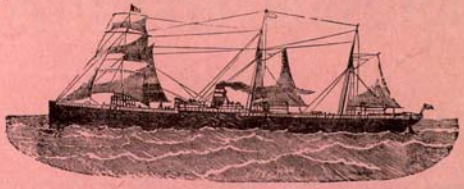
DOMINION LINE

Royal Mail Steamships.



Sailing between **Quebec and Liverpool** in summer, and **Portland, Me., Halifax** and **Liverpool** in winter.

These steamers are all of the highest class, full powered, and Clyde built in water tight compartments, and are commanded by men of large experience and thoroughly acquainted with the route.

The salons, state rooms, music room, smoking room. and bath rooms, are amidships where but little motion is felt, and are handsomely and luxuriously furnished.

The route via the St. Lawrence is the most pleasant and comfortable for intending travellers, three days of it being spent in the comparatively smooth waters of the River and Gulf, with their magnificent scenery.

Rates of passage from Quebec or Portland, cabin, $50 to $80, according to steamer and accommodation; second cabin, $30. Steerage at lowest rates.

ROYAL INSURANCE COMPANY

ASSETS, $29,110,000.

JOHN MAUGHAN, JOHN KAY, A. F. BANKS, } General Agents for Toronto and County of York.

Permanent Exhibition of Manufactures.

63, 65, 67, 69 Front Street West.

A special Exhibition Building located in the heart of the business portion of the city, is being erected for us, and is expected to be ready for occupation early this year. The structure will be a very handsome one, with a frontage of 92 feet on Front Street (nearly opposite the Queen's Hotel), by a depth of 105 feet, and is specially designed to answer the purpose for which it is intended.

Some of the advantages likely to accrue to manufacturers exhibiting may be briefly summed up as follows:

1. The Exhibition will be free to all, and open throughout the year.
2. It will afford all the advantages of a Toronto branch establishment at a very moderate cost.
3. Exhibits will be seen by large numbers of business men who would not be apt to visit a private branch office, unless on special business.
4. The Exhibition will be extensively advertised and made very attractive, and as almost every variety of machinery and manufactured goods will be on view, under the same roof, it will certainly become an important mercantile exchange.
5. Competent salesmen will be in charge for the purpose of explaining the merits of each exhibit to interested visitors.
6. Exhibitors can either appoint us selling agents, or have their own representatives in charge. In the former case, every endeavor will be made to establish a profitable trade.
7. Exhibitors can have printed on their office stationery, "*When in Toronto call and see samples of our goods at Permanent Exhibition of Manufactures.*" This may afford prospective purchasers an opportunity of personally inspecting goods, who might not otherwise visit outside towns for that purpose.
8. Machinery can be shown in motion, as shafting and power will be provided.
9. Office and lavatory accommodation, and sanitary conveniences, will be provided for the convenience of exhibitors and their agents.
10. Telegraph Office, News Depot, etc., etc., will be in the building.

Directions and Instructions for Telegraphing Fire Alarms.—Keys are left with the occupants of buildings in the vicinity of each fire alarm box. The members of the police force also possess keys. The following will be observed when a fire is discovered:—Go to the box, open the door and pull the hook down as far as it will go, firmly and without jerking, and let it slide back; if the alarm is not immediately heard upon the small bell within, or upon the tower bells, go to the next nearest box and repeat the operation. Key holders are cautioned not to open the box except in case of fire; to not give an alarm till certain of a fire; to not give an alarm for a fire seen at a distance; to pull down the hook but once in giving an alarm; to not let the key go out of their possession except when demanded by proper authority.

HIGH SCHOOLS OF ONTARIO.

Each of these schools (which form the Intermediate link between the Public Schools and the Universities), is managed by a board of Trustees appointed jointly by the county and town councils. In cities the trustees are all appointed by the city council, except where there is only one school in the county. The head master must be a graduate of a British or Colonial University, and obtain a certificate of fitness from the Education Department. Besides fees, local rates or contributions to the extent of the Government grant must be raised.

An extra grant is provided for masters taking certain meteorological observations, and giving preparatory scientific military instruction. Pupils attending these schools are prepared for matriculation in the Universities.
