TO THE PUBLIC.

The "ISOLATED RISK FIRE INSURANCE COMPANY" having been established solely with the view of insuring against loss or damage by Fire the owners of ISOLATED or NON-HAZARDOUS Properties, the Directors therefore respectfully direct the attention of Insurers to the following:—It will adjust all losses without delay, and pay over the CASH AT ONCE. It being the first Stock Company to give REASONABLE RATES, and not impose on those whose Properties are NON-HAHARDOUS the burden of making up the losses by those whose Properties ARE HAZARDOUS, the Directors would, with every confidence, look to the public for support.

PREFACE.

In presenting this their first edition of "THE TORONTO DIRECTORY," the Publishers take great pleasure, first, in acknowledging the hearty and liberal support which has been accorded them, and, secondly, in offering a work which they sincerely believe will be found very complete in all its departments. Every effort has been put forth on their part to make it a credit both to the city and themselves. Reliable Agents were engaged to make a thorough canvas of the city, and take the names, occupations &c., and their work was subsequently revised and corrected by other Agents. *Not one name was put in type before it had been taken a second time.* It is in this manner, that the Publishers endeavor to give their subscribers, and the citizens generally a Directory on which, for accuracy, they can depend.

A brief sketch of the city and its Public Institutions written expressly for it by one of the most talented writers of the day will well repay a careful perusal.

The Street Directory will be found very full and reliable. This is a valuable part of the work, being a Directory in itself.

The surrounding Villages have been taken with great care, and are placed in alphabetical order after Toronto, a brief sketch introducing each.

The Miscellaneous information has been carefully compiled, and will be found very complete and of much interest.

Special care has been bestowed upon the Business Classified Directory ; in fact every portion of the work has had the most careful supervision.

It is our intention to make the "THE TORONTO DIRECTORY," a yearly publication, of increasing circulation and proportinate value.

The Publishers in taking leave until another year are thankful to all those who have aided in the supplying of information, and in bringing the Directory to a successful issue.

FISHER & TAYLOR.

TORONTO.

The readers of Moore, who, as the boat stretches across the lake, and Toronto, bristling with spires, lying gracefully laid out on the slight acclivity which slopes from the Bay to Yorkville, is pointed out to him, recalls the lines,

> Where the blue hills of old Toronto shed
> Their evening shadow o'er Ontario's bed,

will have abundant reason to reflect on the truth that the poet is of imagination all compact. If he asks, "Where are the hills?"—there is no hill to echo "where." Having left the great inland sea, with its blue shores receding on the left, and on the right surf-beaten shores of farm lands merging into the tender-tinted sky horizon, that sweeps away far to starboard, he enters a bay, protected by a natural breakwater. He is now in the presence of a great city—a city of magnificent buildings—arbored streets, and activity of life which rightly belongs to the "Queen City" of the West, and the prosperous capital of Ontario.

This continent is the continent of cities of rapid growth. Like Jonah's gourd, they grow up in a night—but, unlike that famous vegetable, they can look forward to a longevity as great as that which has fallen to the share of mighty cities of the Old World. Little more than half a century ago wild duck might have been shot where there are now busy wharves; and where straight and spacious streets intersect each other, stately with lofty buildings; where stores are rising hourly; where large and handsome churches are scattered round; where a Park spreads itself out, a spacious lung for the future crowded city; where colleges, one of which can be described as magnificent as a building and in all its appliances, are as numerous as there are sections in the community; where pretty women, dressed in the latest fashions from London and Paris, are hurried forward in the rapid sleigh, or saunter of a Saturday down the brilliant King Street promenade—where all this and more may be seen in the course of a day, there, within the memory of men still living, the Indian may have been met with hunting a trail, or bartering in barbarous commerce.

Built on Tamarac Swamp, which was chosen as the site of the future capital by Governor Simcoe, standing in the midst of a wealthy agricultural country, Toronto is a great and growing market, and forms a connecting link between the Old World and the daily-developing resources of the vast west. The city can be observed to grow as we gaze at it. Within a few years some of its most conspicuous buildings have been erected. Fifty years ago the city lay east of the present market-place. In 1829 there were no more than seven brick houses in the whole city; shanties were the order of the day. Nor was it until some score of years ago that the Railway brought with it a breath of power, which has sent forward the city with mighty strides. Henceforth the North-West had a future and offered a career. The development of that great country is going steadily forward, and as it progresses, Toronto, which must be the great *entrepot* of its commerce—the market of its produce—must grow in wealth, in importance and power.

The stranger landing from boat, or stepping from train has only to cast his eye down Front Street, with its succession of splendid warehouses, to see what Toronto is commercially. Walking up Yonge Street he soon finds himself in King Street, at once the great business route and fashionable promenade. On the left of the journey eastward, he will pass the great publishing house of Adam, Stevenson & Co., a monument of the reading and literary ability of the Dominion, and whence the *Canadian Monthly* issues; the *Globe* and the *Leader* offices; at the head of Toronto Street, which turns up opposite the *Leader* office, the handsome new Post Office; farther east, St. James' Cathedral on one side, and the St. Lawrence Hall on the other; while looking westward we have the office of the *Mail*, the Rossin House, the official residence of the Lieutenant Governor, and so past the fashionable quarter on to the most picturesque drives round Toronto. Here on one side we have the lake rolling against a bold bluff, and on the other sweetly wooded streams, and miniature pictures of fairy scenery. After Queen Street those which run parallel with King Street, where we have kept the traveller standing a long time, most of the streets are occupied

with private residences, some of which are very handsome. Yonge Street, which runs right north from the crossing, where we have button-holed him, is a business street full of activity ; running parallel with it are on the west (we mention a few residential routes), Simcoe Street and John Street, both fashionable neighborhoods, and on the east, Church Street and Jarvis Street, which are not without claims of their own—especially Jarvis Street. Carlton Street, which runs nearly from the entrance to the Park in Yonge Street, across the whole east of the city, should be mentioned as a place where fine residences, and a new handsome Church, St. Peters', as well as the Horticultural Gardens, may be encountered.

And now, to be more particular, St. James' Cathedral, facing on King Street, and a fine specimen of Gothic architecture, which, excepting the spire, that is now being completed, rose in 10 months in 1849, when the original building was burned down. The chancel, semi-octagonal in form, is pierced by windows of the transition period ; the graining and general ornamentation being in strictest keeping with the gothic style. The internal height of the nave is 70 ; of the aisles, 35 ; length, 20 ; width, 115 feet.

Some distance on the left, up Church Street, little inferior in beauty and finish, the largest Methodist Church in the world, the Metropolitan stands. It will accommodate 3,000 persons, and is an admirable specimen of florid ecclesiastical gothic. It was built through the exertions of Mr. Punshon, the greatest master of florid pulpit rhetoric in the world, and might not inappropriately bear over its principal door-way "*Quid facundia posset, re patuit.*" The inside is characterized by beauty, neatness and light.

The Roman Catholic Cathedral, standing a little higher up, is outside a chaste structure ; inside gorgeously ornamented, and is said to be the second handsomest Roman Catholic Church in Canada. Of St. Paul's, St. Peter's, Trinity, St.George's, St. Andrew's, Knox's Church, and others, it is sufficient to say that all of them are appropriate for the purpose of Divine worship, and most of them are ornaments to the city.

The St. Lawrence Hall, erected in 1850, and having a front extending along King Street for 140 feet, is a fine structure, with a well-finished hall inside ; the front being of cut stone, and the architecture known as Roman-Corinthian. In its rear runs the St. Lawrence Market, 200 feet in length, and 39 in breadth, with stores on either side. In the cupola, there is a fine-toned alarm bell, weighing 2,130 lbs., and which is frequently heard during the winter when stove pipes grow too warm, and the hurry and roar of the fire-breathing engine is heard in the highway.

The City Hall, built in the Italian style, and completed so recently as 1857, has a frontage of 140 feet, and extends the length of 178 feet to the Bay. The aggregate cost amounted to $13,000.

Amongst Hotels, the first calling for mention are the "Queen's" and the "Rossin House," the former on Front Street, and commanding the Bay and Lake ; the latter at the corner of King and York Streets ; the American and the Walker House, a new structure, and the "Revere House," this last standing opposite the "Rossin," are also very good hotels.

The Houses of the Ontario Parliament—exceedingly old-fashioned structures—stand between Simcoe and John Streets, and looking on to Front Street, face the Bay. The chamber is a handsome room, and there is a good library attached. Near this, to the north, is the palatial residence of the Lieut.-Governor.

If, on leaving the Government House, the traveller proceeds northward, he passes Upper Canada College, where most of the promising youth of Ontario have been, and are educated ; and getting into Queen Street let him turn to the left, and walk, or drive for some miles westward through this busy thoroughfare, and he will stand before a spacious building, erected 23 years ago, and the dome of which may be seen from the Lake for 30 miles. "The chief architectural feature about the building consists," says a writer in the *Globe*, "of a hexastyle portico, in the Grecian Ionic order, of cut stone ; the columns are raised upon a lofty rusticated base, occupying a story and a-half in height, with two handsome flights of stone steps, and a bold stone landing ; the tympanum of the pediment is ornamented with the Royal Arms in *bas relief*. The centre building is surmounted by a lofty dome, covered with tin (which can be seen for thirty miles on the Lake), within which is the wrought iron tank, or reservoir, capable of containing eleven thousand gallons of water, which is pumped up daily from the Lake by a steam engine."

Near the Asylum are the old and new forts, the latter built substantially of stone.

Nearly facing the Lunatic Asylum is Trinity College, a building in the third period of English architecture. Its rooms and chapels are fitted up in the very best style, and it possesses a fine quadrangle of 170 by 120 feet. The College is entirely devoted to the Church of England, and the University connected with it confers degrees only on candidates who, on oath, profess themselves attached sincerely to the Church of England.

Coming back eastward along Queen Street we pass the Park Avenue—which furnishes a magnificent vista—and then find our attention arrested by Osgoode Hall, a fine, two story building, consisting of a central block, and two large projecting wings, stone-faced. This is the temple saved to Themis in the capital of Ontario, and it may with truth be said she has no unworthy shrine ; the courts are roomy and well ventilated, and the library is in many respects superior to those of the Inns of Court, in London.

We may now take a drive up the Avenue, and entering the Queen's Park note first the Queen's statue, then the handsome houses which are rising on the right ; then the monument to the brave men who fell fighting against filibustering Fenians at Ridgeway, the group consisting of soldiers with grief on one side, and resignation on the other, and the figure of Britannia crowning all ; and, finally crossing a little valley, wherein an artificial lake spreads itself, approach and visit the University buildings, a massive Norman Tower rising from an architectural square, of Norman Romanesque—an imposing structure, which has well been said would not be out of place in the city of Oxford. Next to the University is the Observatory, which is well fitted up with all modern appliances.

To the west of the Park entrance is the Toronto Gricket Ground.

Driving back eastward, we pass into Yonge Street, and through Carlton Street into Church Street, turning down which we come to the Model School—a building in the Roman Doric order —which was erected in 1851-2, at a cost of $125,000, the foundation stone having been laid by the Earl of Elgin. The class-rooms are admirable in their way, and there is a magnificent lecture hall. The pictures, though copies, are worth seeing, as are some of the busts. The Normal and Model Schools are one building, and there is accommodation for 400 pupils. The garden is exceedingly pretty and well kept.

The Horticultural Gardens, which have been already mentioned, can be come to by a slight detour eastward, and will well re-pay a visit.

There is no country in the world better provided for, in respect of education, than Canada, and no city better off, therefore, than Toronto. There are, besides the educational institutions already mentioned, thirteen public schools, presided over and managed by a Board of Trustees, under the supervision of an inspector. The system being in principle undenominational, the Roman Catholics being, however, allowed to have seperate schools, without being taxed to swell the general fund—a privilege of which they avail themselves.

The fire alarm system is singularly complete. There are boxes at certain corners, the keys of which are near, and in a few minutes after a fire appears a bell is rung, which tells the whole city in what quarter the flames are breaking out.

Toronto is not rich in places of amusement. The Theatre is small, but, considering the patronage it receives, is well managed. A new Theatre is, however, rising behind it, and an Opera House will soon be at the disposal of *entrepreneurs*. Shaftesbury Hall, which is attached to the Young Men's Society, is a good hall in some respects, but the ventilation is wretched, and the acoustics most imperfect. It will accommodate from 1,000 to 1,200 people. The Music Hall will accommodate 800 people. Its acoustic properties are good This is a favorite place for balls during the winter.

The three principal places of interment, are, the Necropolis, the St. James, and the Roman Catholic Cemeteries—the St. James' Cemetery being very beautiful, and having an air of seclusion which adds to its impressiveness. The grounds are tastefully disposed and decorated, and separate spaces are allotted for the various Churches. Monuments as tasteful and as costly as in any graveyard in the world are to be seen here. Flowers are strewn on the graves. and the whole scene is beautiful and suggestive. The Necropolis and the Roman Catholic Cemeteries should also be visited.

In addition to Roman Catholics, Episcopalians, Methodists, Baptists, and Independents, there are represented in Toronto by Churches the Plymouth Brethren, the Lutherans and the Swedenborgians.

When journeying eastward, the Don should be seen, where there is some good picturesque bits. Here is the new jail, a square stone building without architectural pretensions, and not far the distillery of Gooderham and Worts—one of the largest on the continent.

The city is also well served by the Montreal and Dominion Telegraph Companies. The Manager of the Montreal Telegraph, Mr. Dwight, is, owing to his obliging character, an universal favourite.

The emigration shed is entirely—office and all—of wood, and is well arranged and managed.

The city is supplied by five systems of railway—the Grand Trunk, the Great Western, the Northern, the Toronto, Grey & Bruce, and the Toronto & Nipissing ; and to these will soon be addded the Credit Valley.

The new Union Railway Station, in the south-west, is one of the handsomest buildings in the city, and its clock has added greatly to convenience and beauty.

Distances are as follows :—From Hamilton 40 miles, from Niagara Falls 50 miles, from Collingwood 94 miles, from London 114 miles, from Kingston 165 miles, from Ottawa 233 miles, from montreal 333 miles, from Quebec 513 miles, from New York 500 miles, from Boston 593 miles, from Liverpool 3,083 miles. Value of assessed property in 1870, about $27,000,000. Population about 70,000.

Toronto is, as we have said, growing rapidly. To judge of its business energy we have only to walk through its streets. In doing this, too, it will be seen what a fine race, composed of English, Irish and Scotch, are building up the future of a mighty people. Strong, stalwart men ; handsome women ; all having a fine, free, open expression. There is no sign of poverty anywhere, and though there is a "House of Providence," there is nothing of the able-bodied pauperism which meets us in Old Country cities. Toronto has all the notes of a capital. Walking down its streets you frequently meet most of the principal men of the Dominion ; Hon. Alexander Mackenzie, the present Prime Minister, his countenance full of strength and purpose, and his whole bearing of conscious rectitude ; Hon. Edward Blake, with his strong square built features and searching eye ; Right Hon. Sir John Macdonald, with his head of genius and face ploughed with the furrows of care and thought and sorrow ; Hon. George Brown, with tall energetic frame, and the face and form as of one born to command ; while Cabinet Ministers, from the Local Legislature, are often on King Street—be it said, without irreverence, as thick as pickpockets. There is a consciousness that Toronto is a growing capital in every mind, and hence, though the population is only 70,000, there is nothing provincial to be met with anywhere. Even literary greatness is occasionally to be seen elbowing politicians, and the spare intellectual figure of Mr. Goldwin Smith flits by us like an attenuated dream ; while, as we have indicated, beauty of no mean character divides attention with eminence of other kinds. It is no wonder, then, that the words of Mr. Edgar, the lyric poet of the Dominion, "what age can match the glorious youth of this Canada of ours?" should be parodied by each citizen in regard to the Queen City of the West. Their pride, indeed, in the present is just ; the hopes of the future well founded ; for yet a few years hence and Toronto will surpass the city of to day as maturity surpasses boyhood.

CALL FOR ENGINE OR HOSE.

When a steam Fire Engine or Hose are required for special duty, the number of the Signal Box in the locality where required will

be struck once ; if a reel of Hose only be required, the number of the Fire Hall from which the Hose shall be sent, will be struck once ; if Engine and Hose are required, the number of the Fire Hall required to send both will be struck twice.

To avoid, as much as possible, taking members of the Fire Company from where they may be required, the following regulations are to be observed until further orders :

Section No. 1.—Members of section No. 1, are not required to attend to ordinary Fire Alarms from Signal Boxes Nos. 26, 27, 31, 43, 45, 48, 56 & 57, unless No. 1 engine is specially called to attend.

Section No. 2.—Members of Section No. 2 are not required to attend to ordinary Fire Alarms from Signal Boxes Nos. 41, 42, 43, 45, 48, 61, 62 & 63, unless No. 2 Engine is specially called to attend.

FIRE ALARM.

SPECIAL, FOR ASSISTANT ENGINEER & FIRE COMPANY.

If the Assistant Engineer and Fire Company are required for any special purpose, Ten blows will be struck on the Alarm Bells and Gongs, whereupon the Assistant Engineer and all members of the Fire Company shall attend as expeditiously as possible at the central station, Bay Street Fire Hall. Should their attendance be required elsewhere, in addition to the ten, as above directed, the number of the Signal Box in the locality where required, will be struck twice, with a pause of about 30 seconds between each time.

For False or unnecessary Alarm.—Whenever the alarm of fire is sounded, as soon as possible after it is ascertained that there is no cause of alarm, two distinct blows will be struck on the Alarm Bells and Gongs

NOTE.—It may be noticed that in the regular Fire Alarm the pause between the numbers is about 15 seconds, but when striking any extra signals the pause between the numbers will be about 30 seconds.

TORONTO FIRE ALARM TELEGRAPH.

DIRECTIONS TO KEY-HOLDERS.

Upon positive information of a fire near your signal box, unlock the signal box door, and if you hear a ticking in the box, count the number struck ; if the number struck is the number of any box near the fire, you may conclude that the alarm was given by some person before your arrival. If no ticking is heard in the box, pull the brass hook all the way down, about two inches—once only—and let it go ; then wait a few minutes, and if you hear no ticking in the box, or alarm on the bells, go to the next nearest box to the fire, and pull the hook in that box. On no account should the hook in any box be pulled until after the ticking in the box has ceased for at least fifteen seconds, and no alarm should be given for a chimney only on fire.

Never open the box, or touch the hook except in case of fire.

Never give an alarm except from the box nearest the fire, unless you have first ascertained that the box nearest the fire will not work.

Be sure the box is locked before leaving it.

Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the superintendent, or Chief Engineer of the Fire Department. The key should be kept in one certain and secure place, out of the reach of children, or strangers, but readily and easily got at when required.

ALARM GONGS.

Complaints concerning wires, &c., should in all cases be made at the Fire Alarm office.

Observatory time announced at 11.55 a.m., on all Alarm Bells.

In cities the trustees are all appointed by the city council, except where there is only one school in the county. The head master must be a graduate of a British or Colonial University, unless certificated and appointed by the 18th September, 1865. Besides fees, local rates or contributions to the extent of half the Government grant must be raised for the master's salary. The grant is payable to those schools only which attain a certain standard, and is based on the average attendance of pupils in the prescribed studies. An extra grant is provided for masters taking certain meteorogical observations, and giving preparatory scientific military instruction. Pupils attending these schools are prepared for matriculation in the Universities.

PRESIDENT :—Hon. W. P. HOWLAND, C.B

Offers, among others, the following advantages to assurers :—

1. It is a Canadian institution, under **HOME** management, affording the chief benefits of the stock and mutual plans without the main disadvantages of either.
2. Its Government Savings Bank Policy (a specialty with this Company) affords an absolute security which nothing but national bankruptcy can affect.
3. All its resources are invested in Canada, UNDER OUR OWN LAWS AND COURTS—thus being of national benefit instead of a constant drain of our means from this source into foreign channels. Foreign Life Companies received in 1872 for premiums, $1,637,348.34. (See last Government Return.)
4. Its rates are comparatively low—its all-life mutual premiums being about 10 per cent. less than those ordinarily charged by mutual companies, and its stock rates over 25 per cent. less than the same.
5. The CONFEDERATION has over **$250 of Assets** for every **$100 of Liabilities** to policy-holders.
6. The average ratio of American Companies=**$108.70 for each $100** of liabilities. (See last Mass. Report, p. xviii.)
7. The average **ratio of Expenditure to Income** of American Companies=**66.68**. (See last N. Y. Report, p. xlvii.) ; THAT of the **Confederation=38.41.**

Always good openings for Agents.
