

The undersigned Practitioners, in the City of Toronto, considering the changes made in the nature of Agency business by Legislative enactments, by which the chief and most lucrative part of that business has ceased whilst the special matters alone remain; considering also that special Pleas, Summons, and Orders are usually necessarily drawn up by themselves, and that the present charges in agency matters, are not sufficiently remunerative, have resolved that for the future the following charges will be made for the matters to which they respectively relate, that is,

The full charge on every attendance, notice, and copy, and on every Special Plea, Plea, or Order not drawn up by the Clerk in Court or Chambers.

In Inferior Jurisdiction Suits the same charges will be made as in Queen's Bench Suits, and as respects other special matters the same charges will be made as usual heretofore.

Dated 10th March, 1855.
