ST. CATHARINES :

PRINTED AT THE STAR STEAM BOOK AND JOB OFFICE.

1887.

PREFACE.

In presenting to the public our second edition of the ST. CATHARINES AND COUNTY OF LINCOLN DIRECTORY, we desire to state that the object which we trust has been attained is to provide a work full, complete and reliable, which will prove useful to all classes of the community. Every house in the city has been visited, and a street guide has been added which will no doubt prove to be very useful. In the county, in addition to the freehold, tenant farmers, their sons of age has been included, also the names of the widows and single ladies owning or renting farms, etc. We purpose republishing this work every three years and every edition will have the very latest improvements.

St. Catharines, June, 1887. W. H. IRWIN & CO.,

NO. 97 ST. PAUL ST., ST. CATHARINES.

ST. CATHARINES.

The City of St. Catharines, the county seat of Lincoln, is situated on a level plateau below the mountain, and is in the centre of the most fertile and thickly settled agricultural districts of the Province. It is the principal point on the Welland Canal. A street railway connects the city with Merritton and Thorold.

The principal public buildings are the county buildings and court house, costing \$32,000, the post office, St. Joseph's convent, Protestant home and refuge, marine hospital, grand central block, Allan block, Broadway block, Masonic temple, Academy of music, Keating block, and the churches, which are mostly built of stone and brick, and finished after the most modern styles of architecture. The school buildings are also substantial brick structures.

The Grand Trunk railway (Southern division) passes through the city, and the Welland division, running north and south, connecting with the Michigan Central, G. W. Air line, and the Buffalo and Goderich branch of the G. T. R. There is also a new line (the St. Catharines and Niagara Central) being built, connecting the city with Buffalo on the east and Toronto on the west.

Ship building is largely carried on here. The water power is largely made use of by some of the most extensive flour mills in the Province. In addition to these industries there are numerous other manufacturing establishments. There are three daily and three weekly newspapers.

The city is divided into six wards, viz : 1st, St. Thomas ; 2nd, St. Andrews ; 3d, St. George ; 4th, St. Paul ; 5th, St. Patrick ; 6th, St. James ; each returning three aldermen to the city council. Population, about 10,000. Assessed value, \$3,902,198.

Distant from Toronto by water 33, by rail 72 ; Hamilton, 32, Niagara Falls 12, and Buffalo 35 miles.

CITY COUNCIL, 1887.

J. E. Cuff, Mayor.

COUNTY OF LINCOLN.

The County is bounded on the north by Lake Ontario; on the east by the Niagara river; on the south by Welland and Haldimand counties, and on the west by Wentworth county. It contains thirteen municipalities, viz: The townships of Caistor, Clinton, Gainsboro', Grantham, North and South Grimsby, Louth and Niagara; the town of Niagara; and the incorporated villages of Grimsby, Merriton, Beamsville and Port Dalhousie.

The County is watered by numerous small creeks and streams, some of which afford ample water power for mills and factories. It is also admirably situated for agricultural purposes, the greater portion of it being elevated on a high table-land, having a limestone base with a good depth of soil above it; the surface is generally undulating, forming a succession of hill and dale. Being situated between two large bodies of water, Lakes Erie and Ontario, it is less liable to suffer from late and early frosts than many other portions of the Province; hence it has long been celebrated as a fruit raising district.

The County is intersected by the main line of the Southern division of the Grand Trunk Railway, which enters it at the west border, near Grimsby station, and passing through Louth and Grantham, passes out on the south line at Merriton; the Welland Railway, running from Port Dalhousie south and passing out at Merriton on the south line; and the Niagara Division of the Michigan Central Railway, running from Niagara south to the International Bridge, and leaving the County on its south border near St. Davids, and also the St Catharines and Niagara Central Railway. Through this County also runs the Welland Canal, that great work of engineering skill which has overcome the difficulty thrown in the way of the navigation of the great lakes by the Falls of Niagara.

The County of Lincoln originally formed part of the old Niagara District, which was comprised of the present counties of Lincoln, Haldimand and Welland. The Niagara District, in 1817, contained a population of 12,540 inhabitants; in 1824 the number had increased to 17,552; in 1834 to 27,347; in 1839 to 29,953; and in 1848 to 36,534.

The area of the County is 107,501 acres. Population about 22,000. Assessed value, \$9,139,278.

COUNTY COUNCIL, 1887.

JAMES OILLE, WARDEN.

NIAGARA.

A town situated on the banks of the Niagara River and Lake Ontario, in the township of Niagara, 12 miles from St Catharines, with which it is connected with stage daily, and 12 miles from the Falls by the Michigan Central Railroad. In summer steamboats ply between here and Toronto, making this one of the most pleasant places for the pleasure seeker. The Canadian Chatauqua grounds are located here. Population 1,250.

TOWN OF THOROLD.

Thorold is situated on the summit of the elevated or mountain range that divides the Niagara Peninsula into two sections, usually designated by the terms "above the mountain" and "below the mountain." It is in the County of Welland, just south of the line which divides it from the County of Lincoln, and about eight miles from the Niagara River and the Falls. It is on the Welland Canal, and derives its chief importance from that great public waterway, as the lockage is found within its precincts. It is an active, enterprising town of about 2,800 inhabitants, and there is extensive water power which is used for manufacturing purposes. It has four grist mills, five churches, six hotels, two public schools, a separate school, and a high school, and two banks. There are also some other factories which are engaged in the production of many articles which enter into the general trade of the country and contribute to swell the sum total of industrial products. Thorold was called into existence by the Welland Canal, and yet derives its chief advantages from it. It is about eight miles from Port Dalhousie, and between the latter place and the head lock in Thorold the elevation is attained by twenty-four locks having a combined lift of 330 feet. It is connected with the city by the St Catharines, Merritton and Thorold Street Railway, it is also a station of the Welland branch G T R and the St Catharines and Niagara Central Railroad.

Wm. McCleary, mayor. W. T. Fish, clerk.
