

TABLES

FOR CONVERTING

DEALS, PLANKS AND STAVES,

INTO QUEBEC STANDARD,

BY

MAXFIELD SHEPPARD.

QUEBEC:

**P. SINCLAIR, BOOKSELLER AND STATIONER,
SAVINGS' BANK BLOCK,**

St. John Street.

1859.

Entered according to Act of the Provincial Legislature for the protection of Copyrights, in the year one thousand eight hundred and fifty-nine, by M. Sheppard, Quebec, in the office of the Registrar of the Province of Canada.

ST. MICHEL & DARVEAU,

JOB PRINTERS,

No. 11, Mountain Street.

PREFACE.

Deals and Planks have of late years been manufactured into a great variety of lengths and breadths, rendering it desirable that Tables should be compiled shewing the equivalents in Quebec Standard, in order to save the time and labour of the computation and to facilitate the work of those whose business it is to make out specifications; with this view the following Tables have been prepared.—On examination it will be found that about three-fourths of the calculations have never before been in print. At page 175 is a Table designed for use in the additions of long specifications enabling one to feel satisfied that he has not fallen into error in reducing the parts to standard.—At the end are Tables shewing the equivalent rates for sawn Lumber in Petersburg Standard, Quebec Standard and Board measure. Extreme care has been taken in the preparation of the work, and the compiler feels confident that it will be found free from error.

1 Quebec Standard Deal contains 2 feet 3 inches, and 6 parts cubic.

100 Quebec Standard Deals contain 229 feet 2 inches cubic, or $4\frac{29}{60}$ loads—or 2750 feet board measure.

240 Quebec Standard are equal to 11 loads.

To convert Quebec Standard into Petersburg Standard, add $\frac{2}{3}$ rds of the quantity, and divide the sum by 120, and the remainder by 30.

The Petersburg Standard hundred, being 120 pieces, of 12 feet by 11 inches by $1\frac{1}{2}$ inch, and the Quebec Standard hundred, 100 pieces of 12 feet by 11 inches by $2\frac{1}{2}$ inches.

100 Quebec Standard Deals are equal to 1 Hd. 1 Qr. 16 Pcs. of Petersburg Standard.

1 Petersburg Standard Hundred is equal to 72 Quebec Standard.

1 Petersburg Standard hundred contains $3\frac{3}{5}$ loads.

Table Showing the equivalent prices of Sawn lumber per Quebec Standard and per Thousand feet, board measure.

NOTE.

At the request of the Printer this note is added, to explain, that after part of the work had gone through the press, the compiler considered it desirable to introduce four pages, whereby the regular order of the paging was at that place interrupted ; a matter however of but little importance in a book of tables.
