SILVER ACORN.

A new stove, with very long, wide fire chamber, and door in both ends; central draft, large improved sliding hearth, seven inch pipe collars, large, high ovens, nickel trimmings, nickel towel bar, sectional fire backs, hot air flue for ventilating oven, polished edges, reversible automatic oven shelves, either base or legs. Large reservoir heated from the bottom.

The Silver Acorn can be furnished with six holes and nickel plated copper reservoir, the same as the Prize Acorn.
