A first-class Saw Mill is attached to the Yard.

The best seasoned material used in the construction of Vessels.

PREFACE.

The Compiler and Publisher in presenting the first edition of the St. Catharines General and Business Directory, and the Business Directory of Thorold and Merritton, to the public, would say that, neither trouble nor expense have been spared to make it as complete and accurate as possible. Being the first work of the kind attempted, of course greater difficulty was experienced in perfecting it, and he therefore trusts that any little mistakes which may be discovered will be condoned by the promise of doing better next time.

The publisher is indebted to his friends for their liberal patronage of the Directory, for which he returns his most sincere thanks, as well to those gentlemen who have furnished him with information bearing upon the important work he had in hand. For many of the facts contained in the Historical Account of St. Catharines he is indebted to J. P. Merritt, Esq., whose fund of local knowledge is as great, perhaps as that of any other resident. The Publisher has inaugurated a work which he feels assured will prove of great benefit to all business men, and which will, beyond doubt, be carried at such intervals as the wants of the district may demand.

J. HORWITZ,
Compiler and Publisher.

St. Catharines, January, 1874.

ST. CATHARINES.

The County Town of the County of Lincoln, the Commercial and Banking centre of the Niagara Peninsula, and the largest ship-owning and manufacturing Town in the Province of Ontario, is situated on Lots Nos. 15, 16, 17, 18, 19 and 20, in the 6th Concessions; half of Lots 15, 16, 17, 18, 19 and part of 20, in the 5th Concession; the northerly 15 Chains of Lots, 15 and 16 in the 7th, Lot 17 five-sixths, of Lot 18, half of Lot 19, and one-fourth of Lot 20 in the 7th Concession, embracing an area of about 1,200 acres. It is distant from Toronto, by water, 33 miles, by land, 72 miles; from Hamilton, by rail 32 miles, by water 42 miles; from Niagara Falls, by rail, $11\frac{3}{4}$ miles. A daily line of Steamers connects the Town with all upper and lower Lake Ports, and being only three miles from the Lake Ontario terminus (Port Dalhousie), and Twenty-two from the Lake Erie (Port Colborne) terminus, of the Welland Canal, with Railway connections—by means of the Great Western, Welland, Air Line, and Canada Southern Railways, with all portions of the Continent, the facilities for travelling or transporting produce or merchandize, are unsurpassed, and trade, population and wealth, have therefore shown rapid and steady progress since the advantages above indicated were appreciated and utilized by the people. The water power afforded by the building of the Welland Canal, from the summit level at Allanburg to Port Dalhousie, has hitherto been considered the best in the Dominion, and hence capital and enterprise have been attracted to this part of Canada, and the result is a chain of mills, factories and machine shops, extending over nearly the whole distance—ten miles; and although there are those now living who can remember when the deed of the land on which St. Catharines is built, was purchased for a few hundreds of dollars, the prophecy of the Father of the Welland Canal (the late Hon. Wm. H. Merritt), that there would ultimately be one continuous Town from Port Dalhousie to Thorold, has very nearly been fulfilled; and when the new and enlarged Welland Canal is completed, it certainly will be.

The Town is situated on a level plateau, below what is commonly called "The Mountain," and is surrounded by a country, which for beauty and fertil-

ity, cannot be surpassed on the Continent. The temperature, in consequence undoubtedly of the proximity of Lakes Erie and Ontario, is higher and more genial than that of other portions of the Dominion, and hence, in addition to the usual cereals and vegetables grown in other parts of Canada, many of the semi-tropical fruits are cultivated and matured here in great perfection. Indeed, so beautiful is the scenery surrounding the Town, and so fertile the soil, the distinctive and flattering appellation of "The Garden of Canada" has been bestowed upon it by universal consent. Having their lot cast in such a beautiful spot, where nature and art combine to elevate man morally, physically and socially, it would be very extraordinary if the people did not avail themselves of those advantages, and therefore the Town possesses some of the handsomest and best public and private buildings in the Province—we might say, in the Dominion.

The Town owes much of its present and most of its past prosperity to the foresight, energy and ability of one man—the late Hon. Wm. Hamilton Merritt—who projected and fortunately lived to see completed and in successful operation, the Welland Canal, and any history of the Rise and Progress of the Town would be unjust and incomplete without indicating, in however meagre a way, some of the trials and difficulties which he, and the great national work with which his name is inseparably connected, encountered and overcame. The land upon which St. Catharines now stands, was owned at one time by a Captain Robinson, who was the commander of a vessel on Lake Ontario. At least the Town took its name from his widow, who brought this with other property, to her second husband, the Hon. Robt. Hamilton, of Queenston, from whom it was purchased, to the extent of 300 or 400 acres, by the Hon. Mr. Merritt, who appears to have been drawn to St. Catharines by the superior water facilities of the Twelve Mile Creek, and the abundance of material surrounding it. The conveyance from the Hamiltons bears the date of the 27th of March, 1816. It would appear from official returns that during a period of forty years, from 1784 to 1824,—the year in which the Canal was commenced, the population of the Township of Grantham did not increase one dozen families. The returns show that in 1784 the Township contained 236 heads of families; thirty-one years afterward, (1815,) 149 heads; 1821, 207 heads; and in 1824, 248, with a total population of 1245, while in 1784 the population was 1318, showing that during the war for national existence and British connection the people of Canada had not spared their exertions or lives. It appears that the amount which Mr. Merritt—after the war—agreed to pay for a large portion of the land on which St. Catharines now stands was £1,500, or \$6,000. The present assessed value of the real estate of the Town is \$2,694,538, and as the Assessors are

permitted a margin in valuation of 30 per cent., and as they are as a rule, presumed to be lenient, another 25 per cent may be added, giving the actual cash value of the real estate of the Town at \$4,176,534, showing increased value in real estate alone during a period less than a decade over half a century, of \$4,170,534.

The circumstances which first led the late Mr. Merritt to propose a Canal, was a failure or scarcity of water during the summer months, to supply the Mills which he had built. That gentleman, and those who were interested with him, imagined that if they could "tap" the Chippawa Creek, (now dignified by the name of the Welland River), that they would have a constant supply, and in addition, the facility for transporting their manufactures, and receiving the raw material (in the shape of logs and grain), by the same means. Several informal meetings were held in the store of Dr. Wm. Chase, (occupying the site of the Niagara District Bank), where everything, from a goose-yoke up to the most necessary article of household use, was kept for sale; and, one day, Mr. Merritt, who had informed his father that he (a youngster of 18 years), was not cut out for a ploughman, but that he would become a teacher of the people in a way in which they could improve their own and posterity's position, sauntered into Dr. Chase's store, and after listening to the conversation for a few minutes proposed that those who were then assembled should subscribe the sum or sums they could each afford, and procure a survey and estimate of the cost of the work. The proposition, after considerable adverse discussion, was accepted, and the munificent sum of \$21 was at once subscribed. This amount was afterwards, through the exertions of Mr. M., increased to \$61, of which he collected \$41. This, we believe, was in the year 1822. Mr. Merritt having now the line on which nature intended he should move, in the subsequent year (1823), secured sufficient funds, and a survey of the country lying between the Chippawa and the waters running into Lake Ontario, was made. On the 19th of June, 1824, the "Welland Canal Company" with a capital of £40,000, divided into shares of £12 10s. each, was organised and the first sod,—notwithstanding great and dire threats of shooting and doing other bodily injury to the projector—was turned on the 30th of November following. The original intention was to build only a Boat Canal up the valley of the Twelve Mile Creek to the foot of the mountain ridge—ascending from thence to the Beaver dam, by means of a Railway, and thence to the Chippawa, by a second Canal, tunnelled through the land on the site of the present Deep Cut. The first idea of the projector of the Canal was, however, abandoned as his thoughts were directed more earnestly to the work, and a Ship Canal was determined on, the capital stock of the Company being increased to £200,000, on the 13th of April, 1825.

The Company and the work, did not secure that attention or confidence from the people of Ontario that should have been bestowed, but they found in the late Right Rev. Dr. Strachan, a firm and able advocate, and on the 30th of January, 1826, an act was passed by the Legislature granting the Company a loan of £25,000, until the remainder of the Capital could be secured in England, to continue the work, the Directors of the Canada Company agreeing to act for the Welland Canal Company in that country.

On the 30th of September, of this year the British Government offered to advance to the Welland Canal £16,300 sterling, on condition of passing Government vessels and stores free of charge, which offer was accepted. In 1827 the Company obtained a Grant from the Legislature of 13,400 acres of land, and subscription to the amount of £50,000, on condition that the Company should pay the interest on the Stock so subscribed, until one year after the Canal was completed. The Legislature of Lower Canada subscribed £25,600 on the same terms. During 1828 such slips occurred in the Deep Cut that the idea of making the Welland River the Feeder, had to be abandoned, and the project of taking water from the Grand River, and erecting a wooden aqueduct over the Welland, with a dam across the Grand River, near Dunville, was started and by giving the Contractors and workman a personal interest in the carrying on of the work, the Canal was opened, and two vessels, the *Ann and Jane* of York, now Toronto, and the *R. H. Boughton*, of Youngstown, passed from Lake Ontario to Lake Erie, Notwithstanding the fact that the Canal Company had thus demonstrated that a Ship Canal connecting the Western Country by water with the seaboard by a short and cheap route was practicable, very strong and bitter opposition was shown to them, from which they only escaped after investigation by the Legislature and the Courts of law. In 1839 an Act was passed to purchase the private Stock of the Company, and in 1841 the work passed into the control of the Government, and in 1842 the enlargement was commenced, and finally completed in 1850. To show the great advantage the Canal has been to the people of Canada, it is only necessary to state that prior to its construction it cost £3 (£12) to convey a ton of produce from Lake Erie to Montreal, and £6. 12s. 6d. (\$26.50), upwards; in 1852, the cost was reduced to \$5 down, and \$5.26 up.

Thus proving that, notwithstanding the cost of the construction of the Welland Canal, that work has not cost the people a single cent; and that when the new and enlarged Canal is built, it will prove one of the most prolific sources of revenue in the Dominion.

In the year 1819, St. Catharines was visited by a severe conflagration which swept awry the forest and such buildings and inflammable material as were

within reach. The aspect of the country after the fire is described by an eye-witness as having been truly horrible, who says :—"Not a single bird animated the prospect, and the desolate shriek of the Raccoon, deprived of its den, alone proved that the tenants of the forest were not exterminated." At this period money was much more difficult to obtain than it is now, trade and commerce being carried on almost exclusively by bartering produce for merchandize, and vice versa. So scarce, indeed, was the circulating medium, that the farmer who was the proprietor of the first team of horses owned in the neighborhood, failed in raising \$1.50 on a load of oats, (about 40 bushels) with which to pay the taxes assessed against his property. The property comprising the land between King, Church, Queen and Academy Streets, was the year before the Canal was commenced, offered to a man then carrying on business, in exchange for a suit of clothing and a barrel of whiskey, and declined. Now the same property is worth about a million of dollars.

St. Catharines, in addition to being the chief Town on the Welland Canal, the county seat for Lincoln, and the commercial and marine centre of the Niagara Peninsula, and surrounded by a most beautiful and fertile country, possesses other advantages which annually attracts hundreds of invalids and pleasure seekers. In its far-famed CHLORIDE DE CALCIUM or Mineral Waters—the medical qualities of which have been tested for years by sufferers from all parts of the world, it has unfailing source of wealth. For the diseases for which they are a specific they are unequalled, and the constantly increasing numbers who avail themselves of their use, prove that their fame is extending. These waters were at first utilized for the manufacture of salt, which was carried on for many years, but it being observed that those employed about the works enjoyed an exceptional state of health, it was resolved to test the question as to whether the waters possessed medicinal properties which would bring about such a result, and investigation proved that they did. Dr. Wm. Chase, (who had purchased the property from Mr. Merritt), then commenced concentrating and bottling the waters for transportation to foreign and other markets, but the business, owing to a scarcity of capital and the meagre knowledge possessed by the people of the qualities of the water, did not prove a success, until it passed into the hands of the late Col. E. W. Stephenson, who developed and extended the business in a truly wonderful and gratifying manner.

The population of St. Catharines in 1850 was 3,500, in 1860, something over 6,000, and now it is fully 10,000.

MANUFACTORIES.

ST. CATHARINES SAW WORKS.—These works were first established in

Hamilton by Mr. Joseph Flint, of Rochester, N. Y. with the late Mr. W. H. Ward as Manager. Early perceiving that St. Catharines possessed superior facilities as a manufacturing centre, Mr. F. determined on moving them here, and in 1858 the removal took place, the old Towers' Works on the Mill Race, near the Woollen Factory, being leased. A fire subsequently destroyed these works, when Mr. Flint at once proceeded to erect larger and more suitable buildings. Mr. Ward having died, Mr. W. A. Rawlings became Manager, a position which he has filled with great credit to himself and benefit to his employers ever since. On the 25th of November, 1870, Mr. R. H. Smith became the proprietor, by purchase, of the Works; and under his proprietorship the business has extended so rapidly that it became necessary to secure still larger and more suitable buildings, and a lot was purchased from Mr. C. E. Stewart. This lot has a frontage on St. Paul Street East, of 99 feet, running back to the Canal between 500 and 600 feet. On this a fine cut stone front Building, 175X50 has been erected. The building is three stories high, and such pains have been taken in its construction that it is pronounced by competent judges to be one of the best of the kind in the country. The stone work was done by Pocock and Sons, the wood work by Mr. E. Switzer, Mr. W. B. Allen being the Architect. The building is heated by steam, and the motive power is supplied by a 75 horse Invariable Cut Off Engine, the boiler being patterned after the Babcock & Wilcox, and both manufactured by Messrs. Goldie, McCulloch & Co., of Galt. On the first floor there is an office 20X22, a ware-room, 33X20, and the Anvil, getting out and Grinding departments. In rear of this is the Engine-room Boiler, Tempering Furnace and Blacksmith Shop, 35X54. The second flat is devoted to the lighter class of work, such as the manufacture of Trowels, Hand Saws, and the wood-work necessary to the business. There are fifty hands now employed in the works, but it is the intention to vastly increase this force, in the Spring. Having a water frontage on the Canal, the manufactures of this establishment can be shipped direct to all the principal ports of the World. So much importance has been attached to the location of these works in St. Catharines that, although they have been established here for several years, the Council voluntarily exempted them from taxation for five years. See adv.

ST. CATHARINES AGRICULTURAL WORKS.—These Works were established in or about the year 1850 by Messrs. Samson, Sons & Company, and came into the possession of H. H. Collier Esq., Mayor of the Town for the past two years, in 1868. They possess the most perfect machinery, and turn out all kinds of Agricultural Implements, of superior quality. The average number of hands

employed is thirty, but with increased facilities, it is proposed to largely increase this number. See adv.

DOMINION STEAM COFFEE AND SPICE MILLS.—These Mills were established in Benson's Block, Ontario Street, by Mr. Peter Hendershot, a couple of years since, and, through the energy and ability displayed in their management, the business has been rapidly extended, and now the transactions embrace all parts of the Dominion, and portions of the neighboring republic. The works are run by a steam-engine. Mr. Hendershot is a large dealer in and importer of Teas, Spices, Chemicals, &c., and Manufactures Spices, Cream Tarter, Tartaric Acid, Saleratus, Climax Baking Powder, and the celebrated French Cream, English Breakfast, and Choice Java Coffees, and Double Superfine London and Durham Mustards. See adv.

ST. CATHARINES WHEEL WORKS.—These works were established on the Canal between this Town and Merritton by Messrs. R. McKinley & Co., about 1861, and with a change in the junior members of the firm, removed to the Novelty Iron Works, where the business was extended, becoming in a few years the most extensive establishment of the kind in the Dominion. Subsequently the firm purchased a property on the Canal, near the St. Paul Street Swing Bridge, opposite Shickluna's Ship Yard, where they erected several large buildings better suited to their business than the "Novelty Works." They employ from 80 to 100 hands constantly and manufacture every description of Carriage and waggon work, finished Shafts, Wheels, Felloes, &c. &c., which they ship to all parts of Canada and Europe. They have lately commenced the manufacture of a Patent Carriage and Wagon Wheel, which is said to be greatly superior to anything of the kind made. The power employed is an 80 horse steam-engine, and all the latest and best machinery is obtained as soon as its merits are established.

ST. CATHARINES AND LINCOLN CARRIAGE FACTORY.—The work from this Establishment has proven to be of a superior quality, for wherever brought into competition the premier prizes have been awarded to it. So well has the reputation for beauty and durability of his Carriages, Phaetons, Buggies, &c., been established that the proprietor, Mr. George Smith, has received and filled orders, from all parts of North and South America, the West Indies, &c. Having sufficient capital at his command, Mr. Smith is able to use the best material in his work, and keeping alive to all the latest improvements, and adopting them so soon as proven to be of use and benefit, his productions are ever up to the "spirit of the age." The Factory is located on the corner of James and King Streets, nearly opposite the Market. See adv.

SOAP AND CANDLE MANUFACTORY.—This establishment is located on the corner of Queenston Street and the Thorold Road, and has been in successful operation for some eighteen or twenty years. The establishment enjoys a high reputation throughout the country—a reputation which Mr. James Bishopric, the proprietor, has earned by integrity and industry.

PACKING BOXES, REFRIGERATORS, &c.—The largest establishment of the kind in the Town is the one owned and conducted by Messrs. Mesler and Plumstell, on the corner of Church and Queen Streets. They manufacture Packing Boxes, Refrigerators, Tanks, Step, Extension and Common Ladders, Chain Pumps, Zinc Washboards, Fruit Boxes, &c. The establishment is run by steam and has steadily gained in public estimation and support.

ST. CATHARINES BREWERY.—This is one of the most extensive establishments of the kind in the country, and before the Civil War in the United States, its exportations to that country were extremely large; so extensive indeed, that the proprietors, Messrs. Taylor and Bate, found it necessary to establish agencies at leading points in that country. The brewery is situated on the Canal, between Locks 2 and 3, and the facilities for manufacturing, storage and shipping are unsurpassed. The vaults, extending under the banks of the Canal, are of a most extensive character, and capable of storing an immense quantity of Ale, Porter, Beer, &c.

SHIP BUILDING.—This is one of the most if not the most important branches of manufacture in Town, and has contributed very much to the wealth and population. The pioneer in this business, if we except the building of a few small craft by the company of which the late Capt. Arnimtinger was manager, is Louis Shicklunna, Esq., who assumed control of the St. Catharines Dry Docks and Ship-Yards in 1830. His works are situated on the Canal near the Swing Bridge, and comprise everything which is necessary to turn out first-class vessels on the shortest possible notice, and in the best style of naval architecture. Indeed, so celebrated has his name become as a ship-builder, that, until the American tariff intervened, the owners and masters of vessels passing the Welland Canal, made it point to have their repairing, rebuilding and new work done at this yard. Mr. S. has been successful, and has secured an ample fortune and it is to be hoped that his declining years will be passed in that comfort and happiness, which, high merit and great energy of character deserve. He was the builder of the *America* and *Canada*.

SIMPSON'S SHIP YARD.—This yard was established a few years since at Lock 5 by Mr. Melancthon Simpson, a gentleman who came here with a first-class reputation as a ship-builder, and who, since then, has added materially to his reputation by launching some of the staunchest and handsomest steam and sailing vessels which navigate the lower lakes. In his manager, Mr. George Gardiner, Mr. Simpson enjoys the services of one who is a born mechanic, to whom no piece of mechanism is a mystery. A large proportion of the propellers forming the through lines between Chicago and Montreal were built at this yard. Mr. S. enjoys every facility for turning out cheap and good work, and no doubt he will reap the reward of industry and great natural ability properly applied. He employs between eighty and one hundred hands, and takes care that every one of them shall be the best in their several departments. There can be no question but that, with such facilities as he possesses, the reputation of St. Catharines as a point for ship building will be greatly extended. The saw mill is fitted up with what is known as a regular ship mill, with a patent bore for cutting logs to any bore which may be required. A block shop is over the saw mill, and the blacksmith shop has patent iron and bolt cutters.

EDGE TOOLS.—The Welland Vale Works, situated on the old Canal near Lock 2, are the most extensive of the kind in the country—the site occupied by the mills, to secure a permanent supply of water for them, led to the building of the Welland Canal. The works are driven by steam or water power, as may be required. They manufacture every description of edge tools, axes, scythes, and the celebrated Rolden Fork. The machinery is of the most perfect character, and no doubt, like all factories established on the line of the Welland Canal, the Welland Vale Works will prove a source of profit to their owners, and of great benefit to the community generally. The manager is Mr. William Chaplin, a gentleman of extensive experience in his line of business. An inspection of these works will well repay those who take an interest in the mechanical industry of the country.

ST. CATHARINES PUMP WORKS.—These works were established by Messrs. A. M. & John Mills in 1837, the first in the Province, and have, through energy and ability, been built up to the most extensive works of the kind in the Dominion. About twenty years since Mr. John Mills withdrew from the firm, and the works were continued by his brother until his death, when the son of the latter assumed control, under the firm of C. P. Mills & Co. The business has extended so rapidly that it is the intention to erect larger and more convenient brick premises in the Spring. The works are situated on the

mill race, and all kinds of Lift and Force Pumps for wells and cisterns, Brass Pumps for Artesian Wells, Tanneries, Refineries, Double-Acting Force Pumps for ships, steamboats, fire purposes, and other Hydraulic Machines, are turned out in the most perfect manner. The Great Western, Welland, Air Line and other railway companies use none but the Pumps from this Factory. The firm adopt all the recent improvements as fast as they appear, and are constantly experimenting themselves for the purpose of improving the machines made, and the result is that the work produced here is of the most perfect character. A visit to the works will well repay the time and trouble consumed.

PATENT MEDICINES.—The manufactory of Huff's Liniment, Dr. W. W. Huff, proprietor, was established here in 1859, and a very large business has been done in the celebrated Huff's Liniment, Vegetable Syrups, Ink and Blacking.

ST. CATHARINES NURSERIES.—These Nurseries are located on Geneva street north, and are the most extensive in the Dominion, equalling in variety the most celebrated and largest in Europe or America, and the proprietors, Messrs. Beadle & Buchanan, spare neither pains nor expense to keep up with the age. Every description of Tree, Shrub, Flowers, &c., grown either in the open air or under glass, may be seen and purchased at this Nursery. The people of the town feel proud in the possession of such a beautiful and useful place as that owned by Messrs. Beadle and Buchanan, and there is ample reason for entertaining the feeling.

OIL WORKS.—St. Catharines Oil Works, Lock 2, Hiram F. Leavenworth, proprietor, are the oldest and most extensive works of the kind in the town. Mr. L. has devoted much attention and study to the production of first class illuminating oils, and has succeeded in putting an article on the market which commands a ready sale.

CABINET MAKING.—There are several firms engaged in this business, among the oldest of which is that of McIntyre & Son. The business was commenced by the senior member of the firm in 1834, and has increased. They do a large business in furniture of all grades, Upholstery Goods, Mattresses, Feather Pillows, Bedding, the Woven Wire Mattress, &c., &c.

BLACKSMITHING AND CARRIAGE MAKING.—There are quite a number of these establishments, among which may be mentioned that of Mr. Neil McIlroy, corner of Geneva and Church streets. Mr. McIlroy has been very successful, and enjoying a long experience in the business, turns out good work.

TANNERIES.—Mr. Wm. H. McCordick must have great faith in the old adage. "There is nothing like leather," for he claims that at all our exhibitions for the past ten years he has carried off first prizes for Calf and Kip Skins, and other kinds. He is the manufacturer, in addition to the usual descriptions of Leather, of the celebrated Lace Leather, which is used in the manufactories on the Welland Canal, and throughout the Dominion. His Tannery is situated on Chestnut street.

BREWERIES.—In 1834 the brewery now owned by Messrs. Taylor & Bate, Brewery street, was established. The firm does its own malting, employ between twenty and thirty hands, and turn out between 5,000 and 6,000 barrels per annum.

LUMBER YARDS.—Messrs. Gillespie & McLean, at Lock 5, Welland Canal, carry on a very extensive business in Lumber and all kinds of Builders materials, turning out between one and two million feet each year, and the firm purchase about as much more. They employ from 20 to 25 hands.

Mr. J. S. Eager has very recently established no less than three yards on Ontario street, and is undoubtedly doing a large and profitable business. His facilities for filling orders appear to be of the best description.

Hellems & Wilson have a very extensive yard on the junction of Geneva, Queenston, Niagara and St. Paul streets.

Mr. James McNeil has a large yard on the Phoenix (Red Mills) Dock.

N. & O. J. Phelps, at Lock 8, have a very extensive yard.

BUILDERS AND CONTRACTORS—In consequence of the large and rapid increase in the population and wealth of the town, this has become a leading business. Among the most extensive Builders is Mr. S. G. Dolson, whose place of business will be found on Church street. Some of the largest and finest buildings in town have been erected by him.

Messrs. Thompson & Ness, St. Paul street, corner of Bond, have in the course of a few years, built up a good reputation, and now do a very extensive business, and will, no doubt, extend it very much, in the course of time.

PLANING AND SAW MILLS.—Messrs. Gillespie & McLean, in connection with their Lumber Yard at Lock 5, have extensive Saw and Planing Mills, from both of which they turn out a large quantity of Building material of all kinds. Their mills have been in operation a long time, and have always enjoyed a good reputation.

Mr. J. S. Eger has just erected on Ontario street, in the third of his Lumber yards, a Planing Mill, and no doubt will devote his great energy and business ability toward making this as successful as he has made his lumber business.

St. Catharines Planing Mills.—Mr. S. G. Dolson, proprietor, are very extensive, and under such good superintendence as that of Mr. D., of course constantly increases in reputation and business. The Mills are very extensive, and turn out all kinds of Building material.

Hellem & Wilson have large mills on the corner of Geneva and Niagara streets.

M. McCormick carries on the Planing business at Lock 5.

LOUR AND GRIST MILLS.—Messrs. R. & J. Lawrie have large flouring mills at Port Dalhousie, where they do a very large business; and in connection they some years since established a flour and feed store at Nos. 109 and 111 St. Paul street, in this town, the pioneer establishment of the kind.

There are five other first-class grist and flouring mills in town, owned and operated by the following gentlemen: James Norris, Sylvester Neelon and Alex. Hutchinson.

ST. CATHARINES STEAM POWER COFFEE WORKS AND WHOLESALE SPICE ROOMS.—This establishment now situated near the Novelty Works, and occupying a portion of C. C. Nelson's Soda Water Factory building, was opened in St. Catharines January, 1871. The proprietor, Col. J. L. Bowen, has been long and favorably known to the merchants along the whole line of the Welland Canal as a manufacturer of and dealer in the speciality of coffees, he having conducted the same business prior for a term of years at Port Robinson, from which place he established a large trade. Since his removal to St. Catharines, as a result of his personal attention to the manufacture, and the widespread popularity of his stock, his business has quadrupled in amount. His long and intimate knowledge of all grades of coffees gives him a peculiar advantage in the selection of stock, and is a guarantee of good value in all grades offered to his customers. He also keeps on hand a full assortment of Ground Spices, subject to the order of the Trade.

SODA WATER, &c.—The most extensive establishment of this kind is carried on by Mr. C. Nelson, 84 Queenston street, where he has the most improved machinery, and turns out a large quantity of all the different non-intoxicating beverages.

CIGAR AND TOBACCO MANUFACTORY.—The only establishment of this kind is carried on by **Messrs. Harris & Barston**, 25 St. Paul street, who have been engaged in the business for a number of years. They import their material direct from the producers, and manufactures a very large quantity of both cigars and tobacco, which is disposed of in all the leading points in the Dominion.

CANADA KNIFE WORKS.—Were established in 1870 at Lock No. 6 Welland Canal by **Messrs Collinson, Burch & Co.** The buildings consist of warehouse, counting room, grinding shop, blacksmith shop, and punching or shearing room. From 25 to 30 hands are in constant employment, making reaping and mowing knives, knife sections, guard plates and heel blanks.

FOUNDRIES AND MACHINE SHOPS.—In this business are **Messrs. Yale & Co., C. M. Abell and G. N. Oille.**

PUBLIC SCHOOLS.

TRUSTEES.—**J. E. Coff**, Chairman; **C. Brown, J. McLaren, William Greenwood, W. D. Balfour, Eli Higgins, F. Connor, James Mills, C. W. Hellems, jr., William Boles,**

J. H. Comfort, M. D., Inspector; **John Rollinson,** Secretary.

CENTRAL SCHOOL.—Church street, **J. B. Gray**, Principal; **Robt. McClelland;** Misses. **Duck, Maggie Crawford, Kate Boyle and Morton** assistants.

COLLEGIATE INSTITUTE.—Church street. Trustees.—**J. C. Rykert, M. P. P.** Chairman, **James Douglas,** Secretary-Treasurer, **F. W. MacDonald, Dr. E. Goodman, Dr. A. Jukes, and Dr. L. S. Oille.** Teachers.—**J. Howard Hunter,** Head Master; **John Henderson,** 1st assistant, do; **James Elliott,** 2nd assistant do; **D. McDonald,** 3rd do; **J. Hipple,** 4th do; **Miss. Montgomery,** Lady Teacher.

ST. THOMAS' WARD SCHOOL.—Hainer street, **Miss Mary Snively,** teacher.

ST. ANDREW'S WARD SCHOOL.—Church street, **Miss Amelia Wilkins, Miss Matilda Vanderburgh, and Miss Ward,** Teachers.

ST. GEORGE'S WARD SCHOOL.—Central School Building, Church street, **Miss Louisa Dorche, Miss McLaren, and Miss Ida Jones,** Teachers.

ST. PAUL'S WARD SCHOOL.—Church street, near junction of Queenston street, **Miss Corbin, Miss Diusey, Miss Snively, and Mrs. Braidford,** Teachers.

SEPARATE (R. C.) SCHOOL.—Church street. A male Teacher for advanced pupils, and eight sisters of **St. Joseph** in charge.

COLORED SCHOOL.—Central School Building, Church street. **Mr. George Baxter,** Drawing Teacher, **Miss Sarah Kindgom,** Teacher.

A. F. & A. MASONS.

This Order, which a few years ago was in a very languishing condition in town, is now one of the strongest and most respectable. Indeed, so fast has it increased in members and wealth that a larger and more commodious Hall became necessary, and a movement was at once commenced to raise the requisite funds to purchase a site and erect a suitable building thereon, and the result is a very fine Temple on Ontario street, four stories high, 53x90, Mansard roof, and iron front; the cost being \$26,000. The builder was Mr. S. G. Dolson of this town, and the architect Mr. Henry Langley, of Toronto. The Temple is one of the handsomest, and best buildings in the town. The following are the officers of the

MASONIC ASSOCIATION.—Calvin Brown, President; L. S. Oille, Vice-President, James McEdward, Secretary; James Mills, Treasurer. Directors, D. D. Moore, John W. Coy, Albert Chatfield, Robt. H. McMullin, and Chas. E. Stewart.

The following are the names, members, officers and times of meeting of the different Lodges:

M.; Robert Kane S. W.; William Dougan, J. W.; Samuel A. Dougan, Sec.; V. P. M., Walter Chatfield, Treasurer; James Taylor, S. D.; Alexander McLaren, J. D.; Louis Dorr, D. of C.; W. W. Greenwood and A. L. Riggins, Stewards; Robert Gourley, S. G. James A. Mill and Albert Brown, A. M. C. G. P.; Richard Ratcliffe, Tyler.

MOUNT MORIAH, R. A. CHAPTER, No. 19, G. R. C.—Regular meetings on the Thursday on or before the full moon. Officers for year 1873 and 1874—Ex. Comp. John Dale, P. Z.; R. Ex. Comp. Elwin Goolbsom, Z. Council; V. E. Comp. Robt. Strathers, H. Council; E. Comp. I. P. Willson, J. Council; Comps. Wm. Dougan, Scribe E; George Walker, Scribe N; Peter McEachern, P. S. journeyer; John McDonagh, Treas.; John W. Coy, 1st Asst. Sij; George Collins, 2d Asst. Sij; John McD. Grey, Wm. E. Clerk, John H. Robeson, Master of Veils; V. E. Comp. Henry Carlisle, Organist; E. Comp. James B. Fowler, D. of C.; Comps. Alex. Howell, Sword Bearer; Samuel A. Dougan and Bernard Rogers, Stewards; Theophilus Mack and H. H. Collier, A. M. C. G. P.; Richard Ratcliffe, Janitor.

I. O. O. F.

The Independent order of Odd Fellows' has increased very fast in this town and vicinity, (where, we believe, the pioneer Lodge, Union No. 16 was established, about 25 years ago.) and is now one of the strongest. A few years since a fine three story brick Hall, 32X80, was erected by the Order, on the junction of St. Paul and Ontario streets, facing the former, at a cost of \$10,000. Last year a tower with Mansard roof, giving another story, was added, making the building one of the handsomest in the town. The builder of the original building was Mr. S. G. Dolson, and of the addition, Mr. Louis Dorr; the architects being for the first Mr. John Latshaw, and of the second, Mr. W. B. Allan.

The Trustees are—Bros. T. Healey, S. G. Dolson, George Wales, J. B. McIntyre, James Bird, Walter Chatfield, and Abram Martin. The following are the names, numbers of the Lodges, and times of meeting:—

UNION LODGE, No. 16. I. O. O. F.—Meets every Monday evening in Odd Fellows' Hall, Ontario street. Officers for 1874:—Harper Wilson, D. D. G.; A. L. Riggins, P. G.; Dr. Wm. Dougan N. G.; James N. THOROLD.

This Village is situated in the Township of the same name, in the County of Welland, and is the second place in business importance, population, and wealth, on the line of the Welland Canal, and possesses almost unlimited water power; being located at the head of the series of locks, by which the summit level, between Lakes Erie and Ontario is reached. The Great Western, Welland, and Air Line Railways have stations here. The Village is built on the summit of "The Mountain," and commands an excellent view of Lake Ontario and surrounding country. A few years since, the principal business portion of the Village was destroyed by a fire, but this disaster has, in reality, proved a blessing in disguise, for the burnt district has been built over by a far superior class of buildings; and since the conflagration, the place has shown a more rapid and healthy growth than previously; and the commencement of work on the new and enlarged Welland Canal, must tend to give the Village an extra impetus in its progress toward a city; for, being built on the narrow creek of land separating the old from the new canal, and in the vicinity of the stone quarries, from which the greater proportion of the material for building the locks and regulating weirs must come, it will become the head-quarters of the workmen employed on a large part of the canal—and when that great national work is completed, the water power of Thorold will be more than doubled, and then the Village must become the centre of a large, and constantly increasing manufacturing and industrial population. Distant from St. Catharines, 4 miles. Niagara Falls, 6 miles. Population, about 3,000. Daily Mails and Money Order Office; also Telegraph Offices.

MUNICIPAL OFFICERS.

REEVE—John McDougall, Esq.

CLERK—Thos. Lamphman, Esq.

TREASURER—

COUNCILLORS—Messrs. Archibald Weir, Archibald Dobbie, Martin Jamieson and David Sharp.

PUBLIC SCHOOLS.

1ST PUBLIC SCHOOL.—Henry James Brien, head teacher; Miss Eliza Patterson, assistant teacher.

2ND PUBLIC SCHOOL.—George Cork, head teacher; Miss Margaret Robertson, assistant teacher.

SEPARATE (R. C.) SCHOOL.—Mr. J. O'Leary, teacher.

GRAMMAR SCHOOL.—Rev. N. Burns, M.A., Principal; Miss Bowen, assistant teacher.

CHURCHES.

EPISCOPAL CHURCH.—Rev. T. T. Roberts, Rector.

CANADA PRESBYTERIAN CHURCH.—Rev. S. C. Fraser, Pastor.

WESLEYAN METHODIST CHURCH.—Rev. John Clark, Pastor.

ROMAN CATHOLIC CHURCH.—Rev. Father Sullivan, Rector; Rev. Father Ezau, Curate.

SOCIETIES, INSTITUTES, &c.

MECHANICS' INSTITUTE.—Geo. Baxter, President; Chas. Munro, Secretary; D. Sharp, Treasurer; S. Cleveland, Librarian; open for the exchange of books every Monday and Thursday evening. This Institute is one of the largest and most flourishing in the Province in proportion to population, numbering about 200 members, and having 1,700 volumes in the Library, about 160 of which are taken out weekly. They have occasional lectures on scientific and other useful and interesting subjects, with an annual excursion, the proceeds of which go toward the purchase of additions to the Library.

A. F. & A. MASONS.—Mountain Lodge, No. 221. W. O. Cowan, W.M.; W. T. Fish, Secretary. The Lodge is in a prosperous condition, numbering about 100 members.

ST. GEORGE'S SOCIETY.—James Dail, President; Samuel Osborne, Secretary; W. Bull, Treasurer. Has about 80 members.

ORANGE SOCIETY.—Black Lodge, No. 282; numbers about 30 members. William Winslow, W.M.; George Morley, D.M.; Stephen Bradley, Registrar; George Turner, Treasurer. — L. O. L. 204; Stephen Bradley, W. M.; Arthur Bradley, D. M.; Alex. Phelps, Sec'y; Peter S. Harfoot, Treas.—L. O. L. 130. Dr. R. J. Johnson, W. M.; Albert Carr, D. M.; Wm. Martin, Sec.; John Henderson, Treas.

MCDONAGH'S SAW MILLS.—These Mills are the most extensive of their kind in the Niagara District, and from them are turned out all kinds of rough and dressed Lumber, Lath, Shingles, Pine, Oak, and other kinds of Timber, &c.

&c. Mr. McDonagh has been in possession of them for some fourteen or fifteen years, and during that time has transacted a large amount of business in Canada and the United States. As an evidence of the proprietor's popularity, and of the estimate entertained of his integrity and business ability, it might be stated, that for the past five or six years, he has been annually chosen as Reeve of the Village of Thorold, on nearly every occasion without opposition.

EARTHENWARE.—The only establishment of this kind in the District, is that carried on by Mr. Walter Briddon, at the Guard Lock. The business was established by Mr. Samuel Briddon, the father of the present proprietor. Every description of Earthenware is manufactured, and the productions are sold in all parts of the Province. (See Adv.)

GRIST MILLS.—There are quite a number of these in the Village, among which may be mentioned that of Messrs. McPherson and Weir, who do a general custom business, and supply all kinds of Flour, Mill Feed, &c., at low rates.—See adv. The other mills are owned by Messrs. Lawson & Cowan, Messrs. Band & Hutchinson, and Messrs. Howland & Wadsworth.

GROCERIES AND PROVISION STORES.—Of course in a stirring place like Thorold there are quite a number of groceries and provision stores, among which we may mention that of Mr. Lally, Front street, who keeps a good general stock on hand. (See Adv.)

BANKS.—There are two Bank Agencies in the village, those of the Quebec and Bank of Commerce.

THE QUEBEC BANK.—Located on Front Street. The Bank has a capital of of \$3,000,000, and since the Agency has been opened, a good business has been done. D. B. Crombie Esq., Agent. P. R. Turner Esq., Clerk. (See Adv.)

BANK OF COMMERCE.—The Agency of this Bank is in Munro's Block, Front Street. The Bank has a capital of \$6,000,000, and of course with such large resources, must do a large business. The Agent is D. Stowe Keddie, Esq., and the clerk, C. J. Munro, Esq. (See Adv.)

BARBERS AND HAIR DRESSERS.—Those who believe in preserving a decent and presentable exterior may have their every want supplied, in the shape of tonsorial adornment, by calling on Mr. T. De Bois, who is an artist of long experience and good ability. (See Adv.)

MR. LEWIS LITTLE is one of those Knights of the Razor and Shears who can give satisfaction, and whose business ability is good. (See Adv.)

CEMENT MILLS.—John Brown manufactures Quick and Water Lime, and the best quality of Building Cement: at the same time carrying on the largest building and harbour Contracts. His recent operations in that way have been confined to the improvement of navigation of the Lake and River St. Clair.

HOTELS.—There are several Hotels and Restaurants, the principal of which is the Welland House, a new erection on Front Street, and which, under the control of Mr. Little, is doing an excellent business. (See Adv.)

The other Hotel proprietors are Roderick Campbell, "Caledonian House," Volney Mann, "Dominion House," Mrs. Wm. McCarthy, "Mansion House," Wm. Winslow, "British Hotel," Anthony Locke, "Thorold House," James Taggart, "Taggart House."

WATCHMAKERS AND JEWELERS.—There are two establishments of this kind in the village. Mr. J. B. Parks keeps on hand a large stock, purchased in the best markets for cash. (See Adv.) Mr. John Schauf has also a large Stock.

BOOTS AND SHOES.—Mr. James Taggart keeps a good Stock on hand.

FOUNDRIES.—Mr. A. Dobbie has a large Foundry and Machine Shop.

CABINET MAKERS AND FURNITURE DEALERS.—There are three engaged in this business, viz: Messrs. Wm. Howell, Michael Urlocker, and Henry A. Smith, who all keep good Stocks.

BARRISTERS.—There are two Lawyers in the village—Mr. Frederick Lampman and Mr. George Baxter.

MERRITTON.

This place is of modern growth, and is the result, undoubtedly, of the great water power on the Welland Canal having attracted to it men of capital and enterprise, who have erected some of the largest and best Mills and Factories in the Province. Merritton now takes rank as a village, and in the course of next month will enjoy the privilege of having a Reeve and Council of its own, a change which, it is supposed, will give greater advantages toward making local improvements. The principal manufacturing establishments are

BEAVER COTTON MILLS.

BEAVER MILLS.—These Mills are the first of the kind established in Canada, and are situated on the Canal, Merritton, where the facilities for manufacturing are unsurpassed. When Mr. W. W. Wait, the proprietor, commenced business in 1857, he found great difficulty in persuading the Canadians that such articles as he offered for sale could be made in Canada—but now he finds employment for about 80 hands, and is constantly extending his facilities and business. For particulars see advertisement page.

ST. CATHARINES PAPER MILLS.—This establishment is among the largest and best appointed of the kind in the country, and has yielded to the proprietor, Mr. John Riordon, a handsome competency.

LYSTER COTTON MILLS.—These Mills are owned by a Toronto firm, and employ from 100 to 150 hands.

HUFF'S LINIMENT !

This article has been thoroughly tested in this Country during the past 30 years, and has been found to be the cheapest and most useful Remedy for all external Complaints, ever offered to the public. It is a sovereign Remedy for

Sprains, Bruises, Burns, Felons, White Swellings, Scalds, Scratches,

FRESH WOUNDS AND SWELLINGS

Of every description, on Man or Beast. Also

RHEUMATISM,

Ague in the Breast, Inflammation of the Eyes, Contraction of the Cords and Muscles, Cure of Warts, Chilblains, Dislocated Joints, Broken Limbs, Frozen Feet, External Poisons, Galls of all kinds, Cracked Heels, Mange, Ring Bone, and Spavin, (if applied when first lame) Sand Cracks, together with external Bruises or Wounds, to which it may be applied at all times with perfect safety. For BURNS and SCALDS no other remedy excels it. If immediately applied; if blistered, apply it until the fire is extracted and it will not leave a scar.

RECOMMENDATIONS.

We the undersigned, having witnessed the good effects of HUFF'S LINIMENT, do cheerfully recommend all persons to keep it by them at all times:—
V. B. Beeton, James Mills, R. Boyle, St. Catharines; Capt. L. Cotton, N. S. Gilbert, J. W. Hall, Amansel D. Jackson, Capt. Shook, Loomis, Lyman, David Steeper, John Miller, H. Dickey, Nelson Cornwall, Heman Wickwire, Charles Tees, Bidwell, Banta & Co., Capt. A. H. Squire, Capt. H. Whitaker, and others.

 Manufactured by WILLIAM W. HUFF, Veterinary Surgeon, and sold wholesale and Retail at corner of St. Paul and Chestnut streets, St. Catharines, Ontario. Dealers supplied on most liberal terms.
