STRATFORD, C. W.—An incorporated town well situated on the river Avon, at the corners of the townships of North Easthope, South Easthope, Downie and Ellice, county of Perth, and first settled in 1832. It was at that time called Little Thames, owing to a branch of the Thames river passing through the site of the village. The name of the river was afterwards changed to Avon, and that of the village to Stratford-on-Avon, in honor to the birthplace of the immortal bard. The wards of the town have been named Avon, Hamlet, Falstaff, Romeo and Shakspere. The Grand Trunk and Buffalo and Lake Huron Railways cross each other here, thus giving Stratford railway facilities equal to any place in the province. It is a port of entry, and being surrounded by a fine agricultural region, has an excellent trade. It is well built and is in every way a rising town. THREE RIVERS, C. E.—The capital of the district of Three Rivers, in the seigniory of Ste. Marguerite, county of St. Maurice, situated on the north shore of the River St. Lawrence, at the junction of the River St. Maurice. It is the third city in the eastern section of the Province, and carries on a very extensive trade in lumber; the improvement of the St. Maurice River, by the Government, having given great advantages to the lumbermen in obtaining an easy access to market. The River St. Maurice, and its tributaries, water a territory of over 50,000 square miles, in one of the best timbered countries in the world. Large quantities of sawn lumber are manufactured at Three Rivers, and shipped to Quebec, England, West Indies, and the United States. There are also foundries in constant operation at this point, some of which have turned out excellent railway car wheels. There is a Mechanics' Institute, a reading room, and several first class educational establishments; and it is also the seat of a Roman Catholic Bishop. The Cathedral is a stately edifice, and one of the finest buildings on the continent. The famous falls of the Shawenigan are within twenty-four miles, and those of the Grand Mére are thirteen miles further up the St. Maurice. Distant from Montreal, 90 miles; and from Quebec, 90 miles. TORONTO, C. W.—The chief city of Upper Canada in the township and county of York, situated in latitude 43° 39′ 24″ north, and longitude 79° 21′ 30″ west, on the north-west shore of Lake Ontario and north of the Bay, a beautiful oval sheet of water, capacious, well sheltered and accessible to the largest vessels that navigate the lakes. It was founded by Lieutenant-Governor General Simcoe, then residing at Navy Hall, Niagara, who having formed extensive plans for the improvement of the colony, resolved upon laying the foundation of a provincial capital, and caused the first survey to be made in the spring of 1793, by Bouchette of the Royal Engineers. The place was called York, and soon grew into importance, the inhabitants enjoying peace and prosperity until the war of 1812. In 1813 it was captured by the American Army under General Pike, who lost his life at the storming of the fort. It was held, however, but a few days, while in the meantime the goverment house, public buildings and all the stores that could not be conveniently carried away were burned. In 1834 the town was incorporated and the name changed to Toronto, and in 1837 was convulsed by the breaking out of the rebellion led by Wm Lyon McKenzie. The ground upon which Toronto is situated is nearly level, sloping gently up from the water's edge to the rear, where from several points some fine views of the lake and bay may be had. The city is laid out in the form of a parallelogram, the streets intersecting each other at right angles, the two principal thoroughfares and those containing the largest number of shops, or stores, being King and Yonge; the former runs parrallel with the Bay, and the latter intersecting it extends northward through a rich and prosperous agricultural country, for upwards of thirty miles. The public buildings of the city are numerous, and many of them very handsome. First of which is the University College, a spacious gothic structure standing amidst the retired retreats of the Queen's Park, with its beautiful avenues leading from Yonge and Queen streets. Then there are the Normal School Buildings, standing in the centre of the handsome grounds dedicated to educational uses; the Trinity College, Upper Canada College, Osgoode Hall the seat of the Superior Courts of Law and Equity of Upper Canada; the Crystal Palace built for the use of the Provincial Exhibition which is held here quadrennially; the Provincial Lunatic Asylum situated on Queen street west, near city limits, and its branch in Queen's Park; Merchants' Exchange, Masonic Hall, Post Office, St. Lawrence Hall, City Hall, Mechanics' Institute, City Hospital, St. James' and St. Michael's Cathedrals, Knox, Zion and many other Churches; the Bank of British North America, Bank of Montreal, Bank of Toronto, Bank of Upper Canada, Commercial Bank, Royal Insurance Buildings, Edinburgh Insurance Buildings, Western Assurance Buildings, British America Insurance and Provincial Insurance Buildings, and the Parliament Buildings, used as barracks, since the permanent removal of the seat of Government. The city is well supplied with water and lighted with gas, and has many industrial establishments, several of them extensive, including foundries, tanneries, cabinet and other factories, and large milling establishments which are thriving and rapidly extending their capacity and powers of improving their productions. Her spacious land-locked harbour affords the utmost facility for any possible extension of trade, and her connections at all seasons of the year with almost every place of importance in Canada or the United States by means of the Grand Trunk, Great Western and Northern Railways are not surpassed, and she is now reaping the fruits of her people's energy and central position in a steady prosperity which seems to be both durable and progressive. Distant from Montreal, 333 miles; Collingwood, 96 miles; London, 144 miles; Kingston, 165 miles; Hamilton, 39 miles; Boston, 593 miles; New York, 509 miles. Population about 50,000.

NORRIS BLACK,

MANUFACTURER OF

ARTIFICIAL LIMBS, &c.

No. 18 KING STREET EAST, TORONTO.

THE ARTIFICIAL LEGS of his manufacture combine all the Latest Improvements, Self-acting Knee, Side Motion at the Ankle, and India Rubber Springs. They are so constructed that they are accessible in every part for adjustment or repairs. He has also invented a New Apparatus for the operation through the TARSUS, (Hay's or Chopart's), that moves in harmony with the natural joint, and only adds to the thickness of the foot about half an inch, and is sufficiently strong to answer all purposes. HANDS can be supplied to restore the appearance and to be quite convenient, when the amputation has been performed between the elbow and wrist.

TESTIMONIAL FROM Dr. HODDER, PRESIDENT OF THE MEDICAL BOARD, U. C.

"I have carefully examined the Artificial Leg constructed by Mr. NORRIS BLACK, of Toronto, and I have no hesitation in giving it as my opinion that it is better adapted to imitate the motions of the knee and ankle joints, and at the same time is a more simple and useful limb than any with which I am acquainted.

TORONTO GENERAL HOSPITAL, January 21, 1861. E. M. HODDER, M.D., F.R.C.S. Eng.

BRYANT, STRATTON & DAY'S

COMMERCIAL COLLEGE,

KING STREET EAST, TORONTO,

FIRST DOOR EAST OF THE WESLEYAN BOOK ROOM,

ESTABLISHED IN CONNECTION WITH

Bryant, Stratton & Co's Chain of International Commercial Colleges,

LOCATED IN FOURTEEN OF THE LARGEST CITIES OF THE STATES AND CANADA.

THE DESIGN

The design of this Institution is to prepare young men and ladies for the practical duties of the Counting House, and also to fit them for managing and conducting their own or other parties' business with system and despatch.

TWO DEPARTMENTS.

In this Institution two separate departments have been established for the better accommodation and more rapid advancement of the Students, also a new classification of accounts, which does away with many of the mysteries of Book-keeping, and renders the whole more attractive and easier of comprehension.

THEORETICAL DEPARTMENT.

In this department the Student commences his course. Here he acquires a thorough knowledge of the Science of Book keeping, and receives thorough instruction in Commercial Calculations, Commercial Law and Penmanship.

PRACTICAL DEPARTMENT.

Here the Student enters into ACTUAL business. Each Student is furnished with the necessary amount of Cash and Merchandize to commence business. Here he buys and sells Merchandise, Stocks, Real Estate, &c., and is required to be accurate and systematic in the management of his affairs. In this department are two regularly organized Banks, with a *bona fide* cash capital, which enables the Student to effect his exchanges, make deposits, get his business paper discounted, and transact all other business incidental to a general trade.

PREPARATORY EDUCATION.

No one need be deterred from entering on account of want of preparatory education. It will only require a longer time to complete the course.

TIME REQUIRED.

The average time required for completing the course is about *three months*. But this depends entirely on the Student, some requiring twice as long as others.

EXPENSE OF COURSE.

Life Scholarship (good in any of the Colleges for full course)	$40 00

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per ½ oz., but if posted unpaid such letters are charged 7 cents per ½ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per ½ oz., with optional prepayment.

The rate on Letters to the United Kingdom is, by Canadian Packet,

Not exceeding ½ oz. ..... 12½ cents.
Exceeding " and not exceeding 1 oz. ... 25 "
" 1 oz. and not " 2 oz. ... 50 "

and so on, increasing two rates of postage for each additional ounce.

And by Cunard Packet, 17 cents per ½ oz., &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States,
(except California and Oregon) 10 cents per ½ oz.
" for California and Oregon ..... 15 " "
" to Cuba ..... 20 cents per ½ oz.

The Postage rate to British Columbia is,
Letters..... 25 cents per ½ oz.
Newspapers ..... 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, *via* Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per ½ oz.; and a Cunard Packet every Saturday, *via* Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per ½ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America ..... 2 cents.
On Letters for the United States ..... 5 "
On Letters for the United Kingdom..... 12½ "
On Letters for British Colonies or Possessions, sent *via* England ..... 25 "
On Letters for France and other Foreign Countries, *via* England, an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Province, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether *sealed* or *unsealed*, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The postage upon Printed Circulars and Prices Current addressed to the United Kingdom is *two cents each*, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the senders.

The charge on Books, &c., by Book Post to England, is 7 cents on packets not exceeding 4 oz. in weight, 12½ cents on ½lb. packets, and 12½ cents additional for every additional ½ lb. These charges must be prepaid. Photographs, *provided they are not upon glass or in cases containing glass*, may be forwarded to England at the *Book rate of postage*.

BOOK POST WITH FRANCE.

For a Packet of Printed matter, or single Newspaper, Book, &c..... not over 2 oz. 4 cents.
Do. exceeding 2 oz. and " 4 oz. 8 "
Do. " 4 oz. and " 8 oz. 17 "
Do. " 8 oz. and " 1 lb. 34 "

And so on, increasing 17 cents for each additional ½ lb.

The Book Post regulations between Canada and England apply to matter between Canada and France.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, *if paid quarterly in advance* by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter.
" " 3 " 20 " "
" " 2 " 13 " "
" " 1 " 6½ " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on Periodical Publications is, if not exceeding 3 ounces in weight, 1 cent; over 3 ounces, 4 cents.

If prepaid by postage stamps from the office of publication, Periodicals *published in Canada*, weighing over 3 oz., may pass for 2 cents each.

Periodicals, *printed in this Province*, other than Newspapers, when specially devoted to the Education of Youth (both religious and general), to Agriculture, to Temperance, or to any branch of science, and addressed directly from the office of publication, to be transmitted to any post office in this Province, are exempt from charge.

Transient Periodicals—including Canadian Periodicals not prepaid the commuted rate from the office of publication—nor exempted by the preceding clause, and all other Periodical publications posted in this Province, must be prepaid by Stamp, the full rate, at the time of posting.

Periodicals received in Mails from the United States are charged with the rates named in the 1st clause of this section.

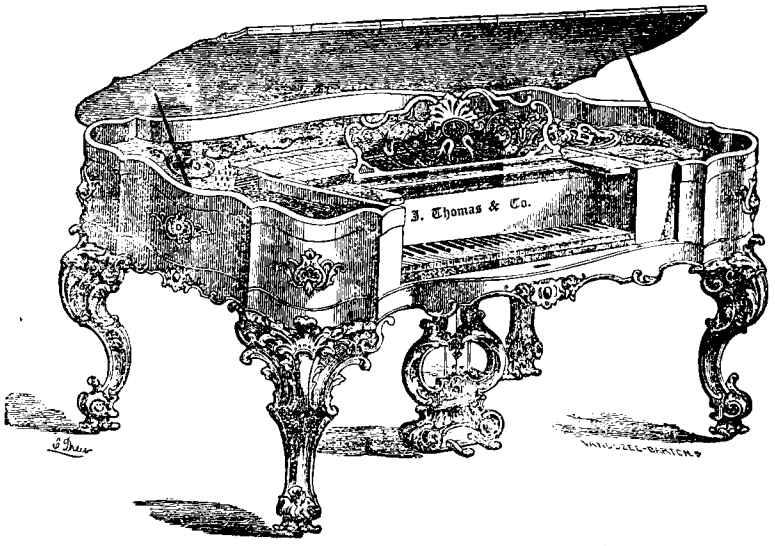
TO PURCHASERS OF PIANO-FORTES.

CANADA



MANUFACTORY.

SILVER MEDAL! Hamilton, 1860. 1st & 2nd PRIZES! Hamilton, 1860.

J. THOMAS & CO.

BEG respectfully to invite public attention to their PIANO-FORTES. Their Instruments are all made with a full *Metallic Frame*, (the invention of Mr. THOMAS, and now in general use throughout the world), and are Manufactured by American and German Workmen, under the superintendence of Mr. T. HEINTZMAN, who received the First Prize at the New York State Agricultural Society, 1857, and has had thirty years' experience in the business, and was Principal of the Mechanical Department of the late Western Company of Buffalo, whose Pianos are well known throughout the Province. They therefore feel confident in saying, their Pianos will be found equal to any manufactured on this continent, and will, on inspection, satisfy the greatest critic that their workmanship, quality of tone, touch, and finish, are such, that taking into consideration their low range of prices, will defy competition.

Amongst the many TESTIMONIALS received for their Pianos, they have much pleasure in calling your attention to the following:—

THE COMPLETION OF THE

New American Cyclopædia.

D. APPLETON & CO.,

443 & 445 BROADWAY, NEW YORK,

PUBLISH THIS DAY

VOLUME 16 (BEING THE CONCLUDING VOLUME)

OF THE

NEW AMERICAN CYCLOPÆDIA;

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE;

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

ASSISTED BY A

Numerous Select Corps of Writers, in all Branches of Science, Art and Literature,

IN SIXTEEN LARGE VOLUMES, OCTAVO,

750 DOUBLE-COLUMN PAGES IN EACH VOLUME.

From Harper's Monthly.

"We consider that we are fully warranted in saying that, for all the practical purposes for which such a work is designed, the **New American Cyclopædia** is, beyond all comparison, the best in our language. We are sure that within these sixteen compact octavo volumes there is comprised more valuable information, far more accurately stated, and with much fewer faults of omission or commission, than in the twenty-one bulky quartos of the Encyclopædia Britannica."

From the Boston Traveller.

"The **New American Cyclopædia** is, indeed, a publication that speaks highly for the enterprise, the skill and the learning of the men who planned it, and who have carried it through to completion in less than six years, in a manner which deserves much praise. The task was a great one, and required in the editors, tact, patience, learning and powers of labor and application that are seldom to be found, being less often seen than what is known as talent."

PRICE OF THE WORK.

In Extra Cloth, per vol	$3 50	In Half Russia, extra gilt, per vol	5 00
In Library Leather, per vol	4 00	In Full Morocco, antique, gilt edges, per vol	6 00
In Half Turkey Morocco, black, per vol	4 50	In Full Russia	6 00

The price of the work will, for the present, remain as above, but if there shall be any great advance in paper and material, the price must be increased. To prevent disappointment, orders should be at once forwarded to the publishers or to the agents of the work in different parts of the country.

To those who have not already Subscribed for the Work.

Many persons have omitted to subscribe for the Work during its progress through the Press, owing to an unwillingness to subscribe for an incomplete work. They may now obtain complete sets in any of the above styles. We have also prepared

CYCLOPÆDIA BOOKCASES,

In Walnut and other woods, exactly suited to contain a set of the Cyclopædia. They are furnished at from $8.50 upward, according to the taste of the purchaser.

SHOW CARDS GOT UP IN COLORS BY W. C. CHEWETT & CO.

ARE YOU IN AGONY?

A WELL SPRING OF HOPE FOR ALL.

CAN BE FOUND IN

HOLLOWAY'S PILLS.

BE OF GOOD CHEER! THE SINKING MAY BE SAVED?

BY THE USE OF

HOLLOWAY'S OINTMENT.

THE history of these great Remedies is the most wonderful medical revelation that the world has ever known. It establishes the all-important fact that WHEREVER, and in WHATEVER SHAPE internal diseases exist, the disinfecting, searching and healing properties of the Pills are fully equal to its subjection and cure, and that, with the Ointment, they are

The great Ambassadors of health to all Mankind.

This is not a history written by one man, or even derived from the experiences of one nation. It consists of a compilation of testimonials from the sick of every country—an unimpeachable record, the like of which has never been adduced in favour of any discovery or invention since time began.

THESE MIGHTY HEALERS!

WORLD KNOWN AND WORLD TRIED,

ARE A BOON TO THE SICK,

The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all-powerful medicine was ushered into the world: HOLLOWAY'S INVALUABLE PILLS have become the HOUSEHOLD REMEDY of all nations. Their attribute is to PREVENT as well as to CURE; they attack the RADIX or ROOT of the complaint, and thus, by removing the hidden cause of disease, re-invigorate and restore the drooping energies of the system, assisting nature in her task of VITAL and FUNCTIONARY REFORMATION.

Disorders of the Stomach

Are the sources of the deadliest maladies. Their effect is to vitiate all the fluids of the body, and to send a poisoned stream through all the channels of circulation. Now, what is the operation of the Pills? They cleanse the bowels, regulate the liver, bring the relaxed or irritated stomach into a natural condition, and, acting through the secretive organs UPON THE BLOOD ITSELF, change the state of the system from sickness to health, by exercising a simultaneous and wholesome effect upon all its parts and functions.

Woman in all her Difficulties

Is invited to test the regulating and restorative powers of this harmless but effective preparation. At the two epochs of life, in which the female system undergoes the most important and critical changes, the Pills will prove a positive safeguard against evil consequences. They are also confidently recommended as a specific in every disorder to which females are exclusively subject.

Be it Understood,

That the above statements can at all times be verified by the written testimony (extending through a quarter of a century) of tens of thousands of unimpeachable witnesses.

Bilious Maladies, &c. &c.

In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless, and irresistible curative. Bilious remittents, bilious purging, and all the ordinary disorders of the organ, indicated by pain on the right side and between the shoulders, yellowness of the whites of the eyes, weakness and debility, &c., are relieved and removed by the remedy, with a celerity which astonishes the sufferers and their friends. Let the sick, whom the faculty have abandoned, resort with confidence to this powerful anti-bilious agent, and a restoration to health and activity will be the unvarying result.

Dyspepsia, Diarrhœa, Weakness, &c., &c., &c.

The terrible bodily and mental pangs which characterize dyspepsia are at once mitigated by the Pills. Diarrhœa, constipation, head-ache, physical prostration, nervous tremors, hot flushes, spasms affections of the kidneys, hemorrhoids or piles, and, in fact, all internal complaints, from whatever cause arising, give way before the salutary influence of this extraordinary remedy. As a specific for dyspepsia and the disorders connected with it, or growing out of it, the Pills are always to be relied on when every other medicine and mode of treatment has utterly failed.

Holloway's Pills are the best Remedy known in the world for the following diseases:

Asthma,	Dropsy,	Inward Weakness,
Bowel Complaints,	Debility,	Liver Complaints,
Coughs,	Fever and Ague,	Lowness of Spirits,
Colds,	Female Complaints,	Piles,
Chest Diseases,	Head Aches,	Stone and Gravel,
Costiveness,	Indigestion,	Secondary Symptoms,
Dyspepsia,	Influenza,	Venereal Affections,
Diarrhœa,	Inflammation,	Worms of all kinds.

☞ **CAUTION!**—None are genuine, unless the words "*Holloway, New York and London*" are discernible as a *Watermark* in every leaf of the book of directions around each box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines, or vending the same, knowing them to be spurious.

*** Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 63 cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

Counterfeits.—Some vile swindlers have been palming off upon the inhabitants of the Canadas, counterfeits of my universal remedies—Holloway's Pills and Ointment. I therefore warn all Druggists, Apothecaries, &c., that I have placed a stamp upon my remedies, and have changed the wrappers, &c., so that none can fail to see the difference between the old style and the new. Therefore dealers will consult their own safety by buying no more old style Pills and Ointment, as I cannot warrant for their being genuine. To those who have the old style on hand, if they are in unbroken packages, I will exchange them for new style, at my own expense—that is to say, I will pay the freight to my depot and back, if returned to me before the 1st day of November, 1863.
