

PERFECTLY WOUND.

GOOD FOR ALL TIME.

BROOK'S

MACHINE COTTON.

TRADE MARK.

THE GLACÉ COTTON

has a fine, silky appearance, the result of the peculiar manufacturing processes, and not a mere external gloss put on after the thread is finished, as is the case with the ordinary glazed threads in the market.

THE SOFT FINISH

thread is elegantly put up on black spools, the edges of which are beautifully polished. It is adapted to either hand sewing or machine use, and is used and recommended by several of the leading manufacturers of sewing machines.
