DIRECTIONS FOR USE OF GRAY'S BALM

BRONCHITIS AND INFLUENZA:

Massage the chest and back, insert a small portion in the nostrils. Also vapourise a piece about twice the size of a pea, by placing it in a cup of boiling water and inhale through a paper funnel. Another simple, quick, and effective method of using Gray's Balm is to place a small portion in a tea spoon and heat it over a stove or match, then inhale the vapour. This is most effective in the treatment of head, throat, nasal and chest troubles. To enhance the speed of treatment, use hot compresses on the chest and back before applying Gray's Balm.

ASTHMA:

As for Bronchitis. This will give speedy relief.

NEURALGIA, TOOTHACHE AND EARACHE:

Massage parts affected and insert a small portion of Gray's Balm in the ear and nostrils. Relief is invariably obtained within three minutes.

COLDS:

If in the head, insert a little in the nostrils, massage the throat and behind the ears and take the vapour treatment. For children under one year, massage behind the ears, throat, spine, armpits and soles of the feet. If on the chest treat as for Bronchitis.

RHEUMATISM:

Apply Gray's Balm thickly over the parts affected and massage until it is absorbed by the skin; again apply the Balm thickly and wrap in flannel. Repeat this treatment every four hours, or more often if found necessary. More speedy relief will be obtained by the use of hot compresses before using the Balm.

MUMPS:

Insert Gray's Balm in the nostrils, and in the ears. Place a piece about half the size of a pea on the back of tongue, every four hours. Apply Balm to parts affected and massage, again apply Balm thickly and wrap neck in flannel, repeat frequently.

NASAL CATARRH, AND SINUS TROUBLE:

Insert a little in the nostrils and sniff until it is drawn through the nasal passage. Massage the nose, and behind the ears. When the mucous is dissolved, blow the nose gently and repeat the treatment frequently. Douche the nose with about one-sixth teaspoonful of salt to a tumbler of luke warm water before retiring. The vapour treatment is also helpful.

HAY FEVER:

Insert Gray's Balm in the nostrils and sniff until it is drawn through the nasal passage. Massage nose and forehead and place a little on eyelids, also take the vapour treatment.

PILES OR HEMORROIDS:

Sit in a hot bath, using and inserting pure castile soap, then massage with and insert Gray's Balm. Wonderful relief from pain and swelling will be quickly obtained. Take this treatment at least every night and use Gray's Balm after each stool.

SORE THROAT, TONSILITIS, LARYNGITIS:

Massage throat and behind the ears. Insert Gray's Balm in the nostrils. Place a piece about half the size of a pea on the back of tongue every four hours. Take vapour treatment.

CROUP:

As in sore throat. Give the vapour treatment frequently.

WHOOPIING COUGH:

Massage the chest, back, throat, behind the ears, armpits, and for children under one year the soles of the feet and spine. Give either of the vapour treatments frequently.

CUTS, SORES, BRUISES, ECZEMA, IMPETIGO, etc.:

Apply as with any ointment. Change the dressing frequently.

ANIMAL BITES:

From such as a fox or muskrat, etc. Apply Gray's Balm as to any sore. Change the dressing frequently. If bitten by a dog see a doctor.

FROST BITES:

Massage with Gray's Balm, then apply thickly and bandage.

BURNS AND SCALDS:

Apply Gray's Balm lightly but thickly, cover with usual dressing. Repeat this after the first hour and later as required. Amazing results have been obtained by this simple treatment. If applied immediately very seldom will a scar remain, therefore it is a wise precaution to keep a jar of Gray's Balm handy, especially where there are children.

CHILBLAINS, BURNING, TIRED or ACHING FEET:

Bathe in warm water and massage with Gray's Balm.

MOSQUITO, BLACK FLY AND OTHER INSECT BITES, BEE OR WASP STINGS, HIVES, IVY, OAK AND OTHER PLANT POISONING, RASHES AND CHAFING:

Apply Gray's Balm lightly and thickly.

PRICKLY HEAT, ITCHING AND DRY SKIN:

Apply Gray's Balm, and allow the skin to absorb it.

SPRAINS:

Massage with Gray's Balm, then apply thickly and bandage. Repeat after four hours.

STYS, SORE EYELIDS AND CONJUNCTIVITIS:

Apply Gray's Balm lightly over the eyelids. This also cleanses the eyes by causing them to water freely. Keep the eyes closed during this treatment.

BOILS AND CARBUNCLES:

Cleanse with warm water and apply Gray's Balm thickly every four hours. Use ordinary dressing. To greatly enhance speed of treatment use hot compresses before applying Balm.

SUNBURN AND WINDBURN:

Apply Gray's Balm lightly and thickly, and allow it to be absorbed by the skin. May be used before exposure to the sun or wind as a preventative.

CHAPPED HANDS:

Wash the hands with warm water, dry well, and massage with Gray's Balm.

DANDRUFF AND IRRITATION OF THE SCALP:

Massage the scalp with finger tips, apply hot towels, then rub Gray's Balm well in and follow with shampoo.

AFTER SHAVING:

Apply a very small quantity of Gray's Balm and massage lightly, this will be found very soothing and healing especially after using hot towels. It makes the skin soft and prevents infection. Bad rashes will usually disappear within a few days,
