

SPECIMEN PAGES.

THE

CANADA DIRECTORY,

FOR 1857-58,

PRICE FIVE DOLLARS—PAYABLE ON DELIVERY,

TO BE PUBLISHED BY JOHN LOVELL,

ST. NICHOLAS STREET, MONTREAL.

~~~~~  
AN ENTIRELY NEW

**MAP OF UPPER AND LOWER CANADA,**

SHEWING ALL THE

CITIES, TOWNS, VILLAGES, TOWNSHIPS, RAILWAY LINES,  
&c., &c.

PREPARED BY ONE OF THE MOST SCIENTIFIC AND EMINENT ENGINEERS IN THE COUNTRY,  
WILL ACCOMPANY THE WORK.

~~~~~  
THE PUBLISHER has been induced to prepare the following pages in order to show the arrangement of the work, which he trusts may be found satisfactory and easy of reference. The lists contain only a few names in each of the places given.

The names in CAPITALS are those of Subscribers to the work, and show how it is appreciated, and what encouragement the Publisher is meeting with.

MONTREAL, February, 1857.

THE
CANADA DIRECTORY,

FOR 1857-58.

TO THE PUBLIC.

IN THE PROSPECTUS first issued it was stated that unless on condition of due encouragement being given, and a sufficient number of Subscribers obtained by middle of January, instant, the forthcoming Edition of the CANADA DIRECTORY would not be proceeded with. After two months active canvassing of the larger Cities and more opulent Districts of the Country, and a few of the principal Cities in the United States, the Publisher finds that, owing to insufficiency of time, absence of parties and other causes, the Subscription Lists have not yet reached the desired number. Nevertheless, having throughout been favored with so many unequivocal and gratifying proofs of hearty good-will and a growing public interest in the undertaking,—the canvass too, having, so far as it has gone, been highly satisfactory,—and the time for decision having now come, the Publisher (unwilling himself to relinquish the design, and strongly urged by others not to relax his exertions) has finally *determined to go on with the work*,—relying on the Press for a continuance of their favorable consideration, and on the public for co-operation and support.

He therefore now announces, not only to those who have been forward to patronise the undertaking, to whom especially his best thanks are due, but to the public at large, that the work will be vigorously prosecuted to completion, and that the publication will make its appearance early in September.

All who have not yet given in their names, as Subscribers, are again earnestly solicited to do so; and they will please remember that—unless on condition of actual Subscription—no name can either appear in CAPITAL LETTERS in the *alphabetical* portion, or at all under the various *classified heads* of the work.

The names of FOREIGN Subscribers and Advertisers, received up to the 15th of June next, will be inserted in the Canada Directory, in *alphabetical* order, *classified* under their *business heads*, with a short description of the City or Town in which they reside.

In order to extend its circulation, and make the work as productive as possible of benefit to Subscribers and the Country, the Publisher has sent Agents to the principal Cities in the United States, where they are now meeting with the most encouraging success, and intends sending Agents to Great Britain and Ireland, to take the names of Subscribers and Advertisers for the work.

By such means it is hoped CANADA will be brought prominently into view, and business subscribers will have every advantage arising from the utmost publicity.

JOHN LOVELL,
Publisher.

Montreal, January, 1857.

In pursuance of the intention expressed in the Prospectus of sending Agents HOME to collect information for and to promote the circulation of the work, the Publisher of the Canada Directory feels a pleasure in being able to state that he has concluded arrangements with Mr. ALEXANDER ARTHUR of this City (a gentleman well known on both sides) for that purpose. In a few days Mr. Arthur will leave for England. On the spot he will appoint competent Local Agents in the principal Cities of Great Britain and Ireland, whose assistance, in conjunction with his own personal exertions, will, no doubt, extend the circulation; and, while furthering the interests of Subscribers and Advertisers, materially promote the utility and main purposes of the publication.

Montreal, 25th February, 1857.

THE
CANADA DIRECTORY,

Marcus, Andrew, tavern keeper.
Matthews, William, station master G. W. R. R.

McAuslan, Andrew, engineer.
McDonald, Andrew, cabinetmaker.
Monro, H. D., postmaster.
Monro & McLachlin, general merchants.
Plasted, W. M., builder.
RICHMOND, WELLINGTON H., publisher of Richmond's Legal Forms and Law Manual.
Richmond, W. H., dealer in dry goods, groceries, hardware, &c.
Scott, Alexander, waggonmaker.
Smith, David B., J. P., and mill owner.
Sussey, Thomas, farmer.
Wilson, Edward, carpenter and shingle maker,
Wood, James E., builder.

BUTE, C. E.—A small Village in the Township of Somerset, midway on the main road between the Villages of Plessisville and Inverness, County of Megantic, District of Quebec. Distant from Bécancour Railway Station 3 miles. Population about 100.

Clark, Henry, blacksmith.
Lamothe, Auguste, J. P., storekeeper and pearlsh manufacturer.
Martineau, Jean B., carpenter and joiner.

McKINNON, JOHN, dry goods, hardware and provision merchant, pearlsh manufacturer and postmaster.
St. Pierre, J. B., cabinetmaker.

CAROUGE, C. E.—A small Village situated in the District of Quebec, on the north shore of the River St. Lawrence. Distant from Quebec $7\frac{1}{2}$ miles. Population about 200.

Alain, Jean Baptiste, shoemaker.
Drolet, Charles, grocer and boarding house keeper.
Fréchette, Louis, blacksmith.

Porter, James, innkeeper.
Tivierge, Dominique, grocer and general dealer.
Veilleux, Charles, innkeeper.

COBDEN, C. W.—A Village situated at the head of Muskrat Lake, in the Township of Ross, County of Renfrew. The usual route from the City of Ottawa to Pembroke is by this Village. During navigation a small steamer runs 18 miles on Lake Muskrat, while stages perform the rest of the way after leaving Gould's Wharf, on the Ottawa River. Tri-weekly mail.

Bisson, Louis, innkeeper.
Crawford, Michael, tailor.
GOULD, JASON, forwarder and postmaster.
Innis, John, farmer.

McDonald, Donald, blacksmith.
Morton, John, general dealer.
Olmstead, Ephraim, saw mill and shingle manufactory.
Rankin, John, hotel keeper.

GUELPH, C. W.—An incorporated Town, and County Town of the County of Wellington—situated on the River Speed, Guelph has a first-class Station on the Grand Trunk Railway, and is also the northern terminus of the Galt and Guelph Railway, which connects with the Great Western; it is also the southern terminus of the proposed railway to Saugeen, the distance to which is about 70 miles. From Guelph there are regular stages to Owen Sound, through Fergus and Elora, and a regular mail to Southampton. Being the centre of a rich agricultural district, Guelph has a large retail country trade; its exports are chiefly wheat and flour. In the neighbourhood of Guelph there are very valuable quarries of building stone, which will probably soon become a regular article of trade. Distance from Toronto 47 miles, from Hamilton 30 miles. Population about 4500.

ADVERTISER, (THE), weekly, annual subscription 10s., John Smith, proprietor and publisher, Market square.

Alexander, William, cabinetmaker.

Allan, G. W., confectioner.

ALLAN, P. C., bookseller, stationer and bookbinder, Windham st.

Allen, William, miller and distiller.

Allen, W. S., fishmonger.

Anderson & Miller, carriagemakers.

Armstrong, James, carpenter and builder.

Armstrong, James, waggonmaker.

Armstrong, J. & R., bakers and flour dealers.

Armstrong, Miss, ladies school.

 Williams, Thomas, brewer.
 Wilson, John C., contractor.
 Wilson & Pitcher, house and sign painters.
 Wilson, Robert, cooper.
 Wilson, William, shoemaker.
 Wright, Samuel, baker.
 Young, rev. Samuel, Free church.

MONTREAL, C. E.—The largest and most populous City of British North America, and the chief seat of commerce and principal port of entry for the Canadas—is situated at the head of sea or outward navigation, and the foot of the great chain of River, Lake and Canal navigation, which extends westward to Chicago and Fond du Lac, a distance of some 1400 miles, and embraces the largest extent of inland water communication in the world. Montreal is situated on a large, fertile and beautiful island of the same name, 30 miles in length by 10 miles of extreme width, formed by the confluence of the Ottawa and St. Lawrence Rivers, and on the north bank of the latter. Planted thus at the point of junction of two of the mightiest rivers in the world, and having a free communication with the Ocean, though in reality 90 miles above the influence of the tide and upwards of 300 miles from salt water, the City possesses all the advantages of a seaport, accessible to Steamships of 1800 tons burthen and over. Holding, too, the keys, as it were, of Canal and Lake navigation, or, as it has been styled, of “the new Mediterranean,” its position with reference to Quebec, Canada West, the Western States, New York, Boston, Albany, Portland, Nova Scotia, New Brunswick, Newfoundland, Prince Edward Island, &c., makes it, by means of its extensive water and railway communications, the great centre of attraction as well as the COMMERCIAL EMPORIUM of Canada. This City is the chief seat of manufacturing operations in Canada, and has many extensive and costly establishments, the productions of which will compare favorably with those of a like kind from any other part of the world. The principal business streets are Notre Dame, St. Paul, Commissioners, McGill, Great St. James, and the Main Streets of St. Lawrence, Quebec, St. Anns, St. Joseph and St. Antoine Suburbs. The City and Suburbs are well lighted with gas, and many of the principal streets are paved with stone. By the River, or the Mountain, in fact from whichever side approached, Montreal and its vicinages, (the wood-clad “*Mont-Royal*” in rear forming a magnificent back-ground, and the great River and Country beyond towards which it slopes, stretching out in front,) with its numberless beautiful villas and orchards, and delightful drives, its grand and stately edifices and many elegant cut-stone public and other buildings, with their glittering roofs, domes, tall spires and lofty towers, present to the view of the beholder a vast, picturesque and grand panorama. Space does not permit of enumerating the many handsome buildings Montreal can boast; but among them may be mentioned, the Bonsecours Market, erected at a cost of £71,825, which is said to be the finest market building on the Continent, the Court House, costing £50,000, the French Cathedral, the Bank of Montreal, the City Bank, Bank of British North America, St. Andrew’s (Scotch) Church, McGill College, the Jesuits College, the General Hospital, St. George’s Church, Wesleyan Church, the Post Office, the Custom House, and many other imposing structures. Montreal possesses also magnificent Water Works, constructed at an outlay of £300,000. The water is taken from the St. Lawrence, a mile and a-half above the Lachine Rapids, and is conducted a distance of five miles through an open canal to a capacious basin, whence it is pumped up through the pumping-main, two miles and three-quarters in length, to Reservoirs, on the brow of the Mountain, holding fifteen millions of gallons. The Harbor and Basins, into which the last link of the great Canadian inland canals debouches, though not large, are good, convenient, safe and capable of extension and improvement, at comparatively small expense. The wharves, constructed of massive cut-stone, extending over a mile in length, and affording a fine, unbroken promenade, are unequalled in America, and, for appearance, commodiousness and cleanness, are unexcelled elsewhere. From Point St. Charles, at the head of the Harbor, to St. Lambert, on the opposite shore, a distance of a mile and three-quarters, “the great Father of Rivers”—the Saint Lawrence—is being spanned by the Victoria Bridge, now in course of construction. With its two long abutments of solid masonry, and twenty-four massive piers on which it rests this bridge of iron, built on the tubular principle, with its centre track for cars and locomotives, and projecting wings forming, on either side, a path-way for foot passengers—the greatest work of the kind ever attempted—will be, when complete, the master-piece of Engineering and the wonder of the world. Montreal possesses great advantages, arising from the great chain of Canadian Railways. This, when the Victoria Bridge is completed, will be the great central depot for the traffic of a chain of unbroken Railway communication upwards of 1100 miles in length. The cars of the Grand Trunk Railway run daily to Quebec, Portland and Canada West, and connect at Toronto with the Great Western and Northern Railways, and the Great West. By the Line to Portland, a communication with the States is obtained, and a winter port is afforded. The Champlain and St. Lawrence, and Montreal and New York Railways, also afford a direct communication with New York, Boston, and the principal Cities in the United States, and connect with all the southern roads on the northern part of the Continent. In summer, as already stated, to these advantages is conjoined, that of the navigation, which is usually open from about the middle of April to the end of November. A line of splendid, powerful and fast Screw-steamers, subsidized by Government, and performing regular Mail-service, ply, fortnightly, between Liverpool and Montreal in summer, and the former place and Portland, monthly, during winter. In summer, daily lines of Steamers, Propellers and other vessels, run between Montreal and Quebec, Ottawa City, Prescott, Brockville, Kingston, Cobourg, Port Hope, Toronto, Hamilton, and many other lake and river ports, eastward as well as westward. Montreal is distant from Liverpool 2750 miles, from Quebec 180 miles, from Kingston 173 miles from Toronto 333 miles, from Ottawa City 120 miles, from New York 453 miles, from Boston 332 miles, and from Portland 292 miles. Montreal returns three Members to the Provincial Parliament. Its population is about 75,000, and is steadily augmenting. It increased 5000 during the year 1856. Value of assessed property in 1856, £6,391,333 6s. 6d., and the revenue of the City, from all sources, £71,253.

NORMANDIN, REV. ETIENNE, Roman catholic.

Vienne, captain Alfred, farmer.

Vienne, captain Charles, farmer.

Vienne, Jean Baptiste, councillor.

Villeneuve, Gédéon, general store.

Wilhelmy, Cyrille, councillor.

TORONTO, C. W.—The Metropolis of Western Canada,—situated on the north-west shore of Lake Ontario, and north of the Bay, which is a spacious and beautiful sheet of water somewhat oval in form—is a large, flourishing and progressive City, proudly and justly styled, the “Queen City of the West.” Laid out in the form of a parallelogram with singular regularity—the streets, fine, uniform and wide, intersect each other at right angles. Owing to the banks of the Lake being somewhat low and the site of the City and lay of the Country in rear rather flat—Toronto, at a distance, presents no high commanding aspect from any of its approaches. On nearing it from the Lake, however, it gradually unfolds itself, till, passing through the narrow entrance of, and steaming up the Bay, with the Provincial Lunatic Asylum, Trinity College (Episcopal), the Parliament Houses and other majestic buildings full in view, (and domes and spires not a few, and the wood-dipping banks of the Bay behind and opposite) it improves, and, at last, assumes a very picturesque and imposing appearance. When finished, the projected “Esplanade” will greatly improve its aspect from the Lake and Harbor, which it encroaches upon and faces. Then, from this point of view, all bustling and open, the scene will be rich and imposing. King and Yonge are its two principal streets; the former runs parallel with the Bay, and the latter, intersecting it, extends northward, through a rich and prosperous agricultural country—forming a sort of straggling and irregular village of some thirty miles or more in length. King—the Oxford street or Broadway of Toronto—a very long, straight and spacious street, with its broad side-walks and many handsome, well-filled shops—is the fashionable business resort, great thoroughfare and promenade of the City. The public buildings are very numerous, and many of them extremely handsome, such, for instance, as the new General Hospital, St. James, St. Michael, and Knox’s Churches, the City Hall and St. Lawrence Market place, Exchange, Mechanics’ Institute, Post Office, several of the Banks, the Rossin House, &c., &c.—and especially the Normal and Model School—a spacious edifice, whose organisation and methods of instruction, though not long established, have produced a most beneficial change in academical government and tuition, which is rapidly making itself felt, for good, throughout the whole Province. Osgoode Hall, the seat of the Superior Courts of Law and Equity for Upper Canada, situated on Queen Street, nearly opposite York Street, the University of Toronto, and University College, standing retired amid the pleasing and sequestered retreats of the University Park, are noble edifices. The University Park, with its Avenues to Queen and Yonge streets, and the Normal School grounds, beautifully laid out and planted, are places where all may freely go for tranquil walks and needful recreation. The Provincial Magnetic Observatory is also situated in the University Park, and is one of the meteorological stations established by the British Government, at the request of the Royal Society of England, in 1840. It is now attached to the University of Toronto. Its position is as follows: Latitude, 40° 39’ 4 North; Longitude, 79° 21’ 5 West; or 5 hours 17 minutes 28 seconds slow of Greenwich time. Toronto has many industrial establishments, some of them extensive—including foundries, tanneries, a great variety of other factories, and some very fine milling-establishments—which are thriving, and rapidly extending their capacity and powers, and improving their productions. Her spacious land-locked Harbor, easy of access to the largest craft that navigate our inland waters, and perfectly sheltered by the bar which faces it and fences off the Lake, affords the utmost facility for any possible extension of business or trade. Connecting, as it does, at all seasons of the year, with almost every place of importance in Canada and the United States (sea-board as well as inland,) by means of the Grand Trunk, Great Western, Northern, New York Central, Erie, and other Railways; and, by navigation, during summer, besides—the future of Toronto can by no means be doubtful. Thanks to her people’s energy; no less than to her centralized and centralizing position—she is already reaping the first good fruits of her new connections in an extending trade—a steady prosperity which seems destined to be both durable and progressive. Distant from Collingwood 93 miles, Hamilton 45 miles, London 114 miles, Kingston 165 miles, Montreal 333 miles, New York 500 miles, Boston 593 miles. Toronto returns two Members to the Provincial Parliament. Population about 50,000, and rapidly increasing. Value of assessed property in 1856, £7,133,076.

ALPHABETICAL LIST OF BANKS IN CANADA.*

The Banks of Canada have been judiciously managed: the Stocks yield high average returns, and afford a most safe and favorable investment to the Capitalist. * * * The business of banking has been so prudently managed that there never yet has been a stoppage of a Canadian Bank.—*Morris' Prize Essay on Canada.*

SAVINGS BANKS.

The principle and object of these institutions cannot be too highly commended. Nothing could be more important in the view of diffusing habits of forethought and economy amongst the laboring classes, than the establishment of Savings Banks, where the smallest sums are placed in perfect safety, and are paid with interest, whenever demanded by the depositors.—*M'Culloch's Commercial Dictionary.*

SAVINGS BANK DEPARTMENT,

BANK OF MONTREAL.

Semi-monthly	5
Monthly	26
Bi-monthly	2
Quarterly	2

Total number of Newspapers and Periodicals published in Canada, ... 226

At the request of many friends, and others who take an interest in the condition and progress of our local Journalism, the Publisher of the CANADA DIRECTORY has caused the foregoing Statistical List to be prepared, which exhibits the actual state of the Newspaper and Periodical Press of the Province in the present year. The information has been drawn up with much pains and arranged with great care. Neither labor nor expense have been spared to secure the most scrupulous accuracy; and it is now submitted to the public, in the confident hope and belief that it will be found not only substantially but literally correct.

The information itself should prove alike suggestive and instructive. It encourages the belief that the moral and intellectual advancement of the Province has kept pace with its material and political progress, and it inculcates very earnestly upon all, the duty and necessity of adopting such measures as may best preserve the character and extend the usefulness of the Periodical Press of Canada.

It will be neither uninteresting nor out of place to compare the present with the past condition of our Periodical Literature. No better index can, in the opinion of the Publisher, be found by which to determine the progress of the Province in wealth and intelligence, than that which is afforded in the facts which this enquiry will supply. A period of scarcely more than forty years has elapsed since there were published within the Province only six Newspapers, five in Lower and one in Upper Canada; now, as the foregoing List will show, there are printed within the same

territorial limits upwards of two hundred Newspapers and Periodicals. When, too, it is borne in mind, that formerly a Newspaper was published but once a week, and had but a limited circulation, and that now these Journals are issued daily and tri-weekly, as well as semi-weekly and weekly, it is difficult to exaggerate the importance of the conclusions at which we must thence arrive, either as they bear upon the increased intelligence, or the increased wealth of our people. Indeed the opinion may be confidently advanced, that in no Country can there be produced a parallel to that which Canada affords of the history and character of its Newspaper Literature. In variety of information and in moral sentiment it will compare favorably with the press of any other land; while, through the unexampled liberality and cordial co-operation of the Legislature, carried into effect by the untiring exertions of the Post Office Department, it has been enabled to find free access to the homes of our people, and has thus brought to the door of the most humble, without cost for postage, a blessing which is regarded as belonging exclusively to the luxuries of the old world.

The Publisher may be excused for expressing the hope, that time and experience will tend still more to raise the tone and increase the usefulness of our Periodical Press, and that this engine of mighty power, under the control of able and high-minded men, may continue to diffuse the benefits of enlightened instruction and pure knowledge throughout the length and breadth of this noble Province of United Canada.

ALPHABETICAL LIST OF POST OFFICES IN CANADA,

WITH NAMES OF POSTMASTERS, CORRECTED UP TO 1ST JANUARY, 1857.

The Offices whose names are printed in **ITALICS** are authorized to grant and pay Money Orders.

Name of Post Office.	Township or Seignior.	County.	Name of Postmaster.	Name of Post Office.	Township or Seignior.	County.	Name of Postmaster.

THE
CANADIAN RAILWAY CELEBRATION,
AND
MONTREAL IN 1856;
A MEMORIAL VOLUME,
COMPRISING
A HISTORY OF THAT INTERESTING EVENT,
INCLUDING
AN ACCOUNT OF THE TRADES PROCESSION, BANQUET, BALL, INAUGURATION
OF THE WATER WORKS, EXCURSION, RESOLUTIONS ADOPTED BY VISITORS, &c.
ALSO
THE CELEBRATION PAMPHLET,
WHICH WILL BE ENLARGED AND IMPROVED.
A MAP OF THE ISLAND OF MONTREAL
WILL ACCOMPANY THE WORK.

BELIEVING that the recent Celebration marked an era in the history of Canada, and is therefore deserving of commemoration in a more permanent form than is afforded by the medium of the Newspaper press, the undersigned has determined upon publishing a volume embracing the foregoing features; and confidently relies upon the public for their support.

It will be issued under the sanction of the Executive Committee of the Celebration, and under the revision of its Statistical Committee.

The work will be carefully printed on fine paper, and issued to Subscribers for 5s. per copy.

Parties desirous of securing copies are requested to transmit their names to

JOHN LOVELL,
Printer and Publisher.

Canada Directory Office,
MONTREAL, December, 1856.

NEW YORK—The metropolis of the United States, and the second commercial city in the world—is situated on the southern extremity of Manhattan Island, at the confluence of the Hudson with the East River, or Strait of Long Island Sound. This great city, from its admirable position and its magnificent harbor, possesses facilities for trade unsurpassed by any other on the American Continent. The bay, or inner harbor, is one of the most capacious and finest in the world; it is completely land-locked, and affords the best anchorage. The rise of the tide is about six feet, and even at ebb there is twenty-one feet of water on the bar. The water in the outer and inner bays, and in the river, is so deep, that ships of the largest burden lie close to the quays, and may proceed to a great distance up the river. The navigation of the bay is but rarely impeded by ice; the entrance to it, through the Narrows, is extremely beautiful. Either side of the shore, though wooded down to the water's edge, is thickly studded with farms, villages, and country seats. At the upper end are seen the spires of the City, and in the distance the bold precipitous banks of the Hudson. The commerce of New York is most extensive, and its tonnage is greater than that of Liverpool, or any other city, with the exception of London. Steamers, sailing packets, and merchant vessels, are constantly leaving for nearly all the ports of the world. New York has increased faster than any other city in the Union, and is constantly growing in importance. It is ornamented with many commodious and beautiful buildings; its principal street (Broadway) will compare most favorably with the finest street in any city of Europe,—it is now the great mart and the most fashionable promenade. The City is supplied with water from the Croton River by an Aqueduct 41 miles in length. New York has upwards of 4000 manufacturing establishments, and a population of about 750,000. It is distant from Liverpool 2980 miles, from Quebec 594 miles, from Montreal 414 miles, and from Toronto 541 miles. The Grand Trunk, the Great Western, the Champlain and St. Lawrence, and the Montreal and New York Railway trains, connecting with trains on the way, leave Canada daily for this EMPIRE CITY.
