durable.

2nd.—Because having two entire circle RADIATIONS, they stow more heat and for a greater length of time than any other Furnace.

3rd.—Because having more Radiation than any other Furnace, the heat is retained inside the Jacket, and thereby caused to flow through the Registers instead of being wasted by passing up the Chimney.

ELEVENTH YEAR.

ESTABLISHED 1882.

THE INDICATOR A NATIONAL JOURNAL OF INSURANCE PRICE 2.00 PER YEAR.

INCORPORATED 1885.

THE INDICATOR Is issued monthly, *Price $2.00 Per Annum,* contains matter of particular interest to all Insurance Companies, Agents and Brokers of Life, Fire, Marine, Accident and Plate Glass Insurance, Real Estate Agents, Banks, Loaning Offices, Bookkeepers, Clerks, Capitalists, Lawyers, Physicians, Manufacturers and Business Men. It contains from time to time special articles from the pens of some of the ablest writers in the country on insurance matters, which alone are worth more than the subscription price; gives list of fires, amount of losses, the companies writing on the risks destroyed, etc.

"The Indicator" wages an unrelenting war on "undergrounders," "wild cats," and all "shady" proceedings. Every wide awake Insurance Agent should take it. Every business man should take it.

PRICE $2.00 PER YEAR.

One subscriber writes as follows, viz.:

THE INDICATOR saved one of my patrons $3,000 and put over $100 extra commissions in my pocket; you may continue it indefinitely.

Another subscriber (a prominent banker and large property owner) writes:

You may send me THE INDICATOR for another year. I would not be without it for five times its price. It has warned me *in time* of many unreliable companies. I think property owners should pay more attention to the class of companies their property is insured in, and keep posted concerning the companies whose policies they hold. Whenever I place any insurance I always try to secure the policies of the companies whose advertisements appear in THE INDICATOR, for I know *they* are reliable.

The aim of "The Indicator" is to uphold the genuine and expose and fight the shams of all kinds in insurance. Every agent representing an insurance company doing a legitimate, lawful business should subscribe for it. Address

F. H. Leavenworth Publishing Co.

This publishing house has its business offices and editorial rooms on the top floor of the McGraw Building. It makes a specialty of various insurance publications which find their way into every state and territory of the United States and throughout Canada. The publications of this firm have a national reputation among insurance agents as being honest and correct in every particular. Chief among these publications is the Indicator, a national journal of insurance, which will soon begin its eleventh year. The Indicator has regular subscribers in every state and territory in the union. The agents all like the paper, take it, read it, and pay for it. The well-known reliability of the Indicator and the care exercised by its editors to verify everything before printing has earned for the paper an enviable reputation for truthfulness, until it has become a well-known phrase among insurance agents throughout the country that "if you read it in the Indicator, it is so." The Indicator is issued the first of each month and can be had for the exceedingly low price of $2 per year. When asked why the company did not charge a higher subscription price, Mr. Leavenworth replied: "We would much prefer to have several thousand subscribers that cheerfully pay $2 per year each for the Indicator than to have only a few hundred that begrudgingly pay $4 or $5 per year." This firm also publishes the Pocket Chart of Co-operative Life, Accident and Fraternal Associations, which has now reached the seventh year of publication, and the Indicator's Pocket Chart of Regular, Legal Reserve Life Insurance Companies. Both of these charts are issued each year, with figures for the five years ending Dec. 31 preceding. Other publications issued by this firm are charts of both fire and life business in Michigan, both of which are used quite largely by insurance agents throughout the state; the Indicator's Combined Expiration Register and Line Book for Fire Underwriters; the Life Agents Tickler and Insurance Record for Life Insurance Agents, besides various other publications, which our space will not permit us to mention at this time.

Every new subscriber to THE INDICATOR gets a $1.00 book free, provided they write at once, and say where they saw this advertisement. Address,

SEWER PIPES

Sewer Pipes, Flue Linings, Chimney Tops, Lime, Fire Brick, Fire Clay and all Fire Clay Products. Portland and Native Cements, Calcined Plaster and Mortar Colors always on hand.

NOTICE

Particular attention is directed to the formation and construction of the MAGUIRE TRAP. Sanitary experts, engineers, architects, plumbers and builders after subjecting it to the severest tests, have declared it to be worthy of their unqualified approval. Leading physicians also declare that where it is used, typhoid fever, diphtheria and other infectious diseases are much less prevalent. In the City of Toronto there is a very large and constantly increasing number of these traps being used, and in every instance they are giving perfect satisfaction. Call or write for pamphlet, at 84 Adelaide Street West.

DIRECTORY BORROWERS

THE patrons of our Directory are frequently inconvenienced by borrowers; not the stranger or private citizen, who steps into the office, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference, yet are too mean to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks, unless you send for it before; it is scarcely in its place before another request—*Please lend me your Directory for a few minutes*—These same borrowers tell our canvassers that they have no use for a Directory—SHAME.

Directions and Instructions for Telegraphing Fire Alarms.—Keys are left with the occupants of buildings in the vicinity of each fire alarm box. The members of the police force also possess keys. The following will be observed when a fire is discovered:—Go to the box, open the door and pull the hook down as far as it will go, firmly and without jerking, and let it slide back; if the alarm is not immediately heard upon the small bell within, or upon the tower bells, go to the next nearest box and repeat the operation. Key-holders are cautioned not to open the box except in case of fire; to not give an alarm till certain of a fire; to not give an alarm for a fire seen at a distance; to pull down the hook but once in giving an alarm; to not let the key go out of their possession except when demanded by proper authority.
