PIG BOOK

POURQUOI?

EVERY Pig has its day (even as a dog), and as there are many dog books, why not a Pig Book? We hasten to explain that a Pig Book is a book having reference to pigs. We give it this title because it sounds more polite than "Pigs I have met." As most people draw just as well with their eyes closed as open, the inflexible rule of the Pig Book is that the artist shall close his or her eyes, draw a pig on one of the pages, and lift the pencil before putting in (or out, as the case may be) the eye of the pig. The artist then signs in order to fix the responsibility. Some people can draw a pig, and most people think they can.

The line at the head of this page is for the use of the owner, so that the page may read "Mrs Porkington's Pig Book," or "Chanticleer Hall Pig Book"—so to speak, as the case may be.

There was an old woman, as I've heard tell,
She went to market her pigs for to sell;
There came a pedlar whose name was Stout,
He cut her petticoats round about:
He cut her petticoats up to her knees,
Which made the old woman to shiver and sneeze.

SCHOOLBOY'S ESSAY ON PIGS.

A pig when living has four legs, but when you kill it the butcher says it only has two, because he calls the front legs shoulders, and the back legs are called hams. Ham tastes nice, and they boil it to eat at a wedding. The missus sprinkles little bits of toast on it to make it look pretty.

"Science can analyse a pork chop, and say how much of it is phosphorus and how much is protein; but science cannot analyse any man's wish for a pork chop, and say how much of it is hunger, how much custom, how much nervous fancy, how much a haunting love of the beautiful. The man's desire for the pork chop remains literally as mystical and ethereal as his desire for heaven."
