TO THE PUBLIC.

The "ISOLATED RISK FIRE INSURANCE COMPANY" having been established solely with the view of Insuring against loss or damage by Fire the owners of ISOLATED or NON-HAZARDOUS Properties, the Directors therefore respectfully direct the attention of Insurers to the following:—It will adjust all losses without delay, and pay over the CASH AT ONCE. It being the first Stock Company to give REASONABLE RATES, and not impose on those whose Properties are NON-HAZARDOUS the burden of making up the losses by those whose Properties ARE HAZARDOUS, the Directors would, with every confidence, look to the public for support.

Very reasonable Rates given on application at HEAD OFFICE, *or at any of the Agencies.*

TWIN BROTHERS'

THE BEST.

THE BEST.

NEW VEGETABLE

DRY HOP YEAST.

39 FRONT STREET EAST, TORONTO, ONT.

TO OUR CUSTOMERS.

We call your attention to the fact that each year brings forth a new brand of Yeast, to cope with the

Twin Brothers' Dry Hop Yeast

for public favor, and no sooner does one die than another is started, only to share the fate of its predecessor. The latest that we have to announce is Mrs. Churchill's Hop Yeast, manufactured by Churchill & Co. of this city. It only lived long enough to fill the stores with poor yeast that can never be sold, and to a greater or less extent injure the credit of

DRY HOP YEAST.

They have sold their yeast at figures far below the cost that a good article can be manufactured for, and it should have been apparent to every mind that something was wrong; that they could not make a good yeast for the price. The same can be said of every other yeast that has been started and failed in the Dominion.

For sixteen years the TWIN BROTHERS' DRY HOP YEAST has enjoyed the confidence of the trade, and to-day stands without a rival. We warrant every package to be fresh, and if it should not prove so, we hold ourselves ready at all times to make it good.

Yours truly,

WATERLOO YEAST CO.

T. L. BUCKLEE, Manager.

THE MONTREAL TELEGRAPH CO.

This popular Company, which has its wires laid along the line of railways and connections, was incorporated in the year 1847, with a capital of $60,000, and began its operations with 12 or 15 offices between Montreal and Quebec. Its history has been an uninterrupted success from the start; its lines having been extended to the remotest sections of the country wherever they can be maintained, and offices opened in nearly every village and hamlet throughout the country. Its capital stock has been increased to $1,925,000; its miles of lines to 22,000; and its number of offices to 1,400. Extensions are constantly going forward into newer and remoter sections of the country as routes are opened up, and new offices are almost daily being opened.

This Company is apparently unaffected in its prosperity by rival schemes, having outlived several in the course of its history. No country in the world is probably better served in the matter of telegraphic communication than Canada. The great abilities and enterprising spirit of Sir Hugh Allan, the President of the Company, have been as serviceable in developing the organization we are now describing as in founding the magnificent system of Oceanic communication with which his name is so familiarly identified. An enterprising, but at the same time shrewd and far-seeing policy has, in fact, characterized the Company's operations from the very out-set. In this respect, and in all questions demanding liberal and comprehensive action, this Company has been greatly assisted by possessing in Mr. H. P. Dwight, the Superintendent of the Western District, a gentleman who has had regard not so much for an immediate return for the work undertaken as the certain, steady expansion of business in a corresponding ratio with the increase of trade or population. Mr. Dwight's management extends over the most important section of the Company's territory.

INTERESTING FACTS

Concerning Music!

The following interesting facts are furnished by MR. LIVINGSTON, Canadian partner with

PELOUBET, PELTON & CO., OF NEW YORK,

IN THE MANUFACTURE OF THE

Celebrated Standard Organs

which are creating such an interest, both in EUROPE and AMERICA, for their PURE and SYMPATHETIC QUALITIES OF TONE. He says: The peculiar quality of tone in these Organs is obtained not by the introduction of new musical principles, but by the adoption of NATURAL AND TRIED PRINCIPLES, known to Stradivarius and Paganini centuries ago. Everything connected with the instrument must be supposed to sympathise with it. Thus the cases must not be made to match sideboards for ornaments, but to vibrate freely. All unnecessary rigging and fancy stops of glass and bells, &c., &c., intended only to sell the instrument, are to be avoided.

The STANDARD ORGANS

being made true to nature, and depending on their TRUE MUSICAL QUALITIES alone, have been so much sought after in Europe and America, especially during the last three or four years that

10,000 Annually have been made

TO MEET THE DEMAND.

MR. LIVINGSTON

is now a resident of Toronto, and has a sample room

108 KING STREET WEST.

(SEE PAGE 31.)

TORONTO FIRE ALARM TELEGRAPH.

DIRECTIONS TO KEY HOLDERS.—Upon positive information of a fire near your signal box, unlock the signal box door, and if you hear a ticking in the box, count the number struck; if the number struck is the number of any box near the fire, you may conclude that the alarm was given by some person before your arrival. If no ticking is heard in the box, pull the brass hook all the way down, about two inches—once only—and let it go; or if it be a brass knob and not a hook, pull the brass knob upwards and around as far as it will move, then let it go; then wait a minute, and if you hear no ticking in the box or alarm on the bells, go to the next nearest box to the fire, and pull the hook or knob in that box. On no account should the hook or knob in any box be pulled until after the ticking in the box has ceased for at least fifteen seconds, and no alarm should be given for a chimney on fire.

Never open the box, nor touch the hook or knob, except in case of fire.

Never give an alarm except from the box nearest the fire, unless you have first ascertained that the box nearest the fire will not work.

The key used in opening the box cannot be taken out without another, called a relief key, and do not try to take the key out until a person having a relief key takes it out. Be sure the box is locked before leaving it.

Never let the key go out of your possession unless to some responsible person, for the purpose of giving an alarm, or when called for by the Superintendent or Chief Engineer of the Fire Department. The key should be kept in one certain and secure place, out of the reach of children or strangers, but readily and easily got at when required.
