KING WILLIAM THE FOURTH.

COMPILED AND ARRANGED BY
GEORGE WALTON.

YORK, U. C.
PRINTED BY THOMAS DALTON,
233 KING-STREET.

P R E F A C E.

YORK, the Capital of Upper Canada, is beautifully situated near the head of Lake Ontario, on the North side of an excellent harbor, in Lat. $43^{\circ} 39'$ North, and Long. $79^{\circ} 36'$ West from the Meridian of Greenwich. York harbour is an elliptical bason of an area of 8 or 9 square miles, formed by a long sandy peninsula stretching from the land east of the Town to a point called Gibraltar Point, abreast of the present Fort, where the troops are stationed, from which it is about two miles distant, and upon it is a Light-House; thence it stretches towards the shore about $\frac{1}{2}$ of a mile, then dips under water, continuing in the same direction, carrying on it from 2 to 3 ft. of water, until within about 1,500 yds. of the shore; it then breaks off, dropping suddenly down from the spot where the Buoy is laid, to 13 ft., soon deepening to $14\frac{1}{2}$, the deepest bed of the channel, which is mud. Here ends the Peninsula sand, or Island as it is generally called.

The channel then gradually shoals towards the shore; at 13 ft. you strike rock, and 700 ft. from the shore you have 9 ft. water, leaving a channel from that depth out to the Buoy, about 815 ft. wide.* The Bay is about 3 miles across, having a small river, the Don, emptying into it at the east end.

On the Island or Peninsula, Mr. Knott has lately erected a manufactory for making starch, soap, &c; attached to which, is an hotel for the accommodation of parties of pleasure visiting the Island, and for whose convenience in getting there a boat has been established, propelled by four horses.

The town of York is laid out at right angles: the streets are spacious: the Main Street, called King street, runs through the centre of the Town, from east to west, and is $1\frac{1}{2}$ mile in length: the side-paths are well flagged, and an act was passed last Session for macadamizing the street; the Houses are partly built of wood, but many of them are of Brick and Stone; it contains the Public buildings of the Province, viz. The New Parliament buildings with the Government Offices attached, the Government House, the College of Upper Canada, the Hospital, the Upper Canada Bank, the Court House, and Gaol, a splendid hall called Osgoode Hall, for the Law society, a newly erected handsome stone Church of the Church of England Establishment, a Scotch Church, a Roman Catholic Church, and many other Churches and Chapels belonging to the different religious persuasions, all of which are described at length under the head Ecclesiastical Department folio 117 of this book. The Barracks are situated at the West end of the town, with a Battery which protects the entrance of the harbor.

The only outlets from the town are Yonge st. to the North, leading through the villages of Vaughan, Markham, King, Thornhill, &c. to Newmarket and Lake Simcoe, from whence there is a communica

tion by Penetanguishine to Lake Huron. This being a route of much importance was greatly improved by the North West Company, for the double purpose of shortening the distance to the Upper Lakes, and avoiding any contact with the American Frontiers. The outlet from the Town to the East, is called the Kingston road, crossing the Don river about one mile from the Town over a handsome Bridge built by the present Governor Sir John Colborne; thence through Scarborough, Whitby, Cobourg, Port Hope, crossing the River Trent to Kingston at the Lower end of the Lake. The outlet to the West is Lot-street, continued by what is called Dundas street, crossing the river Humber about 7 miles from the Town, to Burlington Bay at the head of Lake Ontario and Dundas 52 miles from York: this is the direct road to the Canada Company's lands, the London and Western Districts.

The Town of York contained, according to a census taken by the compiler of this work in July of this year 1833, a population of from 8 to nine thousand inhabitants, (which population is more particularly described at the end of the work) composed of English, Irish, Scotch Native-born Upper Canadians, and a very few French Canadians.

When it is considered, that 40 years ago the site of York and the whole country to the north and west of it was a mere wilderness, the haunt of the savage, and of beasts hardly more savage, that sustained him in being. The splendid marks of growing opulence, which every where surround him, must strike the spectator with wonder and admiration, and certify to his mind that he beholds the nucleus of a great and powerful Empire.

York from its locality being the focus, to which converges the produce of an extensively surrounding country of immense fertility, thickly settled by a robust and industrious population, blessed with a salubrity of climate which braces and invigorates the human frame and stimulates to and sweetens labor, and being withal the seat of Government, whence is diverged the retributive and enriching streams of a rapidly increasing revenue, has acquired an impetus in a career of prosperity, to which it would be difficult to assign bounds.

In whatever direction the eye of scrutiny be turned, it luxuriates in the solid evidences of a well directed industry, and from the precocity of enterprise every where pre-eminently conspicuous in efforts to inspire with life and activity our inexhaustible fund of now inert wealth, mechanically conveys to the mind, anticipations of future consummations calculated to illustrate even the brightest pages of future histories of Commerce.

However unfavorable may be the prepossessions which have been imbibed by strangers from the misrepresentations of restless and insidious maligners of our Colonial Government, a short sojourn in the country is invariably so prolific in evidences of a thrift that shuns association with the bugbear of the whining and fretful demagogue, as to dispel alarm from the most timid, and sweep clean from prejudice the mind most pre-occupied with morbid discontent.

It is a self evident proposition, that man bestows not his cheerful toil on a land cursed by the exactions of the tyrant or oppressor; thus do the receding forests, the smiling farms, yielding their abundant crops the comfortable homestead, with on either hand the well replenished barn or fold-yard, garnished with life, in the full and broad proportions indicative of munificent and careful husbandry; the smiling, contented look of the proprietor, as he contemplates their increase, and counts the profit from their sale; the rapid transformation of the pri

mitive Log Hut, into the spacious Frame House or doubly fortified brick or stone dwelling; the substantial and tasteful structures of the Towns and Villages, at once evidence of comfort, security, and opulence, and finally the prodigious capital expended in the magnificent means of transport upon our inland seas, collectively conspire to give unalloyed assurance that neither tyranny nor oppression hold footing in the land.

The administration of Sir John Colborne has thus far proved a brilliant era in the progress of this infant empire, his every act having been propitious to its advancement in knowledge, population and wealth: Long after his envious maligners are forgotten, will his revered name be associated with the existence of Upper Canada College, which has opened to our youthful generation the means of sound and useful education, and to His Excellency's continued efforts does the Province look with longing anxiety, for the foundation and ample endowment of the long projected University, an honor, it is fondly hoped, is not in reserve for a successor.

Conjoined with the paternal ministration of His Excellency, have been the efforts of the Canada Company, to promote the general prosperity, which have been attended with surprising success. They have pierced through the wilderness to the very shores of Lake Huron and have already been the founders of two towns, Guelph and Goderich; their extensive means have been elaborately and judiciously employed in providing a safe refuge for the burthensome population of the mother country, not only available to mete comfort to the afflicted of the present generation, but prospective of affluent independence to their posterity.

Among the several causes which have so largely contributed to our rapid improvement, it would be disingenuous to neglect assigning a due influence to the Bank of Upper Canada, which in as far as the Legislature has granted it the means, has by its judicious and liberal conduct contributed to the great result of inspiring universal confidence in the continuance of the rapid progressive improvement, now recorded with such heartfelt satisfaction. Additional aid to commerce and agriculture is anticipated from the branch of the sister institution, the Commercial Bank of the Midland District, wisely established in York, of which the direction so far has given an earnest of a desire to stint none of the efficiency its capital and charter have the power to impart.

In offering to the public this little work, a large indulgence is solicited. Although the most sedulous industry has been employed to make it as extensively useful as possible, it is not presumed that upon a first attempt a work of this nature can be quite perfect; in future editions, it is hoped the Compiler's labours will regularly improve in the estimation of a Public, whose good will by faithful service it is the height of his ambition to secure.—He has the honor to subscribe himself,

The Public's most obedient,
Humble Servant,

THE COMPILER.

YORK CIRCULATING LIBRARY.

187 KING-STREET.

THE Advantages afforded to a reading public by a Circulating Library, are so great and well known as to preclude the necessity of detailing the inducements that have prompted Charles Daly to open such an establishment in York.

C. D. having been many years Librarian to the Athenæum, London, has formed such a connexion with the Booksellers in that City as will give him an opportunity of making his Library a credit to the Town, and as it will contain all authors of acknowledged merit and all periodicals of talent, he feels confident that he shall secure and merit the patronage of the Gentry of York and its vicinity.

The Subscription to the Library to be paid in advance will be

£2 0. 0. Per Year.

£1 5. 0. Per Half Year.

£0 15. 0. Per Quarter.

An extensive and choice selection of Moral, Theological, Historical and Scientific Works, as well as a full supply of the most approved Novels, Travels, Memoirs, &c. will be found in the Library; and arrangements are made for obtaining every new publication of merit as soon as possible after publication.

An elegant and commodious Reading Room will early in the Spring be connected with the Library, to which in addition to the Library will be added all Journals of interest.

The Library will for the present be kept in T. F. Caldicott's Store, 187 King-street, where are carried on Bookselling and Stationery in all their branches; Letterpress, Lithographic and Copperplate printing, Bookbinding, &c

The days of closing for those places three times per week are Mondays, Thursdays, and Saturdays ;—for those twice per week, Mondays and Thursdays, except for Wilton, Camden East, Galt, Guelph, and Waterloo, which are made up on Tuesdays and Fridays ;—and Cavan and Peterborough on Tuesdays and Saturdays.

Those made up once per week are on Thursdays, except Scarborough, Markham, and Stouffville, which are made up on Fridays.

NOTE.—Drummondville, U. C. is made up but twice per week in winter, viz. on Mondays and Thursdays. Mails for all Offices lying North, West, and South of York, including the United States, are closed at 11, A. M., and for all East at 4, P. M.

Letters can be sent, after the hours of closing, up to five minutes to 12 in the forenoon, and five minutes to 5 in the afternoon, on payment of threepence additional with each letter.

The Western and Southern Mails due daily, except Sundays, at 1 P. M.

The Northern Mails due on Wednesdays and Saturdays, at 1, P. M.

The Eastern Mail, due daily, except Mondays, at 7, A. M.

Letters for the United States must be paid to Lewiston, and such as are intended to go that way to Europe, must be paid to New York. Letters for Europe can be sent by way of Quebec, between the 20th of May and 1st of November, in merchant-vessels. They can be forwarded by Halifax (per Falmouth packet) and New York at any season.

The postage must be paid either way.

A letter with *one* inclosure is *double*; and with *two* or more inclosures, if it does not weigh an ounce, is *treble*.

Letters weighing an ounce are chargeable with *four single rates*; and for each quarter-ounce over that weight, a single rate is chargeable.

Colonial newspapers may be sent to Great Britain or Ireland either by way of Halifax or by way of New York. If sent by way of Halifax, the *sender* is not required to pay any postage;—if sent by way of New York, one and a half cent, or one penny currency, must be paid by the *sender* at the time of putting the paper into the Post-office. In either case, the *receiver* of the paper in Great Britain or Ireland has to pay threepence on its receipt. The average time which letters or papers for the Old Country take to reach their destination is, *via* New York, five weeks; *via* Halifax, three months. As papers sent by way of New York are sometimes mistaken, by the Post-office Department at home, for American or United States newspapers, which are not, in the present state of the law, allowed to pass through the Post-office on the same terms as Colonial papers, we would recommend such as are desirous of sending Canadian newspapers to their friends in the Old World, to address them in the following manner, recollecting always to leave one or both ends of the paper open:—

Canadian Newspaper.

Mr. William Robb,

Sone End,

Paisley,

England,

Ireland,

Scotland,

} AS THE CASE MAY BE.

If addressed in this manner, and one penny paid at the time of putting it into the Post-office, there is no doubt of its reaching its destination.

When newspapers are sent from Great Britain or Ireland to these Provinces, three halfpence must be paid on each at the time of sending them, and then no postage is chargeable here: provided the paper is sent within *seven* days next after the day on which the same shall be published; but if after the expiration of such seven days, such paper to be charged as a single letter. If the three halfpence be not paid by the *sender*, they are chargeable, on delivery here, with the same rate of postage as letters.

The expense of a letter to London from York, if sent by way of New York, is to the sender 2s. 0d. the postage to New York. The postage to the receiver in London is about 1s. 3d. depending upon the port the letter-bag is landed at.—No letters can be sent by mail out of these Provinces [except to certain public offices at home] unless the postage be paid to the port of embarkation, or to the Lines, if for the United States. Many letters and newspapers are lost to all concerned, from ignorance of these Regulations.

THE OFFICE AT YORK IS OPEN FROM 8 O'CLOCK, A. M., TO 7, P. M., DAILY, EXCEPT WHEN OPENING MAILS,—AND ON SUNDAY, FOR ONE HOUR, FROM NINE TO TEN, A. M.

ADVERTISEMENTS.

IN conformity to instructions recently received from His Majesty's Secretary of State for the Colonies, the following arrangements for disposing of the Waste Lands of the Crown in Upper Canada are made known for the information of emigrants and others.

Except in the case of U. E Loyalists, and other persons entitled by existing regulations of the Government to Free Grants, no person can obtain any of the Waste Lands of the Crown otherwise than by purchasing at the public sales made from time to time under the direction of the Commissioner of Crown Lands,

These sales will be made on the first and third Tuesday of every month, and will either be continued through the following day, or not, as circumstances may appear to the Agent to require.

They will be held at the following places :

At Bytown—for the *District of Bathurst.*

Belville—for the *Midland District.*

Peterboro—for the *District of Newcastle.*

York—for the *Home District.*

Hamilton—for the *District of Gore.*

London—for the *District of London.*

Chatham—for the *Western District.*

Besides these General periodical sales, there may be occasional sales by Auction in other Districts of such Town Lots, or other Lots of Land, as may remain to be disposed of; and of these sales ample notice will be given.

The conditions of every sale by Public Auction will be as follows:—One fourth of the purchase money to be paid down, and the remainder in three equal Annual Instalments, with Interest at six per Cent. on each instalment, payable with the Instalment.

The lands will be put up at an upset price, of which notice will be given at the time of Sale, and in the previous advertisements which will be published of the Lands intended to be put up at each Sale; and in case no offer shall be made at the upset price, the Land will be reserved for future Sale, in a similar manner, by Auction.

A patent for the lands will be issued free of charge upon the payment in full of the purchase money and interest.

ADVERTISEMENTS.

The regular periodical sales will be held for the first time as follows:—In Peterborough, York, and Hamilton, on the third Tuesday in June next ; and in Bytown, Belleville, London, and Chatham, on the first Tuesday in July next ; & they will continue to be held at all those places on the first and third Tuesdays in each month, until after the first Tuesday in November next ; when such other arrangements as may be made by the Government will be announced.

Information can be obtained respecting the Lands to be disposed of in the several Districts, by applying to the following Gentlemen, Agents for the Commissioner of Crown Lands—viz.

In the Bathurst District—Mr. John McNaughton D. S. Bytown.

Eastern District—Jas. Pringle Esq. Cornwall.

Newcastle District—Alex. Mc Donell Esq. Peterborough.

London District—Roswell Mount Esq. Delaware.

Western District—H. J. Jones Esq. Chatham.

The Commissioner of Crown Lands, acting also as agent for the Sale of Clergy Reserves, requests it to be noticed that such Clergy Reserves as have not been hitherto occupied by the authority, or leased by the Government, will be disposed of, by Public Auction only, either at the periodical sales of Crown Lands, or at occasional Sales to be duly advertised ; and that the terms of payment for Clergy Reserves will continue to be as follows :—Ten per cent. to be paid at the time of sale, and the remainder in nine Annual Instalments of ten per cent. each, with Interest on each Instalment, to be paid with the Instalment.

Such Clergy Reserves as have been leased or occupied by the authority of the Government, must be applied for by letter to the Commissioner of Crown Lands ; and when disposed of, will be sold by Private Sale on the same terms of payment as those disposed of by Public Auction.

All applications from Emigrants, or respecting Emigration, not immediately connected with the Sale of Public Lands, are to be addressed to Anthony B. Hawke, Esq. at York, he being specially appointed by the Government to act in that department.

In order that the supporters of this Institution may have the best opportunity of witnessing their children's improvement, the books of the Pupils will be invariably sent home for the inspection of those parents who reside in town, on the last day of every month; and for the inspection of parents resident in the country, as often as may prove convenient; there will, moreover, be a public examination annually at Midsummer.

ADVERTISEMENTS.

From the qualifications and assiduity of the Masters selected for the Institution, T. F. C. feels warranted in affirming that this Academy shall be at the least inferior to none hitherto established in the Province. He is aware that the above assertion may seem bold and hazardous; but his persuasion of its truth induces him to risk it, under a well-founded conviction that time will speedily establish the justice of such expectations.

Since the above Establishment must rest entirely on its own peculiar and intrinsic merit, having no extraneous assistance or Government gratuity, T. F. C. begs leave to intimate, that he expects invariably to be paid for all Pupils, *whose parents reside in York*, on the first day of every month; and for those Pupils, *whose parents reside in the country*, once in three months in advance.

No exertions will be spared towards giving satisfaction to the Public; but, as this can only be accomplished by promptitude in payment, T. F. C. hopes that, should any parent neglect to pay on the first of the month, and in consequence be reminded of his remissness, he will not be offended, nor, should the same neglect be repeated, esteem it unjust if his child should be dismissed the Academy.

Genteel accommodations are provided for boarding Young Ladies from the country, who may wish to obtain an education in this Institution.

Terms for Boarding, &c. per Qr. £5 0 0 } Payable in
Tuition, Books, &c. 1 10 0 } advance.

HENDERSON and M'KENZIE, 220 King-street, opposite to Mr. Beatty's British Woollen Warehouse, have now opened the above Establishment with a well-assorted Stock of GROCERIES, WINES & LIQUORS, which they are determined to sell at exceedingly low prices, and feel convinced that trial will ensure a repetition of favors.
