INTRODUCTION.

HE "CABINET-MAKERS' PATTERN BOOK," First Series, was issued in response to a large demand on the part of the Retail Cabinet Trade for a reliable work, which should give Examples of improved Furniture as designed for and manufactured by the leading Makers, and be, in fact, an index to the gradual advancement of Art Education in this branch of industry from year to year.

The stock of the First Series is quite exhausted, and but a few copies of the Second Series remain. It has therefore been thought desirable to issue a Third Series, in a larger and improved form. The present Volume will be found to contain some Eighty Original Drawings of Modern Furniture, both varied and comprehensive in character, by first-rate Artists, comprising Furniture for the Hall, Library, Dining, Drawing, and Bed Rooms, and it is hoped it may prove a useful and suggestive work to place in the hands of Buyers when engaged in the all-important business of furnishing their Houses.
