OF CANADA 1895-6-7.

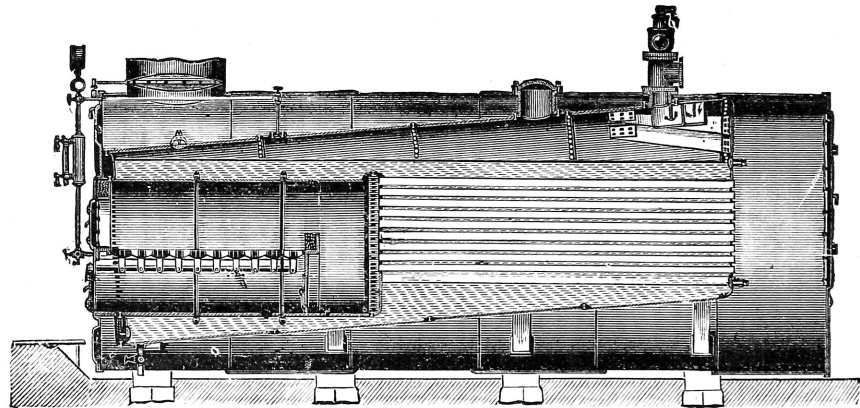

# ROBB-ARMSTRONG AUTOMATIC ENGINES

Simple, Tandem and Cross Compound

CORRECT DESIGN, BEST MATERIALS, HIGH GRADE WORK.

## THE MONARCH ECONOMIC BOILER

Requires No Brickwork.

And is guaranteed to save at least ten per cent. in fuel over any brickset boiler. In some cases the saving has been as high as thirty per cent.

Robb Engineering Co., Ltd.,

Amherst, N.S.

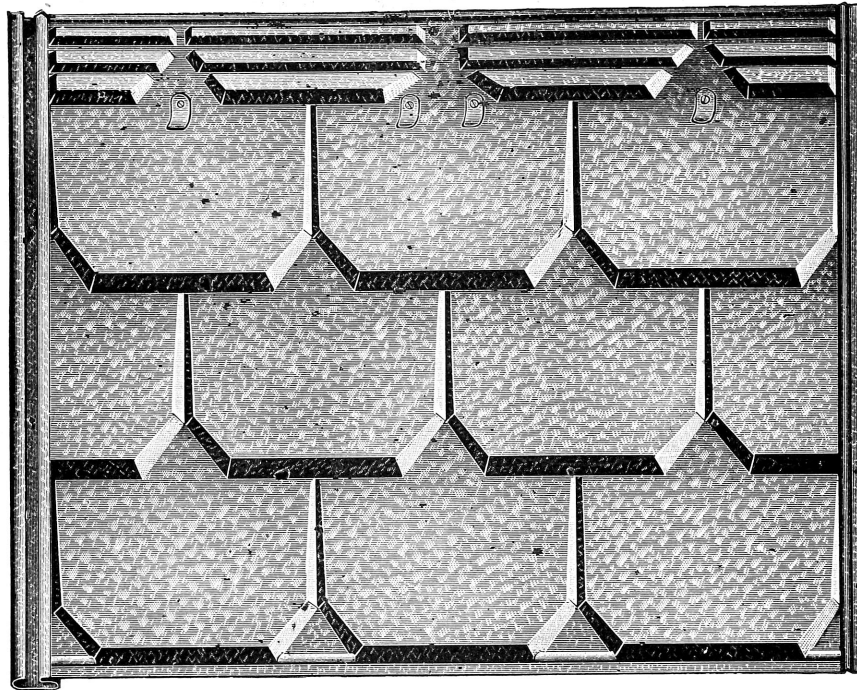

# Eastlake Steel Shingles

*Fire and Lightning Proof.*

*Durable, Ornamental and Cheap.*

**CAN BE APPLIED BY ANY ONE.**

**WE ALSO MANUFACTURE:**

- |  |   |
|--|---|
| <b>Corrugated Iron, V Crimped Roofing,</b>   | <b>Ornamental Roof Cresting,</b>                        |
| <b>Standing Seam Roofing,</b>                | <b>Octagon Conductor Pipe,</b>                          |
| <b>Empire Steel Shingles,</b>                | <b>Corrugated Expans'n Conductor Pipes</b>              |
| <b>Eureka Diamond Tiles,</b>                 | . . . 10 Feet Long without a Cross Joint.               |
| <b>Spanish Tiles, Copper Tiles,</b>          | <b>Hayes' Patent Steel Lathing,</b>                     |
| <b>Sheet Steel Pressed Brick,</b>            | . The finest article for plastering on ever invented.   |
| <b>Rock Faced Steel and Elevator Sidings</b> | <b>Ornamental Embossed Steel Ceiling,</b>               |
| <b>Fire Proof Shutters and Doors,</b>        | And other Fireproof Building Material in great variety. |

THE SHIPPING  
MANUFACTURERS' LIST  
A  
BUYERS' AND SELLERS' GUIDE  
TO THE  
Manufacturers and Products of Canada.

THE MANUFACTURERS' LIST CO.  
PUBLISHERS  
MONTREAL.

Entered, according to Act of Parliament of Canada, in the year eighteen hundred and ninety-five, by the  
MANUFACTURERS' LIST CO., Montreal,  
in the Office of the Minister of Agriculture.

# Clippings from "Mail"

Monday April 12th PREFACE.

Your correspondent wired The Mail and Empire some time ago, advising holders of Elise stock not to dispose of their holdings in this company for less than ten cents per share, on account of a reorganization of this company being in progress, and I had inside information that the new company's treasury stock was to be put on the market at about that price. I am pleased to report that the Board of Directors held a meeting on April 1st, when five members of the committee resigned. The resignations being accepted, the board proceeded to fill the vacancies thus occasioned by electing in the place of those who resigned Messrs. E. L. Clarke, J. L. Whitney, E. W. Bouche, and Dr. D. Campbell. Mr. E. L. Clarke was elected president in place of Mr. Geo. Fraser, and Mr. E. W. Bouche as manager, but without salary. The new management, which has now taken formal control, closed the deal they made one month ago. Work has been resumed, and a shift of men kept going night and day. The shaft has been sunk to a depth of fifty feet, from which a drift of about thirty feet has been driven along the vein, and from this vein fifty to seventy-five tons of ore has already been taken; this is a showing that has never yet been equalled by any other gold mine in British Columbia. A steam pump is now in the course of construction on the property, and the work towards developing this mine is being pushed forward as quickly as possible. Ore shipments will be made as soon as ever the roads permit of travelling.

sometimes arbitrary.

It was the intention of the publisher to issue this work every two years, but the condition of the Manufacturing Industries in this country is so healthy that the few changes likely to occur within the next three years will not warrant another issue before January 1st, 1899.

The Elise Company yesterday sent out a full crew of men to begin working a double shift on the property. The water is all pumped out, and the shaft ready for sinking. A contract was let yesterday by the

to thank the Manufacturers for their continued confidence in which promises that the edition of 1899, shall be handled with increased vigour, and a firm determination to eclipse all former editions in representing and advancing the interest of Canadian Manufacturers and the products of Canada in all the Markets of the World.

Tuesday April 27th - 97  
THE MANUFACTURERS' LIST CO.

MONTREAL, QUE.

The loose stock of the Elise is reported to have been pooled. Two extensions of the Elise have been bonded.

... NOTE ...

Always consult the Article Index for the article you want. And when you get the Manufacturers address in the body of the book be sure and look up his advertisement if he has a reference to one after his address as a great number of Manufacturers carry lines that they do not manufacture and therefore would not be Indexed for them, but may have embodied them in their advertisement.

This copy cost the owier Five Dollars and should not be LENT OUT.

THE MANUFACTURERS LIST CO.,  
MONTREAL.

# WHAT DOES A BUSINESS MAN WANT?

HE WANTS A . . . . .

## Double Liability Accident Policy

. . . IN THE . . .

D. PARKS FACKLER, of New York, *Consulting Actuary.*

### *The Double Maturity Policy*

of this Company is admirably adapted to all who desire to accumulate a fund for their future support at a time when it is most likely to be needed, namely, the age of 65 or earlier. The policy is issued without any restriction as regards residence, travel, or occupation. It is indisputable after one year, and the rates are the lowest of any endowment in the market. . . . .

# Above all Competitors!

Coal is money, why not save it by using the . . .

## T. J. C. INJECTOR

the most economical Boiler Feeder in the world.

**20** *per cent.* ↘

saved in coal over any other make; absolutely automatic; easily attached; applicable to all kinds of Boilers.

### **NOT EXPENSIVE.**

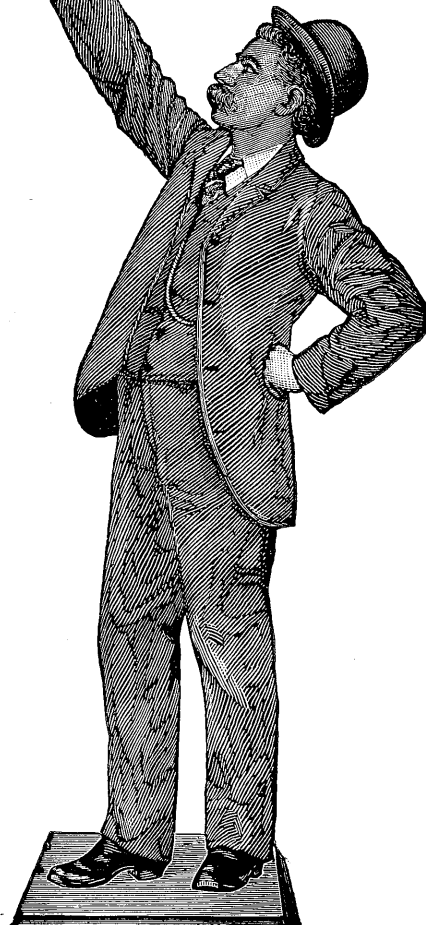

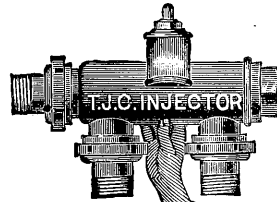

Will outwear any other make and is simple in construction. It is easy to operate, and is the most powerful feeder in the world.

THE

## T. J. C. INJECTOR

is the best because you cannot possibly go wrong with it. With high or low steam the result is equally satisfactory. It combines the utmost simplicity with perfect efficiency, and any boy can operate it.

Forgings, etc., etc.

... THE ...  
**BUFFALO**  
 ... HOT WATER HEATER ...

Adopted by the Dominion Government.  
 In use at Rideau Hall, Ottawa.  
 Custom House, Moncton, N.B.  
 And in Banks, Churches, Convents  
 And Hundreds of Dwellings. . . .

THIS Boiler has now been in use for four years, a period of trial sufficient to demonstrate all of its good points as well as its defects. We claim to have overcome any of the latter, as they have developed, and added many useful improvements, so that at the present time we confidently recommend it as the

**BEST AND MOST ECONOMICAL HEATER IN THE MARKET.**

One of its best points is the ease with which it is managed. It does not require an Engineer to run it. An intelligent domestic can manage it.

The  
**Aeolian Ventilator.**

(PATENTED MAY 26TH, 1894.)

Cut showing inside of Ventilator.

**W**E GUARANTEE our Ventilators to give perfect satisfaction wherever used. Manufactured and especially suitable for

**Public Buildings, Hotels, Churches, School Houses, Banks, Factories, Offices, Private Residences, etc., etc.**

**T**HIS VENTILATOR has proved itself to be superior to any that has been placed before the public. It has proved by the tests which have been made its adaptability for ventilating large buildings, closet rooms, vaults of churches, balk chimneys, schools, factories, stables, etc. It is fitted with a screw on the inside, by means of which a constant current of air is established. The chief feature of this Ventilator is that its motive power is derived not only from the slightest current of air, but the difference of temperature within and outside the building. Every Ventilator is guaranteed to give entire satisfaction. Testimonials obtained on application. This Ventilator is very ornamental in appearance and substantial in make. Estimates for Copper Ventilators given on application.

**SOME PLACES WHERE THE AEOLIAN VENTILATOR IS USED IN MONTREAL.**

Vessot's  
Grain . .  
Grinder,

BEST FEED MILL IN THE  
MARKET.

Was awarded First Prize, Provincial Exposition, Montreal, 1884; Hamilton, 1885. Diplomas at Sherbrooke, 1885, 1891, 1892 and 1895; at Ottawa, 1891 and 1892.

Gold Medal at the World's Fair, Chicago, 1893

We beg to call the attention of Farmers, Millers, etc., to our Improved Grain Grinders, which are giving the best of satisfaction wherever used.

Our Little Champion Grinder, especially adapted to be run by horse power, is sold at a very low figure.

Our Large Sized Grinders, for the use of Millers, etc., give great satisfaction. Will grind from twenty to fifty bushels per hour; do twice as much work with the same power required to run ordinary mill stones.

SATISFACTION GUARANTEED.

Over 1,500 of our grinders now in use in Dominion of Canada.

Are easily operated, do not require an expert to dress them.

ASK FOR CIRCULAR.

AGENTS WANTED

Our Specialties—Vessot's Grain Grinder and Vessot's Car Axle Lubricator.

## Why Windsor Salt is the Best:

The reason is that it is the only salt manufactured by the **VACUUM PROCESS** in Canada. This system makes a purer, finer salt, very even in crystal, and more readily dissolved than any salt made by the old process.

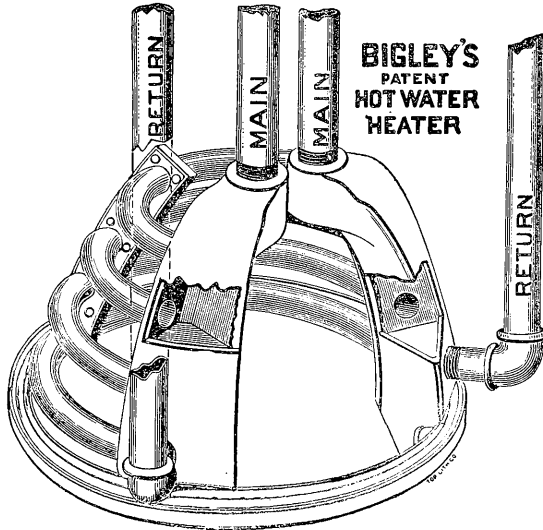

# Windsor Salt

Is shipped in car lots to any place in Canada.

We ship **ORDINARY FINE SALT** in barrels, 280 lbs. net, in 200 lb. and 50 lb. sacks. **TABLE SALT** in wooden boxes, square and round cardboard packages, and in all the ordinary sized cotton bags. **DAIRY SALT** in 20 lb. cotton bags, in 50 lb. and 200 lb. white duck sacks, and in paper lined barrels 280 lbs net. **CHEESE SALT** in 200 lb. white duck sacks and in paper lined barrels 280 lbs. net.

Our capacity is very large, and we can ship on the shortest notice. Prices, samples, or any information can be had by addressing

**The Windsor Salt Works, = Windsor, Ont.**

This Heater is specially made for Hot Air Furnaces to be used in combination heating, and adds  $\frac{2}{3}$  heating power to any Furnace.

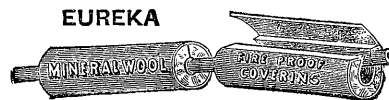

#### CAPACITY:

Capacity	Price
18 in. will heat 700 feet of 1 in. Pipe, =	\$19.00

◆◆◆ The Canadian Office and School Furniture Company, Ltd.

◆◆◆ PRESTON, Ont., Nov. 26, 1894,

◆◆◆ BERNARD LINDMAN, Esq., Toronto.

◆◆◆ DEAR Sir,—It is now about 3 months ago since I first noticed that a cure of my rupture was being effected by the use of one of your Wilkinson Trusses, and now I am fully convinced that the cure is both complete and effectual. I have on several occasions within the last few weeks taken long walks without truss or support of any kind, and have every confidence that my rupture, which, as you are aware, was of a very severe description, is now permanently healed, and I can assure you that I feel deeply thankful for the beneficial results. I have already recommended your appliances to several of my friends similarly affected.

◆◆◆ Yours very sincerely,

◆◆◆ J. H. MICKLER, Supt.

**THE DICKSON COMPANY**  
**OF PETERBOROUGH. LTD.**

HEAD OFFICE: PETERBOROUGH, ONT.

MILLS SITUATED AT  
PETERBOROUGH, LAKEFIELD & HARWOOD (RICE LAKE.)

THOS GEO HAZLITT, Pres. and Man. Dir

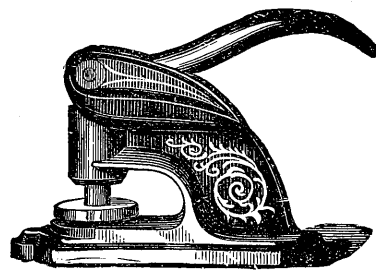

THIS Company owns extensive water powers in the thriving town of Peterborough and are prepared to grant leases to manufacturers on the most liberal terms. They will either rent power alone, or factories with power combined. Railway sidings run from the C.P.R. and G.T.R., respectively to the Company's water privileges, which are most conveniently located near the centre of the town.

The Lakefield water power is one of the best and most convenient of the many valuable privileges on the Otonabee River. It is situated on the Trent Valley Canal at the outflow of the Katchewanooka Lake, and at the terminus of the Lakefield Line, a portion of the Midland system, where it forms connection for carrying freight with the Grand Trunk Railway, whose sidings run into the various mill yards located at Lakefield.
