## PREFACE.

---

This edition of the County of Brant Gazetteer and Directory is respectfully presented to the public with a sincere hope that it will meet with favor at its hands, and that the compiler will receive that consideration due to an earnest desire on his part to make the book as reliable as possible. Information has to be obtained from so many different sources that errors will unavoidably creep in, and whenever such may be found it is to be hoped the public will generously overlook them.

The publisher desires to present his acknowledgments to the members of the Press in the county, the County Clerk and many other gentlemen for the kindnesses experienced at their hands both by himself and agents.

To the advertisers and subscribers especial gratitude is due for the very liberal support given by them to the enterprise from the commencement.

JAMES SUTHERLAND,

*Publisher.*

## TOWNSHIP OF BRANTFORD.

This township is bounded on the north by the township of South Dumfries, on the south by the township of Oakland, on the west by the township of Burford, and on the east by the townships of Onondaga and Ancaster.

The township of Brantford is composed of a part of the Six Nations Indian tract on the Grand River. The lands of which it is composed remained in the occupation and possession of the Six Nations Indians, (excepting some portions thereof which had been leased by the late Joseph Brant, as agent for the Six Nations Indians, to various settlers), until the year 1830, when the town plot of Brantford was surrendered for sale and settlement, as also a part of the north part of the township; after which various surrenders were made for settlement, until the whole of the territory, comprising this township as well as the township of Onondaga, was surrendered for sale and settlement.

The Grand River in its various meanderings runs through the centre of this township on its course to Lake Erie. It is watered in the east part by Hynd's Creek, Fairchild's Creek, and their tributaries; and on the west side of the river by Horner's Creek, which enters it in the 4th concession at the point mentioned in the remarks on Burford, but after it enters Brantford it takes the name of "the Whiteman's Creek," until its entrance into the Grand River in the third concession, at the place originally known as "The Whiteman's Farm." The person called "The Whiteman" was made prisoner by the Six Nations Indians when very young, during the American Revolution, and growing up with the Indians, married a woman of the Mohawk tribe, and settled at the intersection of this creek with the Grand River. The south-west part of the township is watered by the Mount Pleasant Creek and other small streams.

The principal roads are,—the road leading from Hamilton, passing through Cainsville, the town of Brantford, towards London, intersecting the township of Burford, at the village of Bishop's Gate, at the place indicated in the remarks on Burford; the Mount Pleasant road, leading from the town of Brantford through the beautiful village of Mount Pleasant to Oakland. The roads leading from Brantford to Paris and St. George; the gravel road leading from Brantford south through Oakland to Port Dover, called Cockshutt's road—and the road leading down the river to the township of Onondago. Various concession and side lines are also opened in various parts of the township.

The river Canning also waters a part of the first concession on the west side of the Grand River, which stream enters the main branch of

---

the Grand River at Paris, immediately on the line between the townships of Brantford and South Dumfries.

The soil is variegated and differs from the timber. On the west side of the river, from Dumfries down to the second range east of the Mount Pleasant Road, it is plain land, sandy soil, but very productive. This part of the township is one of the most beautiful tracts of country imaginable. It is also plain land on the east side of the river, from Paris to Brantford, and extending east some three or four miles from the river. The rest of the township is timbered land, strong soil, and somewhat inclined to clay in some places. On the whole it embraces as fine a tract of land as can be found in the country.

The regular concessions number from north to south, and the lots in the concessions number from west to east. But the plan of the township is very irregular—much of it had been settled by leases from Joseph Brant, without much regard to regularity or consistency. In the survey of the rest of the township, particular respect had to be paid to these Brant lease tracts.

The town of Brantford is situate about the centre of the township, as also in about the centre of the county of Brant.

Number of acres taken up in 1846 was, 58,035 ; number of acres under cultivation, 42,273 ; which figures, compared with the table given below, will show the progress made by the township. In 1846, there were six grist, and six saw-mills in Brantford, and the population was a little over 5,000. The value of rateable property was \$457,000. The present state of the township will be seen in the following report of its census for 1861.

## TOWNSHIP OF BURFORD.

The township of Burford is situated in the north-west part of the County. The first conveyance of land in this township which was registered, was a mortgage from one Rolph Church to George Forsythe and John Symington, dated November 8, 1798, and recorded November 19, 1800, on lot number three, in the first concession, and lots seventeen, eighteen, nineteen and twenty in the third concession. The first patent of lands was granted January 9, 1798, being on lot twenty-one, in the twelfth concession, and lot sixteen, in the fourteenth concession, and various other lots.

Burford was originally surveyed in the early part of 1798, part by the late Deputy Surveyor, Stegman, and part by the late Deputy Surveyor, A. Jones. The settlement of Burford began at an early day, under the superintendence of the late Thomas Hornor, Esquire, along the south side of Dundas Street, in the first concession, and in the sixth and seventh concessions in the east part of the township.

Burford is the most westerly township of the County of Brant, and is bounded on the north by Dundas Street, (commonly called the Governor's Road;) on the west by the township of Oxford; on the south by the township of Windham; on the east by the townships of Brantford and Oakland. The principal roads are the old London Road, leading through the township direct from Brantford to Oxford, a little north of the centre of the township; one branch of which leads south-westerly to Norwich, from a point a little east of the centre of the township; the other branch leads from about number nineteen northerly to Woodstock. Hornor's Creek enters Burford from the north, near the west quarter of the township, runs southerly through the first, second, third, fourth and fifth concessions; it then turns easterly and leaves Burford near the line between the fifth and sixth concessions, but in the fifth concession, and enters the township of Brantford. There are numerous mill privileges along the route of this creek. A creek known as Big Creek rises in Oxford, and enters Burford at the south-west quarter of the west line of the township, and after running diagonally across that part of the town-

ship in a south-easterly direction, it passess into Windham, at about the south-west quarter of the south line. There are some valuable mill privileges on this creek. There are other smaller streams in various parts of the township, which are tributaries to the principal streams.

The concessions number from the north, and the lots number from the east. The east part of the township, from the front of the sixth concession, is plains land, of a good quality of sandy soil, embracing, perhaps, nearly a fourth-part of the township; the rest of the township is timbered land, and in some parts well supplied with pine timber. The soil in the timbered lands is a rich sandy loam, and capable of a high state of cultivation. The township is now pretty well settled with industrious and respectable inhabitants.

The villages of Claremont, Burford and Sydenham are situated along the old London Road, and the village of New Durham is on the Norwich Branch of the said road.

POST OFFICES.—Burford, Cathcart, Harley, Kelvin and New Durham.

In 1817, the population numbered 550; in 1841, about 2,000; and in 1852, the number had increased to 4,133. In 1866, the number of acres assessed was 66,654, valued at \$1,333,052.

## TOWNSHIP OF OAKLAND.

This township is bounded on the west by the township of Burford, on the north-east by the township of Brantford, and on the south by the township of Townsend, County of Norfolk. In shape it is nearly a right angled triangle, with its longest side adjoining the township of Brantford on the north.

Oakland was originally surveyed by the late Deputy Surveyor, Thomas Walsh, in 1796, as an appendage to the township of Townsend, and called Townsend Gore. It was afterwards attached to Burford, and called Burford Gore. It obtained the name of Oakland upon being made a component part of the County of Brant. It is watered by Malcolm's Creek, and its tributaries running from east to west. South of Malcolm's Creek, and at the east angle of the township, the land is heavily timbered with pine, oak, maple, and other hardwood. Soil loamy and strong. The rest of the township is composed of oak plains, good sandy soil, with gravelly and clay subsoil in various places.

It is a good township for the growth of wheat and other grains, and is now well settled.

The road from Brantford to Simcoe runs along the town line, between Oakland and Townsend.

The following is the return of agriculture, produce, &c., for the township in 1861. The figures, of course, are larger at this date: occupiers of land, 117; occupiers of ten acres and under, 5; occupiers of ten to twenty acres, 2; occupiers of twenty to fifty acres, 31; occupiers of fifty to one hundred acres, 56; occupiers of one hundred to two hundred 5; amount held in acres, 10,401; under cultivation, 7,533; under crops, 6,533; under pasture, 819; under gardens and orchards, 159; wood and wild lands, 2,868; cash value of farms, \$402,978; cash value of farming implements, \$10,915; produce of gardens and orchards, \$2,-

## TOWNSHIP OF ONONDAGA.

This township is bounded on the north-east by the township of Ancaster, west and north-west by Brantford, south-east by Seneca, and south by the Grand River. This township contains good land and is rapidly improving. The population in 1852 was 1,858, and the assessed value in 1854 amounted to \$439,248. The lots fronting on the Grand River from Nos. 45 to 62 inclusive, are Indian Reserve.

Fairchild's Creek passes through the centre in a south-easterly direction, and is very serpentine in its course.

The Buffalo and Lake Huron Railway passes through the township. A good wagon road passes through the township in a south-easterly direction. There are other roads of sufficient importance to accommodate the settlers.

CENSUS OF 1861.—Occupiers of land, 258; amount held in acres, 20,762; under cultivation, 14,873; under crop, 12,630; pasture, 2,113; orchards, &c., 129; wood and wild lands, 5,889. Cash value of farms, \$748,265. Number of acres assessed, 21,042. Total value of real and personal property, \$434,575. Population, 2,064.

CENSUS OF 1868.—Number of horses, 799; of hogs, 1,049; of sheep, 5,749; of cattle, 1,748. Total value of real and personal property, and income, \$435,405. Number of acres, 20,997; number of acres cleared, 15,686. Population, 1,614. Occupiers of land, 321.

## TOWNSHIP OF SOUTH DUMFRIES.

This township was originally united with North Dumfries, which forms part of the County of Waterloo. This township was settled in 1816, by the Hon. Wm. Dixon. In 1817 the settlers numbered 38, making, with their families, a population of one hundred and sixty-three, who, in the same year, cleared two hundred and forty-five acres, erected a saw-mill and opened a store.

South Dumfries is bounded on the north by North Dumfries, on the east by Beverly, south by Brantford, and west by Blenheim. The Great Western and Grand Trunk Railways pass through it, and there are two good gravel roads from Paris to Ayr and from Paris to St. George. It is well watered by the Grand River and rarely excelled for agricultural purposes. Large quantities of gypsum, invaluable for its fertilizing qualities, are found in beds on the banks of the river in the vicinity of Paris.

POST OFFICES.—Glenmorris, Harrisburg, Paris, Paris Station, and St. George.

CENSUS OF 1861.—Occupiers of land, 370; number of acres held, 42,728; under cultivation, 33,934; under crops, 28,837; pasture, 4,229; gardens and orchards, 802; woods and wild lands, 8,794. Cash value of the farms, \$2,037,649.

**Thomas McLean is famed for keeping Splendid Prints, Beautiful Patterns, Good Colors and Good Cloths, Brantford.**

IN 1866.—Number of acres assessed, 45,934 ; total value of real estate, \$1,155,246 ; of personal, \$75,450. Total value of real and personal property, \$1,230,696.

CENSUS OF 1868.—Number of acres, 46,724 ; value of real property, \$1,187,395 ; value of personal property, \$91,700 ; amount of income, \$17,150 ; total assessed, \$1,296,245 ; value of land per acre, \$25.41 ; value of land, including personal property, \$27.74 ; total population, 2,985 ; cattle, 3,921 ; sheep, 13,653 ; hogs, 1,316 ; horses, 1,613 ; dogs, 258 ; 1st class militia men, 252 ; 2nd class militia men, 263 ; 3rd class militia men, 148.

## TOWNSHIP OF TUSCARORA.

This township comprises 42,000 acres, and forms part of the Indian Reserve. The original tracts of lands have been surrendered and sold, with the exception of over 50,000 acres, which now form their Reserves.

Thomas McLean invites special attention to his Large Stock of Ready  
 Made Clothing, Market and Colborne Streets, Brantford.

The money received from the lands sold is invested by Government, which is the Trustee of all the Indian tribes in Canada. The amount at the credit of the Six Nations is about \$800,000, while the moneys yet to be paid on lands, together with the value of surrendered lands unsold, will make a total of over one million of dollars. The first payment of interest money by the previous Superintendent, the late Mr. Thorburn, was in 1855, when \$27,364 was divided among 2,383 persons, equal to \$11½ per head, while this past year \$35,678 has been distributed between 2,737, or \$13¼ per head; they had thus an increase in nine years of \$8,314 of interest, and in population 354. These facts are an evidence of a large addition to the funds, and of their prosperity, as many other Indian bands are on the decrease.

The Mississagua of the New Credit, a small band of Indians, over 200 in number, occupy a part of the lands in Tuscarora and adjoining township of Oneida, in the County of Haldimand. These Indians are separate from, and unconnected with the Six Nations. In this township, the Six Nation Indians have lately erected a council house, a neat and commodious building, at a cost of over \$1,000. A number of schools are established, under the care and superintendence of the New England Society and the Wesleyan Methodist Conference, and also several churches and meeting-houses.

This township is exclusively an Indian Reserve without municipal institutions or taxation.

## TOWN OF BRANTFORD.

Brantford is the County Town and judicial seat of the County of Brant.

It is advantageously situated on the line of the Buffalo and Goderich section of the Grand Trunk Railway, and is the most important station west of Hamilton, distant 75 miles from Buffalo, 86 from Goderich, 183 from Detroit, and about 75 miles by railway from Toronto. The town has the advantage also of the Grand River Canal navigation which places it in direct water communication with Lakes Erie and Ontario, and the cities of Buffalo and New York.

The site of the town is one of the most delightful in Ontario. It is surrounded by an agricultural district unsurpassed in fertility of soil and beauty of landscape.

Brantford derives its name from the celebrated Captain, Joseph Brant, a chief and warrior of the Mohawk tribe of Indians.

The town was laid out and surveyed in 1830 by L. Burwell, Esq. About 1840 the Grand River Canal Company commenced a work which has added materially to the progress and prosperity of Brantford and surrounding country. The stock of this company was two hundred thousand dollars, a great part of which was held by the Indians.

---

**Thomas McLean holds a Splendid Stock of Men's and Boys' Ready Made Clothing, 6 Colborne and 3 Market Streets, Brantford.**

In a commercial point of view few towns possess greater advantages than Brantford, and none excel it in population and public improvements. The present population is about 8,000.

The public buildings are most respectable and creditable. First, the Court house is a very handsome white brick building with jail, built of stone, the whole enclosed by a good substantial wall—the entire cost of which, together with Registry office and other county buildings, was forty thousand dollars.

The town hall and market house are in every way equal to the county buildings in style and appearance.

The churches, banks, and school houses, are all elegant and neat structures. Kerr's music hall is not excelled in the Dominion. It contains a stage, gallery, dressing rooms, with most complete appliances for theatricals, concerts, &c. ; it is 100 feet long, 52 wide, and 45 feet high. and is built of white pressed brick with stone facings, in the early Italian style of architecture, and has the capacity of seating one thousand persons.

Brantford contains numerous large mercantile establishments, and can also with justice claim a front rank among manufacturing communities, having large establishments for the manufacture of flour, lumber, planed lumber, sash, blinds, doors, beat stuff, cabinet ware, boots and shoes, ale and porter, soap and candles, vinegar, potash, leather, morocco leather, starch, stone, and earthenware, carriages and wagons, confectionery, cigars, hoop skirts, fanning mills, pianos, guns and rifles, harness and saddles, and many other establishments not here enumerated, which, in the aggregate, give employment to a large number of industrious artizans.

In the manufacture of steam engines, saw mills and mill machinery in general, Brantford possesses one at least of the most extensive in the Dominion of Canada, viz. : that of Messrs. C. H. Waterous & Co., for a full sketch of which the reader is referred to the notices given in another part of this work of the various manufactories and other industrial establishments.

#### SKETCHES OF THE PRINCIPAL BRANTFORD MANUFACTORIES AND OTHER ESTABLISHMENTS.

*Brewers.*—Mr. T. Spencer carries on an extensive business in this line, and is celebrated for the quality of his manufacture, employing about 14 hands. The brewery is a fine brick building of four stories high, 70 x 43 feet, with two wings, one 43 x 43 feet, and the other 35 x 30 feet.

*Builders and Contractors.*—Mr. James Tutt is largely engaged in the manufacture of all kinds of builders' and turners' materials. The mill is a good brick building, two stories high, 36 x 50 feet, with a frame shop 30 x 40 feet. About forty hands are employed, and a steam engine of twelve horse power. Messrs. Bellhouse & Large carry on a very large

business, and are prepared to execute the largest contracts for buildings, &c. They employ about forty hands.

*Cabinet Makers.*—Mr. W. Peirce employs ten hands, and turns out furniture of the best description and latest styles to the amount of about \$10,000 per annum. Mr. W. Dalrymple also does a large business in this line.

*Carriage Makers.*—In this important branch of trade, this town is well represented, and their manufactures are deservedly appreciated and celebrated. Among the principal establishments are those of Mr. Woods Lyons who employs twenty hands, Messrs. T. & J. Hext who turn out every description of goods in their line, giving work to an average number of twenty men. The Provincial Carriage Works, Mr. A. Spence, proprietor, who has an excellent reputation for the quality of the various articles manufactured by him—from twelve to fifteen hands are employed here. There are besides these some half a dozen smaller shops, but all good and durable work is produced.

*Confectioners.*—Messrs. Leeming & Patterson are well known throughout Ontario as doing a most successful business in their line, employing a great number of workmen. They also manufacture cigars of the finest quality.

*Fanning Mill Manufactory.*—Mr. J. C. Wisner is engaged in this business, and uses an engine of ten horse power, and employs from five to six hands.

*Farriers and Horse Shoers, &c.*—Mr. J. Jex, whose workshop is on the corner of King and Wellington streets, does a good business in this line, employing five to six men. We may note here that in consequence of the intention of the members of this trade to advance prices for shoeing, the livery stable keepers intend starting a forge of their own, but it is hoped that this necessity may be overcome.

*Flour Mills.*—In Brantford, which possesses such magnificent hydraulic power, there are, of course, many fine flouring and grist mills turning out great quantities of the important staple, flour. Amongst the most prominent may be mentioned the Holmdale Mills, Mr. D. Plewer proprietor, a fine range of buildings with storage room for 80,000 bushels. There are 6 water-wheels with a capacity of 80 horse power, and the mills turn out 200 barrels per diem. Mr. Wm. Calder has a fine mill with two run of stones, employing several hands, and manufactures a considerable amount of flour daily. Mr. Watt, of the Brant Flouring Mills, has water power to the extent of 60 horses and employs a number of work people. There are 5 run of stones in the mill. The Kirby Mills, Mr. Thos. Robson, proprietor, have 3 run of stones, employ water power equal to 20 horses.

*Foundries, &c.*—This town boasts certainly of some of the most extensive establishments under the above heading, not only in the Province, but in the Dominion. We here notice the Brantford Engine

Works, Messrs. C. H. Waterous & Co. proprietors. This establishment was commenced in 1844, and consists of a main building of brick three stories high, being 150 feet long by 80 feet wide. There are also boiler, moulding and blacksmith shops. 50 horse steam power is used to propel all the machinery. They employ about 80 hands immediately in and around the works, and three gangs of millwrights stationed in different sections of the country where the firm may have a contract of fitting up mills complete. They manufacture steam engines, boilers, grist and saw mill machinery, shingle, lath and stave machines, corn cob crushers and grain crushers. We must, however, refer to their latest invention which, under the modest appellation of the "Poney Saw Mill," is an actual leviathan as far as work is concerned, and about as insatiable for the amount of food necessary for its employment. Its cost to erect is not one-sixth of other descriptions of mills. In a mill that cuts one million feet of lumber per year with a 60-inch saw, it will save of what is usually cut into saw-dust, 120,000 feet of lumber, or, one inch board in every nine, or about 12 per cent of all the lumber cut.

Having seen it in operation at the Provincial Fair in Hamilton, 1868, we, in common with all who noticed its work, were astonished that so little a *toy* could accomplish so much and such splendid work.

The Victoria Foundry, Mr. W. Buck, proprietor, is an extensive well known and justly celebrated house. The works which consist of a two story building, 300 x 44 feet, built of brick in the most substantial manner, and fitted up with every late improvement in machinery. A Steam engine of 50 horse power propels the machinery, and about 100 hands are fully and busily employed. Every description of stoves, castings, farming implements, tin, copper and sheet iron ware, &c., are here turned out in large quantities and of the best quality. Mr. B. G. Tisdale, the Britannia Foundry and Railway Stove Store, fronting on Colborne and extending back into Dalhousie sts., is 270 x 36 feet, an engine of 20 horse power is here used, and about 40 men are employed. Mr. Tisdale is noted for the excellence of his wares, consisting of stoves, ploughs, agricultural implements, and every style of tin, copper and sheet iron ware. Mr. W. Stubbs, of the Dominion Iron Works, has in constant use an engine of 10 horse power, employs 12 hands, and turns out all kinds of agricultural implements. A good business is done here in repairing and general blacksmithing.

*Gas Works.*—The works originally established by a Company, are now leased by Mr. John Maun.

*Gun Maker, &c.*—Mr. W. Masterson is fully capable of attending to the wants of the community in this branch of business, and cannot be excelled as a workman; he also repairs Sewing Machines as well as every description of machinery.

*Hardware Merchants.*—This branch of business is well represented here, and among the most prominent houses are Messrs. A. & J. Cleg-

horn & Co., who import very largely, and Messrs. A. Morton & Co., who are also well known, do each a large and extensive trade.

*Livery Stables.*—Messrs. A. Bradley & Co., Market St., have the most extensive establishment of this kind here, they have several Stage Routes and have always good teams for their customers. Messrs. Baxter, also, are well known and do a good trade in this line, and keep good turn outs.

*Music Hall.*—The reader is referred to Mr. Welsh's advertisement, and from personal observation, can state that this Hall cannot be surpassed in Canada.

*Pottery.*—There is an extensive pottery carried on by Messrs. Welding & Belding, which was established in 1846, about 20 hands are here employed.

*Printers.*—"The noble art" is well represented here by Mr. Lemmon, proprietor of the *Courier*, Messrs. Stewart and Mathison, proprietors of the *Expositor*, and by Mr. W. Trimble who does a very good job business, although but recently started.

*Photographers.*—Mr. Park who has a great reputation, is capable of attending to his patrons in a way that cannot be beaten; and Mr. Edy, whose studio is on Colborne st., is an artist of great attainments, and is certain to please all who give him a trial.

*Saddlers.*—In an agricultural county like Brant, saddlers must be in demand and bad workmanship will not pass muster. Messrs. Gill and Gardner, (successors to Mr. McKay), fully sustain the reputation he established, they invariably take first prizes when they exhibit at the Provincial Shows, and employ about 12 hands. Their work is of the best style and they turn over about \$20,000 annually. Mr. J. T. Triggerson also is noted for the excellent quality and finish of his work.

*Soap and Candle Manufacturers.*—Mr. Charles Jarvis, junr., employs in this branch of industry from 8 to 10 hands, the premises are situated on Spring st., and are built of brick and wood, the brick building being 84 by 42 feet, two stories high, and the frame 30 by 40 feet, containing six large cauldrons. Mr. Jarvis turns out about 100 barrels of potash annually, and two hundred boxes of soap and 50 boxes of candles weekly, the receipts of the establishment are over \$50,000 annually.

Mr. A. W. Hazleton, Dalhousie street, established in 1862, occupies brick premises, two stories high, 30 by 40 feet. He employs about four hands and manufactures about 3 tons of soap and 6 barrels of potash weekly.

Mr. A. W. Watts' factory is on Spring street. It is built of brick 35 by 100 feet, and is two stories high. 3 hands are here employed in the manufacture of soap and candles.

*Sheep Skin Tanneries.*—Mr. John Ott in this line employs from 20 to 25 hands. The tannery is situated on Oxford street and is a frame building 3 stories high, 120 by 90 feet.

---

**Thomas McLean, Linen Bleached, and Unbleached, Table Cloth by the Yard and by the Piece, Brantford.**

Mr. Michael Ott is also engaged in the same business on Dalhousie street.

*Starch and Vinegar Works.*—Messrs. Imlach and Goold, Spring street, occupy frame buildings 60 by 40 feet, three stories high and 20 by 40 feet, two stories. An engine of 12 horse power is used, and from 5 to 7 hands employed. They manufacture every description of laundry and corn starch and vinegar.

*Tanners.*—Mr. Michael Ott has been established in the business of manufacturing leather since 1860. He employs about six hands, and a steam engine of 18 horse power. Every description of leather such as sole, upper, kip, calf and harness leathers as well as tanned sheep skins are turned out by Mr. Ott in large quantities. The tannery is built of frame 2 stories high, and 80 by 45 feet.

*Vinegar Works.*—Mr. D. Stevenson is engaged in the manufacture of all kinds of vinegars, and turns out about one thousand barrels per annum. The premises are brick, three stories high and 56 by 32 feet.

### BRANTFORD CHURCHES.

The Churches of Brantford are eight in number, and surpass those of any other town in the Province of Ontario, they are as follows:—

*The Church of England.*—GRACE CHURCH, situate on Albion Street, is a handsome brick and cut stone building, erected in 1859, at a cost of \$24,000, having capacity to seat 800 on the floor and gallery. The style of architecture is "The Second period Gothic," and it consists of a nave and side aisles, chancel, porches, and vestries. The clear story is supported by well finished iron pillars. The windows are filled in with stained and embellished glass, on which are depicted elegant illustrations of scriptural subjects: (especially those on the large chancel window.) Mr. John Turner was the architect, and deserves great credit for the ability he has displayed in the churches of this town. There is in connection with this church a large brick school house used for Sabbath school, lecture room, &c., built in the same style of architecture. The present Incumbent, Rev. James Usher, Canon, is in charge of the parish for over 32 years. Services every Sabbath at 11 a.m., and 6:30 p.m.

*Roman Catholic Church.*—The Roman Catholic Church, on Palace Street, is a very superior building of white brick with cut stone dressings. This church when completed will be 155 feet by 64, exclusive of buttresses; the transepts are 90 feet in width; the height of the nave is 52 feet, and of the aisles 32; the ceiling is groined with moulded ribs and bosses, corbats, &c. The church consists of nave, aisles, north and south chapels, sanctuary, with vestry in the rear. The front is finished with two towers, the larger one rising to the height of 180 feet. The windows throughout are of handsome stained enameled glass; and when finished, the total cost will be about \$25,000. Mr. John Turner

is the architect, and Rev. Mr. Carryon is the P. P., assisted by Rev. Mr. Bardeau.

*Wellington Street Presbyterian Church.*—The Canada Presbyterian Church, situate on the corner of Wellington and George Streets, is a substantial frame building, having a capacity to seat 400. This is the oldest Presbyterian congregation in this place, being organized in 1846, under the ministration of the Rev. Mr. Drummond, who had charge of the church for twelve years, and was succeeded by the talented Rev. Joseph Young. In 1866, their present popular and energetic minister, Rev. Thomas Lowry, commenced to labor among them. There is a very handsome and comfortable brick manse in connection with this church—and to the credit of the congregation the whole church property is free from debt.

*Zion (Canada Presbyterian) Church, Carling Street.*—Rev. Wm. Cochran, minister. This church was organized about 1854 or 1855. The first minister was Rev. John Alexander, who, after labouring faithfully for some years, went over to the Baptist Church, leaving the Presbyterian Church in Brantford under great difficulties. After a short interval the Rev. Wm. Cochrane was induced to leave Jersey city, and take the oversight of this church. His labours have been abundantly blessed, as the congregation has more than doubled—so much so, that it was found necessary to put up galleries and otherwise repair the church, under the direction of Mr. John Turner, architect; and it is now one of the neatest and finest churches in this section of the Province.

There are three Sabbath Schools supported by this congregation. The church school, under the superintendence of A. Robertson, Esq., has 200 children in attendance; King's Ward, under Mr. C. Duncan, has 70; and East Ward, under Mr. A. Hudson, 60. Altogether this church is in a very prosperous state.

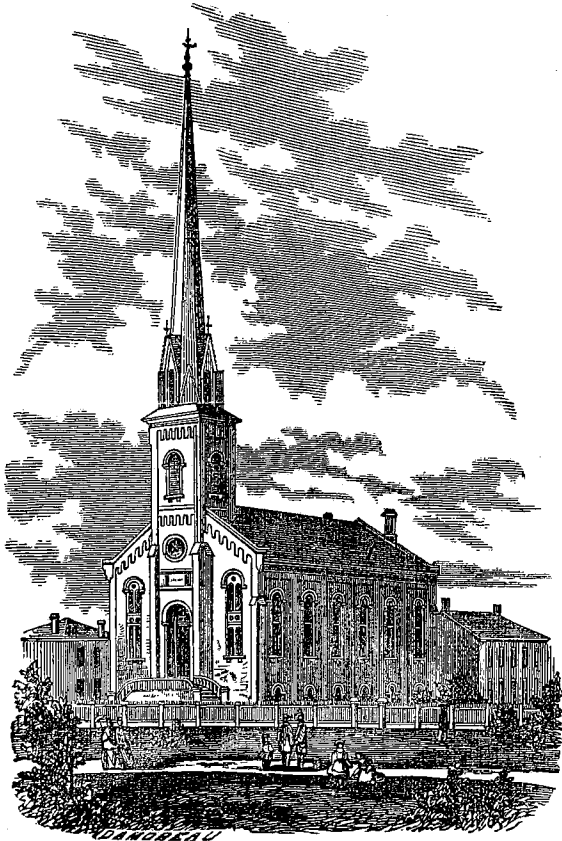

*Congregational Church, Victoria Square, Brantford.*—Rev. John Wood, Pastor. This Church was organized in the year 1834. Its first pastor was the Rev. Adam Lillie, (now D.D. and Principal of the Congregational College of B. N. A. in Montreal,) who came from Britain to take the oversight of it in 1835. The next year a church edifice was erected on Dalhousie street, in which he continued to preach for about three years, when he removed to Dundas to take charge of the Theological Institute which was first established in that place, but was afterwards transferred to Toronto, and later still to Montreal. The vacancy thus occasioned remained unfilled for two years, the pulpit being supplied by neighboring ministers, and others, as they could be obtained.

In 1841 the Rev. Thomas Baker was invited to the pastoral charge, and continued to fill that position until 1848, circumstances then arising necessitating a change, when the Rev. Thomas Lightbody accepted the charge of the church, which he held until the autumn of 1852, when he removed to Sheffield, N. B.

the church, and having accepted the call, was ordained, and installed in the pastoral office, on the 16th of February, 1853.

The increase of the congregation necessitated additional accommodation, and galleries were erected in the house of worship, and the improvements were made in 1857 at a cost of over \$2,000.

On the morning of Sunday, August 14th, 1864, the former house of

worship was destroyed by fire through the act of an incendiary. The corner-stone of the new building,—of which, through the courtesy of the trustees, we are enabled to present an engraving,—was laid on the 10th of October of that year, and the edifice was completed and dedicated on the 19th of November, 1865. Its cost, including the new site, which is a very fine position on Victoria Square, (east side) was about \$10,000. It is built of white brick with slated roof and spire, from a design furnished by Mr. William Mellish, and was erected under his supervision. A bell of 200lbs weight, from Meneeley & Sons, Troy, N.Y., hangs in the tower, and a very fine organ, from the factory of S. R. Warren & Co., Montreal, occupies the gallery. The church is seated to accommodate 500 persons. It is free from debt.

Services—Lord's Day, at 11 a.m., and 6:30 p.m., Sabbath school at 2:30 p.m. Lecture and Prayer Meeting—Tuesday evening at 7:30, (8 o'clock in summer.) Communion Service—On the first Sabbath of every month, in the morning.

The pews are allotted, but not rented, all expense being defrayed by the weekly offering.

All seats are free to strangers.

*The Baptist Church.*—The Baptist Church, situate on West Street, is a handsome white brick and cut stone building. Its dimensions being 100 by 56 feet. The basement is used for Sabbath school, lecture room, and similar purposes. The church is divided into three aisles and six tier of pews with gallery at end, and has capacity to seat 800. This fine building stands on the site of the old church which was burned down in 1857, and re-erected the same year at a cost of \$18,000. The height of the basement is 13 feet, the ceiling, which is 27 feet from the floor, is of panel work with stucco ornaments, and the walls represent bonded masonry. The windows are glazed with stained and enameled glass—the spire, when complete, will be 160 feet high, and the building, which is of Romanesque style of architecture, reflects great credit on Mr. Turner. In 1833 this church was first organized by Rev. Wm. Rees, agent of the American Home Missionary Society, who labored in this place for a period of eight years, and was succeeded by the Rev. John Winterbotham. This exemplary pastor was succeeded by Rev. S. L. Davidson in 1850, after whom the Rev. John Alexander had charge up to the period when the present pastor, Rev. Wm. Stewart, commenced to labor in this church.

For more than twenty years the congregation worshipped in a frame building on Cedar Street; and in 1855, a new brick church was erected at a cost of \$7,000, which, in 1857, fell a prey to the devouring flames, and thus gave way to the present beautiful edifice erected on the same site. Notwithstanding the large dimensions of this building, it can hardly afford ample room for the present congregation, the membership being about 370, which exceeds that of any other Baptist Church in the

Province. There is also a large Sabbath school in connection with the church, numbering over 400. Preaching every Sabbath at 11 a.m., and 6:30 p.m., and Sabbath school at 2:30 p.m. Church Conference Monthly Meetings, Bible Class and other religious services are observed. Rev. Wm. Stewart, Pastor ; Dr. Sutton, Clerk ; and Francis Ellis, Treasurer.

*Wesleyan Methodist Church.*—The Wesleyan Methodist Church is a respectable building of white brick and cut stone, situate on Wellington Street. It is 55 by 80 feet in dimensions. The basement is divided into lecture, school and class rooms. This church was erected in 1854 at a cost of \$14,000, and is of the Gothic style of architecture, and is well finished and seated, having a gallery on three sides. The walls are jointed and tinted, representing stone work ; and the ceiling, which in the centre is 38 feet from the floor, is of open roof finish, the angles being filled with Gothic tracery, and the whole painted and grained to represent oak. Rev. Mr. Gemley is the minister, and Mr. John Turner the architect.

*The Primitive Methodist Church.*—This is a handsome brick building of Gothic style of architecture, situated on Market street, near the Railway Depot. This congregation was first organized in 1853 by the Rev. Thomas Adams, who succeeded in having this church erected in 1855, at a cost of \$3,000, and has capacity to seat 300 persons. Of late the church has undergone a course of repairing—such as painting, papering, frescoing, &c., making it present a neat and beautiful appearance inside. It has also been supplied with a new double reeded organ, built by Williams & Co., of Toronto, and which is presided at by Miss Warner, the most celebrated musician of the town. The hours of preaching services on Sabbath are 11 a.m. and 6½ p.m. Sabbath school at 2½ p.m. ; also a Bible class taught by the pastor. The week night services are as follows:—Tuesday—Class. Wednesday—Ladies Aid. Thursday—Exposition of the Scriptures and prayer meetings. At present the congregations are large. The church is crowded frequently, and they are feeling the necessity of building a new church, with greater capacity to give room to those who come to hear the word of life. Rev. T. Griffith, Pastor.

## EDUCATIONAL,

*Brantford Grammar School.*—This is a handsome brick building, divided into two departments. The senior being under the charge of Mr. Wm. L. Richardson, B.A., head master, and the junior division is taught by Mr. W. C. Middleton, assistant teacher.

The number of pupils taught in this school is 40 to 50.

The following gentlemen constitute the Board of School Trustees:—John Montgomery, Chairman ; J. Forde, John Taylor, George Foster, James Weyms, Henry Lemon ; Robert Smith, Secretary.

*Salaries.*—Principal, \$800 ; Assistant, \$550 per annum.

**Thomas McLean, Brantford, Importer of Dry Goods, Wholesale and Retail.**

The *Central School* is situated on Sheridan st., abutting on George st., on the east, &c. It stands on three acres of land affording a large, handsome plot in front, and separate play grounds for the boys and girls. The building is of brick, spacious and well situated, affording ample accommodation for seven hundred pupils, who are distributed into ten divisions with a teacher to take charge of each. These divisions are each in a separate room, furnished with all the appliances necessary for educational purposes. Each teacher is confined within a certain curriculum in which, when the pupils are well-grounded they are promoted into each next higher division, until at last they arrive at the 10th, in which a high Mercantile, English and Mathematical Education is acquired. In this last division, Classics and French are taught to those who are desirous of learning them, with the view of enabling them to matriculate in the university or any other affiliated College.

The names of the teachers are as follows:—Dion C. Sullivan, L.L. B., Principal of the Brantford Public Schools, Charles B. Morse, Miss Eliza Craig, Miss Catharine Gillin, Miss Annie Stewart, Miss Harriet Coudy, Miss Ellen Gillin, Miss Lucy Burwell, Miss Mary Ballantine, Miss Harriett Woodyatt.

Besides the Central School there are three ward schools under the superintendence of Mr. Sullivan.

Kings ward school situated on Oxford street is divided into two departments, the senior being taught by Miss Sarah Turnbull and the junior by Miss Lizzie Batson.

The East Ward school is situated on Darling st., and consists of three departments, the senior being taught by Mr. William Britton, the next by Miss Mary Foster and the junior by Miss Sarah Blackwell.

The North Ward School is situated on Albion street and consists of three departments, the senior being taught by Miss Sarah Poole, the next by Miss Mary J. Turnbull, and the junior by Miss Agnes Purves.

From the highest division of each ward school the pupils who are found fit upon examination by the Principal are promoted into divisions seven and eight of the Central School, a certain standard or curriculum being assigned to each teacher of the ward schools to assimilate with the plan pursued by the Central School.

Over sixteen hundred pupils have attended these schools within the past year.

The Local Superintendent is the Reverend John Gemley, Wesleyan Minister.

The School Trustees are:—Messrs. Charles Duncan, Chairman, John Minore, James Spence, John Ormerod,—Peel—Acheson, Andrew Hudson, Thomas James, Thomas Cowherd, James Bellhouse. The Secretary is Duncan McKay, Esq.

*Roman Catholic Separate School* is a handsome frame building divided into three departments. The male department is under the charge

of Mr. John K. Barrett, the female department consists of 1st and 2nd divisions and are taught by Sister Mary Agnes and Sister Mary Frances Xavier.

Total number of pupils about 275.

### NEWSPAPERS.

*The Brantford Courier.*—The *Courier* was commenced in 1839 under the proprietorship of the present publisher, Mr Lemmon. The paper is printed every Saturday morning; is moderately conservative in politics; contains the latest foreign and local news, and has a very large circulation throughout this County and its surroundings, and is an excellent medium for advertising. There is in connection with the paper a first-class book and job printing office, at which a large amount of plain, fancy and colored work is turned out in good style and at extremely moderate prices.

*The Brantford Expositor.*—This journal was first published once a week in 1851, but in 1856, it was issued twice a week. In 1857, some change was made in the proprietorship, and it was issued both as a weekly and semi-weekly; but subsequently reverted again to a weekly, as published now by Messrs. Stewart & Mathison. It is reform in its political sentiments, and having a circulation of fifteen hundred copies, exercises a commanding influence throughout the County of Brant and adjacent Counties. It is one of the best advertising mediums west of Hamilton, circulating as it does throughout one of the most fertile, populous and wealthy agricultural regions in British North America; and the proprietors having recently procured an entirely new and large stock of the best jobbing type, with various kinds of new jobbing and power presses; they are doing a larger jobbing and advertising business than is done in any other Canadian town in a single establishment.

The *Expositor* is issued once a week on the following terms:—If paid in advance.—To mail subscribers, or called for at the Printing Office, per annum, \$1 50; delivered at the houses of subscribers in the town, \$2 00. If not paid in advance, 50 cents per annum extra will be charged in each case.

### BANKS.

*Bank of Montreal* is on the corner of Market and Darling streets. S. Read, manager; P. F. Blackader, accountant; W. B. Graveley, clerk.

*Bank of British North America* is on the corner of Darling and George streets. A. Robertson, manager; J. Carnegie, accountant; J. J. Hebden, teller; Geo. Menzies, clerk.

THIS HOUSE HAS BEEN NEWLY FITTED UP.

The Fireman's Hall, situated on the corner of Dalhousie and Queen Streets, consists of four engine houses with suitable meeting rooms attached, all of which are comfortably furnished, carpeted, &c. The building is built of red and white brick, is two stories high, with bell and hose tower, and is one of the finest buildings for the purpose in the Province. The Fire Department of Brantford is, therefore, thoroughly efficient, well officered, and since the organization of the present brigade, though a number of fires have occurred, they have all been confined to the building in which they originated.

The Brigade consists of the following companies :—

*Victoria Hook and Ladder Company, No. 1.*—This company is composed of about sixty members, including officers. Their apparatus is complete, having a carriage, one of the best in the province, built at a cost of about four hundred dollars ; its members are all young and able bodied men, and are fully up to their duties as firemen. The officers are :—E. Ormrod, Captain ; R. R. Westrope, 1st Lieutenant ; Wm. Gibson, 2nd Lieutenant ; S. McLean, Secretary ; H. Sinclair, Treasurer ; R. Ferguson, 1st hook ; G. Forbes, 2nd hook ; C. Wade, curator.

*Exchange Fire Engine Company, No. 4.*—"We strive to save." This company runs an engine and hose carriage, which they put in its present state of efficiency mostly by their own exertions, the new running gear and folding breaks, with squirrel tail suction, &c., having cost about \$400 (independent of the engine proper which is the property of T. Cockshutt, Esq.,) it numbers about sixty members all up to their duties as many a hard fought fire has testified. This company has, on several occasions, been the recipient of several valuable acknowledgments for great services rendered on different occasions. The officers for the year 1869 are :—James Gardner, Captain ; Wm. Cowherd, 1st Lieutenant ; James Elliot, 2nd Lieutenant ; Thomas Webster, Secretary ; E. C. Passmore, Treasurer ; John Elliot, 1st engineer ; Angus McCawley, 2nd engineer ; James Hawkins and Henry Howerth, branchmen ; Jacob Foster and John Roe, suctionmen. Hose department—Angus McPherson, Foreman ; James Kennedy, Asst. Foreman.

*Washington Engine Company, No. 5.*—This company has the honor of running the finest engine in the Province, it works five streams and is capable of accommodating 120 men in working it—cost \$3000. Their hose carriage is also a splendid apparatus, carrying 1000 feet of hose. Its members consist of the bone and sinew of the town, being chiefly composed of young and able bodied mechanics—they are "always ready when duty calls"—numbers about seventy members. The officers are :—Captain, John Steel ; 1st Lieutenant, George Campbell ; 2nd Lieutenant, Wm. Tipper ; Captain Hose, Andrew Steel ; Assistant Captain Hose, Alfred Ball ; Engineer, James Stephenson ; Secretary, Patrick Ryan ; Treasurer, Chas. Duncan ; Branchmen, David Davis, Dennis Burns and Edgar Smith.

## PARIS.

An incorporated town, beautifully situated on the Governor's road, in the townships of Brantford and South Dumfries—is the second place in population and importance in the county. It is divided into the upper and lower town, separated by Smith's Creek, which here enters the Grand River. This town was laid out in 1831, by Hiram Capron, Esq., and surveyed by Lewis Burwell, Esq., P. L. S., when lots sold for \$10. In 1850 it contained a population of about 1,000, and was incorporated as a village. In 1855 it was incorporated as a town. Paris was so named by Hiram Capron, Esq., from its contiguity to beds of gypsum, or plaster of Paris. The first plaster mill was built in 1823, by William Helmes, Esq. The post office was established in 1831. The first hotel was built in 1831, by John Vanevery. Hiram Capron, Esq., built the first grist-mill in 1832. There is one school—grammar and common—situated in Queen's ward, Paris and Dundas road, built in 1857, at a cost of \$14,200. There are four teachers—J. W. Acres, Principal. The Great Western Railway passes along the northern end of the town. The Buffalo and Goderich section of the Grand Trunk Railway also passes through it. Mails received daily. Paris is situated in the centre of one of the most fertile regions in Ontario.

The Paris *Star* was established in June, 1850, by B. C. Hearle, Esq. From that time up to 1855 it passed through several hands, and was then carried on by Messrs. Oliver & Powell. The former ceased to have connection with it in 1857, and the latter became sole proprietor in 1859. Politics, Reform.

The Paris Town Hall was built of brick, in 1853—cost about \$12,000. Architect, John Maxwell. Situated in Queen's Ward, Upper Town—surrounded by Dumfries, Church, and Burwell streets.

There are several manufactories now carried on successfully in Paris, of which mention may be made of the new Paris mill, C. Whitlaw proprietor. This mill is 180 feet long by 45 wide, two stories high, containing 6 run of stone propelled by water, and employment is given to a large number of hands, about 2,000 barrels of flour are turned out per week.

The old Paris mill, Geo. T. Florey proprietor, is four stories high, of frame, with stone basement 60 by 30 feet, and contains 4 run of stone propelled by water. About 150 barrels of flour are manufactured daily.

There is a custom grist mill on the flats—carried on by Alexander Henderson. The building is brick, three stories high, and 40 by 25 feet. The mill contains two run of stone, propelled by water power.

In the manufacture of plaster, J. W. Coleman employs about eighty hands, and turns out about ten thousand tons per annum. The works have been established over twenty years. The premises are built of brick, and the machinery propelled by water power.

STEWART & MATHISON.

The manufacture of tobacco is here carried on extensively by Messrs. Brown, Dickson & Co., who employ from twenty to thirty hands in the manufacture of plug tobacco. The factory is two stories high, and 40 by 60 feet. It is situated on Dumfries Street.

*Cooperage.*—Whitlaw's cooperage, under the management of Mr. D. Finlayson, is a large frame building, 80 feet long, by 26 feet wide. Fourteen hands are here employed, and about 50,000 barrels turned out annually.

The Paris Foundry and Machine Shop is carried on by Messrs. Maxwell & Whitlaw. The buildings are frame, being 30 feet wide and 200 feet long, and for 120 feet in length are two stories high. Water power is used to propel the machinery, and about twenty hands find constant employment. Agricultural implements, mill gearing, and every description of castings are here turned out.

*Sewing Machines.*—In the manufacture of this now useful and indispensable machine to every family, the "British American Manufacturing Sewing Machine Co.," established in 1866, are extensively engaged. They now turn out about 500 machines annually; employ 18 hands, and use hydraulic power. The premises are 80 feet long by 30, and three stories high. The works were originally established by Mr. Barclay. The Company claims a greater simplicity in the structure of their machine, and considers the machine superior to any other manufacture. Messrs. Hall, Laing and Totten, Directors; D. Totten, President; James Laing, Secretary.

*Leather Manufacturing.*—Messrs. H. Finlayson & Co. are engaged in the manufacture of leather of various kinds. They employ five hands. The business was originally established in 1832 by Mr. Macklin.

*Pork Packing.*—Messrs. J. M. Whitlaw & Co. have been doing business as pork packers and curers for a number of years. A number of hands are kept employed during the packing season.

*Fanning Mills.*—In this branch of manufactures, Mr. J. E. Mitchell has been established about thirty years. Water power is used, and a number of men employed. The premises are frame.

*Knitting Works.*—The Paris Knitting and Manufacturing Co., Messrs. Penman & Adams, use hydraulic power to the extent of forty horse, and employ one hundred hands. The building is rough-cast, 84 feet by 50 feet, and four stories high. The factory contains three sets of manufacturing machines, and 680 spindles. There is also a steam boiler for dyeing and heating purposes, &c. All kinds of woolen goods are here turned out, to the extent of about \$70,000 per annum.

*Planing Mills.*—Mr. George Angus, in this branch of industry employs fifteen hands—water power is employed to propel the machinery. The building is rough-cast, two-stories high, and 66 by 36 feet. Messrs. Turnbull & Thompson, in the same line, employ nine hands, using hydraulic power also. Their building is frame, two stories high, and

70 by 30 feet. Each of the above firms manufactures sash, doors, blinds, mouldings, and engage in building.

*Potters.*—Messrs. Schuler & McGlade, employ six hands in this business, which has been established about 11 years—at first by Mr. Marlatt. The firm is doing a large trade, and manufacture every description of earthen, flint, and enameled ware.

Ahren's pottery was established about 1848—six hands are here employed, and goods to the value of about six thousand dollars turned out per annum, consisting of flint, enameled and common earthenware.

### CHURCHES.

*St. James' Church.*—The Church of England is a substantial stone edifice, a transept in the Gothic style of cut stone was added to the Church in 1865 by the present incumbent, the Rev. Dr. Townley. The cost of the Church has been about £500 stg. It will accommodate three hundred persons. There is a large and prosperous Sunday school in connexion.

*Church of the Sacred Heart.*—The Catholic Church, dedicated to "the Sacred Heart of Jesus," was opened for divine service in the year 1857; but in consequence of a heavy debt contracted at the time, the building has remained for several years in an unfinished state. It is a substantial solid stone edifice, 70 x 45 feet, capable of accommodating 400 persons, and is constructed in the mediæval style of architecture, of rustic exterior appearance, embellished by ornamental cut stone bordering the doors and Gothic windows. The outside walls are low, as it was intended that the inner ones should be elevated so as to admit of a clear story, lighted from above; but this part of the plan, for want of funds, has been for the present omitted. The chief beauty of the church is displayed in the interior, which is remarkable for its two rows of massive stone pillars, with ornamental capitals, supporting on either side three gothic arches, besides the grand arch in the centre leading into the sanctuary. The ceiling is of polished wood intended to be painted, and the windows which are for the most part temporary ones, are to be all enriched with stained glass. Preparations are already being made to carry these improvements into effect. When the present clergyman assumed charge—some four years ago—the church was not only deeply in debt, but the building itself, through neglect, was very much dilapidated. Since that time, aided by the generosity of such gentlemen as D. O'Neil & Sons, (who themselves subscribed one thousand dollars) James Maxwell, Esq., the Messrs. Skelley, T. McGrory, and others who also subscribed most liberally, the reverend gentleman has succeeded not only in liquidating the greater portion of the debt, but also in effecting many desirable repairs and improvements. "The Ladies' Altar Society," recently established, is contributing handsomely to the interior decora-

tion. They have already procured, among the ornaments, 14 lithographic paintings of "the Stations of the Cross," representing scenes in the life of our Redeemer, and the first stained glass window is marked as the gift of the same society. The cabinet organ lately presented to the church is the gift of the Messrs. Maginn, of Burford. Rev. Father Dowling is the resident priest. He is also in charge of a congregation in Galt, so that he officiates in Paris church only every alternate Sunday, on which days high mass is celebrated at 10:30 a.m. Sunday school is held at 2:30 p.m., and vespers at 3:30 p.m.

*Separate School.*—The Catholic separate school is taught in the building formerly used as a church. The school is conducted by the Sisters of St. Joseph. The average attendance of pupils is between sixty and seventy.

*Canada Presbyterian Church.*—This church is situated on Dumfries street. The church is large and will seat comfortably 650 persons. This is one of the oldest congregations in the town, and was originally organized in 1836 by the Rev. G. Murray. The congregation now numbers two hundred and seventy members under the pastoral charge of the Rev. John James.

*The Congregational Church* building is situated on Congregational Square, fronting the south. It is a substantial but unpretending brick building, capable of seating three hundred, with a lecture room behind. It is plain and comfortable in the interior, heated from beneath with hot air apparatus. A small but sweet toned organ is in the gallery, and the lecture room is well hung around with missionary maps. The church is prosperous, though not numerous, is influential and gradually increasing. They own a beautiful and commodious parsonage, situated on the same square. The present pastor, Rev. W. H. Allworth, was settled over them in 1865, successor of Rev. E. Ebbs, of Ottawa city. This church in proportion to its numbers is liberal, and not without reason is full of hope for the future.

*Wesleyan Methodist Church* was erected in the year 1846, and is 65 x 38 feet, framed, rough cast, original cost \$3,000, will seat 500 persons. Present congregation, or congregation now in attendance, 450 persons. The following ministers have officiated in this church :—From 1850 to 1853, Rev. Edwin Clement ; from 1853 to 1855, Rev. Joseph Shepley ; from 1855 to 1858, Revs. O. H. Ellsworth and Thos. Jeffery ; from 1858 to 1860, Revs. Peter Kerr and Wm. Hay ; from 1860 to 1863, Revs. W. S. Griffin, Richard Potter, Wm. Hayhurst, and H. Bartlet ; 1863, Revs. James Spencer, Samuel Hume, and Thomas Kelly ; from 1864 to 1867, Revs. John G. Laird, G. H. Bridgeman, and G. Burson ; from 1867 to 1869, Revs. John Mills and John F. German, M.A.

*Primitive Methodist Church* was built in 1862. It is a frame, rough cast building, 42 by 32 feet, seated for two hundred persons, and cost

about one thousand dollars. Its membership is about forty, and is gradually on the increase. The Rev. A. Hepworth is the present officiating minister.

*Paris Baptist Church.*—The Baptist Church in this town was formed in the year 1843. In the course of the preceding year a chapel was erected, which is now used as a Sunday School and Lecture Room. In 1864, a neat and commodious brick chapel was built on an eminence overlooking the lower town, and near the site of the former place of worship. With the opening of the new church edifice the pastorate of the present minister, the Rev. Thomas Henderson, commenced.

*Baptist Church Edifice Society for the Province of Ontario.*—President, Alexander Mackenzie, Esq., M.P.; Treasurer, William Buck, Esq., Brantford; Secretary, Rev. Thomas Henderson, Paris. Subscriptions:—Life Director, \$200; Life Member, \$25; Annual, \$1.

## BURFORD VILLAGE, (CLAREMONT),

A post village in the township of Burford, on the Hamilton and London gravel road, distant from Woodstock 16 miles, and 9 from Brantford, the County Town. It contains 4 churches. The Episcopalian, a neat brick building, erected in 1855, at a cost of \$1,800, and is seated to accommodate 300, Rev. James Padfield, incumbent. The Wesleyan Methodist is a good frame building, erected at a cost of \$1,000. The Baptist Church congregation is under the pastoral charge of the Rev. J. Vining. This church was erected in 1866, of frame, at a cost of \$800. The Congregational Church, at Burford Village, was organized by the Rev. James Nall, in 1835. A place of worship was then built which has been improved at different times since, and with burying ground attached is valued at \$3,000. Mr. Nall was succeeded in the pastorate by the

Rev. W. F. Clarke, who was ordained over the church in 1844, and continued his ministry until 1846. Upon his removal the vacancy was supplied by the Rev. W. H. Allworth for about nine months. The next pastor was the Rev. James Vincent, who continued his labors among them for 8 years. Upon his removal to the United States, the Rev. William Hay, of Scotland, was elected minister, and entered upon his duties in August 1856. Several revivals have been enjoyed by this church, one in 1857, in which some sixty souls were added to the membership. The Rev. Wm. Hay resigned in 1868, and was succeeded by the Rev. John Brown, who is now in charge. Samuel Gammage, Lawrence Daniels, Aaron McWilliams, Henry Cox, John Keachie, and David Maune are deacons.

The schools are of brick and frame, divided into two departments, where 150 pupils are educated under the charge of Mr. John Linton, 1st Class teacher, and principal of Burford Public Schools, assisted by Miss B. Green.

There is also a Masonic Lodge in this place. (See page 79.)

this place, both on the town line. In the manufacturing establishments we notice Messrs. Hull & Malcolm's shingle and stave factory, where five to six men are employed, and an engine of 12 horse power, turning out daily 15m sawn shingles or 10m staves. Their building is a frame, 36 x 40. The steam saw mill of J. H. Hull cuts  $2\frac{1}{2}$  millions feet of lumber annually, uses a 30 horse power engine, and gives employment to six hands. The building is of frame, 42 x 60 feet.

The steam saw mill of E. Malcolm, jr., gives employment to five hands, and has a 16 horse power engine, cuts  $1\frac{1}{2}$  millions feet of lumber annually. Building frame, 30 x 50 feet. There is also a pot and pearl ash factory.

In the mechanical trades there are one blacksmith and two shoe makers. The village also contains two general stores; one hotel—the "Kelvin House Hotel," G. F. ## ST. GEORGE,

A post village in the Township of South Dumfries, situated about a mile north of the line of the Great Western Railway, the nearest station being Harrisburg. It is distant 8 miles from Brantford, the same distance from Galt and Paris. There is considerable business done at St. George, situated as it is in a fine agricultural section of the country. It contains three churches, viz. :—The Canada Presbyterian, the Wesleyan Methodist and Baptist. The Canada Presbyterian Church formerly belonged to the United Presbyterian Church before the union of the two churches in Canada.

In the year 1832, the Antiburgher Synod of Scotland sent missionaries to Canada. Two of these missionaries visited a number of families in the vicinity of St. George, and were kindly received. Arrangements were entered into for holding public worship in a school house or barn, as might suit the purpose. The Rev. Thomas Christie, now of Flamboro, took charge of this station, and supplied ordinances as often as a due regard for the welfare of other stations under his charge would permit. A church was built in 1834, and the cause made good progress until near the end of the year 1838, when a call was given to the Rev. James Roy. The said call was accepted, and Mr. Roy was inducted into the pastoral charge of the congregation in December, 1838. The congregation previously gave a call to Rev. Thomas Christie, now of Flamboro, but he did not accept. Mr. Roy labored with great diligence and acceptance for several years, preaching in St. George and Glen Morris, until he was suddenly removed by death, in the month of May, in the year 1852. The congregation, after the death of Mr. Roy, still kept united, and for several years they did not enjoy the services of a stated ministry. The congregation gave several calls but did not succeed. The church was unanimous in giving a call to Mr. Robert Hume, preacher of the gospel. He accepted the call, and was ordained and inducted into the pastoral charge of the congregation on the 22nd of May, 1860. Mr. Hume has labored since that time with acceptance. The congregation has increased under his ministry. He is at the present time the pastor of the church. In the year 1861 the congregation resolved to build a new church as the old church was too small to accommodate all, and hence the necessity of building. Mr. William Watts, contractor, of

Brantford, was engaged to build the new church. The work was commenced vigorously, and during the summer of 1861, the new church was erected. The opening dedication services were conducted by the Rev. Dr. Ormiston, of Hamilton, and Dr. John Thompson, formerly of Galt, (now of New York) on the 17th of November, 1861.

The new church is of Doric style of architecture, capable of accommodating, in public worship, about 300 persons. It is situated on a beautiful and elevated plot of ground, near the site of the old church. The building is neat and substantial, and is regarded as one of the best country churches in the county of Brant.

The Regular Baptist Church was organized March 30, 1824, under the ministration of Rev. Simon Mabee. The original membership was eleven in number. Elder Mabee remained pastor of the church till 1828. After this the following, in the order of their succession, ministered to the church:—Rev. Reuben Crandel till Nov. 27th, 1835; Elder Elliott till March 16th, 1839; Elder Bailey till March 13th, 1841; Elder Smith till March 26th, 1852; Elder E. Clark till May 12th, 1855; Elder Wm. Smith till Dec., 1859; Thos. L. Davidson, D.D., till Feb. 11th, 1866; Elder Joel Reddick till Aug. 31st, 1867. Present pastor of the church, G. A. Dougharty, M.A. Present number of members 152. The church worships in a neat stone meeting house in the village of St. George. The main building is 40 feet by 60. The vestry room is 24 feet by 30. The church clerk is Benjamin Bell, of St. George.

The Wesleyan Methodist Church is a plain unpretending frame building. The congregation is under the pastoral charge of the Rev. James Harris.

The village contains some important and extensive manufacturing establishments. Mr. Benjamin Bell's works were established in 1854. He employs from thirty to forty hands, and an engine of ten horse power. The premises are frame, two stories high, and 110 by 50 feet, the moulding shop being 60 by 40 feet. Reapers, mowers, ploughs, cultivators, drag saws, and all kinds of agricultural implements are turned out by Mr. Bell to the value of \$30,000 annually.

Mr. Wm. Snowball is engaged in the manufacture of wagons on a large scale, employing from twelve to fifteen hands. This branch of his business has been established since 1834. The premises are frame on stone basement, 80 feet by 80, and two stories high. A steam engine of six horse power is used in this establishment. About 100 wagons are turned out annually. Mr. Snowball is engaged as well in the manufacture of flour and flax. The flouring mill contains three run of stone, and is a frame building with stone basement. A new mill, to be built entirely of stone, is shortly to take the place of the old one three stories high, and 60 by 30 feet. The flax mill was established by Mr. Snowball in 1863. It is a frame building, two stories high, 40 by 40 feet. From twenty to fifty hands are employed in this branch of industry.

**THOMAS McLEAN,**

Wholesale and Retail Dry Goods, Brantford.

Mr. Allan Cameron is engaged in the manufacture of ploughs, and employs three or four hands.

Messrs. Alexander Brookbank and William Fleming's blacksmith shops deserve mention. Several hands are employed by each, and the very best kind of work turned out by them. Carriage ironing, as well as general blacksmithing, is attended to.

There are three good stores kept by Messrs. J. N. Keefer, Crawford & Armstrong, and H. G. McPherson. The St. George hotel is kept by Mr. S. Bradt, and travelers will find at his house every comfort, and as good fare as at any hotel in Ontario. There are two other hotels in St. George.

The Common School building is a handsome brick, erected at a cost of \$2,000. It is divided into three departments, and has an attendance of 150 pupils, under the charge of Mr. H. McKay, as principal, assisted by Miss R. Smith.

## SCOTLAND,

A post village situated on the town line of Burford and Oakland. The stage road leading from Paris to Simcoe, passes through the village. It is 14 miles from Paris, and 11 from Brantford. It contains two churches, Baptist and Congregational. The Congregational Church was formed in 1835, and was associated with the church of the same order at Burford, under the ministry of the Rev. James Nall, who came to this country from England, under the direction of the Colonial Missionary Society. Towards the close of the year 1843, he removed to another part of the vineyard of the Lord. After some months of spiritual destitution, the Rev. W. F. Clarke, was installed pastor, October 16th, 1844, and in the spring of 1846, tendered his resignation with a view to leaving the Province. The Rev. W. H. Allworth, visited them in August, 1846, and labored among them as temporary supply during the following winter. On the 7th August, 1847, the church invited Mr. William Hay, a graduate of the Congregational College, to accept the pastoral oversight of them, and he entered upon his ministerial duties on the 13th October, and was ordained pastor on the 19th January, 1848. At this date there was no church building and the members numbered 30, and were in the habit of assembling for worship in a school house. The church edifice was opened for divine service in 1849.

### AYR,

Is an important post village, situate in the Township of North Dumfries, County of Waterloo, about one mile from the Brant County line. It is distant from Paris 7 miles, from Galt 10 miles, and from Berlin 14 miles. The Cedar and Smith's Creeks run through the village and afford much hydraulic power. The post office was established in 1838, the present official is Robert Wyllie, Esq.

There are three churches, viz : Knox's Church, (Canada Presbyterian), a handsome frame building erected in 1844, at a cost of \$1,500, Rev. D. McRuar, pastor ; the W. M. Church cost \$1,200, Rev. Mr. Gamain ; the Stanley Street Church, (Presbyterian) cost over \$2,000 ; the Presbyterians (Morrisonians) have a congregation here, Rev. James Howie, minister. The common school buildings are of brick, erected in 1854, cost \$3,000, and have the capacity to accommodate over 300 pupils.

The *Ayr Herald* is a well conducted family newspaper, having a large circulation in the Counties of Waterloo, Oxford, and Brant. It was established in 1867, by Mr. James G. Watson, in the Reform interest, and is rapidly increasing in circulation. There is a good book and job office in connection.

There is a Masonic Lodge in Ayr—Lodge No. 172, G. R. C. ; a Mechanics' Institute with a library of over 1,200 volumes, Alexander Petrie, president ; one fire company, John Wyllie, captain ; a Vol. Infantry Company, 29th Bat., Waterloo, is in a most effective state, being

just re-enrolled under the new Act, Thomas M. Anderson, captain, Jas. G. Watson, lieutenant, J. McKay Anderson, ensign ; a Temperance Society, Thomas Easton, president ; a Young Men's Christian Association meets weekly for mutual edification and dispatch of business, Dr. W. R. Pentland, president ; a Literary Society which meets weekly for debates, readings, recitations, &c., Dr. G. W. Bingham, president.

This village contains several important and extensive manufactures, foremost among which the agricultural works of John Watson, Esq., may be mentioned. This large establishment was started in 1848. Mr. Watson's shops cover an area of two acres, and are built of stone, brick and wood. Steam and water power are both used in propelling the machinery, and from sixty-five to seventy hands are constantly employed. Reaping, mowing, threshing machines, drills, straw and root cutters, ploughs, and in fact every description of agricultural implement that the most extensive farmer requires as a labor saving machine are here manufactured. About 600 reapers and 50 separators are annually made at these works.

This is one of the most successful establishments in Canada, and its success is only the just reward due to the business energy and integrity of character displayed by its well known proprietor.

James Piper, Esq., is very extensively engaged in the manufacture of flour. The Nithvale mills and Jedburgh mills are carried on by him. In the Nithvale mills about fifteen thousand barrels of flour are put up annually. There is an oatmeal mill as well with two run of stone, manufacturing merchant meal only. He has also a saw mill, doing custom work only. In and about the several mills about twenty hands are employed. In addition to the mills already mentioned, Mr. Piper has erected the Jedburgh woolen and cotton factory. The building is brick, three stories high, and 50 by 60 feet. A great many operatives will be here employed when fully in operation, and this latter enterprise must add largely to the progress of the village.

Mr. David Goldie, proprietor of the Greenfield flouring mills, is doing a very heavy business, and has in connection with the mill a stave factory and cooperage. A large number of hands find employment in all the establishments.

Mr. Peter Cunningham is carrying on the brewing of beer and ale. The brewery is 30 by 50 feet, and two stories high.

In the manufacture of shoe pegs Mr. James Gladstone has been engaged for a number of years. Five or six hands are employed, and water power used to propel the machinery. From ten to twelve bushels of shoe pegs are turned out daily.

*Pump Manufacturing.*—In this branch of industry Mr. Robert Knox employs a few hands.

*Carriage Making.*—Mr. John Bell employs five or six hands in the manufacture of carriages, buggies, sleighs, cutters, &c.

---

**Thomas McLean is noted for selling Cheap Dry Goods, Colborne and Market Streets, Brantford.**

Mr. Thomas McKnight is also engaged in the same line, employing two hands.

Mr. James Kay carries on the business of cabinet making in all its branches, employing three hands.

Mr. Walter Kyle, general blacksmith, employs two hands, and turns out work of excellent finish.

There are other work shops representing the various trades, where in the aggregate many find employment.

## BRANCHTON,

A post village and station of the Harrisburgh and Guelph branch of the Great Western Railway, situated in the township of north Dumfries, 6 miles from Harrisburgh, and 20 miles from Guelph. It contains a Wesleyan Methodist Church, a stone building seated for 400 persons, and a good school. The post office was established in 1850. The village contains a grist and saw mill, shingle and lath mills, woolen mill,

carriage factory, 2 blacksmith shops, 2 general stores, and a good hotel, kept by Mr. A. Jenkins. The Jenkins improved new hay fork, is manufactured here; and is an article well worthy the attention of all farmers. The flour, saw, shingle and lath mills, are owned and carried on by Mr. William Rosebrugh, steam power is used, and about 15 hands are employed. The flour mill contains three run of stones, and is a frame building, 40 by 60 feet, three stories high. The saw mill is 40 by 30 feet. Messrs. George Fady, & Co., carry on the woolen mills, a 14 horse power engine is used, and about 15 hands employed. The factory was established in 1863, and is a frame building with stone basement, 2½ stories high, and 40 by 60 feet. Tweeds, flannels, blankets, and yarn, are here manufactured. This firm enjoys a large custom trade.

## GALT,

An important incorporated town in the township of North Dumfries, situated on the line of the Hamilton and Guelph branch of the Great Western Railway. It is the most important station on that branch. The Grand River runs through the town, and affords immense hydraulic power for driving the machinery of the many manufacturing establishments for which the town is celebrated. Among the manufacturing establishments we notice that of Messrs. Goldie, McCulloch & Co.'s *Dumfries Foundry and Steam Engine Works*. Their buildings are of stone, and cover an area of two acres. This firm has been established a number of years, and have no ordinary reputation as engine builders and manufacturers of every description of mill machinery. Some of the largest castings made in Canada have been turned out by Messrs. Goldie, McCulloch & Co. They employ one hundred and fifty hands. Wool machinery and burr mill stones are here manufactured. Annual sales amount to one hundred and fifty thousand dollars.

*Dickson Mills*.—Mr. Richard Blain carries on the Dickson mills, a large four story stone building, 75 by 45 feet. It was erected in 1843. Mr. Blain manufactures about thirty thousand barrels of flour annually, beside doing a large gristing business. Five hands are kept employed. In his cooperage and stave factory about twenty hands are employed.

*Soap and Candle Works*.—Mr. Simon Oliver established himself in this branch of industry in 1840. The premises are built of stone, two stories high, and 30 by 70 feet. Five or six hands are kept employed manufacturing soap, candles and pot ash.

The town of Galt contains seven churches, viz.:—Church of England, Presbyterian (Church of Scotland), Knox Church (Canada Presby-

terian), Roman Catholic, Wesleyan, Primitive, and New Connexion Methodists.

Its schools are well conducted, and few towns possess the many advantages Galt enjoys.

## PRINCETON,

A flourishing post village, and station of the G.W.R., is situated principally in the township of Blenheim, County of Oxford, and a portion lies in the township of Burford, County of Brant, at the distance of 12 miles from Woodstock, 7 from Paris, and 36 from Hamilton. It enjoys a good local trade, being in the midst of an excellent agricultural district, and the chief outlet for the large amount of lumber and shingles manufactured in that section of the country.

There are four churches, viz: the Episcopalian, (St. Paul's Church) a very handsome brick building, erected in 1867, having capacity to seat 250 persons, Rev. Henry Bartlett, incumbent. The Canada Presbyterian Church, of brick, costing \$3,900, Rev. H. McQuarrie, minister. The Wesleyan Methodist Episcopal Church is a substantial frame building, of similar capacity, erected in 1857, and cost \$1,200, Rev. J. McLean, minister. The Lutheran Church originally belonged to the Episcopalian, but was purchased by the present congregation in 1867, Rev Mr. Eule, pastor. The *Princeton Transcript*, a very handsome 32 column weekly newspaper, having a large circulation in Brant and Oxford, was established here in 1867 by its enterprising editor and proprietor, Mr. R. Patterson, who has, in connection with it, a good book and job printing office.

Among the public buildings may be noticed a large town hall used for municipal purposes. There are in the village and its immediate vicinity a large shingle factory and a turning mill, two saw mills and a tannery. The mechanical trades consist of two wagon and carriage shops, two blacksmith's shops, several shoe shops, one cabinet factory, two tailors, one tinsmith, and a harness maker. The carriage factory of Mr. Wm. Brogan is worthy of notice. The factory is a frame building, two stories high, and 30 feet by 40 feet.

Mr. J. G. Mosher, is engaged in the manufacture of pumps, horse rakes, and has in complete order a planing mill and wood turning factory. The building is a two story frame, 40 by 50 feet. An engine of 15 horse power is used, and about ten hands employed.

*Cigar Making.*—Messrs. W. Kelly & Sons, employ from seven to ten hands manufacturing cigars.

Mr. G. S. Henderson, employs about ten hands, and an engine of 12 horse power in the manufacture of shingles, staves and building materials

of all kinds. The factory is a frame, two stories high, and 30 by 40 feet.

*General Blacksmithing*.—Mr. William Davis, employs about four hands in this trade. The shop is a frame building, 30 by 50 feet, and contains three forges.

The mercantile business is well represented by the firms of Messrs. Mann & Travers; Scott, Brother; T. Galbraith, Mathews and others.

Mr. A. Gissing, druggist, does a large business in medicines, dye stuffs, oils, paints, and fancy goods.

There are 4 good hotels, viz: "The Railway Hotel," kept by Mr. Joseph Loney; The "Railroad House," by Mr. J. Dake; the "Union," by Mr. John Strode, and the "Black Horse," by Mr. Benjamin Johnston.

The 2nd Division Court of Oxford, is held here, W. H. Landon, Esq., Clerk.
