## To-day the British and Foreign Bible Society enters upon its Second Century

---

During the past Century it has given a translation of the Scriptures, wholly or partially, in 370 different languages.

It has circulated over 186,000,000 copies of these translations.

It has expended \$68,040,000 in this work.

It has kept its doors open to the missionary organization of every denomination, and supplied Bibles wherever called upon for a supply.

During the next Century it aims to translate the Scriptures into every language in which their message has not yet been heard.

To furnish a Bible to every man in his own mother tongue.

To keep pace with the ever-increasing demand for the Scriptures caused by the activity of missionary organizations.

Your Membership fee of One Dollar a year will help to attain these objects.

Toronto's contribution of \$10,000 this year will show her interest. Please use the envelope for your contribution, enclosed or promised, to-night.
