MDCCLX.

ASTRONOMICAL PHENOMENA, 1860.

ECLIPSES OF THE SUN AND MOON.

There will be two Eclipses of the SUN and two of the MOON this year; one of each being visible in this Island.

I.—*An annular Eclipse of the SUN*, January 22nd, *Invisible* in Newfoundland, and visible only in the Southern Hemisphere. It will begin on the Earth generally at 24 minutes past six o'clock in the evening of the 22nd, in long. 99 deg. 58 min. E., and lat. 49 deg. 20 min. S.; and end twenty-nine minutes past eleven in long. 126 deg. 30 min. W., and lat. 15 deg. 8 min. S., mean time at St. John's.

II.—*A partial Eclipse of the MOON*, Feb. 6, *Visible* in Newfoundland. The first contact with the dark Shadow will take place at 31 minutes past 9 P. M., near the middle of the Moon's Eastern limb; greatest darkness at 58 minutes past 10; last contact with Shadow 25 minutes past 12 (midnight); duration 2 hours and 54 minutes; magnitude of the Eclipse eight-tenths of the Moon's disc; total continuance, including Penumbra, 4 hours and 57 minutes.

N.B.—The foregoing is given in *mean* time; watches regulated by apparent, or dial, time, will therefore shew a disagreement of over 14 minutes. See the Equation for Feb. 6, in the succeeding pages.

More fully as follows:—

	h. m.	
First contact with Penumbra	8 30e.	} Mean time, St. John's.
First contact with Shadow	9 31e.	
Middle of Eclipse	10 58e.	
Last contact with Shadow (7th)	0 25m.	
Last contact with Penumbra (7th)	1 27m.	
Magnitude of Eclipse (Moon's diameter=1)	0. 809	

The first contact with the Shadow occurs at 79 deg. from the Northernmost point of the Moon's limb towards the East.

III.—*A total Eclipse of the SUN*, July 18th, *Visible* (as a partial one) in Newfoundland; increasing in magnitude Northwards to Nain, on the coast of Labrador. At St. John's the obscuration will involve the greater portion of the Sun's disc, which will assume the form of a half-moon, or crescent, presenting one of the most striking phenomena observed here for many years. As the Eclipse will happen in the forenoon, and continue more or less till near mid-day, the ob-

curity produced by the interposed body of our Satellite will be the more remarkable. In all the Northern Bays—Conception, Trinity, Bonavista, &c.—the effect will be very imposing. At our fishing stations on the coast of Labrador the Moon will overlap nearly the entire face of the Sun, leaving those places, if the sky be overcast, in almost total darkness. Should, however, the weather be clear and the sky free from clouds, the small portion of the Sun's lower limb that remains uncovered, will yield a dim twilight. On the other side of the Atlantic, the Eclipse will be *total* in Spain and parts of Africa, though not in Great Britain or Ireland.

The following are the Elements from which we make the foregoing predictions:—

	d.	h.	m.	s.
Greenwich Mean Time of Conjunction in R. A. July 18	2	8	7	1
Sun's and Moon's Right Ascension	7	52	20	13

PLANETARY MOVEMENTS.

VENUS will be the Evening Star until July 18, then Morning Star the rest of the year.

MARS will be Morning Star until July 17, then Evening Star the rest of the year.

JUPITER will be Morning Star until January 10, then Evening Star until July 29, then Morning Star the rest of the year.

SATURN will be Morning Star until Feb. 11, then Evening Star until August 22, then Morning Star the rest of the year.

An occultation of Venus by the Moon will take place on the evening of the 24th April. Jupiter will be occulted the 26th same month.

CALENDAR.

Rogation Sunday	May 13	Christmas Day 25
Ascension Day	17		

NOTE.—The Tide Tables (in the Calendar pages) may be rendered applicable to various other places on the coast, by simply adding or subtracting, as the case may be, the difference between the times of High Water on the Full and Change of the Moon at St. John's, and the times of the full tide at any other harbor; for example, to find the time of High Water at any of the principal harbors of Conception Bay, add 45 minutes to the time at which it will be High Water at St. John's; for Placentia Bay, add 2 hours; for St. Peter's, 1h. 50m.; for Ferrolle, on the French Shore, 4 hours, &c.—See Table LVII. of Norie's Epitome.

JANUARY.—January (Latin, *Januarius*) was so called by the Romans from Janus, one of their superior deities, to whom the first day of the year was sacred, and through whom they offered their prayers to the gods: hence the name is used to signify gate of the year. Janus was represented with two faces: one old and wrinkled, and looking backward; the other face young and smiling, and looking forward.

FEBRUARY.—February (Latin, *Februarius*) received its name from Februalia, a feast of sacrifices and purifications held by the Romans in this month, in the vain hope of being cleansed from the sins of the whole year. It corresponds to ADAR (Ezra vi. 15), the sixth civil, and twelfth sacred month of the Jews. By the Saxons it was called *Sproutkele*, as cabbages begin to sprout now; and also *Sol-monath*, the month when pancakes were offered to Sol, or the Sun.

MARCH.—March (Latin, *Martius*) was so named by the Romans in honor of Mars, their god of war. In this month the Gothic tribes went out on warlike expeditions. It answers to NISAN, or ABIB (Neh. ii. 1; Deut. xvi. 1), the seventh of the civil, and the first of the sacred year of the Jews. By the Saxons it was named *Hlyd-monath*, the loud or windy month.

JULY.—July (Latin, *Julius*), was originally called Quintilis, being the fifth month of the Roman calendar. Marc Antony designated it Julius, in honor of Caius Julius Cæsar, dictator of Rome, who was born in it, and who reformed the calendar. It answers to AB, the eleventh month of the Jewish civil year, and the fifth of their sacred year.

OCTOBER.—October derives its name from the Latin word *octo*, "eight," indicating the place it held in the Roman calendar, and *imber*, or "shower." To the Jews it was known as *BUL*, signifying decay, as in the fall of the leaf (1 Kings vi. 38), or *MARCHESVAN*, as it was called after the captivity.

Equation of time to be subtracted from apparent time to the 23rd, and added to it during the remainder of the month.

DECEMBER.—December derives its name from the Latin *decem*, "ten;" as, in the Roman year, instituted by Romulus, beginning with March, it was the tenth month.

COLONY OF NEWFOUNDLAND.

Governor, Commander-in-Chief, and Vice-Admiral—
HIS EXCELLENCY SIR ALEXANDER BANNERMAN, KNIGHT.
*Private Secretary—*Lieut. W. J. Coen, R.N.C.

Channel (Port-aux-Basque).—Rev. W. W. LeGallais, Alexander Waddell, and Francis A. Read, John Gillam, John Brag, and the Rev. Charles Comben.

GAOLS.

St. John's—Gaoler, Richard Brace; Turnkey, Joseph Score; Surgeon—Charles Crowdy, M.D.

Harbour Grace—Gaoler, David Rogers; Surgeon, William Dow, M.D.

Trinity—Gaoler, Charles Granger.

Ferryland—Gaoler, Francis Geary.
Placentia—Gaoler, Samuel Collins.
Burin—Gaoler, John Murphy.
Bonavista—Gaoler, Michael Fennell.
Twillingate and Fogo—Gaoler, James Rice.
Harbor Briton—Gaoler, John Garvey.
Brigus and Port-de-Grave—Gaoler, James Butler.

COURT HOUSES.

St. John's—Keeper, John R. Jeans.
Harbour Grace—Keeper, David Rogers.
Ferryland—Keeper, Francis Geary.

ST. JOHN'S HOSPITAL.

Medical Attendants—Hon. John Rochfort, M.D., and Hon. Samuel Carson, M.D.; Matron—Mrs. Dooley; Keeper—John Prowse.

LUNATIC ASYLUM. (ST. JOHN'S)

Physician—Henry H. Stabb, M.D.

DISTRICT SURGEONS.

St. John's, (Eastern Ward)—Charles Crowdy, M. D., Charles H. Renouf, M.D. (Western Ward)—Frederick Bunting, M.D., James N. Fraser, M.D.

Conception Bay—William Dow, M.D.

COLONIAL BUILDING AND GROUNDS.

Keeper—Mrs. Delaney.

COMMISSIONERS OF STREETS.

Harbour Grace—Robert John Pinsent, J.P., John Munn, Hon. Thomas H. Ridley.

Carbonear—Joseph Ryan, J.P., John Rorke, John McCarthy.

LIGHT HOUSES.

Keepers of Lights—Fort Amherst, John Sheppard. Cape Spear, James Cantwell; Assistant, Denis Cantwell. Harbor Grace Island, Edward L. Oke; Assistant, Austin Oke. Cape Bonavista, Jeremiah White; Assistant, Nicholas White. Cape Pine, Henry Herder; Assistant, Samuel Austin. Harbor Grace Beach (Beacon and Light,) George Brown. Cape Race, William Hally; Assistant, George Hewett. Green Island, Patrick Houlahan; Assistant, James Houlahan. Dodding Head, Martin Sparrow; Assistant, Thomas Doran. Offer Wadham, Thomas Hennessey; Assistant, Edward Ready. Baccalieu, James Ryan; Assistant, — Ryan. General Inspector—Robert Oke.

Light Dues—One Shilling per ton on all vessels entering any Port or Harbor of the Colony, except Coasting, Sealing or Fishing Vessels; but not to be levied more than once in any one year.—
Sealing and Coasting Vessels—Sixpence per ton on registered vessels of 40 tons and upwards; Fifteen Shillings per annum on all vessels less than 40 tons.

The 19th of Vic., Cap. 5, Sec. 5, enacts—"That no greater sum than £25 sterling shall be in any year levied for Light Dues on any Steamer or Vessel entering any port of this Colony; and no Steamer plying between Europe and any port of North America, and entering any port of this Colony as a Port of Call, shall be liable to pay any Light Dues or other port charges except Pilotage."

DESCRIPTION OF LIGHTS.

Fort Amherst Light, at the entrance of St. John's—A Light was first established at this station in 1813, and until the granting of a Legislature to this Island the expenses consequent on its maintenance were defrayed by voluntary contributions; in 1850 a new House, Lantern and Apparatus were erected. The Light burns at an elevation of 110 feet, is produced by a treble argand burner placed in the focus of an annular lens of the fourth order, and in favourable weather can be seen 12 miles. When Cape Spear is enveloped in fog a heavy piece of ordnance is also discharged at this Fort every hour during day light, to assist vessels in making the harbor.

Cape Spear Light—This Light was first exhibited on the 1st September, 1836; it is produced by seven argand burners and silvered reflectors burning at an elevation of 275 feet—it revolves, shewing a bright Light every minute, and in favourable weather can be seen 36 miles. It is situated in 47.31' N. lat. and 52.33' W. longitude.

Harbor Grace Island Light—First exhibited on the 21st November, 1837; it is a Fixed Light, has fifteen argand burners and reflectors, shewing a steady bright Light from N. to S.W. and by W. seaward, elevated above the level of the sea 151 feet, and can be seen in fair weather in rounding Cape St. Francis or crossing Conception Bay, on the intervening space between N. and S.W. and by W.; on the land side the Light is more feeble. It is situated in lat. 47.42 N., and in lon. 53.05 W.

Cape Bonavista Light—Situated in lat. 48.42 N., lon. 52.59 W., is a Revolving Light, shewing alternately every two minutes a White and a Red Light. It is produced by sixteen argand burners and reflectors, burns at an elevation above the sea of 150 feet, and in favourable weather can be seen 30 miles. For some years the Light apparatus was in use at the Bell Rock, East coast of Scotland. By keeping this Light open with Cape Largent, it will carry you clear of the Flowers Rocks; first exhibited 11th September, 1843.

Cape Pine Light—This tower is of iron, built by the Imperial Government in 1849-50, and first put in requisition on the 1st January, 1851. It is revolving, and shews a bright flash every 30 seconds—has 12 argand burners and reflectors—elevated above the level of the sea 314 feet—situated in lat. 46.37 N., and in lon. 53.30 W. In a favourable state of the atmosphere it can be seen 36 miles.

Harbor Grace Beach Beacon and Light—First exhibited 11th September, 1854; stands on the Point of Beach at the entrance of Harbor Grace. It is a double Light, as a distinction from Harbor Grace Island Light, one being placed above the other, preserving that appearance for six miles; exceeding this distance up to ten miles, the two Lights appear blended into one. In sailing into Harbor

Grace with a fair or leading wind, bring the Beach Beacon to bear W. or W. by S., and by keeping the Light or building a little on the starboard bow it will carry you clear of the Bar, on which at low water there is not more than 8 feet of water.

Green Island Light, at the entrance of Catalina Harbor, Trinity Bay—Situated in lat. 48.30 N., lon. 53.03 W. This is a Fixed White Light, burns at an elevation of 92 feet above high water, exhibited every night from sunset to sunrise, and in favorable weather will be seen from E.N.E., seaward, to S.W., 12 miles. Vessels bound Northward by keeping this Light open with the North Head of Catalina until Bonavista Light opens with Cape LeFean, will give the Flowers Rocks an ample berth—or when coming from the Northward and bound for Catalina, by giving the N. Head a moderate berth, you will clear the Brandies Rocks by steering for Green Island Light.

Cape Race Light—Exhibits a Fixed White Light, from sunset to sunrise. The Light will be visible to seaward from N.E. by E. round by the S.E. and South to West. The Light is elevated 180 feet above the mean water level of the sea, and may be seen in clear weather 17 miles from a ship's deck. The tower is striped red and white vertically. It stands close to the old Beacon, which has been cut down. The Light house is in lat. $46^{\circ} 39' 12''$ N., lon. $53^{\circ} 2' 38''$ W. All bearings are Magnetic. Var. 24° W. N.B.—A Toll will be levied upon all vessels benefiting by this Light.

Dodding Head, Great Burin Island, Light—This Light was put in requisition on the 3rd August, 1858, and is exhibited every night from sun-set to sun-rise. It is revolving, catoptrioptic, of the second order, producing a brilliant White Light every minute, with intermediate flashes at intervals of twenty seconds, burning at an elevation of 410 feet above the level of the sea, and in favourable weather can be seen 30 miles—situated in $47^{\circ} 0' 0''$ North Latitude, $55^{\circ} 0' 5''$ West Longitude.

Offer Wadham Island Light—Was first exhibited on the 4th October, 1858, and will continue to be lighted every night from sun-set to sun-rise. The Light is a steady, fixed lens-light, burning on a circular Brick Tower 96 feet above the level of the sea, and can be seen in a favourable state of the atmosphere 12 miles. Situated in Latitude 49.36 North—Longitude 53.46 West.

Baccalieu Island Light—This Light is exhibited every night from the going away of daylight in the evening to the return of day-light in the morning. The position and characteristics of this Light are as follows:—Baccalieu Light House is situated on the Northern end of that Island—Latitude 48.09 North, Longitude 52.50 West, —the Tower is of brick, the Keeper's Dwelling a Square Building, detached from the Tower, painted white, with the roof red.

The Light is a Catadioptric first class Holophotal Revolving White Light, shewing a flash every twenty seconds. It is elevated 380 feet above high water, and can be seen in clear weather forty nautical miles, and a lesser distance according to the state of the atmosphere. When the Southern end of the Island bears N.N.E., the Light will not be visible when nearer the Island than eight miles.

POST OFFICE DEPARTMENT.

Post Master General—William Lemon Solomon, Esq.; Chief Clerk and Accountant—Martin Shea; Assorters—E. Solomon, John Freeman, James Furlong, John Dalton, Edward Fanning.

Office hours, from 9 o'clock, a.m., to 4 p.m., Sundays excepted.

POST MASTERS.

Harbour Grace, Andrew Drysdale; Carbonear, Mary Casey, (Post Mistress); Brigus, Sarah Stentafor, (Post Mistress); Trinity, Anne Cross, (Post Mistress); Bonavista, John Lawrence; Greenspond, Lorenzo Moore; Fogo, John Fitzgerald; Twillingate, Joseph J. Pearce; Bay Bulls, Martin Williams; Ferryland, John Morry; Trepassey, John Devereux; Placentia, Mary Morris, (Post Mistress); Burin, Thomas Birkett; Harbor Briton, Thomas E. Gaden; Burgeo, Richard Bradshaw.

WAY OFFICERS.

Port-de-Grave, Matthew O'Rielly; Bay Roberts, James Fitzgerald; Blackhead, John Curtis; King's Cove, Michael Murphy; New Perlican, Francis Howel; Old Perlican, William Christian; St. Mary's, Philip Breen; Oderin, Andrew Murphy; Isle of Valen, George Le-Messurier; Salmonier, Patrick Hurley; Little Placentia, Alexander Burke; Harbor Maine, Patrick Brick.

POSTAL ROUTES.

Summer—Between St. John's and Portugal Cove, by Coach, daily; between Portugal Cove, Brigus, Harbor Grace, and Carbonear, by Steamer, tri-weekly.

Winter—Between St. John's, Brigus, Harbor Grace, Carbonear, and intermediate places, by Coach, every Monday and Thursday.

Between Carbonear and New Perlican, by Messenger, weekly, calling at Heart's Content.

Between Harbor Maine and Brigus, fortnightly.

Between New and Old Perlican, weekly, during summer months.

Between New Perlican and Trinity, by boat, weekly.

Between Trinity and Bonavista, by Messenger, weekly, calling at Catalina.

Between Trinity and King's Cove, by Messenger, weekly.

Between St. John's, Fogo and Twillingate, leaving St. John's every second Wednesday after the arrival of the Mail Packet from Halifax, or on such other days as the Post Master General may appoint.

Between Bonavista and Greenspond, weekly, calling at Tickle Cove during the summer months.

Between St. John's and Ferryland, by waggon, weekly, during summer months, and fortnightly during winter months.

* Between Ferryland and Trepassey, by Messenger.

* Between St. John's and Placentia, by waggon.

* Between Salmonier and St. Mary's, by Messenger.

* Between Little Placentia, Red Island, and Harbor Buffett, by boat.

* Between Great Placentia and Hurin by boat, touching at Paradise and Odein.

* Between Garnish, Grand Bank and Fortune, by Messenger.

* Between Garnish and Harbor Briton, by boat.

* Between Harbor Briton and Burgeo, by boat.

Between Brigus and Port-de-Grave, by Messenger, semi-weekly.

Between Brigus and Bay Roberts, by Messenger, semi-weekly.

* Between Great and Little Placentia, by Messenger.

Special Mails between St. John's and Portugal Cove, and between St. John's and Placentia.

NOTE—Letters for the United States of America, must be prepaid or they cannot be forwarded.

Newspapers posted in this country, when addressed to any place in Nova Scotia, Canada, P. E. Island, Bermuda, the United States, or elsewhere, must in all cases be prepaid, by mail, otherwise they cannot be forwarded, except deposited in the Government Agent's bag as merchandise.

All Correspondence addressed to the United Kingdom, must be prepaid, or it cannot be forwarded.

Routes marked thus * are fortnightly during summer, and monthly during winter months.

SAVINGS' BANK.

Governors—Three members of the Legislative Council, and five members of the House of Assembly, viz :—Hon. Thomas H. Ridley, Hon. ———, and Hon. ———, of the Council; and Hon. John Kent, Hon. Thomas Glen, Hon. George J. Hogsett, Ambrose Shea, and John Hayward, Esquires, of the House of Assembly.

Directors—A. Shea, Esq., Hon. John Kent, and Hon. James J. Rogerson.

Cashier—Hon. Edward Morris.

Assets and Liabilities, 31st December, 1858, (as audited).

Assets	£163,251	2 10
Liabilities	143,639	6 11
Surplus of Assets	£19,611	15 11

The Bank is open every Monday between the Hours of 12 and 2 o'clock, for Depositors' business; and on Wednesdays for Discount business, from 11 to 3 o'clock.

RULE WITH RESPECT TO DEPOSITORS.

Deposits—All Deposits of not less than One Shilling made by any person, shall as soon as they amount to Twenty Shillings, be considered as a Deposit to the amount of the aggregate sum deposited, from the period when the last sum constituting such aggregate was deposited. The Deposits to bear interest at three per cent., but no interest will be allowed on sums less than a Pound, nor for Deposits under six months, the six months to commence from the first day of the month ensuing the receipt. The interest due on deposits on the

last day of December in each year, to be carried to the credit of the Depositor, and the balance carried to a new account, and to be regarded as a deposit made on that day. The Bank is at liberty to return or reject the deposits of any person or persons, and to decline receiving any deposits exceeding One Hundred and Fifty Pounds, subject to the payment of interest thereon, when it shall be deemed expedient so to do. And no sum exceeding £100 shall be received from any depositor, but on condition that the same shall not be withdrawn, except upon a notice ending at two months from the date thereof, or upon forfeiture of two months' interest thereon, if at the request of such Depositor the Directors consent to pay the same without requiring such notice.—*Third Rule of Newfoundland Savings' Bank.*

BRANCH OFFICE, HARBOR GRACE.

THE PHOENIX FIRE OFFICE

Is confidently recommended to the notice of the Public, for the liberality and promptitude with which all claims upon it are adjusted and paid—as well as for the almost unlimited security which it affords, comprising, in addition to the large invested Capital of the Company, the whole fortunes of a numerous Proprietary composed of some of the most opulent gentlemen and merchants in the United Kingdom.

The “Phoenix Office” has carried on an extensive and successful business for upwards of “Seventy-five Years”. The duty paid by it to Government for Insurances in Great Britain and Ireland alone (exclusive of Farming stock) exceeds *One Hundred and Twenty-five Thousand Pounds* sterling per annum.

Annual and short time Insurances are undertaken by the “Phoenix Company,” on almost every description of risk in Newfoundland at moderate rates of premium, which may be known on application to the Agents at their Office in St. John’s, where Policies are issued free of charge.

W. & G. RENDELL,

Agents for Newfoundland.

Agents for Newfoundland.

BOWRING, BROTHERS.

St. John's.

ROYAL INSURANCE COMPANY,

Royal Insurance Buildings, North John Street, and Dale Street, Liverpool; and 29, Lombard Street, Corner of Clement's Lane, London.

**CAPITAL—£200,000,
In 100,000 Shares of £20 Each.**

From the Report of 1858.

The experience of the last year affords a striking evidence of the successful working, whilst, it at the same time, furnishes an equally satisfactory illustration of a theory adopted by the Board of Directors, and not left unnoticed in former Reports, viz.:—that a large Revenue, if legitimately and prudently attained, forms a basis of security which no Office of small business can possess to an equal extent.

FIRE DEPARTMENT.

The Shareholders of the *Royal Insurance Company* will not fail to perceive the gratifying proof of the expansion of the business exhibited in the one following fact— that the increase alone of the last three years exceeds the entire business of some of the existing, and of many of the recently defunct Fire Insurance Companies of this kingdom.

The Premiums for the year 1855 being£130,060

Whilst the Premiums for the year 1858 are£196,148

Showing an actual increase of £66,088

or upwards of 50 per cent.

The recent returns of the Duty made by Government for this latter year (1858) again show the “Royal” as more than maintaining the ratio of its increase as stated in former years. Only one among the London Insurance Offices exhibits an advance to the extent of one-half the increase of this Company, whilst all the others respectively fall far short of the moiety of our advance.

LIFE DEPARTMENT.

The amount of new Life Premiums received this year is by far the largest received in any similar period since the commencement of the business, and must far exceed the average of amount received by the most successful Offices in the Kingdom. The number of Policies is—

sued in the year was 832, the Sum Assured £387,752 6s 8d, and the Premium 12,354 3s 4d. These are nett amounts, after deducting guarantees. These figures show a very rapid extension of business during the last ten years. In the year 1848 the new Premiums amounted only to £1,380 9s 1d, so that it will be seen that they are exceeded more than nine fold in the last year! The following Table proves that this increase has taken place by almost regular yearly advances of considerable magnitude: Thus—

No. of Policies.	Sum Assured.	New Premiums.
1848 98	£48,764 17 0	£1,380 9 1
1850 190	95,650 9 11	2,627 4 7
1852 422	181,504 10 6	5,828 5 10
1854 408	161,848 13 4	4,694 16 0
1856 703	297,560 16 8	8,850 3 11
1858 832	387,752 6 8	12,354 3 4

This amount of new business will moreover appear still more encouraging when it is added that the Policies issued are on carefully selected Lives, as in the same year no less than 129 proposals for an aggregate sum assured of £70,974 were rejected, as not coming fully up to the standard of eligibility established by the Company.

The extraordinary Success of the Company, as exhibited in the above Report, and the perfect Security its great Resources afford to Insurers, have been commented on by most of the leading Newspapers in the Country. The following Extract is from the London Times :—

“TIMES” MONEY ARTICLE, AUGUST 6, 1859.

“At the Annual Meeting of the “Royal Insurance Company” to-day, the Report for the year 1858 stated that the Premiums received in the Fire Department amounted to £196,148, showing an increase of £66,088, or more than 50 per cent. in three years. A Dividend of 3s and a Bonus of 4s per Share were declared, free of Income-tax, and £30,000, being the amount of undivided Profits, was carried to the Reserved Fund, now raised to £140,850. In the Life Department 832 New Policies were issued in the year, assuring £387,752, upon which £12,354 was received in New Premiums.”

Division of Profits every Five Years.

TIN WARE,

Constantly on Hand.

WATER-STREET, Two Doors West of W. & H. Thomas & Co's.
ST. JOHN'S, N. F.

Particular attention given to Job Work.

To the Public.

THE undersigned has pleasure in submitting to the patronage of the Public, the NEWFOUNDLAND ALMANACK for 1860. That there are omissions and mistakes he much fears, but trusts that, due allowance will be made for occasional imperfections, seeing that the little Manual has become almost indispensable for general purposes.

The Compiler has again to acknowledge his obligations to W. C. ST. JOHN, Esq., of Boston, for the interesting information relative to the Eclipses, as well as for other Astronomical calculations. He is also indebted to Mr. JAMES CAMPBELL, of the Nautical Academy, St. John's, for the Tidal Tables, which will be found in the Calendar pages; to the Heads of Departments, and others, he is also indebted for the gentlemanly and courteous manner in which the information sought for was supplied.

The ALMANACK for 1860 is printed on a quality of paper much superior to that used for any similar preceding publication, and with new type imported for the purpose; the undersigned trusts, that the patronage he will receive from the general public will prove a full compensation, not only for the expenses connected with its mechanical execution, but also for the toil and responsibility involved in its compilation.

JOSEPH WOODS.

St. John's, Dec. 1859.
