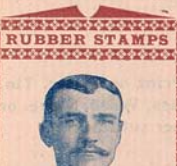
RUBBER STAMPS



....PRINTING....

RUBBER ...STAMPS

THE first operation in making a RUBBER STAMP is to set the desired matter up in type, the same as for printing, then an impression is taken in a prepared moulding compound, and the Rubber Stamp cast in the mould. As upon the setting of the type depends the style, beauty and excellence of the stamp, you will see that with the large variety of type, and experience in handling the same, the best stamps should be made by a Printer.
