· TOPAZ ·

· NOVEMBER ·

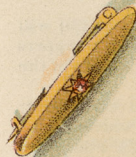

In spite of skies that are chilly and gray,
November's child is merry and gay.

NESTLÉ'S FOOD BABIES ARE ITS BEST ADVERTISEMENT.

Full of grace and blessed above all,
The child whose birth in December doth fall.

NESTLÉ'S FOOD IS THE STANDARD DIET FOR INFANTS.

BABY'S BIRTHDAY JEWEL.

Baby pins for fastening the bib, or pinning up the sleeves of the dress, are valued by all mothers. They are always useful as well as attractive.

We will send free of all charge a dainty baby pin of gold with the Roman finish, set with the birthday jewel of the baby, to any mother sending us the medals from 12 outside brown wrappers of NESTLÉ'S FOOD. Cut the row of medals from 12 wrappers, and enclose them in an envelope with a letter stating your name and address, and the month in which baby was born, so that we may send the appropriate jewel. A facsimile of the pin is shown on this page.

A Baby's Birthday Jewel Pin will be sent in exchange for 12 wrappers of the 50c. size, or 2 wrappers of the hospital size.

The Pin bears no advertisement; it is intended as a souvenir for the friends of NESTLÉ'S FOOD, by whom we have found it is appreciated.

We do not wish any mother to buy NESTLÉ'S FOOD simply to obtain this little pin. NESTLÉ'S FOOD stands on its own merits. It is of more value than a thousand baby pins. Your doctor will tell you that it is the standard diet for infants.

Address all letters in reference to NESTLÉ'S FOOD and Baby's Birthday Jewel Pin to

HENRI NESTLÉ,

73 WARREN STREET,
NEW YORK.

NOTE.—Not more than two jewel Pins can be sent to any one mother.

A FEW FACTS ABOUT NESTLÉ'S FOOD.

NESTLÉ'S FOOD is a complete and entire diet for babies, closely resembling mother's milk. Over all the world NESTLÉ'S FOOD has been recognized for more than thirty-five years as possessing great value as a protection against Cholera Infantum and all other forms of Summer complaints. Your physician will confirm this statement.

NESTLÉ'S FOOD is SAFE. It requires only the addition of water to prepare it for use. The great danger always attendant on the use of cow's milk is thus avoided. The prevalence of tuberculosis in cows, and the liability of cow's milk to convey the germs of disease, makes the use of milk for infants dangerous in the extreme.

NESTLÉ'S FOOD is nourishing. It

makes firm flesh, strong bone, and rosy cheeks. For good health, sweet temper, and sound sleep, give your baby NESTLÉ'S FOOD—morning, noon, and night—all the year round.

NESTLÉ'S FOOD is economical.

A can of NESTLÉ'S FOOD contains twice as much food as is contained in a package of others selling at the same price.

NESTLÉ'S FOOD is put up in hermetically sealed tins, and is sold by all druggists in two sizes: 1 lb. tins, 50c, and the hospital size, containing eight times as much as the 50c. size, \$3.25

Mothers who use NESTLÉ'S FOOD tell of healthy, strong, vigorous children—ask some of them—their experience is worth more to you than our tale of facts.

HENRI NESTLÉ,

73 WARREN ST., NEW YORK.
