1925
MINUTES

OF THE MUNICIPAL COUNCIL OF THE
TOWNSHIP OF YORK

FIRST MEETING

Council Chamber, Jan. 12th, 1925.

The Members elected, under and pursuant to the provisions of Section 3, Chapter 140, Statutes of Ontario, 1924, entitled an act respecting the Township of York, to fill the respective offices of Reeve, Deputy Reeves and Councillors for the year 1925, namely:

FOR REEVE

Wm. M. Graham.....48 Atlas Avenue

(Ward 1)

FOR FIRST DEPUTY REEVE

R. J. Macgregor.....219 Arlington Avenue

FOR COUNCILLOR

W. G. Armstrong.....627 Vaughan Road

(Ward 2)

FOR SECOND DEPUTY REEVE

E. G. Westbury.....324 Silverthorne Ave.

FOR COUNCILLOR

A. E. Baker.....107 Lambton Avenue

(Ward 3)

FOR THIRD DEPUTY REEVE

S. Clouston.....406 Beresford Avenue

FOR COUNCILLOR

Wm. McQueen.....12 Raymond Avenue

met in accordance with the provisions of the "Municipal Act", at 11 o'clock a.m. The Statutory Declarations of qualifications and offices of each of the Members were reported by the Clerk to be duly filed, after which the Reeve took the chair and declared the Council of 1925 duly organized and open for the transaction of general business, and presented his inaugural address to the Council, which reads as follows:

To the Members of the 1925 York Township Council, Gentlemen:—

Pardon me, for taking this opportunity of calling your attention to a number of the most important works that are to come before the Council this year. I trust, that for the benefit of all, that harmony will prevail, thus helping to a successful issue without delay some, if not all, of these very necessary works.

1. Our first case in Economy with the greatest Efficiency. Thus enabling us to again have a reduction in the Tax Rate.
2. We all realize the urgent necessity of Sewerage and Drainage, and I would like to see a speedy completion of the sewers now under construction, also the extension of same to Swansea and Mount Dennis.
3. It would also afford me a great pleasure to see the extension of the Rogers Road Car Line to Weston Road nearing its completion at an early date, which work is now well under way.
4. I also advise that the Engineers be given instructions to prepare plans for an Incinerator (to dispose of garbage), as that is an impediment to health in the Township at the present time.
5. I also think that the time has come, when we should give some consideration to the purchasing of land for Parks and Municipal Purposes, for the Residents of the Township of York. Within the near future we shall find that there will not be suitable property for this purpose available.
6. The Transportation of Mount Dennis, to be solved by the Council, which should have their immediate attention, and which no doubt you are all aware of the fact, that this By-Law was carried by a large majority, and the only solution that I can see is by T. T. C.
7. That the Engineers be asked to submit plans to Council as soon as possible with regards to the Construction of the Sewers on Vaughan Road. And the question of having the County Commission pave same, jointly with the Township of York.
8. It is also expedient that an early consideration be given to the Fire Protection for Wards No. 1 and No. 3.

I would kindly ask the Engineers if it were possible to open up more contracts to give work to the unemployed, as I am sure it is to the interest of the Township of York to provide as much work as they can at the present time.

I thank you, Gentlemen, for listening to these few remarks.

Wm. M. Graham, *Reeve*.

RESOLUTIONS

The following resolutions were passed:

No. 9937. *Macgregor—Armstrong*.—Resolved that whereas the Corporation has entered into a contract, dated Dec. 12th, 1924, with the Ontario Foundation and Engineering Co., Ltd., for the construction of a main trunk sewer from the corner of Lavender Road and Keele St. to Syme Road, for the total lump sum of \$159,109.00, and whereas the said company are being wound up under an order of the Court, which has appointed the Trust and Guarantee Co. provisional liquidators thereof, and whereas the official referee has authorized the liquidators to abandon the said contract and the said provisional liquidators have notified the Corporation that they are unable to proceed with the work and that they have abandoned the said contract, and whereas the Corporation holds a bond from the United States Fidelity and Guarantee Co. for the sum of \$79,554.50, dated Dec. 9th, 1924, indemnifying it against loss due to the unfulfillment of the said contract to the extent of the said sum of \$79,554.50, and whereas the said bond company by letter dated Feb. 10th, 1925, addressed to the Township Solicitor has advised that it has called for tender for the completion of the said work, and that the McKnight Construction Co., Ltd., has offered to complete the said work for the sum of \$114,442.00, and that the same is the lowest tender, and that the said bond company has released all its right under the said bond to complete the said contract and has further signified their willingness for the Corporation to enter into a contract with the McKnight Construction Co. for the completion of the said work at the said price, and whereas our Solicitors have recommended that the Corporation enter into a new contract for the completion of the said work, having in mind that the bond company by their letter of Feb. 10th, 1925, agree to leave the respective rights and liabilities of the parties under the said bond in status quo until the completion of the said contract to be entered into, now therefore be it resolved, that the Solicitors be instructed to prepare a contract between the McKnight Construction Co. and the Township, for the sum of \$114,442.00, for the completion of the said work; and the Seal of the Corporation be hereto attached.—*Carried*.

No. 9938. *Westbury—Baker*.—Resolved, that the Clerk be and he is hereby instructed to write to the secretaries of the various rate-payers' associations in Mount Dennis, drawing to their attention that it will be advisable to sewer Weston Road before any permanent pavement could be constructed, and that as the same conditions would apply to any other permanent improvements of a like character in any other part of Mount Dennis, would they discuss this question at a future meeting of their association and inform Council of the results of such discussion as to whether they would desire Council to have plans and specifications prepared, also, estimated cost of the construction of a sewerage system to take care of the whole of the above-mentioned district; and the Seal of the Corporation be hereto attached.—*Carried*.

No. 9939. *Westbury—Clouston*.—Resolved, that the Treasurer be and he is hereby authorized to issue cheque to the Fess Contracting Co. for \$400.00, same being fourth progress payment for house moving on Rogers Road extension; and the Seal of the Corporation be hereto attached.—*Carried*.

No. 9940. *Macgregor—Armstrong.*—Resolved, that the Treasurer be and is hereby authorized to pay over to the Corporation of the City of Toronto, a cheque amounting to the sum of \$8,143.50, being the amount due the said Corporation under the agreement entered into between this Township and the Corporation of the City of Toronto, dated Aug. 20th, 1923, said agreement relating to sewer connection and maintenance charges on Heath St. and Kendal Ave.; and the Seal of the Corporation be hereto attached.—*Carried.*

No. 9941. *Macgregor—Armstrong.*—Resolved, that Mr. Caswell of the Waterworks Dept., be and is hereby authorized to procure for the Council, at as early a date as possible, the following information:

A detailed statement of the work done by the Waterworks Dept. during the year 1924, covering new services installed, services replaced, materials bought and where used.

A statement showing the cost of work done charged to maintenance account, a statement showing the cost of installing new services and all other information necessary to enable the Council to arrive at the total expenditure of the Waterworks Dept. during the year 1924.

That Mr. Cash and the Treasurer be requested to furnish the Council, at as early a date as possible, a statement of the total revenue derived from the Waterworks Dept. during the year 1924; and the Seal of the Corporation be hereto attached.—*Carried.*

No. 9942. *Westbury—Baker.*—Resolved, that the Clerk be and he is hereby instructed to call the attention of the County Engineer to the flooded condition existing at Weston Road and Lavender and Kane Aves., the present pipe under Weston Road being utterly inadequate to handle the flow of water and the nearby residents suffering greatly from the flooded conditions, the erection of a concrete culvert and the widening of the roadway at this particular point being apparent to handle this situation satisfactorily; and the Seal of the Corporation be hereto attached.—*Carried.*

No. 9943. *Westbury—Clouston.*—Resolved, that the offer of Mr. Daniel Syme, re renting of property and lands owned by the Corporation and situated at Tory Glen, be and the same is hereby accepted, subject to the provisions as outlined by the Consulting Engineer; and the Solicitor be and he is hereby instructed to draw up a lease covering same from Nov. 5th, 1924, to Nov. 5th, 1925; and the Seal of the Corporation be hereto attached.—*Carried.*

No. 9944. *Westbury—Baker.*—Resolved, that in connection with the widening of Weston Road, the Solicitor be and he is hereby authorized to close out the purchase of part of Township Lots 38 and 39, owned by Thompson Porter estate, for the sum of 50 cents per sq. ft.

BE IT FURTHER RESOLVED, that the Treasurer is hereby instructed to forward to Messrs. Starr, Spence, Fraser and Hall the sum of \$1,592.75, to cover the amount of the above-mentioned purchase; and the Seal of the Corporation be hereto affixed.—*Carried.*

No. 9945. *Macgregor—Baker.*—Resolved, that the Assessment Commissioner be and is hereby authorized and instructed to write the Statute Revision Commission of the Province drawing their attention to the inequitable provisions contained in Sec. 118 of "The Assessment Act" with regard to allowance of reduction of taxes on account

of vacant tenements and to request that such section be so amended as to provide that the right of petition for reduction of taxes on account of vacancies be granted to cities only, and to state the reasons as expressed by this Council for such amendment and why it is inequitable that such provisions should apply to the smaller local municipalities; and the Corporate Seal be hereto affixed.—*Carried.*

RESOLUTIONS

The following resolutions were passed:

No. 10,235. BAKER—WESTBURY.—Resolved, that the Treasurer be and he is hereby authorized and instructed to increase Mr. W. K. Shannon's salary, One Hundred and Fifty Dollars (\$150.00) per year, same to be retroactive from Jan. 1st, 1925; and the Seal of the Corporation be hereto attached.—CARRIED.

No. 10,236. ARMSTRONG—WESTBURY.—Whereas, application has been made for payment by this Council of the same proportion of cost per pupil for Township pupils attending private high schools or institutes of learning as is paid to the Board of Education of the City of Toronto for Township pupils attending the Collegiate Institutes, High Schools, Technical School or High School of Commerce of the City of Toronto;

BE IT THEREFORE RESOLVED, that the following sums are hereby granted on account of cost per pupil, (unit cost of education), charged resident pupils of the Township attending any Private High School or Institute of learning; provided the course of study and efficiency of such High School or Institute are of a standard satisfactory to and approved by this Council, namely:

(a) Seventy-five per cent. of the cost per pupil, if such cost is not more than the fee or cost charged resident pupils of the Township by the Board of Education of the City of Toronto under agreement between the Corporation of the Township of York and the said Board of Education, dated September 1st, 1921, in and for the current year.

(b) If and when the cost is more than that charged by the Board of Education of the city of Toronto under said agreement, then and in all such cases a sum equal to seventy-five per cent. of the cost charged under said agreement in and for the current year, and no more; and the Corporate Seal be hereto affixed.—CARRIED.

No. 10,237. BAKER—ARMSTRONG.—Resolved, that in pursuance of Resolution No. 10,236, the Treasurer be and he is hereby authorized to issue cheque in favor of the Treasurer of the Loretto Abbey Day School, 385 Brunswick Avenue, Toronto, for the sum of \$30.75, being seventy-five per cent. of tuition fee for ten months at said Day School for the daughter of Mr. E. Thackery, cheque to be forwarded to Mr. Thackery, 128 Beresford Avenue, Swansea; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10238. WESTBURY—CLOUSTON.—Whereas, in view of the fact that Mr. Tretheway has broken off all negotiations in connection with the dedicating to the Township of York of a strip of land for roadway and park purposes through his property north of Eglinton Avenue.

AND WHEREAS, it has been deemed advisable that no further action be taken by this Council;

BE IT THEREFORE RESOLVED, that Resolution No. 10,185, passed on the 15th day of May, 1925, to acquire a parcel of land for roadway purposes through the Loney Property, be and the same is hereby rescinded, and the Seal of the Corporation is hereto affixed.—CARRIED.

No. 10,239. WESTBURY—BAKER.—Whereas, the Township Engineer has reported on the extending of Kirknewton Road from southerly limit of Reg. Plan 2221, southerly to Dynevor Road, and an unnamed street from Kirknewton Road westerly to Ennerdale Road, to the effect that he finds upon investigation that certain lots in the district surrounding the proposed improvement while not abutting directly on the work are immediately benefited thereby, and should be specially assessed for a portion of the cost thereof;

BE IT THEREFORE RESOLVED, that Report No. 1, under date of June 1st, 1925, be and the same is hereby adopted, and that in pursuance of the Local Improvement Act, Sections 27 and 29, the Township Engineer be and he is hereby requested to make a further report stating:

(1) Whether in his opinion it will be inequitable to charge the whole of the cost of the work on the land abutting directly thereon.

(2) If inequitable, to do so, what portion of the cost should be assessed to the lands directly abutting on the work, and if the land not abutting on the work should be assessed for any portion of the cost of the work, what portion of the cost should be so assessed; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10,240. ARMSTRONG—BAKER.—Resolved, that upon the recommendation of the Department of Public Health, as set out in their Resolution No. 52, the Clerk be and he is hereby instructed to notify the applicants that they cannot grant licenses as follows:

Chong Wing, 1274 Eglinton Avenue—*re* Laundry License.

The following resolutions were passed:

No. 10,450. WESTBURY—CLOUSTON.—Resolved, that the Treasurer be and he is hereby authorized to rebate the sum of \$2.75 arrears on Lot 59, Plan 1668, this being York Township's share of a portion of the above property purchased by them in November, 1924; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10,451. CLOUSTON—WESTBURY.—Resolved, that the Treasurer be and he is hereby authorized to restore to the roll and refund the first instalment of income tax of J. H. Rengle, 22 Westmount Ave., Assessment No. 15354, which was paid in error by R. S. Wilson, 210 Westmount Ave., to the amount of \$22.48; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10,452. McQUEEN—BAKER. Resolved, that the Treasurer be and he is hereby authorized to remit the penalties amounting to \$51.86 on Lots 23 to 32, Plan 1651; the west 30 feet 6 inches of Lot 22; the north 28 feet of Lot 11, and Lots 10, 12 to 21, inclusive, also

the north 30 feet of Lot 3, and Lots 5, 6 and 7 in the same plan, all having been purchased by the Trustees of School Section No. 15 for school purposes; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10,453. ARMSTRONG—MACGREGOR.—Resolved, that the Solicitor be and he is hereby authorized and instructed to close out the purchase of an easement through part of Lot 10, Plan 1586, owned by Miss Catherine Jones, 80 Alcina Ave.

BE IT FURTHER RESOLVED, that the Treasurer be and he is hereby authorized to forward to Messrs. Starr, Spence, Fraser & Hall a cheque for the sum of \$134.00, this amount being for the purchase of the above mentioned easement; and the Seal of the Corporation is hereto affixed.—CARRIED.

No. 10,454. BAKER—McQUEEN.—Resolved, that the Clerk be instructed to write the C.N.R. officials *re* the purchasing of their line on the Weston Road. At a conference held August 12th with representatives of the C.N.R., it was agreed as follows:

1.—That the C.N.R. will sell to the Township of York, for fifteen thousand dollars, all their assets in the present line on Weston Road running through Mount Dennis, excepting rolling-stock.

2.—That the C.N.R. would submit a draft agreement covering purchase and transferring of road with as little delay as possible.

3.—That the date that the Township should buy the line would be left blank, the understanding being that the said date would be the date on which the T.T.C. commenced the operation of the line for the Township.

4.—That the Township could proceed to build a street railway on Weston Road.

5.—That in order to facilitate traffic, the Township should be given the right to move the present C.N.R. railway to a suitable location on the Weston Road under the following conditions:

- (a) The moving of the present C.N.R. tracks to be under supervision of C.N.R. engineers.
- (b) That the expense of such is to be borne as a capital charge against the new street railway.
- (c) That the responsibility of a C.N.R. railway as under the present franchise is not in any way changed.

6.—That all the conditions set out in President Thornton's letter of May 8th were still intended to be binding.

7.—That the C.N.R. would furnish the Township with an inventory of all their assets in the said line.

8.—That the Township would furnish the C.N.R. with a blue print showing where the present C.N.R. and the new street railway interfered with each other, and also to furnish a blue print showing where the present C.N.R. would be moved to; and the Corporate Seal be hereto affixed.—CARRIED.

1. Cost of materials.
2. Cost of labor.
3. The amount of the tender that the contract would have been awarded to had not the Engineer received the contract.
4. The work to which a profit would be credited to and the work to which a deficit would be charged against; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10,851. BAKER—WESTBURY.—Whereas, the Township Engineer has reported upon the proposed extension and grading of Cliff Street, southerly and easterly from Langdon Avenue to Asquith Avenue by the acquirement of Lots 59 and 60, and part of Lot 61, Plan 1846, and part of Township Lot 38 in the Third Con. F.B. to the effect that he finds upon investigation certain lots in the district surrounding the proposed improvement, while not abutting directly on the work are immediately benefited thereby, should be specially assessed for a portion of the cost thereof;

AND WHEREAS, from the said report it would appear inequitable to charge the whole of the cost of the work on the lands immediately abutting thereon;

BE IT THEREFORE RESOLVED, that in pursuance of The Local Improvement Act, Sections 27 and 29, the Township Engineer be and he is hereby requested to make a further report stating:

1. Whether in his opinion it would be inequitable to charge the whole of the cost of the work on the lands directly abutting thereon;
2. If inequitable so to do, what portion of the cost should be assessed on the lands directly abutting on the work, and if the lands not abutting directly on the work should be assessed for any portion of the cost of the work, and what portion of the cost should be so assessed; and the Corporate Seal be hereto affixed.—CARRIED.

No. 10,948. WESTBURY—CLOUSTON.—Whereas, the Clerk was instructed by resolution on November 30th to write Chief of Police, James E. McMullen, requesting his resignation as Chief of Police for the Municipality of the Township of York, and whereas no reply has been received in reference to same, be it resolved that the Clerk be and he is hereby instructed to notify Mr. James E. McMullen that his services as Chief of Police for the Township will not be required on or after the 15th day of December, 1925, and that a By-Law be brought at the next meeting of Council repealing By-Law No. 7549, governing the appointment of Mr. James E. McMullen as Chief Constable, and further that the Treasurer be and he is hereby instructed to arrange payment of salary of Chief of Police up to and including the 31st day of December, 1925, and be it further resolved, that the Clerk be and he is hereby instructed to advertise for applications for the position of Chief of Police for the Muni-

pality of the Township of York, said applications to be received up till noon of December 14th, 1925, at the Municipal Chambers, 40 Jarvis Street, Toronto; and the Seal of the Corporation be hereto attached.—CARRIED.

No. 10,949. ARMSTRONG—MACGREGOR.—Whereas, the Trustees of School Section No. 13 of the Township of York have duly made application to the Municipality of the Corporation of the Township of York for the issue of debentures to the amount of \$160,000.00, for the purpose of acquiring a school in the said Section.

AND WHEREAS, the debentures authorized by the said By-Law which is number 8058, have not yet been issued and it is the present intention of the Council not to issue the said debentures pending their sale on account of the fact that purchasers of debentures frequently desire them to be issued in denominations to suit their requirements;

AND WHEREAS, the Trustees of the said School Section have advised Council that it is necessary to obtain the sum of \$75,000.00, for the purpose of financing the said school;

NOW THEREFORE BE IT RESOLVED, that for the purpose of financing the said school, the Reeve and Treasurer of the Township of York are hereby authorized to borrow from the Dominion Bank, Fairbank, the sum of \$75,000.00, and to issue the promissory note of the Township therefore, payable at such time and with such rate of interest as may be agreed upon between them and the said Bank. And the said debentures to the extent of \$75,000.00 are hereby hypothecated to the Dominion Bank, Fairbank, as further security for the said loan;

AND THE REEVE AND TREASURER of the Township are hereby authorized and required to deliver said debentures to the extent of \$75,000.00 to the Dominion Bank, Fairbank, in case upon their issue the said loan shall not have already been paid; and the Seal of the Corporation be hereto affixed.—CARRIED.

No. 10,950. WESTBURY—CLOUSTON.—Resolved, that the Treasurer be and he is hereby authorized to charge to Contingent Account certain arrears of taxes on part of Lot 1, Con. 3 F.B.E., Plan 2015, and west of the G.T. AUDITORS' REPORT

OF THE MUNICIPAL COUNCIL OF THE TOWNSHIP OF YORK

The Reeve and Council,
Municipality of the Township of York,
King and Jarvis Streets,
Toronto.

Dear Sirs,—We have audited the books and accounts of the Municipality for the year ending 31st December, 1925, and we submit herewith the following statements:

1. Consolidated Balance Sheet at 31st December, 1925.
2. General Revenue and Expenditure Account for the year 1925.
3. Abstract of Receipts and Payments for 1925.
4. Statement of Surplus Account.
5. Statement of Debenture debt at 31st December, 1925.

Supporting Schedules—

- (a) Accounts Receivable and Stores on Hand.
- (b) Sundry Balances.
- (c) Housing Commission Statement.
- (d) Waterworks Revenue and Expenditure Statement.
- (e) Departmental and General Municipal Expenses.

Subject to the following report, we certify that, in our opinion, the attached statements exhibit a true and correct view of the Municipality's affairs at 31st December, 1925, and are in agreement with the books of the Municipality.

Consolidated Balance Sheet

This statement has been arranged in separate divisions for Capital Account, Revenue Account and Trust Account. In the **Capital Account** division will be found those assets of a more or less permanent nature, together with the Debenture debt and other liabilities which have been incurred in connection with them and any unexpended funds relating thereto.

In the **Revenue Account** division are included items of a Current nature, such as the amounts receivable from taxes, water rates and other Municipalities on Current Account, and such liabilities as are immediately payable.

The **Trust Account** includes certain funds held by the Municipality for specific purposes, and for which it must account.

In addition to the sums borrowed specifically for Capital Account purposes on debentures, demand notes, etc., advances obtained from Revenue Account funds amounted at 31st December, 1925, to \$535,061.47. Part of this will be reimbursed by the subsequent sale of debentures, but Capital Account will have to borrow more or less

permanently from Revenue Account for such items as water works construction stores and meters, road machinery and equipment, etc., unless the Municipality should obtain powers to raise funds for a working capital, of which such items would form a part. In considering the Revenue Account, it should, therefore, be borne in mind that of the demand loan of \$625,000.00 owing to the bank, \$535,061.47 was advanced for Capital Account, leaving a balance of \$69,938.53 as the borrowing for Revenue Account purposes, and of this amount there was unexpended on hand at the date of the statement \$35,887.27.

Dealing with the items in the several divisions we comment as follows:

Capital Account Assets

School Sites and Buildings—\$1,726,430.00.

This represents the amount furnished by the Township to the various school sections for school sites and buildings, on debentures not fully retired, the funds being obtained by the sale of Debentures issued by the Township. While the titles to the properties and buildings are vested in the various School Sections, the properties are carried in the accounts of the Municipality until the debenture liability has been fully discharged.

As the debenture liability incurred is repayable in annual instalments over a shorter period than the expected usable life of the buildings, the annual instalments of principal which are levied from year to year may be considered as making sufficient provision for depreciation.

Assessed Portion of Cost Completed

Local Improvement Still to be Levied—\$1,817,096.29.

Represents that part of various completed works undertaken on behalf of taxpayers which, with interest, is still to be collected by means of Local Improvement taxes to meet the maturing instalments to the debentures issued in connection therewith.

Waterworks Capital Expenditure	\$613,000.00
Hydro-Electric System	600,000.00

These represent the capital expenditures on Water Works trunk mains, etc., less amount assumed by the Township of East York and Hydro-Electric Distribution System, which have been completed, and for which debentures have been issued. The expenditures on water works under construction, for which no debentures have been issued, amounted to \$189,079.09 and are shown separately under the item Works Under Construction. As in the case of the school sites and buildings, these debentures are repayable in annual instalments, and it is estimated that they will be entirely paid off considerably before the works have to be replaced, and in consequence no other provision for depreciation has been made.

NOTE.—The portion of the water works expenditure assessed against the improved properties is shown separately, and has already been referred to above.

Sewers Capital Expenditure	\$500,000.00
Transportation System Expenditures	500,000.00

These represent the portion of the Capital Expenditure on in-completed Sewer System and Transportation lines, for which debentures have been issued. The remaining portions of the expenditures are shown under the heading "Works Under Construction" and amount to \$877,910.94 for Sewers and \$980,210.39 for Transportation.

**City of Toronto for Debentures Assumed re Annexations—
\$60,012.26**

In connection with properties annexed by the City of Toronto, there was at 31st December, 1925, still owing for school and local improvement debentures an amount of \$80,012.26. This is recoverable from the City of Toronto, and payment is being received yearly, in an amount sufficient to cover the instalments of principal and interest as they mature.

Township of North York for Debentures assumed re Secession	\$ 73,963.93
Township of East York for Debentures assumed re Secession	1,845,206.64
Village of Forest Hill for Debentures assumed re Secession	403,786.23

During the years 1922 and 1923 the tax payers in those portions of the Township now known as North York, East York and Forest Hill, seceded from the Township of York. The Township of York was incorporated as from the 19th of July, 1922, the Township of East York and the Village of Forest Hill as from the 1st of January, 1924. The unmaturing portion of debenture liability for schools and local improvements in these districts amounted at 31st December, 1925, to \$2,322,956.82. This is recoverable from the new municipalities and payment should be received yearly in amounts sufficient to cover the instalments of principal and interest as they mature. The matured portion of this liability has been transferred to the current accounts of these municipalities and is referred to under the Revenue Account Assets later herein.

Claims have been made against these Municipalities for their portion of the Corporation's share of the debenture debt in respect of flankages, etc., re local improvements, including water mains, for which debenture By-laws were passed prior to the dates of the secession. These claims have been referred to the Ontario Railway and Municipal Board for decision.

	<hr/>
	\$4,354,466.12

These works are temporarily financed by means of loans from the Bank, which are repaid from the proceeds of debenture issues after the works have been completed and the proper proportions assessed against the ratepayers and the Municipality at large.

Street Extension and Bridges in Progress—\$111,470.48

Certain expenditures have been made on the extension and widening of streets. The above represents the balance not levied for at 31st December, 1925, and we are informed by your Engineer that they are all to be recovered by assessment against the properties benefited.

Hydro-Electric System—\$20,433.08

This is the amount expended on Construction and Installation of Services since the debentures were issued. A further issue of debentures is to be made to cover this and any additional expenditure on this work.

Water Works Construction Stores—\$12,437.63

Your Engineer and Treasurer certify that the Inventory of Stores was taken at 31st December, 1925, under their supervision, that the quantities are correct and priced at not more than cost, with proper allowance for all old and depreciated stocks.

Water Consumers' Meters Installed—\$122,429.47

This represents the total expenditure for the meters in service, including cost of installation. Depreciation has been provided for 1925 at the rate of 10% and charged against the Water Works Revenue Account. The installed meters in the district now known as East York have been taken over by the Township of East York and charged to them, the total charge being \$12,684.60. In the event that any of the other seceding municipalities should take over the collection of waterworks revenue in their districts, settlement will have to be made between them and your Township in respect of the installed meters and connections affected.

Road Machinery	\$7,143.96
Motor Trucks	4,615.20
Office Equipment	6,000.00
Property Purchased for Park Purposes	5,000.00
Property Purchased at Tax Sale	231.09

During the year 1924 a road roller and tractor were purchased for \$8,930.70 and 10% was written off for depreciation in 1924 and 1925. The motor trucks were inventoried at cost and approximately 20% per annum depreciation was provided. The book value of the office equipment remains the same as last year, all additional purchases during the year being charged against revenue. The Fire Hall property was transferred during the year 1924 to the Mount Dennis area and all fire equipment supplies are now being charged against the respective fire areas and levied for. In 1925 property was purchased for a Park for \$5,000.00. We have not examined the titles to any of the above property.

Housing Commission—\$380,456.85

Full particulars of this activity are shown in a separate statement of the Housing Commission Account.

The sums advanced on the purchase of lands and construction of houses under the provisions of the Provincial Housing Commission Act amounted to \$466,771.34 to the end of December, 1925, expenditures being covered by advances obtained from the Provincial Government under the provisions of the Act, and amounts which had been deposited or repaid by the purchasers. Titles to the properties are taken in the name of the Housing Commission of the Township of York, the purchaser making his payments under an Agreement for Sale and Purchase.

The advances made are repayable by the purchasers in monthly instalments over a period of 20 years, and under the terms of the Act, the Township is obligated to pay over to the Provincial Treasurer half-yearly the amount of the instalments which have matured, even though some of the purchasers may be in arrears.

A number of the purchasers are in arrears in respect of their monthly instalments and also in respect of taxes on their houses. These arrears are reported from time to time to the Chairman of the Housing Commission and are, we understand, being followed up.

The statement is in agreement with the Housing Commission's books. During the year, the advances and repayments on 80 of the completed houses were confirmed by the purchasers. The remainder are being followed up for confirmation later.

Revenue Account Assets

Taxes Due and Unpaid—\$834,342.25

The arrears shown for 1924 and prior years include the added penalties and costs. In previous reports, we referred to the fact that the tax rolls had not been balanced for a number of years prior to 1922. Further progress was made during 1925 by your Treasurer and his staff in balancing these rolls and many more adjustments have been put through. There is still, however, work to be done in order that all the tax rolls prior to 1922 may be balanced. One result of this work is that considerable sums have been found unpaid in respect of income and business taxes of the earlier years. Many of the taxpayers who, as a result of this checking, have been found to be in arrears for taxes have since moved from the Township and considerable difficulty is being experienced in obtaining their present whereabouts. It is, therefore, unlikely that all the unpaid business and income taxes that have been found as a result of this checking will be paid without loss, and to provide for possible loss, your Treasurer set aside a reserve of \$15,000.00 in the year 1924. The balance of this reserve at 31st December, 1925, stood at \$7,770.74. There is, of course, no contemplation in the Act for any losses through inability to collect taxes, but under the circumstances, it seems wise to make some provision.

The taxes unpaid on 1922, 1923, 1924 and 1925 assessments are in agreement with the tax rolls for those years which have been properly balanced.

Provincial Government—Department of Public Highways

Estimated Refund Receivable—\$20,000.00

Under the provisions of Section II., Ontario Highways Act, as amended 1920, the Provincial Government undertakes to refund to municipalities 20% of the expenditures made on construction and

maintenance of roads and bridges not charged as local improvements. During the year 1925, expenditures of this nature were made by your Municipality to the amount of \$186,342.22, as shown by the revenue statement. A claim is being made upon the Provincial Government, and your Treasurer has estimated that at least \$20,000 will be recovered.

Due From Other Municipalities, etc.—\$276,340.88

As previously stated, the separation of the Township of North York took effect in 1922 and those of the Township of East York and Village of Forest Hill in 1923. Statements were made up by your officials of such expenditure as were made in the new territories prior to the dates of secession, together with statements of their portion of the Corporation's share of local improvements, and the new municipalities were charged their share of these expenditures in the proportion that their assessments bore to the total assessments of the Township of York. Accounts were submitted to the officials of the new Townships and after negotiations, settlements have been reached on all items other than the claims in respect of the Corporation's share of local improvements. Payments have been received from the seceding Municipalities on account of the settled items and the amounts shown in the Balance Sheet represent the balances still to be received, exclusive of interest. The claims in respect of the Corporation's share of local improvement instalments have been referred to the Ontario Railway and Municipal Board for its decision.

The amounts owing by the City of Toronto and the Hydro-Electric System are for debenture instalments falling due in 1924, and the early part of 1925.

Accounts Receivable—\$138,557.45

These are summarized on Schedule A.

Of this sum, \$48,209.36 is due from Water Consumers—principally for water bills for the last quarter of the year and for Water Service connections.

In order to avoid delay in proceeding with the erection of a school building, the Township issued its notes for \$60,000.00 to the School Section to enable it to finance until the debentures should be sold.

\$754.86 represents amounts owing from taxpayers for sewer rentals.

\$1,181.70 represents amounts expended on behalf of the Fire Areas, in excess of the levies made, and should be included in the next levy.

The sundry accounts, \$27,488.03 are summarized on Schedule A.

Stores (Maintenance) on Hand—\$26,468.63

See Summary on Schedule A.

Your Engineer and your Treasurer have certified that the inventories of Maintenance Stores were taken under their supervision at 31st December, 1925, and that the quantities are correct and are priced at not more than cost, with proper allowances for all old and depreciated stock.

Cash on Hand—\$515.00

The cash on hand was verified by count on 31st December, 1925.

Trust Account—\$68,473.11

We have examined the securities representing the investments of the School Trust Fund moneys, which are in the custody of the Treasurer, and have found them in order. Your bankers confirm the balances in the several trust Bank Accounts.

LIABILITIES

Capital Account Liabilities

Debentures Outstanding—\$7,665,990.17

A schedule of these is attached, giving full particulars of the various issues and the amounts still to be retired.

Debentures were sold during 1925 amounting to \$1,092,801.21, all of which were issued in connection with Capital commitments.

The particulars are as follows:

Purpose of Issue	Amount	Annual Payment
Schools	\$ 39,000.00	\$ 4,155.30
Local Improvements	53,801.21	7,201.26
Street Railway	500,000.00	48,171.15
Trunk Sewers	500,000.00	32,525.72
	<hr/>	<hr/>
	\$1,092,801.21	\$92,053.43

New Capital commitments, amounting to \$8,875.07, were entered into during 1925 and the Debentures sold, but the proceeds had not been received at the date of this Balance Sheet.

Amounts borrowed on Demand Notes for Local Improvements under Construction	\$3,823,859.13
Overdraft in Construction Bank Accounts	13,051.63
	<hr/>
	\$3,836,910.76
Accounts Payable on Construction	111,655.35
Amounts Owing Contractors	45,351.68
	<hr/>
	\$3,993,917.79

As previously explained, the construction of local improvements is temporarily financed by borrowing from your Bankers the necessary funds until such times as debenture issues can be made and sold. Your bankers have confirmed by certificate the total amount of these advances, as shown in the statement and also the current overdraft.

The amounts owing to contractors represent holdbacks awaiting the completion of the work and final certificates from your Engineer and are confirmed by him.

**Provincial Treasurer for Advances to Housing Commission—
\$377,118.77**

This represents the amounts advanced by the Provincial Government for the purposes of the Housing Commission, less such sums as have been repaid out of the instalments collected from the purchasers. The balance shown has been confirmed by certificate from the Provincial Treasurer.

Hydro-Electric Accounts Payable—\$22,469.50

These represent unpaid accounts on expenditures for the Hydro-Electric System.

Sundry Balances re Completed Local Improvements—\$52,995.84

In our previous reports, we drew attention to the fact that the completed cost of certain Local Improvements had been less than the amount received for the debentures issued in connection therewith, and, on the other hand, in certain instances the costs had been in excess, and we suggest that, in view of the amounts involved, some decision should be reached as to what disposition should be made of these differences. Up to the present, no decision has been made and consequently the **net** amount of the differences, together with the premium on Local Improvement Debentures sold is shown in suspense in the above sum of \$52,995.84.

Revenue Account Liabilities

Balances at Credit of School Sections—\$201,845.24

The Trustees in the different school sections make requisition upon the Township for the estimated amount of their requirements for each year, and this sum, together with the maturing instalments of debentures previously issued for the school sections, is included in the School Purposes levy for the year. The amounts of these requisitions are placed upon the Township's books to the credit of the respective school sections, and against these credits are charged the various advances made in cash during the year. These funds are furnished to the school sections without having regard to whether or not the taxpayers in these sections had, by paying their taxes, put the Township in possession of the funds required, and it is evident from the amount of taxes in arrears that to many of the school sections the Township has advanced funds before they were collected from the taxpayers.

We recommend that records should be kept in such a way as at all times to show the extent to which the different school sections have furnished, through the payment of their taxes, the funds required for the purposes of the School Trustees.

The balances shown at the credit of School Sections do not, therefore, represent funds which have been collected and not yet paid over, but merely the difference between the assessments levied in these sections and the advances which have been made to 31st December, 1925.

Accounts Payable—\$263,599.17

Your Treasurer has certified that all liabilities of the Municipality incurred to 31st December, 1925, have been included in these accounts.

Amounts Levied to Cover Accruals—\$675,312.61

Following the practice which has been in use for a number of years, there is included in the current year's levy an amount sufficient to cover the debenture instalments of principal and interest falling due in the early part of the next following year. The above amount represents the 1926 instalments thus provided for in the 1925 levy. (See Statement of Debenture Debt.)

Canadian Bank of Commerce—Demand Loan	\$625,000.00	
Less—Amount on Deposit	35,372.27	
		\$589,627.73

This has been confirmed by certificate from your bankers. As already stated, \$535,061.47 of this amount was at 31st December, 1925, employed for Capital Account expenditures pending the sale of debentures, etc., leaving the balance available for Revenue Account purposes until the current year's taxes should be levied and collected.

Sundry Balances—\$28,790.46

These are summarized on Schedule 3 and are self-explanatory, with the exception of \$7,770.74 reserve for contingencies previously referred to as provided against possible losses in collections of arrears of taxes and \$1,190.64 balance of the reserve provided to cover the 1921 cash shortages.

Trust Account Liabilities—\$68,473.11

The special fund from the sale of church lands is, we understand, to be permanently invested and the interest used for the benefit of the various school sections.

The surpluses from the sale of lands for taxes amount to \$27,586.35 and are repayable upon demand to the owners whose lands were sold. Interest accumulated on these surpluses amounted at 31st December, 1925, to \$10,931.42, and some decision should be reached as to whether the owners whose lands were sold have any right to participate in such interest.

Russell Brick Company Deposit—\$3,000.00

This amount was received during the year 1924 from the Russell Brick Company as a guarantee in connection with a contract for the supply of sewer pipe to the Township. Your Treasurer informs us that this deposit is to remain in the Township for twenty years, and then to be returned to the Russell Brick Company with interest, which is being credited yearly.

**GENERAL REVENUE AND EXPENDITURE ACCOUNTS
FOR THE YEAR 1925**

A statement is attached showing the general revenue receipts and expenditures duly classified.

Of the total tax levy for 1925, amounting to \$1,407,720.92, \$1,109,261.88 was levied for the County of York, for school districts, for local improvements and for capital construction, leaving \$298,459.04 and the dog taxes, licenses and sundry other revenue available to cover the revenue expenditures for the year as estimated.

The Revenue and Expenditure Account for the year shows a deficit amounting to \$51,624.56. This appears to be due largely to certain expenditures having very considerably exceeded the 1925 estimates as cut down by Council. The following are submitted as the most serious cases:

Road Department—Actual Expenditure.....	\$178,197.81	
Road Department—Estimated Expenditure.....	160,000.00	
		\$18,197.81
High School Tuition—Actual Expenditure.....	\$28,000.00	
High School Tuition—Estimated Expenditure.....	12,000.00	
		16,000.00
County of York levy was underestimated by.....		26,000.00
		<u>\$60,197.81</u>

Surplus Account

A statement of the Surplus Account is attached and is divided into two sections to show the general surplus as distinct from the Waterworks Department Surplus. This statement is self explanatory.

WATERWORKS DEPARTMENT

A separate statement of the revenue and expenditure of this department is attached showing a surplus for the year of \$7,243.34.

By-Laws and Minutes of Council

We have examined the By-Laws of the Municipality and the Minutes of the Meetings of the Council and have found them to be well recorded. All expenditures made during the year have been properly covered by By-Laws.

Employees' Bonds

These have been examined by us and consist of the following:—
