This Company is established on strictly Mutual principles. Its objects are to insure Property in Cities, Towns and Villages, on terms equally advantageous with those hitherto afforded by Farmers' Mutual Associations.

To secure the assured against heavy assessment during the early operations of the Company,  
**A GUARANTEE FUND**

Has been opened, the subscriptions to which already amount to nearly Nine Thousand Dollars, which is applicable to the payment of claims for loss by fire.

It is anticipated that the cost of Insurance in this Company will not reach two-thirds of the usual proprietary rates, as no profits are required.

WE beg to lay before our fellow citizens a new edition of THE CITY OF TORONTO DIRECTORY, and assure them that neither expense nor labor has been spared to render the work as reliable a guide to the professional, commercial and manufacturing communities as it can possibly be.

It will be found to contain a large amount of new and useful information; and with the view of making it as popular and useful as possible, we have, in addition to the ALPHABETICAL DIRECTORY, introduced a list of TRADES and PROFESSIONS, with descriptive sketches of the chief manufacturing establishments, which cannot fail to prove of great benefit to strangers visiting the city with a view to making purchases.

For the benefit of our advertising patrons, we have had struck off a large edition of the CLASSIFIED BUSINESS DIRECTORY, with the SKETCHES and ADVERTISEMENTS, as they appear in this work, for free distribution throughout the province; by this means giving more prominence and publicity to the business and manufacturing interests of the city than Directory publishers ever before attempted to give.

We desire to present our acknowledgments to the members of the press, and to many other gentlemen of the city, who have readily furnished such information as we desired, which otherwise would have entailed upon us considerable trouble and expense. And to our advertisers and subscribers, our especial gratitude is due for the liberal support they have given the enterprise.

MESSRS. A. & S. NORDHEIMER, dealers in Piano Fortes, Music, &c., have been established in business since 1841, since which time they have so extended their business, that from being comparatively a very limited one, they now hold the proud position of being the largest and most extensive house in British North America. They have, in a number of instances, rendered many a home, situated in the most remote clearing, happy, by affording every facility for the procuring of instruments on very reasonable terms, from their Agents, in different parts of the country. In consequence of the facilities thus afforded by Messrs. NORDHEIMER, and their signal success in developing the musical taste of Canadians, they have induced a desire for the position of being in possession of a Dunham, Chickering or Steinway Piano.

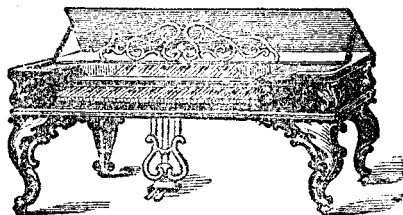

This firm are also largely engaged in the publishing of Music.

The Melodeons manufactured by Messrs. Prince & Co., are kept in large supply at this establishment, for which they are the sole agents.

## MANUFACTURING ESTABLISHMENTS.

---

### ARTIFICIAL LIMB MANUFACTURING.

MR. NORRIS BLACK, at No. 18 King street east, commenced business in this line in 1857. Two hands are kept constantly employed, and wherever these artificial limbs have been used they have given the utmost satisfaction. The prices are lower than in the United States, and Mr. Black has combined all the improvements from the several United States makers. The volunteers who unfortunately lost their limbs at Ridgway have been supplied by Mr. Black.

---

### LAMB'S MANUFACTORY

Was first established in 1837 by the late Peter R. Lamb. The business is now carried on by Mr. Daniel Lamb, under the style of Peter R. Lamb & Co. The premises are situated in the north-eastern portion of the city, and are in every respect capacious and adapted for the purposes for which they are used. Twenty-five hands, and two steam engines, one of fourteen-horse and one of three-horse power, are employed. Formerly the demand for the goods manufactured here was so great that it was found impossible to fill orders for glue, ground bone, and super-phosphate of lime. During the last year, however, extensive improvements have been made to meet the increase of business. This firm have extended their business connections by opening up a trade in England for animal charcoal, which meets with ready sale for sugar refining purposes. They are about completing arrangements to forward some of their manufactured goods to Havana, Barbadoes, &c. The blacking, water-proof leather preservative, glue, bone-dust, and super-phosphate of lime this firm manufactures are of the very best description, and can be found in any of the mercantile establishments throughout the country.

## BILLIARD TABLE MANUFACTURING.

MESSRS. RILEY & MAY commenced business in this line about July, 1866, since which time they have had twelve hands employed in the various departments of billiard table making. They use Phelan's combination cushions, and their tables are equal to any manufactured on the continent. The beautiful tables in the Revere and Rossin Houses, Toronto, were made by them. A superior table is manufactured for the use of private families. Cues, balls, cloths, and everything appertaining to the game, can be obtained here lower in price, and of as good quality, as articles of the same description manufactured in the United States.

---

## CURRIE'S BOILER AND STILL ESTABLISHMENT.

MR. NEIL CURRIE established his boiler works, now located on the Esplanade, in 1851. Forty hands and an engine of twelve-horse power, are kept constantly employed. The establishment is complete in all its departments, the machinery used being of the very best kind, and fitted up with all the latest labor-saving improvements. He manufactures boilers for marine and stationary engines, stills, iron agitators, tanks, &c. Some of the largest oil establishments in Canada have been supplied by him. Mr. Currie imports his boiler plate direct from Great Britain, and has a large stock of tubing, fire-brick, angle-iron, &c. Boilers are here supplied to engine manufacturers. During the present season Mr. Currie is manufacturing a large boiler for Messrs. Gooderham & Worts; two boilers for a new flouring mill, foot of York street, owned by Mr. Boulton; one for Mr. M. Staunton, wall paper manufacturer, and two for the Normal School building. He has also the contract for supplying several miles of wrought-iron piping, about thirteen inches diameter, for the Toronto Water-works.

## TORONTO STEAM BRASS WORKS.

Established 1864, by T. C. Collins, at 112 Bay street. He employs ten hands and a steam engine of six-horse power. Brass work, steam-fittings, brass castings, &c., and every description of engineers' brass work manufactured.

## BREWERIES.

VICTORIA BREWERY.—This extensive brewery is situated on Gould street, corner of Victoria, and was established in 1849. It is now owned and carried on by Messrs. O'Keefe & Co. The old brewery was 193 feet by 30 feet. The additions to the brewery are 123 feet by 33 feet. It has a capacity of 7,000 gallons a week. The malt floors in the new building have been put up with much care. They are laid with three inches of the very best water lime; are 123 feet by 33 feet; and each floor is divided about the centre by a row of pillars—the supports of the department above. The timber throughout is red pine, which is much more durable and costly than the quality ordinarily in use for such purposes. In the arrangement of the kiln and malting floors, a considerable saving has been effected. The kiln is placed at the eastern end of the malting floors, and it is so contrived that the cumbrous system of getting in the grain, used in many breweries, is dispensed with. There is no “trapping-up;” the malt is thrown from each floor direct on the kiln. Two steep-tubs are here located, which have a wetting capacity of two hundred and twenty bushels each. The kiln itself is some 33 feet square; it is made fire-proof, being constructed with iron girders, rafters and plates. The total weight of iron here is some seven tons. This part of the building has a false roof, which enables the grain-drying operations to be performed much quicker and better. Each one of the plates of which the flooring is composed will bear a stress of about six cwt. Above the malt floor the granary or barley loft is placed. In the fermenting-room there are five tuns, each of which contains a brewing; and on an average there are some ten brewings (fermenting and cleansing) going on at the same time. The extensive vaults under this brewery are capable of storing away 80,000 gallons. Next season a vault of nearly double the present storage capacity is intended to be added. The vaults are fire-proof, and through an ingenious contrivance the air is pure and good all the year round. They are constructed in the most durable manner, with clinker bricks, four thick, each grouted with hydraulic cement; while the walls are two feet thick, and of stone work. In the upstairs portion of the premises they have condensers for purifying the water. In making the malt, Welsh coal, specially imported, is used, and is said to be much cleaner, and in every way an improvement on the Lehigh coal generally used. In order to secure an excellent beverage, Mr. O'Keefe states

that he purchases only first-class hops—even importing them from England. The capacity of his two malt-houses he claims to be 35,000 bushels per annum. The entire establishment is now made a very superior one, the proprietor devoting his whole time to perfecting the brewing in its various processes. The plans were drawn by Mr. John Bailey, architect.

**WILLIAM STREET BREWERY.**—This brewery was established about 1860, and is now owned and carried on by Messrs. Aldwell & Co., who employ about thirty hands, and a steam engine of twenty-five horse-power. The premises, perhaps the largest in the Province, have been enlarged to about double their former capacity, and are built of brick in the most substantial manner. The vaults and cellars are very commodious, and arranged so as to afford every facility for the storage and shipment of packages with as little labor as possible. The firm do a large business in malting; about one-tenth of the excise duty paid on ales and porter in the Province of Ontario is paid by them.

**YORKVILLE BREWERY,** established in 1835, by John Severn. The premises are situated in Yorkville, and are built entirely of brick. The main building is 200 feet long by 40 feet wide, four stories high, including stock cellars and vaults. The malt house is a separate building, also of brick, 115 feet long by 40 wide, three stories high—each floor being neatly cemented to the depth of about three inches. A fifteen-horse power steam engine is used, and twelve hands employed manufacturing ale and porter; capacity, between 6000 and 7000 gallons a week. Twenty thousand bushels of malt were turned out at this establishment during last season. The arrangement for transferring the malt from the malt-house to the brewery is by rail carriage, and is in every respect a great saving of labor and expense.

**WEST TORONTO BREWERY,** Queen street corner of Niagara, established about 1835. The establishment is now carried on by Messrs. Cosgrave & Co., who manufacture every description of pale ale and porter. The firm have lately enlarged their premises to more than double their former capacity. They are now able to turn out 9,000 gallons weekly. An additional malt-house has been erected, 30 by 40 feet; the malt rooms are neatly fitted up; the cellars are large and well adapted

for stock ales and porter. The whole of the buildings are 180 feet long and about 100 wide. A new steam engine of about fifteen-horse power has been added ; also new boilers, cooling apparatus, &c. The West Toronto Brewery supplies the Officers' mess and the principal hotels.

**QUEEN STREET ALE AND PORTER BREWERY**, established 1854, by Messrs. John Wallis and John Moss. Their premises are well adapted for brewing purposes, and a very excellent article of ale and porter is turned out. Capacity between 4,000 and 5,000 gallons per week. The firm do their own malting. Their stock cellar is first-class.

**EAST TORONTO BREWERY**.—This brewery was established on Parliament street near King, in 1847, by Mr. William Copland. The buildings are brick, 125 feet by 130, with a capacity of manufacturing 20,000 bushels of malt during the season. Malt-house 35 feet by 125. The stock cellars are 125 by 130 feet. There are three vaults, two being 15 feet by 60 each, and one 25 by 12. Mr. Copland employs twelve hands, and an engine of ten-horse power.

**DON BREWERY**, established in 1834, by Mr. Thomas Davies. This brewery is on the River Don near Queen street. A steam engine of twelve-horse power is used, and about eight hands employed. About 5,000 barrels of sparkling cream ales and porter are turned out annually.

**EAST END BREWERY**, Don river, River street, established in 1862, by Mr. Robert Defries, sen. Manufactures ales and porter. The buildings are brick, three stories high, containing malt-house, stock and other cellars. A steam engine of eight horse power, and six hands employed.

**SPADINA BREWERY**, Venauley street, near St. Andrew. Originally established about 1837 ; now enlarged by additional buildings, and the introduction of a steam engine of eight-horse power. There is an excellent stock cellar, vaults, &c. Four hands will be kept employed. Capacity about 2,000 gallons a week. Buildings are chiefly brick, and the whole are about 70 feet long by 50 feet wide. The proprietor is Mr. Charles Sproatt.

**WALZ'S BREWERY**, established in 1858 by John G. Walz. Premises are on Duchess cor Caroline. Manufactures exclusively lager-beer which is considered of a good quality.

## BROOM MANUFACTORIES.

MESSRS. CAULKINS & SANDERSON'S BROOM MANUFACTORY, was established in 1842. This factory is at 434 Yonge street. They now employ about seventeen hands, and are, exclusively, wholesale manufacturers, and import the raw material. Their goods are chiefly sold to dealers for the trade of Ontario. The firm manufactures from 75 to 100 tons of broom-corn a year.

MESSRS. R. GAUD & Co.'s BROOM MANUFACTORY, established in January, 1865, at 37 Front street. They employ about eighteen hands. Their goods are sold throughout Quebec and Ontario. The raw material or stock is imported.

BROOM AND BRUSH FACTORY, 83 Queen street west, established in February, 1866, by Mr. J. W. Morey, who now employs fifteen hands, and manufactures from 50 to 60 tons of broom-corn yearly. Mr. Morey's trade extends over the Province of Ontario.

---

BRUSH MANUFACTURING.

In this branch of manufactures, Mr. Charles Boeckh commenced business in Toronto, in 1850. The works are situated on Berkeley street, corner of Duchess. The factory is 30 feet by 90 feet, two stories high; besides three ware-rooms, 60 feet by 36 feet. Mr. Boeckh received a premium at the Dublin Exhibition, in 1864; and first prize last Provincial Exhibition, in Toronto. On going through this large and well-conducted factory, a more perfectly regulated establishment can be seldom witnessed. There are at present employed about 60 hands, in addition to an eight horse-power steam engine, manufactured by Messrs. Martin & Son, of Ontario street, Toronto. The whole process of manufacturing, from the raw material in wood, bristle, fibre, &c., is carried on with a regularity and system scarcely to be surpassed in the old country. The business is conducted under the personal supervision of Mr. Boeckh, and from his well known reputation as a manufacturer, it is worth the consideration of purchasers visiting Toronto to call and see for themselves. In the article of lamp chimney cleaners, so necessary in every house, and for which Mr. Boeckh has letters patent, the attention of wholesale dealers is directed. On account of the facility he now possesses of obtaining

wool suitable for the purpose, a large reduction is made from the former prices.

MR. A. SMITH, 54 DUNDAS STREET, established in 1850, manufactures every description of fine and coarse brushes.

---

### BUILDERS, CONTRACTORS, AND WHARFINGERS.

MESSRS. SCOTT & STOLLERY, corner Bay and Esplanade, established in 1860; employ on the average one hundred hands. This firm is also extensively engaged in the importation of all kinds of building stone.

---

### TORONTO CACK FACTORY.

Established in 1865 at No. 46 King street west, by Mr. H. Cobley, who now employs about twenty-five hands. It is not generally known that the term "Cack" refers to children's boots and shoes. This factory has the facility of turning out about 1000 pair a week. The demand for this class of goods is constantly on the increase, and Mr. Cobley deserves credit for the introduction into Toronto of a branch of industry that gives employment to so many hands, this being the only one of its kind in the Dominion.

---

### CABINET MAKING AND UPHOLSTERING.

The largest establishment of this kind, in Canada, is carried on by Messrs. Jacques & Hay, on Front street, foot of Bay. This firm has been doing business in this branch of industry for upwards of thirty years, and are now giving employment to three hundred hands, beside using two steam engines of thirty horse-power each. The main building is built of brick, 120 by 50 feet, five stories high; the workshop adjoining is 100 by 52 feet, two stories high; the finishing shop 200 by 30 feet, two stories high, and storehouse, 196 by 50 feet, three stories high. The firm is now completing an extensive brick warehouse, on the corner of Jordan and Melinda streets, of four stories in height, 176 feet long by 33 feet wide. A branch establishment is in operation at New Lowell, County of Simcoe. Estimated business annually, about three hundred thousand dollars.

MESSRS. HARTILL & LOCKINGTON, CABINET-MAKERS AND UPHOLSTERERS, established in 1856. Their warehouse is at 120 King street east, and is five stories high, 25 feet wide by 200 feet in depth. The factory is Nos. 328 and 330 Queen street west, and is built of brick, 52 feet front by 118 feet in depth, three stories high. The firm now employ about twenty hands and use steam-power to the extent of five horse. They manufacture every description of cabinet ware, chairs and bedsteads. The basement floor of the warehouse is occupied as a store-room for common chairs; the ground floor for wareroom and counting-room; second story for hair cloth furniture, third story for bedroom sets; fourth story for mattresses, &c. The varnishing or finishing room is in rear of the warehouse, and is also used as a store-room for common furniture. The firm are doing a large business which is constantly on the increase throughout the Province of Ontario, as well as enjoying a good city trade.

---

#### CAR WHEELS.

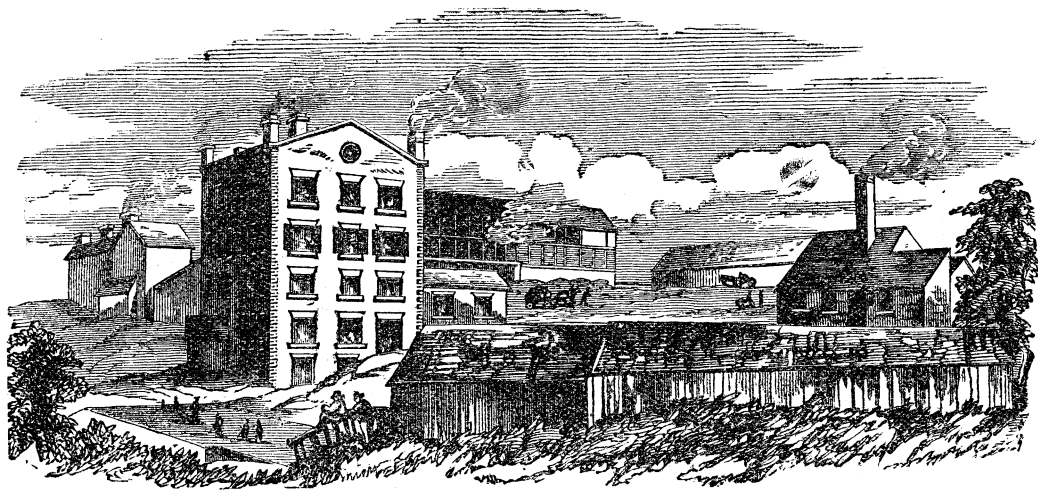

MESSRS. J. & N. C. SCOVILLE commenced the manufacture of railway car wheels on the Esplanade in 1861. They employ about twenty hands and an engine of thirty-horse power.

---

#### CARRIAGE AND COACH BUILDING.

MESSRS. HALL & Co.'s CARRIAGE WORKS, 163 King street west, were established in 1850, by Mr. C. F. Hall, now carried on by Messrs. C. F. Hall & Co. The firm employs forty hands, and turns out about 200 carriages of every description during the year; also about 100 cutters and sleighs. They have a large trade all over the Dominion of Canada, and many of the Southern States. The work turned out is in every respect first class; the very best workmen only employed, and the choicest timber used in the manufacture.

MESSRS. DIXON BROTHERS' CARRIAGE WORKS, 70 and 72 King street west, were established in 1860. This firm now employ about twenty hands, and turn out about 200 carriages of every description per annum. Sleighs, cutters, omnibusses, and coaches of excellent finish are here manufactured. The show-room is on the first floor of Nos. 70

and 72 King west, and is 54 feet wide by 60 feet deep. The second floor is occupied as finishing and trimming rooms; the third floor as a paint shop. In rear of the main building is a large two-story brick, 65 feet long by 60 feet wide, the ground floor of which is used as wood and blacksmith shops; the upper story is used for first coating and preparing work for paint shop. The proprietors are practical workmen, and the whole establishment is under their immediate supervision.

MESSRS. CLARK BROTHERS, CARRIAGE AND COACH BUILDERS, 151, 153 and 155 York street, were established in 1841. They now employ 25 hands, and turn out about 200 carriages, of various designs, during the year. The premises cover an area of 60 feet front by 150 feet in depth. The front building, brick, 60 by 40 feet, is occupied as a ware-room and counting-room. The rear building, brick, two stories, 60 by 40 feet, is occupied as wood and paint shops, varnishing and trimming rooms. The centre building is wood, and occupied as a blacksmith shop, containing five forges. This is one of the oldest establishments in the city in this line, and has been attended with success.

---

#### CIGAR MANUFACTURING.

There are several large establishments in Toronto engaged in this branch of manufacture. Mr. John Taylor, 124 Yonge street, employs from sixteen to twenty hands. Messrs. J. D. King & Co., 12 and 14 Wellington street west, are exclusive wholesale manufacturers, and do a very extensive trade throughout Canada. Mr. Mark Solomon, corner of Wellington street and Exchange alley, established in 1866, is giving employment to a large number of hands. There are several smaller manufactories, that in the aggregate give employment to a large number of men.

---

#### COFFEE AND SPICE MILLS.

ONTARIO STEAM COFFEE AND SPICE MILLS, Yonge, cor. Alexander sts., established March, 1859, by Mr. Geo. Pears. The buildings are of brick, 80 ft. long by 52 wide; two stories high; and are in every respect well adapted for the purpose for which they were built. Steam power about ten horse.

Number of hands employed, six. Manufactures all kinds of spices, coffee, chicory, cream of tartar, &c., &c. These spices, &c., are put up in either tin, wood or tinfoil packages, or in any other manner suitable for exportation. A large trade is done, and the establishment is one of the successful Toronto works. Four run of stone are kept grinding the various spices. Roasting capacity, one and half tons daily.

---

### CONFECTIONERY.

The principal establishment of this kind is carried on by Messrs. Dodgson, Shields & Co., corner of Yonge and Temperance streets, who established themselves in Toronto in 1855. They now, on an average, employ twenty hands, and manufacture every description of biscuits, crackers, English, French and American confectionery.

---

### SPICE MILLS AND SOAP AND CANDLE FACTORY.

MESSRS. D. CRAWFORD & Co.'s SPICE MILLS AND SOAP FACTORY.—This is the largest establishment of the kind in the city. All the various processes connected with grinding of spices, coffee, mustard, drugs, &c., the manufacture of soap, candles, lard oil and lubricating oil, are carried on under one roof in the most extensive and systematic manner. The motive power made use of is a twenty-five-horse power engine. Thirty hands are here kept constantly employed. For the purpose of grinding mustard and spices two run of stone are kept in motion, besides all the other machinery required in the preparation of mustard. A ton of mustard could be produced daily. In the department of the building devoted to the grinding of spices, &c., is a large coffee-roaster capable of roasting two tons of coffee daily, and a press of 500 tons power used for pressing oil out of the seeds. The department devoted to the manufacture of candles contains twenty of Humiston's patent candle machines, all kept constantly in operation. Each of these machines moulds 96 candles at a time, and this number can be repeated as rapidly as the candles can cool sufficiently to be drawn. These machines are simple and effective in their working. Notwithstanding the large quantity of candles turned out, the demand is in excess of the supply. Large quan-

tities of lard oil are made in an apartment devoted to that purpose, the lard being chiefly obtained in Chicago ; this is used mostly by woollen manufacturers. Thirty lard oil presses are kept working, each having a capacity of 1,000 pounds. A tank in the same apartment is used for clarifying and refining oil. For the purpose of rendering lard and tallow, a spacious horizontal tank, circular in form, and called by the workmen a "steam renderer," is used ; and for the purpose of clarifying tallow several large kettles set in arches in the rear of the main building are kept boiling. The most important branch of the business of this firm is the manufacture of soap. Four soap pans, about twelve feet in height (one of which, however, is 14 feet by 14 feet, newly put in), are used for boiling down the soap to the required consistency. The four boilers will turn out 60,000 pounds, or 30 tons, a week. A good deal of space is taken up by the other apparatus connected with soap-making. This is the only soap factory in the Province of Ontario, in which all the alkalies required in the business are made on the spot. The building is most commodious, being the one formerly used as the City Gas Works, but, notwithstanding its size, every nook and corner is in use, either in the active operations carried on by the workmen, or as store-rooms for the raw products of the manufactured goods. In addition to the other business of the firm a large trade is done in refined petroleum and fish oils, and for the storage of these articles a roomy warehouse, situated at the south side of the mill, is used. Further again to the south is an extensive open yard, where are to be seen hogsheads of the more expensive kinds of oil used, the object of this method of storage being to lessen the risk from fire and lower the cost of insurance. To afford greater security against fire, both a steam and a hand fire engine, with the necessary hose, are kept ready for any emergency. Water is obtained in unlimited quantities, by pumping, from the lake. Large quantities of starch are sold yearly by this firm, who are agents of the well known Canada Starch Works. The very best facilities are enjoyed for receiving and shipping goods by rail and boat. The Grand Trunk Railway passes the south side of the premises, and a commodious pier and warehouse stands at the water's edge, within a short distance of the establishment.

---

## DISTILLERIES.

TORONTO DISTILLERY, corner Esplanade and Trinity street, Gooderham & Worts, proprietors. This establishment has been in successful operation for seven years. The distillery is 300 feet by 80 feet and five stories high, built of the finest quality of Kingston limestone. The malt-house is 140 feet by 70 feet, and four stories high, and is capable of malting about forty thousand bushels a year, a large quantity of which is sold to the Lower Provinces. The establishment employs upwards of one hundred and sixty hands. Municipal taxes over \$3,000 dollars annually, and the excise duty paid last year to Government amounted to upwards of three hundred and thirty thousand dollars. Capacity, about two and a half millions of gallons per annum.

MR. WM. THOMAS FITZHENRY'S DISTILLERY, situated 61 Little Front, was established in 1855. Eight hands and an engine of twenty-five-horse power are employed. The establishment turns out about 250 gallons per diem, or 80,000 gallons per annum.

---

## DRY COLORS, VARNISHES, &amp;c.

MR. HUGH JEFFERSON, manufacturer of dry colors, varnishes, chemical paints, putty, patent oil for machinery, caustic soda ; also printing inks of various colors. This is the first and only establishment of the kind in the Dominion of Canada. In connection with the above, Mr. Jefferson has an oil refinery at the village of Weston, where he is manufacturing refined oil, benzole, and lubricating oils ; also making preparations for the manufacture of a superior article of Peat Fuel. Button, ball and thumb blue is now manufactured at this establishment, of a quality equally as fine as that imported, and at a lower price. Printers can here obtain inks of any shade or color desired, and Mr. Jefferson, in this as in every other branch of his manufactures, should be liberally encouraged.

---

## FELT HAT WORKS.

MESSRS. J. GILLESPIE & Co., have established a wholesale dépôt for the sale of Felt hat goods. The Canada Felt Hat Works now give em-

ployment to about seventy hands, using a steam engine of twenty-five horse power to propel the machinery. 100,000 lbs of wool, 500 cords of wood, 100 tons of coal, 10,000 skins, and 100 barrels of alcohol are used annually. The average wages of the men are two dollars per day. The firm keep a very extensive stock of Canadian, English and American felt hats, cloth and Whitney caps, ladies' skating caps, calfskin mits, gloves and gauntlets, and have during the present year opened up a large wholesale stock of furs, being the pioneer establishment in this line. They employ a large number of hands in the manufacture of furs, cloth hats and caps. Straw goods are largely imported, and dealers will, at this establishment, find every assortment in this line that can possibly be obtained in the largest foreign markets. Messrs. Gillespie & Co. have taken the new premises about being completed on the corner of Yonge and Melinda streets, to which they will remove this fall; these will furnish them ample accommodation for their extensive business and manufacturing operations.

---

## FOUNDRIES.

THE SOHO FOUNDRY AND STEAM ENGINE WORKS were established in 1851, by Messrs. Dickey, Neill & Co., on Beverley street, near the head of John street. The premises are very extensive, and consist of a brick building two stories high, 40 feet by 90 feet, of which the first story is occupied as a machine shop, the second story as a pattern shop. Also a brick building with slated roof, four stories high, 50 feet by 120 feet, of which the first story contains boiler making and erecting shop; second story, erecting shop; third and fourth stories, storage rooms for patterns. The blacksmith shop is built of brick with slate roof, and is 75 feet by 50 feet, containing five forges. The moulding shop is also brick, and is 50 feet by 80 feet. The firm now employ ninety men, and a steam engine of forty horse-power. The blast has a capacity of melting eight tons. They have just completed one of the largest steam saw mills, for Messrs. Hotchkiss, Peckham & Co., of Collingwood, having the capacity of sawing one hundred and twenty-five thousand feet of lumber per diem, and is furnished with two large high-pressure engines, of eighty and forty-horsepower respectively; a circular saw mill for Mr. D. Mitchell of Penetanguishene; a circular saw mill for Mr. McGaffin of Aurora;

and are now building a steam engine and boiler for Messrs. Scott & Stollery, contractors and builders; a steam engine and boiler for Mr. Sproatt, brewer, and a large boiler for Messrs. Aldwell's brewery. The firm have built at least fifty large steam engines, now in use at various points on the line of the Northern Railway, and about thirty engines in the city of Toronto.

ST. LAWRENCE FOUNDRY was established in 1850, by Mr. W. Hamilton, at 136 Palace street. The works are now carried on by Messrs. W. Hamilton & Son, who manufacture every description of stationary and portable engines, tobacco machinery, grist and saw mill machinery, castings and forgings of every kind. About one hundred hands are kept employed, and an engine of thirty-horse power used to propel the machinery. They have lately invented and are manufacturing a new patent fish-plate bolt, with a key attached to prevent the nut from slipping off; thereby saving the necessity of continual watchfulness on the part of railway officials to keep the nut secure on the rails. They have also lately furnished a new engine and machinery for the Toronto Knitting Factory; an engine and upright and horizontal hammer rollers for the new Steel Factory; an engine of fifty-horse power and boiler for the steamer *Ida Beaton*; an engine and boiler for a steamer for the Canada Land and Emigration Company; a new malt kiln for the brewery of Messrs. O'Keefe & Co.; an engine and boiler, with a set of pumps and blowing cylinders, for the treatment of coal oil on a new principle, by A. Graham, of London, Ontario; a new fence for Osgoode Hall; and also the iron work for the new improvements and alterations in the extensive store of Messrs. Robert Walker & Sons, known as the "Golden Lion," which, of itself, amounts to about \$4000. Messrs. Hamilton & Son's business is constantly on the increase, the various kinds of work turned out being of the very best description.

GLOBE FOUNDRY, Queen street, head of Bay, established in 1845, by Mr. Edward Beckett, who will employ about thirty hands and ten-horse power steam. Mr. Beckett has a coloric engine of four-horse power, by means of which he will be enabled to turn out light castings at an exceedingly short notice, thus parties from any part of the country, coming into Toronto, and desirous of returning with as little delay as possible, can get their castings in an hour or two,—at the same time

castings of about four tons weight can be turned out. Every description of mill machinery, agricultural and architectural work, is here manufactured. Mr. Beckett's new establishment is to be fitted up with every modern improvement.

CITY FOUNDRY, 161 Yonge street, established 1844. Messrs. J. R. Armstrong & Co., proprietors. About 50 hands on an average are constantly employed, and a twenty-horse power engine. The chief business done here is the manufacture of stoves and hollow ware, which are made from original designs and patterns. In a few weeks the premises will be enlarged to double their present capacity by the addition of the foundry and machine shop of Messrs. Beard & Sons. The annual business of this firm amounts to about two hundred thousand dollars.

DON FOUNDRY AND MACHINE SHOP, Don Bridge, established in 1847, by F. H. Medcalf, Esq., who manufactures heavy castings, such as grist and saw mill machinery and general castings. A ten-horse power steam engine is used, and about twenty-five hands employed.

GOOD'S FOUNDRY, Queen near Yonge street, was established in 1832, by James Good, Esq., who still carries on the business. The premises are frame, three stories high, 125 feet front by 122 feet in depth, and contain machine, moulding, blacksmith and pattern shops, and a large stove-mounting shop, warehouse and counting-room. Forty-five hands are here kept constantly employed, and an engine of thirty-five-horse power used to propel the machinery. The blast has a capacity of six tons. Every description of engine building, grist and saw-mill machinery, stoves, hollow-ware, tin, copper, and sheet-iron ware, potash kettles, &c. About the first locomotive engines built in Canada were turned out by Mr. Good.

ONTARIO ENGINE AND MACHINE WORKS, 3 Ontario lane and 209 Queen street east, Messrs. James Martin & Son, proprietors. Steam engine eight-horse,—average ten hands employed. Manufacture steam engines, hydraulic pumps and presses, mill machinery, caddie and box presses, retainers, compresses, &c. Engines made by this firm may be seen working at Messrs. Rowsell's, J. D. Lewis', J. Carty's, Cuttle & Son's, McGregor (rope maker), Syngé (builder), &c.

**PHŒNIX FOUNDRY.**—This is the oldest established foundry in the city. It is now owned by Mr. John McGee, who employs, on an average, about sixty-five hands, and a steam engine of twenty-horse power to propel the machinery. Stoves of excellent design and quality are turned out here in great variety. Mr. McGee devotes an important department of his establishment to the manufacture of architectural iron work for churches, public buildings, cemeteries, &c. Another important branch of his business is the stamping, turning, and manufacture by steam of copper bottoms for boilers and tea-kettles for the trade, at wholesale only.

**MR. JOHN FENSOM, MACHINIST AND ENGINEER,** 35 Adelaide street, employs three hands and uses steam power.

---

### BRASS FOUNDRIES.

**MR. HUGH T. SMITH,** 95 Queen street west, established his works in 1857. About twelve hands are employed by him in the manufacture of every description of brass castings, plumbing, gas and steam fittings, and soda-water machine manufacturing, in which latter branch Mr. Smith is the only manufacturer in Canada. An engine of five-horse power is used. Every description of engineers' brass work executed. Nickel silver show cases, coal oil and gas chandeliers, brackets, &c., of the finest designs and finish, are kept in stock and made to order.

---

### GLUE MANUFACTURERS.

**MESSRS. PETER R. LAMB & Co.'s FACTORY** is situated in the north-eastern portion of the city. (See description in another page.)

**DON MOUNT GLUE FACTORY** was established 1866, by Mr. Arthur Tiffin, who employs four hands, manufactures glue and neatsfoot oil.

---

### GOLD LEAF MANUFACTURING.

**MR. CHARLES HUBBARD** commenced business in 1856. His premises are No. 28 Adelaide street west. Four hands are employed by Mr. Hub-

bard, and about \$8,000 worth of gold leaf turned out annually. This is the only establishment of the kind in the Province.

### GUN AND RIFLE WORKS.

GRAINGER'S GUN AND RIFLE WORKS were established in 1854, by Mr. John Grainger, 262 Yonge street. The business is now carried on by Messrs. John Grainger & Son, who employ four men. Mr. Grainger has received three patents in England, dated respectively, 13th Sept., 1859, 22nd March, 1860, and 1st July, 1864. These patents were issued for improvements in breach-loading rifles and guns. The firm are converting the Enfield to Snyder breach-loaders, and are doing an excellent business. Muzzle loading shot guns are here converted into breach loaders. Their largest trade, however, is in the manufacture of the Whitworth and Rigby patent rifles.

WILLIAM P. MARSTON, GUN AND RIFLE-MAKER, established at No. 132 Yonge street, in 1851. He now employs about six hands. This is the largest shop of the kind in Canada, and every description of sporting appliances are here manufactured and for sale. The business is on the increase.

### HOOP SKIRT MANUFACTURING.

THE TORONTO HOOP SKIRT FACTORY, was established in 1862, by Mr. R. H. Gray, at No. 43 Yonge street. Since the close of the war in the United States, the business done in this branch of manufactures has largely increased. The quality of this class of goods made in Toronto is equal to any imported, and can be furnished to the retail merchant at a much lower figure. Mr. Gray employs a large number of hands, chiefly women and girls, who earn from \$3 to \$4 a week each. A number of machines are necessary for the covering and glazing of the steel. The variety of processes necessary to convert the rough, unpolished wire into the graceful and elastic skirt, are as follows:—The round wire is first drawn through polished steel rollers by which it is flattened out; it is then passed through a furnace of molten lead into oil, and thus hardened it is again drawn through molten lead, which reduces it to the temper or

elasticity required to make it fit for covering. The braid-ers for covering are of the most ingenious character. Sixteen spools revolve round the wire, passing and winding about it in the most curious manner, and with extraordinary rapidity, but with perfect harmony. One of these small machines will cover about three hundred and fifty yards daily; but as each lady's skirt contains from 50 to 100 yards of steel, it takes a large number of these machines to carry on a business. The steel, when covered, is then passed through a composition like paint, on to cylinders heated by steam, which gives it a fine gloss, after which it is taken in hand by the skirt-maker, who weaves it through tapes fitted to forms for the purpose; and after passing through about half a dozen hands in the various processes of finishing, it is ready for sale. Mr. Gray should have every encouragement extended towards him as well as to all other Canadian manufacturers who employ large means to carry on such enterprises and give employment to so many hands.

MESSRS. W. H. HOUNSFIELD & Co., in the same line of manufacturing, 40 Yonge street, were established in 1861. They employ on an average twenty hands.

#### MATHEMATICAL AND PHILOSOPHICAL INSTRUMENT MANUFACTURING.

MR. CHARLES POTTER commenced this branch of business in Toronto in 1853. He now employs five hands, and manufactures surveying instruments, philosophical apparatus, globes, mathematical instruments, and school apparatus. The Educational Department of Ontario is supplied by Mr. Potter. The establishment has lately been removed to the south-east corner of King and Bay streets.

---

#### MARBLE WORKS.

MR. N. L. STEINER, MARBLE DEALER, corner Yonge and Cruickshank, was established in 1855. He now employs ten hands, and is doing an excellent business.

MR. WILLIAM M. PEARSE, 170½ Yonge street, employs a large number of hands at his marble work. Monuments, mantels, &c., of very beautiful designs, are executed at this establishment.

#### NURSERIES.

TORONTO NURSERIES, established in 1848, by George Leslie, Esq., of Leslieville. The nursery grounds comprise an area of one hundred and fifty acres, and are without exception the most extensive in Canada, embracing every description of fruit and ornamental trees, shrubs, hedge plants, deciduous flowering shrubs and grape vines. The grounds

are admirably adapted for nursery productions. Mr. Leslie keeps up a regular correspondence with some of the principal nurseries in Great Britain and the United States, and spares no expense in adding to his stock all acquisitions of merit. Importations are annually made from England of ornamental, deciduous and evergreen trees, exclusive of what is raised by himself, so as to afford an extensive and varied assortment. In all its departments every care and attention that a thorough knowledge of and experience in the nursery line may suggest, is readily taken advantage of. From this fact, and the already high reputation of the Toronto Nurseries, continued prosperity must be the reward.

Leslie P. O., (commonly called Leslieville,) is situated in the Township and County of York, two miles east of Toronto, on the Kingston road. The village is named after Mr. George Leslie, who started the nursery business here 20 years ago. The Post Office was first established about the year 1858, William Lambert being appointed postmaster; in the year 1862, George Leslie, jun., the present postmaster, was appointed. The village contains a common school, a separate school, one church, viz., Wesleyan Methodist, of brick, erected in the year 1859, and capable of seating about five hundred people; three hotels, one blacksmith shop, one edge tool factory, a large distillery, brewery and vinegar factory, several brick yards, &c.

### OIL REFINERIES.

**OIL REFINERY OF MESSRS. PARSON BROTHERS.**—This extensive oil refinery is situated on Don and River streets, in the north-eastern part of the city. It is one of the first refineries in Canada, and was established early in 1863. It is a large brick building with three still-houses attached. One still, manufactured by Mr. Neil Currie, of Front street, is capable of turning out 200 barrels a week. The main building where the distilled oil is deodorized is devoted to refining purposes, and contains an engine, tanks, pumps, pipes, &c., capable of manufacturing over 250 barrels per week. So great has been the demand for the refined oil, that the firm have been working to their full capacity during the whole of last year. Messrs. Parson Brothers have also extensive tracts of oil-producing lands, and are proprietors of several flowing wells in the neighbourhood of Petrolia. As the pioneers of this new but

highly important branch of industry, Messrs. Parson Brothers rank high in the trade.

MESSRS. MOTT, DUNCAN & CLARK are also largely engaged in the oil refining. Their works are situated on Don street, near South Park.

### PAINTING, ENAMELLING AND GILDING, ON EARTHENWARE AND CHINA.

MESSRS. HURD, LEIGH & Co. established themselves in Toronto in the china, crockery, and glassware line, as wholesale dealers, in 1857. In 1863 they added a department for the gilding and enamelling processes which is now practised and carried to great perfection by this firm. Designs, patterns, crests, arms, monograms, &c., are here executed with great accuracy. The premises are at No. 72 Yonge street, and sixteen hands are kept employed in the various departments of the establishment. The crest on the whole of the china and earthenware used in the Rossin House, numbering several hundred pieces, is the design and finish of Messrs. Hurd, Leigh & Co. There are to be seen in their warehouse dinner sets in broad bands of pale rose color, richly decorated and chased with gold; also a great variety of toilet sets in narrow lines of delicate color, and water jugs in majolica; presentation cups of every size, style and pattern, and dessert services of simple and graceful design. Designs furnished in dinner or tea services, or in single pieces for the cabinet, mantel-piece or drawing room table, at a price remark-

ably moderate, and equal in quality and appearance to anything turned out by the best English establishments. The firm are also largely engaged in the wholesale trade, importing all kinds of earthenware, china and glass, which they sell to the trade on the most favorable terms. The *Journal of the Board of Arts and Manufactures for Upper Canada*, speaking of the firm and the progress which Canada has made in the art of ornamental painting and gilding on earthenware and porcelain, says :

“This elegant ornamental art was introduced into Canada for the first time, by Messrs. Hurd, Leigh & Co, Yonge street, Toronto. The exceedingly beautiful wares of the English potteries are so attractive to all who have the least taste, that almost every family regards the possession of a set of beautiful china as among the first requisites of house-keeping. Unfortunately, however, the loss by breakage in transporting this class of goods from England to this country is so great as to raise the price of the articles above the convenience of many to purchase. The Messrs. Hurd, Leigh & Co., familiar with the pottery business in all its practical detail, resolved to remedy this state of things by importing their fine porcelain without the ornamental work, and having the artistic embellishment executed here at their own establishment. They accordingly sent to England for a family of artists who had been educated at a school of design in connection with the potteries, and had long experience in working for some of the best establishments. Besides working for the trade, this firm takes orders from private individuals, such as completing sets, painting and gilding mottoes, crests, and designs of any required pattern.”

#### PIANO-FORTE MANUFACTURING.

MESSRS. HEINTZMAN & Co. established themselves at 105 King street west, in May, 1866. They now employ about twelve hands, and turn out upwards of sixty pianos a year. The instruments made here are considered very good, being manufactured under the superintendence of Mr. Heintzman, formerly of Buffalo, who has had thirty years' experience in the business. It may now be considered one of the successful manufacturing establishments of Toronto.

MESSRS. J. STEVENSON & Co., Rossin House block, King street west, are agents for the celebrated “iron-clad” piano manufactured by Mr. John C. Fox, of Kingston, whose business has so largely increased during the last two years that additional premises have been secured, so as to afford room for about thirty more hands, making in all about one hundred

### PIANO-FORTES AND MUSIC.

MESSRS. A. & S. NORDHEIMER, No. 15 King street east, were established in 1841. This firm are doing the largest business in musical instruments and musical merchandize of any house in Canada. They are the sole agents for the celebrated Steinway, Chickering, Dunham, and other reliable piano manufacturers.

This year, at the Paris Exhibition, Messrs. Steinway and Chickering gained first prizes, and upon one of the exhibitors was conferred the Legion of Honor, by the Emperor Napoleon.

The *Illustrated London News* of the 20th July, thus refers to the Steinway and Chickering pianos :—

“The pianos contributed by the United States, must be praised unreservedly. The exhibitors are three in number, Messrs. Steinway of New York, Chickering of Boston and New York, and Lindemann of New York.

“The instruments exhibited consist of concert-grands, cycloids, squares, and uprights. It appears, however, that the upright form of piano is not in favor in the States, and that the square piano still flourishes there, although for the most part it has been abandoned in other countries. In fact I am told that the number of square pianos manufactured in the United States amounts to 95 per cent. of all the instruments made. Messrs. Chickering appear to have been the first in America to manufacture grand pianos at all.

“Until the beginning of this century the art was, so to speak, unknown in the States, and the demand for instruments, such as it was, could readily be furnished by European markets. From the year 1825 the first evidence of progress can be traced; but manufacturers do not seem to have turned their attention to grand instruments until about the year 1840. The first in the field was the late Mr. Jonas Chickering, of Boston. His pianos appear to have been modelled on those of Erard of Paris, but were constructed with the full iron frame. The line of the wrest plank bridge consisted of an iron ledge projecting upwards from the iron frame. Into this ledge holes were drilled, which were lined with cloth, and through these the strings were laid. Mr. Chickering

took out a patent for this upward-projecting ledge in 1843. It is interesting to trace the steady, yet rapid progress which has been made in the manufacture of American pianos. It is impossible to speak too highly of the superb instruments now standing in their name at the Exhibition, whether it be in tone, or touch, or general appearance and construction, it is alike difficult to find anything to criticise.

"Messrs. Steinway & Sons are a younger firm than that of which I have spoken, but in other respects they are on equal terms. Messrs. Steinway's pianos will bear satisfactory comparison, not alone with Messrs. Chickering's, but with those of any manufacturer in the world.

"It seems that the first grand piano turned out by this firm in America, was in 1856, and it is surprising that, in eleven years, such results should have been obtained. Messrs. Steinway have taken out various patents for inventions, new grand piano actions, &c., but the improvement, on which they lay the greatest stress, was patented by them in December, 1859. It consisted (I will use their own words) of the introduction of a complete cast-iron frame, the projection for the agraffes lapsing over and abutting against the wrest plank, together with an entirely new arrangement of the strings and braces of this iron frame, by which the most important and advantageous results were achieved. The strings were arranged in such a position, that in the treble register, their direction remained parallel with the blow of the hammers, whilst from the centre of the scale, the unisons of the strings were gradually spread from right to left in the form of a fan, along the bridge of the sounding-board, the covered strings of the lower octaves being laid a little higher, and crossing the ones (in the same manner as the other strings) and spread from left to right on a lengthened sound-board bass bridge, which run in a parallel direction to the first bridge. By this arrangement several important advantages were obtained, by the longer bridges of the sounding-board a greater portion of its surface was covered; the space between the unisons of the strings was increased, by which means sound was more powerfully developed from the sounding-board. The bridges being moved from the iron-covered edges nearer to the middle of the sounding-board, producing a larger volume of tone, whilst the oblique position of these strings to the blow of the hammer resulted in obtaining those rotating vibrations which gave to the thicker strings a softness and pliability never previously known.

"The instruments exhibited by Messrs. Steinway consist of two concert grands, a 'parlor grand,' a square and an upright. With regard to the grand pianos, I can only say that the specimens now placed before the public are, in my opinion, as fine as pianos can be. Every attribute of a splendid instrument is here: strength, depth, sonority, brilliancy, facility of touch, and excellence of construction, combine to make Messrs. Steinway's concert-grand a piano of the very first excellence, their other instruments are every bit as remarkable, and I should say that such a square piano was never heard before; if such instruments are frequently turned out in the States, I can readily understand that their vogue should continue."

## ROOM PAPER AND WINDOW BLIND MANUFACTURER.

MR. M. STAUNTON is the largest manufacturer of the above class of goods in the Dominion. His factory was established in 1857, but owing to the rapid increase of his business, he is now building more commodious premises, which he expects to occupy in the fall of the year. The building, which is situated on Front street, west of the Custom House, is 250 feet by 50 feet, two stories high, and will contain the most improved machinery as yet introduced in the business, with an engine of about twenty-horse power. His retail store is situated on King street, corner of Yonge street, where plain and ornamental papers and blinds, with every kind of decoration, may be seen.

## PAPER MANUFACTURERS.

THE DON PAPER MILL was established by Messrs. John Taylor & Bros. This firm now own and carry on three mills (one of them being the oldest in Canada), situated on the Don river, about one mile apart, the first being three miles from the city. They manufacture every description of writing, printing and wrapping papers, and give employment to 70 hands. Messrs. Taylor & Bros. are also engaged in the manufacture of flour and lumber.

MESSRS. BUNTIN, BRO. & CO., PAPER AND ENVELOPE MANUFACTURERS, WHOLESALE STATIONERS, &c., &c., Nos. 3 and 4 Commercial Buildings, Yonge street. The mills are at Valleyfield, Province of Quebec; at the mills from one hundred and twenty to one hundred and thirty hands are employed. Established about 1847.

---

## PICTURE AND LOOKING-GLASS FRAMING.

In this branch of business the leading establishments are Messrs. R. W. Laird, 79 King street west; R. Phillips, 151 Yonge street; and H. J. Mathews, 189 Yonge street. These establishments employ a large number of hands, and manufacture every description of gilt and washable gilt moulding, picture and looking-glass frames, &c.

ings and machinery is about \$22,000. The premises are about the largest in the city, and are fitted up in every respect with first-class wood-workers' machinery.

ATLAS WOOD WORKS, Front street opposite Queen's Hotel, established in 1863, by Mr. John Clements. There are about thirty men kept employed at these works, and a steam engine of twenty-horse power. The planing machine is kept so constantly at work that the shavings are sufficient to supply all the steam required. Sashes, doors, blinds and every description of builders' furnishings, are here manufactured. The buildings are of brick, four stories high, 60 by 40 feet.

CENTRAL PLANING, SASH, DOOR AND BLIND FACTORY, 71 Adelaide street west, Mr. Jacob P. Wagner, proprietor. This establishment was commenced in 1863. Fifty-six hands are now employed, and twenty-horse power steam is used to propel the machinery. The factory is fitted up with the latest improved wood-workers' machinery, and every description of wood moulding, turning, planing, sash, doors, blinds, &c., are manufactured. Mr. Wagner is also extensively engaged in building, in which department a large number of men are employed.

MR. W. BURKE'S PLANING MILLS, SASH, DOOR AND BLIND FACTORY, situated on the corner of Richmond and Shepard streets, was established in May, 1867. The factory is built of wood, two stories high, and is well fitted up with wood-workers' machinery. Every description of mouldings, house-furnishings, sashes, doors, and blinds, packing cases, sawing, planing, &c., is done at these mills.

MR. J. B. SMITH'S PLANING, SASH, BLIND AND DOOR FACTORY, established in 1857. The factory is now on Esplanade and Front between Bay and Yonge streets. About ninety-five hands are kept constantly employed, including saw-mills and factory, and an engine of thirty-horse power is used to propel the machinery necessary for an establishment of this kind. About three million feet of sawed-lumber are manufactured annually. The saw-mills are situated in the Village of Angus. A large portion of the lumber is shipped to the United States, while that portion made into sashes, blinds, doors, &c., finds a ready market in Toronto and vicinity.

## SEWING MACHINE MANUFACTURING.

MESSRS. G. W. GATES & Co. commenced business in this branch of industry in March, 1866. The works are situated at 119 and 121 Bay street. They use steam power to the extent of twenty horse, and give employment to about twenty-five hands. The machine is in the form of the letter "G," and can be used either by the hand or treadle. It is sold at a price that cannot fail to render it a popular machine. In the manufacture to each man is assigned a certain part of the work, and by the time it has passed through the hands of all the workmen it is complete and ready for market. A number of turning lathes of the most complicated structure and perfect motion are kept running. Already from 100 to 125 sewing machines are turned out weekly, and it is intended shortly to double the present capacity, making this one of the first establishments of the kind in the country. Everything used in the machine is manufactured on the spot except the castings, and it is intended also to make these soon. The most admirable order and arrangement are preserved in every department. The "Victoria" is neat, efficient and comparatively noiseless in working, will sew the finest and the heaviest cloth without inconvenience, makes a pretty, firm stitch; and from the simplicity and perfectness of its construction it is not easily put out of repair. At the last provincial exhibition it drew a prize. In addition to a good sale throughout Canada, Messrs. Gates & Co. are manufacturing on orders from England.

R. M. WANZER & Co.'s SEWING MACHINES.—Mrs. L. C. Mendon, No. 3 Rossin House Block, King street west, is agent for the celebrated Wanzer sewing machine. These machines are manufactured in Hamilton, and are noted for their durability and compactness, being constructed of the best material and workmanship. Messrs. Wanzer & Co. received the first prize at the Paris exhibition. A very extensive branch of the establishment is carried on in London, England.

SINGER SEWING MACHINES.—The wholesale agency of the Singer sewing machine, for the greater part of the Province of Ontario, is at No. 18 King street east, Mr. Norris Black, agent. He keeps a large supply of the new family machine improved; the improved No. 2, for fine leather work; the No. 2 Imperial, for general manufacturing purposes, and the button hole machine. The New England Wax Thread Sewing Machine, for leather manufacturers, in stock in full supply.

## SODA WATER MANUFACTURERS.

Mr. H. T. SMITH, Temperance street, west of Bay street, is manufacturing soda-water, ginger-beer, lemon-soda, sarsaparilla, &c., in which branch of business he employs eight hands and a steam engine.

MR. JAMES EVES' SODA-WATER MANUFACTURING ESTABLISHMENT was commenced in 1845. He now employs twelve hands and turns out daily during the season from two to four hundred dozen of nectar cream, mineral and soda-water, ginger-beer, &c. The factory is at No. 107 Yonge street.

## CANADA STAINED GLASS WORKS.

An establishment for the staining and enamelling of glass was commenced in 1857, on Temperance street, by Mr. John McCausland, now removed to 8 King street west, where fourteen hands are employed in house painting, glass staining, &c. The stained glass for the Toronto University was supplied by Mr. McCausland, as well as that for St. Stephen's Church, St. Peter's, and several other churches and public buildings throughout Canada. The departmental buildings at Ottawa were entirely supplied from this establishment.

## THE STEEL, IRON AND RAILWAY WORKS CO. (LIMITED)

Manufactures all kinds of railway signals, railroad crossing points and filled wing rails. The crossing points are made by heating two pieces of rail in a furnace, and hammering them by means of a powerful steam hammer and patent dies, thus making a solid point, instead of merely tacking two rails together, as is done by the forge and hand-labor. A saving is also effected of 12 or 15 inches of rail, this company making a 9 feet point out of 16 feet 9 inches of rail, instead of 18 feet. This point will last twice as long as the hand-made one. The company has now in operation a steam hammer and patent dies for bracing the ends of rails (both new and repaired) with steel. It is well known that the majority of rails give way at the ends before the remainder has begun to wear, because *there they are weakest*. By having those ends steel-braced, they are made strong at the weakest point, thereby saving labor in taking

up, repairing, and re-laying. The company repairs old rails by means of a patent reversible forge rolling machine, whereby the broken-down part, however bad it may be, is made as strong as the rest of the rail, and the repaired ends are all made to fit one uniform fishplate. The machine compresses the head of the rail on the top, thus giving strength where it is needed, and the rail is returned to the road the same length as it was originally. Hitherto, rails badly broken at the ends had to be cut off, it being impossible to repair them on blocks by hand-labor, and thousands of tons of cut off ends have been sent to the rolling mills to be re-rolled. The saving to railway companies, by having their rails repaired by this machine, will be immense. At present they have to pay for cutting off. The cut rails make a very bad track, in consequence of their shortness, besides having the track constantly disturbed by unspiking, &c., to put in the closures. If a road, say twenty miles long, were to depend on repairing the rails by the blocks and hand-labor, its length would very soon be diminished. The repaired rails can also be steel-braced if desired. Hugh Baines, manager; John L. Blaikie, president; Thomas E. Lockie, secretary.

#### TOBACCO MANUFACTURERS.

MR. THOMAS STEELE, tobacco manufacturer, No. 78 and 80 York street, opposite the Rossin House, succeeded Messrs. S. S. Preston & Co., in 1865. The premises are 65 feet in depth and about 50 feet wide, four stories high. The basement is occupied by the steam engine, cutting machine, and store-room for leaf tobacco. The ground floor is used for counting-room, branding, shipping and press-rooms; the latter being fitted up with expensive machinery, among which is a very large hydraulic ram, and ten smaller hydraulic rams, together with compresses, retainers, hand presses, iron moulds, &c.; the second floor is occupied by the tobacco-twisters, and a portion used as the drying room; the third floor as a leaf-room, casing and bonded warehouse; the fourth floor as a store room, and for drying the lumps preparatory to pressing. The entire building is lighted by gas, and heated by hot air pipes in winter. The annual product is about half a million of pounds. It is in every respect a first class establishment, and is about the oldest in

the city. One hundred hands are kept constantly employed, and an engine of sixteen-horse power is used to propel the machinery.

ONTARIO TOBACCO FACTORY, 84 and 86 York street, opposite Rossin House, owned and carried on by Mr. A. Shack, who is the oldest tobacco manufacturer in the city, having commenced the business in 1858 at 53 and 55 Front street. During the present summer Mr. Shack purchased the establishment formerly carried on by J. E. Withers & Co. In thus combining the machinery of the two establishments it gives him extensive facilities for turning out the largest quantity of manufactured tobacco in Ontario. Mr. Shack chiefly confines himself to the manufacture of the finer or brighter grades of tobacco; this is done by a careful personal selection of choice leaf. He now possesses one of the best lump machines in the Province for the lumping of the ordinary common grades of black tobacco, which he will be able to turn out in large quantities, and second to none in quality. About one hundred hands are kept employed during the whole year. An engine of fifteen-horse power is used in the manufacturing, and for heating purposes. The premises are 40 feet front by 60 feet deep, four stories high, and contain every department necessary for manufactures of this description.

MESSRS. JOAB SCALES & SON, TOBACCO MANUFACTURERS, York street, corner Adelaide, established in January, 1867. They employ about seventy hands, and an engine of eight-horse power. The main building is of brick, 45 feet square, three stories high, with an extension of brick also on Adelaide street, 60 feet by 20 feet, two stories high. The main building contains in basement—engine and boiler-room, sweating-room, cutting and press-rooms, bonded warehouse, &c.; second story or ground floor, office, lump machines, covering and drying-rooms; third floor, picking, casing, stemming and drying rooms. The lumping is done at this factory by a "lump machine." The use of this machine is a saving to the manufacturer of about ten per cent., or one cent per lb. One large hydraulic press and six smaller ones are used for boxing purposes. The firm are also using the late improved cast-iron finishers or compresses.

MESSRS. JOAB SCALES & Co., (Joab Scales, Thomas Peniston, and J. W. Scales) established originally by J. D. King & Co., in 1862, and carried on by the above firm since 1865. The buildings are brick; main building, 50 feet by 90 feet, three stories high, with a rear build-

ing of brick, 100 feet by 50 feet, one story high. The premises are on Adelaide between Bay and York streets, running back to Boulton street. The first story is occupied by the engine and press rooms, hydraulic and other presses, bonded warehouse, &c.; second floor, lumping machine, covering room and drying room; and third floor as the picking, casing and stemming rooms. About one hundred and twenty-five hands and an eight-horse power engine are employed in this factory.

DOMINION TOBACCO WORKS, 64 Nelson and 29 Francis streets, established in 1860, by Messrs. J. D. Lewis & Co., who employ a steam engine of fifteen-horse power. They have an hydraulic press, &c. Their machinery has been manufactured by Messrs. William Hamilton & Son, of the St. Lawrence Foundry, and Messrs. Martin & Son, Ontario Lane, Queen street. Seventy-five hands are here constantly employed. This firm manufactures every description of fine cut, chewing and smoking tobaccos, and all grades of domestic cigars. The business having increased during the past year, a large addition of 90 feet in length has been made to the main building, the whole premises being now 140 feet long by 25 feet wide,  $3\frac{1}{2}$  stories high.

---

#### TRUNK MANUFACTURING.

In this branch of manufactures, Mr. H. E. Clarke has been established since 1855, at No. 98 Yonge street, and lately opened an additional branch establishment at 103 King street west. He employs ten hands, and manufactures every description of sole leather, trunk, valises, carpet bags, common trunks, valises, &c. Mr. Clarke supplies dealers at wholesale.

---

#### HARNESS MAKING, TRUNKS, &c.

MR. WILLIAM STEWARD, No. 142 Yonge street, the oldest established house in the above line in the city, was established in 1843, and has succeeded in carrying off over 100 prizes in provincial and county fairs, and was honorably mentioned in exhibition of 1851, London, England. He employs from twelve to fifteen hands. Mr. S. imports largely in English horse clothing and saddlery; considerable business is done in military equipments and hose manufacturing.

## VINEGAR MANUFACTURERS.

CANADA VINEGAR WORKS, established during the present year by Messrs. H. Fittinger, McCord & Co., at Leslieville, three miles from Toronto. The firm employ water-power, and steam to the extent of forty-horse power, and are manufacturing vinegar, whiskey, cider, beer &c. In all the departments about fourteen hands are employed. These are the largest vinegar works in Canada, and can produce eighty barrels per day.

BAY STREET VINEGAR WORKS.—These works were established in 1859, and are owned and carried on by Mr. William Wilson, at 115 and 117 Bay street. Mr. Wilson now employs about four men, and manufactures every description of white-wine, malt, and cider vinegars. About sixty barrels a week are turned out. The vinegars here made have an excellent reputation, and are manufactured from liquors.

TORONTO VINEGAR WORKS, established April, 1865, by A. Roudenstrauch & Co., 92, 94, 96 and 98 Adelaide street east. This firm manufactures, and are wholesale dealers in white-wine, cider and malt vinegars. The works are capable of turning out about forty barrels a week.

---

WOOL PULLERS.

MESSRS. HENRY LEADLAY & SONS, WOOL PULLERS, Factory Don Bridge, King street east, established in 1859, employ seven hands.

---

WOOD TURNING.

MESSRS. HASTINGS & PETERKIN commenced business in this line, Sept., 1865. A five-horse power steam engine is required to propel their machinery, and seven hands are kept employed. All kinds of job turning, and a great variety of croquett turning, is done here. Works, 71 Adelaide street west.

In presenting our new FAMILY SEWING MACHINES to the public, we do so with the utmost confidence in its practical utility. Being adapted to a very wide range of purposes for general Family Sewing, are considered by competent judges the most simple, effective, and most reliable Machines yet introduced, making the celebrated Lock Stitch. They will sew the finest muslins, cambrics, and silks, also cottons, woollens, and cloths with equal facility. By its use the tedious and laborious work of a family is rendered a pleasure and agreeable pastime. If the price of our machines were \$25 or \$30, they would still be cheap compared to the high priced Machines. We have hundreds of testimonials, had we space to give them, from parties who have used the \$50 to \$75 Machines, who give ours the preference, from the fact of its simplicity of construction, ease of management, and beauty of stitch—being managed by a child of twelve years just as well as by an older person. Every Machine is perfect, and used with care is **warranted for three years**. This is better than all the testimonials and references we can produce.

Printers, Publishers, &c.

### THE CANADIAN COMMONWEALTH,

A NEW REFORM PAPER.

Published EVERY SATURDAY. It advocates Reform practically; real representation; the pledging of conditions as a *sine qua non*; the representation of minorities; duties for revenue on goods which come in competition with the produce and manufactures of the country; an efficient volunteer force, &c. It contains four pages of eight wide columns each, printed on fine book paper, in the neatest style of the typographic art.

THE COMMONWEALTH enjoys the largest circulation amongst manufacturers and business men generally, of any weekly newspaper in Canada; and is sent free to all Hotel Reading Rooms, Mechanics' Institutes, and Libraries throughout the Dominion. Large extra issues are circulated from time to time, on special occasions. No effort or expense is spared by the Publishers to render it a first-class newspaper, and a valuable medium for advertisers.

#### TERMS OF SUBSCRIPTION.

Two dollars per annum; one dollar and twenty-five cents for six months; three months seventy-five cents; single copies in wrappers ready for mailing, five cents. A liberal discount to news agents and dealers.

All subscriptions must be paid in advance, and no names are entered on our books unless this rule is complied with. All advertisements should be marked with the number of insertions desired. Editorial and special notices will be charged for at the rate of twelve and a-half cents a line for each insertion.

All communications should be addressed (post paid) to the Publishers,

**ACCOUNTANT'S OFFICE IN CHANCERY.**—*Accountant in Ordinary*—Robert J. Turner. *Clerk*—W. C. Crofton.

**PRACTICE COURT AND CHAMBERS.**—One of the Common Law Judges holds a Court during each term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business re-

lating to suits therein as may be transacted by a single judge out of court. Routine business in Chancery Chambers, by a recent order, is also taken before T. W. Taylor, the Judges' Secretary. *Clerk, Common Law*—William B. Heward. *Reporter Common Law Chambers*—Henry O'Brien.

**HEIR AND DEVISEE COURT.**—*Commissioners*,—The Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Ontario, for which no patent has issued from the Crown in favor of the proper claimants, whether as heirs, devisees, or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Heward.

**COUNTY COURTS.**—Presided over by a resident Judge in each County. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

**SURROGATE COURTS.**—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Surrogate Clerk*—Sir J. L. Robinson, Bart.

*Board of Judges for regulating procedure and duties of Officers in the Surrogate Courts.*—J. G. Spragge, Vice-Chancellor, Common Law Judge; J. R. Gowan, County Judge.

**COURTS OF QUARTER SESSIONS.**—Chairman, the County Judge in each County, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his County four times a year for trials by jury in cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction.

**RECORDERS' COURTS.**—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June, and September, and third Monday in December. *Recorders*—George Duggan, Toronto; James O'Reilly, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

**INSOLVENT DEBTORS' COURTS.**—By the “Insolvent Acts of 1864 and 1865,” 27 and 28 Victoria, cap. 57, and 29 Vic., cap. 18, provision is made “for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors and for the punishment of fraud. In the Province of Quebec this enactment applies to traders only. In Ontario, to all persons, whether traders or non-traders. In these Courts the County Court Judge in each County presides—the only appointments made in pursuance of this statute being those of “official assignees,” who are to be nominated “by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade.” This important statute is proving a great boon to the community, in enabling parties who from unavoidable circumstances find themselves paralysed by hopeless liability, to obtain relief, and recommence business.

**DIVISION COURTS.**—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom, or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P., for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

*Crown Law Officer.*

**ATTORNEY-GENERAL.**—Hon. John S. Macdonald, Q.C.

*Officers of the Courts.*

**CLERKS OF ASSIZE.**—The Deputy Clerks of the Crown are *ex-officio* Clerks of Assize and Marshals in their respective counties.

**DEPUTY CLERKS OF THE CROWN.**—The Clerks of the County Courts will be *ex-officio* Deputy Clerks of the Crown and Pleas of their several counties as the present incumbents vacate by death or otherwise.

**DEPUTY REGISTRARS AND MASTERS IN CHANCERY.**—These officers are appointed by the Court, for each County, as occasions requires.

**CLERK OF THE PROCESS.**—For sealing and issuing Writs of Summons and other Writs in the Queen's Bench and Common Pleas (alternately)—Alan Cameron. *Assist. Clerk*—A. H. B. Wadsworth. The Deputy Clerks of the Crown in the several counties are supplied with writs from Toronto, and re-issue the same in their respective counties.

*Terms of the Courts.*

**APPEAL TERMS** commence on the second Thursday next after Hilary, Easter and Michaelmas Terms.

**LAW TERMS.**—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins third Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November and ends Saturday of the second week thereafter. By the Act 24 and 30 Vic., cap. 40, Trinity Term, hitherto commencing on the Monday after the 21st August, is abolished; but the same statute gives power to the Courts of Queen's Bench and Common Pleas, at their discretion, to hold sittings in *banc* in time of vacation (except long vacation), by virtue of a rule or order of the court, respectively, to be made in or out of the term for the hearing of such special cases or rules for new trials, as shall be named in a list to be attached to any such rule or order; and for giving of judgments in cases previously argued; and for disposing of such other business of the court, in its discretion, shall see fit. Notice of such rules to be given in form and manner prescribed by the Act, six clear days before the day appointed. Long vacation extends from 1st July to 21st August.

**CHANCERY TERMS.**—*Examination Terms*—From first Tuesday of February to the Saturday after second Tuesday of April; and from first Tuesday of September to the Saturday after first Tuesday of November. *Hearing Terms*—From fourth Monday in April until Saturday of the following week; and from third Monday in November until Saturday of the following week. The Court also sits every Tuesday (except during the regular vacations) throughout the year, for hearing motions for Decrees, motions for or to dissolve special injunctions, and appeals from the reports of the Master or Deputy Masters. Long vacation from the 1st July to 21st August.

**COUNTY COURT TERMS** commence on the first Monday in January, April, July and October, and end the following Saturday.

*Circuits of the Courts.*

**LAW CIRCUITS.**—Courts of Assize and Nisi Prius and of Oyer and Terminer and General Gaol Delivery shall be held twice a year in each County or union of Counties, in the vacation between Hilary and Easter Terms, and between that period of the vacation after the 21st of August and Michaelmas Term, except in the County of the City of Toronto and the County of York, in each of which counties there shall be a third such Court in every year, in the vacation between Michaelmas and Hilary Terms. There are six Circuits, as follows, viz.:—The *Eastern*: Perth, Cornwall, Ottawa, L'Orignal, Brockville, Kingston. *Home*: St. Catharines, Hamilton, Brampton, Barrie, Owen Sound, Milton, Wellingham. *Western*: St. Thomas, Sandwich, Sarnia, Chatham, London, Goderich. *Midland*: Whitby, Peterboro', Cobourg, Belleville, Picton, Lindsay. *Oxford*: Simcoe, Brantford, Guelph, Berlin, Stratford, Woodstock, Cayuga. *Toronto and York*: Toronto. #### THE CANADIAN LAND AND EMIGRATION COMPANY OF LONDON, ENG.

Capital, £250,000 Sterling. Title: Patent direct from the Crown. The Company invite the attention of farmers to their lands in Dysart and the adjoining townships, in the County of Peterborough, C. W.

The character of the country is undulating, studded with beautiful lakes of from one to fifteen miles in length, fed by streams containing many excellent mill sites. The scenery is everywhere picturesque, and the air extremely healthy. The soil is a rich sandy loam, and of its fitness for agricultural purposes a sufficient proof is afforded by a reference to the Report of the Provincial Exhibition in 1865, held at London, C. W., where it will be seen that an assortment of farm produce from the settlers in Dysart obtained a special prize, and the grain was particularly commended by the judges. The country is also admirably adapted for stock raising and for sheep farming, as the clearings increase. The timber is principally good hardwood, with sufficient pine for local purposes. In the township of Dysart there is already a flourishing settlement. There is a good road from the Bobcaygeon road, two miles below Minden, through Dysart to the Peterson road, and other roads are made, or being rapidly opened up. The Company have granted aid to secure the running of a small steamer on Lake Kahshagawigamog, or Kushog, during the summer months. A portage road of about three miles connects Minden with the foot of the lake, and from this point the steamer and a large row-boat run twice a week to Haliburton at the head of the lake, a distance of 14 or 15 miles, and touch at the landing on the south side of the lake, to take up passengers. The town plot of Haliburton, situate in the centre of Dysart, is now being rapidly settled. The Company erected an excellent grist mill, and the lessees, Messrs. Lucas and Ritchey have a saw mill adjoining. There are also at Haliburton, a post office supplying a tri-weekly mail, stores and boarding houses, a smith's forge and other conveniences. Lots have been granted to the various religious denominations for the erection of places of worship, and two school sections have been formed. An Agricultural Society has also been properly organized. The Company at

present offer their lands at one dollar per acre, a price at which land cannot be obtained elsewhere with at all corresponding advantages. The constant and increasing accession of new settlers will for some time of itself afford a market to the farmers who have already produce to dispose of. Improved farms, with or without houses, are also offered for sale, at reasonable rates. Mr. Cameron, the agent of the Company, who resides in a house conveniently situated immediately adjoining Haliburton, will furnish every information and assistance to land seekers. Dysart and three adjoining townships belonging to the Company, form one municipality. To reach Haliburton, parties from the front will proceed by rail to Port Hope, and thence to Peterborough or Lindsay. An excellent passenger steamer, the "Ogemah," leaves Lindsay every morning (Sundays excepted) at 7.30 a.m., arriving at Bobcaygeon at 10.30 a.m., and at Bridgenorth in time for the stage to Peterborough. Returning, leaves Bridgenorth at 1.30 p.m., Bobcaygeon 3.30 p.m., and arrives at Lindsay at 6.30 p.m. In the winter a stage runs from Lindsay to Bobcaygeon daily. Travellers can obtain good accommodation and every information from Mr. Eastman, opposite Peck's farm, two miles below Minden, where the road to Haliburton commences; at the boarding house kept by Mr. Garratt, at Haliburton; and from the undermentioned, information can be obtained: Port Hope, David Marshall; Lindsay, W. L. Russell; Peterborough, R. W. Errett; Bobcaygeon, "Forest House," proprietor, Mr. Bottum, whence a stage runs to Minden twice a week.

*Table of Distances.*—From Port Hope to Lindsay by railroad, 42 miles; Port Hope to Peterborough by railroad, 30 miles; Lindsay to Bobcaygeon, by steamer or road, 21 miles; Peterborough to Bobcaygeon, by stage and steamer, 24 miles; Bobcaygeon to Minden, by Bobcaygeon road, stage, 30 miles; Minden to Haliburton, by road and lake, stage and boat, 18 miles; Bobcaygeon to Haliburton, direct, turning off at Peck's farm before reaching Minden, stage and boat, 45 miles.

*Terms of Sale or Lease.*—Farm lots can be purchased at: (1.)—\$1 per acre, cash down; or at (2.)—\$1.25 per acre, one-fifth cash, balance in five years, with interest at 6 per cent per annum; or (3.)—Rented for a term of years, at an annual rental of 10½ cents per acre, payable in advance, with the right of pre-emption at the rate of \$1.50 per acre. A reduction will be made to lessees purchasing before expiration of lease. Mill Sites are reserved for special agreement. Town Plot of Haliburton,—Town lots, chiefly half acre, can be purchased at \$20 cash.

*Settlement Duties.*—Farm Lots—Three acres to be cleared, fit for cultivation, in each year during the first five years of tenancy, and a farmhouse erected, 16 feet by 20 feet, within that time. Town Plot of Haliburton,—Each lot to be fenced, and a good frame house erected thereon, 18 feet by 24 feet, within first year of tenancy. Deeds will be given to purchasers on due fulfillment of the settlement duties. The Company reserve only one-third of gold and silver, &c., one-tenth of all the mines, minerals, and mineral oils; their terms in this respect being more liberal than those of other companies.

All applications for lots must be addressed to C. J. Blomfield Esq.,

Secretary of the Canadian Land and Emigration Company, Toronto Bank Buildings, Toronto; or to Henry Cameron, resident Agent of the Company at Haliburton, County of Peterborough, who alone are authorized to receive money on behalf of the Company.
