GENERAL ANNOUNCEMENTS.

QUEEN'S COLLEGE was incorporated with the style and privileges of a University by a Royal Charter dated 16th October, 1841.

The central situation of Kingston, its salubrity, and the very moderate expense (from \$2,50 to \$3,00 per week) at which suitable boarding can be obtained, are greatly in favour of students repairing thither for a University education.

The twenty-fifth Session will be opened on the first Wednesday (3rd) of October, 1866, in the Convocation Hall, at three o'clock afternoon. An address will be delivered on the occasion by the Rev. Professor MowAT, M.A.

REGISTRATION.—At the commencement of the Session all Students, whether intending to graduate or only desiring to join one or more of the classes, are required to have their names and other particulars inserted in the College Register. For this purpose the Registrar will be in his office at stated times.

ENROLMENT.—After Registration Students are required to wait upon the Professors under whom they propose to study. On presenting Registration Tickets they may be enrolled as members of the classes. Upon the entering of their names in the Professors' lists they receive Class Tickets. At the close of the Session the tickets are returned to the Professors for their certifications and signatures.

MATRICULATION is the act of passing the University Examination at the commencement of a Session, and must be performed annually by all intending Graduates in Arts and Theology. Every Student, before matriculating for the first time, is required to produce a certificate of character from his Minister or other competent person. SUBSCRIPTION.—Upon his admission to the rank of an Undergraduate, every Student is required to subscribe the following declaration :—

"I, _____, being now admitted a Student of Queen's College, do hereby sincerely and solemnly declare and promise that I shall at all times render due respect and obedience to the Principal, Professors, and other authorities of the University, and strictly observe the Laws and Statutes thereof; that I shall give a regular attendance at my classes, and shall apply myself carefully and diligently to the studies in which I am engaged, and perform to the utmost of my power the exercises prescribed; that I shall conduct myself in a courteous and peaceable manner towards my fellow Students; and that I shall always maintain and defend the rights and privileges of the University, and never seek in any way or manner the hurt or prejudice thereof."

Other Students sign the above declaration at the time of registration. No other subscription is exacted.

THE LIBRARY is open to all Students who produce their Registration Tickets to the Librarian, and comply with the By-Laws. The Catalogue, with a supplement recently published, (price 10 cents), must be purchased.

No Class Ticket is signed at the end of the Session unless the holder of it produce the Librarian's certificate that his position in regard to the Library is in all respects in accordance with the By-Laws.

The Library is open daily at one o'clock, for at least half an hour, but during the summer recess, on Fridays only, from 10 to 11, forenoon.

For convenience in consultation, some of the Books are kept in the Medical Buildings, and some of them in the Observatory.

The only fixed revenue of the Library is obtained from Registration Fees, the amount of which is very far from enabling the Curators to make the requisite purchases. During the past year friends of the University have made important additions. It is earnestly hoped that the present year may be as fruitful in that respect as the past. The total number of volumes added during the year ending 1st April is 1082. Upwards of ten volumes have been received from each of the following donors: CHARLES Low, Esq., Montreal; Trustees of New York State Library; Department of Education, Lower Canada; do., Upper Canada; THOMAS PATON, Esq., Montreal; MAXWELL W. STRANGE, Esq., Kingston; Rev. John Darroch, Rev. ROBERT POLLOK, Glasgow, Scotland; J. MACKENZIE, Esq., do.; J. and W. CAMPBELL, Esqs., do.; Swedenborg Association, per D. GILMOUR, Esq., Paisley, Scotland; J. DONALDSON, Esq., Keppoch, Scotland.

THE ASTRONOMICAL OBSERVATORY was founded in 1855 by private subscribers, aided by the Corporation of Kingston, and was transferred to the University by deed of the Corporation in 1861, when new buildings were erected. It contains an Equatorial by Mr. ALVAN CLARKE, with an object-glass of $6\frac{1}{4}$ inches aperture, a small Transit by TROUGHTON & SIMMS, and an Astronomical Clock, constructed by the Assistant Observer, N. F. DUPUIS, B.A.; also the Beaufoy Transit, lent by the Royal Astronomical Society of England, now in operation; a Reflecting Telescope by the celebrated Mr. SHORT, with a speculum of $7\frac{1}{2}$ inches in diameter, presented by the late Principal LEITCH; and a Refracting Telescope, presented by the late A. J. MACDONELL, Esq. A standard Barometer and Registering Thermometers, by CASELLA, have been added recently, and a Micrometer for the Equatorial, by Mr. ALVAN CLARKE. A variety of additional apparatus, such as a large Transit Circle, with two Sidereal Clocks, and the means of Galvanic Registration of Transits, is much required. For the procuring of these, however, the funds of the Institution are altogether inadequate. Numerous important observations are taken and carefully The indications of the Barometer and Thermometer recorded. are observed twice a day, and the results supplied weekly to the press. Local time has been regularly given to the city clock-keeper.

A course of free lectures on Astronomy is given annually. Two of them are delivered in the City Hall, the lecturer last winter being the Rev. WILLIAM M. INGLIS, M.A., F.R.S.E. The others are delivered in the Observatory by the Director.

THE MUSEUM consists chiefly of Mineralogical and Palæontological specimens, embracing collections of Canadian Minerals and Fossils bequeathed by the late Rev. ANDREW BELL, those made by Professor WILLIAMSON, and contributions, illustrating very fully the Minerals and Fossils of Canadian Rocks, presented by Sir WILLIAM LOGAN. Admission may be obtained by applying to the Curator or the Janitor. Occasional demonstrations are given to Students. During the year ending 1st April there has been occasion for acknowledging many donations of Minerals, Fossils, Coins, &c. Friendly services towards the enlargement of the Museum are solicited.

THE BOTANIC GARDEN on the College grounds contains an accurately named and labelled collection of the most important economical, medicinal, and poisonous Plants of Europe and America. During the summer Professor Fowler will continue to superintend the arrangement of them in natural orders. MORNING PRAYERS.—All Students in Arts and Theology are required to attend prayers, except in special cases when absence is allowed by the Principal or Senatus. The attendance is marked in the University certificates given at the end of the Session. Medical Students are invited to be present. Students are also required to attend Divine Service on Sabbath in the churches to which they belong.

ACADEMIC COSTUME.—Graduates and Undergraduates in Arts, when attending prayers, classes, examinations, or University meetings, are required to wear the academic dress. No Student is allowed to come up in Convocation for any honour unless he appear in his proper costume. Information on this subject may be obtained from the Registrar.

FEES.—The following fees are payable strictly in advance— Class fees on University day; Graduation fees on or before the 22nd April.

Students for the Ministry, in connection with the Church of Scotland, are subject only to fees for Registration, Examination, and Graduation, but must sign a declaration that, if they change their intention of entering the said Ministry, they will pay on demand all class fees remitted. This arrangement having been found in many cases to work unsatisfactorily, it is proposed hereafter, with the approval of the Synod, to place all Students whatsoever under the same regulations with regard to fees during the Arts Course, and at stated times during the Theological Curriculum to return to Church Students their class fees with interest.

Students of the third year in the Arts course of this College, may take the last of the four Sessions to which the Curriculum is now extended, without paying Class Fees.

Class Tickets are not signed by any Professor unless a receipt for the payment of all fees be produced.

FACULTY OF ARTS.

Matriculation Examinations and Competitions for Scholarships begin on Thursday, 4th October.

The Full Course, except for Students who entered before October, 1865, extends over four Sessions of seven months each, but when Intrants pass with perfect satisfaction the Matriculation Examination of the second year, the Course may be completed in three Sessions. The appointed order of Classes must be observed by intending graduates. Students proceeding to the Theological Faculty must take the Course prescribed by the Church. Other Students may enter any of the Classes for which they are qualified in any order they please. Students from other Colleges are admitted *ad eundem statum* on the production of satisfactory certificates of attendance and progress.

It is held by a pupil from the Newburgh, Bath, and Kingston County Grammar School, in rotation, provided his attendance at the School for one year or upwards be certified. Candidates are examined in the Grammar School at one of the regular Examinations, by the Head Master of the School and an Examiner appointed by Queen's College. The subjects of Examination are the same as for Matriculation at Queen's College, and the Examination may be written, or oral, or both. No award is made unless the best Candidate acquit himself satisfactorily, and upon the Examiners reporting that no award has taken place, the Scholarship is given by the College Senate to the most deserving Freshman of the year. No Scholarship, the assigning of which is intrusted to the Senatus, is awarded without Examination, and no Student who has failed to pass the University Examination immediately preceding the one by which a Scholarship is adjudged can appear as a competitor.

No Student can hold more than one Scholarship, but proper mention is made of the honour of gaining more.

When a Student gains several Scholarships of unequal value he holds the most valuable one, and the rest are awarded to the other competitors according to order of merit.

BURSARIES.

Bursaries are appropriations made from the Bursary Fund of the Synod of the Church in connection with the Church of Scotland, with the design of assisting Students who are preparing for the Ministry in that Church. They are allotted only after Scholarships given by the Bursary Committee are provided for. The recipients come under a written obligation to repay the money should they change their intention of entering the said Ministry. Applications from Students not Intrants are not entertained unless the University Examination immediately preceding has been passed; at the same time any conditions accompanying particular contributions to the Fund are duly observed.
