JANUARY,

[hath 31 days.]

It freezes on ;

Till morn, late rising o'er the drooping world

Lifts her pale eye unjoyous. Then appears

The various labour of the silent night :

Prone from the dripping eave and dumb cascade,

Whose idle torrents only seem to roar,

The pendant icicle ; the frost work fair

Where transient hues and fancy'd figures rise.

FEBRUARY,

[hath. 28 days

The whit'ning shower descends
 Broad, wide, and fast, dimming the day
 With a continual flow. The laborer-ox
 Stands cover'd o'er with Snow :—The fowls of heaven
 Tam'd by the cruel season crow'd around
 The winnowing store, and claim the little boon
 Which Providence assigns them. The bleating kind
 Eye the bleak heaven—and sad, dispers'd,
 Dig for the wither'd herb, through heaps of snow,

MARCH.

[hath 31 days.]

The loosen'd tempest reigns :

The mountain thunders ; and its sturdy sons

Stoop to the bottom of the rocks they shade :

Low waves the rooted forest, scatter'd by the winds

Assiduous fury, its giantie limbs—

Thus struggling through the dissipated grove

The whirling tempest raves along the plain.

Th' expansive atmosphere is cramp'd with cold;
 But, full of life and vivifying soul
 Lifts the light clouds sublime, and spreads them thin,
 Fleecy and white, o'er all-surrounding heaven.
 The softer gales succeed, at whose kind touch,
 Dissolving snows in livid torrents lost,
 The mountains lift their green heads to the sky.

MAY,

Oft let me wander o'er the dewy fields
 Where freshness breathes, and dash the trembling drops
 From the bent bush, as through the verdant maze
 Of sweet-brier hedges I pursue my walk,
 And see the country far diffus'd around,
 One boundless blush, one white-empurpled shower
 Of mingled blossoms.

———The breathing prospect bids the muse
 Throw all her beauty forth. But who can paint
 Like nature? Can Imagination boast
 Amid its gay creation, hues like hers?
 Or can it mix them with that matchless skill,
 And lose them in each other, as appears
 In every bud that blows.

JULY,

[hath 31 days.]

'Tis raging Noon:—The mower sinking heaps,
 O'er him the humid hay, with flowers perfum'd;
 And scarce a chirping grass-hopper is heard
 Thro' the dumb mead. Distressful nature pants,
 The very streams look languid from afar;
 Or thro' th' unshelter'd glade, impatient, seem
 To hurl into the covert of the shade.

AUGUST,

[hath 31 days.]

Attemper'd Suns arise

Sweet beam'd, and shedding oft through lucid clouds

A pleasing calm; while broad, and brown, below

Extensive Harvests hang the heavy head.

Rich, silent, deep, they stand; for not a gale

Rolls its light billows o'er the plain:

A calm of plenty!

Hence from the busy joy-resounding fields
 In cheerful error, let us tread the maze
 Of Autumn, unconfin'd; and taste reviv'd
 The breath of Orchard big with bending fruit.
 Obedient to the breeze, and beating ray
 From the deep loaded bough a mellow shower
 Incessant melts away.

A sober calm

Fleeces unbounded ether : whose least wave

Stands tremulous, uncertain where to turn

The gentle current. Then is the time

For those whom wisdom and whom nature charm,

To sooth the throbbing passions into peace,

And woo lone *quiet* in her silent walks.

NOVEMBER.

[bath 30 days.]

Then comes the Father of the tempest forth,
 Wrapt in black glooms. First joyless rains obscure
 Drive thro' the mingling skies with vapor foul;
 Dash on the mountain's brow, and shake the woods,
 That grumbling wave below.
 Snatch'd in short eddies plays the wither'd leaf
 And on the flood the dancing feather floats.

Mysterious round! what skill, what force divine,
 Deep felt, in these appear! a simple train,
 Yet so delightful mixt with such kind art,
 Such beauty and beneficence combin'd;
 Shade, unperceived, so softening into shade;
 And all so forming an harmonious whole,
 That as they still succeed, they ravish still.

In order to find the distance from any place, in the foregoing Table and List, to another, deduct the smaller from the larger number of Miles, and the product gives the distance:—*thus*, do you want to know how far it is from *York* to *Coteau du Lac*, by the Main Road; deduct 931 from 1253, and there remain 322 miles, the true distance; or, if it be a *Cross Road*, and you want to know how far it is from *York* to another place named—say to *Raleigh*; see how far *York* is from *Halifax* (by the List that is given) and how far *Raleigh* is from *Halifax*—deduct 1253 from 1427 and the result is 174 miles, the true distance from *York* to *Raleigh*.

As these Tables and Lists are taken from those used in the Post Office, it must be presumed they are as correct as the present state of the country will admit of.
