THE SHIPPING

MANUFACTURERS' LIST

A GUIDE

TO THE

MANUFACTURERS OF CANADA

AND THEIR PRODUCTS

M. J. HENRY

MONTREAL AND TORONTO

1893-4

Entered, according to Act of Parliament of Canada, in the year eighteen hundred and ninety-three, by
M. J. HENRY,
in the Office of the Minister of Agriculture.

DESBARATS & CO., Engravers and Printers, Montreal.

PREFACE.

IN offering the first edition of the SHIPPING MANUFACTURERS' LIST for the practical use of business men, the publisher desires to call attention to the necessity of always consulting the List of Articles, or Part I. of the book, for that is the key which unlocks the work. The Index being alphabetically arranged, any article desired can be easily found, and the number opposite such article refers to a corresponding number in Part II., under which will be found one or more manufacturers of the desired article. The object of this work is to give to buyers a detailed list of articles manufactured in the Dominion of Canada, and the address of manufacturers of such articles, who produce for more than local consumption, thus giving to the enquirer, not only a list of articles but also the names of manufacturers having a capacity for filling orders from any part of the world. The work has been necessarily laborious and the technical details were obtained, in some instances, at great sacrifice of time and labor, and the publisher takes this occasion to thank all those manufacturers who have kindly given information or more substantial aid to the success of the work, which is destined to become the standard representative of Canada's manufacturers, both at home and abroad.

M. J. HENRY,

Publisher,

MONTREAL AND TORONTO.

HAMILTON BRASS - MANUFACTURING CO.

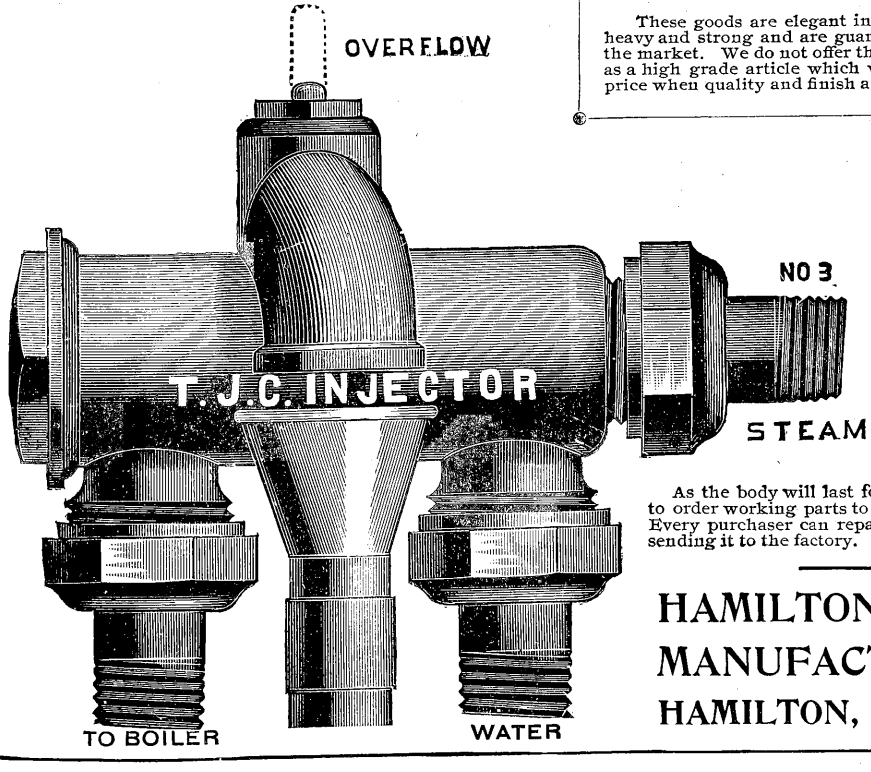

EAGLE.

MICHIGAN.

These goods are elegant in style and finish; are made heavy and strong and are guaranteed to be equal to any in the market. We do not offer them as a cheap lubricator but as a high grade article which we offer at a very moderate price when quality and finish are considered.

Our Proposition:

As every Injector is tested before it leaves the factory, we know that if properly connected (as in diagram in our catalogue) and instructions are carried out they cannot fail to work. We therefore offer to pay the expenses of any man to come to the factory, and $25.00 per day while there, if the Injector does not work, provided it has not been misused.

As the body will last for years, it is only necessary to order working parts to make Injector good as new. Every purchaser can repair his own Injector without sending it to the factory.

Patent adjustable Basin Stand, Patent Tanks, Washouts, Water Closets and other Sanitary appliances, Brass Goods, Plumbers', Steam-Fitters' and Gas-Fitters' Supplies.

TORONTO.

MALCOLM'S IMPROVED SANITARY BASIN.

Sewer Gas is the product of filth, and all drain pipes will give off an unhealthy and disagreeable odor. To prevent accident, plug basins have an overflow drain from the top of the basin that is open and foul. This great sanitary defect is entirely removed by a trap in my Improved Sanitary Basin that **overflows from the bottom of the basin,** as shown by the above cut. **It is the only thoroughly Sanitary Wash Basin in the market.**

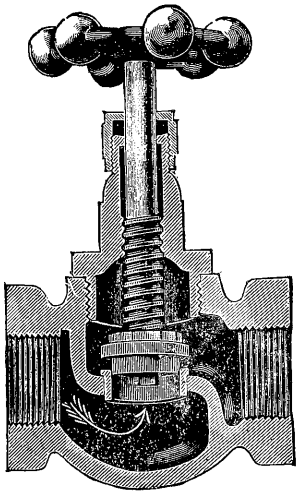

Comparison of costs between the old style and my Improved Sanitary Basins, viz :—

14 inch Basin	$1.50
Lead Trap	1.60
Basin Plug	.72
Lead Pipe,	.15
Solder	.80
Plumber's time	1.50
	$6.27
Malcolm's Improved Sanitary Basin	4.75
Difference in favor of " " "	$1.52

This shows greatly in favor of Malcolm's Improved Sanitary Wash Basin both from a sanitary and healthful standpoint as well as in the matter of dollars and cents.

MANUFACTURERS OF

Envelopes, Fancy Boxes,

Note Papers, Jewel Cases,

Etc., Etc.

= THIS Company was the first in the Dominion of Canada to manufacture Envelopes, in the city of Toronto, now the centre of the Envelope industry. From a small beginning the BARBER & ELLIS Co. has grown to be the largest producers of Envelopes in Canada, having a capacity, to-day, of over three-quarters of a million daily.

In Fancy Boxes they are making a line of goods that has heretofore been imported. Competent judges say they are equal and much cheaper than the foreign article.

Send for Samples and prices which shall always be promptly attended to.

OUR CELEBRATED PATENT SPADE HARROW,

THE BEST HARROW EVER INVENTED.

It is especially adapted and is superior to others for preparing Fall Plowing for seeding; for pulverizing hard clay lumps; for cutting up and pulverizing plowed sod; for cultivating corn, pea or other stubble; either for preparing for seed or for sprouting foul seeds, and for any hard or difficult soil to cultivate, where other Harrows have failed, the **SPADE** will do excellent work. It has 52 spades, 7 inches wide, set 2 inches apart, and cuts all the ground and distributes it evenly, leaving the land level.

VESSOT'S GRAIN GRINDER.

Awarded first prize Prov. Exp., Montreal, 1884; Hamilton, 1885; Diplomas at Sherbrooke, 1885, 1891 and 1892; at Ottawa, 1891.

We would call the attention of farmers and millers, generally, to our improved Grain Grinders. Our Little Champion Grinder is specially adapted to be run by horse power, and is sold at a very low figure. Our large sized Grinders, for the use of millers, etc., turn out from 20 to 50 bushels per hour, requiring only about half the power it takes to run the ordinary stone burrs. About 600 of our Grinders are now in use in Canada.

Our specialties are **Vessot's Grain Grinders,** and **Vessot's Car Axle Lubricator.** We also manufacture Steam Engines and Boilers, Saw Mill Machinery, etc., etc. Ask for circulars.

Gananoque

Dry Earth Closet

MANUFACTURED BY THE . . .

GANANOQUE GEAR CO.,
GANANOQUE, Ont.

THE DRY EARTH CLOSET has been in use and duly appreciated for years, but as hitherto presented was too large and somewhat cumbersome for an ordinary bedroom, and though a good thing where a room can be set apart for its use, (since the expense, from $15 to $30, is not objectionable) still a want has been felt for a small, cheap, compact, tasty arrangement for a bedroom that would not occupy too much room or show an unsightly appearance to mar the general furnishing or appearance of the room. And the object of the introdnction of this article, which can be moved from one room to another in case of sickness, is to fill this want.

WM. RAMSAY,

ORILLIA, ONTARIO,

SOLE MANUFACTURER IN CANADA OF THE

Mineola Road Carts.

The Public require no better guarantee that our **MINEOLA CARTS** are what we represent them to be, than the fact that five manufacturers in Canada alone, during 1893, pirated our designs, stole our ideas and placed on the market a cart similar in appearance to ours, sold it as the same as ours, almost the same as ours and used our name to sell their bogus, spurious and worthless imitations.

The **MINEOLA** is the only cart made without "Horse Motion." It rides easier than any four wheeled vehicle. The body swings in a cradle entirely independent of shafts and axle and from its peculiar build, which is covered with patents, an entire change has been made in the construction of Road Carts.

BY THE USE OF . .

THE WORLD RENOWNED

Star Boiler

Patented in Canada and the United States.

The STAR BOILER is the only reliable one in every case, and gives the highest satisfaction when all others have failed. Unequalled in finish, heating capacity and economy in fuel. The largest and finest buildings on the continent are being heated by the **Star Boiler**.

The STAR BOILER has a Syphon Injector, by the aid of which the circulation in the coils on the lower stories is increased by the speed of the circulation in the coils of the upper stories. This important invention, which we have patented, works admirably and gives great satisfaction.

Good Results

in advertising tell the story for shrewd advertisers better than big circulation claims or great promises.

A Good Newspaper
A Good Article
A Good Advertisement

This combination is sure to win; but the good newspaper must be more than tolerably good. It must be practical, clear, fresh, vigorous and reliable.

"LA MINERVE"

is not only all this but even more. It is the best and cheapest advertising medium in the Dominion. The acknowledged exponent and representative of the commercial and industrial interests of Montreal, and the only French morning daily in Canada.

Established 1826.
