

W. O. CHEWETT & CO'S

List of Medical Books,

SESSION 1864-5.

17 & 19 KING STREET EAST, TORONTO.

(FIRST EDITION.)

W. C. CHEWETT & CO., in presenting their Annual List of Medical Text Books to Students and the Profession generally, have pleasure in stating that their Stock will be found larger and more varied than in any previous year, every branch of Medical Science being well represented.

They have imported during the past Summer small supplies of the best English Works, and New Editions of Standard Works, in advance of those reprinted in the States; they will continue to do this as works of interest are issued, and will strive to place upon their shelves the best selection of Medical Works in the Province.

Toronto, October 1, 1864.

W. C. CHEWETT & CO'S
LIST OF MEDICAL BOOKS,

SESSION 1864-5,

17 & 19 KING STREET EAST, TORONTO.

(FIRST EDITION.)

AMERICAN BOOKS.

To give the utmost advantage consistent with the unsettled state of the Currency in the United States, we will deduct from American Prices as below a discount of FIFTY PER CENT, or in other words, we will sell for HALF the published price. Although some of the Books are slightly advanced in price, and upon some strong cloth binding has been substituted for leather, yet others remain unaltered, and upon the aggregate the advance has been remarkably small; this is therefore the most favourable opportunity for the purchase of Medical Books that has occurred, or may offer again.

Should any change by the Publishers compel us to alter prices, we shall issue a Second Edition of this Catalogue, which when published will immediately cancel the first.

◆
