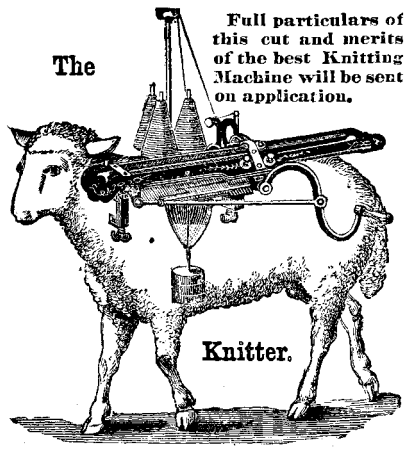
THE IMPROVED LAMB'S KNITTING MACHINE.

In capacity to knit different sizes of work, ONE Lamb is equal to all other Knitting Machines combined. The standard of excellence of all Knit Goods is that made by hand. Therefore it is required of a first-class Knitting Machine to produce a stocking, glove, scarf, or other article, as perfect as the hand-knit article, and in the shortest possible time.



Full particulars of this cut and merits of the best Knitting Machine will be sent on application.

Both as a Family and Manufacturing Machine, the Lamb has won the Highest Prizes for twelve years. At the great Vienna and Cincinnati Expositions it was awarded Four First Prize Medals, two for the Machine, one for its Hosiery, and one for its Fancy Knit Goods.

KNITS OVER 20 GARMENTS.

Knits Hosiery, Gloves and Mittens of all sizes, complete.

"THE BEST IS THE CHEAPEST."

To knit all sizes of Stockings, Gloves and Mittens, and shape and complete them by narrowing and widening, a machine is required in which (as in the Lamb) any number of needles or stitches can be set up at the start, and be increased or diminished at will. But in all Circular Machines the number of needles in the cylinder is fixed and unchangeable, each cylinder producing but one size of work, without either narrowing or widening it. Hence the ABILITY of the Lamb Machine, and the INABILITY of every Circular Machine, to shape or complete a Glove, a Mitten, or a Lady's or Misses' Stocking, or to knit them in all sizes.

IT IS THE ONLY MACHINE

That knits hosiery or tubular work of all sizes.
That narrows and widens on hosiery or tubular work.
That knits a regular, right-angled heel, such as is knit by hand.
That narrows off the toe.
That knits a sock or stocking complete.
That knits mittens and gloves of any size without a seam.
That forms genuine Ribbed or Seamed work.
That knits the Double, Flat, or Fancy webs.
That knits an elastic seamed-stitch Suspender with button-holes.
That knits the Afghan stitch, Cardigan Jacket stitch, Fancy Ribbed stitch, the Raised Plaid stitch, the Nubia stitch, Shell stitch, Unique stitch, Tidy stitch, etc., etc.

It is now the Standard Machine for Manufacturing, and the ONLY FAMILY KNITTER THAT FILLS THE BILL.

The Great North Western Telegraph Company of Canada.

Operating the Lines of the Montreal & Dominion Telegraph Companies.

Miles of Line, 34,000. Number of Offices, 2,000.

ERASTUS WIMAN, President. - H. P. DWIGHT, General Manager.

HEAD OFFICE, TORONTO, ONT.

This Company has lately made arrangements for working the lines of the Montreal and Dominion Telegraph Companies of Canada. At its commencement the Company's property aud operations were confined entirely to the Province of Manitoba, but during the past year its scope and influence have been vastly extended. The ample provisions of the Charter of the Company were made available for the purpose of consolidating the conflicting telegraph interests of the Dominion, which, through ruinous competition, had been seriously impaired. The low rate for telegraph tolls which prevailed for the two years previously had so weakened the power of the telegraph companies to pay interest on the capital invested, and at the same time maintain the property in an efficient condition, that the prospects seemed most serious for all persons interested in this kind of investment. An arrangement was however effected, by which the rival companies were combined under one management, resulting in the introduction of large economies on the one hand, and the establishment of a uniform rate of 25 cents for telegraph tolls on the other. Investors in Telegraph property were thus assured of a fair return for their investment, and the public provided with a more efficient service.

This Company has a close alliance with the Western Union Company, and thus secures for its customers prompt and easy communication with every point upon this continent, to which the vast network of wires amounting to 340,000 miles owned by the Western Union Company extends. The various important inventions, secured by patents in most cases, which the Western Union Company now control, have also been placed at the disposition of, and will hereafter be used by, this Company.

Mr. H. P. Dwight, formerly Western Sup't of the Montreal Telegraph has been appointed General Manager of the new Company.

PREFATORY.

In presenting our edition for 1882, we would simply state that we have used all possible means to obtain correct information—in many instances sending back several times for a single individual—and if omissions do occur we can scarcely be blamed, as many *refuse* particulars or give them wrongly for (perhaps) obvious reasons.

We have been informed of cases in which persons have been gulled into making payments, by canvassers representing themselves as our agents, and we beg again to caution the public, as *we never take money in advance*, although in the interest of our subscribers as well as ourselves we require payment in all cases on delivery.

In substantiating our claim on the support of the public, we would mention the fact that our work contains more information than any similar publication that has come under our notice, viz., a complete Street Directory, an Alphabetical Directory and a full classified Business Directory.

Our thanks are due, and hereby tendered, to all who have in any way contributed towards the successful issue of the work.

ALPHABETICAL DIRECTORY.

The Names in CAPITALS in ALPHABETICAL DIRECTORY are those of Subscribers and Advertisers.

When avenue, lane, place, road, square, or any other such word, does not follow the residence, the word *street* is to be understood ; for example—Might & Co., publishers of the "Toronto Directory," 12 King w, means 12 King *street* west.

IMPORTANT

To Inventors and Manufacturers.

TO PROVIDE a want long and MUCH NEEDED by the owners of DOMINION PATENTS, the undersigned have established a PATENT EXCHANGE, in TORONTO, ONTARIO, to afford facilities at a reasonable charge for a favorable display and EXHIBITION of PATENTS. The Exchange is COMMODIOUS (on the Principal Street in the City), and centrally situated, and is convenient in every way, alike for inventors who wish to dispose of PATENTS, as for those who desire to see and EXAMINE them with a view to PURCHASE. A BULLETIN is kept, for the public to see at once, and an official report given. Our Rooms are over 60 feet deep, and samples will be displayed to the best advantage. We have had 14 years' EXPERIENCE in selling and manufacturing NEW INVENTIONS, and can furnish the very best references of our ability to handle the same. We have secured this large and commodious place, being one of the FINEST OFFICES in the city, at a great expense. Our charges will not be less than ONE DOLLAR and not more than TWENTY-FIVE, for depositing the same with us, and our Commission will be 10 per cent. for selling. Inventors and others having PATENTS which they wish to sell, or to have introduced at the METROPOLIS of ONTARIO, will find it to their interest to send us their INVENTIONS at once or with as little delay as possible.

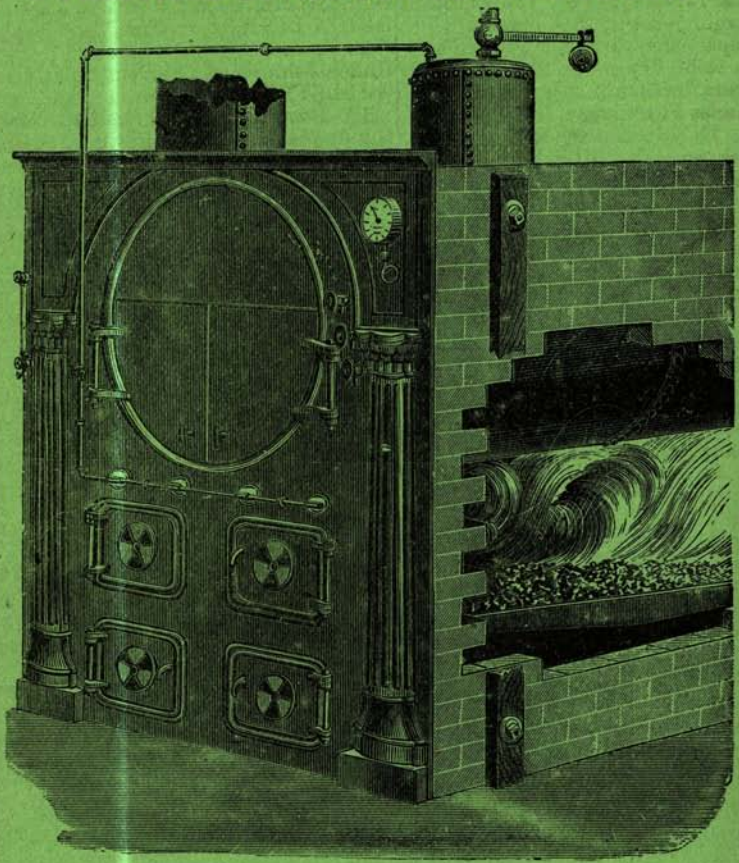
THE HUTCHINSON

Smoke Consumer.

A PRACTICAL DEVICE FOR BURNING SMOKE.



The proprietors assure you that this is no experiment. Over 1,200 of them in use in Canada and the United States. The saving in fuel fully pays for the device in a very short time.

It equalizes the heat in the furnace, keeps the flues clean and improves the draft.
