Apogee—the present distance from the earth.

Perigee—the least distance from the earth.

ASTRONOMICAL CALCULATIONS, according to Equal or Clock Time.

ECLIPSES OF THE SUN AND MOON, AND TRANSIT OF MERCURY, FOR 1848.

This year there will be four Eclipses of the Sun, two of the Moon, and a Transit of Mercury.

1st. A partial eclipse of the Sun, March 15th,—invisible at this place. This eclipse will be visible in Greenland and the north-eastern portion of North America.

2d. A total eclipse of the Moon, March 19th,—invisible at this place.

3d. A partial eclipse of the Sun, April 3d,—invisible at this place. This eclipse will be visible only to a part of the Southern Ocean.

4th. A partial eclipse of the Sun, August 28th,—invisible at this place. This eclipse will be visible also to only a small part of the Southern Ocean.

5th. A total eclipse of the Moon, September 12th and 13th,—visible.

Eclipse begins	11h. 32m.	P. M.	Sept. 12th,
Total eclipse begins	0 31	A. M.	" 13th,
Middle of the eclipse	1 20	"	" "
Total eclipse ends	2 9	"	" "
Eclipse ends	3 8	"	" "

6th. A partial eclipse of the Sun, September 27th,—invisible at this place. This eclipse will be visible in the northern part of Europe and Asia.

7th. A transit of Mercury, November 9th. The Ingress will be visible from the greater portions of Europe and Asia, and the whole of Africa and South America. The Egress, from the western extremity of Europe, the greater part of Africa and North America, and the whole of South America.

SATURN'S RING will be invisible this year on the 22d of April, and will continue thus throughout the remainder of the year, except that it will be visible from the 3d to the 12th September.

1848.—1st month, JANUARY, begins on Saturday, 31 days.

Moon's Changes.

TABLE OF EXEMPTIONS.

Anatomical Preparations—when imported expressly for the use of any college or school of anatomy or surgery, incorporated by Royal Charter or Act of Parliament, and not imported for sale.

Copies of the Holy Scriptures—printed in the United Kingdom of Great Britain and Ireland, and not imported for sale.

Books, Maps, and Illustrative Drawings—imported for the

use of any library to which the public may have free admission, as also for the libraries of either branch of the Legislature.

Coin and Bullion.

Donations of Books or Clothing—specially imported for the use of, or to be distributed gratuitously by any charitable society in this Province.

Fish—fresh, not described.

Horses and Carriages of Travellers—and horses, cattle and carriages and other vehicles, when employed in carrying merchandize, together with the necessary harness and tackle, so long as the same are *bona fide* in use for that purpose, except the horses, cattle, carriages, and vehicles and harness, of persons hawking goods, wares and merchandize through the Province for the purpose of retail, and the horses, carriages, and harness of any circus or equestrian troop for exhibition. The horses, carriages, caravans, and harness of any menagerie to be free, and horses and cattle belonging to persons coming into the Province for the purpose of actually settling therein.

Hides, Offal and Tallow—of cattle and swine, slaughtered in bond.

Manures—of all kinds.

Models of Machinery—and of other inventions and improvements in the arts.

Philosophical Apparatus—instruments, books, maps, stationery, busts, casts of marble, bronze, alabaster or plaster of Paris, paintings, drawings, engravings, etchings, specimens of sculptures, cabinets of coins, medals, gems, and all other collections of antiquities, provided the same be specially imported in good faith for the use of any society incorporated or established for philosophical or literary pursuits, or for the encouragement of fine arts, or for the use or by the order of any university, college, academy, school or seminary of learning within this Province.

Philosophical Apparatus, &c.—imported for use by any public lecturer for the purpose of gain, and to be re-exported, shall be allowed to be entered under bond of two good and sufficient persons for their exportation within the specified time.

Arms or Clothing—which any contractor or contractors, commissary or commissaries, shall import or bring into the Province for the use of Her Majesty's army or navy, or for the use of the Indian Nations of this Province; provided duty otherwise payable would be defrayed or borne by the Treasury of the United Kingdom or of this Province.

Specimens—of natural history, mineralogy or botany.

Seeds—of all kinds, farming utensils and implements of husbandry; animals for the improvement of stock, when specially imported in good faith by any society incorporated or established for the encouragement of agriculture.

Wearing Apparel—in actual use, and other personal effects not merchandize, implements and tools of trade of handy-crafts-men, in the occupation or employment of persons coming into the Province for the purpose of actually settling therein.

The native produce and manufactures of all or any such of the other British North American Colonies as shall admit the native produce and manufactures of Canada free of duty, shall be entitled to exemption from duties under this Act, with the exception of spiritous liquors.

Also—Cordage, salt, salted or cured meats, flour biscuits, molasses, pitch, tar, turpentine, leather, leather-ware, fishermen's clothing and hosiery, fishing craft, utensils and instruments imported into the District of Gaspé from the United Kingdom, or the Channel Islands or neighboring Colonies, for the use of the fisheries carried on therein:—subject to such regulations as the Principal Officer of Customs at the Port of Quebec shall make, and which he is hereby empowered to

establish for the purpose of ascertaining that such articles are *bona fide* intended to be applied to the use of such fisheries.

TABLE OF PROHIBITIONS.

The following Articles are Prohibited to be imported, under a penalty of £50 together with the forfeiture of the parcel or package of goods in which the same shall be found:

Books and Drawings—of an immoral or indecent character.

Coin—base or counterfeit.

CURRENCY, WEIGHTS AND MEASURES.—Sec. 4.—All sums of money granted or imposed by this Act, either as duties, penalties, or forfeitures, shall be Provincial Currency; and all duties shall be paid and received under this Act, according to British Weights and Measures in use on the 6th day of July, 1825; and in all cases wherein the same are imposed according to any specific quantity or any specific value, the same shall be deemed to apply in the same proportion to any greater or less quantity or value.

WHERE ONLY GOODS MAY BE IMPORTED, ON PAIN OF FORFEITURE.—Sec. 9.—It shall not be lawful to bring or import any goods into this Province, whether by sea, land, coastwise, or by inland navigation, whether any duty be or be not payable on such goods, except into some port or place of entry at which a Custom House now is or hereafter may be lawfully established, &c.

VALUE FOR AD VALOREM DUTIES, HOW ASCERTAINED.—Sec. 15.—In all cases where the duties imposed upon goods imported into this Province are charged not according to the weight, tale, gauge or measure, but according to the value thereof, such value shall be the Invoice value of the goods at the place from whence the same were imported, with the ad-

dition of Ten Pounds per centum thereon ; and the importer or his agent or clerk, shall in the bill of entry thereof state the value for duty of such goods respectively calculated as aforesaid, and shall immediately produce to the Collector or other proper officer of the Customs, the original invoice (if any there be) of such goods, in order to prove the value of such goods; and shall make and subscribe a declaration in the following form:

"I, A. B., of do declare that the invoice (or invoices) now produced by me is (or are) just and true, and that it contains, (or they contain) the exact particulars and true prices of the articles subject to ad valorem duty, and mentioned in the annexed bill of entry, and that I am the importer (or the agent, or clerk of C. D. the importer) thereof. Witness my hand the day of A. B. The above declaration signed at this day of in my presence. E. F., Collector, (or other proper officer.)"

Which declaration shall be written or printed, or partly printed and partly written, on the bill of entry of such articles, and shall be subscribed with the hand of the importer thereof, or his known agent or clerk, in the presence of the Collector, or other proper officer of the Customs, at the port or place of entry, and the cost so declared shall, if not disputed by him, with the addition of ten per centum as aforesaid, be the value for duty; Provided always, that if it shall appear to the Collector, or other proper officer that such goods have been invoiced below the real and true value thereof, at the place whence the same were imported, or if there be no invoices, the articles may in such case be examined by two competent persons to be nominated and appointed from time to time by the Governor in Council, to act whenever need shall be as such Examiners at the port or place ; and such persons shall declare on oath before the Collector or other proper officer, what is the true and real value of such articles at the place whence the same were imported, and the value so declared on the oaths of such persons, with the addition of

ten per centum, shall be deemed to be the true and real value of such articles for duty, and according to which the duties imposed thereon, shall be charged and paid.

FURTHER PROOF.—Sec. 16.—It shall be lawful for the Collector or proper officer, to require from the importer, or his agent, of any goods charged with duty, or conditionally exempted from duty, or exempt therefrom under this Act, before admitting the said goods to entry, such further proof as he may deem necessary, by oath or declaration, production of invoice or invoices, or bills of lading or otherwise, that such goods are properly described and rated for duty, or come properly within the meaning of such exemptions.

BLANK FORMS.—Sec. 76.—All forms and papers necessary for the transaction of any business at the respective Custom Houses or places or ports of entry in this Province, shall henceforth be printed uniformly, and supplied by the proper officer to all such Collectors or other officers as may be in charge of any Custom House, and any other officers of Customs at any port or place of entry within the Province, for the use of persons transacting Customs business thereat.

WAREHOUSING.—Goods may be entered and warehoused, at a regular port, under bond, without payment of duties at the time, under particular regulations specified in the Act of Parliament. Goods warehoused in the meantime, and not taken out of bond until after the 5th January, 1848, shall be subject to the duties set forth in the foregoing tables, when so taken out for consumption, and no other.

PROVINCIAL CURRENCY OF CANADA.

The pound consists of 20 shillings; the shilling of 12 pence. The pound sterling is understood to have the value of £1 4s. 4d. currency, being the value affixed to the sovereign, representing the pound in the United Kingdom. Value in Currency of British and Foreign Coins, by the Provincial Act of 1842 : GOLD—British Sovereign, £1 4s. 4d ; United States

Eagle, coined anterior to 1st July, 1834, £2 13s. 4d; do., coined subsequently to that date, £2 10s 0d ; multiplies and divisions of the above coins pass current in proportionate sums, by tale, (when not wanting more than two grains of their declared weight.) In sums exceeding £50 they are received per ounce at the value of £4 13s. 0d ; French forty franc pieces weighed in bulk—in sums of not less than £50—per ounce, £4 13s. 1d. Old Spanish Doubloon, or Quadruple Pistole, and the Mexican and Chilian Doubloons, coined before 1841—in bulk—per ounce, £4 9s. 7d. La Plataian and Columbian, coined before 1841—weighed in bulk—in sums exceeding £50 currency, per ounce, £4 9s. 5d. Portuguese and Brazilian, coined, before 1841, in bulk in sums of not less than £50 currency, per ounce, £4 11s. 6d. SILVER.—British Crown, 70 6s. 4d; and all other divisions of the silver coin of the United Kingdom, at this rate. Spanish Milled Dollar, United States Dollar, and those of Peru, Chili, Central America, South America, and Mexico, coined before 1841, and weighing 17 dwts. 4 grs., 70 5s. 1d ; half dollar, 2s. 6½d; quarter dollar, 1s. 3d; eighth, 7½d; sixteenth, 3½d; French five franc piece, weighing 16 dwts, 4s. 8d. COPPER.—The British Penny, or any other copper coin, being 5-Gth. of its weight, to be received as (currency) 1d. The subdivisions of the dollar less than halves, and British silver coins, are a legal tender, to the amount of 72 10s. currency, only.

THE BRITISH WEIGHTS AND MEASURE—in use, on the 6th July, 1825, are those now in common use in this Province, and are respectively as follows. Corn gallon, 268.8. cubic inches; Troy weight, 11lbs. 9oz. 7dwts. 12grs. Wine gallon, 231 cubic inches ; Troy weight, 10lbs. 1oz. 9dwts. 22grs. Ale gallon, 262 cubic inches ; Troy weight, 12lbs. 4oz. 6dwts. 8grs. In wine measure, 9 gallons are considered an anker; 18 gallons a rundlet. The Imperial Measures now in use in the United Kingdom, are 1.5th more than those of 1825, now in use in the Province of Canada. To convert Wine gallons into Imperial gallons, or Imperial gallons into

Wine gallons, it will be sufficient for most practical purposes to multiply by 5 and divide by 6; and conversely.

IMPERIAL WEIGHTS AND MEASURES—according to the New or Imperial Standard now in use in Great Britain and Ireland: Imperial gallon, 277.274 cubic inches; Troy weight, 12lbs. 1oz. 16dwts. 16grs. Troy Weight :—The standard pound contains 5760 grs.—24 grains are 1 pennyweight, 20 pennyweights 1 ounce, 12 ounces 1 pound. Avoirdupois Weight:—The standard pound contains—7680grs., being equal to 7000 grains Troy, while the grain Troy equals 1.097 grains Avoirdupois:—16 drams 1 ounce, 16 ounces 1 pound, 28 pounds 1 quarter, 4 quarters 1 cwt, 20 cwt. 1 ton. Stone (Horseman's) 14lbs; do. (Butcher's) 8lbs. The Winchester bushel is 2150.42 cubic inches ; quarter of grain 8 bushels ; quarter of maize or Indian corn 480 pounds. Ten Winchester quarters=9.69417 Imperial. Tares allowed by the Customs:—Coffee in bags and mats, 3 per cent; Raisins in boxes, 15 do; do. in casks, 12 do; do. in frails, 4 do. Raw Sugar in casks, 12 do; do. in boxes, 15 do ; do. in mats, 5 do ; do. in bags, 5 do.

DUTIES IMPOSED ON ARTICLES IMPORTED INTO THE UNITED STATES UNDER THE TARIFF LAW OF 1846.

CANADA POST OFFICE REGULATIONS.

Letters sent by post in Canada, and the other Provinces in British North America, are charged by weight.

The scale of weight for charging postage is the same at that by which letters to and from the United Kingdom, *via* Halifax, are at present charged, viz:—On a letter not exceeding half an ounce, two rates. Exceeding 1 ounce, 4 rates. Exceeding 2 ounces, 6 rates. Exceeding 3 ounces, 8 rates. And for every ounce above four ounces, two additional rates are chargeable, and every fraction of an ounce is chargeable as one additional ounce.

The rates of postage charged on letters conveyed by the post, to and from any of the post-towns in British North America, remain unaltered.

Letters to or from the United Kingdom, *via* the U. States, whether conveyed by packet boat or private ship, are chargeable with 2d sterling, [2½d currency,] the half ounce, as Colonial postage, to or from the frontier line, and so in propor-

tion, according to the scale above expressed. *Note.*—The American postage on such letters is to be paid, or pre-paid, as the case may require.

For every Colonial newspaper, *not exceeding two ounces in weight*, sent by the post between any places in British North America, the rate is one-half penny currency, to be paid or not, at the option of the sender.

For every such Colonial newspaper sent from Canada to a British Colony beyond the sea, when not intended to pass thro' the United Kingdom, or to any foreign country [the United States excepted,] one half penny currency, to be invariably pre-paid at the time of posting. *Note.*—In addition to any foreign or sea postage to which it may be liable.

For every such Colonial newspaper, sent to any part of the United States, one penny currency to be pre-paid.

United States newspapers, brought by the ordinary post to this country, will be liable on delivery to a Provincial rate of one penny currency, in addition to the United States postage which may be due thereon.

Colonial newspapers, addressed to the United Kingdom, or to any British Colony, by way of England, and British newspapers sent by post from the United Kingdom to any part of Canada, are exempt from any postage charge.

With the exception of Colonial newspapers addressed to the United Kingdom, and British newspapers addressed to Canada, which are not limited as to weight, a newspaper, to pass under these regulations, must not exceed the weight of 2 ounces, otherwise it becomes liable to pamphlet postage.

British and foreign newspapers, including newspapers published in the United States, if posted in this Province, are liable to full letter postage.

Pamphlets and publications printed in the United Kingdom, or in British North America, or in the British West Indies, posted in Canada, may be sent to another place in British North America, or to the United States, or to a place in the British West Indies, at the reduced inland rate of one penny per oz.,

in addition to any charge of sea postage, provided they do not exceed the weight of sixteen ounces, beyond which it is expressly ordered that no pamphlet or publication shall be forwarded by post.

Pamphlets and publications printed in the United Kingdom, and brought by post or otherwise for delivery in this Province, will be liable to the above rate of one penny per ounce for conveyance through the post in British North America.—*Note.*—Less weight than one ounce will be charged as one ounce.

Pamphlets and publications printed in the United States, and brought by post from thence into this Province, will be liable on delivery, to the rate of one penny per ounce, Colonial charge; but if posted in Canada, such pamphlets or publications will be liable to full letter postage.

No printed newspaper, supplement to a newspaper, votes or proceedings of any Colonial Legislature, pamphlets or publications can be conveyed by the post at the reduced rates laid down in these instructions, unless they are sent without a cover, or in a cover open at the ends. If this is not done, or if any writing or marks appear upon the cover, or upon the papers, votes, &c., except the address, the whole packet becomes liable to full letter postage.

The postage on letters is charged by weight; those not exceeding half an ounce are rated as follows:—60 miles and under, 4½d; above 60 to 100 miles, 7d; above 100 to 200 miles, 9d; above 200 to 300 miles, 11½d; above 300 to 400 miles, 13½d; above 400 to 500 miles, 6s. 4d; above 500 to 600 miles, 1s. 6d; above 600 to 700 miles, 1s. 8d; above 700 to 800 miles, 1s. 10½d; above 800 to 900 miles, 2s. ½d; above 900 to 1000 miles, 2s. 3d; above 1000 to 1100 miles, 2s. 5d; above 1100 to 1200 miles, 2s. 7½d; above 1200 to 1300 miles, 2s. 9½d; above 1300 to 1400 miles, 3s; above 1400 to 1500 miles, 3s. 2d; above 1500 to 1600 miles, 3s. 4d. Letters from half an ounce to an ounce will be charged two rates, from an ounce to two ounces four rates, from two ounces to

three ounces six rates, and so on, adding two rates for every additional ounce.

Letters by Her Majesty's steam packets via Halifax, from any part of Canada to any place in the United Kingdom, are subject to the following rates:

Not exceeding half an ounce, one rate, or 1s. 4d. currency; half ounce and not exceeding one ounce, two rates, or 2s. 8d. currency; one ounce and not exceeding two ounces, four rates or 5s. 4d. currency; two ounces and not exceeding three ounces, six rates or 8s. currency. And in proportion, adding two rates for every additional ounce. After the first ounce fractional parts are not noticed, thus: if a letter exceed one ounce it is liable to four rates, if two ounces to six rates and so on. Pre-payment not requisite.

RATES OF POSTAGE

IN THE UNITED STATES, UNDER EXISTING POSTOFFICE LAWS.

Every stove kept in a room where there is no fire place, is deemed a fire place.

STATUTE LABOR.

By 59 George III, Chap. 8, sec. 2, every person included in the Assessor's roll, shall work on the highways in proportion to such assessment, viz:

If rated at not more than 25/, two days ; above 25/, and not more than 50/, three days ; above 50/, and not more than 75/, four days : above 75/ and not more than 100/, 5 days ;

above 100*l* and not more than 150*l*, six days; above 150 and not more than 200*l*, seven days ; above 200*l* and not more than 250*l*, eight days; above 250*l* and not more than 300*l*, nine days ; above 300*l* and not more than 350*l*, ten days ; above 350*l* and not more than 400*l*, eleven days; above 400*l* and not more than 450*l*, twelve days. Every 100*l* above 500*l*, till it amounts to 1000*l*, one day; every 200*l* above 1000*l* till it amounts to 2000*l*, one day; every 300*l* above 2000*l* till it amounts to 3500*l*, one day ; every 500*l* above 3500*l*, one day.

Every person possessed of a wagon, cart, or team of horses, or beasts of burthen or draft used to draw the same, shall be liable to work on the highways, not less than three days.

Any person liable to perform less than six days statute labor, may compound for such duty at 2*s.* 6*d.* per day. All persons residing in towns, who are liable to perform more than six days labor, must compound for such duty at 2*s.* 6*d.* per day.

By an act passed during a late Session, all male inhabitants above 21 years of age, not rated, are liable to two days statute labor.

MASTER AND SERVANT.

A very important act was passed last Session of Parliament, to regulate the duties between Master and Servant, in Upper Canada, of which the following is a brief abstract:

The law provides that after any engagement as contemplated by the act, shall have been entered into, any person having thereby engaged to perform any service or work, and who shall, during the period of such engagement, and after the commencement of such employment, refuse to go to work, or who shall (without permission or discharge, leave the employ of the party whom he has engaged to serve, or who shall refuse to obey the lawful commands of the person under whose direction such services are to be performed, or who

shall neglect the service or injure the property of such employer, shall, upon the complaint of such employer, or any other person in charge under him, be liable to punishment for every such offence. It shall be the duty of any one or more Justices of the Peace, to receive the complaints, upon oath, of the parties complaining, of any contravention of the provisions which we have in part narrated, and to cause all parties concerned, to appear before him or them, and to hear and determine the same in a summary and expeditious manner, and to punish parties found guilty of the offence alleged, by fine or imprisonment, and costs ; no fine to exceed five pounds, and no imprisonment to exceed one month, nor be less than one day. The fines are to be paid to the Treasurer of the District, Town or City, in which the conviction takes place, and to be applied to the general uses of such district, town or city.

In every case of a summary conviction under this act, where the sum forfeited or the penalty imposed, shall not be either immediately paid, or paid within such period as the Justice shall at the time of conviction appoint, he may commit the offender to the common jail of the district, for the time limited by the conviction, and offenders may be prosecuted, convicted, and punished, in any district in which they shall be found, and the offence shall be deemed to be committed in such district, whether it be or be not that in which his employer resides, or in which the contract of service was entered into: so that it will be needless for guilty parties to escape the punishment due to their offences by removing to a distance, under the idea that they cannot be followed and prosecuted and punished.

The act applies with equal force to female servants, serving masters as well as mistresses.

IMPRISONMENT FOR DEBT.

An Act to amend the Law of Imprisonment for Debt, in Canada West, was passed at the last session of Parliament, which provides as follows:

That the *Jail Limits* to each district, shall henceforth consist of the whole territory of each district respectively.

That all persons now or hereafter under arrest, or on bail, upon process from any court of law or equity, for the non-payment of costs, or money due, (not a penalty,) shall be entitled to the benefit of jail limits, weekly allowance, and discharge for non-payment thereof—subject, however, to all the privileges and liabilities as if in custody in execution for debt, as a defendant.

That it shall be lawful for any Judge of the Court in which such proceedings are instituted—upon persons thus in custody giving fifteen days notice, in writing, to the plaintiff, or his attorney, of application to be altogether discharged, and making an affidavit that he is not worth five pounds, exclusive of his necessary wearing apparel, and that of his family, and their necessary beds and bedding, and implements of house-keeping for ordinary use, not exceeding ten pounds; and satisfactorily answering, on oath, such interrogatories as his creditor shall or may file and serve—to order the said prisoner to be discharged from custody. But such discharge shall not exempt him from liability to pay such claim at a future time.

That persons arrested, who are entitled to the benefit of jail limits, and desirous of obtaining the same, shall enter into a recognizance of bail, with two sufficient sureties, conditioned in the usual manner—to be filed in the office of the clerk of the court—upon which the sheriff is authorised to admit such person to the limits.

The Court of Queen's Bench are endowed with discretionary power to make such rules for the levying and enforcing payment of moneys due, as shall to them appear expedient and necessary.

COMMON SCHOOL ACT.

The Act to amend the Common School Act of Canada West, provides:

That each incorporated city and town in Canada West shall be a corporation for all common school purposes—who shall appoint a Board of Trustees, not exceeding six in number—the Mayor, or President of the Board of Police, to be *ex-officio* Chairman of said Board of Trustees—which shall be invested with all the authority, and subject to all the obligations, as formerly conferred upon the Municipal Council.

That all moneys raised by assessment, or granted to such city or town for school purposes, shall be expended under the direction of said Board.

That all school houses, &c. heretofore acquired, shall be vested in the corporation aforesaid, to be disposed of as said Board of Trustees shall judge expedient, for the interests of common schools in said town.

That it shall be the duty of said Board to take possession of all common school property, and to manage all moneys or income acquired, for the time being, according to the terms of acquiring or receiving the same; and to do whatever may be deemed expedient and necessary, as to building, repairing, and keeping in order the school houses, &c. which shall be held in trust by them—to determine the number, sites, and description of schools, and whether each shall be denominational or mixed, and the teachers to be employed, and the terms and duties of each—and to furnish such schools with suitable apparatus and books, and the means of warming the same—and to exercise in general, all the powers, and be subject to all the obligations, with which trustees of common schools generally, are invested and subjected, according to law.

That the members of the Board of Police and all clergymen or ministers recognized by law, residing and having pastoral charge in said towns respectively, and no others, shall be Visitors of such schools, and have the same authority as possessed by other visitors in similar cases. Denominational schools to be visited by such clergymen only as are of the same denomination.

That the Board of Police of each town respectively, are empowered to make additional assessments, from time to time, upon the inhabitants of all or any school district, or section, within their jurisdiction, as they shall judge expedient, for the purchase of school sites, erecting, repairing, renting, or furnishing of school houses, the payment of teachers, and for school purposes generally.

THE ROYAL CALENDAR.

THE QUEEN.

ALEXANDRINA VICTORIA, Queen of the United Kingdom of Great Britain and Ireland, only daughter of the late Edward, Duke of Kent; born, May 24th, 1819—succeeded to the throne on the decease of her uncle, King William IV, June 20th, 1837. READING FOR FARMERS.

The celebrated Marshall said that "attendance and attention will make any man a farmer." He was brought up to commerce, and did not give any attention to farming until a mature period of life. He then took a worn out farm of 300 acres near London. In three months he dismissed his bailiff, and performed, by the aid of study and practice, the duties of his office himself. He kept minutes of his operations, and published those from 1744 to 1777. He was acknowledged to be superior to most of his contemporary farmers.

Arthur Young, too, was brought up to commerce. Middleton, in his View of the Agriculture of Middlesex, says one of the best farmers in that county was a retired tailor.

The reason why those who have been brought up to other professions often make excellent farmers is that they have a real taste for agriculture, and enter it with a zeal to which those who have been brought up to it from infancy are strangers.

FRUIT.

As many men are very negligent about cultivating good fruit, we recommend to the ladies to take hold of this business. Our climate is well adapted to the raising of excellent apples, pears, plums, cherries, currants, gooseberries, some kinds of hardy grapes, and other valuable fruits.

All these may be obtained at a small expense; and a small piece of ground will yield a large profit, and when one raises fruit which is known to be good, it is far more valuable than that often called good. We always dread to taste of fruit of an unknown kind, lest we should have our mouths drawn into a shape like that of poor Pat, when he tasted the persimmon, and his brother thought that he was trying to whistle. Now, ladies, give a little expense and attention to fashions, and a little expense and due attention to cultivating fruit, and you will make a great improvement, and soon receive with pleasure the fruit of your doings, instead of saying, in sober reflection, all is vanity.

AGRICULTURAL AXIOMS.

It is an undoubted fact that deep ploughing never need be dreaded.

A small farm well conducted is a source of greater revenue than a large one indifferently managed.

It would be a vast amount of saving to the whole community, if every private owner were required to keep his stock from depredations on his neighbors, instead of imposing this onerous burden upon them.

The profits of agriculture (other things being equal) are in proportion to the attention paid to manuring ; that is, as is the extent of the latter, so will be that of the former.

The corn crop, with the stalk cut up from the ground entire, at a much earlier period than has usually been practiced, is worth about double what it is when gathered in the old way.

Prepared food of some kinds, and for some animals, will go nearly, if not twice as far as that which is given in a raw and natural state.

The raising of tobacco need not impoverish the land, but it is only to the undue and disproportionate space that is allotted to this staple commodity that the mischief it is said to have produced is attributable.

NEW AND CHEAP PAINT.

Take of unslacked lime, a quantity sufficient to make two gallons of white wash when slacked—mix it with a due quantity of water—add to it two and a half lbs. of brown sugar, and about three ounces of salt. The exact proportion of each will be best ascertained by experiment. This, when applied as a paint, becomes perfectly hard and glossy—by mixing either ivory black or lamp black with the ingredients, a beautiful lead color may be had, or a yellow by mixing simple ingredients.

TOBACCO.—It is estimated that the tobacco consumed in Great Britain and this country, costs annually £23,000,000. A huge sum to *end in smoke*.

NATURE'S UNIVERSAL ASSISTANT;
OR DR. J. WEEKS'
ORIENTAL PANACEA PILLS,

Prepared with the most scientific regard to Pharmacy—Warranted free from Mercurial, Mineral, or any other
POISONOUS SUBSTANCE.

THE ORIENTAL PANACEA PILLS have gained for themselves the highest reputation, and a decided preference over all other Pills or Family Medicines yet discovered, as evinced by the universal testimony of those who have used them. They are *Purely Vegetable*, in all their component parts, and compounded with the most scientific regard to Pharmacy, in such just and relative proportions, from the high and invaluable Cathartic to the mild Laxative.

The Panacea Pills, (though active in their operation,) are retained a sufficient time in the stomach, and act as a Detergent. As a Cathartic, they are mild, yet thorough, searching, and effectual in their operation. They never leave the bowels costive; which cannot be said of most other Pills or Family Medicines now before the public. These Pills will cleanse the stomach, and restore a healthy action to the digestive organs, cleanse and purify the blood, re-invigorate the perspirative organs, and may safely be called *Nature's Universal Assistant*. They are so happily compounded, and from such congenial and balmy ingredients, that all their qualities blend in harmonious union, and readily assimilate with the blood and other fluids of the system.

These Pills have been fairly tested, in the removal of Fevers, Inflammation, Erysipelas, Jaundice, Billious Diarrhoea, Pain in the Stomach or Bowels, habitual Costiveness, Sick Head-ache, Sickness at the Stomach, Dizziness, and Drowsiness; and are good in all cases arising from an impure state of the blood. In Intermittent Fevers, or Ague and Fever,

and Chills Fever, these Pills are a complete and effectual remedy, if administered in season; and by occasional use of them, no person can have either of the above named diseases. They may be taken with perfect safety, and will be found, after using a few doses, to give strength and vigor to the system; are safe for children & females, under all circumstances.

Many Certificates might be adduced, showing the great benefit derived from this Medicine; but we will, at present, insert only two, from very eminent and practising physicians.

To all who may use Dr. Weeks' Pills, I take this opportunity to say, that I am decidedly opposed to Quackery; and those who buy Quack nostrums not only spend their money uselessly, but to their great disadvantage, with regard to their health—the Proprietors of such nostrums knowing nothing about the *modus operandi* of Medicine, neither of those diseases to which human flesh is heir.

I, therefore, cheerfully say, that I am acquainted with Dr. Weeks' Medical talents, and with the composition of the Pills which he is now offering to the public; and further, that it is a scientific composition, and is well calculated for the system, in all bilious difficulties; or, in other words, all diseases arising from congestions of the alimentary canal.

D. G. MALTBY, M. D.

Hermitage, Jan. 10 1846.

This is to certify, that I have used, in my practice, for some time past, Dr. J. Weeks' Oriental Panacea Pills, and have found them a very safe and valuable Medicine, in all cases of Fever and Ague, Intermittent and Remittent Fevers, Liver Complaints, and all the various forms of Bilious Diseases which have come under my treatment—and also, a good preventive; and would, therefore, recommend them to all, as one of the best Family Cathartics.

Dr. SIMEON H. GOSS.
