R E P O R T.

The Committee of the Toronto Church of England Tract Society, in presenting to the public the first annual Report of their proceedings, deem it necessary to commence with a short account of the origin of the Society.

The want of an Institution that would furnish the means of procuring and circulating religious knowledge in accordance with the doctrines of the Church of England, had long been felt among all classes of Churchmen. The Teachers of the Sunday School in connexion with the Cathedral Church of St. James in this city, whilst engaged in visiting the families of their scholars, had frequent opportunities of observing the lamentable ignorance of Church principles so prevalent among the humbler classes of society. To remedy this evil, they projected the formation of an association for distributing among the poor on the Loan system, a variety of plain and simple tracts, unfolding the saving doctrines of the Gospel, and setting forth the Scriptural claims of our Apostolic Church; and also the establishment of a depot, for the general sale of such publications.

Their design having been communicated to the Bishop, his Lordship was pleased to signify his approbation of their undertaking, and kindly consented to become the Patron of the infant Society; a meeting was then called, office-bearers chosen, and the Society organized. A subscription list having been opened in the month of January last, a liberal sum was raised; with it the Committee purchased a small supply of the Bristol Tract Society's publications, which had been imported a short time previously by the Rev. H. J. Grasett and Thos. Champion, Esq.; the amount of

their cost was remitted to England with an order for a further supply ; a small depot was thus at once established, and the work of distribution on a limited scale commenced.

The Society thus formed, its first and principal object is, by the circulation of the publications of the Church of England, such as the Lives of her Reformers and Martyrs, and other Tracts illustrative of her primitive History, Constitution, Doctrine, and Discipline, to furnish the poor with sound religious reading, to dispel the prejudices of the ignorant, and to confirm the attachment of its members to the Church of their forefathers.

The second and scarcely less important, is to form a depot, from which to supply the public at large, and to furnish country Clergymen with Tracts, at a very low rate, for distribution in their respective parishes.

To carry out the first object of this Society, ten distributors have been voluntarily engaged during the past year in circulating tracts in different parts of this city, and through their instrumentality, three hundred families are visited every week, and supplied with sound religious reading.

But a great deal yet remains to be done, and your committee feel that they cannot too strongly urge upon every pious Churchman, the vast importance of this work, and entreating their co-operation, in sowing the seeds of Divine truth, and disseminating a better understanding of the Discipline and Doctrines of our Church, particularly among the poorer and more uninstructed orders of Society.

The Tracts have been uniformly received with the greatest readiness and thankfulness, by all denominations, (Roman Catholics alone excepted,) as the following extracts from the notes of some of the Distributors will show.

One Distributor says—In many cases the people meet me at their doors with the Tracts in their hands, at the regular hour of distribution.

Many of the Distributors also report that not only are the people thus ready and eager to receive them, but if any thing should occur to prevent them from going round on the regular day for distribution, great disappointment is expressed by all.

Another says that they often express their gratitude for receiving them, and whenever they have met with any thing that particularly pleases them in the course of their reading, are sure to mention it the next time he visits them.

Another reports that in many cases where a person has left his district and removed elsewhere, they have begged for a few tracts to take with them.

Another distributor mentions a very interesting instance of the good effects produced by the Tracts, in the case of a coloured family at whose house he visited; it is as follows: "calling one afternoon, I found two other coloured men in company with the husband (who is about fifty years of age); when I was about leaving the house, he (the husband) asked me if I had any Tracts to give away, as he wished to give some to his two friends then present, who had come to see him, and who reside near Lake Simcoe, for, said he, 'I receive much benefit from them myself, and I wish that my friends had some of them to take home to their families;' 'That first tract,' he continued, 'you lent me on the martyrdom of the Rev. John Rogers, done me much good.' That he was sincere in what he said I cannot for a moment doubt, for as he was speaking of the sufferings of the martyr and of his strong faith, the tears, as they trickled down his face, bespoke the feelings of his soul in language not to be misunderstood." These examples, selected from a great number contained in the reports which have been sent in, shew how much good may be effected by this system of Loan Distribution. And while those at present engaged, are encouraged by the success which through the divine blessing has attended their exertions, they earnestly entreat others to come forward, to enter the wide field which still remains unoccupied, and devote a portion of their time to this work and labour of love.

The delay which occurred in obtaining from England the second supply of Tracts, which did not arrive until the beginning of December last, and the great number required by the Distributors, which drew largely upon the then slender stock of the Society, have rendered them unable to meet the

demands of the public to any extent during the past year, and the sales have consequently been very trifling, the number of pages sold amounting only to about 30,000. The additional stock which they have at length received, amounting to about 21,000 Tracts from the Bristol Society, will now enable this Society to answer without difficulty, any orders they may receive from the Clergy or others.

The Bristol Society kindly accompanied the tracts with copies of their 28th Report, together with specimens of two new tracts which have lately been added to their catalogue. The notice of our Society contained in their report cannot but afford much gratification to all our friends. It is as follows :

“ Since our accounts were closed there has been received an order for twenty-one thousand Tracts from Toronto in Upper Canada, where a Society has been lately formed entitled The Toronto Church of England Tract Society, under the patronage of the Lord Bishop of Toronto, and has received the countenance and support of the Parochial Clergy of that Province. The importance of such an institution at such a time as the present, in a part of Her Majesty’s dominions where the want of truth, unity, and concord has been so lately and fearfully exhibited, will be felt by those who know how social happiness and spiritual prosperity are bound together by that bond of perfectness which it is the object of the Society to strengthen.”

The Committee now conclude this brief statement of the formation of the Society and of its proceedings during the past year, by commending themselves and the important work in which they are engaged, to the sympathies and prayers of their fellow Churchmen. Their cause is the cause of Christ and his Church ; on his grace they rely, trusting in the promise, that while abounding in the work of the Lord, their labour shall not be in vain in the Lord.
