To Share In My Free Medicine Gift:-

You are the fortunate one in your locality who will be given an opportunity to profit by my new plan for helping the sick. It would cost me hundreds of thousands of dollars to give to every sick person in this country what I'm going to offer you. Therefore, I cannot afford to let everybody share in my generous offer. So I'm choosing just a few names in each locality, in order that the good results which will develop from my gift can be spread all over the entire country.

During my twenty-eight years' experience as a physician thousands of sufferers from Uric Acid Diseases, such as Rheumatism, Kidney Trouble and Bladder Trouble have been benefitted by my remarkable medicine. Scores upon scores of sufferers from serious diseases, who had given up all hope after trying other medicine, reported a complete recovery from mine. Hundreds of men and women who complained of catarrh, general debility, nervousness, stomach and liver trouble, indigestion, etc. have found that they also had a Uric Acid Disease which was quickly relieved by my remarkable medication.

And it's this great medicine which has accomplished all this good, that I am now going to offer to you entirely free of all charges and obligations - absolutely free in every way. Thousands of Dollars have been set aside to make my free distribution plan possible. And YOU are one of the FIRST ones to hear of my plan.

All you have to do to get some of this free medicine is to answer the questions on the enclosed blank and mail it to me in my private envelope furnished herewith. I ask you to do this merely to show me that you are in need of the medicine. You pay no money and are under no obligations for taking it. All I ask in return is that you tell any friends who may be suffering where you got the medicine that helped you.

In addition to the free medicine, I will also send you free of charge, a copy of my great medical book - the largest, and most interesting book of its kind ever published. It describes the diseases that I treat and explains many things you would like to know. REMEMBER this liberal free offer may not last long. An immediate reply will positively bring the medicine free, so fill out the enclosed blank and mail it at once - RIGHT NOW while you think of it, and thus put an end to your worries and pains.

Yours for Health and Happiness
Dr. T. Frank Lynott.

Biographical Sketch of Dr. Lynott

Dr. Lynott has been treating chronic uric acid diseases—kidney troubles, bladder troubles, rheumatism and their complications—continuously for more than a quarter of a century, which is a very long time indeed. He has met with a success that few have attained. It is for the purpose of bringing his help within the reach of all—which heretofore has been too exclusive for the masses—that his much praised medicines are now offered free to the sick to make a test of them without cost to themselves. Never before has the skill of such a man been offered in this liberal way.

Dr. Lynott and his medicines have a world-wide reputation. He is said to have a larger following in the States than any other man in his specialty. Canadian people who are taking his medicine can be found in every part of the Dominion. His medicine is used in practically every civilized country on the face of the globe. There are thousands who praise him in the countries of Continental Europe. The demand for his medicines in Canada has now become so large that he has opened offices here, and his Canadian depot will be in Toronto, at 31 Queen St., West. Those writing to this address are assured prompt and careful attention, and they will be dealing in Canada in the Canadian way.

Dr. Lynott is a learned man, a collegian of honor, and has twenty-eight years' medical experience. His medicine has a record of conquered cases that can well be claimed by far the largest of any medicine ever compounded for Uric Acid Diseases.
