

Sir:—

We beg to inform you that we are now prepared to supply the several Municipalities with the Rolls for Collection of Taxes, as hitherto supplied by the late Hugh Selbie; and shall have much pleasure in furnishing your Municipality therewith, on the same terms.

Each Sheet contains lines for fifty names, or twelve hundred to each quire.

It is our intention always to have on hand the various Forms required by Municipal Officers, in the discharge of their functions, and by care, attention, and promptitude, to secure the patronage of our friends. Subjoined are some of the Forms now on hand:

We have now in the Press, "The Municipal Officers' Ready Reckoner," a Publication intended to supply a want long felt by Township and County Clerks, in apportioning the several Assessments. This Work will show at one glance the amount to be raised or collected, on any sum from £1 to £100,000, at from One-Sixteenth of a Penny to Five Shillings. The Work will be clearly printed on good paper, and substantially bound.

An entirely new and revised Edition of the Municipal Manual is also now in progress, and will be issued as soon after the close of the next Session of Parliament as possible.

We are, Sir, yours respectfully,
