PREFACE. JUL 11 1934

In presenting to the Public our first edition of THE COUNTY OF YORK GAZETTEER AND DIRECTORY, we desire to state that the object, which we trust has been attained, is to provide a work that will prove not only useful, but interesting; and that every means in our power has been used to render it complete and reliable. The Postal addresses of the farmers and other residents of the Townships, will, it is hoped, prove particularly valuable.

We present our acknowledgements to the Editors of the County papers, the Clerks of the several municipalities, Postmasters and others who have kindly favored us with the necessary information.

BRITISH AMERICAN BUSINESS COLLEGE.

WHAT CAN I DO BEST? What business will produce the largest return for the capital and labor invested? The great struggle of the present day is for the "mighty dollar," and he who wants to get money must keep pace with the times, and thoroughly understand his business, which must have his undivided attention. In order to learn HOW TO DO BUSINESS SUCCESSFULLY, ATTEND THE BRITISH AMERICAN BUSINESS COLLEGE.

BECAUSE its Location is in the great metropolis of Ontario, just where a first-class Business College should be.
BECAUSE its Course of Instruction is a speciality in each department, and is admirably adapted to the wants of the business community.
BECAUSE its Principle and Teachers know how and what they teach.
BECAUSE They have entire confidence of all business men.

its Penmanship has been awarded the first prize of the Provincial Fair for many consecutive seasons. For several years past we have not taken the trouble to compete.

BECAUSE its Graduates are found to be rapid and reliable Accountants, many of whom are occupying the highest positions of trust.
BECAUSE its Patronage is ample. Its rates of tuition are as low as possible. No Business College in Canada can offer equal facilities.
BECAUSE the Bankers and Merchants of every Town in this Province, can from the long acquaintance with the President of the College, verify these statements. STUDENTS ENTER AT ANY TIME.

Send for Circular and Specimens of Penmanship.

CITY OF TORONTO.

Toronto, the chief city of Ontario, latitude $43^{\circ} 39' 24''$ north, and longitude $79^{\circ} 21' 30''$ west, is situated on the north-west shore of Lake Ontario, and facing the Bay, a beautiful and spacious sheet of water, oval in form and accessible to craft of all kinds. It was founded by Lieutenant Governor Simcoe, who, having formed extensive plans for the improvement of the colony, resolved upon the foundation of a Provincial Capital, and caused the first survey of the site to be made in 1793 by Bouchette of the Royal Engineers. In June 1795 the place consisted of twelve houses. In 1796 the seat of government was removed from Newark to this place. In 1813 the Americans captured the village and burned the Government House, public buildings and stores. The name York was changed to Toronto, and the city incorporated in 1834. The site of the city is nearly level, sloping gently from the water's edge. The public buildings are numerous and handsome; the principal are University, Trinity, St. Michael's, Knox and Baptist Colleges. The Normal School, Hospital, St. Lawrence Hall, St. James' and St. Michael's Cathedrals, and eighty-two churches, many of which are magnificent specimens of architecture. The Queen's Park, Horticultural Gardens, Riverside Park, and the Normal School grounds are tastefully laid out and open to the public. The Industrial establishments are varied and numerous. The city has direct communication by water and rail with all parts of the continent. In 1861 the population was 44,821; in 1871, 56,092, and by the census of 1881, 86,445; and if the suburbs are included it may be estimated at 100,000. Distance from Montreal, 333 miles; Quebec, 513; New York, 505; Boston, 593; Kingston, 165; Hamilton, 40; London, 114; and Collingwood, 93.

DAY'S COMMERCIAL COLLEGE,

ESTABLISHED 1862.

TORONTO, - - - ONTARIO.

DESIGN : To prepare young men and Others as Book-keepers, Bank, Railway and Steamboat Clerks, and for General Business.

GENERAL REMARKS.

This Institution is acknowledged by business men to be a thoroughly practical business school. A large number of its graduates and members are occupying responsible positions in Canada and the United States on their own as well as on others' account, and by the satisfactory manner in which they discharge their duties plainly evince the great benefit to be derived by pursuing a systematic course of instruction in accounts and business practice, under the supervision of a practical accountant and a man of business experience, before entering into mercantile life; and to which all, both principals and employees, give their unqualified assent and endorsement.

One important feature in the management of this College is the Daily Instruction by an experienced Accountant, in all the minutiae of Business Forms and Customs, the Borrowing and Lending of Money, with special reference to the calculations, bearing on Bonds, Notes, Adjustment of Partnership Affairs, &c., &c., showing its great superiority over the system of elaborate lectures on similar subjects, only occasionally delivered.

As Mr. Day, the Principal, is an Accountant of large business experience, acquired both in England and America, and as he personally instructs his pupils and limits their number, and conducts his school, as far as possible, on actual business practice, he feels justified in stating that to young men who desire to be efficiently and rapidly prepared, his institution offers advantages superior to those of commercial colleges generally.

Young men seeking to be advanced in business knowledge, and their friends, are requested to make special enquiries as to the high reputation the Principal of this College has established, and still maintains, by the thoroughness of his work. For further information please call on, or address, post paid
