SINGER service
in every city

Let Us Send You a Singer Machine For Free Trial!

BEWARE of purchasing machines from Department Stores or Dealers who advertise to sell SINGER machines, which invariably are defaced, with numbers mutilated or obliterated ; these machines are not new but have been used and fixed up to deceive the unwary buyer. They do not carry our guarantee and we will not be responsible for them.

Good Oil

Knowing from many years' experience the great importance of good oil, we sell an extra quality machine oil in small bottles, specially prepared for Sewing Machines and which is warranted NOT TO GUM.

Good Needles

You cannot expect to get the best stitching results from your Sewing Machine if it is fitted with an inferior needle.

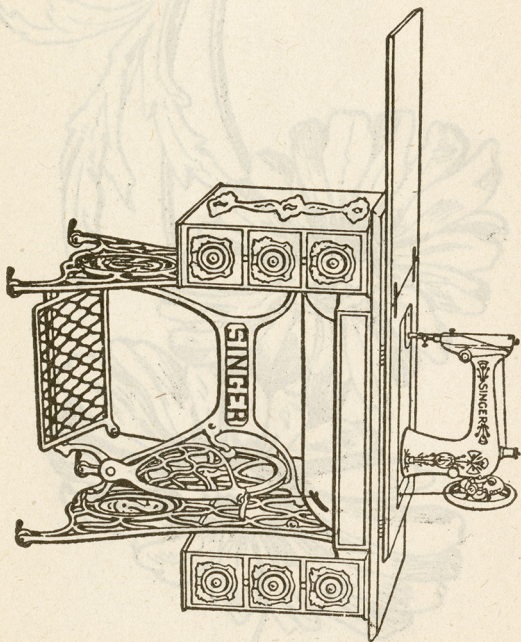

Genuine Singer Needles

are made for *Every Kind of Sewing Machine* whatever its name may be. Be sure to purchase needles from a Singer Shop or a Singer Salesman.

For the Little Girl

THE SINGER "20" makes an elastic chain stitch that does not unravel, if seam is locked at end as directed.

It has no shuttle and no bobbins to be wound.

There is no tension to be adjusted.

Any child above four years old can easily learn its use and it is at once a fascinating amusement and a means for instruction in an essential household art.
