THE

YEAR BOOK

AND ALMANAC OF

CANADA

FOR

1878;

BEING AN

ANNUAL STATISTICAL ABSTRACT OF THE DOMINION

AND

A REGISTER OF LEGISLATION AND OF PUBLIC MEN

IN

BRITISH NORTH AMERICA.

WITH MAP, PRICE 25 CENTS

MONTREAL AND OTTAWA:
PRINTED AND PUBLISHED BY MACLEAN, ROGER & Co.

YEAR BOOK AND ALMANAC OF CANADA FOR 1878.

YEAR BOOK AND ALMANAC OF CANADA FOR 1878.

PUBLISHERS' NOTICE.

TWELFTH YEAR OF PUBLICATION.

The Year Book contains besides the usual Almanac Department? Political, Vital and Trade Statistics, Tariffs and Stamp Duties, and a Record of Public Events of Interest.

The volume for 1878 contains, as its predecessors have done, the fullest and most authentic information of public interest pertaining to British North America, anywhere gathered together in one single work.

A hand-book carefully classified and indexed, containing facts necessary to be known in all parts of the Dominion, and sold for a nominal price, it has a circulation in all parts of the Dominion.

It thus affords advantages to advertisers which cannot be otherwise found.

The Year Book has also a large circulation in Great Britain, the United States and distant Colonies of the Empire.

Price, 25 cents. Allowances made to the trade. All orders for Year Book will be despatched in the order received.

TO ADVERTISERS.—From its circulation all over the Dominion, it offers unrivalled advantages.

Editions will be issued during the winter, and advertisements sent, at whatever period, will be inserted one year in all editions.

Back numbers of the YEAR BOOK may be obtained on application, containing a continuous record of public events in Canada for the last twelve years.

All orders may be sent to T. P. POWELL, General Agent, at the YEAR BOOK Office, No. 217 St. James Street, Montreal, and P. O. Box 1416, Montreal.

tions for latitude to be applied to the times of setting given in pp. 6, 7, 8, of the Calendar, in order to find the times at which the Moon sets at other stations, may be found approximately from lat. 42* to lat. 48*, by multiplying the numbers in the adjoining column by the numbers of degrees by which the latitude exceeds 5°. If the latitude be less than 45°, the signs of the corrections must be charged. The corrections for latitude 49½ and 50° will be more near the truth, if the multipliers (which, according to the preceding rule, would be 4 and 5) be taken as 4½ and 5½. The corrections for latitude to be applied to the times of rising are the same as those used for setting, but with the signs changed.

the same interval. The average value of the same interval. The average value of the first of these corrections is about two minutes to be added for each hour or for each fifteen degrees of longitude west of the central meridian, 4h. 46m.; the correc-tions being subtracted when the place is to the east of the central meridian.

The correction for change of declination

may be disregarded.

The last column in each month on pp. 6, 7, 8, shows the time to which a watch should be set when the sun is due south, or when the shadow falls on the noon

which, according to the preceding rule, would be 4 and 5) be taken as 4½ and 5½.

The corrections for latitude to be applied to the times of rising are the same as those used for setting, but with the signs changed.

In strictness, two corrections for longitude are required,—one due to the motion of the moon in Right Ascension during the interval that elapses between her rising (or setting) and stations. On pp. 9, 10, 11, 12, 13, 14, special tables are also given, showing the local civil times at longitudes; and the other due to the change in the moon's declination during

It will be seen that while there was a decrease on the total business of the year of \$1,184,131, there was an increase in that of Canadian Companies of \$388,365; a very small decrease in that of British Companies, and the business of American Companies fell off over a million and a half, or more than 18½ per cent. The general decrease is much less than in the preceding year. For the first time since 1869, the amount of insurances during the year has been greater in British and Canadian Companies than in American. In 1869, the excess of American over Canadian insurance for the year was nearly \$8,00,000. In 1876, only \$1,274,838.

The total assets of all the Canadian Fire The total assets of all the Canadian Fire companies are stated by the Superintendent of Insurance in his report to the Government to be \$5,418,193, exclusive of subscribed capital not called up, \$13,254-382. The amount at risk is \$351,877,040, giving a security altogether of 5:30 per cent. allowing the subscribed capital to be all available. The income received during the year was \$4.676,688 and the expendit the year was \$4.576,686, and the expenditure \$4,204.506. For every 100 of premium received there were spent \$87.66 for losses, report of the Superintendent of Insur-\$22.59 for expenses and 5.25 for dividends ance:

to stockholders. The number of fires is estimated at 982, with losses stated at \$7,089,845, an amount of loss in one year which in our young country is a very serious matter. To this has also to be added the annual loss of timber by forest

The Accident and Guarantee Cos. business will be seen from the following table

It is expected that when the Consolidated Insurance Act of 1877 goes fairly into operation the Insurance returns will be more perfect and reliable. The actual amount of policies of insurance of all kinds at the close of the year was

Life Insurance.....\$128,227,902 Fire Fire do 413,710,966 Inland Marine 20,134,176 Accident & Guarantee ... 30,501,673 Total.....\$592,574,737

Secretary of State's Repartment.

The NORTH WEST MOUNTED POLICE FORCE were in 1876 transferred from the Department of Justice to that of the Secretary of State. In July, 1876, 82 men of the force accompanied the Lieut.-Governor of the North West Territories to Forts Carletter and Pitt on the Secretary of the Mounte of the Secretary of the Secre the North west Territories to Forts Carie-ton and Pitt on his mission to the Cree Indians. In consequence of the difficul-ties between the U. S. Government and the Indians of Montana, the force at Cypress Hills was increased by 100 men. 4

during the summer for the conveyance of prisoners and witnesses from the fortsa distance of about 700 miles -to Manitoba. The territory claimed by the Blackfeet Indians as their hunting ground having been encroached on by other Indians and been encroached on by other Indians and Half-Breeds, application was made by them to the N. W. Police for protection in their rights. The most friendly feelings everywhere prevail between the Indians and the force. 66 men were discharged during the year, 1 deserted and 1 died, 18 were engaged for a second term and 63 new ones. At the close of the year there were 103 men and 105 horses at Fort Macleod with the commissioner. 95 men and 90 Cypress Hills was increased by 100 men. 4 seven-pounder guns and a supply of ammunition was also forwarded to one of the forts at the Hills, the other having been already supplied with 2 nine-pounders. Tranquillity was secured and the force. 66 men were discnarged during the year, 1 deserted and 1 died, 18 men already supplied with 2 nine-pounders. Tranquillity was secured and the force. 66 men were discnarged during the year, 1 deserted and 1 died, 18 men already for a second term and 68 men were discnarged with the close of the year there were 103 men and 105 horses at Fort Macled with the commissioner, 95 men and 97 horses at Fort Calgary, 20 men and 18 ations. Three escorts were furnished Battleford and Carleton, 29 at Swan River and small parties at Shoal Lake, Qu'Appelle and Beautiful River; in all, 309 men, 26 officers, and 287 horses. The expenditure for the fiscal year was \$408,571. The crops of the Police at Swan River were totally destroyed by grasshoppers and their ravages also caused a scarcity of hay. The liquor traffic is entirely suppressed, and a number of Americans have crossed the border and settled around Fort MacLeod. The customs duties for ten months to the 31st October were \$16,524. Over 20,000 buffalo robes were shipped from the forts. There is also a settlement at Cypress Hills, and customs collections made there by the Police in nine months amounted to \$5,581. From these settlements the U. S. Government obtain almost exclusively their supplies of pemmican for the North West.

GOVERNMENT STATIONERY.

\$56,533.00

and for the remaining half year of 1876, \$28,890; and there was on hand at the close of the year stock to the value of \$17,569. The increased demand over the preceding year was \$6,085, wholly due to an increased consumption as prices were lower. The increased issue for paper for forms, &c., amounted to \$5,824. The waste paper collected from the various departments was very much reduced both in quantity and price, being only 20,000 lbs. against 42,000 the preceding year; and the price having been reduced from \$1.50 to 624 cents per pound.

QUEEN'S PRINTER'S OFFICE.

The Canada Gazette again shows a deficit, the expenditure for the fiscal year being \$3,682.89, and the revenue \$946.18. On the last Saturday of the year the number issued was 1,137, of which 1,049 were gratis.

Twenty-two thousand five hundred copies of Volume I. of the STATUTES, containing the Public and General Acts, Orders in Council, &c., were printed—18,0.0 in English and 4,500 in French. Of Volume II., containing Local and Private Acts, 6,000 English copies and 2,100 French were printed. Over 7,000 of these were bound two volumes in one, and the others separately, making about 23,000 bound volumes, at a cost of \$10,023 or an average of 43½ cents a volume. The cost of Departmental printing and binding largely increased. The number of requisitions during the year were 5,767 against 4,500 the previous year. This increase is ascribed partly to the growth of the country and increased business, partly to concentration of business at the Capital, and partly from the setting in operation recent Postal (conventions, Inspection Act, &c. By Order in Council of December, 1875, the Superintendence of Government Advertising in Newspapers was added to the duties of the Queen's Printer. The amount of this advertising during 1876, in the several Provinces, was:

| P. E. Island | \$ 33 | 70 |
|----------------------|-------|----|
| Nova Scotia | | |
| New Brunswick | 1,392 | 53 |
| Quebec | | |
| Ontario | | |
| Manitoba | | |
| B. Columbia | | |
| And in United States | 373 | 38 |

Total\$12,529 27

The cost of Departmental printing for the year was +33,355 for ordinary printing, and \$3,353 for confidential. The printing done by other than the Government Printers and sent for audit to the Queen's Printer amounted to \$12,375.

Printer amounted to \$12,874. In the REGISTRAR'S BRANCH of the Department, 2,531 documents were engrossed or recorded, and 1,739 pages of copies

made.

One thousand four hundred and sixtynine letters were received by the Department, and 2,630 sent from it; and between 5,000 and 6,000 reports renewed, applications, &c., received.

Public Wonks of Dominion.

CANALS.

On the St. Lawrence navigation from Straits of Belle Isle to the head of Lake Superior, a distance of 2,884 statute miles, there are 70.83 miles of canal, having 54 locks with a total lockage of 5364 feet. The first of the series of canals is the Lachine, 986 miles from Belle Isle. The old works on this canal were kept in good repair during the year 1876, and the extensive new works largely advanced. When finished, the canal will have a depth of 18 feet throughout its entire length, with new entrances at Lachine, Montreal, giving great additional harbour accommodation.

The Beauharnois Canal, 15½ miles from the Lachine on the south side of the St. Lawrence, connects Lakes St. Louis and St. Francis. It is 1½ miles long—with 9 locks—9 feet deep and 80 wide at bottom. All parts of it were put in thorough repair. Traffic was once interrupted during the year for 129 hours—otherwise it was uninterrupted from 1st May to 25th November.

The Cornwall Canal, 32½ miles from the Beauharnois, is 11½ miles long, 9 feet deep and 100 feet broad, with 7 locks and a rise of 48 feet. (Inly a few repairs were required, but a line for enlargement was surveyed and entrance to the harbour located.

Five miles from the Cornwall commence the three canals known as the Williamsburgh. The three are 12½ miles in length, 9 feet depth of water and 50 feet broad, with six locks and a rise of 31½ feet. Between the first and second there are 10½ miles of navigation, and between the second and third 4½ miles. Experiments were made during the summer and autumn of 1876 to test the possibility, by means of a "chain vessel," of so deepening the water at the Galops rapids as to obtain a navigable channel of 14 feet deep from Kingston to Dickinson's Landing. It has been found that this can be done, and this work is re-commended by the Chief Engineer of the Public Works instead of widening the Williamsburg Canals, merely lengthening the locks on these canals. The estimated total cost of the improved St. Lawrence navigation, from Kingston to Montreal, is \$17,960,000, of which \$5,300,000 was under contract at the close of 1876, chiefly on the Lachine canal works.

The Welland Canal, between Lakes Ontario and Erie, is 27 miles and 1099 feet, with branches of about 25 miles. The breadth at present varies from 26 to 90 feet, and the depth is 101. The rise of lockage on the main line is 30 feet and there are 27 locks. A number of repairs were made to keep the canal in thorough order. The new works, being rapidly prosecuted, will establish a navigation throughout with a width of 100 feet at bottom and a depth of water of 15 feet, locks 270 feet long and 45 wide. The greater part of the work on this canal is under contract, and the entrance on Lake Erie at Port Colborne is being deepened and the piers extended so that it will have a safe entrance and a good harbour. The time fixed for completion of the works on this canal was April, 1877, but serious causes of delay occurred, and an extension has had to be granted. The estimated cost, when completed, will be \$12,240,000.

A small canal, half a mile long, connects Burlington Bay with Lake Ontario, and gives access to the Port of Hamilton. It is navigable for vessels drawing ten ft. of water.

THE MONTREAL, OTTAWA AND KINGS-TON NAVIGATION

extends from Montreal through the Lachine Canal and Ottawa River and canals to the city of Ottawa, and thence by the Rideau Canal to Kingston, a total distance of 2464 miles. The St. Annes Lock of \$\frac{1}{2}\text{th}\$ mile, the Carillon Canal, 2\$\frac{1}{2}\text{miles}\$, the Chute a Blondeau \$\frac{1}{2}\text{miles}\$ miles, the carillon mile and the Grenville 5\$\frac{1}{2}\text{miles}\$ miles and so overcome rapids in the Ottawa River. These canals are 30 feet wide at the bottom and 6 feet of water on the sills, with 12 locks, 87\$ feet rise of lockage. Extensive repairs and improvements are being carried on. The year 1876 was marked by the highest water ever known on the Ottawa. It was 15 feet on the lower reaches, and 3 feet 10 inches on the higher, above the highest recorded.

The Rideau Canal is 1281 miles long, from 50 to 60 feet broad at bottom, and 41 feet deep. It has 47 locks and a lockage of

282† rise and 104 fall at high water. Only some small repairs were made on this line during the year. The Ottawa Canals allow the passage of vessels of 100 tons, 100 feet long and 28 broad, drawing 5 ft. of water; the Rideau 250 tons, 110 feet long, 31½ broad, drawing 4½ feet water.

On the Upper Ottawa the Culbute Canal has been constructed to overcome the Culbute and L'Islet rapids. There are two locks 200 feet long, and 45 wide, with 6 feet water, with a lift of 18 to 20 feet. It was expected this work would be thoroughly completed during the summer of 1877.

THE RICHELIEU AND LAKE CHAMPLAIN NAVIGATION

connects the St. Lawrence 46 miles below Montreal to Lake Champlain. It is 81 miles long to the U.S. boundary. The works are the St. Owrs Lock and Dam in mile long, and Chambly Canal 12 miles long. These give a navigable depth of 7 feet, allowing vessels 114 ft. long, 22 broad, drawing 61 feet water and having a tonnage of 230 tons, to pass through them, while the Eric Canal gives only 210 tons, and the Champlain 70.

THE ST. PETER'S CANAL

crosses an isthmus half a mile wide, between the Bras D'Or Lakes and St. Peter's Bay, on the south coast of Cape Breton, N.S. It is about 2,400 feet long, 26 feet wide at bottom, with one tidal lock, the depth being 13 feet at lowest water. A contract having been entered into for its enlargement, this canal was closed in June, 1876, to permit the work being carried on.

For several years a scheme had been under consideration for constructing a canal to connect the Bay of Fundy with the Atlantic Ocean at Baie Verte. A commission having been appointed to investigate the desirability of this construction, reported that, considering the difficulties of the undertaking and the extent of railway facilities existing, it is not in the interest of the Dominion to construct his canal.

The total expenditure for canals during the fiscal year was:

| Construction | 170 700 |
|--------------|-------------|
| Total | \$2,737,283 |

The revenue from canal tolls was \$372,-264 and from hydranlic rents \$57,444. Total, \$129,708.

WORKS ON NAVIGABLE RIVERS.

The rivers under the control of the Dominion Government are the St. Lawrence, Ottawa, St. Croix, Restigouche and St, John, N. B.; Tidnish and Missiguash, N. S.; Fraser, B. C., and Red, Manitoba.

On the St. Lawrence, the work of deepening the channel between Quebec and Montreal was satisfactorily proceeded

with. When finished there will be a depth of 22 feet at lowest water. These works are carried on under the direction of the Montreal Harbour Commissioners. The value of the dredging fleet employed is estimated at nearly \$600,000. On Lake St. Louis, above Montreal, the shoals were removed from the mouth of the river Chateauguay. In the Detroit River much of the Lime Kiln shoal was removed much of the Lime Kiln shoal was removed and a depth of 14 feet at lowest water obtained. A tunnel under this river near Amherstburg is in contemplation. The engineer in charge has reported favorably as to its possibility, and has furnished designs and estimates. On Lake St. Clair a channel, on the east branch of River Sydenham, 50 feet wide and 10 feet deep has been obtained, and a survey of the north branch been ordered. On the St. John River. operations were confined the north branch been ordered. On the St. John River, operations were confined chiefly to the Meductic Falls, the most difficult and daugerous point between Fredericton and Woodstock, and much improvement was effected. A large num-ber of snags were removed from the river below Fredericton. The expenditure on these newtreble rivers in the vacuryous these navigable rivers in the year was, **\$215,905.**

HARBOURS AND PIERS.

Repairs and improvements were made to 10 piers below Quebec on the River St. Lawrence, work continued in the harbours of Kingston, Napanee, Trenton, Cobourg, Port Hope, Port Darlington, Oshawa, Toronto and Oakville, on Lake Ontario; improvements made at Port Burwell and Port Stanley, and surveys of the harbours of Eagle and Morpeth, on Lake Erle; the works at Bayfield, Goderich, Kincardine and Chantrys Island on Lake Huron continued; the waters of Parry Sound on Georgian Bay surveyed; arrangements made for im-Repairs and improvements were made waters of Parry Sound on Georgian Bay surveyed; arrangements made for im-proving the navigation of River St. Mary at the Neebish Rapids; the Kaministiquia River and its entrance at Thunder Bay surveyed with the view of forming a channel 50 feet wide and 13 feet deep to the Pacific Railway terminus. Break-waters are being constructed at St. John, Shippegan, Grande Anse, Campo Bello, in N. B., and dredging done in several har-bours. Improvements were made at some N. B., and dredging done in several nar-bours. Improvements were made at some 20 of the Nova Scotian harbours, and work done at Charlottetown, Crapaud, Colville Bay, Tignish and New London, P. E. Island; the S. W. Miramichi River has been improved to admit steamers at low water, and several harbours in the Maritime Provinces surveyed.
The total expenditure for harbours and piers during the fiscal year was:

| In Ontario | \$279,517 |
|-------------------------------|-----------|
| In Quebec | 56,331 |
| In New Brunswick | 98,905 |
| In Nova Scotia | 150.846 |
| In P E. Island | |
| And for dredging | 93,303 |
| And for Dredge Vessels | 26,545 |
| · · · · · · · · · · · · · · · | <u>`</u> |

their tributaries. The booms form bays, at the entrance and discharge of the slides, to retain the timber. The works on the Saguenay cover a distance of about six miles on La Petite Décharge, one of the two affluents of Lake St. John. There are six works on the St. Maurice besides the boom at its mouth, and one on the the boom at its mouth, and one on the Vermillian, one of its principal tributaries. On the Ottawa and its tributaries there are 78 stations, the furthest being nearly 100 miles from St. Ann's Lock. On the Saguenay, St. Maurice and Trent Rivers, the expenditure for the maintenance of the slides and booms exceeds the receipts; but the reverse is the case with the works on the Ottawa and its tributaries.

| The expenditure on the Saguenay for the last four years was \$12,411 88 On the ≒t. Maurice 100,746 18 On the Trent 3, 1492 04 |
|---|
| Total \$144,650 10 |

Besides this amount, there has been expended for construction \$108,030.68 on the St. Maurice, and 4,662.35 on the Trent, making a grant total of expenditure in three years of \$257,318.18, while the receipts have been only \$61,568.48 on the Saguenay and St. Maurice; on the Trent, none at all. On the Ottawa and branches the revenue in the same time was \$417. none at all. On the Ottawa and branches the revenue in the same time was \$417,076.07, and the expenditure \$2.9,125.79 for repairs and maintenance, and for construction \$299,526.2. Total expenditure \$308,651.81. The total expenditure for slides and booms during the fiscal year 1875-76, was \$114,179.82, and the receipts \$99,954.78.

PUBLIC BUILDINGS.

Besides the usual repairs to the Houses of Parliament and Departmental Buildings, the Library has been completed, the old Library fitted up for the use of the Supreme Court, and the new building on the West Block proceeded with. The area

the West Block proceeded with. The area of this is 1,790 feet, having Ibrooms in the basement and 5s on three upper floors. The Examining Warehouses and Custom House at Toronto are finished and occupied, a new building for Post-office, Customs and Inland Revenue Offices being erected at Guelph; a portion of the extension of the Military College at Kingston proceeded with; an Examining Warehouse at Montreal built, and a large amount of work done on the fortifications at Quebec and Levis; a Marine Hospital constructed at Sydney, Cape Breton; the Penitentiary at Winnipeg and the Government Building completed, and also the Penitentiary at Westminster, B. C.

The expenditure on Dominion Public Buildings during the year was \$1,360,302.

Buildings during the year was \$1,860,302, of which \$452,548 was for Parliament and Departmental Buildings and Rideau Hall.

BRITISH COLUMBIA TELEGRAPH.

extends to Barkerville, Cariboo, 557 miles, and there is a branch of 10 miles from New Westminster to Burrard's Inlet, making in all, 642 miles of telegraph in the Pro-

vince.

The revenue for the fiscal year was \$8,557, and the expenditure \$41,329.

N. W. COMMUNICATION.

The number of passengers carried over the line between Prince Arthur's Landing and Fort Garry was 2,172. The roads were kept in good order, and the construction of the Fort Francis Lock proceeded with. This lock connects Rainy Lake, having 44 miles navigable, with Rainy River and Lake of the Woods, a navigation of 12) miles, having 7 feet depth at lowest water. The total length of the canal is 800 feet. There is a steamer on Rainy Lake kept in good order and regulations. The number of passengers carried over Rainy Lake kept in good order and regularly plying.

RAILWAYS.

The progress made and information ob-

The progress made and information obtained respecting the Pacific Railway will be found in another place.

The Intercolonial Railway, extending from River du Loup, on the St. Lawrence, to St. John, N. B., and Halifax, was opened throughout for passenger traffic on July 1st, 1876. The total length of the road and its branches is 745 miles, of which 176 are in Quebec, 313 in New Brunswick, and 226 in Nova Scotia. The cost of the road was \$13,518,946. The earnings for the year 1876 were \$383,861, and the working expenses \$377,485, a deficiency of \$28,624. On the portion of the line first opened there was a decrease of expenses,

and the average train cost per mile was reduced from \$79.57 to \$73.35. Three thousand one hundred and eighty-one tons of steel rails were laid in place of iron ones, and it is expected that the entire road will be laid with steel rails by July, 1878. The buildings are all in good repair, the rolling stock in good condition, and the line, with its appointments well maintained.

PRINCE EDWARD ISLAND RAILWAY.

This is a 3 ft. 6 inch gauge railway, 198½ miles long. Its total cost before it was assumed by the Dominion Government was \$2,862,766, exclusive of right of way. There were many deficiencies, and \$200,000 was appropriated by the Dominion Parliament to supply them. The rolling stock is now efficient, and a machine shop and General Superintendent's Office have been built at Charlotte-town. The earnings of the road for the year ending 30th June, 1876, were \$118,761, and the expenses \$214,930. Ninety-three thousand nine hundred and sixty-eight passengers and 28,358 tons of freight were carried over the road. The winter traffic was very small, and the rates have to be placed very low to compete with the coasting vessels. The maintenance of the line will be expensive, the ballast being deficient, masonry inferior and rails too light.

TOTAL EXPENDITURE FOR PUBLIC WORKS.

the working expenses \$577,485, a deficiency of \$28,624. On the portion of the line first opened there was a decrease of expenses, \$11,405,448.

Manine of Dominion.

LIGHTHOUSES.

ONTARIO DIVISION.

This division extends from Montreal to Lake Superior, and in it at the close of navigation there were 130 lighthouses and navigation there were 130 lighthouses and light beacons, 5 lightships, 63 buoys and 5 beacons. The number of light keepers was 100. The lights were on the whole in a satisfactory condition, and well looked after. Two range lights were erected in the summer of 1876 at Weller's Bay, Prince Edward County, Ont., and two at the entrance to Rondeau Harbour, Lake Eric. entrance to Rondeau Harbour, Lake Eric. One was crected upon the pier at Penetanguishene, and one on Big Dock Island, Lake Huron. Two range light towers were crected at Southampton, Lake Huron, and one at Goderich. A lighthouse on Lamb Island, at the western entrance to Nepigon Bay, was completed, and one on the eastern entrance commenced. The expenditure for lighthouse construction in this division was \$13,320, and for maintenance \$68.344. and for maintenance \$68,344.

RIVER AND GULF OF ST. LAWRENCE.

This division comprises all below Montreal and on the Richelieu river, the River and Gulf of St. Lawrence, Straits of Belle Isle and N. W. coast of Newfoundland. There were at the end of 1876, 124 fixed and the strain light of the strain light. There were at the end of 1876, 124 fixed and revolving lights, 8 light ships, three with steam fog whistles, 7 steam fog whistles at light stations, 8 fog guns, 71 buoys, 55 beacons and 8 provision depots for relief, of seamen. The number of employés was 162. Lighthouses were completed at Martin River, on Algernon Rock, Lower St. Lawrence; at Cap aux Oles, Charlevoix Co., north shore of St. Lawrence; at Bay St. Paul, north shore Lower St. Lawrence, and an automatic fog horn, worked by water power, placed on Belle Isle. The expenditure for construction account was \$24,278.37. For maintenance \$107,995.

NEW BRUNSWICK DIVISION

\$24,278.37. For maintenance \$107,995.

Embraces the Province of New Bruns-In it were, in operation, at the close of 1876, 64 lights, including one light ship and 7 fog whistles, under the care of 66 keepers. New lighthouses were put in operation in 1876 at St. Andrews, Passamaquoddy Bay, on the River St. Croix, in Charlotte Co.; on Midjie Bluff, in the same Co., and on Washademoak Lake, Queen's Co. A new lighthouse was erected at McManus Point, Grand Lake, and at Pokemouche Gully, Gulf of St. Lawrence, and Big Tracadie, Gloucester Co. The cost of construction during the fiscal year was \$17,820, and of maintenance \$62,551.

NOVA SCOTIA DIVISION.

There were in this 101 lighthouses, I light ship and 10 steam fog whistles, with 100 light keepers and engineers. New lighthouses have been completed and put in operation at George Island, Halifax Harbour, Tor Bay, Guysboro', Guion Island, Cape Breton, Fort Point, La Have River, Big Arrow Island, Petit de 4-rat Inlet, C. B., and Betty Island, near Halifax. Fog whistles have been completed and put in operation at Sambro Island and Cape Sable Island. The lighthouses on this island have been kept up with efficiency. The total cost of maintenance during the year, including humane establishments at St. Paul's and Scatterie, was \$142,:02, and of construction \$42,214.

PRINCE EDWARD ISLAND.

There are in this island 20 light stations, 25 lights and 20 keepers. New lighthouses were put in operation at West Point; Wood Island in the Straits of Northumberland; Block House Point, at the entrance to Charlottetown Harbour; New London; Malpeque; Fish Island; and North Rustico and Tracadte. The total expenditure for construction was \$11,829, and for maintenance, \$13,730.

BRITISH COLUMBIA.

In this Province two new lighthouses—on Beren's Island, entrance of Victoria Harbour; and Entrance Island, Nanaimo—were completed, at a cost of \$8,47. There are now six lighthouses and a lightship, with 14 keepers. The cost of maintenance was \$17,176. The oil for the lighthouses, except those of British Columbia, was supplied by the Union Petroleum Co., London, Ont. In British Columbia, dog-fish liver oil is used at two of the lighthouses, and found to give a brilliant light at less than one-half the cost of the colza oil formerly used. Of the petroleum oil, 111,194 gallons were supplied. The total number of lights in the Dominion on 31st December, 1876, was 488. Steam fog whistles 24, light keepers, &c., '488. Total expenditure for maintenance \$412,000.

DOMINION STEAMERS.

These are the screw steamers Napoleon III., Ladq Head, Newfield, Sir James Douglas and Glendon; the paddle-wheel steamers Druid and Richelieu; and two steam launches, Dolphin and Adele, employed in connection with the river police at Quebec. The Napoleon III. was employed on lighthouse service in the River and Gulf of St. Lawrence and Straits of Belle Isle. The Druid supplied the lights,

&c., from Point des Monts to Montreal, and attended to the buoy service of the river. The Lady Head was employed in the protection of the fisheries. The Newheld was engaged in supplying Nova Scotia and New Brunswick lighthouses, as was also the Glendon. The Sir James Douglas performed the light and buoy service of British Columbia, and conveyed parties and provisions for the C. P. Railway survey. The Richelieu was transferred to the Montreal Harbour Commissioners. A new steamer named the Northern Light was built and fitted out for winter service between Prince Edward Island and the main land. The expenditure for maintenance and repairs of these vessels was \$215,954, and for Northern Light \$50,000.

HARBOUR AND RIVER POLICE.

This force is maintained for the purpose of preventing crimping and preserving order in the ports of Montreal and Quebec during the season of navigation. A tax of 3 cents per ton is imposed on each vessel arriving at those ports. A constant patrol is made on the river during the night by the police boats and the provisions of the Shipping Act strictly enforced. The Chief Constable states that he is informed by masters of vessels, crews are in no port so well protected as in that of Quebec. The amount expended at Quebec was \$27,136.68, and at Montreal \$14,000. Total \$11,222.68. The amount collected was: At Quebec, \$20,790.12; Montreal, \$5,708.97. Total, \$26,499.09. Excess of expenditure over receipts, \$14,723.59.

SICK AND DISTRESSED MARINERS.

The receipts from this fund in 1876 were \$41,287.66, an increase over 1875 of \$3,486.20. This fund is acquired by a duty of two cents per ton on all vessels of more than 10 tons register three times a year. The act does not apply to Ontario, but there has been a grant of \$500 a year each to the hospitals at \$5t. Catharines and Kingston. The expenditure in Quebec on account of sick and distressed seamen was \$27,281.24, and the collections \$18,986 58. In New Brunswick the expenditure was \$9,196, and the receipts \$8,962.34. In Nova Scotia, receipts \$10,425.17, and the expenditure \$15,999 97. In Prince Edward Island the expenditure was \$1,486.09, and receipts \$716.24. In B. Columbia, \$3,418.33 was expended, and \$2,197.33 collected.

The total expenditure for sick, disabled,

The total expenditure for sick, disabled, ship-wrecked and distressed seamen was \$46,828.49, and the receipts \$41,237.66. The deficit in the fund during the last 8 years amounts to \$35,166.

IMPROVEMENT OF HARBOURS.

A tax of 10 cents a ton is imposed on allvessels arriving at Bathurst and Richibucto, N.B., and Amherst and House Harbour, Magdalen Islands, and Cap Chatte, Que. The amount collected during the year was \$3,580 80. A sum of \$10,858 was expended in building a breakwater at Richibucto.

STEAMBOAT INSPECTION.

One thousand one hundred and fortyfive certificates were granted to engineers and assistants in 1876, showing an increase of 216 over 1875. \$3,038 was received as fees, an increase of \$355 over the preceding year. The number of steamers inspected was 689, having a gross tonnage of 111,953 tons and 67,996 tons register. Of these, 293 were in Ontario, 265 in Quebec, 108 in the Maritime Provinces, and 23 in B. Columbia; 291 were paddle-wheel and 397 screw; 262 were passenger; 96 freight, and 331 tug steamers. Fifty-one new steamers, with 2,244 tons register, were added to the list of steamers, and 27 steamers, with a registered tonnage of 3,169 tons, were lost or broken up, showing a loss of 925 tons register. The amount received for tonnage dues and inspection fees was \$11,314.24, and for certificates \$2,497, a decrease of \$1,200 over 1875—a decrease due to a reduction in the rate of duty charged. The expenditure amounted to \$13,081.86, leaving a balance of \$729.38 to the credit of the Steamboat Inspection Fund. The excess of receipts over expenditure during the past seven years amounts to \$23,441.79.

CERTIFICATES TO MASTERS AND MATES.

The Board of Examiners of Masters and Mates held, during the year, 16 meetings at Halifax, 15 at St. John, and 4 at Charlottetown, P.E. I No candidates applied for examination at Quebec. The number of each who passed was:

| | Masters. | Mates |
|--------------|----------|-------|
| Halifax | 34 | 24 |
| St. John | | 26 |
| Charlottetov | vn 5 | |
| | · . — | _ |
| | 92 | 51 |

Fifty-five failed in passing as masters, and 23 as mates.

Since 1871, when the Act went in operation, 746 masters have obtained certificates at \$10 each, and 200 mates at \$500 each. Forty-three certificates of service for master and 16 for mate were granted during the year. Since 1871, 791 certificates for masters, have been issued, and 271 for mates at the rates of \$5 and \$3 each. The total amount of fees received for this service during the fiscal year was \$2,022, and the amount expended \$4,672.

WRECKS AND CASUALTIES.

The casualties to vessels in Canadian waters and to Canadian vessels in other than Canadian waters, during 1876, were 327, representing a tonnage of 116,779 tons register, and the loss as far as could be ascertained *1,885,996. One hundred and forty-four lives were reported lost in Canadian waters, and 120 in foreign waters, Eleven disasters occurred on the inland waters of Canada, and 13 lives lost. The amount of damage was estimated at \$69,88. There was a much larger number of casualties and more lives lost in 1876 than in the preceding year.

SHIPPING MASTERS AND SHIPPING SEAMEN

The number of seamen shipped and discharged at the principal ports of the Dominion during 1876 was:

| SI | hipped. | Dis- | Receipts. |
|---|---------|---------------------|--------------------|
| St. John | | charged. | 2,598 10 |
| Halifax Montreal | 614 | 1,867 368 691 | 1,815 60 417 40 |
| Quebec Liverpool, N.S. | | 333 296 | 1,119 29 356 90 |
| Pictou, N.S. Charlottetown, P. E. I | 787 | 354 | 350 30 580 00 |
| Yarmouth, N.S. | 712 | 508 | 506 90 |
| Totals | 9,595 | 5,729 | \$7,744 41 |

The total expenditure was \$4,931.28.

PILOTAGE.

The pilotage receipts at Quebec for 1876 were:

| | vessels | | \$30,475 59 117,748 63 |
|----|---------|---------|---------------------------|
| To | tals | . 1,116 | \$148,224 22 |

The dividend of each pilot was \$652, and the expenditure of the corporation other than dividends, \$25,639. The number of pilots on the active list was 189, and of apprentices 49. The Decayed Pilot Fund amounted to \$61,303.71. The receipts during the year were \$21,479.76, and the expenditure \$21,308.46. The number of decayed pilots on the list is 55; widows, 68, and children 18, receiving pensions ranging from \$20 to \$160

ranging from \$20 to \$160

At Montreal there were 44 pilots and 20 apprentices. Their gross earnings amounted to \$34,748 60. The amount of the Decayed Pilot Fund is steadily increasing, it now amounting to \$28,716.86. There are 21 pensioners on the list usually of \$60 a year. At St. John there were 40 pilots and 7 apprentices. \$20,112.68 were received from 546 vessels, 364 British and 182 foreign. At Halifax, the total receipts were \$13,999 from 738 vessels—659 British and 74 foreign. The number of pilots was 19. At Pictou there were 6 pilots. The amount of dues received was \$16,589.22 from 578 vessels. In Charlotte Co., N. B., were 4 pilots. The dues received were \$526.75. In the district of Sydney, C. B., were 51 pilots. The number of vessels paying dues was 798, and the receipts \$12,148.58. At Bras 19'Or Lake were 8 pilots and at Richibuted 13. The receipts were not reported. The total number of pilots was 407, and of apprentices 76. The receipes were \$254,641 from the ports that gave in their returns.

HARBOUR COMMISSIONERS AND HARBOUR MASTERS.

Reports were received from Toronto, Montreal, Quebec and Pictou. At Toronton navigation in 1876 opened on the 11th April and closed on the 19th of December. The number of vessels, receipts and expenditure were as follows:

Vessels. Revenue. Expenditure.

| _ | - 5 | - 8 |
|------------------|-------------|------------|
| Toronto 2,278 | $13,297\ 1$ | 5,769 99 |
| Montreal. 6,685 | 861,324 72 | 674,846 54 |
| Quebec Not given | 88,126 11 | 34.869 02 |
| Pictou 1,254 | 5,055,90 | 2 175 33 |

METEOROLOGICAL OBSERVATIONS.

The operations of the meteorological office were somewhat extended during 1876. There are now 10 chief stations in the Dominion, 15 reporting telegraph stations, 4 reserve stations, 38 drum stations, 4 reserve stations, 38 drum stations, and 79 ordinary stations. Reports were received from various stations in N. W. Territories from officers of Mounted Police. 20 rain-gauge stations have been established in British Columbia, and 6 in the vicinity of Lake St. John, Quebec. Altogether there are about 120 stations, of which number 80 are unpaid. The total number of storm warnings issued for the Dominion from the office at Toronto was 351 of which 206 were verified, The expenditure for this service was \$37,000. There are observatories at Toronto, Montreal, Quebec, St. John, N. B., and Kingston, Ont. The correct time is given to these cies daily, and observations taken several times in a day.

MERCHANT SHIPPING.

The number of new vessels built and registered in the Dominion in 1876 was 416, measuring 127,700 tons. The increase of registered fonnage of the Dominion for that year was 55,328 tons. The total number of vessels on the register book of the Dominion on the 31st Dec., 1876, was 7,192, measuring 1,260,893 tons register tonnage. Four new vessels, measuring 3,201 tons, were built for registration outside of the Dominion, giving a total of 420 vessels of 130,901 tons built in the Dominion, which at the average value of \$45 per ton, gives value of new tonage for the year \$5,890,545. The total value of the reg stered tonnage of the Dominion at the end of 1876 was estimated by the Heputy Minister of Marine as \$37,826,790. The merchant shipping is divided among the different provinces of the Dominion as follows:

| | Vessels. | Tons. |
|----------------------|----------|-----------|
| New Brunswick | 1,154 | 324,513 |
| Nova Scotia. | 2,867 | 529,252 |
| Quebec | | 228,502 |
| Ontario | | 123,947 |
| Prince Edward Island | | 50,692 |
| British Columbia | . 40 | 3,809 |
| Manitoba | . 2 | 178 |
| Total | 7,192 | 1,260,893 |

The number of new vessels built and registered was distributed among the provinces as follows:

| New Brunswick | s. Tons. 31,040 58,771 17,800 5,397 14,571 121 |
|---------------|--|
| Total | 127,700 |

COASTING TRADE.

The countries which, by order in Council, are allowed to participate in the coasting trade of Canada, having allowed British ships to participate on equal terms in their coasting trade, are, with the dates at which the order was issued:

| Italy | August. | 1873 |
|-------------------|---------|------|
| Germany | May, | 1874 |
| Netherlands | Sept., | 1874 |
| Sweden and Norway | | 1874 |
| Austro-Hungary | June, | 1876 |
| Denmark | , | 1877 |

An act has been passed to prevent foreign steamers, other than these, from towing ships, vessels or rafts in the Dominion waters.

REWARDS FOR SAVING LIFE.

During the year 1876, 42 testimonials and rewards were presented by the Government for humane exertions in saving life from Canadian vessels. The value of these varied from ten to a hundred dollars, and amounted altogether to about \$1,650.

STAFF AND EXPENDITURE OF MARINE AND FISHERIES' SERVICE.

The number of hands employed on the establishment staff of the Marine and Fisheries Department at Ottawa was 22, and in the outside service 1,596. The total expenditure of the Marine Department, exclusive of fisheries, was, in the fiscal year ending June 30th, 1876, \$980,272.

Dominion Mishenies.

The following information is taken from the Report of the Minister of Marine and Fisheries:

The comparison with the depressed condition of other industries in the Dominion, the Fisheries in 1876 were prosperous. The gross value of the produce of the fisheries for 1876 was \$1,147,590—an increase of \$661,917 over 1875 This production was divided among the various Provinces as follows:

| D E Island | @494 087 |
|--|------------|
| r. E. Island. | Ø 10 1,00° |
| P. E. Island Nova Scotia | 6.029.050 |
| 37 | 1 000 000 |
| New Brunswick | 1,800,600 |
| Quebec | 2.097.667 |
| & depec | 2,001,001 |
| Ontario | 437,229 |
| Ontario | 30,590 |
| WI COUNT OF COMMENT OF | 101/11/2 |
| B. Columbia | 101.097 |

Of the different kind of fisheries, that of cod was by far the most valuable, the value of the codfish taken being \$4,128,100.

The herring fishery was estimated at \$1,848,246; mackerel, \$997,687; haddock, \$906,121; salmon, \$390,774; white fish, \$223,431; oysters, \$50,568; lobsters, \$795,083; fish oils, \$323,548. The value of fish and products of fish exported during the fiscal year was \$5,501,221, as shown by the following table:

| Countries. | Value. |
|------------------------|-------------------|
| Great Britain | \$ 687.312 |
| United States | 1,475,330 |
| France | 3,863 |
| Portugal | 51,836 |
| Italy | 139,387 |

| New Zealand | 8,192 |
| _ | |

Total value...... \$5,501,221

The value of the fish imported into the Dominion was \$1,455,851. The following table shows the countries from which such imports were brought:

| Countries. | Value. |
|--|-----------|
| Great Britain | \$9,119 |
| United States | 692,855 |
| France | 1,821 |
| China | 233 |
| Norway | |
| Newfoundland | 745.977 |
| St. Pierre et Miquelon | 5,822 |
| ************************************** | |
| Total\$ | 1.455.871 |

The value of the fish exported during the last six months of 1876 was \$3,589,000, of which \$783,653 was to the United States. The value of fish imported during the same period was \$924,546, of which 430,924 was fish and fish oil, and products from Newfoundland The total figures for the years 1875 and

1876 stand thus:

| Exports in 1875 \$ | 5,3°0,527 |
|--|----------------------|
| Do 1876 | 5,501,927 |
| Imports in 1875 | 1,600,290 |

Total\$108,183 73

The collections for rents, license fees,

The collections for rents, license fees, &c., were \$13,616.12.

The expenditure from June 30th to December 31st, 1876, was \$58,646.29, and the receipts \$7,182.67.

Six hundred and eighty-nine fishery licenses were issued in Ontario. 606 in Quebec, 55 in New Brunswick, and 14 in Nova Scotia; in all, 1,364.

The staff of fishery officers employed in the outside service now numbers 582. Their reports give particulars of the year's business in each fishery district, details respecting quantity and value of fish caught, and the condition of the fishing, state of the rivers, observance of fishing laws, &c., &c. laws, &c., &c.

The rents for salmon leases amounted to \$3,295. Two thousand eight hundred and eighty salmon were caught by anglers

with artificial files.

There are now 7 public establishments for fish culture, viz.:

Newcastle and Sandwich...in Ontario. Tadousac, Gaspé Basin,
and Restigouche...in Quebec.
Bedford in Nova Scotia.
Miramichi....in N. Brunsw'k.

About 14,000,000 of salmon eggs were expected to be distributed among the rivers in the Provinces in 1877.
The young California salmon, hatched from eggs sent by the United States Fishters Constitute of the total in the

eries Commission, are to be tried in the River Escoumain, Quebec, to test the thriving of Pacific salmon on the Atlantic

Coast.

Department of the Interior.

DOMINION LANDS.

The general depression affected unfavorably the settlement of Dominion lands during 1876. Many important surveys were made. The latitude of Battleford, the capital of the N. W. Territories, was determined with precision at 52.489-60 N. and an exact survey of the place and its surroundings made. Battle River and the Saskatchewan form, at their junction, a long narrow peninsula about 5½ miles long and from three ouarters to one and a half and from three quarters to one and a half miles wide, in great part composed of a sandy ridge 60 or 70 feet high, destitute of wood except on the flats, and gradually leaving the Saskatchewan till it terminates a mile and a quarter from the forks, whence it is continued south-easterly on the other side of Battle river. Good water can be obtained anywhere at the foot of the ridges by digging, and natural springs the ridges by digging, and natural springs occur in many places. The only land which has been cultivated was first ploughed in the spring of 1876, and yielded 25 bushels of wheat to the acre, and the same of barley. Wheat was sown on 17th May and harvested on 20th August, being sown on the sod. Barley sown at the same date was harvested 31st July. The soil on the flats below the ridge is considered much better but is liable to summer frosts, and that to the north of summer frosts, and that to the north of the Saskatchewan better still, but desti-tute of wood, Near Battleford there is plenty of firewood and there is coal some distance up the river. An unusually wet season retarded the progress of the survey of meridians and parallels; 189 miles were surveyed, and a l lines carefully chained twice over throughout. The land south of the Qu'Appelle river was found to be a good sandy loam with plenty of good water, and a fair supply of timber; of good water, and a fair supply of thinest, in the valleys of the streams this was abundant and of good size. Two miles north of the river, the land becomes rolling and sandy for 11 miles, when it again improves for 55 miles, the northern part of the provided water and the provided water water and the stream of the stream particularly being excellent, well wooded and watered, and this continues all the way to Fort Pelly. On the 8th base line westward from the 102 meridian, for 49 miles, poplar bush and willows predominate. The land is good and water abundant. To the north there is an open prairie, the soil still of good quality but little timber. The first frost was on the 31st August. On the 9th base line, for 5 miles south and 14 west, the soil throughout was good sandy loam, and much of the timber fit for use. Fishing Lake, several miles long, was at the end of the line surveyed. From a very careful survey, it is concluded that the whole region west of the Assiniboine between Forts Pelly and Ellice, with the exception of a few small sections,

with the exception of a few small sections, is well adapted for settlement.

No sub-division surveys were made during the season of 1876, except the laying out of five of the fractional townships on the west shore of Lake Winnipeg, for the Icelanders. Since the establishment of

the Dominion Lands Office in 1871, 10,574,-915 acres have been surveyed into townships, sections and quarter sections, at a cost of \$3.83 cents per acre. 31,666 acres of the old settled parishes, on the Red and Assiniboine rivers, have been surveyed and mapped at a cost of \$4,57 per acre. All the settlement surveys in Manitoba were completed in 1876, except one on the Seine River.

Twenty-eight Indian reserves were surveyed and others commenced.

The total amount of lands taken up during the season of 1876 was 154,533 acres. The Mennonites have completely settled the lands allotted to them, and are pros-

the lands allotted to them, and are prospering. Those who settled in 1875, near the boundary west of Red River, had already at the close of 1876 built 17 villages and had 1500 acres of land broken up. The crops in Manitoba were excellent, and there was entire immunity from grass-hoppers. The country about the forks of the Saskatchewan, for a hundred miles up the river, offers great inducements to settlers.

Scrip to the amount of \$518,083 has been issued for Half-breed heads of families, and the original white settlers in Manitoba. Only 47 cases of a special character remain to be dealt with.

NORTH WEST TERRITORIES.

In October, 1876, the "North West Territories Act" of 1875 was put in operation, the whole of the territories of the North West being detached from the Government of Manitoba, and erected into a separate Government, and the easternmost of the territories being set apart under the name of the Territory of Keewatin. By a treaty made with the Crees and other Indians, in August and September, 1876, the whole of the territory east of the Rocky Montains, except some 35,000 square miles, inhabited by Blackfeet Indians, was ceded to the Dominion. The ceded territory contains about 120,000 square miles. The terms of the treaty were similar to that made the year before, except with respect to a provision inserted promising aid to Indians in case of famine or pestilence, &c. The number of Indians within the territory is estimated at 5,000. There are among them a few Assiniboines and Sauteaux and one band of Chippewayans. The treaty was signed by all the chiefs but one. There are still about 4,000 Blackfeet Indians occupying territory east of the Rocky Mountains and south of Jasper House to be treated with. These are reported anxious for the conclusion of a treaty, and very friendly in their disposition. Their number had been lessened by one half during the last 10 or 15 years, and they had become greatly demoralized; but since the advent of the mounted police force their condition has marvellously improved, and they have steadily refused all overtures from the U.S. Indians to take up arms against the whites.

INDIANS OF DOMINION.

The Indian Act of 1876 has met with very general acceptance among the Indians of Ontario. A steady improvement among the Missisaguas and Six Nations is reported by the agent. More lands are brought into cultivation, the wood law has proved beneficial, more attention is being paid to the schools, and drunkenness has diminished. The population steadily increases year by year, and there is gener-

al welfare and prosperity.

A general improvement is noticed among the Indians of the Central Superintendency of Ontario, numbering about 3000. The provisions of the Indian Act have afforded much satisfaction, and the more intelligent of the Indians are quite prepared to assume the responsibility of the franchise. Both of the agents of the Northern Superintendency, at Manito-waning and Parry Sound, speak of the condition of the tribes under their supervision as favorable and gradually improving. More attention is paid to education, more continuous labour done, and farming is slowly superseding hunting, and their honesty and trustworthiness is un-doubted. The agent at Sault St. Marie reports a good deal of sickness among the Garden River Indians, and much want during the winter of 1875-76; a greater in-clination for agricultural pursuits was

growing up among them.

The report from the St. Regis Indians, The report from the St. Regis Indians, Quebec, was not so favorable, the schools were not well attended, and there was more trouble from drinking. The Abenakis of St. Francis are very skilful in the manufacture of baskets. hats, &c.; nearly all cultivate small patches of land, but only three or four do much in clearing the land in their reserve, and their children only three or four do much in clearing the land in their reserve, and their children are not very regular at the schools. The Indians at River du Loup possess nothing but their wigwams, and have no school. Of those about Lake St. John a more encouraging account is given,—many comfortable houses have been built, roads, fences, &c., put in repair, land cleared, a considerable number of the children attend the school and the children attend the school, and though most of the tribe are poor they are on the way to advance. At Miniwaki a good account is given of the school and of the morality of the people, but they were very poor owing to scarcity of furs and high prices of provisions. No returns and high prices of provisions. No feeting were received from a number of agencies in both Ontario and Quebec.

The census return gives the number of Indians in Ontario as 15,549, and in Quebec

The reports from the Nova Solution Indians are not as encouraging as from Optonio and Quebec. They are said to be generally unexceptionable in point of morality, and habits of temper-ance decidedly on the increase; but few of them show an inclination for agricultural pursuits, and they are generally im-provident and very poor, and a great part of their reserves is said to be unfit for cultivation.

In New Brunswick the number of the Indians has slightly increased, but there is not much improvement in other is not much improvement in other respects. At two or three places a little farming has been done, but the ease with which liquor could be procured has been

a bar to advancement.
The few Indians in P. E. Island are said to be improving in their manner of living, but have had a great deal of sickness among them, and are decreasing in number.

The condition of the Indians in Manito-ba and the N. W. Territories is steadily improving. Drunkenness is almost unknown, crime very rare, and there is an almost universal feeling of content replacing the irritation and distrust which

had existed.

Gov. Morris gives a most encouraging account of the Indians of the Saskatcheecount with whom he negotiated a treaty during the summer of 1876 There was a universal demand for teachers and percount to instruct them how to build house. sons to instruct them how to build houses and cultivate the soil. The Indians in Manitoba have already commenced to build houses and cultivate their land, and there are eight schools in successful opera-tion in the Manitoba superintendency. The great diminuation in the herds of buffalo in the last ten years has alarmed the Indians and led them to think seri-custy of other means of subsistence. During the summer many of the Sioux repaired to the reserve on the Assiniboine.

paried to the reserve on the Assimboline, assigned to them and commenced work. In British Columbia, a commission has been organized by the Dominion and Provincial Governments to determine and settle the land grievances of the Indians in that Provinces Amora the actificial for the Columbia of the Colum in that Province Among the coast In-dians a great deal of vice and degradation is found and the race is fast disappearing, except at the few places where missions have been established. Six schools receivnave been established. Six schools received Government aid during the year. Garden seeds, &c., were furnished to some of the Vancouver Island tribes with gratifying results. Large quantities of grain and roots were raised, and in the Cowichan Valley the roots were quite equal to those grown by the whites. A good deat of sickness prevailed during 1876 among the Indians both of Vancouver and the coast. There was small-pox among the northern Indians, and 800 were vaccinated. The mortality among the coast Indians is due to the facility for obtaining Indian whiskey from places on Puget Sound. Sound.

There were attending the schools in the different Provinces, during 1876:

| Ontario | 1857 | pupils |
|--------------|------|---------|
| Quebec | 394 | * *** 4 |
| Nova Scotia | 68 | " |

| | 92,518 |
| | |

There were 37,357 acres of Ontario Indian Lands sold during the year, for \$86,799, and there are remaining unsold 594,994 acres. The expenditures on account of the Indians during the financial year ended June 30th, 1876, for the different Provinces, was as follows:

| Prince Edward Island Nova Scotia | \$ 1,470 40 4,152 30 |
|-------------------------------------|-------------------------|
| New Brunswick,Quebec | 4,011 10 |
| Ontario Manitoba and North West | $23.412 \ 36$ |
| British Columbia | 21,016 21 |

Total \$267,277 48 The number of Indians residing on their

There were no returns from Manitoba or one of the B. Columbia superintendencies. In the Frazer River division 997 acres of land were tilled, the crops being chiefly potatoes. The value of the fish caught in all the agencies reported is estimated at \$36,420, and of the furs \$76.367.

ORDNANCE AND ADMIRALTY LANDS.

Since 1856, when Ordnance Lands were placed under the control of the Canadian Government, nearly \$1,200,000 has been realized and paid over for the benefit of the militia fund. At that time, the properties were valued at \$15,020 per annum, and now they average an annual income of \$50,000. The sales of lands during the fiscal year produced \$76,496. 1200 letters were received and 1025 answered. On account of the lands of Unper Canada Bank. The number of indians residing on their reserves in the five oldest provinces, was estimated at \$50,837. In ow they average an annual income of \$50,000. The sales of lands during the fiscal year produced \$76,498. 1200 letters were received and 1025 answered. On actount of the lands of Upper Canada Bank, other products, besides agricultural, for \$31,743 was paid in, making the total amount of sales of these lands 155,304.

Penitentianies.

The total number of convicts in the five Penitentiaries of the Dominion, on 31st December, 1876, was 1948, being an in-crease of 223 in one year; of these 28 were crease of 23 in one year; of these 28 were females, an increase of one over 1875. The increase of crime is ascribed by all the Wardens of Penitentiaries to want of employment and lowness of wages. As inducements to good conduct there are held out to the convicts in all the penitentiaries, the remission of one-sixth the term of imprisonment, a distinctive mark on the clothing, an increased money gratuity the clothing, an increased money gratuity on discharge, a small quantity of tobacco weekly, permission to see and correspond with friends more frequently, a light in the cell, books from the library and lighter employment. There are Protest-ant and R. C. Chaplains appointed to each pententiary, who perorm their duties with much zeal and devotedness and exercise a beneficial influence, and in concert with the wardens look after the schools. Six of the officers qualified to tend here elegant in the schools in the schools. Six of the officers qualified to teach have classes in the schools in the Kingston and St. Vincent de Paul establishments; the storekeeper in St. John has charge of the school, and at Halifax the accountant. There is a library to each prison, the books for which are selected by the chaplains.

THE KINGSTON PENITENTIARY

Is by far the largest. In it on December 31st, 1876, were 703 convicts, 685 males and 18 females, an increase of 110 over 1875. The expenditure, however, was not increased in proportion, that of 1875 being \$188 per capita and that of 1875, \$170 only. The total expenditure for 1876 was \$106,599. Outside of the Penitentiary work treat the sum of \$23,323 was carried chief. itself, the sum of \$23,332 was earned chiefly from work furnished by the Dominion Government. A great deal of work was

done upon the Penitentiary property itself. The total value of the labour and material in the year was \$100,557. About 150 convicts on an average work outside the prison walls on the farm, in the quar-ries, &c. The sanitary condition is good, everything is kept clean and comfortable, and there is an ample allowance of good plain food. The punishments during the year were not severe, the two most felt being the loss of light and of writing letters. The females knit all the socks, make the shirts, drawers, &c., for the convicts, be-sides some outside work of the same kind. sides some outside work of the same kind. Only three punishments occurred among the females during the year, and the good conduct and industry of the female convicts are vouched for by all the officers. One female convict who had been sentenced for life was pardoned during the year, after an imprisonment of 20 years; ten left by expiration of sentence. Of the male convicts, 114 left by expiration of sentence, 19 were pardoned and 10 sent to the asylum; there were seven deaths, three escaped and thirteen were sent to other penitentiaries. Of those who were discharged, only two had earned no remission of service, and one earned 494 days and another 450. and another 450.

ROCKWOOD ASYLUM.

This institution has been transferred to the Province of Ontario. During the year 1876, 63 patients were admitted of whom 11 were received from the Kingston Penitentiary, the remainder from the Province of Ontario. The total number under treat-ment during the year was 411. The average cost per patient was \$118.21. Seventeen patients were discharged as cured during the year, 28 transferred to other institu-tions and 18 died. The total expenditure was \$46,878. The value of work performed by the patients was \$10.003.40; and of farm and garden produce raised \$1,305.38.

ST. VINCENT DE PAUL PENI-TENTIARY.

On December 31st, 1876, 182 convicts were confined in this institution, an increase of 60 over the preceding year. The average number of convicts during the year was 178, and the average cost per capita nearly \$291 per head, a decrease of \$92 per head over 1875. The total expenditure for 1876 was \$50,331. Many and important works have been done by the prisoners during the year. Lime kilns were constructed, 57 new cells completed, frame buildings put up and material prepared for 60 more cells, more than half a million of brick were made. of which 100,000 were sold. The farming operations were very successful. The products from it were of the value of \$9,193.00, a profit of \$3,750 on the year's transactions, allowing *0 cents a day for convict labour. The value of the labour in the different workshops is estimated at \$18,735. The sanitary condition was excellent. Only one convict died during the year and only four patients remained in the hospital at the close of the year. About 100 of the prisoners regularly attended school, and the library was eagerly availed of. There were several attempts to escape, and 3 prisoners succeeded in escaping; another was fatally injured in attempting to escape. The discipline of the prison has much improved, and the control of every department is much more effective.

HALIFAX PENITENTIARY.

There was an increase in the number of convicts in this prison of 26, there being on 31st December, 1876, 78, viz: 69 male, 5 female and 4 military prisoners. The taverage cost per head was \$229.95, a decrease of \$45.05. The earnings of the convicts employed in the broom department amounted to \$18.534 and the expenditure \$14.502. In the shoe department the earnings were \$14,728, and the expenditure \$923. The value of other convict labour and farm produce was \$3,409. Sixty-six prisoners were punished during the year, and 1321 days remission earned by the convicts. The value of Penitentiary property at Halifax is estimated \$183,591. The sani-

tary condition was extremely good, only 4 patients being sent to the hospital during the year. The chaplains report the conduct of the prisoners good, and the school master states the progress of those in the schools as satisfactory. Thirty attend school regularly.

ST. JOHN (N. B.) PENITENTIARY.

In this Penitentiary also there was a large increase in the number of convicts in 1876. At the close of the year there were 74 convicts and 88 common prisoners. The average number during the year was 183, viz: 64 convicts and 69 common prisoners. The average cost per capita was \$137, 83. Total expenditure \$21,709,63. Three convicts escaped during the year, 8 were discharged on expiration of sentence, and 2 were pardoned. There were no deaths; 7 prisoners were remaining in the hospital at the end of the year. There were 356 punishments of all sorts. 31,779 days work were done by the prisoners of both kinds, at various kinds of work. The value of farm products was about \$955. The articles in store at the end of the year were estimated at nearly \$14,000. The sale of manufactures for the year amounted to \$13,203. The value of the buildings, machinery, &c., was estimated at \$100,251; and of the farm \$9000. The average daily attendance at school was only 17, the conduct good and progress satisfactory.

MANITOBA PENITENTIARY.

There were 15 prisoners remaining in this Penitentiary on the 31st December, 1876, a decrease of 7 during the year. Nine were admitted during the year, 44 punishments were inflicted and 290 days remission earned. The value of the labour performed at 50 cents a day was \$1,922. The value of produce from the garden \$315. The expenditure was \$2,500. Twenty-three convicts were admitted to the hospital; three died and one remained in hospital at end of year. Archdeacon Cowley reported the Penitentiary as a patern of neatness and order, and the most rigid attention to duty, and the R. Catholic chaplain wrote in equally favorable terms.

The Penitentiary in B. Columbia was not in operation at the date of the report of the Inspectors.

Militia.

The report of the Major General commanding, on the state and efficiency of the Dominion Militia during the year 1876. states the reduction of the Parliamentary vote rendered necessary, not only the diminishing the number of men trained during the season of 1876, but also a reduction in the number of days drill. No brigade camps were formed, and only 23,000 men trained at battalion and headquarters; and it was found necessary to decide by ballot which corps should be

called out. The period of drill was restricted to 12 days for Field Batteries of Artillery and 8 days for Cavalry, Garrison Artillery and Infantry. The general results were as good as could be expected. The attendance of both officers and men was good, and the ranks well filled in nearly every corps. The force enrolled in cities, towns and villages is 304 troops, batteries and companies of all arms, with a nominal strength of 18,112 men. The remainder of the active force of 48,000 men

is in the rural districts. The Reserve Militia amounts by law to 600,000, but a considerable time has elapsed since they were mustered. The Military College at Kingston was opened in June 1876, with 18 cadets, and 7 more were admitted in December of that year. The two Artillery schools, and the "A" and "B" Batteries are in every way efficient and doing thoroughly well. The 16 Field Batteries are in thorough order, armed with 9-pounder rifled guns and complete in good harness and equipments. The Garrison Artillery is also in good order, but have not the same advantages for acquiring proficiency. The Military Stores are in good order and have a fair reserve of arms, ammunition and general equipments, except rifle ammunition. A main reserve depot of military material for Western Canada has been established at Toronto. A small battery at Gaspe Basin has been armed with 24 pound guns for practice, and it was expected that 10 rifled guns would be mounted at Quebec early in the season of 1877, and 5 at St. John, N. B. There is a 7-inch breech-loading gun each of the Levis forts, and 16 thirty-two pounder canonades distributed between the three forts. The Commanding General advocates the institution of model schools for regimental education on some approved plan, and the reduction of the volunteer force to such a strength as can be armed, clothed, equipped and instructed with the funds granted the

military department, the present appropriation allowing only 8 days' drill to about half the active force in the year, and being thoroughly inadequate to keep up that force to the standard it had attained. At the Gunnery School at Kingston, 24 candidates obtained first-class certificates and 28 second-class, making 272 first-class and 114 second-class since the opening of the school. At Quebec, 5 were first-class and 41 second, making 77 first and 232 second since the school was established Sixty-seven candidates obtained second-class certificates at the school of military instruction in New Brunswick, and 6 first-class and 49 second-class were obtained in Nova Scotia. Altogether in the Maritime Provinces there were 53 first and 992 second-class certificates issued by the schools The clothing for the active force was all made in the country from Canadian cloth. There is a larger supply on hand than at the close of 1875 320,973 rounds of ball, and 345,184 rounds of blank Snider ammunition were issued for practice, and 511,322 sold to different Riffe Associations and individuals. Twelve M. L. R. 9-pounder guns with carriages complete were received and distributed, making now 60 of these guns in use. Two were forwarded to Winnipeg in September by the Dawson route, making a complete battery of those guns now in that district.

Inland Revenue.

EXCISE.

There was in the fiscal year 1875-76 a considerable increase in the revenue from Excise, mainly in the items of spirits and tobacco. The quantity of spirits taken for consumption in this year was greater by 137,000 gallons than in 1874-5, but less by over 410,000 gallons than the average of the four preceding years. The quantity exported was only 83,037 gallons; about one half of that exported in 1873-4, and 1874-5. The increased revenue is attributable more to the increased tariff than to increased consumption. The quantity

per head throughout the Dominion was 1.204 gallons against 1.304 gallons in the preceding year, and 1.507 gallons average per head since Confederation. The revenue from spirits was \$3,099.893 against \$2,977,221 the preceding year. There was a large decrease in the quantity of spirits used in bonded factories, as also in the quantity remaining in bond at the close of the year. Illicit distillation has been discovered to prevail to a considerable extent; 20 stills were seized during the year, and nine more in the first quarter of the year 1876-77. The following table

shows the quantities of spirits manufactured and consumed during the past five years:

SPIRITS.

| Memo. of Revenue accrued, including License Fees. | F/4 | 2,8S4,067 | 2,825.140 | 3,503,361 | 2,977,221 | 3,099,893 |

MALT AND MALT LIQUORS.

The quantity of Malt manufactured during 1875-76 was greater than during any of the four preceding years, being an increase of over 12,000,000 pounds over the average of those years. But the quantity taken for consumption shows a decrease, as compared with that average of nearly two millions. The quantity exported has largely increased, being nearly five and a two millions. The quantity exported has largely increased, being nearly five and a half millions more than the preceding year, and the quantity remaining in bond was more than double that at the commencement of the year; 27,980,256 lbs. were used in the manufacture of malt liquor, and 2,406,152 lbs. in distilleries. The net revenue from the excise on malt

and malt liquors was \$331,047 against \$351,886 the preceding year.
The following table shows the transactions in malt during the year ending 30th June, 1876, and the four preceding years:

| MALT AND M | AL. | r L | ιQU | OR | s. | |

| Fisoal Year. | | 1871-72 | 1872-78 | 1873-74 | 1874-75 | 1875-76 |

The average of beer consumed per head of the population of the Dominion last year was 2.454 gallons, and since Confeder-ation 2.647 gallons.

TOBACCO.

TOBACCO.

The production of manufactured tobacco was less by 2,398,706 pounds than in the preceding year, but the quantity taken for consumption was greater by 1,778,512 pounds. The stocks in warehouse were reduced by over half a million pounds, there remaining on 31st June, 1876, 2,108,691 against 3,930,494 the preceding year. The quantity of Raw Leaf taken for consumption was: tion was:

> Canadian..... Canadian............ 11,932 lbs. Foreign................ 158,272 " Total..... 170,204

The quantities for five years are shown by the following table.

| | тов | ACC | ٥. | | | | |

| Fear end- ed 30th June. | | | 1871-72 | 1872-73 | 1873-74 | 1874-75 | 1875-76 |

The average quantity of tobacco used per head in the Dominion was 2.316 pounds, while the average since Confed-eration was 2,112 pounds.

CIGARS.

The consumption of Canadian cigars slightly decreased, but there was an increase of 11 per cent. on imported ones and of 4 per cent. on the total consumption. The total consumption was 597,866 pounds, of which 61.52 per cent. was Canadiaa. The revenue from tobacco and cigars amounted to \$1,775,450, an increase of nearly \$\$550,000. crease of nearly \$350,000.

PETROLEUM.

The quantity of Petroleum manufactured in 1876 was a large increase on that of 1875, but not equal to the average of the four preceding years. The quantity taken for consumption however largely exceeded that average, as will be seen by the following table: following table:

| In Warehouse at end of period. | Galls. 453,026 6:3,998 752,189 133,858 298,006 |
|--|---|
| Light- houses free. | Galls 64,364 73,786 58,47 21,687 |
| Allowed for Waste &c. | Galls. 827,480 171,969 2 7,262 825,670 76,634 |
| Taken for Attowed Sonsump- Exported. for Waste tion. | Galls. 6,730,738 7,997,937 883,156 1,140 47,216 |
| Taken for Consump- tion. | Galls. 3,665,263 8,763,742 4,835,146 4,279,406 4,550,187 |
| Manufac- tured dur- ing the year. | Galls. 10,289,998 12,168,406 5,626,902 4,009,663 4,838,215 |
| In Ware-house at commence-ment of period. | Galls. 970,578 453,026 613,998 752,188 183,858 |
| Fiscal Fear. | 1872-72 1872-73 1873-74 1874-75 |

The amount exported in 1875-6, it will be seen, was very small, and the amount remaining in bond more than double that of 1875. The average consumption of Petroleum per capita in the Dominion was 1.360 gallons. The average in 1868 was only .193 of a gallon.

MANUFACTURES IN BOND

Decreased rather more than 25 per cent. These are chiefly vinegar and methylated spirits.

PUBLIC WORKS.

The revenue from Public Works continued to decline. On Canals, there was a slight increase in the trade of the Chambly Canal, Quebec, and the St. Peter's, Cape Breton. The decrease on the Welland amounted to 5.6 per cent, on the St. Lawrence to 1.7 per cent, on the Ottawa to 13, on the Rideau to 18, and on the Burlington Canals to 8.1 per cent, the whole giving an average of 5.1 per cent, decrease in trade From statistics collected by the Commissioner of Revenue, it appears that on the Welland Canal vessels and all classes of staple products have decreased largely in quantity, while upon manufactured goods and merchandise there has been an increase of 4.48 per cent. The quantity of grain transhipped at Port Colborne, and discharged from vessels not entering the canal, is given in the following table;

| 1 | 1878. | Grain Transhipped. 1874. 1875. | nshipped. | 1876, | 1873. | Grain Discharged. | harged. 1875, | 10wing table; | |

| Wheat | 286,540 | 203,760 | 16~,70 | 94,888 | 738,600 | 530,620 | 653,820 | 389,000 | |
| Corn | 118,600 | 143,640 | 1: 9, 160 | 71,680 | 622,300 | 655,400 | 145,800 | 247,040 | |
| Barley | 2,460 | | | | _ | | 9,440 | | |

The number of grain laden vessels lightened at Port Colborne was 84 against 135 in 1875, and the number entering unladen 40 against 62 in the preceding year.

SLIDES AND BOOMS.

The revenue from these works decreased \$22,563, but the uncollected balances increased \$16,063, leaving the actual decrease in tolls \$6,500.

HYDRAULIC RENTS AND MINOR PUBLIC WORKS.

The outstanding balance on amounts of these rents was increased from \$180,899 to 193,199. \$57,444 accrued during the year, of which 45,165 only was paid during the fiscal year.

CULLING TIMBER.

The outstanding claims in this branch were also much increased. They now amount to \$33.901; The fees for the year 1875-76 amounted to \$71.952, of which only \$57,125 was collected. There was a falling off in the fees of some \$17,500.

IN BILL STAMPS

there was a decrease of \$17,444, the revenue from them being \$226,959.

WEIGHTS, MEASURES AND GAS.

Little was accomplished during the fiscal year towards the practical work of inspection.

Eight Boards of Examiners were appointed, and a large number of certificates granted to INSPECTORS OF STAPLE ARTICLES. But very few of these had made returns to the Department at the close of the fiscal year.

Analysis were empointed under the

close of the fiscal year.

Analysts were appointed under the act for the Prevention of Adulteration of Food, and a special report of their work submitted to the Government, some account of which appears in another place. These appointments have greatly augmented the outside service of the Excise, the number of officers now being 598, classified as follows:

| Officers of Excise 201 |
|-----------------------------------|
| Collectors &c., of dues on Public |
| Works 48 |
| Supervision of Culler's Office 18 |
| Licensed Cullers gi |
| Debuty inspectors of Waights |
| and Measures 01 |
| Inspectors of Gas |
| rood Anaivsts |
| Inspectors of Stable Com- |
| modifies 20 |
| Debuty Inspectors of Stable |
| Commodities 110 |
| |

The total expenditure of the Department was \$475,538.51, and the revenue from its various branches \$6,876,332.

The following summary comparison taken from the Report of the Department shows the accrued revenue for the years ended 30th June, 1872, 173, 171, 175 and 176 respectively.

56,949

| | 1872. | 1873. | 1874, | 1875. | 1876. |
|---|-----------|-----------|-----------|-----------|------------|
| | 69- | 69 | 66 | 69 | 6 0 |
| ক | 4,762,378 | 4,513,194 | 5,612,582 | 5,110,353 | 5,538,277 |
| | 592,961 | 636,798 | 672,120 | 558,699 | 537,026 |
| | 74,512 | 79,767 | 95,913 | 89,597 | 71,953 |
| | 191,681 | 201,496 | 200,233 | 244,592 | 226,960 |
| | | | | | |
| | : | : | | : | 2,116 |
| 5 | 5,619,012 | 5,431,235 | 6,589,818 | 6,003,241 | 6,376,332 |

By the above statement it will be seen that the accrued revenue during the year just closed was \$6,876,382 as against \$6,003,-241 for the year 1874-75, being an increase of \$373,091 or about 6½ per cent. This increase has arisen as follows:

| Upon Excise | \$427,924 |
|---|-----------|
| " Weights and Measures Gas and Law Stamp | 2,116 |
| | |
| | 430,040 |

There was a falling off in the revenue-

From Public Works of . \$21,678 Bill Stamps of 17,644 Culling Timber of, 17,632

Leaving a net increase of \$373,091

SUPPLEMENTARY.

In a supplementary report to the report of the Department of Inland Revenue is of the Department of Inland Revenue is given details of the work so far accomplished by the Inspectors of Weights, Measures and Gas, during the six months in which the law had been in operation before the writing of the report. Out of nearly 30,000 weights presented only about a quarter passed the verification after a second and third test. Of weights of the old denominations (56 and 14 pounds) over \$,000 were presented of which only 275 were finally rejected. Out of 37.650 Dominion measures of capacity only 124 were rejected, and 13 per cent. were admitted after a second and third inspection. 5,588 measures of length were presented for verification, of which 52 were rejected.

length were presented for verification, of which 52 were rejected.

Very few Gas Meters were offered for inspection, the total number being 2848; the number verified 2,651; and the number rejected 147 in the whole Dominion.

The illuminating power of the gas during the nine months of 1876 in which it was inspected was always above the standard at its lowest power. In Torontoti fell below the standard in the month of October. In Hamilton and Hallfax it kept well above the standard, the standard in Halifax being 16 candles and the lowest actual average 20 42. In Quebec the average was slightly above and in St. John it fell below in the month of August. In Montreal, during the months from John to fell below in the month of August.
In Montreal, during the months from
June to the end of year, the sulphur was
largely in excess of the allowance,
only once above it in Toronto, while
ammonia always exceeded the standard in both cities. No tests for these substances were made in the other cities during 1876.

Mining in the Dominion.

The subjoined table, showing the exports of the products of the mine for the fiscal years ending June 30th, 1875, and June 30th, 1876, conveys no correct idea of the activity displayed in nearly all branches of mining during the past twelve or eighteen months; and it may be safely said that the trade and navigation returns

for the ensuing year will tell a different tale. It is impossible that the serious and intelligent enterprise brought to bear of late upon such mineral resources as ours should not result ere long in very much more encouraging returns than we have hitherto known.

ONTARIO.

GOLD.

In consequence of the depression of trade and the unsettled state of business, very little progress has been made during the past twelve months in developing the vast mineral resources of the Marmora district. Two difficulties are to be met, that of obtaining money, and that of treating to the best advantage ores containing so much arsenic as those of Marmora. Financial manœuvres, too, seem still to stand in the way of legitimate mining. mining.

Gatling Mine.-About \$50,000 have al-Gatting Mine.—About \$50,000 have already been expended on the works of this mine, and some \$30,000 more are required, which, it is expected, will soon be forthcoming. During the year about 30 tons of ore were sent to New Hampshire for treatment, the result being the satisfactory yield of \$40 per ton of ore taken from the shaft, that is without concentration.

General Tuttle, who is largely interested in the Gatling, has been washing on his own property, adjoining the company's, and has obtained the handsome return of \$2.50 per pan.

The Toronto Company.—This company leased its property last year to Mr. Beattie of Montreal, who put in one of Frne's Concentrators, washing away all rock, sand and quartz, and leaving the ore almost pure. Samples of this concentrated ore were assayed by Prof. Chapman of Toronto, and by Dr. Girdwood of Montreal, the former gentleman giving the result as \$150 per ton, and the latter as \$155. A sample was also sent to Germany, where it was declared to contain not a particle either of gold or silver. On hearing this the company decided to go into ing this the company decided to go into liquidation, and leave the Canadian and German scientists to fight it out.

The Dean Williams.—The Toronto Company's miners and workmen, on the close pany's miners and workmen, on the close of their mine, obtained permission from the proprietors of the Dean Williams to work their mine, and take for wages whatever they could obtain of the precious metal from the ore. Accordingly they pumped out the old shaft (in the same vein as the Toronto Company's shaft,) and went to work. Out of 30 tons of ore, not concentrated, they obtained \$18. of ore, not concentrated, they obtained \$16
per ton. From very poor second class ore
they obtained \$9 per ton, and from what
was described as "waste rock," \$6 per ton; and this on a small scale and with the rudest machinery. The men, about 30 in number, are quite satisfied with their returns, and are working heartily.

The Feigel Mine is being worked by Mr. McRae and a company from Bowmanville About 15 men are employed, and good returns obtained. Mr. McRae takes his weekly "brick" to the Consolidated Bank at Belleville, for which that monetary institution gives its notes very cheerfully.

The Dale Mine is working under diffi-culties, but with untiring energy. No return, of produce have come to hand.

A company of Boston capitalists are now erecting works at Marmora village, for the purpose of testing a new furnace they have patented, with a view to its adaptability to the treatment of the Marmora mispickel. Major Howell, the manager, is largely interested in the patent, and is a gentleman of much experience in mining and mineralogy. He patent, and is a gentleman of much experience in mining and mineralogy. He asks no money. He will buy ore and pay for it. If successful, which he doubts not he will be, he will either go on buying ore, or he will let any company use the furnace on paying a royalty. It has answered admirably in North Carolina and Virginia. Should the Major succeed, the owners of the immense veins of mispickel in Marmora will be for ever in-debted to him. For him and his friends we bespeak the kind consideration and aid of all mining men in the district.

The Province of Ontario is possessed of the most extensive deposit of rock salt which has yet been proved on this con-tinent, or in fact in Europe. Not only are the beds of salt remarkable for their great extent, but equally so on account of the exceptional purity of the mineral itself. The counties of Bruce, Huron and Lambton are underlaid to a considerable extent by the saliferous strata. extent by the saliferous strata. At God-erich the salt was first discovered in May, erich the sait was his discovered in May, 1866, at a depth of 1,010 feet by a boring which was made in search of petroleum.
The bore-hole was carried through 41 feet by the bore-hole was carried throug of the salt-bearing stratum, of which 30 feet were solid rock salt. Other wells were soon put down in the same neighborhood and the adventurers were invariably rewarded with salt, from which they pumped up a supply of saturated brine. About three years later a boring was made at Kincardine, thirty miles north of made at Kincardine, thirty miles north of Goderich, and the salt rock reached at a depth of 900 feet. In the township of Warwick, about sixty miles south of Goderich, the salierous strata were struck at a depth of 1,220 feet and brine of full strength obtained, although not equalling in purity those of Goderich and Kincardine. To the eastward successful wells were sunk at Clinton and Seaforth, the latter place being about 20 miles southeast of Goderich. The productive salt measures have therefore been proved over an area of 1,200 square miles, and their an area of 1,200 square miles, and their limits have not yet been determined, except to the northward where the base of the Onondaga formation crops out at the mouth of the Saugeen river.

All of these borings were made by the All of these borngs were made by the ordinary percussion drill, used so generally in the oil regions, but through the enterprise of Mr. H. Y. Attrill, the diamond drill has been brought into use at Goderich and a depth reached in December last of 1,517 feet. This machine brings up a solid core of all the strata through which it passes, thus furnishing the geologist and miner with an exact section of the rocks underlying. These cores were carefully preserved and sent to Dr. T. Sterry Hunt, F. R. S., for examination. Dr. Hunt has already given, in the reports of the Geological Survey, a very detailed description of the Onondaga formation, but at the last meeting of the Institute of Mining Englineers he read a paper on the Goderich salt region, giving the result of his later observations. The following is the record of the salt-bearing strata, commencing at a depth of 997 feet: core of all the strata through which it at a depth of 997 feet:

| | Total |
|--------------------------|----------|
| Feet. | depth. |
| Rock salt, first bed 31 | 1,028 ft |
| Dolomites, with marl to- | , |
| wards the base 32 | 1,060 |
| Rock salt, second bed 25 | 1,085 |

| greyish, with dolomite | |
| and anhydrite 132 | 1.517 |

There is thus proved here a thickness of 126 feet of solid rock salt, and the magnesian limestones of the underlying Guelph formation not yet reached! This is equal to 865,000 tons per square acre, or the enormots quantity of 283,600,000 tons of salt underlying each square mile. It is evident that the salt supply of western Ontario is likely to last for generations yet to come. The beds referred to as the second and third, are very pure salt, fit yet to come. The beds referred to as the second and third, are very pure salt, fit for mining and sending to market after being crushed to the necessary fineness. A bench of 103 feet thick is of extraordin-A bench of 10% feet thick is of extraordinary purity, containing, by analysis, 99% per cent of salt. The Syracuse, Saginaw, and Turks Island salt contain from 1½ to 2½ per cent of impurities. At present salt is manufactured extensively at Goderich, Kincardine, Clinton, and Seaforth, from saturated brine pumped up from the salt measures. This is boiled down in large open pans, the salt raked out and thrown into bins to dry. The cost by this method averages from \$3.50 to \$4.00 per ton; but Mr. Attrill proposes to sink a shalt down to the rock salt and mine it like coal; the rock salt to be crushed and graded by prorock salt to be crushed and graded by pro-per machinery to suit the various requireper macninery to suit the various requirements of consumers. It is estimated that salt can be mined, crushed and put on board vessels or cars for about \$1.25 per ton. The sinking of a shaft to the depth of 1100 feet, so near to the lake, will require not only a very large expenditure of capital, but will also demand a very high degree of engineering skill.—Monetary Times. Times.

Times.
The exports of salt during the fiscal year ending the 30th June, 1876 were 870,487 bushels, value \$90,216.
"Everyone," says the Monetary Times, "understands the necessity of salt for domestic purposes, but few have any idea of the communic consumption in the arts. of its enormous consumption in the arts and manufactures. It is estimated that and manufactures. It is estimated that fully half a million tons are consumed annually by British metallurgists and chemical manufacturers." The materials for many manufactures into which satt enters are abundant in Canada, especially pyrites, which is the principal source of sulphuric acid.

SILVER.

No details have been received of operations in silver mining The province of Ontario exported, during the fiscal year ending the 30th June, 1876, 691 tons of ore, value, \$581,738.

IRON.

Among the exports of Ontario, of the ab ve mentioned year, appears an item of 14,279 tons of iron ore, value \$30,604.

PETROLEUM.

At an early day in the history of petro-leum in Canada, the officers of the Geo-

logical Survey expressed the opinion that the exhaustion of the oil-bearing area was a question of time. This opinion seems likely to be verified. A thirty barrel well likely to be verified. A thirty barrel well is now considered a good one in a district where, some few years ago, wells often yielded a hundred or a hundred and fifty barrels daily. Mr. Engelhart's large well, however, is stated to yield from 10 to 200 barrels daily. We do not know whether the whole extent of the corniferous limestone has been tested and until that has stone has been tested, and until that has

stone has been tested, and until that has been done, it would be premature to pronounce upon the immediate future of the petroleum industry of Canada.

About 450 wells are in operation, yielding some 1200 barrels daily. Ninety or a hundred are in course of being put down. The cost of sinking is only about a fourth of what it was formerly, and wells which once took from one to three months to sink, can be put down now in from four to ten days. A well 480 feet deep has been drilled in three days and a half. drilled in three days and a half.

The quantity manufactured during the fiscal year 1876-7 was 7,913,754 gallons, against 4,833,215½ during the preceding

vear.

QUEBEC.

Considerable activity has been dis-played this season on the Chaudière and its tributaries. Messrs. Lockwood & Co., of Manchester, have some seventy men at work, and are said to be making expenses at least. Several local companies also are prospecting successfully. The Hon. at least. Several local companies also are prospecting successfully. The Hon. J. H. Pope employs some eight or ten men, who are said to obtain about five dollars per day per man. The gold is merely separated by washing, and much, of course, is lost for want of proper appliances.

COPPER.

The Canada Copper and Sulphur Mining Company (limited) are working the Hartford, the Sherbrooke and the Acton mines. The value of the products averages \$18,000 to \$20,000 per month. The Hartford mine has a shaft down 500 feet in the din of the lode. dip of the lode, the ore improving with depth. A new mine has been struck overlying the old workings, showing a width of seventeen feet of solid ore. This which of sevences feet of some ore. This mine ships about seventy or eighty tons of copper precipitate monthly, averaging eighty per cent. metallic copper.

We believe the Capelton, Harvey Hill and Bolton mines are all doing well, but no returns have been received. The Bolton mines are laborated with the mine ampliance.

no returns have been received. The Bolton mine employs 140 men. The railway is completed as far as the shaft.

During the fiscal year 1875-6, Quebec exported copper ore to the amount of 2,222 tons; value, \$351,146.

SLATE.

The Melbourne slate quarry was opened about sixteen years ago, and after being munity fin the hands of a joint stock company for to come.

some years, and indifferently conducted, has again returned to the possession of a Toronto gentleman, the original owner. It is now worked on contract, and turns out from forty to fifty squares daily. A steam engine has been erected, and the derricks are worked by steam. A mill for sawing and planing slabs is also in course of erection. of erection.

The Rockland Slate Company opened a quarry on the same vein, near Kingsbury, seven miles from Richmond. For nearly five years it has been under the management of Captain Jones, who has succeeded in bringing the quarry into good working order. He has lately resigned, and his loss as a practical man will be regretted by the company. The daily output is from twenty-five to thirty squares, besides dressed slabs and paving stones from the mill. The Rankin Hill slab quarry, about three miles east of Actonvale and within half a mile of the Grand Trunk Railway, was opened about eighteen months ago, and has already produced about four hundred squares of slate. The slate beds in this are more easily teen months ago, and has aircady produced about four hundred squares of slate. The slate beds in this are more easily worked, as they dip only at an angle of from 30° to 40°, as compared with 80° to 90° in the Melbourne district. These slabs also command a better price in the market, as they are of a rich reddish purple in some bands and in others a lightish green. They weather well and do not lose their color. The quarry has attained a depth of nearly forty feet, and a large face is being opened by further stripping. The daily produce is from nine to twelve squares, and preparations are being made for a much larger output next spring. It is quite possible that a profitable trade may be opened up with Europe for these fancy colored slates, as they command double the price of the dark blue in the Euglish market. This quarry and the Rockland quarry obtained prizes at the Centennial Exhibition. A siding from the Grand Trunk will be run into the quarry, thus saving cartage, which in the other quarries amounts to enough to make a fair dividend yearly. the other quarries amounts to enough to make a fair dividend yearly.

Another quarry has been opened by the same parties about a mile west of Actonvale, but the boulder drift being too heavy to remove by derricks, operations have been suspended until a steam shovel is obtained. The rock is also easily worked here and the openings are right alongside of the railway. These quarries are under the management of Mr. John Stewart, who brings experience and ability to bear on their development, and we heartly wish him every success. — Monetary Times, Nov. 3rd, 1876. Another quarry has been opened by the

APATITE.

No returns are available of the quantity No returns are available of the quantity of apatite obtained, but great activity has been displayed of late both in prospecting and development in the region watered by the Gatineau, Du Lievre and Blanche. To judge by the stream of waggons passing through Buckingham, our fossil fertilizer would seem to promise immunity from short harvests for all time to come.

NOVA SCOTIA.

The following table shows the produce of the mines of this province in 1876;

| 1876. | 709,646 | 12,039 | 15,274 | 16 | 45 | 6 | 80,920 | 5,905 | 1,094 | 227 | : |

the shipments to Quebec; and was owing to the fact that freights to that port from Cardiff, Wales, were lower than from

Pictou.

The collieries of Nova Scotia employed in 1876, 3229 miners and other workment and 329 horses, and steam to the extent of 1774 horse power.

GOLD.

The quantity of gold given in the above table, 12,039 ounces, is the produce of 48 mines, crushing 15,490 tons of quartz, yielding an average of 15 dwts. 13 grains per ton. The Montagu mines give the highest rate, 1 oz., 16 dwts., 19 grs., their maximum yield per ton being 19oz. The average yield per man per day of all the mines was \$1.94, the highest being that of the Wine Harbour mines, \$2.79. the Wine Harbour mines, \$2.79.

IRON.

The Steel Company of Canada made a return to the effect that they mined 15,274 tons of iron ore in 1876, and employed, on an average, 72 miners and 87 mechanics, laborers and boys about their several mines at Londonderry, irrespective of those engaged about their furnaces and steel works. Mining operations are now somewhat reduced since the exploitation somewhat reduced since the exploitation is so much in advance of present requirements. A sample of the yellow other, which is abundant in parts of the Londonderry deposits, was sent to England and readily sold. This other has a good dealt and apply the property and the statement and the same and the sam

and readily sold. This ochre has a good dark red color when burnt, and should supply the local market. In the spring the charcoal furnace was blown out, and as the completion of the coke blast furnaces was delayed until late in the year, little metal was made. Some 300 tons of ore were exported to England via St. John and most favorably reported on Several lots of charcoal pig were also shipped from the same port at the low rate of 50 cents a ton freight.

Experiments in coking the various available coals at Pictou and Spring Hill received the attention of the Company, and they believing it to be most economical to make coke at their own works.

received the attention of the Company, and they believing it to be most economical to make coke at their own works, have erected 25 coke ovens to supplement the supply furnished by the Halifax Company (Limited.)

Explorations were nowhere actively conducted during the past year. The only important discovery to be noticed was made at East Bay, Cape Breton, on Lauchlin Currie's farm, some 15 miles from Sydney. The district has been covered by a license to search taken out by Mr. Moseley. The prospecting done on the farm in question has exposed a vein of red hæmatite in a bed of crystalline limestone of Silurian age. The vein varies in the exposures seen, from 5 to 9 feet in thickness, its course is about W.S. W., and the ground is about 400 feet above the waters of the Bay. According to the statements of the people of the district, the surface indications point to the existence of more than one vein and to a probable extension of the series for some 6 miles from French Vale to Thompson's Brook, and even, perhaps, to Escasoni. No analysis of the ore has yet been made.

COPPER.

Prospecting for copper was conducted in Antigonish county, at Polson's and Lochaber lakes and towards Guysborough,

at New Annan and at Cape d'Or.
At Polson's lake, the vein previously
mentioned as discovered in 1875, has been
opened by a shaft 25 feet in the vein, and its thickness there proved to be about 6 feet. The mineral matter at the point feet. The mineral matter at the point opened is chiefly spathic iron ore, yielding 35½ per cent. of metallic iron; it is spotted with copper pyrites. At a distance of 150 feet along the vein, where the cover is reduced from 20 to 5 feet in thickness, another opening was made and the width of the vein determined to be 11 feet. The percentage of copper ore is said to have also largely increased. also largely increased.

Mr. Ross, of Pictou, writes that other explorations disclosed three smaller veins

in the same locality.

But the most important discoveries were made on the most southerly of the lots on the 3rd range of the College lands. about 2 miles due west of the College lands. about 2 miles due west of the Southern end of Lochaber lake, where a shaft was put down, striking a vein, an assay of 7 cwt. of whose ore at Swansea gave 19.21 per cent metallic copper. At this place the following veins have been proved in a radius of about 200 fort radius of about 200 feet, and traced 100 to 300 feet:

No. 1-A 3 ft. vein, holding massive pieces

No. 1—A sit vein, nothing massive pieces of copper pyrities.

No. 1a—A 4 ft. vein.

No. 2—A 3 ft. vein, holding much ore.

No. 3—5 to 6 ft. wide, with a shaft 86 ft. deep; 10 per cent. ore.

No. 4—2 ft. wide, with bands of ore 2

No. 5—A 6 ft. vein, already described.
No. 5—A 5 ft. vein.
Other veins, from 1½ to 4½ ft. in thickness were also exposed.

LEAD.

At Caledonia, Guysboro' County, just below Smith's Settlement, on the west bank of the river, two narrow converging veins carrying galena were discovered during the summer of 1875. On one of these veins a tunnel was driven in 120 ft. S. E., cutting the intersection of the two veins at a distance of 85 ft.

The vein average vein it.

The vein averages only 1 in. in width, though it thickens in places to 4 in. Beyond the intersection the gatena diminished in quantity. Then returning to

the mouth of the tunnel a shaft was sunk 26 ft. and a stope from it is now being taken in on the vein with a better result, though present indications are not very encouraging. The owners, Messrs. McClure and Zwickl, with true mining spirit, are determined to further test the district, and will prospect in other sections this year. Nome 18,100 lbs. of very pure galena were extracted and 5 tons sent to England. An analysis of the ore was given last

An analysis of the ore was given last year.

In Cape Breton, on Smith's mountain, about 2 miles from the bridge over the North River that flows into St. Ann's Bay, a quartz vein has been traced for a mile or more, showing, it is said, in the intersections of the brooks. The vein has an east and west course and averages 5 in. in thickness. Where the principal opening was made, it showed some galena spotted with copper pyrites and zinc blende. A sample of 90 lbs. sent to the Institute of Technology, Boston, yielded at the rate of 501 lbs. of concentrated ore to the ton, and at the same rate, 155 lbs. to the ton, and at the same rate, 155 lbs. ingot lead and 2.95 ounces of silver.

ingot lead and 2.95 ounces of silver. Of the \$33,000 worth of gypsum mined last year, \$76,735 worth, at \$1 per ton, was shipped to the United States, which country also took \$26,670 worth of grindstones out of the \$36,00 produced. The fine white and colored marbles of the Mountain Marble Quarries were much admired at the Centennial.

NEWFOUNDLAND.

The Betts' Cove Copper Mine (Mr. Ellers hausen) now employs about a thousand hands. Last season about 20,000 tons of hands. Lass season about allow was one were shipped, and, it is expected, that that quantity will be doubled during the current year. The deposit is large and current year. The deposit is large and well situated for shipping, the cars which bring the ore from the mine dumping it on board the largest ships.

The Union Mine, Tilt Cove, employs about two hundred men, and shipped this

year (1877) some 8,000 tons of ten per cent.

The Lamanche and Port-au-Port Lead

Mines are doing well.

An English ('ompany is about to work quarries of white and pink marble on the Bay of Islands, in the Port-au-Port dis-

The value of minerals exported from Newfoundland in 1876 was over \$700,000, and will probably be twice that amount

BRITISH COLUMBIA.

Notwithstanding the depressed state of | in 1876, show an increase over 1875. The the San Francisco market the returns following table is compiled in the absence from the coal fields in British Columbia | of the return from the Wellington colliery:

COMPARATIVE STATEMENT SHOWING AMOUNT OF COAL RAISED AND SOLD IN 1875 AND 1876 RESPECTIVELY.

| Total output of Coal, 1876 Do. do. 1875 Increase, 1876 | | DO: 1879 | 97644 10 0 |
|--|----------------|----------|----------------|
| Increase, 10/0 | 29,046 15 cwt. | | 42,540 12 cwt. |

We take the following table from the Report of the Minister of Mines of the Province of British Columbia for the year ending 31st December, 1876:

TABLE shewing the actually known and estimated yield of gold; the number of miners employed; and their average earnings per man per year, from 1858 to 1876.

| Year. | Amount actually known to have been exported by Banks, &c. | Add one-third more, esti- mate of gold carried away in private hands. | | Numbers of Miners employed. | Average yearly earnings per man. |
|--|--|--|--|---|---|
| 1858. (6 months.) 1859 1860 1861 1862 1863 1864 1865 1866 1867 1869 1870 1871 1872 1873 1874 1875 | \$ 390,265 1,211,304 1,671,410 1,999,'89 3,184,700 2,801,888 2,618,404 1,996,580 1,860,651 1,779,729 1,331,231 1,002,717 1,349,580 1,208,229 979,312 1,383,464 1,56,178 1,339,986 | \$130,088 463,768 557,138 666,529 1,061,566 933,962 872,801 665,526 620,217 593,243 443,744 384,239 349,860 402,743 326,437 461,154 618,726 446,662 | \$520,353 1,615,072 2,228,543 2,666,118 4,246,*66 3,735,850 8,491,205 2,462,106 2,4*0,*68 2,372,972 1,774,978 1,336,956 1,799,4*0 1,610,972 1,805,7*9 1,84*,618 2,474,904 1,786,648 | 3,000 4,0:0 4,4:0 4,200 4,400 4,400 4,400 4,294 2,982 3,014 2,390 2,348 2,4:0 2,100 2,803 2,883 2,0:4 2,282 | \$173 403 506 634 517 483 849 813 893 814 992 749 569 734 671 567 648 1,222 783 |
| | I | | 00,000,010 | 35,201 | 1 |

Average number of miners employed yearly..... 3,171

It appears from this table, that while there was a considerable falling off in 1876 as compared with 1875, the average earnings per man were respectable; and the reports from the various gold districts appear to be favorable.

SILVER AND COPPER.

A discovery of silver and copper has been made on Salmon Arm, Jarvis Inlet, which is said to be of considerable value in limitless quantity.

to the Province. A company has been formed for working it.

Nothing has been done to develope the iron on Texada Island; but a further discovery has been made by Captain Sturt, on the north end of that Island, and he is now endeavoring to promote its development. The ore is stated by the Minister of Mines to be in the vicinity of inexpansional properties. inexhaustable limestone, and exists itself

Pominion Appointments.

(From Oct. 181, 1816, to Sept. 30th. 1871.) October 7th.—Hon. David Laird, P. C., to be Lieut -Gov. of N. W. Territories. Hugh Richaruson, Esq., of Ottawa, Ont., and of Osgoode Hall, Barrister-at-Law, to be a Stipendiary Magistrate in N. W. Territories. Matthew Ryan, Esq., of Fort Pelly, N. W. Territories, to be do. do. do. Hon. David Laird, Lt.-Gov. of N. W. Territories; Matt. Ryan, Esq., of Fort Pelly, and Hugh Richardson, Esq., Stipendiary Magistrates for said Territories; Jas. Farquharson McLeod, Commissioner, and Acheson Gosford Irvine,

Railways of the Dominion.

At the close of the fiscal year, 30th June, 1876—later than which there are no authorized returns—there were in actual authorized returns—there were in actual operation in the Dominion 4,929‡ miles of railway, besides 228 miles in United States, owned and worked by Canadian Companies. There were under construction 2,142‡ miles upon which work was actually done during the year, and a good many other lines chartered, upon which, work at that date had not been commenced. The gauge of the total mileage was— The gauge of the total mileage was-

981,764 60

4,608,510 70

a decrease in the year of \$4,004,797.13 due to the opening of some new railways for

traffic. The total paid up capital on 30th June, 1876, was \$.33,886,047.73; \$17,454,300 had been granted by the Dominion Government as loan to the Grand Trunk and Northern Railways, and \$42,825,726 as bonus principally to the Intercolonial, P. E. Island and Pacific Railways. The Ontario Government had granted a loan of \$70,000 to the Brantford, Norfolk & Port Burwell, and bonuses of \$2,661,134 to other railways. The bonuses of the Quebec Government amounted to \$6,944,600, of which two-thirds were to the Quebec, Montreal, Ottawa & Occidental. The New Brunswick Government had bonuses of \$1,378,000, with a loan of \$150,000, and share subscriptions \$300,000, and Nova Scotia bonuses of \$871,000.

The total train mileage was 18,103,628—an increase of 423,450 over 1875. The number of passengers was 5,544,814, and of tons of freight 6,331,757. Nearly two million passengers and two million tons of freight were carried by the Grand Trunk, the Great Western carrying the second largest number. The total earnings of all the railways were—

Passenger traffic. \$6,254,866 74
Freight do. 12,211,158 46
Mails and Express. . . . 708,994 01 Other sources 188,064 90

Total\$19,358,984 11

The cost of operating was-

Maintenance..... \$3,813,668 27 Working and repairs of Working and repairs of cars.... 4,825,676 19 cars 1,5°8,296 01 Gen'l operating charges 5,575,080 94

\$15,802,721 41

leaving a net profit of \$3,556,362.70 on the year's operations, about sufficient to pay \$4.67 per cent. on the bonded debt alone, and leaving nothing for other indebtedness. The earnings averaged \$3,753 per

ant teaving nothing a veraged \$8,753 per mile, and the expenses \$3,064. The number of accidents on Dominion railroads was \$413—109 persons killed and \$04 wounded; 5 passengers were killed and \$9 wounded—an average of one killed and \$9 wounded—an average of one killed out of every 1,108,963 passengers carried. The total amount which the Dominion and Local Governments and Municipalities had expended and become liable for up to 30th June, 1876, was \$83,853,564.75, none of which, so far, has returned any direct payment of interest, but the increase in the value of the property of the country from opening it up to settlement and trade has probably been very much greater. The accompanying tables give statistics of the railways so far as they have been returned: have been returned:

SUMMARY STATEMENT OF THE OPERATIONS, MILEAGE, EARNINGS AND EXPENSES OF THE RAILWAYS OF CANADA FOR YEAR ENDED 30TH JUNE, 1876.

Immigration.

The statistics of Immigration for the last two years have shown the fact of a most serious check to the outflow of population from Europe to America; and, as regards the United Kingdom, an actual gain of immigrants from the United States over emigrants from Great Britain to the States was made in 1876, the former being 54.697, the latter 54,554. The figures refer to persons of British origin only.

We continue the figures of Immigration to Uanada from the Pear Book of 1877.

The following statement shows the

The following statement shows the number of settlers in Canada, and the number and the hard passed through Canada for the Western States since 1868:

| 1 | Passengers | Settled in |
|----------|---|------------|
| | through Canada. | Canada. |
| 1866 | 41.704 | 10.001 |
| 1867 | 47.212 | 14 666 |

The figures for the calendar year 1877 cannot be obtained as these sheets go to press. But it is known there is a large decline on the preceding year in the immigration not only to Canada but to the whole continent.

The immigrant arrivals at Quebec for the last three years, have been as follows:

| In 1874 | 21.359 |
|---------|--------|
| 1875 | 13.500 |
| " 1876 | 10.901 |

It is known that the arrivals at Quebec in 1877 were only about half the numbers of 1876.

The following table shows the nationalities of the immigrants arrived at Quebec for the last four years. (The nationalities of those who arrive at the inland ports cannot be ascertained) :-

| 1\73. 18,004 171sh | 1874. 13,298 2,650 2,562 462 1,407 | 1 449 1,816 | |
|--------------------------------|---|----------------|--------------------|
| gians 2.634 | | 534 | 289 |
| Other origins 76 Icelanders | 351 | 22 | $\frac{20}{1.167}$ |
| mennonites | 1,532 | | 1,358 |
| Russians | • • • • | ··· • | 20 |
| Totals 36,901 | 23,894 | 16,038 | 10,901 |

The following is a comparative statement of the trades and callings of the steerage male adults who landed at Quebec for the last four years:-

| | 1873. | 1874. | 1875. | 1876. |
|--|-------------|----------------------|-----------------------|---------------------------|
| FarmersLabourersClerks and Traders Professional Men. | 6,202 62 | 1,763 4,259 32 | 1,188 3,863 977 | 510 2,796 491 13 |
| | | | | |

The above classification cannot be made of Immigrants arriving at other ports of the Dominion than Quebec.

Totals15,403 8,828 6,035 3,810

The arrival of immigrants in the Dominion by sea, for the last four years, are as follows:

| | 1873. | 1874. | 1875. | 1876. |
|-------------------------|--------|--------|--------|--------|
| | | | | . —— |
| Quebec Maritime Pro- | 36,901 | 23,894 | 16,038 | 10,901 |
| vinces | 2,659 | 2,114 | 959 | 1,311 |
| Total | 39,560 | 26,008 | 16,997 | 12,212 |
| and the second second | | | | |

The arrivals at the inland ports of the Dominion may be stated as follows for the corresponding four years:

| | 1873. | 1874. | 1875. | 1876. |
|---|--------|--------|--------|--------|
| ~ | | | | |
| Susp'n Bridge and other inland ports Entered at Cus- tom Houses | 50,578 | 39,904 | 18,322 | 13,203 |
| with settl'rs goods | 8,971 | 14,110 | 8,139 | 11,134 |
| | - | | | |
| Total | 59,549 | 54.014 | 26,461 | 24,337 |

The two preceding tables include all immigrants, that is both settlers in Canada and passengers through Canada for the Western States.

The following table, continued from previous Year Books, shows the move-

ment of immigration to and through the Dominion from 1851 to 1876 inclusive:

| Year. | Arrivals by the St. Lawrence. | Via the United States. | Settled in Canada. | Went to the United States. |
|--------|--|--|---|--|
| 1851 | 41,076 39,176 36,699 53,185 21,274 22,4399 12,810 8,718 10,150 19,923 22,176 19,419 19,1419 19,1419 19,1419 19,1419 19,1419 19,1419 19,1419 19,1419 19,1419 11,1419 30,757 34,300 34,743 36,901 21,359 16,038 10,901 | 3,670 5,000 7,000 10,000 10,794 41,994 43,829 43,823 340,450 28,853 27,048 28,853 27,048 28,153 27,148 28,154 47,465 54,444 66,663 20,558 24,387 | 22,515; 20,943; 32,295; 38,800; 24,516; 36,663; 12,740; 6,300; 7,827; 7,827; 10,981; 14,666; 12,765; 14,706; 24,706; 27,773; 36,578; 36,578; 36,578; 36,578; 37,382; 27,573; 37,582; 25,633; | 22,231 12,783 11,404 21,383 8,274 8,352 27,380 16,657 7,152 19,249 17,219 17,219 17,219 17,212 58,683 41,704 47,212 58,683 40,649 9,214 |
| Totals | 717,968 | 647,026 | 624,699 | 742,582 |

The following statement shows the per centage of decline in the immigrants settling in Canada from 1873 to 1876 inclusive:

| Years. | Immigrants in Canada. | Decrease per cent. | | | |
|--------|--------------------------------------|--|--|--|--|
| 1873 | 50,050 39,873 27,382 25,633 | 21.33 from 1878 30.20 from 1×74 6.38 from 1875 | | | |

The same calculation of figures as applied to immigrants settling in the United States in the same years, shows a greater per centage of decline:

| Years. | Immigrants in United States. | Decrease per cent. |
|------------------------------|--|---|
| 1873 1874 1875 1876 | 459,804 313,339 228,498 169,886 | 31.84 from 1873 27.07 from 1874 25.65 from 1875 |

A comparison of emigration from Great Britain for the same year shows a very large decline per cent:

| Years. | Emigrants from Great Britain. | Decrease per cent. |
|------------------------------|--|---|
| 1878 1874 1875 1876 | 310,612 241,014 173,800 138,222 | 22 40 from 1873 27.92 from 1874 30.47 from 1875 |

The following is a statement of the per capita cost of immigrants settling in Capada from 1872 to 1876, inclusive:—

| Years. | Immigrants settled in Canada, | Total cost | Cost per capita |
|--------|-------------------------------------|---------------|--------------------|
| 1872 | 36,578 | \$196,124 | 5.51 |
| 1873 | 50,050 | 304,000 | 6.07 |
| 1874 | 39,373 | 251,120 | 6 37 |
| 1875 | 27,282 | 296,692 | 10 83 |
| 1876 | 24,633 | 252,013 | 9 83 |

It is stated in the evidence taken before the Immigration Committee of the House of Commons, that the increased per capita cost in the years 1875 and 1876 was owing to exceptional expenses for the special colonization of Icelanders and Mennonites, and the cost of the permanent erection of the Dufferin Immigration Bulldings being charged in the ordinary expenditure of the latter named year. The per capita cost of the special colonization of Mennonites and Icelanders was \$28.51. These figures are based on the cost to the Dominion Governments, however, it may be stated, have made considerable expenditure to promote immigration.

The quarter ending March 31, 1877, in the United States showed 17,914 immigrant arrivals against 24,541 for the corresponding quarter in 1876. The June quarter of the year showed an aggregate of 52,083 immigrants.

The following table shows the total recorded *Emigration* and *Immigration* of Great Britain in 1876:—

| Country of Emigration and Immigration. | Emigrants from Gt. Britain. | Immigrants to Gt. Britain. |
|--|--------------------------------------|-----------------------------------|
| United States. B. N. America. Australasia All other places | 75,533 12,327 33,191 17,171 | 72,000 7,284 2,579 9,724 |
| Total | 138,222 | 91,647 |

Immigration.

The following table shows the same for the same year, of persons of British origin only :-

| Country of Emi- gration and Immigration. | from | Immigrants to Gt. Britain. |
|---|-----------------|-----------------------------------|
| United States B, N. America. Australasia All other places | 9,335 32,196 | 54,697 6,629 2,579 7,499 |
| Total | 109,409 | 71.404 |

The above figures of emigration from and immigration to British N. America do not agree with those published by the Canadian Government. The explanation given to the Committee of the House of Commons by the Department of Agriculture is that the classification of the Imperial returns is simply that of emigrant perial returns is simply that of emigrant passengers to British America or United States poris; while it is known that very large numbers of immigrants enter Cana da by way of Portland, Maine and the Suspension Bridge. The latter are all classed in the Imperial returns as emi-grants to the United States.

Patents, Copynights and Trade Marks.

The total number of cases of Patents, Copyrights and Trade Marks in 1876 brought before the Department was 4,389. There were 1,548 applications for Patents; 1,382 Patents granted; 185 Caveats; 761 transfers of Patents; 47 Designs registered; 238 Trade Marks registered; 178 Copyrights registered; 17 Timber Marks registered; 33 assignments of Copyrights; and \$36,187,63 fees taken.

Among the applications in 1876 for

Among the applications in 1876 for patents, 19 were rejected during the year for want of novelty.

1,305 patents were granted for terms of five years; 21 for ten years; and 56 for fifteen years

fifteen years.

The Patentees of 1874, 1875 and 1876, were resident in the following countries:

| | 1874. | 1875. | 1876. |
|--|---------------------|---------------------------------|----------------------------|
| Canada England United States France Germany Russia Austria | 43 665 3 2 | 521 44 748 3 2 1 | 575 51 736 8 3 |
| Turkey Italy Switzerland. Chili Other Countries. | 2 1 | 1 | 1 |
| Total | 1,249 | 1,320 | 1,382 |

The Canadian Patentees were distri-buted among the Provinces as follows:

| 4 | 1874. | 1875. | 1876. |
|---|---------------------------------------|-----------------------------|--------------------------------------|
| Ontario Quebec New Brunswick Nova Scotia. Prince Edward Island British Columbia Manitoba Total. | 340 144 19 14 4 1 1 | 348 134 24 14 1 | 380 152 19 21 2 1 |

Four hundred and sixty-eight patents out of 495, issued in 1871 for a term of five years, were allowed to expire during the last year; 27 only of the patents granted in 1871 having been renewed.

Post Office of the Dominion.

It was announced in the Canada Gazette of Nov. 3rd, 1877, by the Postmaster General, that Stamped Envelopes are to be introduced, and are now offered for sale by postmasters and stamp vendors. We believe that these will be found to be of great convenience. They are to be sold at the following rates:

| | | | ** |
|----------------------|----------------------|-------------|--|
| | Per Hun- dred. | For Ten. | For Single Envelopes. |
| | | | |
| | \$ c. | cents | · · |
| 1 cent Envelopes | 1 30 | 13 | 2 cents or |
| 3 cents, No. 1 Size. | 3 30 | 33 | 3 cts for 2. 4 cents or |
| do No. 2 Size. | 3 35 | . 34 | 7 cts. for 2. 4 cents or 7 cts. for 2. |
| | | | 7 Cus. 10f 2. |

In other words, all lesser numbers than 100 must be sold at the nearest proportional rate to the price per hundred. Additional stamps may be added to the stamped envelopes; but under no circumstances can the stamped or experience. stamped envelopes; but under no circumstances can the stamp of an envelope be cut out and used as a postage stamp. It is only good on the envelope to which it is affixed. Stamped envelopes have precisely the same value for all postage, as per subjoined statement of rates:

LETTER POSTAGE.

Rates within Dominion of Canada and United States.

| | Prepaid by Stamps. | Postage ir sufficient- |
|--|-------------------------|-------------------------------|
| Letters not more than ½ oz " over ½ oz. but not over 1 oz " over 1 " ½ " over ½ " ½ " over 2 " ½ | 3 6 9 12 15 | Double the deficient postage. |

and so on, 3 cents being charged for every additional \(\frac{1}{2} \) oz. or fraction of \(\frac{1}{2} \) oz.

All letters must be prepaid by

stamp.

All letters for the United States must be fully paid by stamp and vice versa. Letters mailed in the United States for Canada, insufficiently paid, are sent to the Dead Letter Office

Letters posted unpaid sent to Dead

Letter Office.

Letters posted insufficiently paid, but with one 3 cent stamp attached, will be forwarded, and the deficient postage charged double.

Neither British, United States nor any Foreign Stamps can be affixed to Letters malled in Canada.

DROP LETTERS.

l cent per loz., in all cases prepaid by stamp.

POSTAGE CARDS.

I cent to Canada and United States. United States post cards cannot be mail-

ed in Canada; and Canadian post cards cannot be mailed in the United States. Post Cards to the United Kingdom, 2 cents.

REGISTRATION FEES.

2 cents prepaid by stamp, for places in Canada.

Canada.

Canada.

Canada.

Cents prepaid by stamp, for places in United States.

Cents prepaid by stamp, for places in United Kingdom.

Registered Stamps cannot be used for prepayment of letter postage. They can only be used for payment of registration fees.

CANADA AND NEWFOUNDLAND.

Letters 6 cents per ½ oz. Registration same as in Dominion.

ST. PIERRE AND MIQUELON.

Letters same as within Dominion, but subject to charge on delivery. Registra-tion same as in Dominion.

GREAT BRITAIN AND IRELAND.

Letters by Canadian Mail 5 cents per 1 oz.

New York do do

All Letters and postal matter de-

Fair Letters and posses measure us-sired to be sent by steamers from New York, must be via New York.

All Letters sent to the United Kingdom should be prepaid, or they will be charged double postage, or double any postion of the amount unpaid portion of the amount unpaid.

NEWSPAPER AND PERIODICAL POST.

Canadian newspapers and periodicals, from the office of publication or news agency to regular subscribers, at 1 cent per lb. of bulk weight.

Transient newspapers and periodicals, written or printed matter not being of the nature of a letter, books, pamphlets and other miscellaneous transmissions in open covers, one cent per 4 oz.

Newspapers or periodicals weighing less than I oz. each, when posted singly ½ cent each

each.

Closed parcels not containing letters 12; cents per 8 ozs. Publishers' subscription accounts may

be enclosed free of postage.

British newspapers to regular subscribers in Canada, by Canadian booksellers or agents, pass free.

All transient newspapers must be prepaid by stamp, or they will not be forwarded.

VOTER'S LISTS.

Voter's Lists when sent by post by Clerks of Municipalities are admitted to Registration in the Province of Ontario.

PARCEL POST.

See table for rates.

No letter must be contained in the par-cel, nor must it contain any matter likely

cet, nor must it contain any matter likely to injure the ordinary contents of the mail. The weight of the parcel must not exceed 4 lbs., nor the size 2 feet in length, or 1 foot in breadth or thickness. Postage must be prepaid by Stamps, and package marked with the words "by parallests".

cel post."

The name of the sender should be writ-

ten on the parcel, with his address, and it will be returned to him if not delivered. The parcel post is confined to Canada.

FRANKING AND FREE MAIL MATTER.

All mail matter sent by or to the Governor-General or his Secretary or Office

at Ottawa, is free.
All mail matter sent to or by Ministers or officers of Government Departments at

Ottawa, is free.
All mail matter sent to or by the Senate or House of Commons is free.

Books from the Library of Parliament are free of postage sent to or from Members of either House.

Prepayment is not required on letters sent to any of the Imperial Departments of State.

of State.

FOREIGN POSTAGE.

The following tables, No. 1 and No. 2, give the foreign rates of postage to principal places.

The Colonies of Demerara and Trinidad entered the Postal Union on April 1, 1877.

France has exercised her power to exclude Canada from the International Postal Union by requiring the rates for sea transit to be same as for British India, 6d, stg. per ½ oz.

The preceding tables of rates other than for letters has been very much altered from last *Year Book*, there having been many changes. The tables in earlier volumes of the *Year Book* should not be consulted for these special rates.

Table No. 1.—Postage Rates for places in and passing through the United States—prepayment is required in all cases.

| Countries. | Letters per 1 oz. | Newspapers, each. | Printed Matter per 4 oz. (See notes a. b.) |

Special care must be be taken that all necessary information is supplied to Postmasters.

MAIL ROUTES.

Mails are forwarded from Canada as

Once per week for England by Canadian steamer, sailing every Saturday from Quebec in summer, and from Portland and Halifax in winter; and a special mail for the Maritime Provinces is sent once per fortnight by Canadian steamer sailing from Halifax every alternate Tuesday.

Once a week for England by Cunard stcamers, sailing from New York every Wednesday

With Manitoba the postal communica-

with Manitoba the postal communica-tion is dally all the year round.

To British Columbia, mails are forward-ed daily, via the United States, and thence by steamer from San Francisco to Vic-toria, on 1st, 10th, and 20th of each month during the winter. Mails are also sent overland through Washington Territory to Puget Sound and thence by steamer to Victoria. Victoria

Victoria.

From Victoria, mails are despatched on the 1st, 10th and 20th of each month during the winter, by steamer, via San Francisco. Mails are also sent from Victoria by way of Puget Sound, and thence by land through Washington Territory.

The direct postal routes from Canada to the following countries are as follows:—

lows:

To Australia, New Zealand, China and Japan, and Fiji Islands, via San Francis-

To Mexico, the Isthmus of Panama and South America, and the West India Islands, via New York: twice a week on the principal sea routes and once a fortnight on the less important lines.

To Bermuda and St. Johns, Newfoundland, and the West India Islands, via Halifax, from whence steamers sail once per month to Bermuda and St. Thomas, and once per fortnight to Newfoundland. To all other parts of the Globe, via England

land.

SUMMARY OF POSTAL ARRANGE-MENT BETWEEN CANADA AND UNITED STATES.

All mail matter of every kind shall be fully paid at the domestic postage rates of the country of origin, and the country of destination will receive, forward and deliver the same free of charge.

2. Each country will transport domestic mails of the other free of charge.

3. Patterns and samples not exceeding in weight 8 ozs. subject to regulations made by either Post Office Department, to prevent violation of Revenue Laws. They must never be closed to inspection. tage on each such pattern or sample 10

cents. Must be prepaid.

4. No accounts kept between the two
Post Office Departments. Each to retain

all the postage it collects.

5. Dead letters to be returned to each

5. Dead letters to be returned to each without charge.
6. Expense of transporting mails between the frontier exchange offices where the convenience is by water, to be borne equally by the two Departments; but when the transportation is by land, the expense shall be borne by each in proportion to the distance travelled over the territory of each country. ritory of each country.

7. Offices exchanging mails shall continue to act as offices of exchange; are any of them may be discontinued and others agreed on.

8 Existing arrangement for the change of registered letters between the two countries shall continue, but the registration fee on registered letters sent from the United States to Canada shall be the same as the registration fee charged in the United States for domestic registered letters. tered letters.

9. This arrangement shall continue in force until terminated by mutual agreement; and it may be annulled at the desire of either Department, upon six months' previous notice given unto the

other.

INTERNATIONAL POSTAL UNION.

Under the 17th Article of the Postal Union Treaty, any member is enabled te exclude any proposed member, and France exercised this power against Canada, by requiring the rates for sea transit to be the same as for British India and French Colonies beyond the sea, which French Colonies beyond the sea, which would make the general postage rate between Canada and Europe 6 pence sterling the half ounce. Pending another meeting of the Postal Congress, the charges on all postal matter between Canada and Great Britain have been assimilated to Union rates, and a Convention was arranged with Germany from April 1st, 1877, by which the postage rates between the Empire and Germany are to be the same as between Canada and the United Kingdom. United Kingdom.

THE NEW POST OFFICES

At Montreal, St. John, N. B., and Ottawa were completed and occupied during 1876. The Post Office Divisions of Ontario were

re-constructed, that of the Ottawa Inspector being increased and those of Toronto and Londonbeing divided into three instead of two Divisions.

THE FREE DELLVERY
System has proved very successful, being very much facilitated by the adoption of prepayment of letters. The increase during 1876 of letters delivered by carriers was 29 per cent., of papers 44 per cent. The weekly average of city letters delivered in December, 1876, was 39,531, producing a revenue of over \$20,000 a year. The total weekly average of letters in December, 1876, was 120,796, and of papers \$2,506; number of carriers employed 130, being an addition of 8 in the year.

The RAILWAY MAIL SERVICE increased during 1876, 310 miles, the mail being carried on railways, in November of that year, 4,486 miles. There were 64 Travelling Post Offices on the road travelling daily a distance of 9,991; miles, and 6,515 miles were travelled over daily by bags in charge of company's servants, making the total postal travel by railway daily 16,506 miles, and for the year 5,165,534 miles. By the opening of the Intercolonial throughout, the time occupied by the transit of mails between Halitax and St. John and the western provinces was reduced by about 12 hours. 12 hours.

Although there was a marked increase in the number of letters and papers sent by post, the revenue from postages declined over \$50,000. This is, according to the P. M. Genl's report, due to the reductions made in the rates of postage to the United Kingdom and the United States, the increased correspondence arriving from these reductions not yet having had time increased correspondence arriving from these reductions not yet having had time to make up the deficiency. The expenditure for the year was \$1,95,758, an increase of \$86,576. This increase consists of service on the Prince Edward Island Railway \$5,130; of increased charges in ordinary land conveyance in Ontario, Quebec, Nova Scotia and Manitoba \$20,385; of increases in salaries and commissions \$57,145, and of miscellaneous items \$7,596. There was a decrease of \$7,082 for steamboat conveyance and of \$524 for mail bags.

CKET SERVICE WITH UNITED KINGDOM

PACKET SERVICE WITH UNITED KINGDOM.

There was a decrease in the number of letters sent from Canada to the United Kingdom by the Quebec and Portland route, the number being 1,042,928 against 1,074,616 in 1875. The number of newspapers sent was 1,145,805, an increase of 2,768; and of samples, &c., 11,616, an increase of 3,663. From the United States by this route were sent 187,376 letters, and 149,469 newspapers. To Canada from the United Kingdom were sent 1,093,308 letters; 1,550,710 newspapers; 99,446 books, and 26,020 samples, &c., in the first three a large increase, in the last a small decrease. To the United States were sent 2,019 letters, and 2,905 newspapers, in both a decrease. By the Halifax and the Queenstown mail packets were sent to and from New Brunswick and Nova Scotia in 1876—

229.554 Letters | 6,538 Books.

190,788 Newspapers, | 3,120 Samples.

An increase in all but newspapers.

An increase in all but newspapers.

REGISTERED LETTERS.

1,774,000 registered letters passed through Canadian mails in 1876; 54 of this number miscarried, and there were besides 62 cases in which there were alleged discrepancies between the amounts stated to have been enclosed and the amounts received.

DEAD LETTERS.

During the fiscal year, 587,876 dead letters were received at the Dead Letter Office, of were received at the Dead Letter Office, of which 13,339 had a direction too imperiect to allow the intended destination to be ascertained. Of the dead letters 3,556 were registered, and 3,876 contained value though unregistered; 185,032 dead letters were returned to the writers. In cases where letters are posted unpaid or insufficiently paid, every exertion is used to return them promptly.

POSTAGE STAMPS, &C.

There were issued to Postmasters dur-ing the year stamps to the amount of \$1,307,527. The number of stamps and the different values will be seen by the following table:

| ⅓ ce: | nt sta | mp. | | | 563,800 |
|-------------|------------|-------|---------------|-----|------------|
| 1 | 66 | | | | 12,986,700 |

| 0 | COL CIGO . | | | | ±, ±0±,000 |

The value of the issue during the year was \$1,307,527, divided among the Provinces as follows:

| Ontario and Quebec | \$1,086,190 |
|--------------------|-----------------|
| New Brunswick | |
| Nova Scotia | |
| British Columbia | 13,600 |
| Manitoba | 9,502 12,900 |
| P E Is and | 12,900 |

MONEY ORDER SYSTEM.

After the 15th January, 1877, an important change was introduced in the management of this branch of the Post Office. ant change was introduced in the management of this branch of the Post Office. Instead of, as formerly, being deposited to the credit of the Postmaster General, all monies received for Money Orders issued in Canada, and all deposits for Post Office Savings Bank are deposited by the Postmaster receiving directly to the credit of the Receiver-General, and all funds supplied to Postmasters to pay such orders, &c., are supplied by the Finance Department. The total amount of Money Orders issued in Canada during the fiscal year was \$6,866,618.54, and the total amount paid in Canada was \$6,508,302.60. The deposits in P. O. Savings Banks through Money Orders were \$1,728,294 and the payments to depositors through them \$1,763,257,97, making an aggregate business for the year of \$16,831,383. Since the exchange of Money Orders with the U. S. commenced in August, 1873, up to the close of 1876, there had been issued in Canada Money orders to the amount of \$347,420 and paid in Canada \$252,987.

P. O. SAVINGS BANKS.

Twelve new banks were opened during the year and 4 closed. The number of these banks at the close of the year was 278. The number of depositors fell during the year from 24,912 to 24,889, and the amt. of deposits \$196,000. The total cost of management of the P.O. Savings Bank for the last 8 years has averaged less than the last 8 years has averaged less than one half per cent. on the balances due depositors each year.

Geological Survey of Canada.

The reports of this survey published reach to April, 1876. Work was done in 1876 in portions of nearly every Province in the Dominion. During the summer of that year, Mr. Selwyn the Director. Prof. Macoun the Botanist, Mr. Webster and Mr. G. M. Dawson were engaged in B. Columbia and the Peace River country. Mr. Dawson was engaged in examining the region between the Fraser River and the Cascade range, between the Spad and the Cascade range, between the 52nd and 54th parallels of latitude. The country traversed belonged in the main to the basaltic or volcanic plateau of the inter-ior. Starting from the summit of the terrace above Soda Creek on the Fraser, 2,030 feet above the sea, the trail went

southward along the high narrow terrace for 20 miles. The terrace spread then into a wide plateau, belts of timber alternating with large patches of open prairie covered with luxuriant grass, the average altitude being 3,200 feet. The flora showaltitude being 3,200 feet. The flora show-ed a marked resemblance to that on the eastern slope of the Rocky Mountains along the 49th parallel. From this plateau a rapid descent was made to Rinke's farm on a bench 800 feet lower. The lower terraces and valleys are warmer and drier than the upper. Thence the route was southwestward to the Chilcotin Valley, through a generally open prairie country through a generally open prairie country covered with bunch grass. The area of the cultivable land in Chilcotin Valley is

estimated at 7,000 acres, and beyond the valley the same plain stretches for many miles, diversified with prairie and woodland, ending in a range of low hills wooded to the summit, beyond which are seen at a great distance the peaks of the Coast Mountains. East of the crossing of the Chilanco River by the railway line, the general aspect of the country changes and becomes diversified with rolling hills. From this point to the eastern base of the From this point to the eastern base of the mountains there is little land valuable mountains there is little land valuable for agriculture, and no great areas fitted for stock raising. Along the E. branch of the Homathco, there is a little good grazing land to the southwest when Talayoco Lake is reached stretching far into the mountains. The lake is 2,747 feet above the sea, clear and very deep, with mountains rising steeply from its edge. At the north end of this lake bunch grass finds its western limit. North of the Chilanco crossing there are some fertile meadows and occasional grassy swamps, meadows and occasional grassy swamps, but from Temapho Lake to the Tzazate but from Temapho Lake to the Tzazate Mountain, across the water shed between the Chilcotin and Nazco Rivers, the country is unfit for pastoral or agricultural occupation. Along the valleys of the Nazco and Clisbasco there is some good land, increasing in quantity as the junction with the Blackwater is approach. ed. The valley of this river for nearly 10 miles after the junction, is wide and flat bottomed, generally well timbered but with occasional grassy meadows. Beyond is a range of high hills, and from these an extractive and emperattly nearly level. is a range of high hills, and from these an extensive and apparently nearly level plain stretches eastward for 20 miles. Its average elevation is 2,660 feet, the growth of timber is much improved and groves of large Douglas fir are frequent. In passing from Blackwater bridge to Fort George there is continued evidence of a region with greater rainfall, and about the fort is an area of from 2 to 3,000 acres of excellent land. Drift lignite was found in a number of places, some of it furnishing a fuel of very good quality. Beds of it probably underlie a considerable portion of the level country stretching east-

wood often attains a height of 40 feet with white flowers expanding to 3 inches broad.

On the borders of the forest, birch grows 70 or eighty feet high, and on the islands in the river, balsam poplar attains a very large size. There are 400 miles of coast line in British Columbia clothed with a forest growth superior to anything else existing in the world. After passing Boston Bar, the plants showed a change in the quantity of moisture, and from Jackass Mountain, a few miles further on, Jackass Mountain, a tew miles in the fon, a sudden and complete change occurs. Between the mountain and Spence's bridge there is little cutivable land, and this requires to be irrigated. All trees disappear except on the mountain tops or in sheltered valleys looking north. The benches near the river are nearly bare, and above them are beautiful grassy slones. From this point, the bunch grass slopes. From this point the bunch grass country extends east, west and north. The soil of the whole district is of firstclass quality, but needing irrigation to make it available for cultivation. Where make it available for cultivation. Where water can be brought on, the land gives enormous returns. The whole of British Columbia south of 52° and east of the Cascades, is a grazing country up to a height of 3,500 feet, and a farming country up to 2,500 feet, where water can be obtained. To the north and west the country becomes more moist, and on the Neehacco and its tributaries grass has an average growth of three feet. Only a few average growth of three feet. Only a few plants indicative of an alpine climate were observed, and never at a less eleva-tion than 3,000 feet. Between Cache Creek is a range of high hills, and from these an extensive and apparently nearly level plain stretches eastward for 20 miles. Its average elevation is 2,660 feet, the growth of timber is much improved and groves of large Douglas fir are frequent. In passing from Blackwater bridge to Fort George there is continued evidence of a region with greater rainfall, and about the fort is an area of from 2 to 3,600 acres of excellent land. Drift lignite was found in a number of places, some of it furnishing a fuel of very good quality. Beds of it probably underlie a considerable portion of the level country stretching eastward.

In May, Professor Macoun made an examination of the country and vegetation around Victoria, Vancouver's Island. The tocuntry was more or less rocky, but without boulders. The oak lands are rocky but make very good pastures. The cultivated and not drained. The forast indicate dry summers and abundant rainfall, a climate warmer than that of England, and a periodic rainfall corresponding with the increase and decrease of summer heats, Vegetation was three weeks in advance of Ontario. Only a larger number of settlers with more advanced ideas of agriculture is required to make the island the garden of Canada on the Pacific coast. The latter part of the month of May was given to the valley of the Fraser. Vegetation on the Lower Fraser was farther advanced than at Victoria. The whole region is moist, and vegetation of the most linxuriant type. The western hemlock is often more than 30 feet in circumference and over 150 feet high, and the longias and Menzles firs and cedar much larger, often 250 feet; even the maple grows in the open woods to a height of 150 feet and diameter of 6 feet. The dog-

the Rocky Mountains. Between Quesnel and McLeod's Lake, twelve considerable streams and one arm of a lake were crossed, besides numerous brooks, from 5 to 20 feet wide. The country between all the streams was undulating, and the soil light, sandy and gravelly. The highest the streams was undulating, and the soil light, sandy and gravelly. The highest elevations on the trail varied from three hundred to six hunred feet. The highest point was near Pantage Lake, not far from Blackwater, and the lowest, where the trail crossed the two branches of the Nechacco. Between Swamp River and Carp Lake is the divide between the Arctic and Pacific waters, 2,500 feet above the sea level. The country is flat and soil poor, covered with thick pine and spruce forests, with some balsam fir, and very little grass. The axis of the divide from this point runs south-east to Giscome Portage road, and then describes nearly half a circle, having a radius of 100 miles to the Yellow Head Pass, 3,746 feet above the sea. Fort McLeod was reached on the 28th June, 24 days from Quesnel, including four days stoppages at places on the route. The distance was 221 miles, but the party were Carp Lake is the divide between the Arctic McLeod was reached on the 28th June, 24 days from Quesnel, including four days's stoppages at places on the route. The distance was 221 miles, but the party were very much delayed by having to cut their way through fallen logs. From McLeod's Lake Mountain, the observer says Prof. Macour, looks down on a land of rivers, and marshes and swamps, with occasional tracts of dry arable land, generally by the river sides, and of rich alluvial soil. Black and white spruce, aspen, black pine and Douglas fir constitute the bulk of the forest for the whole 270 miles from Quesnel to McLeod's Lake. There can be no doubt, that with the clearing of the forest, the soil will become drier and the climate milder. Five days were spent at the fort in making preparations for the further voyage, and on the 3rd July the expedition embarked on the Pack, one of the head waters of the Peace River. The country on the first day's journey was everywhere thickly wooded with spruce, birch, poplar, &c. On the afternoon of the Parsnip River, here about 100 yards wide with an even swift current. An attempt was made here to explore the Pine River Pass. The Parsnip river was ascended to the junction of the Pine, 60 or 70 feet wide, with a strong, rapid current, which they were junable to stem. Mr. Selwyn and the junction of the Pine, 60 or 70 feet wide, with a strong, rapid current, which they were unable to stem. Mr. Selwyn and Mr. Webster landed and endeavoured to find the Indian trail, but this in the open pine forest was too indistinct to follow. The farthest point reached was a plateau 260 feet above the river. The view from this from east to south was limited by level forest country. High rounded peaks this from east to south was limited by level forest country. High rounded peaks were visible to the N. N. E., some 15 or 20 miles distant, while the main valley seemed to pass behind the level country more to the east. The country along the Parsnip was generally level and the river banks low, occasionally rising into steep slopes of sand, clay and gravel of 80 or 100 feet, with continuous spruce forests on both banks. On the 7th the party camped at the mouth of the Nation River. The average height of the country around is about the mouth of the Nation River. The average height of the country around is about 150 feet, rising gradually towards the mountains to the north. The forest has been burned and the aspect very desolate. On the 9th the Finlay forks were reached where the river enters the main chain of the Rocky Mountains, and takes an east-

erly course through nearly 5 degrees of longitude to the confluence of Smoky River. The latitude of Finlay Rapids according to the observations taken was 55° north, that of Smoky River forks 56°.11′. 20′′. About 4 miles lower down, a turn in the river brought the party quite close to one of the high snowy peaks, in front of which they halted to ascend. The summit was 4,590 feet above the camp and about 6.200 above the sea. North-east and sumilin was a perfect sea of alpine peaks, while to the west was the valley of a small brook up to its source in an alpine Lake, and beyond the rocky peaks passed in descending the Parsnip. The summits appeared to be all about the same height; appeared to be all about the same height; snow lying in patches sometimes of several acres, but no glaciers or permanent snow peaks. At the same elevation, two or three degrees to the south, are extensive glaciers and many of the peaks permanently covered with snow. The thermometer at 2 p. m., on the summit, stood at 82°, at 4 p. m., a few hundred feet below, at 84°. The limit of trees was about 4.000 feet, but spruces about 3 or 4 feet high were observed up to 4,500 feet. Beyond this mountain the climate became almost immediately warmer and drier almost immediately warmer and drier and vegetation was much more advanced. One and a half miles lower down is the and vegetation was much more advanced. One and a half miles lower down is the Barnard river, a large mountain torrent coming in from the north, and for ten miles below, the summits on each side, four thousand feet above the river, are only a couple of miles apart, but there is no scrious impediment to the construction of a waggon road or railway. Beyond this the valley begins to widen out, and two large streams come in from the south, less than a mile apart, one known as Clear Water River. On the top of a limestone mountain here, 3,000 feet above the river, roses were in bloom, and there was no sign of alpine plants. This was in latitude 56°, 50.00 feet above the sea. Passing the Rapide qui-ne-partepas, at noon of the 14th, Big Horn, or Otter Tail River—about 70 or 80 feet wide, with a rapid current 1½ to 2 feet deep, coming in from the north side—was reached Here fell the first rain after leaving McLeod's Lake. The valley widened out, broad flats rising in terraces and extending back to the hills on the south, thickly wooded, and to the north well grassed lower down, coming in opposite each other. At noon of the 16th, the portage of the Canyon of the Mountain of Rocks was reached. On the afternoon of the 21st everything was brought down and across the river to Hudson's Hope. The portage the Canyon of the Mountain of Mocks was reached. On the afternoon of the 21st everything was brought down and across the river to Hudson's Hope. The portage was 11*81 miles long, and the fall from the upper to lower end of canyon 270 feet, Hudson's Hope is 1,262 feet above the sea. Vegetables of all kinds grow here splendidly. Potatoes, carrots, parsnips, onions, turnips, French beans, beets and barley were all put in between the 15th and 24th of May, and the potatoes, turnips and onions were fit for use Wheat had not been tried, but there could be no doubt of its success. Strawberries and serviceberries were abundant, and raspberries beginning to ripen. All around vegetation was very rank. On Buffalo Mountain, 3,000 feet above the sea, the wild peas and vetches were two feet high, covering the summit. At Hudson's Hope

in 1874 there was no frost from May 1st to Sept. 16th. On the 25th, a raft having been constructed, the party left Hudson's Hope for St. John, 37 miles distant The character of the valley is very uniform; thickly wooded hills on the south, and on the north alternating patches of prairie and coppice of aspen, poplar, &c, rising in broken slopes 6 or 800 feet above the river. The broad terraces of sand and gravel are no longer seen, the banks being of soft clay shales. About 7 miles north-west of St. John is Little Lake-one of the sources of Pine River north. The country about this lake is level, or slightly undu-lating, covered with the richest herbage of actonishing luxuriance; the soil a rich of actonishing luxuriance; the soil a rich loam, resting on gravel and sand, underlaid by dark shales of the cretaceous formation. A similar fine country extends many miles up and down the river and to Pine River north. From journals kept at St. John for a number of years, the kept at St. John for a number of years, the ground was found to be fit for the plough from the middle of April to the first week in November. The winter is shorter than in Manitoba, and the autumn temperature milder than at Fort Garry, 1,200 miles south-east. Potatoes large and dry were dug on the 2nd August, and barley and oats ripe on the 12th. On the 31st Mr. selwyn and Mr. Webster left St. John for the Pine River south, Prof. Macoun going to Dunvegan and Vermillion. The Pine River enters the Peace about 4 miles below River enters the Peace about 4 miles below St. John-is about 100 yards wide, narrowing gradually to 50 or 60, and with a strong current of from 3 to 5 miles an hour. The valley is from 1 to 1½ miles wide, generally pretty thickly wooded, with prairie patches occurring, as on Peace River, at the east and west bends on the slopes facing south. On the 3rd August, the Forks were reached, 55° 48' north. From this point, the valley appeared to be about S.W., magnetic, through the plateau. No high mountains were anywhere visible. The east branch trends south-easterly and appeared rather the larger of the two. Three and a half miles further up, in a deep rocky gorge, seams of good bright coal were found-6, ×, 24 and 6 inches thick in about 90 ft. of alternating beds of sandstone and shale. Here the boatmen refused to proceed further. On the 5th, Table Mountain was ascended, 3,400 feet above the sea. The view from the top gave an uninterrupted circuit from N.E. round by W. to S.E. To the left, the view was up (what appeared) a broad open valley, towards the upper end of which the mountains commenced to rise in snowy peaks nearly magnetic S. from Table Mountain, unquestionably the peaks of the Cascade Mountains near the head waters of the Homathco and Bella Coola. In this latitude the Rocky Mountains only exist as a broad undulating, hilly watershed between the Parsnip and Pine Rivers. On the 7th the party returned to St. John, and on the 9th continued their course down the river, reaching Dunverger of the Homathco and Bella Coola. ing gradually to 50 or 60, and with a strong current of from 3 to 5 miles an hour. The St. John, and on the 9th continued their St. John, and on the 9th continued their course down the river, reaching Dunvegan, 70 miles distant, on the 11th. The valley was wider and there was more open prairie country than above St. John. On the 16th Mr. Selwyn started down the river to Smoky river. The main channel of the river is here 400 or 500 yards wide with a strong current, the banks 35 to 40 feet high, of coarse gravel and sand sloping to the water's edge. From the top a

nearly level well grassed plain extends back 250 yards to a series of rounding grassy hills rising 500 or 600 feet above the river, and stretching away in a vast roll-ing prairie. From Peace River to Jasper House, 10 days' by horse trail, the country House, ludays' by horse trail, the country is stated to be level throughout except at the crossings of the rivers, and lightly timbered. On the south shore the country is apparently thickly wooded pretty unformiy on all sides as far as the eye can reach. The Smoky river was ascended about 25 miles. From a plateau of 600 feet, the river valley could be seen 15 or 20 miles the river valley could be seen 15 or 20 miles farther up; on all sides a perfectly level horizon of forest country. The river is not as wide at low water as Pine River, but the rise and fall are much greater. The valley is about 2 miles wide, the aspect from the river heing over a series of cent from the river being over a series of great slides. The strata nearly all soft great slides. The strata nearly all soft dark-blue and grey shales everwhere gypsiferous. No coal or lignite was to be seen. On the 23rd the return journey was commenced. Dunvegan was reached on the 25th and St. John on the 4th Sept. On the 30th August the first frost was seen. On the 9th they arrived at Hudson's Hope. On the 11th Mr. Selwyn and Mr. Webster went 15 miles from the 3 shore to Moberly's Lake. The country was undulating with low, randy or gravelly ridges covered with small pine, alternating with swampy land with spruce and tamarac and well grassed flats thinly wooded with aspen and willow. From a hill above the S. W. end of the lake, 2000 feet above Hudson's Hope, Table Mountain was recognized. 25th and St John on the 4th Sept. On the aspen and willow. From a hill above the S. W. end of the lake, 2000 feet above Hudson's Hope, l'able Mountain was recognized. The hills were richly grassed, especially the lower slopes, pea vine and various grasses standing above one's knees on horseback. There were large areas of open prairie land and more wooded with aspen, &c. Pine revails on the higher slopes and spruce, amarac and poplar on the lower. Berries of various kinds were abundant and very fine. The snow fall was said to be very light and horses left out through the winter do well. The thermometer at this time, the middle of September, had only once fallen to 32° and potato tops at Hudson's Hope were green. On the return from Hudson's Hope, the water being 15 feet lower, the canyon was explored. The cliffs were mostly massive brown-grey and whitish gritty sandstone. About 70 or 80 feet up, in a perpendicular cliff was a second. mostly massive brown-grey and whitish gritty sandstone. About 70 or 80 feet up, in a perpendicular cliff was a seam of coal about 6 inches thick. Fort McLeod was reached on the last day of September. The Parsnip River was very low on many of the gravel bars, there being barely water to float the boats. From Nation River up. large lumps of lignite coal were or the gravel pars, there being barely water to float the boats. From Nation River up, large lumps of lignite coal were scattered along the beaches. On the first Oct., at 7 a. m., the thermometer stood at 46° the grass was quite green, and the frost had not injured the very fine cauliflowers in the garden at the fort. This was at 1900 feet above the sea level and 10 degrees north of Ottawa. From Fort McLeod the return journey was made by McLeod's Lake and Crooked River to Giscome Portage and thence by the Fraser River to Fort George The lake is 16 or 17 miles long, with an average width of 2 miles. The shores are everywhere thickly wooded, rising abruptly on the west side to the level of the undulating country between McLeod's and Stewart's Lakes, and on the east to the hills, 1,200 or

1,300 feet high, between it and the valley of the Parsnip. Along the valley of the Crooked river, the country is less broken, Crooked river, the country is less broken, and at the Giscome portage no mountains are to be seen, but a broad expanse of undulating forest country. The lower part of Crooked River is little more than a winding ditch, from 50 to 50 feet wide. Higher up it expands into small lakes, Higher up it expands into small lakes, with numerous bays and arms, and there are long stretches of almost still water. On the 9th Fort George was reached, and on the 11th Mr. Selwyn and Mr. Webster started on the trail up the Stewart River to the Chilacco valley, and on the 14th struck the telegraph trail, 4 miles from the Blackwater depot, returned to Fort. struck the telegraph trail, 4 miles from the Blackwater depot, returned to Fort George on the 16th and reached Quesnel on the 18th and Montreal on the 23rd November, having travelled 10,219 miles.

Mr. Selwyn expresses a very decided opinion in favour of the route by Pine River Pass for the Pacific Railway, the distance between Edmonton and Fort

George being shorter than by the Leather Head Pass, the line being for the whole

Head Pass, the line being for the whole distance through a magnificent agricultural and pastoral country, and probably not presenting any great engineering difficulties. Gold has been procured in various places along both the Parsnip and Peace Rivers. Only one coal seam of economic value was seen, but it is probable there are others in the region.

Mr. Macoun, in the meantime, had proceeded down the river, reaching Vermillion on the 25th. Though two degrees further north, vegetation was further advanced than at Dunvegan and St John. Barley was cut on the 6th, and wheat fully ripe on the 12th. The barley was in the ground just 90 days. The heads averaged from 4 to 6 inches in length, and were full of large grains. Both wheat and barley Irom 4 to 6 inches in length, and were run of large grains. Both wheat and barley stood very thick on the ground, and the crops of Early Rose potatoes and turnips were very heavy. Indian corn is raised here without difficulty. The country across the river to the Cariboo Mountains, across the river to the Cariboo Mountains, 40 miles distant, seemed perfectly level, or sloping gradually to the mountains. No frosts had occurred since early in May; often there is no frost from early May till late October, but when winter comes it is continuous. From Vermillion, Mr. often there is no frost from early May ill late October, but when winter comes it is continuous. From Vermillion, Mr. Macoun proceeded to Fort Chipewyan on Lake Athabasca. Here he remained tendays collecting all the information possible about the country. The region drained by the Peace, Liard and Athabasca, is of immense extent, containing a vast amount of arable land. At Fort Simpson, lat. 12° north, barley ripens between the 12th and 20th August, and wheat succeeds four times out of five, and melons started under glass ripen well. At Fort Liard, 61° north, the climate is said to be warmer than on Peace River, and wheat always succeeds; and barley seldom falls at Fort Yucon, under the Arctic circle. About 100 miles below Fort Chipeygan are immense salt deposits, and others between Great Slave and Great Bear Lakes. The Buffalo Mountains, south-east from Vermillion, contain both gold and silver. Oil springs were found in several places along the Athabasca and Clearwater rivers. From Clearwater River, Mr. Macoun passed by Portage la Loche to Lake Methy, crossing the Height-of-Land between the Mackenzie and Churchill rivers. Both

barley and potatoes mature here, and the frost was 19 days later than in Manitoba From this point Mr. Macoun proceeded to Carlton House and Fort Garry. Mr. R. W. Ells, M. A., was employed in the summer of 1875 in boring operations in the Saskatchewan district. The place selected was about 10 miles above the Elbow of the North Saskatchewan, the first place where timber of sufficient the Elbow of the North Saskatchewan, the first place where timber of sufficient size for the frame work could be found. They were stopped by the Indians who refused permission to carry on the work on their lands, and the party returned to Fort Carleton and erected boring works there. Water was struck in plenty at the depth of 30 feet, rising to about 8 feet of the top and easily pumped. The hole was drilled to the depth of 175 feet without reaching the bed rock. Only 2 to 5 feet a day could be made. The remainder of the season was employed in collecting specimens for the Philadelphia Exhibition. A second boring was made at Swan River, near Fort Pelly, in July, 1875. Abundance of fresh water was found 28 feet from the surface. The specimens of strata taken out were nearly all of darkblue, grey or black shale. blue, grey or black shale.

Mr. Robert Bell, C.E., F. G. S., was employed in an exploration of the country between James Bay and Lakes Superior and Huron An immense area of Huronian rocks, the largest yet known in the Dominion, was found to run north from Lake Huron the greater part of the distance between it and the area of unaltered rocks S. W. of James Bay, and the Michipicoten belt of these rocks was found much more extensive than had been superiorder. much more extensive than had been supposed. The first exploration inland was by way of Whitefish River and Wanaptti River and Lake, and thence to upper part of Sturgeon River which falls into Lake Nipissing, thence across the height of land to White Beaver Lake, the head of a tributary of the Ottawa. From Pigeon Lake on this river, by a seriess of long portages, the waters of Grassy River were struck and the head waters of Moose River. Between the Great Lakes and James Bay, the Laurentian and Huronian plateau is somewhat elevated, undulating and dotted with great numbers of lakes, while the basin of James Bay is low, level, swampy, as far as known free from lakes, and bounded by a distinct rim of hard ancient rock sfor five-sixths of its circumference. Aithough the plateau much more extensive than had been supfrom lakes, and bounded by a distinct rim of hard ancient rock sfor five-sixths of its circumference. Aithough the plateau may be styled a rocky country, the proportion of bare rock is much less than commonly supposed. In a very considerable portion of the area, the soil is suited for agriculture, with more good soil north of the height of land than south. Within the basin of James Bay the land appears generally of a swampy nature, except a strip along the bank of Moose River. Farming and gardening are carried on successfully at the H. B. Co's posts on Lakes Mattagami and Missinibi, and spring wheat ripens well. At Moose Factory all kinds of vegetables, oats and barley are grown with no more care than is needed in other parts of Canada. The cilmate seems to grow midder in going from the height of land towards James Bay. Red and white pine were common all the way from Lake Huron to Mattagami Lake.

Mr. Scott, Barlow was engaged in the exploration of the coal fields of Cumberland Co., N.S.; full reports of this have not yet been published. Mr. Hugh Fletcher, B. A., spent the summer examining the country lying between Sydney River and St. Anne Harbour. The rumours respecting the discovery of workable seams of coal west of Sydney Harbour proved to

Pauliamentany Summary.

The Fourth Session of the THIRD Parliament of Dominion of Canada opened on Itament of Dominion of Canada opened on the 8th Febv., 1877. The Governor General in his speech mentioned his visit to B. Columbia; the vigorous prosecution of Pacific Railway surveys; the extradition question; the prosecution of the works on the Welland and Lachine Canals, and the advisability of deferring the other works contemplated; the completion of the Intercolonial Railway; the Centennial and Australian Exhibitions; Reduction in Expenditure; the Fishery Claims; Treaties with Indians in N. W. Territories; changes in Joint Stock Companies and Life Assurance Companies Acts; the extension of the powers of Admiralty Courts to Inland waters; amendments in Customs Laws, Excise Laws, Weights and Measures Acts and other Acts; the Geological survey; and the estimates and accounts. After introduction of new members and presentation of some reports, the Houses adjourned.

**Metricanal State Acts Acts and Acts and State Companies and Presentation of Some Reports, the Houses adjourned. the 8th Feby., 1877. The Governor Gener-

February 9th—GENATE—Answer to address moved by Hon. Mr. Hope, seconded by Hon. Mr. Haythorne.

by Hon. Mr. Haythorne.
COMMONS-Answer to Address moved
by Mr. Guthrie, seconded by Mr.
Béchard. Sir J. A. Macdonald characterized the speech as a very meagre bill of
fare. He alluded to the proposed postponement of the contemplated improvements in the canals. He asked for some
explanation with regard to Ministerial
changes since last session. Hon Mr.
Mackenzie, in reply, said he would propose a change in the Address in the paragraph relating to the canal works and
made a general defence of the speech.
Mr. DeCosmos and Mr. Thompson protested on behalf of B. Columbia against delays Mr. DeCosmos and Mr. Thompson protested on behalf of B. Columbia against delays in commencing the work on the Pacific Railway. The address was read a first and second time and passed.

Monday 12th—SENATE—Address postponed till Tuesday.

COMMONS-The question of opening the House with prayers as in the Senate, was brought up by motion of Mr. Macdonald of Toronto. After a few words by Hon. Mr. Mackenzie, Sir John Macdonald suggested the appointment of a committee to see how the suggestion could be carried out, which was agreed to by Mr. Macken-zie. Hon. Mr. Mackenzie made explanations respecting Ministerial changes.
These had been consequent on the appointment of Hon. Mr. Laird to be Lt. Governor of the N.W. Territories, of Hon. Mr. Letellier to be Lt.-Governor of Quebec and of the resignation of Hon. Mr.

and of the resignation of Hon. Mr. Geoffrion from illness.
Mr. Mills had succeeded Mr. Laird, Mr. Laflamme Mr. Geoffrion. Mr. Pelletier had at first declined to accept Mr. Letellier's place, and it had been offered to Mr. Joly who had not felt disposed to accede, and upon reconsideration Mr. Pelletier had accented.

accepted.

Tuesday 13th—SENATE—Debate on Ad-

dress. It was carried unanimously. Commons—Committee appointed to report on desirability of using a form of

prayer.
Wednesday 14th-Ash Wednesday, no

Thursday 15th-Senate-Routine busi-

ness.

COMMONS—Sir John Macdonald made explanations respecting Secret Service Fund. Mr. Mackenzie followed contending that the late Administration ceased to have any control over this fund when they went out of office. A long discussion took place on several motions of Mr. Domville for statements respecting Intercolonial Rwy. Some discussion also arose on a motion of Mr. Desjardius respecting the Sugar Duties, and on a motion of Mr. Bechard for a committee to enquire into some petitions regarding Mr. Justice Loranger.

Friday 16th—Senate—A large number of petitions read and papers presented.

Friday loth—SENARE—A large number of petitions read and papers presented.
COMMONS—House went into Committee on Mr. Cartwright's motion for amending and consolidating Insurance Acts. The resolution was agreed to, with the understanding that the whole subject should be carefully investigated and a better method of managing Life Insurance obtained if nossible. tained, if possible.

Monday, 19th Feb - SENATE -Routine business and forming of committees.

business and forming of committees.

COMMONS—Prayers in the House—Committee. reported in favour of using a form of prayer. It was decided that the form of prayer agreed upon be read by the Speaker in the language most familiar to himself, copies being laid on the desk of each member, in both languages, at the opening of the Session. House went into Committee of Supply. Mr. Bowell moved for a return of Post-office Printing during 1875 and '76 other than that done by the contractor at Ottawa. contractor at Ottawa.

February, 20th-SENATE-Routine business; Divorce cases of Martha J. H. Holi-

well and Walter Scott. Petitions ordered

to be received.

to be received.

COMMONS-Budget speech of Mr. Cartwright-Revenue, \$22,587,0.0; expenditure, \$24,488,000; deficit, \$1,901,000, due to extraordinary and abnormal expenditures not likely to recur again. Reductions in expenditure in the year made of \$800,000; seechts, form Freign ingeneral (interest). receipts from Excise increased; Customs receipts from Excise increased; Customs fallen off \$2,500,00 (). Bank circulation increased in ten years 100 per cent.; deposits 130 per cent; shipping 65 per cent; exports 45 per cent; Estimates \$23,167,000, an augmentation of \$136.000, of which, \$86,000 for Indians. Mr. Cartwright went an augmentation of \$138.000, of which, \$86,000 for Indians. Mr. Cartwright went at some length into details of the loan he had lately negotiated in England; thought with the arrangements made, the ordinary expenditure would never very much exceed twenty-three millions. He proposed abolishing excise duty on coal oil and reducing the duty on imported oil from 15 to 6 cents \$\psi\$ gallon; to put a tax of 1 cent. \$\psi\$ the on malt, and three cents \$\psi\$ gallon on beer; to change the duty on cotton and linenthread, from 10 to 17½ \$\psi\$ cent.; to put a specific duty of 50 cents \$\psi\$ the, and ad valorem of 20 \$\psi\$ cent on cigars, and of 25 \$\psi\$ cent. ad valorem on perfumery, and to make \$\psi\$ me other changes, increasing the revenue altogether by 4 or \$500,000. Dr Tupper followed, criticising the policy of the Government. Mr. Mackenzie followed, defending the Government from the attacks of Dr. Tupper, and was followed by Sir John Macdonald, condemning the tone of the Premier's remarks. The resolutions were introduced, and the House rose at 1 o'clock.

21st—Senate—Divorce case of Mary Jane Bates received on division. Bill in Scott Divorce case introduced and read first time.

Divorce case introduced and read

first time.

of the Fort Commons-The subject Francis Locks was brought up by Mr. Kirkpatrick. Mr. Brouse moved for Select Committee on Vital Statistics Mr. Mackenzie thought this a subject belonging to Local Legislatures, but agreed to the committee.

22nd -SENATE-Bills in Bates and Holiwell Divorce cases, after adivision, read first time. Papers relating to G. T. Rail-way Strike moved for.

COMMONS—2nd reading of Mr. Irving's Procedure in Criminal Cases Bill Bill

sent to committee. Adjourned debate on dismissals from office.

23rd—Senatre—Address for papers relating to Direct and Anglo American Cables Cos., and for correspondance relating to appointment of additional Senators agreed to. Debate on G. T. Railway strike resumed.

COMMONS—Committee of Supply. Items for Privy Council and Department of Justice passed after some explanations by Mr. Blake. The votes for the other De-partments were also passed after the Finance Minister explained that increase was principally statutory. A large number of minor items also passed.

26th—SENATE—Addresses for papers, reports, &c.

moved four months' hoist. After debate House rose at 11. No division.

27th—SENATE—resumed the debate on

the G. T. Railway Strike. Commons-Second reading Geological Sur-

vey Bill, to make the survey a permanent branch of Dept. of Interior and to re-move museum from Montreal to Ottawa. move museum from Montreal to Ottawa. Montreal members opposed the removal. House in Committee of Supply. On the vote for the Parliamentary Library, considerable discussion took place. Mr. Mackenzie said it was not until the interior of the Library was nearly completed that the Librarian had informed him that the building would hold only 80,0 volumes. The side rooms, intended for reading rooms, had to be utilized for storage. It was impossible to extend the building without ruining its design, and he was sure no one would be willing to injure the most beautiful edifice in North America. most beautiful edifice in North America

28th-Senate-A despatch from Lord Caernaryon relative to the Canada Pacific Railway was presented by Hon. Mr. Scott

and read

Commons-Toronto Prison Discipline Bill and Prevention of Gambling Bill in-Bill and Prevention of Gambling Bill introduced by Mr. Blake. A debate took place upon a motion for papers respecting the Georgian Bay Branch of the Pacific Railway. After recess the Insolvent Act Repeal Bill was again under discussion, and Mr. Woods motion (4 mos. hoist) in amendment was finally agreed to by a vote of 103 to 41.

March 1st—Senate—After routine business, an adjournment was carried until the 13th.

Commons—A motion of Mr. Masson for

COMMONS-A motion of Mr. Masson for correspondence respecting the appointment of Senators, and a motion for the appointment of a Committee to consider the question of the Coal Interests.

March 2nd -SENATE—An address for Returns of all persons employed in the Civil Service since 1867 and their salaries

was agreed to.

COMMONS - Debate on Coal Interests continued. On the question of concurrence in Resolution 1, from Committee of Ways and Means, Sir John Macdonald moved an amendment to the effect that the taxaan amendment to the effect that the taxation was increased without any compensation to Canadian industries, and that the tariff should be adjusted so as to benefit the agricultural, mining and manufacturing interests of the Dominion. Mr. Mackenzie followed, saying that this time of depression was not a proper time for the reconstruction of the tariff; that protection belonged to the policy of the dark ages and free trade to the advance of human freedom. Mr. Rochester objected to the increased tax on mait. Debate, which lasted all the evening, was adjourned.

March 5th-No session of SENATE. Commons-Mr. Charlton moved reference of expenditure of Secret Service Fund to Public Accounts Committee. Sir John A. Macdonaid thought it the duty of the Government to resist the motion. Mr. Mackenzie could see no grounds for doing Commons—Ontario Maritime Court So, and the motion was carried. Mr. Bill under discussion. Maritime Province Members suggested making the Bill general for the Provinces as the present Courts were very cumbersome and expensive. Second reading of Mr. Barthe's Bill mittee to inquire into and report upon for repealing Insolvent Act. Mr. Wood the Commission Sir John Macdonald moved an amendment to the amendment that the committee inv stigate the ac-counts of both the Northern and Northern Extension Railway, which was agreed to.

March 6th - SENATE - Several Bills from

Commons introduced and read.

COMMONS-Adjourned debate on Tariff. Mr. Wood moved an amendment in favor Mr. Wood moved an amendment in favor of a 20 per cent. tariff. Sir John Macdonald supported this, and read a letter from Mr. Stephen, one of the largest manufacturers in Uanada, stating that manufacturers generally were in favor of a tax of 75 cents per ton on bituminous coal, provided this was made a part of a general scheme of tariff reform doing justice to the industries of all the Provinces. tice to the industries of all the Provinces.

Debate las ed all until adjournment.

March 7th - Senate-Petitions and Reports-A number of Returns brought down

ports—A number of Returns brought down by Hon. Mr. Scott. COMMONS—Adjourned debate on the Coal Interests resumed. Mr. Mackay (Cape Breton) suggested the addition to the amendment of the words "to inquire into the best means of promoting inter-provincial trade," which was agreed to by Mr. Cartwright, and after further debate was accepted and the motion as amended passed and committee was appointed. Mr. Blake's Bill for Prevention of Gambling Practices being taken up, Sir John Macdonald suggested insertion of clause prohibiting pools on races and pools on elections.

March 8th—adjourned debate on Quebec Graving Dock. Motion for papers was fin-ally withdrawn on Mr. Mackenzie's statement that the plans and report were not yet ready. Second reading of Mr. Dymond's Criminal Procedure Amendment Bill, allowing persons charged with crime to give evidence on their own behalf if they desired. After debate the Bill was with-

SENATE—The Scott Divorce Case proceeded with and Bill read a second time. Several Bills read 2nd time and a number

Holiwell Divorce Case do. do Several Bills passed through Committee and others from Commons read the first time. read the first time.
Commons—Adjourned debate on Tariff

lasted all evening.
12th-Commons-Mr. Shibley moved for documents respecting the Rideau Canal. Mr. Mackenzie said the time was not far distant when very extensive repairs would be necessary and then would be the time to consider the question of dealing with the work. After recess the St. Peter's

with the work. After recess the St. Peter's Canal was under discussion, and Intercolonial and P. E. Railways.

13th—SENATE—Metions for papers and reports. Thirdreading of Act to extend to P. E. Island certain criminal laws in force in other Provinces. Bill was passed with one amendment. Act respecting offences against the person passed in Committee of the whole with three amendments. Several Bills from Commons read ments. Several Bills from Commons read

1st time.
Commons—Amendment of Customs Act for providing correct statements of ex-

ports, better provision for reporting vessels and railway trains on the frontier, and greater security to the revenue in connection with the ware ousing system, agreed to and a Bill introduced. Adjourned debate on the Tariff resumed and lasted all the evening.

all the evening.

14th-SENATE - Address for statement of affairs of Le Credit Foncier agreed to. Judges Salaries Act, from Commons, passed. To the Geological Survey Bill an amendment was proposed respecting the museum at Montreal, but was lost on

a vote of 24 to 21.

a vote of 24 to 21.

COMMONS - Mr. DeCosmos moved for a committee to enquire into the progress made in the Pacific Railway Survey. The transfer of the Truro & Pictou Branch Railway was afterwards taken up. Mr. Mackenzie thought every precaution had been taken. Bill for Extradition of Criminals, to make a general provision for carrying out all extradition treaties extending to 'anada, between Great Britain and foreign countries, was read a second time. second time.

15th March -- SENATE - Committee Islam March SENATE — Committee On Holiwell Divorce Case. Several Bills were brought up from Commons. Geological Survey Bill passed and the Scott Divorce Bill, and Bates Divorce Bill, and Prison Discipline Bill. A number of Bills read second time and referred to com-

mittee.

Commons—Debate on Tariff resumed by Mr. Mills. Mr. Workman contended the Government had increased the tariff from 17½ to 20 per cent., and he should support the amendment of Mr. Wood. The port the amendment of Mr. Wood. The amendment to the amendment was lest by a vote of 109 to 78. Mr. Orton moved a further amendment to arrange the Customs Tariff so as to relieve Canadian farmers from the one-sided and unjust effects of U. S. Tariff. Debate lasted till 20 minutes to 5 o'clock; the House finally adjourned. adjourned.

March 16th-SENATE--Act to incorporate Dominion of Canada Civil Service Mutual Benefit Association, reported from committee, with amendments. Committee appointed to enquire into the differences in length and cost of construction of the Pacific Railway Line westward on lines north and south of Lake Manitoba. Several Bills advanced a stage, and Re-

ports of committees received
Commons Extradition Bill read third
time and passed. Committee of supply:
Items for Immigration and Quarantine.

After a long discussion, the item was agreed to. March 19th-SENATE-A number of Bills

read a third time and passed.

read a third time and passed.
Commons—Mr. Devlin moved for a Select Committee to report on the expediency of Representation of Minorities.
The motion was altered to meet the views of Mr. Blake, and it was agreed to on a division.

20th March-Senate-Several Bills read second and third time. Holiwell Divorce Bill passed. Several amendments were made to Supreme and Exchequer Courts

Amendment Bill. Commons — House in Committee on Quebec Harbor and Pilotage Acts. Reso-Quenec Haroor and Filolage Acts. Resolutions agreed to. Mr. Blake's Improper Use of Fire-arms Bill read second time. Amendments to Inland Revenue Act passed through committee; also Adulteration of Food and Inspection of Gas. Second reading of Mr. Blake's Breaches of Contract Bill:—Any wilful breach of contract, involving serious bodily injury, danger to human life, or destruction of valuable property, to be declared criminal. Breaches of contract of people engaged to supply places with one order to the contract. gaged to supply places with gas and water, wilfully or maliciously made, to be declared criminal. Breaches of service on the part of employes on railways and of other workmen, causing great damage, &c., to be deemed criminal also. Read a second time after debate.

21st March SENATE-A number of Bills

were advanced a stage.

Commons—Debate on a motion of Mr. Palmer's for a return respecting the sale of Postage Stamps at St. John Post-office. Adjourned debate on Mr. Casey's motion for Select Committee on Civil Service. March 23rd—SENATE—Canada Traffic Cos. Bill reported from Committee with several amendments which were agreed.

several amendments which were agreed

to. Other Bills were advanced a stage. Commons—First reading of Holiwell Divorce Bill agreed to on a division of 94 to

Divorce Bill agreed to on a division of 94 to 54. Adjourned debate on Tariff.

March 22nd—Commons—Adjourned debate on Tariff continued. Mr. Orton's amendment was lost by a vote of 113 to 74, 8ir John Macdonald's by a vote of 119 to 70, and the original motion agreed to 50 a vote of 120 to 69.

March 26th—SENATE—Several Bills passed. An Address was agreed to for state.

sed. An Address was agreed to for state-ments respecting Canada Agricultural Insurance Co. Several Bills from Commons introduced and read. On a motion of Hon. Mr. Read, respecting a National Policy and adjustment of Tariff, a debate

arose

Commons-Some discussion arose on the COMMONS—Some discussion arose on the question of furnishing supplies to the N. W. Force. The question of the Preservation of the Buffalo was brought up by a motion of Mr Schultz for papers. The best authorities held that the present rate best authorities held that the present rate of destruction buffalo would be extinct in eight years, and the animal was invaluable to the Indian, who, without it, would become a pauper and then a marauder. Mr. Mills thought the question had better be left to be dealt with by the Government of the North West. as they were on the spot and more familiar with the matter. A debate took place on the spitest the spot and more ramiliar with the matter. A debate took place on the subject of Government Deposits in Ontario Bank, on a motion of Mr. Bowell for papers. Mr. Pouliot moved for the tariff of charges on the Grand Trunk and Intercolonial Railways; he thought the rates were much higher for the Province of Quebec than for the other provinces. Mr. Mackenzie higher for the Province of Quebec than for the other provinces. Mr. Mackenzie said the Intercolonial was a commercial affair and must be managed on commercial principles. It would be impossible to carry pro rata under the system of keen competition with New England Railways. The rates on the Intercolonial for any distance were now lower than on any line on the continent.

Murch 27th - SENATE - Several Bills
were advanced a stage and papers pre-

March 28th—SENATE—Several Bills were passed and papers presented.

COMMONS—Mr. Mackenzie said, respecting the works at Carillon, he wished to give the contractors every possible chance to complete them, but unless reasonable progress were made, new arrangements must be entered into. The subject of the rise of water in the Ottawa was brought unby Mr. Harar its overflow between the up by Mr. Hagar, its overflow between the Chaudiere and Long Sault being some-thing extraordinary. Adjourned debate on Canal Improvements. Mr. Blaine moved for various papers connected with the Welland & St. Lawrence. Third read-ing of Truro & Pictou Branch Railway Transfer Bill. Mr. Mitchell moved an amendment, reserving to the Government the right of free use for transporting coal and other materials for the use of Intercolonial and Government Railways. After debate the amendment was lost on a vote of 88 to 44, and the Bill passed. House in Committee on "Ontario Maritime Court Committee on "Ontario Maritime Court Bill." Several amendments were pro-posed and accepted, and the Bill passed. 2nd reading of Bill for repressing Betting and Pool Se'ling. A number of other Bills were passed through committee. April 2nd-COMMONS-House in com-

mittee on Customs Acts Consolidated Bill. mittee on customs Acts Consolidated Bill. Some debate took place on the question of allowing beef cattle to be brought in and slaughtered in bond, but the section was agreed to, and the Bill reported and passed. House in committee on Culling passed. House in committee on Culling of Timber Bill. Mr. Laflamme said there were 36 cullers, 18 of whom were to be dismissed or superannuated with a maximum allowance of \$200 a year. The resolutions were agreed to and Bill read. Insurance Acts Amendment Bill: Mr. Young gave notice he should move an amendment when the report was received.

ceived.

April 3rd - SENATE - Several Bills were assed; others advanced a stage. Several Bills, from Commons, read first time.

Commons - House in committee on Insolvent Act Amendment Bill. The resolvent lutions agreed to with some amendments,

and Bill reported and read a second time.

April 4th - SENATE Amendments to the Act incorporating the "Dominion Grange" were concurred in, and the Bill passed. A number of Bills were advanced a stage, and the debate on the Tariff was

continued.

COMMONS - Mr. Smith moved for papers relative to route of Canadian Pacific Railway. He and Mr. Ryan both thought it a mistake not putting the road south of a mistake not putting the road south of Lake Manitoba. Other members spoke in the same sense. Mr. Mackenzle said he had in all cases been guided by the reports of the engineers. Great engineering difficulties presented themselves on the southern route, besides the disadvantage of having to pay a high price for the right of way. The Government felt it a very serious matter to interfere with the conclusions of emirent engiwith the conclusions of eminent engineers, whose sole instructions were to consider the best interests of the country. Mr. Schultz introduced a resolution in favor of a Prohibitory Liquor Law. Mr. Trow's Bill for the safety of Passengers on Railways was, after some debate, read 2nd time and referred to committee. read 2nd time and referred to committee. On the 3rd reading of Joint Stock Cos. Incorporation Bill, two important amendments were moved by Mr. Workman and Mr. Jetté, which were agreed to and

the Bill passed. Third reading Insolvent Act Amendment Bill. Mr. Caron moved some amendments, extending the operations of the law to non-traders. Mr. Blake opposed the amendment, and it was negatived by a vote of 101 to 56. 3rd reading Payment of Active Militia Bill. April 3rd—SENATE—A number of Bills read 2nd and 3rd time. A number of returns asked for presented by Hon. Mr. Scott. Act respecting Boundaries of Manitoba passed. Adjourned debate on Tariff resumed.

resumed.

resumed.

Commons Pilotage Act Amendment Bill, empowering Pilotage authorities of Halifax and Pictou to make steamboats pay pilotage dues if they choose, and exempting certain vessels, at other ports, from these dues. The Bill, after considerable debate, was agreed to. Culling of Timber Actread a second time. House in Committee on Inland Revenue Act Amendment Bill. imposing licenses on Timber Actread a second time. House in Committee on Inland Revenue Act Amendment Bill, imposing licenses on those who imported stills or worms, and establishing four classes of licenses instead of three. Bill reported. Tariff debate resumed. Mr. Wallace moved an amendment, substituting an ad valorem for specific duty on tea, which was negatived by a vote of 114 to 65 and the resolution agreed to; 4th,5th, 6th, 7th, 8th and 9th resolutions agreed to without division. Tariff Bill introduced and read. Tariff Bill introduced and read.

April 6th—Senate—Papers were moved for and an address agreed to respecting the Traffic over the Victoria Bridge. Several Bills were read a first time. Inspection of Steamboats Act passed, and the

debate on Tariff resumed.

COMMONS—Third reading Insurance Act Amendment Bill. Mr. Young moved an amendment that the reserves to be held amendment that the reserves to be need by all foreign insurance companies shall be solely for benefit of Canadian policy holders. Mr. Colby moved an amendment to the amendment, adding to it, unless the Co. proves to the Finance Minister that it has well invested assets sufficient for outstanding policies and to pay liabilities and a sufficient surplus for Canadian policy holders. Mr. Colby's amendment was lost by a vote of 175 to 23, and Mr. Young's by 104 to 77. Bill was read and

April 7th—Commons—The subject of Government Printing in New Brunswick was brought up by Mr. Bowell, who moved a resolution that the printing contracts held by the Speaker were opposed to the held by the Speaker were opposed to the Independence of Parliament Act; in 1875 and 1876 over 18,000 dollars were paid to Hon. Mr. Anglin for printing and stationary for the P. O. Department. Mr. Mackenzie complained of the factious disposition of the gentleman opposite, and said as soon as the Government had had this matter brought under its notice by the P. M. General, it was decided the practice must be put an end to; and read a correspondence on the subject, and said the hon, gentleman's motion was merely the hon. gentleman's motion was merely intended to embarrass the Government. Mr. Blake proposed the course of a reference to the committee of Privileges and Elections. Debate adjourned Elections.

Elections. Depare aujourned

April 8th - Senate - A number of
amendments were reported from committee to the "Albert Railway," "B. Can.

Amendment." Loan and Investment Cos. Amendment," and "London and Ontario Investment Co." Bills. A number of Bills were intro-

duced and others advanced a stage, and the debate on the Tariff resumed. COMMONS — Debate on Government Printing in N. Brunswick resumed. After a very long debate, Mr. Bowell's motion was negatived by a vote of 111 to 72, and the House went into Committee of Supply and passed a small item for Pensions.
Mr. Casey moved to refer the question of
Mr. Anglin's printing contract to the
Committee on Privileges and Elections. Motion agreed to.

April 10th-Senate-Reports received and papers moved for. Several Bills introduced from Commons. Three Bills

passed.

Commons Pilotage Act Amendment Bill passed with amendments. Mr. Kirk-patrick moved a series of resolutions respecting the St. Francis Lock, condemning its not being offered by contract or authorized by Order in Council, or inac-cordance with the terms of Canada Pacific Railway Act, Mr. Mackenzie defended the legality of the work and the useful-ness of it. Wotion negatived on a vote of 107 to 59, and House went into Committee

107 to 59, and House went into committee of Supply.

April 11th—SENATE—A motion in favor of Prohibitory Liquor Law was introduced by Hon. Mr. Vidal, and negatived by a vote of 36 to 25. Three Bills from Commons read first time, and a number of Bills advanced a stage.

COMMONS—Debate on Prohibitory Liquor Taw resumed hw Mr. Dymond. After long

COMMONS—Debate on Prohibitory Liquor
Law resumed by Mr. Dymond. After long
debate, the amendment of Mr. Ross was
agreed to by a vote of 104 to 59.

April, 12th—SENATE—On the question
of concurrence in Campbell Relief Bill,
Hon. Mr. Campbell moved the six months?

hoist, which was negatived on the cast-

ing vote of the Speaker.
Commons - Measurement of Registered Ships Bill passed with an amendment. Ships Bill passed with an amendment. Pilotage Act Amendment Bill referred back to committee, amended and passed. Ontario Maritime Court Bill further considered. Culling of Timber Bill amendments were agreed to. The case of W. D. O'Donoghue was brought up by Mr. W. D-O'Donognue was brought up by Mr. Costigan, who moved that he should be placed in the same position as Riel and Lepine. The motion lost by a vote of 105 to 60. House went into Committee of Supply on the Militia Estimates.

April 13th-Senate-Rivière du Loup Bridge Co's Bill passed with several amendments. A number of Bills advanced a stage. Improper Iyse of Fire-arms Bill

amendments A number of Burs advanced a stage. Improper Use of Fire-arms Bill passed with amendment excepting soldiers, sailors, volunteers, constables and policemen on duty from its provi-

sions.

COMMONS—Third reading Maritime Court COMMONS—Third reading Maritime Court Bill. After some objections by Mr. Jetté and Mr. Mitchell and explanations by Mr. Blake, House went into Committee of Supply on the Intercolonial Railway system. Mr. Mackenzie stated the total cost up to 30th June, 1876, to be r22,732,083; of the St John Extension to 4409,265, and Halifax Extension \$669,719.97. He explained a supplementary vote would be required, as the through traffic had increased so much they had been obliged thire a large number of cars from the G. T. hire a large number of cars from the G. T.

Railway.

April 14th—Commons—Mr. Laurier made a statement affi-cting the seat of Mr. J. M. Currier and asked that it be referred to

Committee of Privileges and Elections, which was agreed to. Sir John Macdonald moved that a new writ be issued for the County of Lincoln, the sitting member, Mr. Norris, having entered into a constitution of the county of the tract for the public service. Mr. Macken-zie moved in amendment that the case be referred to the Committee of Privileges referred to the Committee of Privileges and Elections, which was carried on a division. The question of Secret Service Money was brought up by the report of the Select Standing Committee on Public Accounts. Report concurred in on a vote of \$2 to 60. House went again into Supply.

April 16th—Senate—Several Bills advanced a stage. House in committee on "Customs Amendment Act." Three amendments passed. Albert Bailway to. amendments passed. Albert Railway Co.

Blll passed. Commons-Mr. Currier read a letter to the speaker resigning his seat, stating he was not aware that the firm of which he was a member had the transactions mentioned in the resolution of Mr. Laurier, but on finding it was so he resigned. Mr. Browe moved that the canals may be closed on Sunday. Mr. Macdonald of Cornwall said that was done on the Cornwall Canal, and Mr. Mackenzie that the Welland Canal was absolutely shut on Sundays. The motion was withdrawn. House went into committee on motion of Mr. Irving to consider Traffic Kates on

Railways

April 17th—SENATE—A large number of papers were presented and Bills advanced

a stage.

COMMONS-The Goderich Harbour Contract was brought up by Mr. Farrow, who stated that the work was not given to the stated that the work was not given to the lowest tenderer, but to a supporter of the Government whose tender was \$30,000 higher. Mr. Mackenzie replied by declaring that his Govt had succeeded beyond all former contracts in giving out contracts to the lowest tender, and in this particular instance he had acted on the recommendation of Mr Page the Superinrecommendation of Mr. Page the Superintendent. The motion was negatived on a vote of 103 to 62. The Speaker informed the House he had received a letter from Mr. James Norris, the member for Lincoln, resigning his seat.

April 18th.—SENATE—Bill for relief of Robert Campbell referred to Committee of Whole on a vote of 74 to 23. A number of Bills were passed and others advanced

a stage.

COMMONS-House in Committee of Supply. Items for Meteorology and Geologi-cal Survey were passed; Marine Hospitals, Steamboat Inspection and Hospitals, Steamboat Inspection and Insurance Cos Inspection and other items. On the items for repairs and working expenses of Canals, Slides, and Booms and of Government Railways, Mr. Macand of Government Manways, Mr. Man-kenzie explained that there were now 714 miles of railway in the hands of Govern-ment. Mr. Mitchell said the working of the road had been very successful, and he the road had been very successful, and he thought as it was more known it would be still more so. He took great pride in its success. Mr. Mackenzie said, that as a rule, the English mails by the Intercolonial had been delivered in Montreal about the time that formerly they reached Portland, and that the cost per train mile by this road was considerably less than this road was considerably less than either the Grand Trunk or Great Western. It was ex-ected as soon as the whole road was laid with steel rails, the revenue would meet the expenditure.

April 19th—SENATE—Insurance Bill read and referred. Amendments to Insolvent Bill and amendments to Customs Bill agreed to. North West Territories Bill amended. Campbell Divorce Case Bill

passed.

COMMONS-House in Committee on Weights and Measures Amendment Bill. Weights and Measures Amendment Bill.
The resolutions were agreed to and Bill
introduced, and House went into concurrence on Supply items from committee.
Resolutions I to 24 were read and agreed
to. Items to 45 were agreed to. On that
for the Parliamentary Library, some or the Fariamentary Library, some conversation took place on the possibility of making the Library available for a larger number of books. Mr. Mackenzie thought the only thing to be done was to build a new wing for the Supreme Court, and utilize the rooms now occupied by them, which might be done in a few and utilize the rooms now occupled by them, which might be done in a few years. Items to 60 were passed. On Militia Staff, Mr. Vail said the Militia Estimates had been reduced \$500,000, a reduction to which he had very reluctantly consented. He did not think it would do to reduce it more, and probably it would be desirable hereafter to make the militia force more efficient than now. Mr Brouse thought drill had better be taught in the schools as in Germany The items for Militia Expenditure were all agreed to as well as all other items up to 96.

April 20th SENATE—Insolvent Act and Culling Timber Act passed, and B. Columbia County Court Judges Act, To the Maritime Act an amendment was made. A

time Act an amendment was made. number of amendments made to Joint Stock Companies Act, and to that on Pool

Selling.

Selling.
COMMONS-House in Committee of Supply—Pacific Railway. Mr. Mackenzie entered into very full explanations of the proposed route, and the reasons for selecting it. The route from Fort William on the Kaministiquia was through a country much more easy of access than the Nepigon route. The spring opened earlier and the work would be comparatively light. The country between Thunder Bay and Red River, except in the valley of the Kaministiquia, was generally of a rough character, though land would probably be available for settlement to a much greater extent than was commonly supposed. 116 miles from Lake Superior probably be available for settlement to a much greater extent than was commonly supposed. 116 miles from Lake Superior westward was under contracts for \$1,307,793—without the rails. From Selkirk, on Red River, to Keewatin on Winnipeg River, a distance of 77 miles, was let. The total amount contracted for was \$3,302,568. To this had to be added steel rails, at a cost of \$1,385,775; engineering \$347,701; rolling stock \$457,000; right-of-way \$65,000, and station buildings \$50,000, making the entire cost of 229; miles \$5,603,003, or a little less than \$5,600 per mile. The route through B. Columbia would not be finally decided until after the summer's survey of 1877. There was no doubt that the Peace River country was the finest part of the whole North-west; but further surveys through that and Pine River Pass would put back the railway two or three years. Several members urged the desirability of this the railway two or three years. Several members urged the desirability of this survey, and Mr. DeCosmos spoke strongly of the superiority of Bute over Burrard Inlet as a terminus. The item passed as also that of \$100,000 for surveying and Engineering; also, those for Im-

YEAR BOOK AND ALMANAC OF CANADA FOR 1878.

April 21st—Senate—Several Bills passed without amendment and others were

advanced a stage.

advanced a stage.

Commons—2nd reading Ordnance and
Admiralty Lands Bill. Com. of Supply.

April 23rd—SENATE—Insurance Bill
passed by a vote of 43 to 13. To the Bill
amending Joint Stock Companies Act, two amendments were made.

amendments were made.
COMMONS—Motions were made for inquiry into the contracts for Intercolonial Railway, attacking the seats of Hon Mr. Burpee and Mr. Moffat; referred to Committee on Privileges and Elections. Adjourned debate on Canada Pacific Rwy.
April 24th—SENATE—Reports received.
Pilotage Bill agreed to. Several Bills from Commons read first time. Joint Stock Cos. Act agreed to with amendments.
COMMONS—Third reading Northern

Commons-Third reading Northern Railway Bill. Mr Cartwright moved an amendment which was agreed to. Ord-nance and Admiralty Lands Bill agreed Northern Railway Bill. Mr Cartwright moved an amendment which was agreed to. Ord-nance and Admiralty Lands Bill agreed to with amendment that all lands should, in future, when disposed of, be sold by auction. Mr. Cartwright brought in a bill changing close of fiscal year to 3ist March. Mr. Holton thought the change might be useful and perhaps called for but a great deal of inconvenience would flow from it, one of which was that the estimates would have to be voted a year ahead every session; he thought so important a Bill should have been introduced earlier in the session. Dr. Tupper approved of the reasons for the change to a large extent, and thought it would involve an earlier meeting of Parliament which would be an advantage. In committee an amendment was added, providing for comparative statements, and the Bill as amended passed. Debate on Pacific Railway was resumed by Mr. Dymond, who said it was a matter of absolute necessity it should be constructed. He thought Canada had little conception generally of the ultimate value of B. Columbia; Canada would have to bear a heavy burden for a considerable length of time, but both as a matter of interest and of national good faith, the work must be accomplished, and the shameful word "repudiation" never uttered. Mr. White, Mr. Langevin and Mr. Haggart followed in support of the motion, the last named saying, that from evidence taken before the Immigration Committee there was good arable land in the North West to maintain a population of forty millions, independent of Manitoba. After a prolonged debate the motion was negatived by a vote of 104 to 59. The supplementary estimates were presented by Mr. Cartwright, and the House adjourned.

April 25th—Senate—Several Building and Loan Cos. Bills passed with amendments. Northern Railway Bill read first time. Pilotage Bill passed. Also, Bill respecting Great Seals of Ontario and Quebec.

Conmons—Northern Railway Cos. affairs under debate upon motion of Mr.

Quebec.

Quebec.

CONMONS—Northern Railway Cos. atfairs under debate upon motion of Mr. Cameron amending the Bill, so as to secure a further payment to the Government of \$27,500. On the Bill for Auditing Public Accounts, Mr. Holton said he had doubts of the expediency of the change. He and other members thought it advisable the Bill should stand over till next session, but Mr. Cartwright objected at d the Bill passed Weights and Measures Bill passed, and House went into Committee of Supply. Committee of Supply.

April 26th-Senate—Northern Railway Cos. Bill reported from committee and the amendments passed. Quebec Build-ing Societies Bill passed with amend-ments. Committee on Pacific Railway Line from Keewatin westward reported in favor of an instrumental survey of the southern route during the summer of 1877. Pilotage Bill on a division was concurred in. Debate on Tariff resumed.

in. Debate on Tariff resumed.

COMMONS-Indian Acts Amendment
Bill withdrawn by Mr. Mackenzie. Second
reading Customs and Excise Amendment
Bill. Mr. Desjardius called attention to
the unfairness of the sugar duties. Mr.
Cartwright said it was not possible to consider the question at this period of the
session. On motion for third reading,Mr.
Rochester moved an amend nent reducing the duty on malt from 2 to 1 ct. per
pound. Mr. Cartwright promised to give
his attention to the matter during the recess, and the Bill passed third time on a
division. Second reading Independence
of Parliament Act Amendment Bill, indemnifying members who had sat in the

of Parliament Act Amendment Bill, indémnifying members who had sat in the
House under a bona fide belief they were
qualified to sit, was carried by a vote of
97 to 45, read a third time and passed.
House went into Committee of Supply.

April 27th—Senate—A large number
of Bills, from Commons, read a first time
and concurred in. The Bill respecting
Auditing Public Accounts, changing fiscal
year to March 31st, &c., was thrown out
by a vote of 36 to 14. Several Bills were
passed through committee, and amendpassed through committee, and amendments made to the Petroleum Inspection Bill; to the Weights and Measures Bill, and to the Ordnance and Admiralty

Lands Bill.

Lands Bill.

COMMONS-Report of Civil Service Committee presented Mr. Mackenzie moved the referring report to the Joint Committee on Printing with a view to its being printed, which was agreed to. House went into Committee of Supply, and passeditems for Lighthouses, Pacific Rallway and several others. On the Albert Railway Bill, sent down from the Senate with an amendment, on the question of conand several others. On the Albert Railway Bill, sent down from the Senate with an amendment, on the question of concurrence with the amendment, Mr. Burpee moved the three months hoist to the whole Bill, which was carried by a vote of 47 to 21, and the House went into Committee of Supply. Resolutions to appoint an Inspector of Indian Agencies, passed by a vote of 50 to 16. A large number of items of Supplementary Estimates also passed, and the Supply Bill was introduced, read first, second and third time and passed. April 28th—SENATE—Supply Bill passed. Governor General came down, and Commons being summoned, the assent of the Crown was given to 85 Bills. The three Divorce Bills were reserved, and Parliament was prorogued.

COMMONS—Mr. Mackenzie made some explanations respecting Georgian Bay Railway. First and second Reports of Committee on Privileges and Elections were presented by Mr. Irving, when the messenger from his Excellency was announced. Sir John Macdonald objected to the door being opened until the report was read, as it was very important, but

to the door being opened until the report was read, as it was very important, but Mr. Speaker overruled the objection, and amid cries of Privilege, the door was opened, and Mr. Speaker went to attend His Excellency, and the House was prorogued.

N. W. TERRITORIES ACT.

Chap. 7—The G. in C. may appoint an Administrator in case of illness, absence or incapacity of the L. G. the Administrator as well as the L. G. to take oath of office under B. N. A. Act. The Council of the L. G. is to consist of six persons, including the Stip. Magistrates; and they and their clerk are to take oaths prescribed by G. in C. The L. G., in C. or with the advice and consent of the L. A., may make ordinances in matters authorized by the G. in. C. not exceeding Provincial authority under the B. N. A. Act. The L. G. is to sit in Council as a part thereof in enacting ordinances, but this provision ceases to have effect so soon as a Legislative Assembly is formed. The sections of the previous Act, authorizing the establishment of courts and formation of judicial districts, are repealed. The Stip. Magistrates have throughout the N. W. T. jurisdiction of one or two J. P. elsewhere, or granted by any local ordinance; also in all cases under the third section of N. W. T. Police Act (% V., c. 35). A Stip. Magistrate may, with consent of accused, try summarily and without a jury, any case in which the punishment. If he does

not consent, then with a jury of 6 persons, as also in cases where longer imprisonment may be inflicted. In cases which may be punished by death, he must also be assisted by two J. P. The procedure shall be as nearly as possible the same as in summary cases, but the judge must take, or cause to be taken, full notes of the evidence, and the prisoner may make full answer and defence by counsel. When sentence of death is pronounced, the case is to be reported, and full notes of evidence sent to the M. of J., and sentence not to be executed till pleasure of the G. G. is communicated to the L. G. Till otherwise provided by ordinance, the Magistrate decides what male persons shall be summoned as jurors. The prisoner in cases of treason or felony has 6 peremptory challenges; the Crown, 4. Challenges for cause to be as under 32 and 33 V., c. 29. If jury list is exhausted, the summoning by word of mouth of tales from among the bystanders is provided for. Persons making default or refusing to serve are liable to \$10 fine. Sentences of 2 yrs. or over are to be served in the Manitoba Penitentiary. Returns of trials and proceedings are to be made to the L. G. in civil causes the jury is to be summoned as in criminal. Execution is to be carried into effect in accordance with any ordinance of the L. G. in C., or if there be none, then as in Manitoba. The Act 39 V., c. 22, respecting intoxicants in the N. W. Territories, is repealed. The limitation of the application of 32-33 V., c. 30, to offences committed in the N. W. T. and triable in Manitoba, is taken away. Either the English or French languages may be used in the Council and Courts. Records and journals are to be kept, and the laws printed in both. Stip. Magistrates have the same power in Keewatin as in the N. W. T. So have the Chief Justice and Judges of Manitoba when required to act by the G. in C. Otherwise, the jurisdiction of these latter outside their Province seems to be taken away.

ORDNANCE AND ADMIRALTY LANDS.

Chap. 8—Declares these lands as set forth in the schedules to the Act to be vested in Her Majesty for the purposes of Canada, subject to all conditions, leases and agreements already existing. They are to be divided into two classes. Class I to be retained for purposes of defence, and occupied by forces under the Crown or leased; class 2 to be leased or sold, and proceeds in either case to be paid in to R. G. to credit of C. R. F. Rights acquired in or to such lands not to be affected, and improvements made by persons in occupation, with consent of the Crown, to be paid for before the land is sold or leased. All sales, except to a Province, to be by auction.

GEOLOGICAL SURVEY.

Chap. 9—The Geological and Natural History Survey is to continue, under charge of M. of I., and it is to be known as the Geological Branch of that Dept. Its duties are defined to be: 1. "To collect, classify or arrange such specimens as may be necessary to ensure a complete and exact knowledge of the mineralogical

resources of the several Provinces and ferritories of Canada; to carry on palceontological investigations; to study and report upon the fauma and fara of the Dominion, and to make such other researches as will best tend to ensure the carrying into effect the object and purposes of this Act. 2. To continue to collect the necessary materials for a Canadian Museum of Natural History, Mineralogy and Geology. 3. To report from time to time, in such manner and form as the Minister may direct, their proceedings under this Act, and to furnish proper maps, diagrams, drawings and collections of specimens to illustrate the same." The Director is to report each year to the Minister, and his report is to be laid before Parlt. A Director and assistants are to be appointed by the G. in C., who will fix their salaries subject to the approval of Parlt. The Superannuation Act is to apply to the permanent officers. The musuem may be removed to Ottawa, when G. in C., sees fit. It is to be open to the public from 10 a.m. to 4 p.m. each day (Sundays excepted): The G. in C. may order its enlargement and the distribution of duplicate specimens to scientific, literary and educational institutions in Canada and other countries. The Director may cause topographical, geographical or other measurements or observations to be made, and monuments or marks to be placed. All railway and canal cosincorporated under Dominion authority since the Railway Act 1867 are to furnish plans and sections of their surveys on demand of the Director, and at the cost of the Department. Persons employed in one branch of the Department may be called on to serve in another.

CUSTOMS.

Chap. 10—Amends and consolidates the laws relating to the Customs. Unenumerated articles are subject to a like duty to the enumerated articles which they most resemble; if equally like two, they are subject to the higher duty. When two articles are mixed the product bears the duty of the liquor of which they have the flavour. In cases of doubt, the G. in C. may determine the duty to be paid, or the exemption from duty, and an O. in C. so declaring, and published in the Canada Gazette, has the force of law till Parlt. otherwise decides. All duties are payable in Canadian currency and according to the Weights and Measures fixed by the Statute in that behalf. They are to be levied in like proportion on any greater or less quantity than those named in the Act. They are collectable subject to the provisions of law respecting the collections and management of the revenue, the auditing of public accounts, &c. and the moneys are to be paid over to the b. G. and form part of the C. R. F.

ENTRIES

No goods shall be unladen from any vessel from a foreign port, or from a coasting vessel having dutiable goods on board, nor shall bulk be broken within 3 leagues of the coast until entry has been made and a warrant for unlading granted; nor is a vessel to be unladen, (unless suf-

ficiently to cross a bar or shoal) except between sunrise and sunset of days not Sundays or holidays, and at a place where a Customs officer is appointed to attend, or a sufferance has been granted by the Collector, &c. Any alteration of stowage which facilitates illegal unlading is deemed breakage of bulk; or if any package is broken, or staved, or anything thrown overboard or destroyed, it is a breaking of bulk. For contravention the master forfeits \$200. Goods illegally unladen are forfeited.

PORTS OF ENTRY.

The G. in C. appoints ports of entry, to which all imported goods must be brought. And all goods exported must be reported to the nearest custom house within 24 hours. If goods are brought in at other places, or taken past the port of entry, or removed from the place appointed, before examination and before the duties are paid and a permit given, or if the vessel containing them go elsewhere than a port of entry, not being compelled by stress of weather, such goods (unless those of an innocent owner) and the vessel in which they are brought, (if it be not worth more than \$800), are forfeited; if more, it may be seized and detained for payment of a fine of \$800 by the master or owner, or sold to recover that amount if it be not paid within 30 days. The horses or cattle and carriages employed in Illegally bringing in or removing goods by land are also forfeited as well as the goods; also railway cars so employed. And any officer of a railway who aids or abets incurs a penalty of \$200. Express Cos. and officers are in a like manner liable.

MASTERS REPORT.

A master of a vessel on arrival at a port of entry must forthwith report to the Collector its name, country, tonnage and port of registry and whether laden or in ballast the name of master, country of owners. No. and names of passengers, No. of crew, Nos. and marks of every package of goods on board and where laden, the particulars of any goods stowed loose, where and to whom consigned; where goods have been laden or unladen, or bulk has been broken on the way; what part of the cargo is for that port and what for any other and what goods are to be re-exported, and what surplus stores remain on board. An officer may be sent on board, at any place within 3 marine miles of anchorage in the port, to receive a copy of this report, and he may remain on board till the vessel anchors. And the copy of the report received by him is to be deposited in the Custom House, to be compared with that presented to the Collector by the master. The master may be called upon to produce bills of lading or copies, and attest his report by affidavit, and he must answer all questions about the subject matter of it, and, if required, embody his answers therein. Failing to comply with these provisions, or making an untrue report, he forfelts \$400. Any goods found on board or landed, and not reported, are forfeited, unless good faith is shewn. If the contents of a package for another port or exportation are unknown to the master, it may be opened and examined,

and if prohibited goods are found in it the whole package is forfeited. But the G. in C. may make regulations for the landing and storing before entry and subsequent examining of goods in sufferance warehouses from steamers and other vessels sailing on a fixed day and for railways. A similar duty as on the master of the ship is imposed on the conductor of a railway train bringing goods into Canada, under a like penalty.

EXEMPTIONS.

Fresh fish, coin or bullion may be landed without entry or warrant, as may goods from a wrecked or stranded vessel, if in presence of an O. of Customs, should one be procurable, and entry made as soon as practicable after the landing. Perishable goods arriving after office hours may be landed before entry with permission of the Collector, the entry to be made as soon as possible next day.

COASTING, INLAND NAVIGATION, &C.

The G. in C. may declare what is coasting trade, and may make special regulations respecting it, exempting it from any of the foregoing provisions, but goods landed contrary to such regulations or provisions, not dispensed with, are forfeited. Goods brought by land carriage or inland navigation are to be reported in like manner at the nearest place of entry, and the person in charge shall declare that no goods have been landed or removed from the carriage since coming into Canada till the making of such report and affidavit. Goods so unladen or removed, and not reported and produced, or having marks not corresponding with report, are forfeited, and the master or person in charge not reporting or making untrue report forfeits \$400.

ENTRY BY IMPORTER.

Importers by sea-going vessels must make entry of their goods within 3 days after arrival of vessel and land them; those imported by inland navigation, in decked vessels of 100 tons or more, within 21 hours; in other vessels or by land, forthwith. Bills of entry in duplicate form are to be delivered to the Collector, containing the name of the importer, description of the goods, marks, Nos. and contents of packages, place whence imported and country of which they are the growth, produce or manufacture; if by water, the name of vessel and master, place to which bound, and place, within port, where to be unladen. Unless goods are to be warehoused the duties are to be paid down, and the Collector grants a warrant for unlading and a permit to convey goods farther in Canada if required. In default of entry and landing, or production of goods, or payment of duty, the goods may be taken to Customs Warehouse. If not entered for consumption or warehouse within one month, and all charges paid, they may be sold by auction and proceeds used to pay duties, charges and lien of owner of vessel, and balance to owner of goods. If goods will not bring amount of duties, if sold for home consumption, or charges, if for re-exportation, they are to be destroyed. Persons engaged in land

ing or concealing goods landed without due entry, forfeit \$40. But goods intended to be carried forward to another port need not be entered or the duties paid thereon at the first port, but taken on under regulations in that behalf.

EXPORTS.

Before a clearance is granted to a vessel on a voyage out of Canada an entry must be made under or by the owners, shippers or consigners, of all goods on board, declaring their true value, stating any export duty in such entry and paying it. A like provision is made respecting exports by railway. Neglect to make such entry is punishable by a fine of \$200.

VALUE STATED.

The Collector may require further proof by oath, declaration, production of invoices, &c., of the proper description and lating for duty of goods before admitting them to entry. Any package of which the importer declares the contents unknown to him is to be opened and examined at his expense. No entry or landing warrant is valid unless the description of goods in it agrees with the report of vessel or other report authorized and with the goods themselves, and goods taken out of any vessel or warehouse, or conveyed further into Canada under such false entry, are forfeited. The proper officer may open any package on suspicion; if found correct to be re-packed at public cost, if not, to be forfeited. The quantity and value of goods not liable to duty must be stated in the entry and invoice of them produced.

MISCELLANEOUS

Surplus stores of vessels are subject to like duties as other merchandise, but if not received may be entered for private use of master, owner or passenger to whom they belong, or warehoused for reshipment. Vessels entering the Gut of Annapolis may make reports, entries and duties on cargo be paid either at Digby or Annapolis. Those entering the Great Bras d'Or where directed by M. of C.

ABATEMENTS, &C., FOR DAMAGED AND LOST GOODS.

For damages received during the voyage which have lessened the value of goods for sale, if made at the time of landing them, an abatement of duty may be made by the Collector. If the importer is not satisfied the Collector chooses three disinterested and experienced merchants who for two of them) shall decide, they receiving \$2 to \$10 each as fee. Duties previously paid or deposited are to be refunded on goods lost or destroyed before they are landed from a vessel or lighter—proof of loss to be made under cath. Goods landed from a vessel which has put into a port other than its port of destination, for repairs, are to be stored under custody of Collector, and entry made to be taken forward on completion of them, but may be reladen and allowed to be taken forward on completion of repairs, on payment of reasonable charges; but a person selling any such goods cannot have the benefit of this

exemption, but must pay duty on all, unless they are sold to pay charges. On those so sold the purchaser must pay duty. Goods flotsam, jetsam, derelict, or from a wreck, are liable to duty, but, as in other cases, abatement for damage may be made under direction of M of C. Persons having such goods in their possession and not giving notice or paying duty, forfeit \$200, and the goods are forfeited. For removing or altering, or opening packages, or abetting it, before such goods are stored in custody of Collector, a like penalty is incurred. If not claimed and duty paid in 18 mos., the goods may be sold as other unclaimed goods after seizure. Goods imported or taken out of warehouse for H. M. troops, or any other purpose which exempts from duty, if subsequently sold, become liable to duty, and may be forfeited and seized, and dealt with accordingly. The allowance for tare and draft upon packages is to be settled by regulations made by the G. in C. But when the allowance for tare is in the invoice and a declaration of its correctness made, deduction shall be made according to it, subject, however, to regulations of G. in C. The Collector or Appraiser may take samples to enable them to determine the duties, and they are to be disposed of as the M. of C. directs.

APPRAISERS, &C

The Governor-General may appoint appraisers at such places as he may deem necessary—the Collector acting as such where none are appointed. Appraisers may be sent by the M. of C. to any port to do duty temporarily if required. Advatorem duties shall be levied on the fair market value of the goods in the principal markets of the country whence they were exported directly to Canada; and Appraisers and Collectors acting as such are by all reasonable means to ascertain such values. But the G. in C. may order that goods bona fide exported from any country and passing in transità only through another may be valued for duty at the price in the former. The fair market value is to be understood in the usual and ordinary acceptation of the term at the usual and ordinary credit, and not the cash value of goods, unless such as, by universal usage, are considered and known to be cash articles, and sobona fide paid for in all transactions. Cash invoices of other articles are subject to additions by the Collector or Appraiser. No deduction is to be made for packages unless they are separately charged in the invoice, and then only a reasonable charge is to be deducted. None is allowed for packing charges, straw, twine, cord, paper, cording, wiring or cutting, or expense in preparing for shipment. To secure the entry at cash invoice price the importer must swear to payment for the goods at time of purchase. The standards of colour and grades of sugar are to be selected and furnished to Collectors by the M. of C. The decision of the Appraiser or Collector respecting the grade of sugar is final. Cane juice, syrup of sugar, or of sugar cane, melado or concentrated melado, or concentrated melado, or concentrated melado, or concentrated molasses, if entered as molasses, or by any other than the correct designation, is forfeited. The value for duty on saccharines is to include

cost of packages and shipping and other charges to be determined by the G. in C., and shall be the value, f. o. b. at the place whence last exported direct to Canada. The G. in C. has power to determine the conditions and limitations of exemption from duty of any article imported for any purpose, or in favor of any interest named in any Act imposing customs duties. When an importer declares under oath that he has not invoices or sufficient information about his goods to make a perfect entry, the Collector or proper officer may examine the goods and admit them to entry by a bill of sight, exacting a sufficient sum of money to cover all duties. If the entry is not afterwards perfected within the time fixed, all the money is retained for duty. In all other cases a sufficient attested invoice must be produced before entry of any goods is passed.

PROOF OF VALUE.

The owner, importer, or consignee, or other duly authorized person must swear to the correctness of the invoice before the entry is received, that it is the only invoice received or expected, and shows the actual cost or fair market value of the goods, and that nothing has been suppressed or concealed by means of which pressed or concealed by means of which H. M. may be defrauded; and a declara-tion of a similar nature is to form part of the bill of entry. Only one of several owners, &c., need take this oath; but in case there is an owner resident abroad, whose produce or manufacture the goods are, his attestation is necessary. It must be also attested by the importer or on the mass decreased by the importer of consignee or other authorized person if an owner does not make the entry. If the proper party be dead or insolvent, or his estate be administered by another the proper party be dead or insolvent, or his estate be administered by another person, the executor, curator, administrator or assignee, may, if cognizant of the facts, take the oath. The person making the entry may add, in the entry, a sufficient amount to that stated in the invoice to bring it up to a fair market value; and no evidence to contradict such valuation is to be received in any Court, unless on behalf of the Crown. These oaths may be made before the Collector of the port of entry or other port where the party is resident—in Great Britain or elsewhere in H. M. possessions, before the Collector or chief municipal officer of the place where the goods are shipped: or, abroad, before the British Consul at such place, or, if there be none, before one of the principal merchants. The G. in C. may appoint other persons in or out of Canada to receive such oaths, and may by O. in C. dispense with or relay these received. ceive such oaths, and may by O in C. dispense with or relax these provisions in any class of cases to be named. No agent or person other than owner, importer or consignee shall take these oaths, unless the agent produce a declaration of such party agent produce a deciaration of such party in terms like such affidavit, attested by the agent, a J.P., or N.P.; and a person making a false statement in such declaration, is a false statement in such declaration, is liable to like punishment as for perjury. But such declarations may be dispensed with by O. in C. if deemed expedient. The forms of oath may be altered or amended from time to time by the G. in C. A person sending a false or fraudulent invoice with his goods into Canada cannot recover the price of them or any part of it, or the amount of any bill or note

granted for their price. The production of any invoice at a higher price than that furnished for customs entry is to be received as primit facts evidence of fraudulent intent. Invoices are to be retained, stamped and filed by the Collector. Copies stamped and certified by him are to be held authentic, and he may receive 50 ets. each for such copies. Appraisers, collectors or merchants, appointed as hereafter provided, may examine any persons on oath to ascertain the true value of goods which they are called on to appraise. Any person called before them for that purpose refusing to attend and be examined, or to make or complete his deposition as required, incurs a penalty of \$50, and if he be the owner, importer or consignee, the valuation of the Collector or Appraiser thereupon becomes conclusive. If such party swears falsely, his goods are forfeited. All such depositions are to be kept on file by the Collector.

VALUATORS.

If the owner, importer, consignee, or agent is dissatisfied with an appraisement, he gives notice, in writing, to the Collector, who chooses two fit and experienced merchants to appraise. If they disagree the Collector decides between them. Their fee is \$10 each, to be paid by the party if the appraisement is equal to or greater that complained of, or 10 p. c. higher than that in invoice or bill or entry; otherwise, by the Crown. A merchant refusing or neglecting to do this duty after notice in writing forfeits \$40 and costs. The appraisement shall never be less than the value stated in the invoice or bill of entry. If it exceed that by 20 p. c., 50 p. c. is to be added to the duty otherwise payable.

RATES OF DUTY.

The Collector's determination of the rate and amount of duty to be paid in any case is final, unless the party gives notice in writing to the Collector on such entry within 10 days after the decision respecting the rate, and within 30 days appeals to the M. of C.; and the decision of the M of F. or Minister authorized to act in his behalf is then final, unless suit be brought within 60 days after such decision for the recovery of duties theretofore paid, or within 67 days after the subsequent payment of the duties. Till such decision of the Minister is had, no such suit can be maintained; but it must be given within 30 days after the appeal is lodged.

VALUATION.

In the case of prize goods or goods sold by order of the C. of Vice-Admiralty, or goods for feited, the value for duty shall be that obtained at auction. The Collector may take goods at the price named in the invoice and entry, with 10 p. c. added, and sell them under regulations made in that behalf. After repaying the C. R. F., the amount taken for the purchase and the duties, half of the balance, if any, may go to the Collector or other officer who seized the goods. One package in every 10, or 1 in every invoice, at least, to be designated by the Collector, is to be sent

to the warehouse, opened, examined and appraised. If goods not mentioned in the invoice or entry be found, they are forfeited; or if not corresponding with the description in the invoice, and the mis-description is for the purpose of avoiding payment of proper duty, or if they are undervalued, or the affidavit is found to be false, all the goods in the invoice and entry are forfeited. All the goods, packages of which have been sent to the examining warehouse, are under control of the Customs officers though removed to the warehouse of the importer (and a bond for their production is to be given by him) until the examination has been made. This must be made within three days of the landing or 24 hours after notice by the importer. Those delivered to him must be returned to the Custom House, if demanded, or he forfeits the penal sum named in the bond. This bond may cover all the importations of a party for the year. The onus of proof of the tions of the penal sum named in the bond. This bond may cover all the importations of a party for the year. The onus of proof of entry of any goods lies on the party bound to make it. Goods having paid duty may be marked or stamped under regulations made by the G. in C. The Collector, on application of the importer desirous of removing goods, entered at one port, to another, shall give a permit or certificate with a description of the goods and packages, the ports from and to which to be removed, and that the duties have been paid. duties have been paid.

WAREHOUSES FOR GOODS IN BOND.

The following are warehousing ports under the provisions of this Act:

Amherstburg, Annapolis, Antigonish, Arichat, Bathurst, Baddeck, Barrington, Belleville, Brantford, Bridgetown, Brockville, Caraquette, Chatham, Ont., Chatham, N. B., Chippawa, Collingwood, Cornwall Cornwallis, Cramahe, Darlington, Dalhousie, Digby, Dover. Dorchester, Dundas Dunnyille, Elgin, Fort Erie, Fredericton, Gaspê, Galt, Gananoque, Grand Falls, Guelph, Guysborough, Halifax, Hamiltón. Hillsborough, Hope,

Kincardine. Kingston, Lindsay, Liverpool, Locke Port, London, Londonderry, Lunenburg, Magdalen Islands, Margaretsville, Moncton, Montreal, Morrisburg, Napanee, New Carlisle, Newcastle, Ont., Newcastle, N. B., Niagara, North Sydney, Oakville, Oshawa, Ottawa, Owen Sound, Paris, Parrsborough, Percè, Peterboro', Picton, Pictou, Port Hawksbury, Port Hood, Port Medway, Prescott, P. Arthur's Landing, Quebec. Rimouski. Richibucto, Sackville, Sarnia, . Sault Ste. Marie,

St. Catherines, St. George, St. Hyacinthe, St. John, St. Johns, St. Stephen, Sydney, Three Rivers.

Toronto, Trenton, Truro, Victoria. Wallaceburg, West Isles, Weymouth, Whitby, Whitby, Windsor, Ont., Windsor, N. S. Winnipeg, Woodstock, Ont., Woodstock N. B., Yarmouth,

and any ports added by O. in C. Goods may be entered at any such port for exportation or for subsequent payment of duty, a bond being given, in either case, for double the amount of duty by the importer and one surety, and the goods to be placed in a warehouse under regulations of the G. in C. Packages may be opened and goods sorted and re-packed for preservation, &c., and may be removed from one warehousing port to another, or one bonded warehouse to another, under such bonds, to satisfaction of Collector and subject to regulations in that behalf. Warehoused goods are to be exported and duty paid on them within 2 yrs. after entry in bond, or they may be sold to pay duty and warehouse charges, the balance going to the owner. The warehouse charges to be settled by the collector under regulations of the G. in C. The importer may abandon any packages, which are then to be sold and the area. The importer may abandon any packages, which are then to be sold and the proceeds dealt with as if they were duties collected. Bonds may be dispensed with for goods actually placed under the Crown's lock. Goods warehoused are still liable for freight. If goods are not warehand in compilers with the boardliable for freight. If goods are not warehoused in compliance with the bond, or are removed without entry and clearance, or are not reported after clearance, or reloaded and sold, or used, they are forteited. On goods out of warehouse the duties are the same as if paid on landing. Grain may be ground, and cattle and swine may be slaughtered, in bond under proper regulations, which may provide for the substitution of equivalents in flour, meal or meat for the article bonded. Sugar may also be refined in bond under similar regulations, and refined sugar substituted for raw. The pr perty of goods in bond may be transferred by bill of sale, and the entry of transfer in a book kept for that purpose, which must be produced on demand made. The bond of the new proprietor and surety may be substituted for that of the old, and the former thus acquires power of old to remove and deal with goods. On removal, duties are payable on quantity or value of goods as originally warehoused. All expenses of warehousing, including unshipping and transport, are to be borne by the importer. No parcels of goods are to be removed from warehouse unless the duty, amounts may also be refined in bond under similar er. No parcels of goods are to be removed from warehouse unless the duty amounts to \$20 or upwards, or they are all remaining of the entry. If pending delivery into warehouse of goods entered for warehouse, any portion are entered for export or consumption, all shall be considered, nevertheless, as warehoused. Upon entry of goods for export from warehouse abond is to be given for their delivery at the place named, and before it is cancelled, a certificate of such delivery must be produced, or the goods otherwise satisfactorily accounted for to the Collector. A certificate of a principal officer of Customs or Colonial Revenue, or British Consul, or Vice-Consul, or affidavit of some other person at the port of destination, of the landing or loss of goods, should be produced. Any person making an entry outward of goods in warehouse, who is not authorized by the owner or master of the ship, forfeits \$200. Goods may be delivered out of bond without payment of duty for ships stores to vessels of over 50 tons for a round voyage of 30 days or more, upon affidavit of owner or master that they are necessary. The kind and quantity to be regulated by the M. of C.

ENTRY OUTWARD.

The master of every vessel outward bound must deliver to the Collector an entry, with particulars of ship and crew, and before any goods or ballast are taken on board, or laden for outward cargo, unless under a stiffening order, must show that all goods brought in her have been discharged, except those entered for reexportation, and before departure he must bring a content of the goods laden, with description of packages and marks, and names of the shippers or consignors, with a declaration of its correctness. And the master must appear before the Collector and answer any questions put him about the ship or cargo, &c. Thereupon the Collector grants his clearance. If the vessel clear for another port in Canada this sets forth what part of the cargo is Canadian produce, and what liable to duty, and if the duty is paid, the clearance to be handed to the Collector of the next port in Canada at which the vessel arrives. If she departs without a clearance, or the master delivers a false content or answers falsely the questions put him, he forfeits \$400, and the vessel may be detained till the penalty is paid. The G. in C. may dispense with any of these regulations respecting coasting or inland voyages. The G. in C. may require statistical information to be given to the proper Customs officers respecting all goods shipped, whithersoever it may be. No entry outwards, or shipping warrant, is valid, unless it contains a correct description in all respects of the goods. If taken out of warehouse for export on a false entry, they are forfeited. Owners residing more than 10 miles from the shipping port, or any trading corporation, may employ an agent to make entries and clear goods, but the name of the owner must appear in the entry. The purser of steam vessels may make the entries instead of the master, but the latter may be called before the Collector and examined, and incur penalties for false answering or failure to answer.

BILL OF HEALTH.

Whenever the Collector is satisfied that no extraordinary infectious or contagious disease exists in the place, he may grant a bill of health to the master applying for it, and receive \$1 therefor.

SMUGGLING. &C.

A person who clandestinely brings in goods subject to duty without paying or accounting for it, or makes out, passes or attempts to pass through the Custom House a false or fraudulent invoice, or in and his aiders or abettors, shall be guilty of misdemeanor, and is liable to a penalty of \$200 or imprisonment for a year, or both. Goods offered for sale under pretence that they are smuggled, are forfeited, and the person so offering the incurs a penalty of \$200, or thrice the value of the goods, recoverable before a J. P., and 60 days imprisonment in default of payoff days imprisonment in default of payment. A person keeping or dealing in goods unlawfully imported, or on which duty has not been paid, fcrfeits the goods and treble their value. If five or more persons are found together in company, any of them having such goods, they are each guilty of a misdemeanor. One who hires, procures, or authorizes persons to assemble, to land or carry such goods, forfeits \$100 for each such person. Warehoused goods concealed in or removed from a warehouse, are forfeited, and the parties concerned incur the same penalty as for smuggling them. All other goods of the parties in warehouse may be detained till the duties and penalties are paid. If not paid within a month these goods also may be dealt with as smuggled. paid. If not paid within a month these goods also may be dealt with as smuggled. If the importer or owner or his employe opens the warehouse or gains access to his goods, without the presence or permission of the proper customs officer, he forfeits \$100. Altering or defacing a mark on a warehoused package, or one in transit, is punishable by a fine of \$500. Spirits, if not in bottle, and imported from Great Br.tain, or in bond, from a British possession, are forfeited if brought in packages containing less than 100 gals, or in other than a decked vessel of 30 tons or upwards. Also, if they are found in such smaller vessel in a Canadian port. Onus of proof of legal importation lies on owner. Vessels, carriages, horses and appliances used in the carriage of forfeited goods, are also forfeited; parties having them in possession as well as those concerned in any way in their conveygoods also may be dealt with as smuggled. concerned in any way in their convey-ance, forfeit treble their value or a fine of ance, forfeit treble their value or a fine of \$200 at the option of the officer, and an averment in the information is proof of such option. A vessel hovering in Canadian waters or within one league of the shore, may be boarded by an officer, who may continue on board till it comes into port or leaves Canadian waters. If it is bound elsewhere, but continues to hover for 24 hours after being ordered to depart, it may be brought into port and its cargo examined. If prohibited goods are found, the vessel, cargo and stores are forfeited. If the master refuses to obey lawful directhe vessel, cargo and stores are forfeited. If the master refuses to obey lawful directions of officer or does not truly answer his questions, he forfeits \$40^\text{\text{M}}. Every one found on board a vessel which is so forfeited, or any vessel from which such goods have been thrown overboard or destroyed, or illegally landed, forfeits \$100. Officers may go on board a vessel and remain there till all the goods are landed, and may fasten down hatchways, except and may fasten down hatchways, except the forecastle, and mark and secure any goods on board, and open any place or box, the keys of which are withheld.

Goods found concealed are forfeited. The Goods found concealed are forfeited. The master altering, opening, or breaking any mark, lock, hatchway or seal placed by officer, before legal delivery of the goods, or secretly conveying goods away, is liable to a fine of \$400. In port, the Collector may station officers on board, to whom the master must furnish accommodation and board under a penalty of \$*00. Forging or transferring marks or brands affixed under the Act, or selling, or having in possession goods on which are such forged or transferred brands or marks, involves torfeiture of such goods and a fine of \$*200 on all parties engaged, recoverable before 2 J. P. In default of payment, 12 mos. imprisonment. Forging any document required under this Act or certificate thereto, is punishable as a misdemeanor. False declarations or untrue answers and authorized questions is punishable by a the master must furnish accommodation False declarations or untrue answers and authorized questions is punishable by a fine of \$4.00. All officers or persons employed under the Collection of Revenne Act, or under direction of officers of Customs, are to be held lawfully employed for the prevention of smuggling. Any such person, any Sheriff or J. P., or any person residing more than 10 miles from a Custom House, and authorized by a J. P. or Collector, may seize, detain and examine goods suspected to be smuggled, and go on board of any vessel, carriage, or examine goods suspected to be smuggled, and go on board of any vessel, carriage, or means of conveyance for the purpose, and search for them, and if found, to seize also the vessel, &c. Such persons may call, in the Queen's name, for any assistance necessary to secure such vessel, goods, &c. If no such goods are found, the officer representations shall not be liable to &c. If no such goods are found, the officer or person acting shall not be liable to prosecution or punishment for such detention, search, &c., if he had reasonable ground of suspicion. If a person in charge of such vessel or carriage refuses to stop, or other persons refuse assistance when summoned in the Queen's name, they are liable to \$20 penalty, recoverable before 2 J. P., and six months imprisonment in default of payment. A Customs officer, after making oath before a J. P. that he has reasonable cause to suspect there are forfeited goods in a building, and procuring the assistance of a Peace officer, demands entrance into such building, and irefused may force entrance and search for mands entrance into such building, and if refused may force entrance and search for such goods between sunrise and sunset. If no J. P. is to be had within 5 miles, he may act without making the affidavit. Writs of assistance may be procured from a judge of the Superior Courts of law in any Province, by the principal officer of Customs at any port, and under its authority and that of a special or general O. in C., may enter, and if necessary, break and search any building by night as well as by day, for such forfeited goods. An officer, or person authorized by him, may search any person on board a vessel in any port, or any vessel or vehicle entering Canada, or any person who has landed or got out of such vessel or vehicle, if he have reasonable ground to suspect that he has uncustomed or prohibited goods on his person. For resisting or obstructing such years, a penalty of \$100 is incurred. Any such person who, being questioned, denies the possession of such goods and does not produce them, forfeits them if found, and treble their value. But a person may demand to be taken before the principal officer of Customs or a J. P. before being refused may force entrance and search for

searched, who, if he see cause, may discharge him. The officer must take him with reasonable despatch. A female searcher must be provided for female passengers. A Collector or J. P. may authorize one to act. An officer causing a person to be searched without reasonable cause forfeits \$40. Goods, &c., seized by an authorized person or police officer, must be taken to the nearest Custom House or place appointed, within 48 hours after being taken. If seized by the police officer under suspicion that they are stolen, they are to be taken to the police office with the offender, but notice in writing is to be given to the principal officer o' Customs, at the nearest port, and after trial the goods are to be conveyed to the Custom House or place appointed. For neglect to convey goods to the proper place, or give notice as above, the police officer incurs a penalty of \$100 (recoverable before a J. P.) and 30 days imprisonment in default of payment. The taking away goods, detained on suspicion, before decision of the proper tribunal, without leave of the proper officer, is theft and punishable as such. To resist or obstruct an officer in the discharge of his duty; to wilfully shoot at, or attempt to damage. an officer in the discharge of his duty; to wilfully shoot at, or attempt to damage, wilfully shoot at, or attempt to damage, or destroy, a revenue vessel, or one employed as such; to wound or harm any officer of the Army, Navy, Marine or Customs, or persons acting in their aid, while employed in the prevention of smuggling; to be found with goods liable to seizure or forfeiture, carrying weapons, or diguised; to stave, break, or destroy, such goods before seizure; to scuttle, sink, or cut adrift the vessel, destroy or damage the vehicle, before or after seizure; or to damige the adrift the vessel, destroy or damage the vehicle, before or after seizure; or to damage or destroy the Custom House, or building in which seized or bonded goods are, is felony, punishable as such. For conniving at any evasion of the Revenue Laws, or accepting a bribe, or recompense, for non-performance of duty, an officer is punishable by a fine of \$2,000, and becomes incapable of serving H. M. And the person giving, or offering, the bribe, or making any such agreement with the officer, also forfeits \$2,000.

COURTS AND PROCEDURE.

seized, or at two public places nearest it If, after hearing, the J. P. condemn the goods, they issue their warrant to the Collector to sell them. Upon affidavit that there is reason to believe the defendant there is reason to believe the defendant will leave the Province without paying the penalty, the Judge or Court may issue a warrant to commit him to gaol, pending proceedings, or till he has given security. Coss are recoverable with the penalty, and execution levied as in ordinary cases, or payment enforced by cap. ad. sat. Where the Atty-Gen'l. is satisfied there was no fraudulent intent, he may issue a not. pros. on such terms as he sees fit, reporting to the M. of C. The onus of proof of payment of duty lies on claimant. So soon as information for condemnation has been lodged in a Court, claimant. So soon as information for condemnation has been lodged in a Court,
notice must be posted in the office of the
Clerk or Prothonotary, and of the Collector, and on board the vessel. If claimed,
and security given, within two mos., the
Court hears and determines the case at
its next session, if not, the goods may be
sold as if condemned. No claim is admitted, unless a party giving notice of
intention prefers it within a week after
notice is posted, otherwise, within 1 mo.
The claim must be made by the owner,
supported by affidavit of ownership.
Security for costs must be given by claimant. The goods seized may be delivered
to claimant on his depositing a sufficient
sum, or giving sufficient security, to the sum, or giving sufficient security, to the satisfaction of the Collector or Court. In case of seizure of horses, cattle, or perishable articles, unless such security be given, they may be sold before condemnation to prevent their deterioration, or the cost of keeping them consuming a considerable portion of their value, and the proceeds retained to await the decision. Sales of goods for the heavities and the proceeds to the behavior to the cost of the co portion of their value, and the proceeds retained to await the decision. Sales of goods, &c., to be by auction, unless otherwise ordered by the M. of U. Moneys realized from sales or penalties belong to the Crown, after deducting expenses; but may be divided between the Colector, or chief officer, and the person giving the information which led to seizure or condemnation; but the G. in C., or M. of C., may remit penalty or forfeitures. Actions must be brought, and seizures made, within 3 yrs. after penalty or forfeiture is incurred. Appeals may be had as in ordinary cases. But an appeal by the party prosecuting shall not prevent the restoration to the claimant of the goods, &c., seized, if he give sufficient security for the production of the goods or their value if the decision be reversed. If probable cause of seizure is certified by the judge, the claimant cannot recover costs, nor in a prosecution of the officer, more than 20 cents damages, nor, may the defendant be fined more than the production or detained as undervalued of the contraction or a released by the M. or detained as undervalued of the contraction or a released by the M. or detained as undervalued of the contraction or a release of seizure of the M. or detained as undervalued of the contraction or a released by the M. or detained as undervalued of the contraction or a release of the M. or detained as undervalued of the contraction or a release of the M. or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction or detained as undervalued of the contraction of the contraction or detained as undervalued of the contraction of the contraction of the contr forfeited, or detained as undervalued, may be returned or released by the M. of C. on payment of a penalty, or other terms settled by him, and their acceptance bars all action for damages, and they may be accepted to the control of may be exposed. Goods claimed to be exempt from duty must be described in the terms of the schedule of the Act exempting them. If not corresponding therewith, may be detained for the decision of the M. of C. thereon.

against a seizing officer till one month against a seizing omeer till one month after notice of the precise causes of action have been served upon him. No evidence relative to anything not set forth in notice may be given ou trial. During the month, the officer may tender, amends any delegation in her under agrees where month, the officer may tender, amends and plead this in bar, and recover costs if offer be held sufficient, or he may pay money into Court before issue joined as in other cases. The action must be brought within 3 mos. after the cause thereof, and laid and tried in the district where acts complained of were committed. mitted.

ORDERS IN COUNCIL.

The G. in C. may make regulations respecting:—1. The slaughtering of cattle, &c., grinding of grain or refining of sugar in bond. 2. The branding or marking of duty paid goods, and the allowance for tare. 3. Regulating the coasting trade and inland navigation. 4. Ports of entry, warehousing and bonding ports, goods and vessels passing canals, horses, vehicles, &c., personal baggage of persons coming into or passing through Canada. 5. Exempting flour or meal from grain taken out of the country to be ground, brought back in two days, or lumber from logs or timber taken out to be sawed and brought back in 7 days; and 6, limiting quantities thereof, &c. 7. Authorizing Customs warehouses, regulating the manner of their use, rent, fees, &c. 8. Extending time for clearing goods thence, and their transport from one port to another. 9. Entry of transfer of such goods from one party to another. 10. Exempting any goods the growth and produce of Newfoundland, if provided for by any Act. 11. Exempting from duty articles required for Canadian manufactures, or after they 11. Exempting from duty articles required for Canadian manufactures, or after they are manufactured, granting a drawback of duty paid on them. 12. Distributing proceeds of penalties and forfeitures. 13. The taking of bonds for fulfilment of conditions of any remission of duty or relaxa-tion of rules, &c. 14. The transit through Canada from one part of the U.S. to an other of goods, &c., without payment of duty. Non-fulfilment of conditions renduty. Non-fulfilment of conditions ren-der such goods liable to duty, and their offer for sale, without previous payment of duty, involves forfeiture. Where, by this or any other Act he makes a special regulation or order, the G. in C. may make a general one applicable to every case of a like nature. The G. in C. may by preclamation prohibit the export of make a general one applicable to every case of a like nature. The G. in C. may by preclamation prohibit the export of goods contraband of war, under penalty of forfeiture. He may grant yearly licenses to masters employed in navigating the inland waters above Montreal, and they shall pay 50 cents therefor. The master of every vessel not so licensed is to may 50 cents each time he enters a Canapay 50 cents each time he enters a Canadian port, for vessels of 50 tons or less, or \$1 for a larger vessel, to the Collector, and a like sum on clearance, but the G. in C. may reduce or re-adjust these fees The G. in C. may prescribe oaths in any regulations, he may make, or substitute de-clarations for oaths in cases where they are now required. Such general regula-tions take effect from the day of their publication in the Canada Gazette, or any PROTECTION OF OFFICERS. later day named therein. A copy of the Gazette containing is full proof of them. Special regulations are authenticated by

the certificate of the Clerk of the Privy lery and acting as distiller. Conneil or his Deputy. Wherever oaths porting or making apparatu are required, affirmation may be received from persons entitled to affirm in other Goods are imported from the time the vessel comes within the limits of her port, or an undecked vessel or land vehicle enters Canada, and are exported from the time of their shipment for export after entry outwards of the vessel, or from the time they are carried out of Canada by land corriages or an undecked vessel. Arrival of a vessel is at the time she is or should be reported, departure at the time of her last clearance. Overpaid duties are not returnable after 3 yrs., paid duties are not returnable after 3 yrs., and no refund for misdescription after 14 days. The misdescription must be reported as soon as ascertained, and the goods not further meddled with till it is verified. A drawback of duty may be allowed under regulations by the G. in C. on goods re-exported or on goods manufactured from duty paid goods and reported. Bonds to the use of H. M. are to be taken by the Collector or principal officer of Customs, before he performs any act which shall give them force; and these and other documents shall be in the form prescribed by law or the M. of C. Certificates and copies of official papers certified by any of the principal officers of Customs at any British port, or a British Consul or Vice-Consul at any foreign port, are presumptive evidence of their contents. A written authority from his principal may be required from any agent, and his acts are, in all respects, binding on his principal. He may make entries, execute bonds, and take oaths in his behalf. And such agent, or a parter, may in the partnership name validand other documents shall be in the form ner, may in the partnership name valid-ly execute instruments on behalf of any partnership or unincorporated company without setting forth the names or de-scriptions of all the partners, signing partnership name, and subjoining the word "by" or "by their Attorney" with his own signature.

CUSTOMS AND EXCISE.

Chap. 11—Alters the tariff (for which, see under that heading.)

INLAND REVENUE.

Chap. 12—Amends the Inland Revenue Act of 1867 (31 V., c. 8.) Any place where a still, rectifier, or other apparatus suitable for the manufacture of wash, beer or spirits is made or kept, is a "distillery" under the Act; and any one making, importing or keeping such apparatus complete, or in part completed, is a distiller; and no person shall import or make it unless licensed. The importer or maker mrst make a return like other distillers (becoming possessed of apparatus, and an every 10th July afterwards, as well as fortnightly returns. A person about to import or make such apparatus must report his intention to the nearest Inland Revenue officer, stating for whom it is Revenue officer, stating for whom it is to be made or imported, its capacity and the material of which made. Provision is made for the nature and condition of to be made or imported, its capacity and the material of which made. Provision is made for the nature and condition of the license for importing or making, and sureties to be given. The fee for it is \$30. The importation or commencing to make apparatus is deemed a working of distilling the material of

A person imlery and acting as distiller. A person importing or making apparatus, or any part of it, or commencing to do so, without license, or completely, or in part, sets it up or prepares, or partially prepares it for working, or assists to do either, or has it in his possession partially or completely set up, or prepared for working in any place owned by him or under his control, without having given notice as required, or who conceals or allows it to be concealed on such premises, or conceals or assists or who conceals or allows it to be concealed on such premises, or conceals or assists to conceal by removing it or any part of it, is guilty of a misdemeanor, and limble to a fine of *500 and imprisonment for lyr. at hard labour. The apparatus may be seized and forfeited to the Crown, and destroyed or removed for safe keeping by the officer. The penalty for unlicensed distilling or recitying of spirits, or making or fermenting beer, &c., or assisting to do so, is made the same. But the old penalty of \$200 seems to be also retained penalty of \$200 seems to be also retained for unlicensed brewing, as well as for manufacturing tobacco, &c. Tools or mafor unifecturing tobacce, &c. Tools or materials suitable for making apparatus, found in an unlicensed place, and horses, vehicles and appliances used for removing spirits, malt, tobacco, or apparatus used or manufactured in contravention of the Act, are subject to seizure and forfeiture, and may be removed or destroyed. The maximum penalty for illegally taking away things while under seizure, is increased to 3 yrs. imprisonment. Malting licenses are divided into 4 classes:—1. For a malt house with capacity to produce 2,000 or upwards centals per month, \$200. 2, 1,500 to 2,000 centals, \$150. 3, 1,000 to 1,500 centals, \$100; and 4,500 to 1,000 centals, \$50. Capacity to be computed by Collector after survey. The quantity of dry grain or seeds placed to steep or wet is to be calculated by weight as well as gauge in the maltster's books and returns, and all grain when weight as well as gauge in the maltster's books and returns, and all grain when brought in is to be weighed and entered by weight. A "malt measure" is established with a capacity of 1,00 cubic inches, and quantities placed in steep, are to be stated by centals and malt measures. Quantities of grain in process of conversion into malt shall be stated in malt measures instead of bushels. Malt removed from kiln to be stated in centals and malt measures. 100 lbs. of barley or other grain weighed into the cistern, is to be held equal to 75 lbs. of malt taken from kiln. Penalties for inaccuracy attaches kiln. Penalties for inaccuracy attaches to weight as well as gauge, on removal.

ADULTERATION OF FOOD, &c.

Chap. 13—The abstraction in whole or in part of any essential constituent part or ingredient of any article of food or drink, is an adulteration.

PETROLEUM INSPECTION.

Chap. 14-The act applies to any product of crude petroleum used for illuminating purposes. None shall be sold or held, without Inspection, unless herein exempted. Inspection is to be made by officers of In-

plosive, and b anded accordingly. Packages not giving such vapour to be branded "Inspected" Manner of testing to be ages not giving such vapour to be blanched.

"Inspected" Manner of testing to be determined by Departmental Regulations. Packages put up for exportation are exempt, unless at request of owner; but if offered for sale in Canada, are liable to compulsory inspection. Any offered for sale, unless inspected immediately after being refined or imported, is liable to seizure and forfeiture. Persons holding petroleum, with respect to which the Act has not been complied with, are liable to a penalty of \$5 per package. Inspection fees: On packages not more than 10 gals., 3 cents; 10 to 50 gals., 5 cts., and 5 cts. for each additional 5 gals. or fraction. They are recoverable, with costs, before any J. P. Penalty for falsely branding, effacing or counterfeiting brands, or branding or acting as inspector without proper authority or beyond limits within which the person acting is authorized, or lending brands, &c., or being otherwise privy to illegal branding or effacing of brands, is a fine of \$100. Penalties up to \$40 may be recovered before 2 J. P.; those over \$40, in a Recorder's Court, or other Courthaving jurisdiction to the amt.—Execution in the former case by distress warrant; in the latter, as in case of debt. Actions, &c., for recovery are to be commenced within 6 mos. When petroleum is sold subject to inspection, the vendor must pay or reimburse fees, unless a contrary stipulation is made, and such agreement implies a warranty that the provisions of the Act are complied with and the petroleum is of the quality for which it is sold.

WEIGHTS AND MEASURES. determined by Departmental Regulations.

WEIGHTS AND MEASURES.

Chap. 15-The standard or Imperial bushel is that always to be understood in an agreement, unless otherwise settled therein, except in the case of ordinary grains or vegetables, with respect to which, the bushel is by weight as heretofore. The hundred-weight is 100 lbs. avoir-dupois, and the ton 2000 lbs. avoir-dupois, and all duties or tolls are to be calculated at that rate, and public weighers and measurers must use that standard, under a penalty of \$20. In all contracts for articles sold by weighl, the above standards are to be understood, and weight to be specified by centals and parts bushel is that always to be understood in weight to be specified by centals and parts of cental. When the Winchester bushel is agreed upon it shall be to the Imperial or Standard bushel as I to 131-1000, and the wine gallon shall be 5-6ths of the standard bushel allon. Painters in the standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard as Incorrel and the Standard a ard or Imperial gallon. Re-inspection and verification of weights and measures and weighing machines are to be made within 2 mos. before instead of after the expiring

for the first, and \$10\) for any subsequent offence,—the article being seized and held till the penalty and inspection fees are paid. In default of payment within the time specified in conviction, they are forested. A manufacturer or dealer is not setted. paid. In default of payment within the time specified in conviction, they are forfeited. A manufacturer or dealer is not compelled to produce his weights, &c., for inspection. The penalty for refusal by others, to produce for or permit inspection, is \$20 for the first and \$40 for the second offence. Penalties not exceeding \$50 may be collected before a competent Civil Court or a J. P., those over that amount only before 2 J. P. or a Magistrate having the jurisdiction of 2 J. P. Suits for penalties are to be brought by the Inspector or Deputy Inspector, who accounts to the Department; but a person aggreeved by the use of illegal weights, &c., may recover treble dam ages and costs. Officers may adjust or alter weights, measures, or weighing machines, verified by or submitted to him, and receive compensation therefor. therefor.

CULLING AND MEASURING TIMBER.

Chap. 16-The Collector of slide dues at Chap. 19—The Collector of side dues at Quebec, and Supervisor of Cullers, shall be the same person. The G. in C. may regulate the number of Cullers to be em-ployed in the office of the latter, those for square timber not to exceed 18, to be em-ployed in rotation) and for granting square timber not to exceed 18, to be employed in rotation,) and for granting annuities as already provided to Cullers employed on 1st May 1876, and payment thereof out of the net revenue of the office. If there be no net revenue they are to be paid out of the C. R. F. The G. in C. may so adjust the fees as to give each Culler \$700 per an. Every Culler must hold himself in readiness for his work from daylight to dark on each lawful day. For refusal, neglect or delay he forfelts \$80 to the person injured. The Supervisor may suspend a Culler for impropriety of conduct, disobedience of orders or incapatity, subject to appeal to Board of Examiners. iners.

HARBOURS, PIERS, &c.

Chap. 17—All harbours, wharves, piers, &c., belonging to the Dominion are under the control of the M. M. F., as respects the use, regulation, and tolls thereof and thereon: construction and repairs, except those of mere maintenance, under the control of the M. P. W. The G. G. may appoint persons to have charge and collect dues under the M. M. and F., and fix their salaries. The G. in C. may make regulations for use, and establish tolls and dues, and impose penalties for their contravention, not exceeding \$200. A lien is created on vessels using such works, and the goods for which they are incurred, for tolls or dues unpaid: and no clearance is thereon: construction and repairs, except weighing machines are to be made within 2 mos. before instead of after the expiring of the year after a previous inspection. Full fees are only payable when they are found incorrect, otherwise only one fourth. The offering for sale of an unstamped weight, measure or weighing machine, or using such measure for measuring work, is no longer subject to the same penalty as other use of it; nor is a manufacturer or dealer in weights, weighing machines, or measures, liable to penalty for having them in his warehouse, uninspected, nor need he have them in spected while there; but all others having unstamped measures, weighing or weighing machines, are liable to a penalty of \$50 of revenue and expenditure laid before Parlt. each session. This Act does not apply to the harbours of Quebec, Montre-al, Toronto, St. John, N. B., or Pictou, or any other harbour placed under manage-ment of Comr. ment of Comrs.

INSPECTION OF STEAMBOATS.

Chap. 18—Certificates granted under 31 V. c. 65, s. 5 remain good for lyr, unless otherwise revoked. Whatever number of pessengers a vessel carries, 200 life-pre-servers are held to be sufficient. Passenger pessengers a vessel carries, 220 life-preservors are held to be sufficient. Passenger boats of 75 to 150 tons need only have 12, and those under 75 tons only 6 fire buckets on board. Boats over 50 tons employed on the waters in Muskoka, Peterborough or Victoria, or the Ottawa River and its tributaries above the city of Ottawa, need carry but one boat, such as required by the above Act. A third-class engineer may take charge of the engines of a passenger steamboat of less than 100 tons on the great lakes including lakes Memphremagog and Simcoe, as may a first-class assistant engineer, and of a tug or freight steamer of less than 150 tons gross. The penalty for employing an unlicensed engineer is reduced from \$200 to \$100. An inspection fee of \$8 besides to \$100. An inspection fee of \$100. An inspection fee of \$100. An inspection fee of \$100. An inspection fee of \$100. An inspection rate per ton is payable for each inspection under the Act, or passenger steamers of over 100 tons, smaller and other steamers over 100 tons, smaller and other seamers \$5 for inspections required by Act. The minimum fine for a contravention of the Act is reduced to \$20. "Substantial hand rails" to gangways are dispensed with if other suitable protection from falling overboard is provided, and they need not be "secured to the wharf, &c.," if they are to the vessel. Temporary certificates to engineers are made good for 12 mos. The boats carried on steamers need not be covered with canvas or tarnaulin. not be covered with canvas or tarpaulin, but "shall be kept in good condition. water tight, and ready for immediate use." The crews need only be exercised at them once a month instead of once a week.

MEASUREMENT OF STEAMSHIPS.

Chap. 19 – Steamships measured and registered under the U.S. C.c. 41, before 7th March, 1874, must be re-measured and registered according to the Merchant. Shipping Act of 1854, surveyors appointed for the purpose having the power to go on board and measure such vessels and enter the new tonnage on her register and certificate. No clearance can be given any vessel after 1st July, 1877, unless so measured, or other privilege of a British ship claimed. Till that date, tonnage dues may be paid according to old measure-ment; and it is also to apply in matters respecting the Steamboat Inspection Act, 31 V., c. 65. No fee is payable for re-measurement, but any one obstructing or refusing proper facilities to the Surveyor incurs a penalty of \$40. board and measure such vessels and enter

PILOTAGE.

Chap. 20-Amends the Pilotage Acts of 1873 and 1875. A pilot boat need only carry one light (white) at night. The exemption from compulsory pilotage dues under 38 V., c. 28, s. I, sub-s 3, applies to all steamers plying from a port in one of the four Pro-

vinces to another port in the same, as vinces to another port in the same, as well as to a port of another of those Provinces, and to ports on the U. S. Atlantic coast not south of New York; but the pilotage authorities at Halifax, Sydney, Pictou and Miramichi may determine this, so far as those ports are concerned, by regulations approved by the G. in C. No clearance shall be granted to a vessel until a certificate of payment of all pilotage dues exigible from the proper pilotage dues exigible, from the proper pilotage authority, is produced to the Customs officer.

MARITIME COURT OF ONTARIO.

Chap. 21-Grants the same rights and remedies in all matters arising out of the navigation of the inland waters of Ontario as persons have in any British Ontario as persons have in any British Vice-Admiralty Court, and creates a Court by the above name to enforce them. In cases arising within reach of the process of the Vice-Admiralty Court of Quebec the new Court will have the same jurisdiction as in a like case a British Vice-Admiralty Court would have. Its jurisdiction extends to vessels registered in Quebec but navigating Ontario waters. No right or remedy in rem can be eniorced against a subsequent hand the nurchaser No right or remedy in rem can be entorced against a subsequent bona fide purchaser, unless proceedings are began in 90 days after right accrues. Except as above, the Court's jurisdiction does not extend to any matter to which that of any existing British Vice-Admiralty Court extends, nor to any prize cause, or any criminal matter; or arising out of droits of the Admiratty or breach of the Regulations and Instructions for H. M. Navy; or of any seizure for breach of the kevenue, Trade or Navigation Laws; or any violation of the Foreign Enlistment Act; or the arrangements for the abolition of the slave trade; or for the capture and destruction of pirates and piratical vessels. The principal seat of the Court is Toronto, but sittings may be held at any place in the Province. Its judge must be a Superior or County Court Judge, or barrister of 7 yrs. standing. His tenure of office is the same as the judges of the Superior Courts. He may not sit in or vote at an election for the House of Commons. His salary is \$600 per an. With approval of the G. in C. he may make rules of practice. They are to be laid, as soon as may be, before Parit, enteredon the records of the G. in C. by proclamation in the Gazette, Any such rule may be suspended by the G. in C., by proclamation in the Gazette, or by resolution of either House, passed 30 days after it is laid before them. In default of such rules, those in force (and the lorms, &c. provided) in the Instance side of the High Court of Admiratty in England before its abolition, shall be in force. The judge is to submit to the G. in C. a list of persons having nautical or engineering or other technical skill to act as assessors, and the approved list is to be published in the Canada Gazette, their duties, fees, &c., to be regulated by the rules of practice. The G in C. may appoint one or more County Court Judges and barristers of 7 yrs. standing to be surrogate Judges of the Court, to have such of the Judge's powers as their commissions comfer. Any proceeding begun, or partly proceed against a subsequent bona fide purchaser, uniess proceedings are began in 90 days

hold office during pleasure, and if resident out of Toronto, may receive remuneration out of fees payable by the sultors, under a tariff fixed by the G. in C., and published in the Canada Gazette, and laid before Parliament. The fees are, however, to be paid in to the R. G. to credit of the C. R. F., and thereout the emoluments of the surrogates are to be paid. The G. in C. is to appoint a Registrar and Marshal and other necessary officers. Oaths may be administered by officers of Comrs. of the Supreme and Exchequer Courts as well as by the Judges, Registrar or Deputy of the Court itself. Barristers and solicitors practicing before the other hold office during pleasure, and if resident and solicitors practicing before the other and soliditors practing before this. An appeal lies to the Supreme Court. Procedure, as in other appeals to that Court, unless otherwise ordered. The Act shall come into force respecting appointments, rules, &c., when proclaimed, and in other respects when subsequently proclaimed.

SUPREME AND FXCHEQUER COURTS.

COURTS.

Cyap. 22-Does away with the prosecution for perjury in a Canadian County or District for oaths or affirmations falsely made out of Canada. Service of subpona on witness must be made within Canada to incur the penalties of contempt, &c., for non-attendance, &c. The Sheriff of the County of Carleton, is ex-officio the Sheriff of the Supreme Court.

JUDGES' SALARIES, &c.

Chap. 23-County Court Judges in any Province may be pensioned, if disqualified by permanent infirmity, after 10 yrs. service, instead of 15.

B. C. JUDGES TRAVELLING

ALLOWANCE.

Chap. 24-The G. in C may fix the travelling allowance of British Columbia District and County Court Judges, which may be paid out of the C. R. F.

EXTRADITION.

Chap. 25—Proceedings commenced under a previous law may be completed under this. This Act applies to all arrangements with foreign States, concerning which the Imperial Act has been suspended or ceased to apply, and must be so read as pro-viding for the execution of such arrangement not in any way to contravene it. The provisions of this Act are to be subjected, by the G. in C., to the same limitations and conditions as those which affect the application of the Imperial Act in Great Britain, to the arrangement with any foreign State. Any O. in C., passed under this Act, may be revoked or altered. They are to take effect from the time reprisoned therein or the date of publics. ed. They are to take effect from the time mentioned therein, or the date of publication in the Canada Gazette. Any Imperial O. in C. referred to in the Act, any Dominion O. in C., and any extradition arangement, must be published in the Canada Gazette and laid before Parlt. Such

enable the claiming power to prosecute or punish him for such offence. A fugitive criminal may be surrendered if the crime was committed or conviction had before the date of the arrangement, the coming into force of this Act or its application to the case of the foreign State who claims, or if any Court in H. M. dominions have jurisdiction in the case. Any judge of a superior or County Court, in any pro-vince or territory, or Comr. appointed for the purpose, has jurisdiction as a Judge in extradiction matters; but no jurisdi-ction in habeas corrus matters is hereby was committed or conviction had before tion in habeas corpus matters is hereby conveyed. Depositions in any foreign State, or copies of them, or certificates of, or judicial documents showing conviction or processed in outdones of four them. or judicial documents snowing conviction are to be received in evidence, if anthenticated as follows: Warrants purporting to be signed, or certificates certified by, or depositions, &c., or copies, certified by a judge, magistrate or officer of the foreign state, and having added the orthor judge, magistrate or officer of the foreign State, and having added the oath or affirmation of some witness, or the official seal of the M. of J. or other Minister of such State. No proof of the seal is needed. A warrant issued under this Act may be executed as if issued or endorsed by a J. P. The judge's warrant to issue upon the same grounds as heretofore. He reports the issue at once to the M. of J. transmitting copies of the depositions and foreign documents. The fugitive is to be brought before him and proceedings had as in other preliminary proceedings had as in other preliminary proceedings nad as in other preliminary inquiries into criminal cases in Canada. And evidence is to received, if offered, to show that the offence is political, or not an extradition crime, or that the proceedings are taken, with a view to punish for a political offence. If the conviction is proved or sufficient evidence of ceedings are taken, with a view to purish for a political offence. If the conviction is proved, or sufficient evidence of crime given as to justify committal for trial in Canada, the judge committal for trial in Canada, the judge committal the fugitive to the nearest prison to remain till surrendered or discharged. On committal, the judge must inform the fugitive that he will not be surrendered for 5 days and may apply for habeas corpus; and he must transmit a certificate of committal and copy of all evidence not previously sent to the M. of J. A requisition for surrender may be made to the M. of J. by any Consular officer of the State, resident in Ottawa, or by a Minister of foreign State through her H. M. diplomatic representative there, or in any other manner settled by the arrangement, The M. of J. may refuse an order to surother manner settled by the arrangement, The M. of J. may refuse an order to surrender, or cancel one made, and the commitment of the judge, if because of the political nature of the offence or prosecution, or other cause he deems it not fit that he should be surrendered, or that the that he should be surrendered, or that the foreign government does not intend to apply for the surrender. A fugitive may not be surrendered till after 15 days after committal, or, if a habeas corpus writ has issued, till the decision of the Court remanding him. A fugitive charged with, or convicted of another offence in Canada, must be acquitted or undergo his punishment here before he is surrendered. If none of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of these reasons prevent the Month of t none of these reasons prevent, the M. of J. may order the surrender of the fugitive angement, must be published in the Cana-da Gazette and laid before Parlt. Such publication makes proof of the contents of the arrangement or 0. in C. No fugi-tive is liable to surrender if the offence charged be of a political character, or it appear that the proceedings are taken to lawful custody. Everything found in possession of the fugitive, likely to be material as evidence, is also to be surrendered, saving the right of third parties. His discharge out of custody may be ordered by any judge having authority in habeas corpus matters, on his application after notice to the M. of J., if he be not surrendered and taken out of Canada within 2 mos after the committal or the decision upon the habeas corpus. besides the time necessary to convey him. Application for fugitives from justice from Canada is to be made by the M. of J. through a consular officer, resident at Ottawa, of the State where he is known, or suspected to be, or the diplomatic representative in that State, or otherwise as settled by agreement. No such person, when surrendered, can be tried for any other offence than that for which he isgiven up,committed previously thereto, till he returns, or is given opportunity to return to such foreign State. The schedule embraces treaties with the United States, 1842; France, 1843; Germany, 1872; Belgium, 1872; Italy, 1873; Denmark, 1873; Brazil, 1872-73; Sweden and Norway, 1873; Anstria 1873-4; Holland. 1874; Switzerland, 1874; Hayti, 1874-75. A new treaty with Belgum was signed 28th May, and ratifications exchanged 28th June 1876.

PROCEDURE, &c , CRIMINAL CASES.

Chap. 26—Counts in a bill or indictment for offences, for which a bill may, only under certain conditions, be found under 32-33 V., c. 29, s. 28, are not to be rejected, if they may be legally coupled with the other legally framed counts therein, though the conditions in that section have not been fulfilled, and if they are, in the opinion of the Court, legally based on the evidence at the preliminary examination. And with the consent of the Court a bill may be presented for 'he offences named in the section, though those conditions be not fulfilled. The provisions of that section, as amended, apply to cases of nuisance and of forcible entry or detainer. At the trial of a person accused as receiver, &c. of stolen goods, proof may be adduced of the possession with knowledge of other stolen goods by such person, within 12 mos., or of a conviction therefor within 5 yrs., to be taken into consideration as proof of knowledge that the goods named in the pending indictment were known to be stolen -3 days notice of the intention to use such evidence being given. With respect to the use of a previous written statement to contradict the statement of a witness under examination, as settled by s. 44 of the Act cited, a deposition purporting to have been taken before J. P. at the preliminary examination and signed by the J. P. and witness, shall primà facie be taken to have been so signed by him. When whipping is part of a sentence, it is, when pra-ticable, to be inflicted not less than 10 days before the expiry of imprisonment.

APPEALS FROM J. P.

Chap. 27—These lie in Quebec to the Court of Queen's Bench, Crown side; in Ontario, to the Quarter Sessions; in N. S., N. B. and Manitoba, to the County Courts;

and in B. C. to the nearest County or District Courts, unless the Act under which the conviction is had orders otherwise, or a Provincial Act provides another Court of Appeal for such cases; and the term "Clerk of the Peace" in the Act respecting these appeals (32–31 V., c. 31), shall mean the proper officer of each of the above Courts.

OFFENCES AGAINST THE PERSON.

Chap. 28—The punishment for administering poison, or wounding or causing grievous bodily harm, with intent to murder is reduced to imprisonment for life or any less term. Carnally or unlawfully knowing and abusing a girl under 10 yrs., is punishable by imprisonment for life, or a period not less than 5 yrs.

LARCENY, &c.

Chap. 29-"Sheep" are added to cattle, swine, &c. as subjects of larceny. Imprisonment in cases of simple larceny is extended to 7 yrs.

IMPROPER USE OF FIREARMS.

Chap. 30—Any person carrying a pistol or air-gun without reasonable cause to fear an assault or other injury to his person, family or property, may be brought before a J. P. and compelled to give sureties to keep the peace for 6 mos., or be imprisoned 3) days in default. Carrying them when committing or when arrested for any other offence, is punishable by a fine of \$2) to \$59, or imprisonment for 3 mos. Carrying them with intent to do injury to another, is punishable with a fine of \$50 to \$2 0, or imprisonment for 7 mos, and intent may be prima facie inferred from possession. Pointing a fire-arm, whether loaded or unloaded, at any person without lawful excuse, is punishable by a fine of \$20 to \$50, or inprisonment for 30 days. Proceedings must be begun within 1 mo., and they may be summary under the Act providing therefor. The weapon is to be impounded. The Act is not to apply to soldiers, sailors or volunteers in H. M. service, or constables or policemen in the discharge of their duty

BETTING OR POOL SELLING.

Chap. 31—Recording any bet or wager, or using or having on his premises any apparatus for the purpose, or selling pools or allowing them to be sold on his premises, or becoming the oustodian of anything staked or wagered, upon the result of an election, of a race, or any contest, or trial of skill, or of endurance of man or beast, is a misdemeanor, and subjects the party to imprisonment for not more than a year and a fine not exceeding \$1000; but this Act does not extend to money, &c., staked to be paid to the winner in a contest; or to the owner of a horse engaged in a lawful race; or to bets between individuals: and it does not go into force until 1st May, 1878. Offences against this Act may be tried summarily under 32—33 V., c. 32.

GAMBLING IN PUBLIC CONVEY-ANCES.

Chap. 32—Obtaining any money, chattel, valuable security or property from a person on board a steamboat or railway car, son on board a steamboat or railway car, used for conveyance of pussengers, by means of "three-card monte," or any other game of cards, dice or other instrument of gambling, is obtaining the same by fulse pretences, and punishable by imprisonment for not more than 1 yr. Persons aiding or abetting are guitty as principals, and the attempt is punishable as the completed offence. It may be tried principals, and the attempt is punishable as the completed offence. It may be tried where committed, or at any place to which the steamboat or train goes during that journey or voyage. The principal officer in charge of the train or steamer, or a station or landing place at which it arrives, or any clerk or employee, by his direction, may arrest the parties with or without warrant, and take them before a J. P., who will receive his deposition and deal with the case as others of like nature. The person making the arrest is entitled to the same fees sa constable executing a warrant. Fallsa constable executing a warrant. Failsa constable executing a warrant. Falling in his duty, he incurs a penalty of \$20 to \$100. The money, securities or chattels so obtained are to be dealt with as stolen property. Copies of this Act must be kept posted up on passenger steamers and railway cars.

GAMING HOUSES.

Chap. 33—A house may be a gaming house under the Act of 1875, although admission thereto be limited to those possessed of entrance keys. The magistrate must order tables or instruments of gammust order tables or instruments of gaming selzed to be destroyed. A person playing or looking on at a game in a common gaming house is liable to a penalty of \$200 to \$100, or imprisonment in default for 2 mos. He may be tried summarily, but he is not liable to examination under oath, under \$2 \text{ \$0.41 is 6}. under 38 V., c. 41, s. 6.

OBSTRUCTING THE POST.

Chap. 34—To abandon so that it may not proceed as well as to actively obstruct a train, carriage, vessel, &c., carrying H. M.'s mails, is made a misdemeanor.

CONTRACTS OF SERVICE.

Chap. 35 — The difference between breaches of these and other contracts is breaches of these and other contracts is abolished; and they are only punishable as criminal, when the person breaking them knows, or has reason to believe, the breach will endanger the life or bodily safety of any person, or expose valuable property to destruction or serious injury;

break their contracts so as to produce the break their contracts so as to produce the same evils, they are liable to the same fine. The malice of the party may be proved as in cases of malicious injuries to property under 32-33 V., c. 22. Offences by employees to be prosecuted as those under the Violence, Threats, and Molestation Acts. Cos. must keep posted up in their works or stations copies of this Act under a penalty of 20 per day. Detacing, injuring or covering up a copy so posted, forfeits \$10. feits \$10.

EMPLOYMENT OF CONVICTS.

Chap. 35 - The L G. in C. of any province may make regulations for the mainten-ance of discipline among and prevention of escapes of convicts to be employed as of escapes of convicts to be employed as below, and may thereafter in conformity therewith direct the employment of any prisoner upou any specific work or duty beyond the limits of such gaol. The places of their employment and those through which they pass going to and from it, are to be reckoned parts of the gaol, so far as escape or rescue from custody is concerned. custody is concerned.

INSECURE GAOLS.

Chap. 37—When any common gaol is insecure the L G. in C. of the province may, by proclamation published in the provincial Official Gazette and the Canada Gazette, declare the fact, and name the gaol of a neighboring county or district as that to which prisoners are to be sent, whereupon their commitment there for itself and confinement there during sentrial and confinement there during sentence becomes legal and obligatory. When the gaol is again made secure, that when the gaol is again made secure, that fact is announced in another proclamation similarly published, and the former one ceases to have effect. While such gaol is proclaimed as insecure, the L.G. may, by his warrant, order the transfer of prisoners from the insecure to the secure gaol. He orders their return when the gaol is made secure. During that period also trials of, or any proceedings against any person accused of crime, which would have been had in the county with the insecure good man had badden to be a secure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the insecure good man had badden to the county with the county nave been nad in the county with the maseure gaol, may be had in the county or district where imprisonment must take place, unless otherwise ordered by the judge. This Act does not apply to prisoners charged with high treason or felony under 31 V., c. 71.

ROCKWOOD ASYLUM. AND THE PENITENTIARIES.

Chap. 38-Provides for the transfer of Rockwood Asylum to the Provincial Government of Ontario, and the setting apart of a ward in the Kingston Penitentiary property to destruction or serious injury; or when engaged to any corporation or cowhich has the contract for supplying any place with gas or water, he knows and has reason to believe that the effect will be to deprive the inhabitants of their supply of either; or, having contract with a railway Co. or the officers of a government railway carrying H.M. mails, or passengers, or freight, he knows, or has reason to believe, that the running of locomotives or trains will be delayed or prevented. In these cases the breach is punishable by a fine of \$\$\frac{1}{3}\$ To go the convict be from another province, imprisonment. If the Cos. on their part with the L. G. of Untario, the latter is communicated with by the S. of S, and acts as for a convict from his own Province. In case no order be given by the L. G. within 2 mos., the S. of S., on recommendation of the M. of J., may order the commendation of the M. of J., may order the convict's removal to the Penitentiary the convict's removal to the Penitentiary or a common gaol in the province from which he was sentenced, to be thereafter dealt with by the L G. In cases of doubt respecting the convict's sanity, the M. of J. may order an investigation by one or more medical men with the Penitentiary surgeon. Rockwood Asylum is a place of safekeeping within the meaning of the Act.

The Inspector of Penitentiaries is to report after each inspection,—not monthly. He is also to make his final audit of accounts at each circuit of inspection, not monthly. His annual report is to be made up to 1st October, not 1st February, and is to be for the preceding fiscal year. School time as well as meal time is excepted from the hours for convict labour.

PRISON DISCIPLINE.

Chap. 39—After the L. G. for Ontario in C. has made the necessary regulations with respect to the 'entral Prison, and they have been found sufficient by the G. in C., the latter may, by proclamation published in the Canada Gazette, declare this law in force in that province. Thereafter judges may add one-sixth to maximum sentences to be served in the Central Prison and order imprisonment therein Prison and order imprisonment therein for terms not exceeding 2 yrs. and 4 mos., and during such imprisonment prisoners may earn partial remissions of their sentences by good conduct, as in the Penitentiary. He may forfeit a part or whole of remysions earned for breach of the laws or prison regulations. The Act may in like manner he applied to any other proremissions earned for breach of the laws or prison regulations. The Act may in like manner be applied to any other pro-vince, the Govt. of which provides a fitting gaol and makes the necessary regulations therefor.

MILITIA CALLED OUT IN AID OF CIVIL POWER.

Chap. 40—Militiamen called out in aid of the civil power shall receive, besides pay, reasonable transport from their places of abode to the place where their services are required, and return, from the municipality requiring their aid. In case of a riot or disturbance at a place through which a railway passes carrying H. M. mails, whereby they are impeded, the G. in C. may pay or re-imburse a reasonable share of the expense.

INSOLVENCY.

Chap. 41—Amends the Insolvent Act. The notice of the receipt of a writ of attachment by an Assignee shall be by advertisement, once in the Official Gazette and once in a local paper. The insolvent is to furnish his statement of liabilities within 7 days after assignment, service of writ, or judgment dismissing contestation. The copy of deed of assignment may be certified, in Quebec, by N. P. The first meeting of the creditors must be held within 21 days of issue of notice. The

Assignee paying costs caused by his neglect. If there be holders of unsecured claims amounting to one third of insolvents liabilities, resident at too great a distance to be able to send them in in time, the judge may order a week's adjournment, and the Assignce is to give notice by post to the creditors. Notice of meetings, &c., sent by mail are to be prepaid and registered. A list of creditors and amt. of claims is to be sent with notice. The Assignce is only chairman of notice. The Assignee is only chairman of creditors' meetings when they do not elect another. A surety for an official Assignee may withdraw after giving 3 mos. notice to his principal and the S. of S. Assignee must put in a new surety within a mo. after such notice, unless the S. of S. extends the time, which he may do to the limit of the 3 mos. Notice of the appointment of Assignee must be inserted in the Official Gazette. A person may not act as alty, or agent of a creditor when the question of his own appointment as Assignee arises; nor may his partner or employee act in any case where he cannot; nor being Assignee, may he employ his partner, notice. The Assignee is only chairman of act in any case where he cannot; nor being Assignee, may he employ his partner, or the inspector of the estate, as counsei, advocate, attorney, &c., to represent him in matters relating to the estate. Assignees or Inspectors may not purchase any part of the estate or any claim against it; nor may the Inspector employ his partner or the partner of another Inspector, or of the Assignee, as his counsel, &c The remuneration of the Official Assignee, when replaced by another, may be fixed by the creditors at the first meeting, or by the Inspectors within a week thereafter, subject to revision by the court or judge, or their adjustment in default of the others. The Assignee forfeits to the estate troble the amt. for every overcharge in his accounts not removed within 3 days after request by a creditor or the Inspectors counts not removed within 3 days after request by a creditor or the Inspectors. The provision for suspending the certificates of those who do not pay 33cts on the dollar is repealed, and it is required that a dividend of 50cts. Shall be shown, or that it would have been paid but for the fault of the Assignee or Inspectors or that, a mo. or more before proceedings, the insolvent had notified bis creditors of his insolvent and notified bis creditors of his insolvent and that the failure to not 50ct. solvency, and that the failure to pay flots, arose out of circumstances occurring more than a month after such notice, for which insolvent was not responsible. The which insolvent was not responsible. Ine power to terminate leases running for more than the then current year is given to Inspectors as well as creditors, and may be exercised by the latter at their first meeting, even if it be held within the 3 mos. of the expiring of the year, or by the former 1 week thereafter. The preferential lien of the landlord is limited in all the province expert Oushed to rent for these provinces except Quebec, to rent for 6 mos. previous to proceedings in insolvency. Before insolvents' real estate is sold, in Before insolvents' real estate is sold, in other provinces than Quebec, the sale proposed must have been sanctioned at the first meeting of creditors, or one called for the purpose, or the Inspectors or the Assignee must have advertised it to take place by auction or tender under instructions of the creditors or Inspectors, and the latter have authorized it to be made for the price offered or a less. A creditor hadding a written security on which the first notice of it in the Official Gozette need only be 10 days before meeting. If the Assignee neglect to call the meeting, the judge, on application, may order it,—the

paper matures, but for voting or any paper matures, but for voting or any other purpose he must put a value on the security afforded by the other names and deduct it. The lien of employees only holds for 2 mos. arrears of wages, and 1 mo. of the unexpired year of engagement. And Assignees may not charge moneys expended for procuring work from others which employees retained in service can do, nor, unless his fees are fixed under this Act, take pay for doing it himself. A majority in value of all creditors need not be present to make the vote at a meeting of creditors valid. Costs of appeal, when the majority of value does not agree with that of number, are not to be paid out of the estate, and the judge's decision respecting the appointment of an Assignee or Inspector is final. The costs of discharge or confirmation of discharge is no longer a privileged charge. Rules of practice in insolvency are to be framed in Ontario by the judges of the Court of Appeal. Ofby the judges of the Court of Appeal. Official Assignees, as well as others, may be removed for cause from the Assigneeship of the estate. The decision rendered in appeal, taken under s. 128 of the Act of 1875, is final. The presumption that sales, transfers, payments, &c., made within 30 days of proceeding were made in view of insolvency is primit facts, not conclusive. "Having probable cause for believing" his own or firm's insolvency taints a purchase or loan or procuring security with his own or firm's insolvency taints a purchase, or loan, or procuring security with fraud, and renders the insolvent, or party acting for him, liable to the penalty under s. 126. For purposes of the Insolvent Act, the judicial district of Nipissing forms part of Henirew, and the districts of Muskoka and Parry Sound of Simcoe. An Assignee may not advance money on any creditor's claim, or become liable to another for him, on the security of such claim or the security held for it by such creditor. Sections 32, 43 and 45 of the Act of 1875, as amended, are to be posted up in the Assignee's office, and, at every meeting, laid on the table. The judge must report an Official Assignee guilty of fraud or dereliction of duty to the S. of S., for the port an Official Assignee guilty of fraud or dereliction of duty to the S. of S., for the information of the G. G. Costs are to be levied as nearly as may be as in proceedings before the court o her than those in insolvercy. The Assignee must, in the first 5 days of each mo., file with the clerk of the court, an account of receipts and disbursements during the previous mo, and of cash in bank, with respect to each estate.

INSURANCE.

Chap. 42—No co. shall transact the business of life insurance, or take any proceeding therein until it has obtained a license from the M. of F., but this Act does not apply to policies issued before 22nd May, 1868. Licenses are to be renewed from year to year, expiring in each on the list harch. They are to be issued so so soon as the cos. have deposited the necessary securities and conformed to the other requirements of the Act. The deposit is to be made with the R. G. of \$5,000 in securities of Canada or one of the Provinces; or British cos. may deposit those of the United Kingdom, and United States cos, U. S. securities, their value to be estimated by the Treasury Board at the them market rates. Other securities may be received at rates settled by the Board; if

the market value of the securities deposited decline below the \$50,000, the co. must make good the deficiency or forfeit the license. A co. may deposit a larger amount if it desires to do so—and this will be dealt with as the other—and can only be with the senting of the terms. dealt with as the other—and can only be withdrawn with the sanction of the (*.6 on report of the Treasury Board. If it appears from an annual statement or examination of its affairs that the assets of the co. in Canada, including the deposit, are not sufficient to meet its liabilities, including its matured claims and the reinsurance value of the others, the M. of F. may call upon it to make good the deficiency. If this be not done in 60 days he withdraws the license. The assets of a non-tanadian co. consist of its deposits with canadian co. consist of its deposits with the R. G. and with persons named in a trust deed and approved by the M. of F. The trustees must also take care that the assets are not so diminished as not to assets are not so diminished as not to equal the liabilities. But if such co give notice before that time, these provisions shall not apply to its policies issued before the 3ist of March, 1878, but the deposits in the hands of the R. G. shall be dealt with in accordance with 34 V. c. 9, ss. 4 and 5; and as the liabilities on those policies fall below the uesti with in accordance with 34 V., c. 9, ss. 4 and 5; and as the liabilities on those policies fall below the amount of securities deposited, these latter may be, from time to time, released till they are but \$50,0.0. So long as the deposition of the security of the s till they are but \$50,0.0. So long as the deposit is unimpaired and the foregong provisions complied with, and no notice of judgment served on the M. of F. or R. G., the interest on securities is handed over to the co. Before licene issues, a copy of the charter, or articles of the association of such co., must be deposited in the Dept. of Finance with a nower of association of such co., must be deposited in the Dept. of Finance, with a power of attorney to the chief agent, sealed with the seal of the co., and signed by the proper officers, whose quality must be proved by affidavit. This power must set forth where the chief agency or head office in Canada is, or is to be, and authorize the agent to receive on its behalf service of any legal process, or any legal notice from the Government. It also deposits a statement of its affairs un to the previous statement of its affairs up to the previous statement of its anarrs up to the previous annual balancing day. A new power must be given after each change of head office, chief agency, or chief agent. With each annual statement of affairs must be a declaration of no change since last deposit of documents in the charter head office. claration of no change since last deposit of documents in the charter, head office or chiefagent. Duplicates are to filed in the office of one of the Supreme Courts in the other Provinces, or in Quebec, with the Prothono ary of the Superior Court in the District where the head office i. The the District where the head office is. The Co must give notice for 4 weeks in the Canada Gazette and 1 paper where the head office or chief agency is, of the issue of the first license, and like notice for 3 mos. when it ceases to do business. A quarterly list of cos. licensed and amount of deposits is to be published in the Canada Gazette, and a notice for 4 weeks of each issue of a new or withdrawal of a license between such quarterly statements. Any person who, on behalf of a co., not authoriz-d as above, delivers a policy or collects a premium (except on policies issued to persons then not resident in Canada) forfeits #1000, to be recovered on Information filed in the name of the A. G.—one half for the Crown and the other for the informer; and for non-payother for the informer; and for non-payment of fine and costs in 1 mo. may be imprisoned 6 mos. When the M. of F. has proof that an undisputed claim on a policy or one on which final judgment has been obtained has remained unpaid for 60 days, be may withdraw a license; but in this as in the cases of diminished deof the co. puts itself right within 30 days he may renew it. Whenever a license is so withdrawn, or is allowed to lapse, and is not renewed in 30 days, the co. may be proceeded against as if insolvent. In that case the deposits in the hands of the that case the deposits in the hands of independent of the properties of the policy holders in Canada—the distribution to be made according to order obtained in chancery or equity in the other Provinces, or from the Superior Court, in Quebec or Manitoba. When such application is made the Court appoints an assignee, who calls on the co. to furnish a statement of its Canadian policies, and on the policy holders to file their claims. Such claims may be contheir claims. Such claims may be contested and appeals taken according to the ordinary practice of the Court. They shall be for the full net value of the policies, including bonus additions and accrued profits. The superintendent of insurance may be called on to make the valuation according to the table of the Institute of Actuaries of Great Britain, and at the rate of the net interest or for Institute of Actuaries of Great Britain, and at the rate of \$\frac{4}{2}\$ p.c. interest, or for bonus or accrued profits at the rates on which they were originally based. For this, \$\frac{3}{2}\$ cents are allowed him and retained by the R. G. on each policy or bonus. The amounts so ascertained to be due rank with those due under judgments or on matured policies in the distribution. When the schedule of all claims is thus established, the securities held by the R. G. and trustees are to be sold as directed by the Court, and paid pro rata to the claimants, except what may be used to re-insure claims under any other act,—any balance to be handed over to the co.; any balance to be handed over to the co.; but if a claim matures between the filing of the co's statement and the order for final distribution, or the amount realized, in a distribution, or the amount realized is insufficient to pay the sums adjudged due, the claimants are not deprived of recourse against the co., or any director or shareholder, for any sums remaining due after such distribution. If a policy-holder be insured upon the mutual principle of the carbon incorporated or organized or organized. holder be insured upon the mutual principle and the co. be incorporated or organized in a country where foreign policyholders may share in the distribution of general assets elsewhere as well as in Canada, then he may only receive in the distribution of Canadian assets a share thereof, at the rate which, by such general distribution, he would receive out of the total assets. Cos. already licered and doing business but which give censed and doing business, but which give notice of their intention to discontinue taking new business before the time fixed for the first renewal of license under this Act, may continue to receive premiums as are assigned to him by 38 V... 20, with a list of all its Canadian policys with a list of all its Canadian policys with a list of all its Canadian policys as as and duties with respect to Life Cos., as as are assigned to him by 38 V... 20, with respect to Fire and Inland Marine Cos. He shall, once in 5 years, (or oftener if ordered) value all Canadian policies on the above basis. He may, from time to time, when instructed visit the head office of a Co. and inspect its affairs, the Co. forfeiting its license if it refuses any necessary documents or information. They are to pay with other licensed Cos., provata upon their gross premiums, towards the expenses of the Superintendent's office for the first renewal of license under this

surrendered, and give notice in the Canada Gazette that it will apply for a Canada Gazette that it will apply for a surrender of its securities on a day not less than 3 mos. after, and calling on solicy-holders opposite such surrender to file their opposition within such there. On such day the Minister of Finance with the concurrence of the Treasury Bond, reaining sufficient to cover the net surrender value (calculated as above) of the policies not surrendered or transferred, may release the remainder. Tender of the amts retained is then to be made to the policy holders entitled to them. If accepted, the policy is cancelled. If not the securi-ties are returned to the Co. and the holder retains his policy and recourse against the Co.; or it may be continued in fire by special agreement with the Co. and the equivalent recurities or released. Tender is to be made by publication of a schedule with notice attached for 30 days in the Canada Gazette, and in other papers named by the Minister of Finance for such length of time as he orders also by mailing from the office of the Supt. of Insurance, 30 days before the day fixed, to each policy-holder a similar notice. A policyholder not notifying his acceptance in the 30 days is held to decline the tender, but may be allowed to receive the amt. at any time before the assets are handed over to the Co. Annual sworn statements of the affairs of each Co., made by the chief officers thereof, in a form settled by t e Minister of Finance, are to be furnished to him during the first 3 mos. of the year. Foreign Cos. use the form furnished for their Canada business, making that of their general business according to the form provided by the law of the country where incorporated or organized. For violation of these regulations a Co. forfeits \$50, and \$100 per month for a continuing neglect, for non-payment of which, license may be suspended or withdrawn. In computing the reserves n-cessary to be held to secure Canadian policy holders the 'o, may use any standard table used by it in settling its rates and a rate of interest not over 4½ p.c.; but if it appears to the Superintendent that so computed it falls short of the amt. under the table above prescribed-he may upon order of the Minister of Finance re-calculate them on that basis and substitute his amts. for the Cos., in its annual statement—the Co. being obliged to turnish him all necessary being obliged to furnish him all necessary information and pay fees as above. The Co. may require the Superlatendent to do this for them on payment of such fees. An exceptional rate of interest may be used, as above provided, for bonus additions and accrued profits. Cos. hereto. tions and accrued profits. Cos. hereto-fore licensed which have computed their reserves hitherto on the basis of 5 p.c interest may continue to do so for 10 ears. The Superintendent is given like authori-The Superintendent is given like authorities and duties with respect to Life Cos., as are assigned to him by 38 V. c. 20, with respect to Fire and Inland Marine Cos. He shall, once in 5 years, (or oftener if ordered; value all Canadian policies on the above basis. He may, from time to time, when instructed visit the head office of a Co. and inspect its affairs, the Co. forfeiting its license if it refuses any necessary documents or information. They are to pay with other licensed Cos. pro Companies not licensed as provided in this Act or that of 1875, unless confining themse, ves exclusively to Ocean Marine Insurance, may do no insurance business in Canada of any kind without special permission of the Minister of Finance, issued after report of Tre sury Roard and confirmation of the Governor in Council, and subject to such conditions respecting deposits, fees, statements, inspections, &c., as may be deemed necessary. Issuing a policy or receiving a premium, without such permission or compliance with its conditions, renders a party liable for the respective penalities of \$1000, \$100 and \$100 above provided. Special Acts of incorporation hereafter shall lapse unless the Cos. take out alteense in two years after they pass, and so with Cos. already incorporated if the license is not taken out before 28th April, 1879. The time for depositing the annual statements of Fire and Inland Marine Cos, required under the Act of 1875, is extended to the ist March in each year. Cos, under the exclusive legislative control of any Province are not affected by this Act, but they may avail themselves of its provisions and so be authorized to transact business throughout Canada. Previous Acts are repealed saving any rights acquiredjunder them. Deposits by instalments may be continued under their provisions till the \$50,000 are reached. Saving existing rights, the Mutual Insurance Co. Act, Con. Stat. U. C., Chapter 62, an Act to repeal which has been passed by the legislature of Ontario, is repealed in so far as Pariament may repeal til.

INCORPORATION BY LETTERS PATENT.

Chap. 43.—The G in C may, by letters patent, incorporate any 5 or more persons to transact any business, except that of constructing and making railways, or banking and the issue of paper money or insurance. The applicants must give notice for one month in the Canada Gazette, stating the proposed name of the Co., its purposes, its chief place of business its proposed capital (which for a loan company must be at least \$10,000), the number and amount of shares, the names, places of residence and occupation of all the applicants, and 3 to 15 of them are to be Prov. Directors. Within a month after the last publication of the notice, the petition is to be presented through the S. of S. It must recite the facts as in the notice, and also the amount of stock taken by each applicant and paid in upon it, and how paid in and held by the Co. At least one-half the proposed capital must have been taken and 10 percent, paid in. In case of a loan Co., the payment must be naid in to credit of the Co., or of trustees, in some chartered bank; but if the business requires the holding of reatestate, one half may be invested in it and held by trustees. Provisions inserted in the charter may not be altered by by-law, unless the charter so provides. Before it issues, the parties must establish to satisfaction of the S. of S., or other officer charged with the duty, the sufficiency of the notice and of the statements in the petition, and their truth. Also, that the name proposed is not that

of another Co., or objectionable. If it be, the G. G. may give another. Notice of the granting of the charter must forthwith be given in the Canada Gazette, and the parties are thereupon incorporated and become vested with all moneys of or proparties are thereupon incorporated and become vested with all moneys of or proporties theretofore held in trust furthem. Such Co. may hold real estate necessary for carrying on their business. The G. in C. may issue supplementary letters patent to change the name, if it be found that it is likely to be confounded with that of another Co., or may change it on application of the Co. The shareholders may, by a two-thirds vote in value, authorize the Directors to apply for supplementary letters extending the powers of the Co. to other objects. And they may apply within 6 mos, giving notice as before, and establishing their authority to the satisfaction of the S. of S., &c. Notice, as before, must be given of the sates of such supplementary letters. By by-law, approved by two thirds in value of the shareholders, the Co. may change the No. of Directors (within the above limit), and the chief place of business. Such by-law, duly sealed and certified, to be deposited with the S. of S., and published in the Cunada Gazette, brore having effect. The Directors (if other than a loan Co., may, by by-law, subdivide the shares. Directors may in like man it reduce the capital, (in case of a loan Co., not lower than \$100,000) or, man'r reduce the capital, (in case of a loan Co., not lower than \$100,000) or, after all the stock is subscrited and hal paid in, increase it, and settle the No. and paid in, increase it, and secure inc. and all timent of new shares, or reduced shares. Such by-laws for reduction or increase require confirmation by the shareholders as above; and no decrease shall inte fere with liabilities to creditors incurred before it. Within 6 most appropriate with the content of t increase require confirmation of our shareholders as above; and no decrease shalt into fere with liabilities to creditors incurred before it. Within 6 mossupplementary letters patent must be asked for to confirm the same, and granted if proof of such compliance with above provisions, and of expediency of change, is given. Notice of such issue is to be given in the Gazette Provisional Directors act till others are elected. To be elected, one must own in his own right stock to the amount fixed by the bylaws, and owe no arrears on calls. The majority of Directors must be residents in Canada. They are to be elected by the shareholders in general meeting, for not more than 2 year, at times and places fixed by the by laws or charters. If not otherwise provided, the election shall be byballot, held yearly, aldays notice having been given in a newspaper published at or near the chief office. A vote i given for each share by the ovener or his proxy. Proxles must be shareholders. Arrears on calls disqualify from voting. The chairman has a casting vote. Vac encles are filled by the Directors for unexpired term with qualified shareholders. They must elect a President, and may a Vice-President, and such other officers as are necessary. Failure to elect on the day named does not dissolve the Co. The election may take place on a later day, the old Directors continuing till then. The usual full powers to transact the business of the Co., and to make by-laws are given them. Such bylaws have effect until ness of the Co., and to make by-laws are given them. Such bylaws have effect until next general meeting, when they must be confirmed or lapse; except those to is-sue, allot, or sell unissued stock at a less premium than previously authorized

at a general meeting, or payment of the President or any Director, which do not come into force till aproved by the shareholders. One-fourth in value of the shareholders. One-fourth in value of the share-holders can call a special general meeting. Unless otherwise provided the Directors regulate allotments by by-law. Copy of a by-law under the Co's. seal and purporting to be signed by the proper officer, shall be primă, facie evidence againt any shareholder. Stock is personal property, transferable only in manner provided by the Act, charter or by-laws. Books are to be kept in which are recorded all letters patent granted alphab t. call list of are to be kept in which are recorded all letters patent granted, alphab t call list of shareholders, with address and calling, No. of shares of stock, amount paid or remaining unpaid, a list of Directors, with addresses, &c., and terms during which they served. Also, a Register of transfers. They are to be open to inspection by shareholders and creditors of the Co. or their personal representatives (who may take extracts during business hours Neglect to keep such books forfeits the charter. They are prima favic evidence against the Co., or any shareholder. Any Director or officer making false entries or wilfully neglecting to make those necessary, or refusing access to them, shall cessary, or refusing access to them, shall be guilty of a misdemeanor. No trans-fer can be made of a share on which a call fer can be made of a share on which a call is due, nor is one valid as against those not parties to it, (unless made by order of a court) until entered in the Register. No transfer of a share not fully paid up shall be made without consent of the Directors. If they consent to the transfer of others to a person of insufficient means they become liable jointly and severally to the creditors for any loss entailed. But if a Director enter his protest and within 8 days, publishes it in a newspaper as required for other notices, he is exempt. When shares are transferred by inheritance, or otherwise than by sale, &c., and the Directors doubt in whom they are legally vested, they may apply to a su-perior court for an order declaring the owner, and acting thereon, they are to be held biameless. Notice must be given to held hameless. Notice must be given to the parties claiming, of such application, and the procedure thereon is as in similar cases. Co is incurred by the Co. to be naid by the party declared proprietor before registration of the transfer; those by other contestants to follow judgment. The Directors may refuse to register transfers of shares by holders indebted to the Co. A transfer by the representative the Co. A transfer by the representative of a deceased shareholder is valid, though his own name is not registered. Each shareholder is liable to the creditors of the Co. for the amount unpaid on his shares, but he may not be levied upon for it till after execution against the Co. proves insufficient. Persons holding shares as an executor, administrator, tutor, curator, guardian or trustee, though they vote on the stock, are not personally responsible for such payments, nor is one who holds stock as collateral security. Pledger may still vote on it. The Cos. are not bound to see to the execution of trusts, but the receipt for dividends, &c. by the person standing in their books as shareholder is sufficient. Calls are to be made by the Directors under provisions of charter or by-laws. Interest at 6 p. c. of a deceased shareholder is valid, though charter or by-laws. Interest at 6 p. c. runs on their amt. from the day fixed for payment. Directors may accept pay-

ment on shares in advance of calls and allow not more than 8 p. c. interest, while so in advance. Shares may be forfeited by the Directors, if in arrear for the time settled by charter or by-law. The shares become the property of the Co., to be disposed of by the Directors; but the original holder remains bound to the Co's. creditors for any amt. not received by the Co. on such shares. Or the Co. may enforce payment of calls by an action, in which a certificate under the seal of the Co., and signed by the proper officer, is prima facie proof that defendant is a shareholder and indebted in the amt. of calls sued for. ment on shares in advance of calls and signed by the proper officer, is prima facte proof that defendant is a shareholder and indebted in the amt. of calls sued for. Directors may be indemnified out of the funds of the Co., upon vote at general meeting, for any damages, costs or charges incurred in the discharge of their duties, unless incurred by their wilful neglect or default. No dividend is to be declared or paid which will reduce the capital. Sums due by shareholders to the Co. may be deducted from their dividends. The Co. must establish an office and legal domicile in the place where their chief place of business is, and give notice thereof, and of any changes, in the Canada Gazette. Other offices and agencies to be established at the direction of the Directors. Service of process may be made on the Co. at such chief office, or on the President or Secretary personally, or at his domicile. If there be no such office or officers, then the court may order service by advertisement. The signature of the authorized officer, without the seal, authenticates any summons, notice, order or proceeding. Notices from the Co. to its members may be served personally or by post; in the latter case they are held to be served at the time when in due course a registered letter would reach its destination; proof of posting and registration to be proof may be served personally or by post; in the latter case they are held to be served at the time when in due course a registered letter would reach its destination; proof of posting and registration to be proof of service. Deeds signed by the duly empowered attorney of the Co., and sealed with his seal, are valid as if under seal of Co. So also of any negotiable security or other document signed, under authority of the by-laws, by any officer or servant of the Co. The Co. may not issue any note payable to bearer, or that may circulate as money, or engage in banking business. Directors are responsible jointly and severally for any dividend diminishing the capital, or declared when the Co. is insolvent. But each may free himself from liability as in the case of improper transfer of stock. Except in a loan Co., no loan may be made to a shareholder, the Directors becoming personally responsible, if they make it. The employees of a Co. have a recourse against the Directors for 6 mos. salary or wages, earned while they are such Directors, if they are unable to recover from the Co., and sue within one yr. after the debt is incurred or the Directors go out of office. In an action between the Co. and a shareholder, any other shareholder is a competent witness. The production of an exemplification of the letters patent under the great seal is full proof of incorporation, which can only be attacked by scire facius or direct impeachment thereof. A charter is forfeited for non-user during 3 yrs. The right remains in Parlt to make other provisions respecting Cos. after incorporation. They are subject to the provisions of the Insolvent or Winding-up Acts. The G. in C. settles procedure and fees for G. in C. settles procedure and fees for

issue of letters patent: no proceeding to be had fill fees are paid. Proofs required by this Act may be made by declaration under 37 V., c. 37, or affidavit Letters patent are not invalid on account of any irregularity in preliminary proceeding. The word "limited" is to be added in any sign to the corporate name outside of all its offices or places of business, on its seal, in all notices, publications, negotiable sec. rities, orders for goods or money, bills of parcels, or invoices. Penalty for neglecting to have word on sign \$20 per day against the Co. and any Director authorizing it. For not inserting tin notices or official publications, negotiable security, invoice, receipt, &c., \$200 against the party making or endorsing on behalf of Co, who becomes liable personally on such papers if Co. fails to pay. Any Co. now incorporated for any of the purposes named above, may, after 4 weeks notice of application in Canada Gazette, surrender old charter and take letters patent under this Act. Rights of creditors against shareholders under previous charter are preserved. The 4- in C. may extend the powers of the Co., change its name and appoint new provisional Directors. All shares to be issued for their full amt. in cash, unless as above provided respecting real estate or under special agreement, filed with the S. of S. before issue. The dates and names of parties to preliminary contracts with promoters, trustees, &c., must be inserted in every prospectus or notice inviting subscriptions, or it shall be held fraudulent, as regards any subscriber without notice. Cos. may borrow money on bonds or debentures of not less than \$100 to the extent of 75 p. c. of the paid upcapital, under authority of a by-law passed by a two thirds vote. This limitation does not apply to ordinary commercial paper. Offices may be opened at any place in the United Kingdom. The Directors must report fully each year on the affairs and position of the Co.

LOAN COMPANIES.

Their shares must be of \$100 each. They may lend money on real security, the securities of the Dominion or of any Province or of any municipal or other corporation authorized to borrow, or purchase and resell such securities and use their own capital for the purpose, or acting as agents loan the capital of others, as above, or to any corporate body or mun cipal authorities, or board of trustees or Comrs., and may guarantee the payt. of the interest or re-payt of principal. And moneys so received and loaned with guarantee is the held as borrowed by the Co. The Directors, with consent of shareholders in general meeting, may borrow money and issue its debeniures (for sums not less than \$100 or £20 sig.) or other securities, or assign any of its titles, deeds, securities or property to guarantee repayment. They may borrow or lend at rates legal for individuals in other Provinces, or corporate bodies in Quebec They may, with like onsent, receive moneys on deposit and allow such interest as may be agreed on. These are also to be reckoned as moneys borrowed. A Co. may not borrow until either \$100,000, or 20 pc. of its

capital (whichever is the greater amt.) is paid up. If the borrowing be by deposits the amt. is not to exceed the paid up capital and cash in hand or bank. If not by deposits but he depositions on like cathal and cash in hand or bank. If not by deposits but by depositives or live see rities or by way of guaranteed capital or both, the amt. must not exceed its subscribed capital or 4 times its paid up and unimpaired capital. If by all these methods the amt. is not to exceed that remaining unpaid on securities held by the Co, nor double the amt. of paid up unimpaired capital, but the cash in hand is to be deducted from liabilities. These is to be deducted from liabilities. restrictions are not to affect the rights of restrictions are not to anect the rights of debenture holders in existing Cos., though such Cos. procure extension of powers under this Act. Loan Cos. may not purchase stock in other Cos. They may hold real estate necessary for their business not exceeding \$10,000 in yearly value, or acquire property necessary to procure repayments of advances, disposing of it within 7 years. When acting as agent they may charge comms. Registers of securities must be kept and entries made within 14 days. One Co. may amaigamate with another or purchase its franchises, securities and property. The Directors of these two Cos. enter into the aireement provisionally, submit it to the shareholders of each at general meetings, 6 weeks notice being given. If ratified by two thirds of the votes of all the shareholders of each Co., that fact is certified by the respective Secretaries and certificate scaled with the compared scale. debenture holders in existing Cos., though by the respective Secretaries and certifi-cate sealed with the corporate seals. The agreement and certificates are then filed with the Secretary of State, and becomes evidence of such amalgamation or acquisition. But due proof is to be laid before the Governor in Council If asked for, who may, if he see fit, issue new letters patent and give notice thereof in the Gazette. A new company is thus formed with the franchises of both, all previous rights and franchises of both, all previous rights and liabilities of 'hird parties being saved. Annual reports under oath are to be made to the Minister of Finance, on or before each 1st of March, shewing the business and position of the Co. up to the previous 51st. December, in such detail as the Minister of Finance may require, not the Minister of Finance may require, not disclosing the names or private affairs of persons dealing with them. Cos. incorporated to loan money, under 37 Victoria, chapter 49, must make like returns. All notices of the issue of letters patent inserted by the Secretary of State in the Canada Gazette must be inserted 4 times in a newscaper at the place of the head office, by the Co. office, by the Co.

VOTES OF BANK SHAREHOLDERS.

Chap. 44—Declares that shareholders in banks subject to 34 Victoria, chapter 5, sections 27, 29 and 30, may not vote if in arrears upon calls.

RAILWAYS-PROVINCIAL.

Chap. 45.—Crossing or uniting with a railway organized under a Dominion charter, by a railway under a Provincial charter brings latter under the provisions of the Dowlnion Act 3! Victoria, chapter 68, section 7, sub-sections 15 and 16.

TRURO AND PICTOU BRANCH OF I. C.-R.

Chap. 46.—Provides for the transfer of the above branch of the Intercolonial Railway to any person or (o. constructing a railway from New Glasgow to the Strait of Canso, and establishing a steam ferry there. Temporary possession may be given as soon as \$490.000 is expended on the new road, security being taken for payt, of its revenues and return in good order if the Strait of Canso line is not completed. In case of failure to complete and work the road and steam ferry satisfactorily the Govt. may resume possession of the branch.

NORTHERN RAILWAY GOV'T. LIEN.

Chap. 47.—The £50 000 second preference bonds of this to, held by the Gov't, are to rank with the others in the arrangement provided for by the private Act of this session: and the £50,000 s'g. of third preference with interest are to be extinguished on the Co. paying on or before 1st May, 1878, \$45.000 stg with interest at 5 pc. from 1st May, 1877; also \$27.458.87 for sums improperly expended which should have been paid in acquittal of the Gov't, claim, and assigning its mortgage on the Couchiching hotel.

PERMAMENT BUILDING SOCIETIES, ONTARIO.

Chap. 48—The Governor in Council may permit, if found unobjectionable, the chauge of mame of any such Society, upon its petition, after giving 4 weeks notice of its application in the Canada Gazette. The Secretary of State inserts a notice of such change in the Gazette, and the Society must file his certificate with the Clerk of the Peace where their declaration of organization is deposited and have the same endorsed thereon, within 1 mo. after notice of granting it is inserticated.

have the same endorsed thereon, within I mo. after notice of granting it is inserted in the Gazette, under a penalty of \$200 Chap. 49—Such societies, having a permanent paid-up capital of \$100,000, which is not liable to be withdrawn, may receive deposits as those with a capital of \$200,000 were authorized to do by 37 V., c. 50; but the amt. of such deposits and debentures together must not exceed twice the amt. of such capital unimpaired; the deposits shall not exceed such unimpaired capital and its total liabilities. In these estimates the cash in hand or in bank may be deducted from liabilities, and loans to shareholders must be deducted from capital. The position of the present debenture-holders of Cos., hereafter taking advantage of their enlarged powers, is not to be impaired. The annual returns are to show the rate of interest at which mortgages have been computed to ascertain what remains unpaid.

BUILDING SOCIETIES-QUEBEC.

Chap. 50—Provides for the issue to such societies, by the G. in C., of letters patent of incorporation, no other form of charter being permitted. The petitioners must be not less than 30. The capital must be not less than \$250,000. First directors 5 to 9. Petition, issue of charter, and notices in the Canada Gazette similar to those for

other joint stock Cos. Half the stock must be subscribed, and 20 p.c. on the permust be subscribed, and 20 p. c. on the permanent, and 5 p. c. on the temporary, paid in, ere petition can be granted. No dividend of over 8 p. c. can be paid until there is a reserve fund equal to 20 p. c. of the paid up permanent capital stock. All real estate of an annual value over \$10,000 must be sold within 7 yrs. after acquisition. Societies may receive money on deposit and may issue debentures for not tion. Societies may receive money on deposit, and may issue debentures for not less than \$100, having not less than 1 yr. to run. Persons not now authorized by the laws of Quebec may make deposits up to \$200. The limits of borrowing powers is to \$200. The limits of borrowing powers is the same as in other joint stock Cos., except that, if both by way of deposits and upon debentures, the aggregate shall not exceed the principal amt. unpaid on securities held by it, nor the unimpaired capital by more than one third. The borrowing powers must be based on the amt of its permanent (not temporary) stock. Societies may be amalgamated like other joint stock Cos., and in a similar manner. Annual returns to the M. of lar manner. Annual returns to the M. of F. are to be made, showing amt of stock subscribed, and amt. paid in, the amt. borrowed for investment, and securities given therefor, the amt. invested and secured by hypothecs, the value of immovable property under hypothec, the amount of hypothecs overdue and in default, the amount of same payable in instalments, the amt held as deposits. The M. of F. has the same power of suspending charter of society as under lar manner. Annual returns to the M. of deposits. The M. of F. has the same power of suspending charter of society as under Joint Stock Co's. Act. The Act is made applicable to existing as well as future societies. Those in operation with less than the prescribed capital, however, need not increase it or stop; but if their borrowing powers have not been exercised they shall not be, till the paid up capital is so increased. If they have borrowed they shall not issue further debentures, nor in eitles or towns after 1st July, 1878,—nor in other places after 1st July, 1878,—nor in other on deposit, or otherwise contract loans, till the conditions of this Act are complied with.

HARBOUR OF QUEBEC.

Chap. 51.—Tonnage dues under 25 V., c. 46, s. 3, apply to trade with "ports outside of Canada" instead of "ports beyond the seas." The rates to be levied on tow boats and steamers plying in or to the harbour is \$15 per season on those of 25 tons or under, and on larger vessels an additional 10 cts. per ton. On goods imported into or exported from the port, from or to the United States, or by transit from any other country, through the United States, whether by sea or not, the toll is 1-10th of 1 c. p. ton on the invoice value. The obligation of a master of a vessel to report within 48 hours to the Secretary of the Com. extends to vessels from Newfoundland and the United States as well as ports of the Dominion, and he must pay the tolls, &c., within the same time under the same penal y. The Comrsmay, by by-law approved by the G. in C., impose penalties not exceeding \$100 or imprisonment not exceeding \$00 days for breach of their regulations, to be enforced before a Judge of Sessions or 2 J. P. Ali other penalties under the Harbour and Pilotage Acts, are recoverable before the

Comrs. as before the late Trinity House. They may fine a pilot \$100 or less, instead of suspending or dismissing him.

Chap. 52—Authorizes the corporation of the town of KINCARDINE to impose and collect toils on all goods shipped or landed there, or lumber, &c., passing through, to be employed in paying off the debt incurred, or to be incurred, in building piers and wharves and improving the harbour, with a right to enforce payment by seizure of such goods, &c., or vessels on which they are laden

Chap. 58—Provides a new tariff of tolls to be levied on vessels and goods by the HARBOUR Comrs. of MONTREAL.

Chap. 54—Extends and applies to Bank of B. N. A., the provisions of section 56 of the Act relating to Banks and Banking, 34 V., c. 5.

Chap. 55—Reduces the capital of LA BANQUE JACQUES CARTIER from \$2,000.000 to \$1,000,000; confirms an arrangement distributing the paid up shares of the Bank among the shareholders and permits the Bank to amalgamste with another Bank; or other Banks with it, under the terms of 34 V., c.5; saving the rights of the Banks and of the creditors of the Banque Jacques Cartier.

Chap. 56—Provides for the winding up of the METROPOLITAN BANK. A special general meeting of shareholders to appoint three liquidators, who shall proceed to realize the assets of the Bank as speedily as possible, and pay off its liabilities and divide the balance of proceeds among the shareholders—first retaining the full amount of calls paid in, in excess of 40 per cent., and then divide what may remain equally among the shareholders. Liquidators to be paid reasonable expenses out of the assets and receive such remuneration as shall be voted at final meeting of shareholders. Assets may be sold by liquidators en bloc, if shareholders at a special general meeting consent.

Chap. 57—Enacts that the Directors of the Northern Rallway Co. may issue securities to the amount of £55,000 stg., either in bonds bearing 5 p. c. int.. or in perpetual or redeemable stock, bearing the same int. Such bonds or debentures to be a first charge on the property of the Co., and int. to be paid next after working expenses, but not to prejudice any existing right to priority of bonds of Northorn Extension Co. Holders of these debentures to have rights and powers of mortgagees except right to require payment of principal. Securities to the amount of £200,000, stg., may further be issued for the purpose of extinguishing loan capital of Extension Co. Sanction of two-thirds of existing shareholders at a special general meeting must be obtained before securities are issued, and such sanction must be obtained within 12 mos. of passing of Act. Claims of Dominion Government not to be affected by this Act except upon terms and conditions prescribed by Act passed during session. Sections and parts of sections included in part first of Railway Act, not ex-

pressly incorporated in this Act, not to apply to the Co. Act to be called "Northern Railway Co. Act of 1877."

Chap. 58.—Amends Act incorporating MONTREAL, PERTLAND AND BOSTON RAILWAY Co., declaring the work to be for general advantage of Canada, extending time for completion for 3 years. Judges of the Exchequer Court have the same right to use Court Houses, &c., as have Judges at Nist Pruts.

After the next vacancy in the Chief Justiceship of the Q. B., the Chief Justice of the Court of Appeals is to be styled Chief Justice of

The Practice Court under Con. Stat. U. C. c. 10, s. 9, is abolished, its business being transferred to the Court under s. 19, of Administration of Justice Act, 1874. Salaries of officers of Courts are payable

monthly

the Judges of the Queen's Bench or Common Pleas may, by rule in Easter term, discense with Trinity term in each year. The Judges in Chancery may arrange for additional sessions, it found necessary at any place, after the Circuits have been averaged under the Act. All mortages at any place, after the Circuits have been arranged under the Act. All mortgages, securities. funds, &c., standing in the name of the Accountant of the Court on 26th June, 1876, are declared to have been since yested in the Referee in Chambers, and hereafter, when there is no Accountant, all such securities, &c., shall vest in the Referee, or such other officer as the Court appoints.

Court appoints

When there are two County Judges, or two persons doing the duties, they may sit concurrently, the one for jury trials the other for cases tried without jury. after the adjournment or termination of the Quarter Sessions. The judges may, with the approval of the L. G. in C., fix the sittings of the County Courts and Quarter Sessions in June and December. If the Municipal Council appr wes, the L. G. in C. may appoint a short-hand writer to any County Court to be paid by salary or fees or both. If by salary the fees go towards it,—the County Council paying the balance quarterly. But this does not apply to York. A retired County Court Court Court. Chap. 5—Gives jurisdiction in cases of apply to York. A retired County Court dispute between the Dominion and the judge may hold a court at request of the

Judge or under order of the G. G., on re-Judge or under order of the G. G., on request of the L. G., and he may be appointed upon the County Court judges' board. Actions by or against a County Judge may be brought in an adjoining County, and a Division Court action by or against a Stip. Magistrate in an adjoining County

The Chief Justices and anv 2 other judges of the Superior Courts of Common Law may make and alter rules of court

Law may make and after rules of court for their own and the County Courts; the judges of the Court of Chancery for their own court. They have the force of law.

Comrs. for taking affidavits in the other courts are officers for a like purpose of the Court of Appeals. And they may receive affidavits respecting claims over which such courts have jurisdiction, thoughproceedings are not pending before them.

them.

Persons not barristers or attorneys may not be appointed Notaries Public until they have passed an examination pre-scribed by the L. G. in C., before the County Judge or other person named for the purpose, and received his certificate of having passed the examination and that the appointment is advisable. A fee of \$5 is payable for the examination and certificate.

Goods exempt from seizure remain so Goods exempt from seizure remain so when they pass to the widow or children on the debtor's death, or his representatives, in case he absconds, and the selection under the Act may be made by the widow, heirs or guardian of the children. In order to obtain a good title to chattels mortgaged in one county or district, and removed to another without removal

and removed to another without renewal of registration therein, the purchaser or mortgage must be in good faith. else the claim of the mortgagee in the first county

In case of a vacancy, by death, disqualification or resignation, in a trust, the remaining trustee or trustees, or administrator of such trustee, in default of persons named in the instrument creating the trust may appoint a new trustee to fill the vacancy, and the property, &c., should be forthwith conveyed to the trust as thus newly constituted. This power may be exercised when a trustee named in a will has died in the testator's lifetime. In case of a vacancy, by death, disquali-

The Courts may appoint the mother guardian to her minor children notwithguardian to her minor children notwith-standing the father, by will, has ordered otherwise, or appointed another person, if they see proper, and order payment out of the estate for the support of the minors. They may also give effect to a testamen-tary appointment by the mother differ-ent from the previous appointment of the father. The Court of Chancery may remove testamentary gradians and trustees for testamentary guardians and trustees for the same reason as others. But this is not to interfere with the directions of the

father respecting the religious faith in which a child is to be brought up.

Papers on which an order under the Married Women's Real Estate Act has been obtained must be filed with the Clerk been obtained must be filed with the Clerk of the Court to which the judge belongs When a person, whose wife is insane, desires to sell property free from dower, or has sold, leaving a portion of the purchase money to meet it, or giving an indemnity against dower, he may apply to a judge, who, the facts being proved, may dispense

with the wife's intervention to bar the dower, but taking care that the value of it remains a charge on the estate or is otherwise secured for her benefit. If the wife of a vendor be living apart from him, under circumstances which would prevent under circumstances which would prevent her from claiming alimony, a Judge of a Superior Court may permit the sale free of dower. Deeds by the wife for barring dower on property which the husband has sold, though the husband is not a party to them, or there is irregularity respecting the certificate or acknowledg-ment are confirmed. ment, are confirmed.

Contingent interests in lands, over which any "party has any disposing power which he may, without the assent of any other persons, exercise for his own bene-fit," are liable to seizure and sale under

execution.

Provision is made for the partition or sale of property by the Court of Chancery, when persons interested are not known to the plaintiff, or have not been heard from for 3 yrs. or upward, it having authority, as in cases under 32 V., c. 33, respecting persons supposed to be dead.

Every contingent remainder at present or existing, or hereafter created is declared capable of taking effect, notwithstanding the determination by forfeiture, surrender or merger of any preceding estate of free-

hold.

Grants by O. in C. of the G. G. or L. G. may be registered in the Division where the land is situated, by deposit of a certi-

fled copy.

A Police Magistrate or Stip. Magistrate

fied copy.

A Police Magistrate or Stip, Magistrate has the authority of two J. F.

The Acts relating to the Niagara Falls district are made permanent.

The Clerk of the Peace summons the Auditors under 33 V., c. 8, by order of the County Judge, submits the accounts, records the proceeding and carries out the orders of the Boards. The returns made by the Clerk of the Peace, under 32 V., c. 6, s. 9, are to be recorded as when made to the Quarter Sessions, and the same fees are allowed them. The County Treasurer provides the County Audit Board with a list of items rejected from previous accounts by the Provincial Treasurer, and the amst. may be deducted from future accounts of the same officers—and the Board may order payment to be deferred until items concerning which they have a doubt have been allowed by the Provincial Treasurer. If there be no assessment rolls to guide them, the seniority of 2 townships united is determined by the L.G. in proclamation or County Council in by-law. A County Council may provide by by-law, passed before 1st July, for holding nominations of Reeve, Deputy Reeve, and Councillors, on the last Monday but one in December, in remote townships, &c., although the first election In case of the incorporation of new ships. In case of the incorporation of new townships, &c., although the first election may not be held till the 1st Monday in January which is 3 mos. after the proclamation or by-law, the nominations and unopposed elections may take place on the last Monday in the intervening

A bribery oath is provided to be administered to Municipal electors.

The rate-payers are to vote upon a by-law at a time fixed therein, not less than 3 nor more than 5 weeks after the first

Upon the organization of a new township in territorial districts, I Reeve and 4 Councillors, being voters, are to be elected. All resident householders of age, and British subjects, are voters. The voting is to take place at the time and place settled by the Stip. Magistrate as in other municipalities. If a poll be demanded, the election is adjourned for a week, and notices put up in 6 conspicuous places. The poll book is to be of the old form for open voting. The Returning Officer has the casting vote if needed, but no other. Those elected hold office till their successors are elected or appointed and sworn in.

sors are elected noid office the their successors are elected or appointed and sworn in.

The Councils of townships or villages, not attached to counties for municipal purposes, may grant licenses to Auctioneers, &c.

The Assessor's certificate must state that the notices sent to the person assessed shows the correct amt. The assessment roll is binding after it is finally passed, notwithstanding errors in it.or in the notice sent to the ratepayer. Completite against the large assessment go to In the notice sent to the ratepayer. Com-plaints against drainage assessment go to the Court of Revision of the municipality, the Clerk furnishing it with the necessary part of the roll; and appeals go to the County Judge. When an alteration is made the whole of the assessment of the municipality must be so raised as to make the aggregate the same as before.

A person dissatisfied with the award of fence viewers, under 37 V., c, 25 or c. 28, must serve notice of appeal to the Courty Judge within I week after notification to him of the award.

If the fence viewers laving out a ditch for a water course find that the owner of any property en route does not require it but adjacent proprietors do, they order it to be done at the expense of the others, and these may cut it through his lands without trespass

Directors of Mutual Fire Insurance Cos

may waive forfeitures of policy under 36 V., c. 44, s. 37-40, and pay the claims. In granting 1-tters patent of incorporation, the L. G. in C. may change the name and vary the objects of the Co. from those cet forth in the nation and patition. and vary the objects of the Co. from those set forth in the notice and petition. The quantity of real estate to be held by a Joint Stock Co. is settled by the Letters Patent. In case due notice of a bill to incorporate a Co. is given, but such bill is thrown out or withdrawn, the parties may, within 1 mo. from the close of the session, present their petition for letters patent—the other notice being sufficient. And in case the proposed capital is \$3,000 or under the L. G. may dispense with any notice. Upon proof of solvency, &c., a Co. may obtain a change of name in a similar manner to that prescribed for Cos. chartered by the G. in C. by Dominion Act of this session. Act of this session.

A debenture made payable to a Provincial Treasurer, by his name, or to his order, may be endorsed by his successor in office.

may be endorsed by his successor in office. The Govt. may invest moneys in Municipal debentures for drainage under 36 V., c. 39, although the by-law provides for an issue larger than \$20,000, but not over \$30,000—the government not taking more than \$20,000 from one municipality. Timber seized for non-payment of crown dues may be sold 2 mos. thereafter unless dues be paid.

dues be paid.

An agreement for the maintenance or partial maintenance of a lunatic in an

asylum, holds good for such mainten-ance in any other Provincial Asylum to which he or she may be transferred. By-laws under the Temperance Act, 1864

By-laws under the Temperance Act, 1864 (Dunkin Act), hereafter come into force on the 1st May next, after they are passed. The time for the registration of partnerships under 33 V., c. 20 and 35 V., c. 18, is extended to 1st January, 1878

No license for sale of spirituous liquors may be granted to a License Comr. or Inspector, nor for the premises of which either is owner. If the Comr issues or the Inspector recommends such license he forfielts \$500. This does not apply to property held by a Joint Stock Co., in which the Comr is a shareholder. But he may not vote on any question concerning such license, under a like penalty.

VOTES TO FARMERS' SONS

Chap. 9-Provides that farmers' sons of proper age, &c., resident at home, may be entered on the assessment roll as joint owners with their father, when he is living, or as tenants or joint tenants of their mother—their father being dead, and be given a vote thereupon. If the property is not assessed for enough to give all votes, only so many of the elder sons shall be entered as the land will qualify together with their father if living The residence must be for the year preceding the return of the assessment roll; absence from home for 4 mos. or less of the 12 not to invalidate right When so entered on the assessment roll with his consent the Chap. 9-Provides that farmers' sons of from home for 4 mos. or less of the 12 not to invalidate right. When so entered on the a-sessment roll with his consent the son becomes liable for his share of the assessment and for statute labour; and he has all the rights of others entitled to vote to compel such entry of his name. Proper oaths are provided to be taken by such voters when required at a Legislative or Manigural election. or Municipal election.

LEG. ASSEMBLY ELECTIONS.

Chap. 10—On the coples of draft voters' list sent out—notice of date of posting in clerk's office and to electors to claim corrections is dispensed with; also the notice of posting up, in a newspaper. A person struck off under 39 V., c 11, s 4, as having parted with property named in list, may apply to be replaced for other property acquired. And any person rated or liable to be rated may apply to be placed on the roll and list within 60 days of final revision of latter. The time within which complaint of errors may be made runs from the date of posting only. The Returning Officer obtains from the Muncipal Clerk and furnishes to each D. R. Othe dates of the return of the roll (on which the voters list is based) by the Assessor, and on which it was finally revised and corrected. The clerk must give this under penalty of \$200, receiving 25 cts. therefor. The date so established is to form part of the voters oath. An oath is provided for those who have ceased since the date of the revision of the roll to hold the qualifying property, but, being still resident in the municipality, are entitled to vote. to vote.

STOUFFVILLE VOTERS.

Chap. 11.—This village, formed for municipal purposes out of portions of Markham in East York, and Whitchurch in North York, is separately incorporated; but voters are to vote in the separate ridings as if such incorporation had not taken place, and the clerk of the municipality must make 2 separate lists accordingly.

VOTERS' LISTS-MUNICIPAL ELECTIONS.

Chap. 12.—The Voters' List Act of 1876, as amended, is made applicable to Municipal elections The polling subdivisions for Legislative and for Municipal elections shall hereafter be the same, but the Council may unite any two adjoining ones for the latter The alphabetical voters' list shall hereafter consist of 3 parts—one showing those entitled to of 3 parts-one showing those entitled to vote at both elections, one shewing those vote at both elections one shewing those entitled to vote at municipal elections alone, and the third those who may vote at Legislative elections alone,—and this for each politing subdivision. Before the day of nomination of municipal officers, the Treasurer, if he have the Collector's roll, if not, the Collector furnishes a list, verified upon oath, of those entered on parts 1 and 2 for income who have not paid their taxes before the 14th of De enter. and also (in municipalities where ber, and also (in municipalities where by-laws have been passed, disqualifying for non-payment of taxes,) of defaulters among those assessed on real property. Certified copies of these defaulters lists Certified copies of these defaulters lists are to be furnished in like manner as voters lists, and copies of both are to be delivered to each Deputy-Returning Officer before the poll is opened. For copies of these voters' lists furnished by the Clerk of the Peace he receives 6 cts. per 10 names. The defaulters list is legal proof of its contents to the D. R. O. The Clerk of the municipality must furnish to the D. R. '. a certificate of the date of return of the assessment roll and of its final reof the assessment roll and of its final re-vision and correction, as well as to any other person for 25 cts., under a penalty of \$20. And this is also to be evidence on which the U. B. O. must act. The Clerk of the municipality is hereafter Re-Clerk of the municipality is nereatter returning Officer, those presiding at polls, Dep'y-Returning Officers. Where a municipality is not divided into polling districts, the clerk acts as D. R. O. also, providing himself with the necessary documents. In all oaths, the date of the clerk's certificate as to final revision of roll is to be inserted in oath of qualification instead of reference to it. In municipality in the clerk of the clerk's certificate as the second of the clerk's certificate as to final revision of the clerk's certificate as to final revision of the clerk's certificate as the clerk of the clerk's certificate as the clerk of the c tion instead of reference to it. In municipalities divided into several polling districts, when votes are to be taken upona districts, when votes are to be taken upona by-law-a list is to be furnished to each D. R. O., in accordance with 39 V. c. 5, of those entitled to vote under 38 V. c. 48, s. 232 & 233. Where they are not div ded, the clerk provides himself with documents and acts as D. R. O. An agent may take the outh of secrecy before the D.R. O. as well as the Municipal Clerk or a L.P. The last list certified by the Judge and J.P. The last list certified by the Judge and returned to the clerk shall be used at all municipal elections. No person may vote who is not entered thereon, and no person may be a shall be used at all municipal elections. son's qualification questioned who is.

MUNICIPAL LOAN FUND.

Chap. 13.—In the unorganized parts of the recessary the following districts, the L. G. in C. public purposes.

may order the expenditure of the following Municipal Loan Fund moneys for any purpose for which an organized township might pass a by-law, viz.: Algoma, \$8,256; Muskoka, \$1,010; Manitoulin Island, \$2.694; Parry Sound, \$1,288; Nipissing, \$3,582.

RAILWAY SUBSIDIES AND LAND SUBSIDY FUND.

Chap. 14.—Subsidies are granted upon the subjoined conditions, to the following railways: The Victoria, from Kinmount to Haliburton, 22 miles, 8692 18 per mile per an,; the Whitby and Pt. Perry, 27 m., \$173 04 per m per an.; the Prince Ar-thur's Lauding and Kaministiquia River, 6 m. \$123 04 per m per an.; the Kinge. thur's Landing and Kaministiquia River, 6 m., \$173 04 per m. per. an.; the Kingston and Pembroke from the Mississlpitothe Madawaska Rivers, 30 m., \$692.16 per m. per an.; the Credit Valley, from Toronto to Ingersoil, from Streetsville to Alion, and from Cataract to Elora, 154 m., \$652 per m. per an.; the Montreal and City of Ottawa Junction, from the Province Line to Ottawa. 66 m., \$86.52 per m. per an.; the Montreal and City of Ottawa Junction, from the Province Line to Ottawa. 66 m., \$86.52 per m. per an.; the last two in addition to the previous subsidy.—The previous appr. priation to the Kingsten and Pembroke Co., for that portion of the line north of the Mississipi not yet under construction, is cancelled. All these to be payable half yearly, in January and July, for 2) years Payments only to be made upon condition that the Company gives such running powers over its road to upon condition that the Company gives such running powers over its road to other Cos. connecting with it and upon such terms as the L. G. in C. may deem necessary and just. Also that the portion of the road (not less than 10 consecutive miles) for which the payment is claimed has been completed to the satisfiction of the () of P. W., within the time prescribed by law. Thereupon scrip or certificates, transferable, are issued for the amounts payable. The conditions prescribed by 39 V, c. 21, s. 6, also apply. The Cos. must furnish such information respecting progress, and such statistical respecting progress, and such statistical information after completion as the Com-P. W may require, and plans, location, weight of rails, &c. of colonization rail-ways, are subject to approval of the Govt. engineer. The iron may not be removed from a subsidize I road without leave of the L. G. in C. 'The time for the completion of all these lines is extended to the tion of all these lines is extended to the tat January. 1880. Crown lands, ten miles in width on each side of the Victoria railway from the N. boundary of Ayrand Clyde to the river Ottawa, at or near the mouth of the Matawan, are reserved, to be seld at not less then \$\mathbb{P}\$ or ere the mouth of the Matawan, are reserved, to be sold, at not less than \$2 per acre, to form a railway subsidy fund. Terms to be settled by the L. G in C. and price may be reduced by O. in C., of any parts certified not worth the \$2 by the C.C. L. after they are in the market. A separate fund is to be formed and separate account kept of the proceeds. And after cost of collection, they are to be applied to pay subsidies hereby or hereafter granted to railways. Pine trees are to be reserved and their proceeds not to go into the fund. The L. G. in C. may dispose of any of those lands as a free grant for the way or station grounds or other necessary uses of railways or other other necessary uses of railways or other

FREE GRANTS AND HOMESTEAD LANDS.

Chap. 15.—Timber licenses may be and might at any time have been granted, respecting lands reserved under the Free Grant and Homestead Acts, as over any other waste lands of the Crown. And all such grants heretofore made are confirmed. This not to interfere with judgment, rendered, or any case pending on the 28th Deceaber, 1876.

EDUCATION.

Chap. 16.-The Council of public instruction may decide what are equivalent to examinations for entrance to High Schools or Collegiate Institutes, either in Schools or Collegiate Institutes, either in Public School teacher's examinations or in those of learned bodies in the Province and make arrangements with the latter on the subject. They may arrange for the use of a public school as a County Model School for the training of teachers. They provide for examination of pupils in Model Schools. Agricultural chemistry, mechanics and agriculture, are made optional studies in public schools. The Council may impose such further conditions on candidates than those now exacted as may be necessary to secure proper teachers. Persons need no longer be candidates for 1st class certificates in order to obtain the second class, these latter being didates for 1st class certificates in order to obtain the second class, these latter being granted by the department, and third class only by County boards, which may renew them. The examination papers for admission to High Schools, &c., may be sent to any other person appointed besides the Inspector, and it is the duty of the Chief Superintendent to see that the examinations are properly held. The right to appoint a clerk to perform his duties in his absence, is taken away from him. A absence, is taken away from him. A person deputed to make an inquiry into school matters may take evidence under oath The Superintendent may authorize ischool matters may take evidence under oath. The Superintendent may authorize the payment, out of moneys voted, of one half the cost of maps and apparatus bought by school corporations elsewhere than from the Dept. His annual reports need not be made on or before the 1st July, but up to 31st December. The L. G. in C. may allot moneys voted for payt. of travelling expenses of candidates for second class certificates. The sums to be paid out of local rates for salaries of teachers of High Schools, &c., must equal the minimum Govt, grant to the municipality or section. Teachers Associations as well as Institutes are to be encouraged. The school year for Public Schools is divided into two terms, from 3rd January to 7th July, and from 18th August to 2nd December. But High Schools and Public Schools joined to them, or the latter in cities, towns or villages where there are High Schools, open on 7th January, and close on the Thursday before Easter, reopen the Tuesday after Easter, and close on 13th July, re-open on 1st Septe ber and close on 2nd December. The election of school trustees is to be by open voting. The polls close at any time after 11 o'clock, when a vote hear not been polled within an hour. on 22nd December. The election of school trustees is to be by open voting. The polls close at any time after 11 o'clock, when a vote has not been polled within an hour. In cities, towns and villages the poll is to open at 10 o'clock. A school site includes land for offices and play-grounds, as well as for the school house. The rights of mortgagees, lessees or tenants, are to be

arbitrated like those of the owner. Township Council is to pass a by-law to authorize the trustees to borrow money for purchase of site and erection and repairs of house, &c. loans of surplus money by a municipality may be made to any school corporation within its limits. Boards of Examiners of teachers in cities are done away with. The teacher's report to the Superintendent or Inspector, may be through the Trustees or otherwise. School Inspectors may take advantage of the superannuation fund. The additional pay of an Inspector for remote settlements, may be derived from moneys voted by County Councils as well as the Legislature. In rural school section corporations two trustees must agree to authorize any action; in cities, towns and villages, or township boards, a majority is a quorum; the chairman having the casting vote. A by-law to incur a debt does not require the sanction of a popular vote. But to change a school site a special for purchase of site and erection and redoes not require the sanction of a popular vote. But to change a school site a special meeting of rate-payers must be called; if the meeting and trustees disagree arbitration is had. In any township divided into school sections, the question of forming a township board may be submitted at the annual school meeting; and if assent be given by frds of such sections not united to another municipality, the Township Council passes a by-law (to take effect on the next ist January,) establishing such board and dividing the township into 4 wards for the purpose,—to be the same as those for municipal purposes where formed. Two trustees are elected in each ward at next election and thereafter one retires each year in rotation and one is elected in at next election and thereafter one retires each year in rotation and one is elected in his place, the elections taking place on the 2nd Wednesday in January. All the powers of the trustees for sections are merged in the board. The union of any portion of the municipality with another or part of another is dissolved by such bylaw, but may be renewed. If permanently dissolved all rights and liabilities created under the old union nevertheless remain A valuation of the property and debts of each section is to be made by the Inspector and 2 non-residents of the township appointed by the Council, and they settle their respective rights and claims. In case of separation as above, each township pointed by the Council, and they settle their respective rights and claims. In case of separation as above, each township Council appoints a person to act with the Inspector in a like valuation, and decide how the claims of each is to be settled. The County Judge is added if the arbitrators be an even No. After the Board has existed 5 yrs. the Council may, on the petition of 20 rate-payers in each of the majority of the wards, submit to vote in the several wards the question of returning to the school section system,—the voting to be onen. If a majority in a majority of wards decide in favor of it, a by-law is passed accordingly and a new valuation and adjustment is made as above. This Act is to apply after 1st January, 1878, where township boards already exist, the township Councils dividing into wards before 1st October, 1877, if not done already. The power of Councils to alter the boundaries of sections includes the division or union of sections or parts of them. When finally settled, after or without appeal, such alterations &c. remain in force for 5 vrs. at not higher than 8 p. c. Portions of several municipalities may be united into 1 school section, a board of arbitration being formed as above (for separations, &c.,) and reporting on its advisability and the proper conditions of such union, and by-laws being passed by the several Councils. It is to be considered a section of the township or a division or district of the village or town in which the school house is. The The boundaries may be altered or union disboundaries may be attered or union dis-solved, if a majority of rate-payers in the part belonging to any municipality, peti-tion for and the Council pass a by-law. Existing unions are confirmed and pro-ceedings for setting them aside for infor-malities may be stayed on payt. of costs. Towns not separated from Counties may put their schools under the County In-spector, paying bim like salary as for rural spector, paying him like salary as for rural schools. The L. G. in C. may form Inspectors' districts in remote settlements and territorial or judicial districts,—the county or Provincial Councils paying their share of the Inspector's salary and expenses. Further provision is made for the entering in all assessment rolls, not only the school section of the rate-payer, but whether rated for sangate or public but whether rated for separate or public school, and whether Catholic or Protestant, and the same in the Collectors Roll, a special column being also inserted for school debts. This portion of the Assessment Roll may be appealed against as any ment foll may be appeated against as any other. And the Council are to levy and collect all such legal rates and account annually for them. Separate School Trustees wishing these provisions carried out must give notice to the Municipal clerk a week before assessment is begun. Otherwise they may go on under former Acts. County Councils are to make provision for the quarterly navgent of teach. vision for the quarterly payment of teachers' salaries and may, if necessary for that purpose, borrow money at 7 p. c. It is the duty of the Co. Treasurer to pay over County rates in proper proportion to local Treasurers—who are to be considered as County sub-Treasurers—for school purposes. The provision for payts, by him on the Inspector's order is repealed, and the local Treasurers are to do this. Where local Treasurers are to do this. Where several townships are united for school several townsnips are united for school purposes, there being no County organization, a board of 5 members with same powers as other school trustees is to be elected on the 2nd Wednesday in each January, who may provide a school and teachers on the requisition of the heads of the regident families. A preas from as-January, who may provide a school and teachers on the requisition of the heads of five resident families. Appeals from assessments which are made by the officer of the board in unorganized townships go to the Stip. Magistrate or County Judge. When an organized and an unorganized township are to be united for school purposes the Stip. Magistrate acts on behalf of the latter instead of a Reeve. The County Gouncil is to r4ise \$100 at least for the County Model School, and \$50 for the Teachers Institute or Association. Accommodation must be provided by the School Trustees for \$rds of the school children in the section according to the census of the preceding year. Trustees vacate their seats by ceasing to reside, by absence from meetings for 3 mos. without leave, and by being convicted of a felony or leave, and by being convicted of a felony or misdemeanour. Parents are excused from penalties for not sending their chil-dren to school, if the neglect has not been wilful, but caused by extreme

poverty, ill health or too great a distance from school.

HIGH SCHOOLS.

High Schools and Collegiate Institutes are under the jurisdiction of the County Council, though deriving their title from the city, town, or village in which they are situate. High School Districts are no lowerite beformed except for county or longer to be formed, except of a county or longer to be formed, except of a county or electoral district, but those now existing remain till abolished by the County Council; more than one such school may be established in a county. Where such school is established in a city or town separate from, but within a county, the two Councils may agree upon terms upon which it may serve for both. A sum equal to the minimum grant is to be provided by any separate city or town for any such school within it. Where minor municipalities are formed into a High School palities are formed into a High School District, they must furnish the sums required, equal to their proportion of Government grant, on application of the High School Board.

UNIVERSITY OF TORONTO.

Convocation may discuss and advise the Senate respecting the application of any college for affiliation, but the power of decision is taken away from it.

AGRICULTURE, ARTS, &c.

Chap. 17.—Consolidates the laws respecting Agriculture, Horticulture, Arts and Manufactures, and the Boards and Associations formed for their encouragement. The Council of the Provincial Association is made up of the C. of A., the M. of E., all the Professors of Agriculture in chartered Colleges and Universities, the President or a Vice-President of the Fruit Growers Association, the Entomological Society the Dairymens' Association, and the Ontario Society of Artists, and the President of Mechanics' Institutes of Ontario, or persons appointed in their places—and 13 delegates elected from the several Agricultural Divisions. Chap. 17.—Consolidates the laws respect-

SALES OF LIQUORS.

Chap. 18.—The appointment of Inspectors and Commissioners may be under authority of the L. G. Licenses for sale on vessels may be issued by an Inspector at a port in a district in which they sail, or at which they call. The prohibition of connection between a tavern and grocers' shop only applies in townships where a by-law to that effect is passed Petitions for license to take effect on the 1st May, should be filed with the Inspector on or before the 1st April. Unless otherwise provided, every license holds good only for the person while resident on the premises described in it. The right to transfer a license must be asked from the Comrs. within 1 month after the removal, death, or assignment of property. &c... of of connection between a tavern and grocdeath, or assignment of property, &c., of the original holder, and the transfer forth-with made upon leave being granted. Before leave is granted, the proposed transferee must produce an Inspector's report in his favour. If a license becomes void in any way before its expiry, the Comrs.

may grant a new one for the unexpired term, on such conditions as to refunding duty to original licensee as may seem just. duty to original licensee as may seem just. The penalty for a person with a shop license, or chemist or druggist permitting liquors sold to be consumed on the promises, is from \$20 to \$50. No person who is not licensed may hold himself out to be so, by any sign or notice. A chemist or druggist must record every sale of intoxinating liquors, the quantity, purchaser's is not licensed may hold himself out to be so, by any sign or notice. A chemist or druggist must record every sale of intoxicating liquors, the quantity, purchaser's name, and the physician's certificate, if any; and a sale not recorded is primal facie lilegal. Drinking liquors, whether sold or not, in licensed premises between 7 p. m. on Saturday and 6 a. m. on Monday, is forbidden, under the penalty provided, except by members of the family or lodgers. The same prohibition is applied to vessels in ports. The penalties enacted against municipal councillors and officers, by 37 V., c. 32. ss. 32 and 32, are in addition to other penalties incurred. Previous convictions unders 35 of that Act may be proved by a certificate under the hand of the J. P., or Clerk of the Peace, or other satisfactory evidence, Conviction may be had as for a first offence, though there were previous convictions, and for various offences on the same day; but the increased penalty can only be inflicted for an offence on a subsequent day, and after information for the first laid. If the first conviction be set aside, the later one may be amended and the lesser penalty only exacted, as for a first offence. The two convictions need not be under the same section or for an offence of precisely the same description. Proceedings to cancel the license may be had before the County Judge, after 3 convictions of the licensee under the Act, although not for an offence precisely alike. Police Magistrate or J. P. may not suspend any penalty or punishment awarded. Prosecutions must be brought in 30 days after an offence. Notice of appeal to the County Court for convictions before J. P. or Police Magistrate, under 37 V., c. 32, s. 35, must be given within 5 days. If in custody, the appellant must remain so, or give security to appear personally to prosecute it and abide the decision. Procéedings to appear personally to prosecute it and abide the decision. Procéedings to appear personally to prosecute it and abide the decision. Procéedings to appear person 35, must be given within 5 days. If in custody, the appellant must remain so, or give security to appear personally to prosecute it and abide the decision. Proof of traffic in liquors by any person emp oyed by, or allowed to act for the occupant of premises, or allowed by occupant to remain on them, is conclusive evidence of traffic with his sanction. Officers, policemen and Inspectors, whose duty it is to prevent violations of the Act, may not only demand admittance to premises where refreshments or liquors are reported to be sold, but search them—and obstructing such search is punishable as ported to be sold, but search them—and obstructing such search is punishable as hindering admission. On information, a J. P. or P. Mag. may issue a warrant, authorizing an officer at any time within 10 days after its date, to force his way into a place where it is suspected there is liquor kept for sale, and break open if necessary, any cupboard or other receptacle: quor kept for sale, and break open it necessary, any cupboard, or other receptacle; and anyliquor found is presumed to be kept for illegal purpose, till the contrary is proved. By laws to increase duty on licenses must be passed before 1st March in any year, and has force till repealed. License duties are to be paid by licensee into bank, and the deposit receipt furnished to Inspector. Checkes on Licens Find are to be tor. Cheques on License Fund are to be drawn by the Inspector and endorsed by the Chairman or other Comr. Fines under

this Act at Clifton also go to License Fund. Wholesale licenses may be granted at any time after the Comrs. have so directed, and become void if a retail trade is carried on upon the premises. The penalties under the License Act may be inflicted for illegal retail sale where the Temperance Act is in force, and a wholesale license must be taken out for the sale of the quantities thereby allowed. Where a new license for a year is refused to a person licensed in the previous year, the old license may yet be extended for a period not exceeding 3 months on payment of proportional duty. In cities the number of licenses prescribed by the Act may be exceeded; also in places of summer resort, one additional license for summer resort, one additional license for summer resort, one additional license for summer resort, one additional license for summer resort, one additional license for summer resort, one additional license for summer resort, one additional ficense for summer resort, one additional ficense for may teret License Districts and appoint Comrs. and Inspectors. Its proportion of the cost of maintaining a License Board in municipalities when a by-law under the Temperance Act is in force, is payable by the municipal authorities so soon as the acct. is audited by the Prov. Treas. and demanded by the Lic. Comrs. No. J. P. who is a License Comr. or Inspector may try any case under the Act in his district; but this does not apply to County Judges.

COURTS IN COUNTY OF YORK.

Chap. 19—The County Court sits for issues of fact and assessment of damages, on 1st Tuesday in December and 2nd Tuesday in May, and the General Sessions of the Peace on the 1st Tuesday in March and the 2nd Tuesday in September. The terms of the County and Surrogate Courts commence respectively on the 1st Mondays in January and April, and 2nd Mondays in January and April, and 2nd Mondays in January and cotober. The L. G. in C. may appoint a short-hand writer for the County Court, payable by fees or quarterly by the County—the City of Toronto paying its share.

CONSTABLES.

Chap. 20.—A County Judge may at any time appoint a Constable for his County, notifying the Clerk of the Peace, who submits the appointment to the next General Sessions, and if by them not cancelled it remains valid. The Judge may suspend a Constable also, till one week after the opening of the Sessions, giving him notice in writing; if he thinks him worthy of dismissal, he reports fully to the Clerk of the Peace, who submits it to the next Sessions for their action thereon. The L.G. may appoint Provincial Constables having authority in all counties or districts.

MORTGAGES AND SALES OF PERSONAL PROPERTY.

Chap. 21.—Provides for the registration of certificates of discharge of Chattel Mortagages where they are registered. Where there have been renewals registered the discharge need only be registered upon and against the last renewal. Assignments also may be registered. The necessary affidavit may be made by the next of kin, executor or administrator of a deceased mortgagee or assignee, or the

assignee if living; but the assignment or several assignments under which he claims must be filed, in case of re-filing of mortgage by the assignee or his representatives.

PERMANENT BUILDING SOCIETIES.

Chap. 22.—These Societies may borrow Chap. 22.—These Societies may borrow upon debentures an amt. which, with all their other liabilities; equals twice their capitalized fixed and permanent stock and their reserve fund. But the total liabilities must never exceed the amt. remaining due on the mortgages held; the former being calculated deduction made of cash in hand or bank; the latter being computed or discounted at an interest at least equal to that they hear or were calleast equal to that they bear or were cal-culated to yield. But holders of deben-tures issued under the restricted powers granted by 39 V. c. 32, must receive notice at the place where they are payable of the intention to use these additional powers; and they can thereupon claim, on giving 6 mos. notice, payt. of those debentures with interest.

DENTISTRY

Chap. 23.—No person not a member of "Royal College of Dental Surgeons of Ontario" shall practice or hold themselves out as authorized to practice dentistry, under a penalty of \$20-the rights of licensed medical practitioners being saved. Penalties are recoverable before a J. P. or in the proper Division Court Proceedings before J. P. to be under 38 V. c. 4, and in default of nayt, of penalty the party convicted may be imprisoned for 1 mo. Penalties to be paid over to Secretary of College. A person contravening this Act cannot recover for dental work done or materials furnished. The College may grant the degree of Master of Dental may grant the degree of Master of Dental Surgery to practitioners of 5 yrs. standing, passing required examinations.

TERRITORIAL AND TEMPORARY JUDICIAL DISTRICTS, &c.

Chap. 24 - The L. G. may direct the C. Chap. 24—The L. G. may direct the C. P. W. to provide one or more gaols or lock-ups in any District or Provisional County. Except for purposes of 31 V., c. 35, and 23 V., c. 24, Muskoka and Parry Sound districts are annexed judicially to the County of Simcoe. The gaols or lock-ups therein are common gaols of the district and of Simcoe, in which persons held for trial may be confined, or persons condemined to imprisonment for not more than 1 mo. or those ment for not more than 1 mo, or those sentenced for longer periods till they may be conveniently removed to the gaol at Barrie. Those in Thunder Bay district are gaols or lockups of that district, and of Algoma, for persons held for trial or sentenced for 2 mos. or under, or until, if under longer sentence, they can be removed to Sault Ste. Marie. In the Provisional County of Haliburton, they are in like manner connected with Victoria, Imo. sentences only being served out in them. But the Court or Magistrate may order direct committal to the gaols at Barrie, Sault Ste. Marie or Lindsay. A County Court Judge for Simcoe may, at the request of the Stip. Magistrate, hold a Division Court in the district, and the Magis-

trate, at the request of the Judge, may hold one in the county. In lieu of other provisions, in previous Acts, it is provided that the Stip. Magistrates, in those districts, have therein the authority of County Court Judges in Division Court matters, and shall perform like duties; but the provisions of law, authorizing the signing of judgment by default for want of a notice disputing plaintiffs' claim, or the garnishment of debts or money demands, do not apply to said Division Courts. An appeal is given from the decisions of Stip. Magistrates to the Court of Appeal under similar conditions as apply to appeals from the decisions of County Court Judges. Provision is made for the registration of Chattel Mortgages in the districts. When the mortgagor or bargainor is resident in a temporary judicial district or not resident in the Province, but the chattels are in such district, the law on the subject applies, the Clerk of the District Court being substituted for that of the County Court. In a territoral district, the Clerk of the first Division Court acts, and 10 days is granted, instead of 5, for the registration In Nipissing, the Clerk of the County Court of Renfrew acts, and 20 days is allowed. Such mortgages already made may be registered to 1st January, 1878. The Act to gointo force on 1st July, 1877; and is not declaratory of application already, or non-applicability of law respecting registration of Chattel Mortgages to such districts. In other than Division Court cases, in Nipissing, the action may be brought and venue laid in any adjoining county, but a court or Judge may order it for trial to another. All writs of execution, for that district, must be directed to the Sheriff of Renfrew, and bind the land and goods from the time they are delivered to him,—the district, for those purposes, being made part of his bailiwick.

LANDS ACQUIRED BY MUNICIPALI-

Chap. 25 Cities, towns, and villages may acquire lands outside their limits for public purposes, but they do not thereby become part of such municipality, but re-main as before.

DRAINAGE.

Chap. 26.—In cases where drainage can only be accomplished by embanking, pumping, or other mechanical operations, a petition of two-thirds of owners is required before action of the council. Works need only to be maintained during places are of council. pleasure of council.

STATUTE LABOUR.

Chap. 27.—The exemption from Statute Labour of a volunteer, may be secured on the certificate of the captain of his Co., instead of the District Staff officer.

PAYING TAXES BY INSTALMENTS.

Chap. 28, -The council of any city, town, or incorporated village, may pass a bylaw, making taxes payable by instal-

LINE FENCES.

Chap. 29—The owner of a division or line fence, forming part of the enclosure of another's land, may not take it down without giving him 2 mos. notice, nor until he refuses, after a demand in writing, to pay therefor the price awarded by the fence viewers.

Chap. 30—Applies Municipal Law to Townships of Hagarty, Sherwood, Jones, Richards and Burns, in District of Nipissing, erecting them into a Township Corporation; and also the Townships of Clara and Maria; and gives power to Lieut. Gov. to annex said municipalities to County of Renfrew.

Chap. 31—Amends Act respecting MUNICIPALITY OF SHUNIAH, conferring further powers on Council, authorizing it to pass by-laws respecting auctioneers, hawkers, ferries, cabs, &c.; applying consolidated Public School Act to the municipality, fixing rate of assessment, and giving power to issue debentures and remit arrears of taxes.

Chap. 32—Gives to MUNICIPALITY OF SAULT STE. MARIE power to pass by-laws respecting auctioneers, &c , and legalizes assessment roll of 1878—4.

Chap. §3 - Incorporates the Town of BELLEVILLE as a city, glves power to issue debentures for consolidating the debt, and declares Collector's Roll of 1876 valid.

Chap. 34-Incorporates the Town of BRANTFORD as a city. Also, provides for the removal of bodies from Mount Hope Cemetery to another at the expense of the Corporation, and sale of the Mount Hope Cemetery.

Chap. 35—Extends and defines the limits of the Town of Orllila, in Co. of Simcoe, making lots in South Orillia to form part of said town, when sanctioned by a vote of rate-payers on those lots.

Chap. 36—Empowers the Corporation of the Village of PORT ELGIN, to sell certain lands, with the consent of the donors of such lands, and apply the proceeds to finishing the Town Hall and erecting school buildings.

Chap. 37—Amends the WATER WORKS Acts of City of OTTAWA, authorising issue of debentures to \$100,000, by the Corporation, by by-law, for their completion, and dispensing with the usual formalities with respect to the by-law, but it must receive the assent of the Electors. Water Comrs must raise annually from Water Rates money to pay the interest on debentures and a sinking fund, the Water Works property to be charged for payment of the debentures.

Chap. 38 - Provides for the erection of a Court House in the City of Hamilton, at the joint expense of the City and the County of Wentworth, according to an agreement set forth in the Act.

Chap 39-Respects the CITY OF TORONTO, the Toronto WATER WORKS and other matters, giving further powers to the

Water Works Comrs., allowing Corporation to assume lands of said Comrs. for city purposes on payment of a certain sum; or if not assumed, lands to be sold. Makes further provisions respecting breaking up of streets by Gas Cos.; allows Corporation to purchase Gas Cos. Works, and gives direction for application of purchase money.

Chap. 40—Legalizes a By-law, 772 of City of TORONTO, for the issue of certain debentures, and directs where and how such debentures shall be payable.

Chap. 41-Legalizes a By-law of County of Simcoe, for guaranteeing certain debentures of the Town of Barrie.

Chap. 42-Legalizes a By-law of Town of Windson, to take a loan for the aid of a line of steamers between that town and Prince Arthur's Landing.

Chap. 43—Gives power to Port Hope, HARBOUR COMRS, to issue debentures, and consolidate the harbour debt, with provisions for sinking fund.

Chap. 44—Enables the corporation of COBOURG to aid the Norval Manufacturing Co. to the extent of \$2,500 out of the Harbour Debentures.

Chap. 45—Authorizes the Town of Dun-DAS to exempt certain property of the ('anada Screw Co. from municipal taxation with the consent of the ratepayers of the town.

Chap. 46-Empowers the Council of the Township of Adelaide to sell St. George's Square, in the village of Adelaide.

Chap. 47—Legalizes a certain survey of lands of Canada Co. in the Township of Bosanquer and McGillivray.

Chap. 48-Legalises certain surveys in the Township of Matilda, but no existing rights shall be disturbed.

Chap. 49-Authorizes Rector and Church Wardens of St. Mark's Church, Ni-AGARA, to sell certain lands, and add the proceeds to Rectory Land Fund of said Parish.

Chap 50—Authorizes Synod of Ontario apply a certain sum of money, held in trust by them, to payment of certain lots bought by St. John's Church, Iroquois, Dundas Co., and empowers Vestry of such Church to raise money on said land by mortgage, for the erection of a Parsonage House.

Chap. 51—Authorizes the Bishor of On-TARIO to raise \$3,500 by mortgage on a certain lot, in the village of Almontr, in County of Lanark, for the erection of a Parsonage.

Chap 52—Authorizes certain lands belonging to St. PAUL'S CHURCH, NEW-MARKET, Co. of York, to be sold for the building of a Parsonage and other needs of the Church.

Chap. 53--Vests in the Rector and Church Wardens of St. Paul's Church, Toron-

To, certain property and lands belonging to that church, makes valid a mortgage on those lands, and authorizes the payment of money raised by such mortgage for building a school house.

Chap. 54-Authorizes the Rector and Churchwardens of the Church of St. AL-BAN THE MARTYR, OTTAWA, to mortgage such lands for any sums of money necessary for the purposes of the church, and renders valid a mortgage already given to Trust & Loan Co. of Canada.

Thap, 55-Enables the Synon of Diocese of NiAGARA to sell certain lands in Township of ARTHUR, Wellington Co., proceeds to be applied to purchase of parsonage site and house in village of Mount Forest.

Chap. 56—Authorizes SYNOD of Diocese of Huron to sell certain lands in Township of WARWICK, Co. of Lambton, and invest proceeds, paying the int. to Rector of St. Mary's Church in said Township, until such time as the vestry shall procure the necessary site for a parsonage, when one-fifth of the principal may be applied to the building of such parsonage.

Chap. 57—Enables Trustees of the PRESBYTERIAN CHURCH of URILITA to dispose of certain lands in Orillia and to remove the remains of the dead from them to a new Cemetery.

Chap. 58-Makes the R. C. BISHOP of Chap. 38—Makes the R. C. DISHOF of HAMILTON a corporate body, vesting in him all lands, tenements, &c., belonging to R. C. Church in the Diocese of Hamilton, with power to borrow money on mortgage, and making valid mortgages already held on such lands.

Chap. 59—Incorporates the "WILLARD HALL, PETERBOROUGH PROTESTANT POOR TRUST"; to be composed of 8 trustees, of different Protestant churches, to hold such trust, invest funds and use the divi-dends for benefit of Protestant poor of the town, who may be bona fide residents.

Chap. 61—Incorporates ONTARIO MISSIONARY SOCIETY of the METHODIST EPISCOPAL Church in Canada, with power to hold land, &c., to the annual value of \$1000 The Corporation to be under the control of the General Conference of the Methodist Episcopal Church of Canada.

Chap. 62-Amends the Act incorporating UPPER CANADA BIBLE SOCIETY, enabling Directors to make grants to the British and Foreign Bible Society and other Socie-

Baptists, and authorizing the raising of a loan not to exceed \$10,000

Chap. 64—Incorporates Alma College. Chap. 64—Incorporates ALMA College, at Sr. Thomas, as a Ladies' College of the Methodist Episcopal Church, with the usual corporate powers; with power to hold property to the annual value of \$5,000, to make by-laws and rules for government of college, &c. The Corporation to be under the control of General Conference of Methodist Episcopal Conference of Methodist Episcopal Church.

Chap.65-Incorporates, as TRINITY MEDICAL SCHOOL, E. M. Hodder, N. Bethune, B. Geikie, J. Fulton, W. H. Ellis, J. E. Kennedy, H. Robertson and J. A. Temple, with power to hold real property to the value of \$20,000, with all powers necessary to continue and conduct a school for medicine, surgery, &c. No religious test to be required. School may affiliate with an University and College of Physicians and Surgeonsmay grant degrees to students. may grant degrees to students.

Chap. 66—Incorporates STANDARD FIRE INSURANCE Co., with a capital of \$1,000,000. Provisional Directors: D. B. Chisholm, J. J. Middleton, T. McIlwraith, Alpheus Beamer, and Robert Duncan. Head office, Hamilton.

Chap. 67—Incorporates "People's Gas Co. of Toronto," for supplying said city and vicinity with gas. Capital \$300,000. Usual powers. Provisional Directors: Hon. A. Campbell, Hon. W. McMaster, J. Maughan, jr., P. D. S. Conger, J. B. Boustead, N. Barnhart, C. J. Campbell, J Hallam, A. Manning, A. B. Leè, P. G. Close, A. Nairn, H. L. Hime, W. B. Scarth of Toronto; C. J. Starling of Belleville, and T. D. Hall of New York.

Chap. 68-Incorporates Industrial Ex-HIBI FION Co., for establishing and holding Industrial and General Exhibitions in the Industrial and General Exhibitions in the Province of Ontario, with power to hold land and tenements to annual value of \$5,000. Capital, \$500,000, with power to increase. Prov. Directors, Hon. W. P. Howland, U.B., Hon. D. L. Macpherson, Hon. W. McMaster, J. Michie, W. H. Howland, T. McCrosson, W. Arthurs, J. Hallam, S. P. May, and P. G. Close.

Chap. 69-Vests the property of the BOTHWELL LAND and PETROLEUM Co. in certain trustees to sell and dispose of the same, and divide proceeds according to directions given.

Chap. 70 - Enables the PICKERING HARBOUR and ROAD Co to issue bonds to the amt. of \$25,000, for improving the Harbour.

Chap. 71—Amends the PREL GENL. MANUFACTURING Cos. Act, giving the co. power to carry on business as Dairy Farmers.

and Foreign Bible Society and other Societies, and to acquire property to the annual value of \$1000.

Chap. 63—Amends Act incorporating CANADIAN LITERARY INSTITUTE of Woodstock, increasing No. of Trustees to 21, of whom two-thirds are to be Regular in the control of the complete of the

lain, W. Ryall, P. Conover, W. Watson, P. Williams, J. Baker, J. Askew, W. Hazleton, G. A. Morse, A. Lamarsh, M. W. Scott, and H. J. Coulson.

Chap. 73—Incorporates the NIAGARA & ST. CATHARINES RAILROAD & STEAMBOAT CO, to construct a railway from Niagara to St. Catharines, or Merritton, and to own steamboats to ply in connection with said railway between Toronto and Niagara. Capital, \$250,000, viz: \$100,000 preferental shares; \$100,000 steamboat scrip; \$50,000 railway scrip. Railway to be completed in 5 yrs. Frovisional Directors: R. Bell, P. J. Close, J. Ginty, P. Patterson, P. A. Scott, J. Silliman, J. T. Bush, C. Brown, R. Struthers, F. Stinson, J. D. Tait, N. Pafford, S. H. Follett, R. Best, J. W. Avery, G. A. Clement, and J. T. Kerby.

Chap. 74.—Amends Acts incorporating PORT DOVER AND LAKE HURON RAILWAY CO., confirming resolutions limiting bonds to \$4,000 per mile, and 2nd issue or bonds to \$125,000, and shares \$100,000; restricting first preference debt to £95,000 stg., and giving Directors certain powers for the issue of new bonds. The purchase of Port Dover Harbour is confirmed.

Chap. 75—Amends NORTH SIMCOE RAIL-WAY Co. Act. Meetings of the co. may be held at Penetanguishene. By-laws granting bonuses are declared valid and binding though the route of the railway is changed from that set forth in them. The Alliston by-law is declared valid. The line may be extended to intersection with the Hamilton & N. Western.

Chap. 76.—Amends Hamilton and N. W. Railway Co. Act, confirming certain agreements made with the township of Innisfi, and alterations in by-laws of City of Hamilton, and County of Simcoe, authorizing issue of new debentures. Trustees holding Collingwood debentures to pay \$690 annually to Town of Collingwood until Collingwood branch is commenced.

Chap. 77.—Amends CREDIT VALLEY RAILWAY Co. Act, confirming resolution of Co. for issue of new bonds and cancelling of old, both issues not to exceed \$2,100,000. Ten years are given for building the road from date of charter.

Chap. 78.—Confirms the settlement entered into between the TORONTO, GRRY & BRUCE KAILWAY 40. and bondholders. Loan capital fixed at \$2,000,600.

Chap. 79.—Amends STRATFORD & HURON cial l RAILWAY Act, authorizing issue of bonds not to exceed \$12,000 a mile, with power to amalgamate with Port Dover & Lake Huron Co.; confirming certain by-laws of sion.

townships of Listowel, Mornington and Elma, extending time for 3 yrs. and giving power to change route, under certain conditions.

Chap. 80.—Empowers the Town of PETER-BOROUGH to grant aid to the Huron and quebec Railway Co., makes valid a bylaw of Town of Lanark and changes the name to "Toronto & Ottawa Rail.way Co.," with power to construct the railway from Ottawa to Toronto by way of Peterborough.

Chap. 81.—Confirms a foreclosure in favour of Debenture Holders of the Conductor of Debenture Holders of the Conductor of the Confirm of the North Marmora Ry. Co., establishing the new Co. and giving power to issue debentures to amount of \$500,000, and extends time to lst July, 1885. Co. are authorized to carry on smelting works at Cobourg, and to acquire land in the town, not exceeding 5 acres.

Chap. 82.—Empowers PORT PERRY AND WHITBY EXTENSION Co. to issue preferential mortgage bonds; confirms by-laws and changes the name to the Port Perry and Lindsay Railway Co., transferring all propety to new Railway Co.

Chap. 83,—Incorporates GUELPH STREET RY. Co., with a capital of \$50,000.

Chap. 84.—Incorporates METROPOLITAN STREET KAILWAY Co. of TORONTO, for constructing and operating street railways in Toronto and adjoining municipalities. Capital \$10.0.0. Prov. Directors--R. Jaffray, J. Shields, N. Dickey, E. Galley and J. Ginty.

Chap. 85.—Amends Toronto Street RY. Co. Act. The Co. need not put down permanent pavement when the city is doing so in a street through which its rails pass, but may call upon the city to do it and pay assessment to the amount of the cost price, not exceeding \$2.50 per square yard. If it choose to lay it itself, it must do so of the same materials as the city uses, within a month after notice. The value of the remaining life of such pavement, so laid down or paid for, must be reckoned among the assets of the Co., if the city assume the road. The Co. maintains the street between the rails and for I foot 6 inches on the outside of each.

Chap. 86 - Extends time for construction of St. Catharines Street Railway, 2 years.

Ckap. 87.—Admits WILLIAM E IDSARDI, of St. Thomas, Co. Elgin, as a Provincial Land Surveyor.

Chap. 88.—Makes verbal corrections in chap. 72, 73, 39 and 67 of the present session.

PROVINCE OF QUEBEC.

(Legislature opened 10th November, prorogued 29th December, 1876.)

SUPPLIES.

Chap. 1-Grants \$1,970,'58 for the services of the year 1877-'78, and \$116,489.38 for 1876-'7.

CON. RAILWAY FUND.

Chap. 2—Forms a Consolidated Railway Fund of all debentures issued or to be issued for subsidy to railways, and unexpended balances on hand from their sale, as well as for the Quebec, Montreal, Oltawa & Occidental Railway. Also municipal debentures or subscriptions, under 39 V., c. 2. From this fund subsidies, &c., are to be paid to railways authorized to receive them. And out of it the L. G. in C. may pay \$3,0,000 to the Q. M. O. & O. Ry., receiving their bonds therefor. And interest on such bonds is to be taken out of the net earnings of the road and paid into such fund until they are paid or released. The L. G. in C. may sell or pledge such bonds for moneys to be raised for Chap. 2—Forms a Consolidated Railway such bonds for moneys to be raised for such bonds for moneys to be raised for subsidies, &c., and to guarantee their payment by endorsement. Whenever the Govt. holds those bonds for advances made, it may exercise all the powers of other bond holders in respect thereof, and will hold like rank and priority as against the revenues of the road.

RAILWAY SUBSIDIES.

Chap. 3.—A further advance of \$1,000 per mile is authorized to the Levis & Kennebec, the Quebec Central, and the St. Francels, Megantic & International Ry. Cos., on portions already built, upon their being placed in good running order, and on completion of future sections; advances may be made which do not exceed \$6,000 per mile built, and leave \$2,000 per mile for the portions remaining to be built. The L. G. in C. may direct the expenditure of the \$1,000 in perfecting a road or paying for right of way, rolling stock, &c. The subsidy to the Montreal, Portland & Boston Ry, is increased to \$4,000 per mile for 56 miles, from Longueult to the Province line, via Chambly, West Farnham & Frelighsburg, (if the co. binds itself to the same rates as those of the Q. M. O. & O. Ky.; to the Waterloo & Magong Ry. on 43 miles, and the Laurentian Ry. on 15 miles. If any subsidized co. abandons or loses its charter, the portion of subsidy remaining unappropriated may be divided between the Levis & Kennebec, 45 miles; the Juebec Central, 52 miles; St. F. M. & L. 53 miles, and the South Eastern from Acton to Sutton, in amts. not exceeding \$1,500 per mile of the uncompleted sections. The Quebec & Lake St. John need not refund the \$48,171 already received for the completion, but must give security for the completion of the second section by lst January, 1881, default in which will involve repayment of advances. The subsidiy is continued to the Missiaquoi & Black River Valleys Ry if the co. c mplete 10 miles by 1st December, 1877. The deben-

tures of a railway co., guaranteed by the Govt., may bear 6 p. c. int., and the L. G. may fix when it shall be paid. Any part of a subsidy already paid may be returned and converted into a guarantee for so much from a date settled with the directors. The Comrs. of the Q. M. O. & O. Ry may guarantee payment to subcontractors under Duncan Macdonald, the contractor for the western section, if appears to the contractor for the western section, if appears to the contractor for the western section, contractor for the western section, if approved; and they may use moneys pro-vided for contingent expenses for construction.

COURT HOUSE-QUEBEC.

Chap. 4—Authorizes the expenditure of \$75,000 on the building of a Court House for Quebee; and for its re-imbursement the L. G. in C. may impose such taxes on proceedings, papers, &c., as may be necessary, to continue till the amt. is refunded.

CONSOL. REV. FUND.

Chap. 5.—The C. R. F. is charged with all loans and debts of the Province, contracted by debentures or otherwise, and the interest on them and sinking fund provided for their repayment.

INSURANCE LICENSES.

Chap. 6 -The Act requiring Ins. Cos. to take out licenses does not apply to accident policies for less than 30 days.

VAGRANTS, &c.

Chap. 7.—For each person committed to gad as a vagrant, or for contravention of municipal by-laws, the local corporation must pay 25 cts. per day.

CONSOLIDATION OF STATUTES.

Chap. 8.—The L. G. in C. may appoint not more than 3 Comrs. and a Secretary to consolidate the Statutes of a general and permanent character of the Province, in-cluding those of the former Province of cluding those of the former Province or Canada applicable to Quebec, and those passed since 1887. They may also suggest amendments. They may add the general Statutes, Imperial and Canadian, affect-ing the Province, (but not within the jur-isdiction of the Provincial Legislature) as well as such treaties, proclamations, O. in C. &c., as may be prescribed by the L. G. in C. They are to report from time to time and submit their work as completed in print; when finished the L. G. submits it to the Legislature.

CIVIL SERVICE.

Chap. 9.—The Civil Service, consisting of Deputy heads, clerks and messengers at the Seat of Government, is divided among the following departments, viz: Executive Council, Prov. Secretary and Registrar with bureau of Queen's Printer, Law Offi-cers of the Crown, Treasury, Crown Lands, Agriculture and Public Works, and Public Instruction. The salary of the Deputy heads begins at \$2000 on appointment and increases by \$100 per an., to \$2,400. Clerks are divided into 5 classes, and a person may be appointed into either. The salaries of the 5th class rise by \$50 per an. from \$600 to \$800. 4th class, by same increase from \$800 to \$1000. 8rd class, by same increase from \$1000 to \$1200. 2nd class, same increase from \$1200 to \$140. 1st class, from \$1400 to \$1600. Promotions from one class to another are not to be made till from \$1400 to \$1600. Promotions from one class to another are not to be made till after 4 yrs. service, except on special order of L. G. in C. Special officers, having technical knowledge necessary for special work, may be appointed at salaries fixed by the L. G. in C. Alessengers receive not more than \$400 on appointment, and may receive annual increases of \$40 up to \$600. rec. iye annual increases of \$40 up to \$600. The Deputy head is given the usual powers under the political head. The latter may give authority to a first class clerk or officer to act as Deputy in such Deputy's absence. The Deputy must report monthly respecting efficiency and assiduity of clerks. The Civil Service board may prescribe examinations and grant certificates for each class. No person may be appointed to the control of the cont for each class. No person may be appointed to such class without that or a higher eq to such class without that or a higher certificate. No appointment is to be made without an O. in C. upon the application of the Deputy, or promoted except on his report. A report of appointments and promotions, with copies of the O. in C., is to be laid before Parlt. at the beginning of each session.

SUPERANNUATION.

Chap. 10.—Pensions may be granted to Chap. 10.—Pensions may be granted to civil servants who become incapable of discharging their duties, or 60 years of age. It is to be calculated on length of service; for 3 to 10 years service, 10-fiftieths to be allowed; for 11 years, 11-fiftieths, and so on up to 35-fiftieths—the maximum. Service in the former Province of Canada counts but interruptions of service are to counts, but interruptions of service are to be deducted. The law is extended to the officers and clerks of the two houses of the legislature. A pension fund is established, moneys belonging to which are invested, moneys belonging to which are invested at interest. 5p. c. of the salary of every clerk for the first 3 years' service is to be deducted and paid into this fund, and 3p. c for each subsequent year, and the Prov. Treasurer adds to fund from the C.R. F. one-fourth of amount of such deductions. Pensions run to 1st day of month following death of pensioner. Full pension is not paid to those who have not contributed for 15 years—but equivalent deductions must be made from payments of pensions till 15 years' contributions are deductions must be made from payments of pensions till 15 years' contributions are secured. After death of a pensioner, half of the pension continues payable to the widow during her life or widowhood. If she be already dead, or afterwards dies or marries again, the half pension goes to the children who are under 18, till they attain that age. Superannuation with pension must be accepted. If one retires voluntarily or because his office is abolished, the sums he has paid in to the fund are returned to him, not if removed for misconduct, &c. A pension is not transferency unless for special reasons the L. G. in C. permit it. If the fund becomes insufficient

to meet the claims upon it, a pro rata deduction is made from all pensions till funds are forthcoming. A pensioner not 60 years of age may be called back to service if able, at the seat of Government or in the district in which he resides. Refusing to serve, he forfeits his pension.

SHERIFFS' SALARIES.

Chap. 11-Provides that the L. G. in C. may make an allowance not exceeding 500 per an. to Sheriffs in districts other than Quebec and Montreal for their services in criminal matters.

DISTRICT MAGISTRATES.

Chap. 12 -These magistrates are given jurisdiction in Trasury cases in which the cause of action arose in the county and the defendant resides in the Province, though not in the district. Where no Judge of the Superior Court resides within the district, te magistrate must reside at the chefitien; but the Act does not apply to those elegady appointed already appointed.

SUPERIOR COURT.

Chap. 18—Gives the Chief Justice, after consulting his colleagues, the right to send a Judge to assist in judicial work in a district where those resident are overworked, or the usual Judge is absent or unable to perform his duties—but this only when the regular district work of the Judge sent permits. In districts where more than one Judge are resident, each must sit in separate rooms to facilitate business. The L. G in C may dispense with a term where business does not rewith a term where business does not require it, or order a special term when required, either of the Superior or Circuit Court. The Judge for Reauharnois takes the Terrebonne district, instead of a Montreal Judge. The Prothonotary exercises the judicial functions which are accorded to him in districts where recorded to him in districts where re-Gorded to him in districts where no Judge is resident, in any of the districts where a Judge, though a resident, is ili or absent.

JUDGMENTS OUT OF THE PROVINCE.

Chap. 14.-In suits on foreign judgments, Chap. 14.—In suits on foreign judgments, the Defendant may set up any plea that he did or might have set up where judgment was originally brought; but if obtained in any other Province of the lominion and the defendant was personally served, or appeared to answer, this cannot be done. In suits against corporations, service according to the law of such Province and the charter of the corporation is held to be personal service. In absence of personal service or appear-

how and when incorporated, and where its principal place of business within the Province is. The declaration must be filed by the President or chief officer or agent within 60 days after this Act came into force, for old Cos., or 60 days after commencing business for a new, and to be renewed at each change of name or chief place of business.

CADASTRAL PLANS.

Chap 16.—When land set out on a cadastral plan is taken for a railway, the Co must furnish a plan thereof to the C.C. L., who, if he find it correct, assigns it C.C. L., who, if he find it correct, assigns it a No. on and amends the cadastral plan accordingly; an entry of the change is also made in the book of reference, and the land ceases to belong to the lot from which it is taken Whenever a subdivision or a re-division plan is deposited, the Registrar enters in the index to immovables against the original No the fact of such new division. The new Nos. given, thereafter become the correct description. When only a part of a lot is subdivided, the remainder is to be called the undivided residue of the original No. The C. C. L. may cause the reference The C. C. L. may cause the reference book of a new division to be published in the Official Gazette.

HYPOTHECS.

Chap. 17.—Art. 2042 of the C. C. is amended, and description of lands by coterminous lands, or the number or name by which it is known, or the No. on the plan and book of reference is made sufficient. Hypothecs are declared valid, though the property is described by ranges and lots not by co-terminous lands.

MUNICIPAL LOANS.

Chap. 18.—Municipal Councils may use sums raised for a sinking fund of a loan in purchase of their debentures, instead of depositing them in a bank.

SAFETY IN PUBLIC EDIFICES.

Chaps. 19 and 20.—The L. G. in C. may make regulations for the safety of the public in theatres, halls or edifices used for public meetings, lectures, performances or amusements, to be published in the Official Gazette, and thereafter to have force of law. Proprietors and lessees of such places must comply with such regulations and procure the certificate of the C. P. W, else the police, either Provincial or Municipal, may prevent their use by the public. If so used, the owner or lessee forfeits \$100.

GAME LAWS.

Chap. 21-Consolidates the game laws.

ing the close season. Woodcock, snipe, wild swans, wild geese or wild duck of any kind, are not to be shot at, hunted, taken or killed between I hour after sunset and I hour before sunrise. Trapping or spearing of any prot cted bird or animal, except hares, is prohibited, as is the setting of any engine for the purpose. Any person finding one set may seize and destroy it. The disturbing, injuring or gathering the eggs of wild lowl is prohibited, and boats, &c., engaged in gathering may, with the eggs, be confiscated Close time for wild cat, martin or pekan, from 15 April to 1st Nov.; for mink, 15 April to 1st Nov.; for mink, 15 April to 1st Nov.; for mink, 15 April to 1st Nov.; for mink, 15 April to 1st Nov.; for month, 15 April to 1st Nov.; for Nother, 15 Apr ness is sufficient. Certiorari is taken away in those cases, but an appeal, as under the Municipal Code, is given to the Circuit Court. Prosecutions must be brought within 12 mos. The C.C. L. is to appoint officers to enforce the law. Persons may procure permits to take birds or animals or eggs during the season, for scientific purposes, but must, within 2 mos., make a return, under oath, of what they have so taken.

PUBLIC INSTRUCTION.

Chap. 22.—The Act 29 V., c. 11, allowing school corporations to collect taxes is repealed. The trustees of Dissentient Minorities are made corporate bodies by the title "The Trustees of the Dissentient Minority of the Municipality of in the County of in the County of Their former proceedings, unless quashed by the Courts, are declared valid. Under authorization from the Superintendent, Municipalities and School Corporations may not only appropriate revenues, but issue bonds or debentures to raise loans to support libraries in any city, town, vil-Chap. 21—Consolidates the game laws. Close time for elk, moose, cariboo, deer, or hares, ist Feb to 1st Sept.; for grouse, ptermigan, partridge, woodcock, or snipe, 1st March to 1st Sept.; for wild swan, lst May to 1st Sept. for places and teal, 1st May to 1st Sept. for places west of Three Rivers; 15th May to 1st Sept. for places east. Inhabitants of places east of the "Brandy Pots" and Committee of the Council of Public Instruction, these to be pulished in the "Journal of Education" and Journal any of these protected animals, &c., durof a teacher under C. S. L. C., c. 15, s. 22, the costs may be recovered at law, the Comrs' certificate being proof. The teacher's diploma, &c, may be restored to him, if after 2 yrs. he shows to the proper committee that his conduct has merited it The proper committee may direct enquiry into charges against an Inspector, of bad conduct, immorality, intemperance or serious neglect of duty, the documents to be forwarded to the L (G. in C. with a recommendation of disthe documents to be forwarded to the L G. in C. with a recommendation of dismissal if the charges are made out. If dismissed, an Inspector cannot be re-instated. The meetings to recommend persons to be School Comrs in default of election at the proper time, provided by C. S. L. C., c. 15, s. 36, is done away with The maximum amt to be raised to build an Academy, High School or Model School is \$3,000, for an Elementary School \$1,000. But they are to be built on plans School is 3,00, for an Elementary School \$1,500. But they are to be built on plans approved or furnished by the Superintendent, and he may authorize a larger expenditure on request of the local authorities. An appeal to the Superintendent is given to the ratepayers, in case of neglect of the Trustees or Commissioners to choose a school site or make alterations in districts as well as when their action is disapproved of. His decision is final Parents are not exempt from monthly contributions for blind children, but are for those attending a classical course, or for those attending a classical course, or being boarders for the year in a college or similar institution, though it be within the municipality. The amendments to the assessment roll must be made during the last 10 days of the 30 during which it lies for inspection in the hands of the Secretary-Treasurer. The Comrs. or Trus-tees must give notice of the day on which they will proceed with the revision, and even if no complaint is made, must revise and correct any error found in it. They must hear and determine all complaints must hear and determine an companion by ratepayers. Amendments are to be made upon it or a separate paper annexed to it and vouched by the initials of the Sec. Treas.—a certificate of the accuracy of Sec. Treas.—a certificate of the accuracy of all amendments being signed by the Chairman and Sec Treas. In 20 days after the expiry of the 30, the Secy. Treas. may proceed by suit or distress to collect the rates. In the latter case a demand in writing must be first made Service on non-residents may be made through the post by means of a registered letter. Is days after means of a registered letter. 15 days after service, if rates and costs are not paid, he service, if rates and costs are not paid, he may proceed to levy by seizure and sale of goods and chattels, under a warrant signed by the Chairman and served by a bailiff, who executes as in other cases. Opposition by the ratepayer may be made, supported by affidavit, before the Circuit or Magistrates Court,—he making a deposit of \$5, or amt of assessment if less. A list of unpaid rates is to be made out each year by the Secy. Treas if required, shewing also the lands liable forsaid rates, it approved by the Comrs. or Trustees, it is shewing also the lands liable for said rates. If approved by the Comrs. or Trustees, it is sent to the Secretary Treas. of the County Council, and he proceeds with sale of lands as for other taxes. When a judgment is obtained against a school corporation ti is to be paid out of unappropriated moneys, or, if there are none, application is made by them to the Superintendent to authorize the levying of a special rate to pay it. If he grants it, the money is levied as other rates and paid over. On

his refusal, or the neglect of the Comrs. or Trustees, the party may obtain a Writ of Execution from the Court, which will accord any necessary delay to the Superintendent or Trustees or Comrs. to levy and raise the money. Thereafter the writ of execution leaves and any move the second and raise the money. Thereafter the writ of execution issues, and any movables of the corporation may be seized and sold. If there be none, or they do not realize a sufficient amt., an alias writ issues to the Sheriff, who procures the municipal assessment roll, or in default of that makes one, and levies the amount required by assessment upon the rateable real estate in the school municipality. He gives notice of the assessment roll made by him, as is done in other cases, and hears and decides upon complaints,—the 2 delays af 20 and 30 days being allowed. After that he may levy by sale of the effects of the ratepayers, and where movables are insufficient he levies on lands on the 1st Monday of the next March as for municipal assessments. When land is advertised for sale by the Sheriff and Secy. Treas, on the same day, the latter hands over his claim to be levied by the former. Redemption of lands is to be made with him or he gives. levied by the former. Redemption of lands is to be made with him or he gives the deed. When his proceedings are comthe deed. When his proceedings are com-pleted he hands over his assessment roll to the Comrs. or Trustees, paying any sur-plus he has collected. Any arrears on such roll belong to and may be collected by the school corporation. If judgment such roll belong to and may be collected by the school corporation. If judgment is for building a school house, only part of the municipality being liable, that shall be set forth in the proceedings. Real estate owned by the school corporation, other than school houses, may be seized and sold, and movable effects in hands of third parties, or debts due by them, may be attached. Before examination of a better than school when the school control of the school of third parties, or debts due by them, may be attached. Before examination of a teacher the candidate pays to the board of examiners \$2 for a model or elementary school certificate, and \$3 for an academy diploma—not to be returned if he falls. \$1 goes to the Secy. Treas, and the balance to pay expenses of board. In proceeding to recover the fine of \$5 to \$20 per day imposed on a Comr., Trustee or Secy. Treas, refusing to deliver up, on retirement from office, anything in his hands belonging to such Comn. or Trust, all penalties incurred may be sued for in one action, coupled with a demand for the articles so detained. A bailiff is to serve the preliminary demand and make his return to the Superintendent. The defendant may be sentenced io imprisonment in default of payt. of fine or delivery of the articles claimed. Actions are to be brought in the Superior Court in the name of the Superintendent; and moneys recovered, after deduction of certs and expenses. superior court in the name of the Super-intendent; and moneys recovered, after deduction of costs and expenses, go to the Common School fund. The Protestant portion of the Council of Public Instruc-tion consists of 8 members. The two Committees may make by-laws and regu-Committees may make by-laws and regulations respecting board of examiners, to be sanctioned by the L. G. in C., and published in the official educational journals School teachers are to be paid half-yearly, and the government grant is only to be paid on the report of the Secy. Treas. to that effect. The school Comrs, Trustees or Secy. Treas. incur a penalty of \$20 for neglecting this. When the depository is established, schools shall be furnished from it with books, maps and ordinary school furniture. The Comrs. or Trustees make a requisition in July or August each year fo the supplies needed, which are supplied to and distributed among the children at cost. Regulations are to be made on the subject by the Superintendent, and sanctioned by the L. G. in C. Drawing is to be taught in schools where practicable. The Council of Arts and Manufactures are to draw up rules for and settle the method of such teaching, to be approved by the Committees and published by the Superiutendent in the official educational journals. Each member of educational journals. Each member of the Council of A. & M. is made a school visitor for schools of his faith in his munivisitor for schools of his faith in his municipality, and the Prov. Secy. and Superintendent of Education are made carofficion members of that Council. The Superintendent may sue a Secy. Treas. to compel him to account or amend his accounts after first giving notice to the Comrs. or Trustees, and giving them time to do so. He may also sue to set aside agreements on the subject between such Trustees or Comrs. and their Secy. Treas. and intervene in any action between such Trustees or Comrs. and their Secy. Treas, and intervene in any action by them against him; and he may bring the streties of the Secy. Treas. Into any action he brings against him. Proceedings, when necessary, are at the cost of the Comrs. or Trustees. The Superintendent may sue Comrs. of Trustees for a teacher's salary, and collect and pay it over. He decides upon the form in which the books of account are to be kept. When a school municipality is formed out of several decides upon the form in which the books of account are to be kept. When a school municipality is formed out of several municipalities unequally rated, the Comrs. or Trustees shall cause a new assessment roll to be made by 3 assessors appointed by them. When made, it is deposited with their Secy. Treas. for 20 days and thereupon, unless objected to, becomes ipso fucto in force But the Comrs. or Trustees may amend it after giving 8 days' notice of the day on which they will do so. This is the basis of the assessment roll until the rural municipality makes one according to law. basis of the assessment roll until the rural municipality makes one according to law. In case of a division of a school district, or where a portion of the rate-payers become dissentient, that portion in which the school house is, in one case, or the majority in the other, retain the school house, paying the others their share of its value, paying the valuation made by Sparties chosen. paying the others their share of its value, upon a valuation made by sparties chosen, with appeal to the Superintendent from their decision. The Superintendent is exometric visitor of the Schools of Arts and Manufactures. To be appointed inspector a person must have taken out his certificate or diploma as teacher and taught for 5 yrs. and discontinued teaching for not more than 5 yrs, and passed an examination before a Committee of Council, under regulations adopted for that purpose and

and R. C. Comrs. for Montreal Upon such report he awards diplomas to those found qualified, as civil engineers, mining engineers, mechanical or industrial engiengineers, mentanticator industrial engineers—the names to be published in the Official Gazette. Examinations passed by present pupils before the school authorities will count with future examination for a diploma. The appointment of principal and professors rests with the R. C. Comrs. of Montreal subject to ratification of Superintendent. of Superintendent.

SCHOOL FXHIBITIONS.

Regulations may be made and published and comrs appointed by the L. G. in C. to conduct School Exhibitions

Chap 23 - Makes special provision for separate school boards in sherbrooke, similar to that for Montreal and Quebec.

NOTARIAL PROFESSION.

Chap. 24.—In addition to the other penalties imposed on N. P., practising as such while also in practice as a surveyor, advocate or physician, or holding office as prothonotary or sheriff or registrar or deputy of either, are to be those styled "disciplinary penalties." Deeds executed by N. P. not on the list are nevertheless well-despendent of the holes may be a second. ed by N. P. not on the list are nevertheless valid, except in the above mentioned cases. To elect a member of the board at least 5. N. P. must be present. Nonpractising N. P. may not sit as members of the board. In case of a vacancy caused by a member ceasing to practice the board fill the vacancy at the next meeting. N. P. appointed Registrars before 1st Jany., 1874, and therefore allowed to practice, may have their Notarial in the Registry Office.

LAND SURVEYORS.

Chap. 23.—The University course is allowed to count, although the prescribed preliminary examination has not been previously passed by a student or apprentice. It may be passed during the 1st or 2nd yr. of his course. Until 28th | recember, 1876, a shortened term of apprenticeship is allowed to persons holding commissions in the Royal Navy, Royal Engineers, the French Marine or corps desingenieurs des ponts et chaussies, or ingenieurs militaires.

THE MEDICAL PROFESSION.

Chap. 26.—All previous Acts on the subject are repealed. All medical practitioners in the Province are incorporated tion before a Committee of Council, under regulations adopted for that purpose and published. Teachers not intending to continue their engagement after the expiry of the year must give 2 mos. notice.

POLYTECHNIC SCHOOL, MONTREAL.

The Polytechnic School of Montreal is under control of the Superintendent according to agreement and programme agreed upon with the R. C. Comrs. there. Annual reports are to be made to him confirming it by the principal or an e-aminer appointed by him, including an account of receipts and expenditure. 2 or more examiners are to be commissioned by the L. G. in C. to examine the pupils annual for the C. Comps. There are the composition having the right to hold real estate of the value of \$20,000. There are to be 40 Governors, 15 elected from the District of Quebec; 18 from Montreal; 3 from Three Rivers, and 3 from St. Francis. 8 (of the 19) from the City of Quebec and 8 (of the 19) from the City of Quebec and 8 (of the 19) from the City of Montreal; of these 16, 8 (or 2 each) to represent McGill, Laval and Bishop's College Universities, and the McGill School composition having the right to hold real estate of the value of \$20,000. There are to be 40 Governors, 15 elected from the District of Quebec; 18 from Montreal; 3 from Three Rivers, from the City of Quebec and 8 (of the 19) from the City of Montreal; of these 16, 8 (or 2 each) to represent McGill, Laval and Bishop's College Universities, and the McGill School composition account of receipts and examiners are to be commissioned by the L. G. to examine the pupils annual.

L. G. The Province of Quebec, "the corporated as "The College of Physicians and Surgeons of the Province of Quebec, "the corporated as "The College of Physicians and Surgeons of the Province of Quebec, "the corporated as "The College of Physicians and Surgeons of the Province of Quebec, "the corporated as "The College of Physicians and Surgeons of the Province of Quebec, "the corporated as "The College of Physicians and Surgeons of the Province of Quebec, "the corp

baska; St. Francis that of St. Francis; baska; St. Francis that of St. Francis; Montreal the remainder of the Province. Governors are elected for 3 yrs., but may resign. Vacancies by death or resignation from a University or Medical School are notified to such bod'es, who fill them; if from the cities or districts, the Board State from the cities or districts, the Board if from the cities or districts, the Board fills them from qualified parties in the city or district. The Governors form the Provincial Medical Board, and no person may practice medicine, surgery or midwifery without its license. Holders of diplomas in medicine from one of the above institutions may obtain the license without examination, and the privilege may be extended to the holders of diplomas of other British or Colonia universities or colleges. Persons admitted to study must take out a certificate of qualification, and a diploma will not be sufficient for license unless such certificate was taken out, or an equivalent preliminary examination passed. The preliminary examination passed. The subjects are to be English, French, Latin, subjects are to be forgish, reference, algebra, geography, history, arithmetic, algebra, geometry, belles lettres, and either Greek or natural or moral philosophy. Four examiners are to be Greek or natural or moral philosophy. Four examiners are to be appointed each 3 yrs. by the Board, to conduct such examinations—one English and one French at both Montreal and at Quebec. Persons without diplomas must pass an examination before the Board before being licensed to practice. The Board of Governors regulate the studies and their duration neces. fore the Board before being hierased to practice. The Board of Governors regulate the studies, and their duration, neces sary for license, and the age at which it may be obtained; examine credentials presented and identify the candidate as the person to whom they were granted—examining him under oath; cause all practitioners to register their names, residences, &c. in the books of the college; provide the period at which a member becomes eligible to a governorship—to be not less than 4 yrs. after joining; they also provide for election of a President and officers, and generally pass by-laws for the regulation of the affairs of the College, which become law after approval by the L. G. in C. As the Provincial Medical Board, they make regulations for the examiners and examinations, the curriexaminers and examinations, the curriculum and duration of study, and settle a tariff of fees for practitioners. They may also appoint 2 licensed practitioners, not teachers in such institution, to assist at the examinations of each of the above colleges, &c., and report thereon. If any be found unsatisfactory, the diploma of such institution may be refused until the such institution may be reinsed until the examination is amended. For this purpose the institution most give the board 1 mos notice of examination. The medical board also fixes fees of examiners, cal board also fixes fees of examiners, assessors, &c., of candidates for study, for licenses and for registration—such fees to be disposed of for the benefit of the colege. The qualifications for license are —the qualifications for license are—that the candidate is 2! yrs. of age, has continuously studied for 4 years, and has attended at some university or medical school in H. M. dominions, 2 six most courses of lectures in general or descriptions of lectures in general or descriptive anatomy, practice of medicine, midwifery, chemistry, materia medicine and clinical surgery; a 6 most course or two 3 most courses of medical jurispru-

dence, one 3 mos. course of botany, and a course of 25 demonstrations on microscopic anatomy, physiology and pathology; also the general practice of an hospital with at least 5) beds and 2 or more attendant physiciaus or surgeons for a year and a half or 3 periods of 6 mos. each; that he has attended 6 cases of labour, and compounded medicine 6 mos. A 6 mos course consists of 120 lectures, except in clinical medicine, clinical surgery and medical jurisprudence. Three of these courses must be taken at an institution recognized by the board. The gery and medical jurisprudence. Three of these courses must be taken at an institution recognized by the board. The board makes regulations also for admission of midwives. Members pay a fee of \$2 per an. to the board. The board appoints a registrar who keeps the register of all members, which is always open to the inspection of practitioners. Only those therein mentioned are entitled to practice. The present holders of licenses are to register within 1 yr., paying a fee of \$1. While not registered a person is liable to all penalties of practicing without license and a fine of \$5 per an. He cannot collect accounts for services, nor is any certificate given by him valid. No person convicted of felony shall be registered; if registered his name shall be struck off. Persons practising without legal authority are liable to a penalty of \$25 to \$100 on summary conviction before the Sheriff, District Magistrate, Recorder, or Judge of Sessions. A like penalty is incurred for assuming the tille of doctor, physician or surgeon, &c., or giving himself out as such. The onus of proof of registration lies on the party prosecuted. The judge may grant costs, and order imprisonment for 30 days in default of payt. Prosecutions may be brought by or in the name of the College, or by any person authorized by the Provincial Medical Board. In the former case the fine goes to the College; in the latter the board may transfer the whole er case the fine goes to the College; in the latter the board may transfer the whole or part to the prosecutor. Members are competent witnesses. A copy from the register signed by the Registrar make proof as the original. The rights, powers and property of the old College is transferred to the new. This Act is not to interfere with the rights of homeopathists under 28 V. c. 59 and 29 V. c. 95.

AMENDING ACT.

Chap. 27-Amends various Acts of previ-

Chap. 27—Amends various Acts of previous sessions.

The term "Parliamentary elections," in 38 V., c. 7, means elections to the Legislative Assembly. The term "Parliamentary," 9 V., c. 42 & 43, is declared to refer to Legislative Assembly elections. The penalty for a Secy. Treas, who, in making up the volers' list, refuses or neglects to make corrections, wilfully inserts or omits names, is \$00 or imprison-

The powers given to the corporation of Three Rivers under 33 V., c. 76, extend to authorize, under restrictions, the sale of liquors, not to prohibit, and subs. 4 of s. liquors, not to prohibit, and subs. 4 of s. 79 is repealed, as dealing with matter of criminal law. Also subs. 4 s. 33, of the Act incorporating Sherbrooke. So in case of powers granted to corporation of Hull; and the clauses respecting ferries to Ottawa and Templeton in the latter case are repealed. And the clause in the Act incorporating Lachine, which professes to grant power to the local police other than for the enforcement of corporation by-laws is repealed. The Canadian Pacific Bailway.

Full accounts have been given in previous volumes of the Year Book, of the progress made with the Canadian Pacific Railway Now we have in an authentic form, the result of the several surveys up to the spring of 18.7, in the very elaborate report with appendices of the Chief Engineer. The surveys cover a period of six vears, at a cost to the Government of \$3,136.613.75, and they may, in themselves, be called a marvel of their kind. They have established, not only the perfect feasibility, but the fact of an extremely satisfactory line, from the head of St. Lawrence navigation, on Lake Superior, to the Tête Jaune Cache, on the western side of the great Continental "divide" in the main Rocky Mountain divide" in the main Rocky Mountains. Its highest point of elevation is 3:25 feet above the sea, against 8:42 the highest level actually traversed by the Union and Cantral Pacific Kailway from maha to San Francisco. That is an altitude of much more than double that of the Tête Jaune or Yellow Head Pass. This is, however, only a small part of the advantages of the Canadian line in respect to altitudes, as we shall presently show, from a comparison with the numerous heights actually successfully traversed by the Americanline. The length of the various lines surveyed and routes explored by the Engineering staff of Mr. Fleming, is 48,000 miles, of which, no less than 11,500 miles have been laborlously westerd, yard by yard

yard by yard
On that portion of the line located west
of Lake Superior. for a distance of 1,500
miles, the gradients are exceedingly fav-

ourable. Out of 1,500 miles 1,200 miles will be level or with gradients under 26½ feet per mile, and no portion of the remainder will rise over 53 feet per mile.

The following figures are taken from a diagram published with the Report of the Chief Engineer, showing the different altitudes of the line of the Canadian Pacific, and those actually crossed at corresponding distances by the American line the "Union and Central Pacific"; the former starting at Fort William, the head of Lake Superior, the latter at Omaha, the distances being given in sections of 100 miles, going from East to West, until the Pacific Ocean is reach-

San Francisco and Port Moody, at the head of Burrard Inlet, next come, very

nearly at sea level.

The Canadian line is thus out of all comparison in a more favourable position for cheap transportation than the Union and Central Pacific now in actual operation in the United States. There is, as before shown, no gradient in either direction be-tween the Lake Superior terminus and the Tête Jaune Cache on the west side of the Tête Jaune Cache on the west side of the Rocky Mountains exceeding 1 per 100 or 52.8 feet per mile, and, with one single exception, at the crossing of Nouth Sas-katchewan, the heaviest gradient as-cending eastward from a point near Battleford to Fort William, is only 0.5 per hundred, or 26.4 per mile; and this loca-tion may be revised. These are about half the gradients of the Grand Trunk and other railways in actual operation in the alder provinces.

other ranways in actual operation in the older provinces.

As far as regards snow obstructions it appears, from tables compiled by Profesor Kingston, from 3 years observations in the Rocky Mountains, that in some of the the Rocky Mountains, that in some of the passes and river valleys snow may average from 4 to 5 feet in depth, but in the general fall the average is far below that of Ottawa, Quebec and Montreal; while east of the Rocky Mountains, between Jasper Valley and Edmonton, it does not much exceed half that of Ottawa. With respect to the cold, though the Autumn is more severe in the Rocky Mountain district than in Ontario, Quebec and the Maritime Provinces, yet the winter itself compares favourably with Eastern Canada. On other portions of the line the general snow fall is less than that of Ottawa.

It is not at present proposed to make

It is not at present proposed to make the line continuous to Montreal, but to make a connection with the United States lines for winter traffic. But the line from Selkirk to Ottawa direct, as proposed, will make the distance, in winter, less by 670 miles. This connection will undoubtedly very soon be made after the country between Lake Superior and the Pacific Coast becomes populated. The woodland region around and to the east of Lake Superior is known to be rich in It is not at present proposed to make

woodland region around and to the east of Lake Superior is known to be rich in mineral deposits, which may, ultimately, when they are developed, afford considerable traffic to the road.

The Prairie Region from its great adaptability for wheat culture, will probably, at an early day, be the seat of a very large population, and the line has been especially located with the view to obtain the lightest possible gradients and the easiest curvature, with the intention of obtaining the absolutely best conditions of traffic for the absolutely best conditions of traffic for

the future. The extent of cultivable land between Lake Superior and the Rocky Mountains is stated in the report of the Chief Engineer, to be 160,000,000. The total average under cultivation in the Province of Ontario is under 7,000,000. There are drawbacks to the settlement of the North West which claim recognition, but there cannot be any doubt as to the salubrity of the climate and the great fertility of the soil; and it is undoubtedly capable of sustaining a large population.

son; and its undowned to take the route taining a large population.

The question of greatest difficulty to be yet finally settled is to decide the route from the continental "divide" at the from the continental "divide" at the ever cost, but at present that work is too Yellow Head Pass to the Pacific Ocean; or formidable.

whether to take it in a more northerly direction through the Peace River coun-try. No less than eleven different routes have been projected from the Yellow Head Pass to the coast, ten of which have been measured, the routes varying from 461 to 560 miles. Route No. 1 to Burrard Inlet is the shortest. But Route No. 2 to the same the shortest. But Houle No. 2 to the same Inlet appears to have the most decided advantages. The estimated cost of building the road by these several routes ranges, in round numbers, from \$30,000,000 to \$40,000,000. That (No. 2) to Burrard Inlet being \$35,000,000 These estimates are founded on work of the character of that of the Intercolonial Railway. The expenditure might be reduced by the introduction of timber trestle work in the place of tion of timber trestle work in the place of solid earth or rock embankments, and the use of temporary structures.

use of temporary structures.

As regards the characteristics of the Ral'way, in view of its capacity for business and the cost of maintaining it and operating it, the Chief Engineer states there can scarcely be a doubt that route No. 2, terminaing at Burrard Inlet, is the best. As regards the present local traffic, the present population of British Columbia, could do very little towards maintaining the road; and therefore, the questions are as to the probabilities of the best future advantages. The data collected, by inquiry made by the Geological Survey, establish the existence of great mineral wealth in British Columbia, and the opinion is expressed by the Geological Officers of the Gov't. that the fact will rather surpass than fall short of the estimates given. The agricultural resources of the Province are also very considerable. It is found that there is gold throughout the whole Province, from the extreme northern boundary.

As regards the Harbour of the terminus with evicer to through traffic inform. As regards the characteristics of the

As regards the Harbour of the terminus As regards the Harbour of the terminus with a view to through traffic. Information was taken from a number of Her Majesty's officers having acquaintance with the coast. The deductions from the statements of these officers appear to be that the River Skeena is the nearest to the Asiatic Coast, but the naurtical advantages of a terminus in that quarier cannot be decidedly stated, as he waters have not been properly surveyed. But so far as known, Burrard Inlet, an arm of the Strait of Georgia, and particularly English Pay, at its mouth, is the best harbour and has the easiest approach from the ocean. It is, however, to be re marked that the most important islands of the St. Juan group are now in the posmarked that the most important islands of the St. Juan group are now in the possession of a foreign power, and they are in a position to assume a threatening attitude towards passing commerce. This question is ultimately governed by the further one of power to maintain. Except trerefore, for some question which may arise respecting an altogether more Northern route, the route from the Yellow Head pass to Burrard's Inlet has the mest advantages both as relates to the Line itself and the Harbour on the Pacific. The Chief Engineer states that in fu'ure years when British Columbia shall be thickly noulated and its great mineral wealth fully developed, that it may become necessary to make a Rallway to the outer shore of Vancouver Island, at whatever cost, but at present that work is too

Judiciany of the Dominion.

SUPREME COURT OF CANADA.

This Court established by 38 Vic., chap. II, is composed of a Chief Justice and five Puisné Judges, five of whom constitute a quorum. It has an appellant, civil and criminal jurisdiction within and throughout the Dominion, from every Court. In cases from Quebec, the subjects in dispute must be \$2,009 and over. The Court has also orignal jurisdiction in exchequer matters and in disputes between provinces. (Secs. 54, 55, 56, 57, 58, &c) Chief Justice—Hon. W. B. Richards; Puisne Judges—Hon W. J. Ritchie, Hon. S. H. Strong, Hon. J. T. Tascherean, Hon. Telesphore Fournier, Hon. W. A. Henry. Redistrar—R. Cassels, jr.

ONTARIO.

COURT OF ERROR AND APPEAL.

Constituted for the hearing of appeals in civil cases from the Court of Queen's Bench, Chancery and Common Pleas; and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the Judgment of the Court, an appeal lies to Her Majesty in Privy Council, in cases over £1,000 or where annual rent, fee or future rights of any amount are affected. Judges—Hon. Thos. Moss, Chief Justice of Appeal in Ontario; Hon. G. W. Burton, Hon. C. B. Patterson, Hon. J. D. Armour. Registrar—Alexander Grant.

COURT OF QUEEN'S BENCH.

The jurisdiction of the Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine the issue of law, and also with the inquest of twelve good and lawful men (except in cases otherwise provided for) try all issues of fact, and give judgment and award execution thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. Chief Justice—Hon. R. A. Harrison. Putsne Judges—Hon. Jos. C. Morrison, and the Hon Adam Wilson. Clerk of the Crown and Pleas—Robert G. Dalton, Esq., Q.C. Senior Clerk and Taxing Oficer—Alexander Macdonell. Junior or Docketing Clerk—John Small. Crier and Usher—Andrew Fleming.

COURT OF COMMON PLEAS.

This Court has the same powers and jurisdiction, as a Court of Record, as the Court of Queen's Bench. Writs of summons and capias issue alternately from either Court. Chief Justice—Hon. John Hawkins Hagarty, D.C.L. Putsne Judges-

Hon. J. W. Gwynne, and Hon. Thomas Galt. Clerk of the Crown and Pleas for the Common Pleas-Monsell B. Jackson, Esq. Senior Clerk and Taxing Officer-S. B. Clark. Junior or Docketing Clerk - B T. Jackson. Crier and Usher-P. Connell.

COURT OF CHANCERY.
