AT tired feeling, so prevalent at this season, is overcome by Hood's Sarsaparilla which gives a feeling of strength and confidence in one's self which is comforting and satisfying. Hood's Sarsaparilla does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but possessing just those elements which the system needs and readily seizes, it builds up in a perfectly natural way, all the weakened parts, acts upon the blood as purifier and vitalizer, assists to healthy action those important organs, the kidneys and liver, and in truth "makes the weak strong." It is of special value in imparting strength after severe illness when a good

tonic is needed.

Two Points

FIRST. This little book gives
limited opportunity to tell you what
Hood's Sarsaparilla is and what it has done, but
to any readers who would like further information we
shall be pleased to write or send other books containing
statements of cures, from reliable persons.

SECOND. If you decide, from what you have heard or read about Hood's Sarsaparilla, that you would like to try this medicine, do not be induced to purchase anything else instead. Efforts to sell other preparations when Hood's Sarsaparilla is called for are prompted by the larger profit which will be made on the substitute. Such efforts are not honorable and ought to be discouraged by all who are willing to see a business rely for success upon its own merits. Therefore we ask only what is fair when we say, If you call for Hood's Sarsaparilla, insist upon having it.
