1107 TRADERS BANK BLDG.

TORONTO, ONT.

## WORTH BUT HALF WHAT HE WAS YESTERDAY !

He carried insurance on what he thought he was worth one, two or three years ago.

He did not realize that rising costs had increased the worth of his home many times.

He forgot that furniture now sells for more than he paid.

He failed to consider what his home would cost to replace.

And now, after the fire, he finds that his insurance will only half replace what he possessed in view of constantly advancing costs for material and labor.

### IMPORTANT !

Cover your risk on present valuation. Proper protection costs little more than half protection. Fire insurance rates now figure one-quarter lower than four years ago.

Suggestion — Don't gamble on fire another minute. The danger of fire is nearer than you have ever suspected.

Write or phone us for information that will surely benefit you.

# What if this were YOUR HOME?

THAT question is enough!  
If you are already insured you say "I am protected against loss by fire." But if you are not insured, what is your answer then?

There is no room for argument on such a subject, no excuse, in these days of moderate premiums, for the man who fails to protect his home and family against the ravages of fire.

If you are not insured, write or call on us to-day.

Pay your few dollars of premium, and rest easy in your mind for three years to come.

The Dominion of Canada Guarantee and Accident Insurance Company offers you this protection and awaits your answer.
