PREFACE.

The Williams' British Columbia Official Directory has been for so many years an important factor in Provincial commercial circles that an introduction at this date is almost superfluous. Started in 1882, when only about 6,000 names could be gathered together, which were with difficulty obtained in consequence of the very sparse population then resident in the Province.

The work has grown to such an extent that the present issue contains over eight times the number of names the first issue had. This fact illustrates clearly a steady increase in population, coupled with the growth of the vast lumbering, fisheries, and many other thriving industries, along with the largely increasing yield of gold, and other precious metals, are all indicative of the satisfactory progress that the Province is at present making, commercially, manufacturing, in agriculture and in her mines. From the vast northern possessions at the head waters of the Yu-

kon, in the North-West Territory of Canada, to golden Kootenay on the south and east, and traversing Vancouver Island from north to south, is one vast mineralized bed of gold-bearing rocks and alluvial deposits. The ore in many sections on the surface is known as low grade, of such are some of the most celebrated mines in the world, but with modern improved appliances thousands of claims will become profitable gold producers, as proven by a number that are now paying their fortunate owners most handsomely. To bring great numbers of most promising prospects that have been discovered up to the standard of paying mines both capital and labor are required, and as both are now being attracted to this country of wonderful resources, British Columbia will prove herself to be the banner Province of the Dominion.

[For Index see end of Book.]

Province of British Columbia.

British Columbia has an area of 390,344 square miles, and a population, according to the last official census, of 98,173, made up of 54,061 whites, while the white population since 1882 has more than doubled—35,202 Indians and 8,910 Chinese. The Province is a great quadrangle of territory, 700 miles long by 400 wide, lying north of Lat. 49 deg., and west of the central core of the Rocky Mountains, extending along the Pacific coast as far as Lat. 55 deg., and including a large number of adjacent islands. Striking inland to Lat. 60 deg., it is shut off from the seaboard by a narrow strip of Alaskan territory, and is bounded on the east by Lat. 120 deg. The great mountain ranges of the Province—the Rockies and Selkirks on the east and the Coast and Island Ranges on the west—exercise a very important influence upon the country, climatically as well as commercially. There is no mountain scenery in the world to compare with that of British Columbia, nor are better facilities anywhere afforded of enjoying it.

Mineral and Other Resources of British Columbia.

In the depths of these magnificent ranges are vast stores of mineral wealth. The gold mines of the Fraser, Omineca, Cassiar and Cariboo Districts, the gold,

silver and copper mines of East and West Kootenay, the vast territory of the Yukon Basin to the north, the great coal deposits found and being worked, both on the Mainland and Vancouver Island, are not only suggestive, but striking ones, of what lies behind, and are bound to prove the chief factors in the future development of the Province. As an example of what capital can do in developing the varied and wonderful resources of this magnificent country, the total salmon pack of 1876 amounted to 9,874 cases, while that of 1897 was over 1,000,000 cases. Fifty million dollars worth of gold was taken in a few years from the rich Fraser and Cariboo alluvial deposits, while the yield from the quartz mines of the East and West Kootenay are steadily increasing, while in other vast sections of the Province are found gold and silver in paying quantities. For general information relating to the untold riches, that only require the hand of industry, aided by capital, to develop innumerable industries that will become profitable from the start, the reader is referred to the various Government reports, and the reports of the British Columbia Board of Trade, as it is rather beyond the limits of this work to go fully into this question. For the addresses of the various secretaries of the Boards of Trade the reader is referred to the alphabetical lists under the heading "Board of Trade."

BRITISH COLUMBIA DIRECTORY, 1897-98.

THE YUKON—THE KLONDYKE.

The following information is taken from Professor Dawson's Report* on the exploration of the Yukon District, North-West Territory of Canada (comprising the Klondyke and other sections of that vast territory). Although not a part of British Columbia, but lying immediately to and adjoining the Province on the north, it is of the utmost importance that every possible information should be given to the public about this vast and almost unknown region.

This tract is bounded to the south by the northern line of the Province of British Columbia (Lat. 60°), to the west by the eastern line of the United States' Territory of Alaska, to the east by the Rocky Mountain Ranges and 136th meridian, and to the north by the Arctic Ocean. The region thus generally defined is referred to as the Yukon district, this name being rendered ap-

propriate from the fact that the greater part of its area lies within the drainage basin of the river of that name.

The Yukon district, as above defined, has a total area of approximately 192,000 square miles, of which, according to the most recent information, 150,768 square miles is included in the watershed of the Yukon. The superficial extent of the district may perhaps best be realized when it is stated that it is nearly equal to that of France, greater than the United Kingdom by 71,100 square miles, ten times the area of the Province of Nova Scotia, or nearly three times that of the New England States. It is unnecessary to add that the present report must be considered merely as a first contribution to our knowledge of this wide country.

We left Ottawa on the 22nd of April, 1887, travelling by the Canadian Pacific Railway to Victoria, but in consequence of irregularity in the sailing dates of the Alaskan mail steamers, were unable to reach Wrangell, at the mouth of the Stikine River, where our work may have said to have begun, till the 18th

KOOTENAY.

WHILE the Klondyke is in Canada the fact must not be overlooked that more than the equal of the Klondyke is in British Columbia, and in that section that is easy of access, viz: East and West Kootenay, whose famous mines are daily proving by the largely increasing ore shipments ample evidence of the untold riches of that vast region. (see index end of book)

To develop the Kootenay Country railways and cheap means of transportation are needed, and for the Coast to receive the just benefit that is sure to come Westward from that vast interior mining region, a direct line of railway is most urgently required to be constructed from the Coast to the Kootenay Country. This important question it is hoped will receive the careful attention of both the Dominion and the Provincial Government at an early date. In the matter of the Klondyke it looks as if it were an other feature in the fact that the grass grows green at a distance and that the great attention that is now being drawn to the Klondyke section to the possible overlooking of the vast Kootenay Country may be only an illustration of that old saying ("the grass grows green") etc., and that British Columbians should devote all their energy to develop that which we now have well within our grasp and not rest until every facility for transporting the vast ore yield of Kootenay is an accomplished fact.

Kootenay well developed means untold millions added to the wealth of this famous Province.

Reserve your orders for the Williams' Official British Columbia Directory, 1898-9. Many new features will be introduced and an effort made by the Publisher to surpass anything that has been done in the past.

7

of May. Here Mr. McConnell stayed behind, for the purpose of getting Indians and canoes to enable him to make a micrometer survey of the Stikine from the end of the line measured by Mr. J. Hunter in 1877, to Telegraph Creek, while I proceeded up the river by the first steamer of the season to Telegraph Creek, the head of navigation. From this place goods are carried by pack animals to Dease Lake, the centre of the Cassiar Mining District, and here again a delay of several days occurred, as the animals had not been brought in from their range or shod for the season's work at the date of our arrival. Finally, on June 5th, we reached the head of Dease Lake, and found the greater part of the lake still covered with ice. It was not till the 9th that we were able to reach the point on the shore near Laketon, at which two men, previously sent on in advance with an Indian packer, were sawing lumber for boats. Seven days were here busily employed in this work and in constructing three boats for the purposes of the expedition. On the evening of the 16th, a strong wind having broken up the remaining barrier of ice, we reached Laketon with our boats. Mr. McConnell, with a crew of five Coast Indians intended for my work on the Upper Laird, having meanwhile joined us. On the 18th, having completed our supplies and outfit at Laketon, we left that place, and on the 23rd reached the "Lower Post," at the confluence of the Dease and Laird Rivers. Here Mr. McConnell, with one boat and two men, separated from us for the purpose of surveying and geologically examining the Lower Laird.

On leaving the confluence of the Dease and Laird, my own party included, besides myself, Mr. McEvoy, Messrs. L. Lewis and D. Johnson, engaged at Victoria, two Tshimsian and three Stikine (Thlinkit) Indians, all good boatmen. Two local Indians hired as guides, and to help in portaging, deserted a day or two after engaging, and from the "Lower Post" to near the confluence of the Pelly and Lewes, for an interval of more than six weeks, we met neither whites nor Indians.

The ascent of the Laird and Frances Rivers to Frances Lake proved unexpectedly difficult and tedious, the rivers being swift throughout and three

bad canyons having to be passed through. Frances Lake was reached on the 8th of July, and after spending a few days in examining and mapping the lake, making the observations necessary to fix its position, and in the endeavour to find some Indian trail by which we might travel across to the Pelly, we began the work of portaging on the 17th.

As we had been unable to discover any route now in use by the Indians, and no trace whatever remained of the trail employed by the Hudson's Bay Company, in former years; and, further, as no local Indians could be found to act as guides or to assist in carrying our stuff, it was evident that the crossing of this portage (which had been estimated by Mr. Campbell at about 70 miles in length) would be a difficult matter, and that we might indeed find it impossible to carry over a sufficient supply of provisions for work on the Pelly. We therefore constructed a strong log cache on the shore of Frances Lake, and left there, to be taken to Dease Lake by the Indians when they returned, everything we could possibly dispense with. Had we been unable to effect the portage, there was in our cache a sufficient supply of provisions to enable the whole party to return to the "Lower Post." After a very toilsome journey we were, however, so fortunate as to reach the bank of the Upper Pelly on the 29th of July, with still nearly a month's provisions for four persons, our instruments and a small camping outfit, a canvas cover from which a canoe might be constructed, and the tools and nails for building a wooden boat, should that prove to be necessary. Our Indians, who had for a long time been very uneasy because of their distance from the coast and the unknown character of the country into which they had been taken, were here paid off, and to their great delight allowed to turn back.

The main geographical results of the Yukon expedition, in so far as those are covered by the present report, are best shown by the accompanying maps, which may be compared with previous maps of the same region. Mr. Ogilvie's instrumentally measured line from the head of Lynn Canal to the intersection of the Yukon or Pelly by the 141st meridian, will form a sufficiently accurate

21 and 23 Broughton St., Victoria, B.C. Tel. 129.

base for further surveys. In addition to this we now have an instrumental survey of the Stikine from its mouth to the head of navigation (Telegraph Creek), which is connected with Dease Lake by a carefully paced traverse. This is continued by a detailed running or track survey following the lines of the Dease, Upper Liard and Pelly Rivers, and connecting with Mr. Ogilvie's line at the mouth of the Lewis, the total distance from the mouth of the Stikine to this point by the route travelled being about 944 miles. Adding to this the distance from the mouth of the Lewis back to the coast at the head of Lynn Canal (377 miles), the entire distance travelled by us during the exploration amounts to 1,322 miles. This, taken in connection with the coast line between the Stikine and Lynn Canal, circumscribes an area of about 63,200 square miles, the interior of which is still, but for the accounts of a few prospectors and reports of Indians, a terra incognita. The same description, with little qualification, applies to the whole surrounding region outside the surveyed circuit, but much general information concerning the country has been obtained, which will facilitate further explorations.

The region traversed by the routes just mentioned, including the extreme northern part of British Columbia and the southern part of the Yukon District (as previously defined), is drained by three great river systems, its waters reaching the Pacific by the Stikine, the Mackenzie (and eventually the Arctic Ocean), by the Liard, and Behring Sea, by the Yukon. The south-eastern part of the region is divided between the two first named rivers, whose tributary streams interlock, the Stikine making its way completely through the Coast Ranges in a south-westerly direction, while the Liard, on a north-easterly bearing, cuts across the Rocky Mountains to the Mackenzie Valley. The watershed separating these rivers near Dease Lake has a height of 2,730 feet, and both streams may be generally characterized as very rapid.

To the north-westward, branches of the Stikine and Liard again interlock with the head-waters of several tributaries of the Yukon, which here unwater the entire great area enclosed on one side by the Coast Ranges, on the other

by the Rocky Mountains. As the general direction of this line of watershed is transverse to that of the main orographic ridges of the country, it will probably be found, when traced in detail, to be very sinuous. The actual watershed, between the Liard and Pelly, but on our line of route, was found to have an elevation of 3,150 feet, but it is, no doubt, much lower in the central portion of the region between the Rocky Mountains and Coast Ranges.

To the north of the Stikine, at least one other river, the Taku, cuts like it completely across the Coast Ranges, but its basin is comparatively restricted and little is yet known of it.

It will be noticed that while the several branches of the Yukon conform in a general way to the main orographic axes, the Stikine and Liard appear to be to a large degree independent of these, and to flow counter to the direction of three mountain ranges.

The region as a whole, being a portion of the Cordillera belt of the west coast, is naturally mountainous in general character, but it comprises as well important areas of merely hilly or gently rolling country, besides many wide, flat-bottomed river valleys. It is, moreover, more mountainous and higher in its south-eastern part—that drained by the Stikine and Liard—and subsides gradually, and apparently uniformly, to the north-westward; the mountains at the same time becoming more isolated and being separated by broader tracts of low land. The general base level, or height of the main valleys, within the Coast Ranges, thus declines from about 2,500 feet to nearly 1,500 feet at the confluence of the Lewes and Pelly Rivers, and the average base level of the entire region may be stated as being a little over 2,000 feet.

Disregarding minor irregularities, it is found that the trend of the main mountain ridges and ranges shows throughout the entire region here described a general parallelism to the outline of the coast. In the south-eastern and more rugged tract, the bearing of such ranges as are well defined is north-west by south-east, while beyond a line which may be drawn between the head of Lynn Canal and Frances Lake the trend gradually changes to west-north-west.

9

The Coast Ranges, with an aggregate average width of about eighty miles, the whole of which is closely set with high, rounded or rugged mountains, constitute the most important orographic uplift in the entire region, and here reproduces geographically and geologically the features characteristic of it in the more southern portion of British Columbia. Beyond the vicinity of Lynn Canal, this mountain axis runs behind the St. Elias Alps, ceasing to be the continental border, and may be said to be entirely unknown, as any indications of mountains which have appeared on this part of the map are purely conjectural. Notwithstanding the great width of the Coast Ranges, it is not known that any of their constituent mountains attain very notable altitudes, but it is probable that a great number of the peaks exceed a height of 8,000 feet. These ranges are composed of very numerous mountain ridges, which are not always uniform in direction, and so far as has been observed, there is no single culminating or dominant range which can be traced for any considerable distance.

The mountain axis next in importance to that of the Coast Ranges is that which forms the water-parting between the Upper Liard and Yukon, on one side, and the feeders of the main Mackenzie River on the other. This represents the north-western continuation of the Rocky Mountains proper. Its eastern ridges were touched on during the present exploration in the vicinity of Frances Lake and the head waters of the Pelly River, and are there designated on the map as the Tootsho Range. This forms, so far as has been ascertained, the culminating range of a number of more or less exactly parallel ridges, and summits in it attain heights of from 7,000 to 9,000 feet. It has, however, been traced to a comparatively limited distance only, and it appears probable that a very complicated mountain system remains to be worked out in this portion of the region.

A third notable mountain axis, which I have designated on the map as the Cassiar Range, is cut through by the Dease River in its upper course, and further to the north-westward appears to form the line of water-parting between the tributaries of the Upper Liard

and those of the branches of the Yukon. Peaks near the Dease, in this range, exceed 7,000 feet, but it is probable that none much exceed 8,000 feet, and that the range in a general way becomes lower to the north-westward.

In the north-western and less elevated moiety of the region, the mountain ranges and ridges are in general lower and become discontinuous and irregular, or while retaining a general parallelism, assume an overlapping or echelon-like arrangement.

In each of these mountain chains above described granitic rocks appear in greater or less force, as more fully noted on succeeding pages. In the intervening and subordinate mountain systems of the south-east, granitic axes are not found and do not exist as prominent features.

Scarcely anything is known of the character of the country drained by the Macmillan, Stewart and White Rivers, but it is probable that the basins of the two first named streams closely resemble that of the Upper Pelly, which is described in following pages. Miners who have ascended the Stewart for a hundred miles or more, report the existence of a continuous range of mountains of considerable height, which runs parallel to the river on the north, from a point about fifty miles from its mouth onward. The absence of tributaries of any size along the south-west side of the Lewis below the Tahk-heena, with the general appearance of the country in that direction, so far as it has been overlooked, seems to show that the basin of the upper portion of the White River must be comparatively low, and situated as it is within the St. Elias Alps, this country must possess most remarkable features, both geographically and from a climatic point of view, and well deserves exploration. It would further appear to be nearly certain that the sources of the Tanana River are to be looked for in this district, well to the east of the 141st meridian.

The topographical features of the entire region here described have been considerably modified by the events of the glacial period, and the changes produced at that time have more particularly affected the drainage-basins and

10 BRITISH COLUMBIA DIRECTORY, 1897-98.

the courses of the various streams. The valleys and lower tracts of country are more or less completely filled or covered by extensive deposits of boulder-clay, gravel, sand and silt laid down during that period. To these deposits are due the flat floors of the larger valleys, and also to a great extent the appearance which the more irregular mountain regions present of being partly submerged in level or rolling plains. Many changes in direction of flow in river valleys have doubtless also been produced during this period, though most of these yet remain to be worked out. The general result has been to produce systems of "inconsequent" drainage wherever the natural slopes of the country are easy and the limiting ranges irregular. Most of the rivers at the present day have done little more than cut out new channels in the glacial debris, touching only here and there upon the subjacent rocky floor.

While the available information as to the climate of the northern portion of British Columbia and the Yukon district is necessarily as yet very imperfect, its general features are sufficiently obvious, repeating as they do those met with in the similarly circumstanced region to the south, with such modification as is produced by their higher latitude. The coast and coastward slopes of the Coast Ranges constitute a belt of excessive humidity and great precipitation, with somewhat equable temperatures, while the interior region to the eastward of these ranges is relatively dry, with a temperature of extremes.* In the interior, however, the climate is largely influenced by the altitude of each particular district, and in consequence of the general lowering of the country beyond the 60th parallel (constituting the north line of British Columbia), it is certain that the climatic conditions are there much more favourable than in the Cassiar district.

The mean annual temperature of the coast region is considerably higher than that of the interior; yet, in consequence of the great depth of the snowfall and persistently clouded character of the skies, the Coast Ranges are found to support numerous and massive glaciers,

while these are almost or altogether absent in the Cassiar Mountains, in the mountains about Frances Lake, and in the other ranges seen by us in the interior. The heavy accumulation of snow upon the Coast Mountains and in their valleys retards the progress of spring, as is very clearly evidenced on the Stikine, and explained more fully elsewhere.

The depth of snow in winter continues to be inconsiderable or moderate, at least as far down the Pelly (Yukon) as the mouth of the Stewart River and Forty-Mile Creek, while at Nulato, on the lower river and in a similar latitude, but 500 miles further west, the depth of snow from April to November is said to average eight feet, and often to reach twelve feet.* Mr. Dall also writes: "The valley of the Lower Yukon is somewhat foggy in the latter part of summer; but as we ascent the river the climate improves, and the short season at Fort Yukon is dry, but pleasant, only varied by an occasional shower."

At Telegraph Creek and in its vicinity on the Stikine, to the east of the Coast Range (lat. 58°), wheat, barley and potatoes are successfully grown with the aid of irrigation.

Taking into consideration all the facts which I have been able to obtain, as well as those to be derived from an examination of the natural flora of the country, and the observed advance of vegetation, which, in the absence of actual experiments, are capable of affording valuable data, I feel no hesitation in stating my belief that such hardy crops as barley, rye, turnips and flax can be successfully cultivated in the Yukon district as far north as the former position of Fort Selkirk, near the 63rd parallel, or in other words, about 1,000 miles north of Victoria.

The black and grizzly bears roam over the entire region and are often seen along the banks of the rivers in the latter part of the summer when dead or dying salmon are to be obtained with ease. Wolves are not particularly abundant, but the cross, black and silver fox are more than usually common.

The smaller fur-bearing animals, being similar to those found generally in

*A mean of the total annual precipitation for Fort Tongass, Wrangell and Sitka gives a general mean for the coast of 86.84 inches.

11

the northern parts of the continent, do not require separate enumeration. The entire Upper Yukon basin, however, yields furs of exceptionally high grade. Some notes as to the quantity of furs annually obtained from the region will be found in a subsequent paragraph.

The Yukon district with the northern part of British Columbia, measured from the vicinity of Dease Lake to the intersection of the Pelly (Yukon) with the 141st meridian comprises a length of over 500 miles of the Cordillera belt of the west, which, wherever it has been examined, has been found rich in minerals and particularly in the deposits of the precious metals. The width of this particular part of the Cordillera belt is also great, as it appears, so far as our explorations have gone, to extend from the coast to the eastern ranges of the Rocky Mountains in the vicinity of the Mackenzie River. This portion of the Cordillera region, together with that of the more southern part of British Columbia, gives an aggregate length of between 1,200 and 1,300 miles, almost equal to the length of the same metaliferous belt contained by the United States, and in all probability susceptible to an eventual mining development equally great.

Without including the northern part of British Columbia, respecting which more has already been made known, but restricting ourselves to the great area of 192,000 square miles situated to the north of the 60th parallel and west of the Rocky Mountains, which I have referred to as the Yukon district, it may be said that the information now obtained is sufficient to warrant a confident belief in its great value. Very much yet remains to be learned respecting it, but it is known to be rich in furs, well supplied with timber, and it is traversed by a great length of navigable rivers. It is already yielding a considerable yearly product in gold, and presents every indication of a country rich as well in other metals, and including deposits of coal. In its southern portion, situated between the 60th and 65th degrees of latitude, is comprised an area of probably not less than 30,000 square miles, suitable for eventual agricultural occupation, and presenting none of the characters of a sub-Arctic region, which

have, in advance of its exploration, been attributed to it by some writers. In each of these particulars and in climate it is greatly superior to the corresponding inland portion of the territory of Alaska. It may, in fact be affirmed with little room for doubt, that the region here spoken of as the Yukon district surpasses in material resources the whole remaining northern interior portion of the continent between the same parallels of latitude.

Privy Council of the Dominion of Canada. — Seat of Government, Ottawa.

Governor-General — His Excellency the Right Hon. Sir John Campbell Hamilton Gordon, Earl of Aberdeen.

Prime Minister and President of the Council—Hon. Sir Wilfrid Laurier.

Minister of Militia and Defence—The Hon. F. W. Borden.

Minister of Agriculture—Hon. S. A. Fisher.

Minister of Finance—Hon. W. S. Fielding.

KASLO CITY DIRECTORY, 1897-98.

25

CITY OF KASLO.

Postmaster, S. H. Green.

Population, 1,600.

In the Dominion Electoral District of Yale-Kootenay and Provincial South Riding of W. Kootenay, Mining Recording Division of Ainsworth. It is an Incorporated City on the west side of Kootenay Lake about 40 miles from Nelson, 12 miles from Ainsworth, 18 miles from Pilot Bay and 15 miles from Sandon. Communication by steamer and Kaslo & Slocan Ry. Has post, money order, telegraph and express office; mails daily. This prosperous and rising City, which is situated in the centre of the Kootenay Gold and Silver Mining District, will become one

of the most important cities of the Province. The famous Slocan and Kaslo Silver Mines lie west about 15 to 20 miles. As a matter of fact mines are found in any direction one may wish to go from K. A railway is built from the City into the heart of the Mining region, with branches to meet the requirements of several groups of mines, and has been the most important factor in helping to build up the City, the successful carrying out of the Kaslo & Slocan Ry. project is due to its energetic owners. See heading Kaslo & Slocan Ry. The "Kootenaian," of which Mr. David W. King is proprietor, is the newspaper sentinel that ably guides the destinies of Kaslo.

See Alphabetical List for Additional General Information.

KAMLOOPS CITY DIRECTORY, 1897-98.

CITY OF KAMLOOPS.

Postmaster, E. H. Jones.

Population, 1,700.

In the Dominion Electoral District of Yale-Kootenay and Provincial North Riding of Yale, Mining Recording Division of Kamloops, is an incorporated City, situated at the confluence of the North and South Thompson Rivers, and is the most important place on the Pacific Division of the C. P. R. between Calgary and Vancouver. It has an ample supply of water, and is lighted by electricity. There is a money order

express, telegraph and telephone service. The Bank of B. C. has a branch in the City and everything appertaining to the comfort and convenience of a large community is here to be found. The climate is dry and bracing, and in consequence Kamloops is a favorite resort for those who suffer from the moisture of the Coast cities. It has a bright and prosperous future and is destined to be the great interior manufacturing centre of British Columbia. The "Inland Sentinel," an influential paper, is published here,

See Alphabetical List for Additional General Information.

NANAIMO CITY DIRECTORY, 1897-98.

39

CITY OF NANAIMO.

Incorporated in 1874. Is situated on the east coast of Vancouver Island. Has excellent banking facilities and nearly every modern improvement found in cities vastly greater in point of population. Nearly opposite Vancouver, the terminus of the Canadian Pacific Railway, and about 73 miles north of Victoria, with which there is daily communication over the E & N Ry. The main source of wealth of Nanaimo is the valuable coal deposits. In addition to this there is an abundance of excellent timber and building stone of the finest quality. Iron, gold and copper veins have been discovered in the immediate vicinity, and arrangements are being made for the erection of a smelter. With such abundant resources there is a great future before the Newcastle of the Pacific Coast. Amongst the most prominent incorporated institutions is the Vancouver Coal Mining & Land Co. of which Samuel M Robins Esq, J P, is superintendent and William McGregor manager. The harbour is safe and commodious, affording secure anchorage for shipping and excellent facilities for quays and wharves.

PROVINCIAL OFFICIALS.

Local Judge of Supreme Court and County Court Judge Nanaimo District, Eli Harrison Jr.

Government Agent, Registrar of County Court, Births, Marriages and Deaths, Assistant Commissioner of Lands and Works (Nanaimo District), Marshal Bray.

Registrar of Supreme Court and Assistant Government Agent, etc., etc., Herbert Stanton.

NELSON CITY DIRECTORY, 1897-98.

59

CITY OF NELSON.

Postmaster, J. A. Gilker.

Population, 1,800.

An incorporated and beautiful City, possessing a magnificent townsite, in the Dominion Electoral District of Yale-Kootenay, Provincial South Riding of West Kootenay, Mining Recording Division of Kootenay, on Kootenay Lake and is the Eastern Terminus of the Columbia & K. Ry. The Spokane Falls and Northern Ry. affords connection with the American railways in the State of Washington. Nelson is the distributing point for supplies to the different mines throughout West Kootenay. N. will, without doubt, become a very large and prosperous city, pos-

sessing, as it does, so many important features. The yield from the large mineralized district surrounding Nelson, is alone sufficient to build up a substantial and most important business centre. The Hall Mines, Limited, have in operation one of the largest smelters in British Columbia. Steamers ply regularly to Bonner's Ferry (Idaho), Kaslo, Ainsworth, Balfour and other important points. There are three ably conducted newspapers published in Nelson, "The Miner," "Tribune" and "Economist." Ample facilities in the way of banking, express office, telephone and many other modern conveniences are possessed by this ambitious and deserving City.

See Alphabetical List for Additional Information.

68 NEW WESTMINSTER CITY DIRECTORY, 1897-98.

City of New Westminster.

Situated on the north bank of the Fraser river, fifteen miles from its mouth. The Fraser is the most important river in British Columbia. It is the great waterway which reaches from the Rocky Mountains in the interior, and in its course to the ocean flows through some of the richest gold fields and most fertile agricultural lands on the continent. It is navigable as far as New Westminster and for some miles above for ocean vessels, farther up for sternwheel steamers.

The Fraser gives New Westminster a substantial advantage in this respect over any other city on the Coast. A large fleet of steamers do a lively business on the river, making regular communication with all important points,

and so keeping up a steady service with Vancouver, Victoria and Nanaimo, while the loading of ocean vessels with salmon and lumber forms an important feature of this port. It is the fresh water terminus of the Canadian Pacific Railway and the Western terminus of the Great Northern.

The electric tram by which Vancouver is connected with New Westminster is without exception one of the best, if not the best, service operated in any part of Canada. Every facility enjoyed by those living in large Eastern cities are to be found in New Westminster.

For banks, hospitals and general information see alphabetical list of residents.

See Alphabetical List for Additional General Information.

ROSSLAND CITY DIRECTORY, 1897-98.

103

CITY OF ROSSLAND.

Population, 6,500.

In the Dominion Electoral District of Yale-Cariboo, Provincial North Riding of West Kootenay, Mining Recording Division of Trail Creek, an incorporated City. Eight miles from the international boundary line. From the North traffic comes by the Canadian Pacific via Arrowhead, thence by the Columbia River to Trail, from thence to Rossland by the Columbia & Western Ry., there is a connection to the South via Spokane in the State of Washington. Rossland is a marvelous City, having within the short space of 4 years grown from a dozen persons

and a few shacks to a prosperous City of 6,500, and is destined to become a very large and prosperous centre as the mining in West Kootenay which is now in its infancy, will develop to that degree that by many at the present moment would not be looked upon as possible, although the possibilities of the future of Rossland are simply limitless. The Crow's Nest Pass Ry. and the Coast K. Rr., will give Rossland a direct eastern and western connection. The mines tributary to the City will yield millions in gold as development work progresses.

See Alphabetical List for Additional General Information.

CITY OF REVELSTOKE.

In the Dominion Electoral District of Yale, Provincial North Riding of West Kootenay, mining recording division of Revelstoke, is a place of about 1,000 inhabitants, situated at the second crossing of the Columbia River by the main line of the C.P.R. It is picturesquely located on a series of beautiful level flats which afford plenty of room for its rapidly increasing business and population. It is the distributing point for the Big Bend, Lardeau, Trout Lake and Illecillewaet mining districts and is fast becoming an important wholesale centre. It possesses churches, Anglican, Methodist, Presbyterian and Roman Catholic, all with resident pastors, a public school with two teachers, a Kindergarten, under private management, telephone and water works systems and an electric light system is now being installed. The Dominion Government have a cold storage warehouse for the storage of

butter and other perishable goods in connection with their system of aid to the North-West creameries. It is the seat of a Gold Commissioner for West Kootenay. The C.P.R. have erected a handsome hotel near their station and there are six or seven other good hotels in the town. Passengers for Kootenay points change here to take the branch line for Arrowhead, and all freight going down is handled at this point, which is becoming one of the most important outside of the terminals on the line and is the residence of a small army of railway officials and employees. It is a great outfitting point for miners, and possesses numerous handsome stores, most of which do a wholesale business with the mining camps, for fifty miles around the town. There are two papers, the Revelstoke "Herald," semi-weekly and the Kootenay "Mail," weekly, both ably and enterprisingly conducted.

See Alphabetical List for Additional General Information.

SALMO.

Post Master, Robt. Ince.

In the Dominion Electoral District of Cariboo, Provincial South Riding of West Kootenay, mining recorder's division of Nelson. Located on the Nelson and Fort Sheppard Railway at the junction of the North Fork of Salmon River, is the centre of numerous mining claims on the Salmon River, North Fork, Lost Creek, Sheep Creek, Pend d'Oreille, and their tributaries. It is distant from Nelson thirty-five miles and from Rossland fifty-two miles; has

daily trains northward to Kaslo, Ainsworth, Pilot Bay and Balfour, and south to Trail, Waneta, Northport, Rossland and Spokane. Salmo is located on a level prairie, and has an ample supply of timber with a saw mill having a daily capacity of 25,000 feet, with abundance of water power for domestic and manufacturing purposes. The latest information from the district places the mineral locations, surrounding Salmo, at about two thousand three hundred claims. For names of those residing in Salmo see index.

SANDON CITY DIRECTORY, 1897-98.

131

CITY OF SANDON.

Postmaster, E. R. Atherton.

Population, 1,200.

In the Dominion Electoral District of Yale-Cariboo, and Provincial South Riding of West Kootenay, Mining Recording Division of Slocan, situated on the Kaslo & Slocan Railway, 15 miles from Kaslo. The C. P. R. forms a connection between S. and Nakusp. It has excellent banking facilities and is

situated right in the heart of the famous Slocan country, whose mines are now known the world over. "Slocan Star," "Reco," "Wonderful," "Idaho," and many others that have made vast fortunes for the fortunate owners are situated here. A valuable adjunct to S. is the newspaper possessing the most appropriate name of the "Pay Streak," published here.

TRAIL CITY DIRECTORY, 1897-98.

CITY OF TRAIL.

Postmaster, F. Brown.

Population, 1,500.

In the Dominion Electoral District of Yale-Cariboo, and Provincial North Riding of West Kootenay, Mining Recording Division of Trail, is a growing City, beautifully situated at the mouth of Trail Creek on the Columbia & Western Railway, 30 miles south of Sproat's Landing, 8 miles from Rossland, and 20

miles from Robson; while Revelstoke is distant 166 miles. T. is the great smelting centre of West Kootenay, and is destined to be one of the most important cities of the vast gold bearing region of the Interior of British Columbia. The City is rapidly building up and possesses varied and numerous advantages, and withal a thriving and prosperous community.

VANCOUVER CITY STREET DIRECTORY.

CITY OF VANCOUVER.

From a frontier village to a splendidly built modern city, all inside of ten years, with well-paved streets, a magnificent and inexhaustible supply of fine mountain water, electric railways, electric lights, the shrill scream of the ocean greyhounds loading and unloading at the commodious wharves, with the noise of the long train of freight and passenger cars constantly coming and going, her numerous lumber mills, sugar refinery, and splendidly equipped foundries and various other thriving industries; beautifully built homes, surrounded with exquisite grounds, rows of massive granite buildings, are both the history and a true picture of the Vancouver of to-day.

The climate is most charming, neither too hot nor too cold. During the summer just passed, while the residents of the Eastern Provinces were overcome with the oppressive heat, in Vancouver the thermometer rarely reached more than eighty-five degrees in the shade, and more frequently ranged between seventy and eighty degrees. The winters are most pleasant, scarcely ever falling as low as zero, and usually ranging about forty-five to fifty degrees.

Commercially, Vancouver at the present time, is prospering, possibly more so than any other city in this vast Dominion. The only partially developed resources, upon which the substantial and lasting character of the city depends, are varied and inexhaustible, foremost amongst which are the product of the mines, forest and the stream or ocean and river.

With vast mines of mineral wealth to the east and north, and rare agricultural lands to the south and east and the

inexhaustible fishing interests at her door, coupled with the fact of possessing a most magnificent harbour and the terminus of the longest railway system under one management in the world, and with all an energetic and appreciative people that work in harmony for their city's good, there is nothing to hinder the vast strides that Vancouver is sure to make in the near future.

COAL

The New Vancouver Mining and Land Company

(Formerly the VANCOUVER COAL CO.)

Are the largest coal producers on the Pacific Coast

NANAIMO COAL . . .

Used principally for gas and
general domestic purposes

SOUTHFIELD COAL . . .

An unequalled steam fuel

NEW WELLINGTON COAL . .

A bright, clean, burning coal,
and a favourite fuel for the
open grate

PROTECTION ISLAND COAL .

UPPER SEAM

This coal is similar in appearance and quality to the New Wellington, but is a superior gas coal, and for general purposes will be preferred to all other coals produced on Vancouver Island

These
coals
are
mined
by the
New B.C.
Company
only

*The Company's wharfs are at Departure Bay, Nanaimo
and Protection Island, at each of which ships of the
deepest draft can load at all times*

323

CITY OF VERNON.

Postmaster, A. J. Venn.

Population, 1,000.

In the Dominion Electoral District of Yale-Cariboo, Provincial East Riding of Yale and Mining Recording Division of Vernon, is situated on the line of the Shuswap and Okanagan Ry., four miles from its terminus on Okanagan Lake, and is the centre of one of the largest and richest agricultural districts in the Interior. Since the advent of railway communication the town has grown wonderfully and is a duly

incorporated City. There is a post, money order office and post office savings bank, also telegraph and express office, and a daily mail service. There is also a branch of the Bank of Montreal and an office of the Wulffsohn banking and financial firm. Vernon is the great distributing point for the Lower Country, and in addition to its railway connections, it also controls the navigation of the Lake. An ably conducted newspaper, the Vernon "News and Okanagan Farm Live Stock and Mining Journal" is another feature of the progress of V.

LET US BAR OUR DOORS

AGAINST

Adversity and Hard Times

BY KEEPING

OUR MONEY at Home.

PATRONIZE the Merchants and Manufacturers now here,
and others will surely come.

THE PAY ROLL IS WHAT TALKS—Puny Industries mean
puny pay rolls; puny pay rolls mean hard
times; hard times mean stagnation, and so
on to the end.

The Province Publishing Co.,

Limited Liability.

Occupying their own large buildings in
VICTORIA and **VANCOUVER**, have the
largest and most complete establishment
West of Toronto and North of San Fran-
cisco. With their **NEW PLANT** they
are able to turn out work which cannot
be excelled.

They have a very large stake in British Columbia; have a large pay
roll, and ask the public, by supporting them, to keep
their money in British Columbia.

STOP THAT LEAK,

Or the steady drain of our money
to the United States

WILL KEEP US POOR!!

VICTORIA CITY STREET DIRECTORY.

See Alphabetical List for Additional Information.

The Capital of British Columbia, incorporated in 1862, was for many years the centre of all the colonial and afterwards the provincial trade. By the great development of the vast interior of the Province, as well as along the seaboard, in the way of lumbering, mining and fishing interests, Victoria continues to secure a fair share of the commercial prosperity of the Province, especially along the 800 miles of sea coast line that marks the western side of Canada on the Pacific.

It is generally conceded that paying gold and copper mines within a few miles of the city, will be one of the many immediate resources of Victoria, added to which Vancouver Island is noted for the vast beds of bituminous coal that are worked most successfully; while in the fertile valleys agricultural pursuits are followed. An electric tram car line is in successful operation in the city. Communication to the State of Washington is furnished daily by commodious steamers built especially for the trade, while the traffic to and from Vancouver is performed daily by the Canadian Pacific Navigation Company's steamers. There are various important lines of large ocean carriers, as well as local coasting vessels, that load and unload freight and passengers at Victoria, notably the C. P. Ry.'s palatial steamers engaged in the Japanese and Chinese trade; the Northern Pacific and Great Northern lines; the P. C. Steamship Company's steamers, as well as the Japanese lines.

The new Parliament Buildings, costing about \$1,000,000, are just completed under the direction of the Provincial Government, while the magnificent Custom House and Post Office is nearing completion under the contractors acting for the Dominion Government.

The above in addition to the large number of handsome residences erected during the last two years, as well as a number of commodious brick buildings, notably that of Messrs. Simon Leiser & Co's large brick warehouse, the Bank of Montreal and Robt. Porter & Sons', have added very materially to the general substantial appearance of the Capital. While during the present season the "Colonist" Printing and Publishing Co. are erecting a handsome new printing and lithographing establishment on Broad and View streets in which they will move during the early fall.

The assessed value of property and improvements is \$16,804,735. The receipts from all sources per year reach about \$365,000. The net liability of the city amounts to \$1,824,000.

For churches, museum, theatre, halls and general information, refer to alphabetical list.

CONSTANCE ST.

20 FREE ASSAYS

For Gold or Silver, or both,

Will be made by the Assay Department for persons enrolling in the Metal Mining, Metal and Placer Prospectors' or Full Mining Scholarships of the International Correspondence Schools of Scranton, Pennsylvania. . . .

FIVE YEARS' EXPERIENCE has demonstrated the success of our method of Teaching Mining by Mail. Mining Engineers, Managers, Mine Foremen and Miners in all parts of the United States and Canada enthusiastically endorse these schools. We also teach Civil Engineering, Bridge Engineering, Railroad Engineering, Hydraulic Engineering, Municipal Engineering, Steam Engineering, Stationary, Locomotive or Marine; Electricity, Architecture, Architectural Drawing and Designing, Plumbing and Heating.

THE BLOWPIPING OUTFIT

and **CASE of MINERAL SPECIMENS**, which is also sent free to Students enrolling in the Mineral Prospectors', Metal Mining and Full Mining Courses, consists of the following apparatus and Chemicals: Brass Blowpipe, Alcohol Lamp, Steel Forceps, Open Tubes of Hardened Glass, Closed Tubes, Charcoal, Hydrochloric Acid, Nitric Acid, Sulphuric Acid, Nitrate of Cobalt, Powdered Borax, Salt of Phosphorus, Dry Carbonate of Soda, Bisulphate of Potash, Nitrate of Soda, Blue Litmus Paper, Red Litmus Paper, Turmeric Paper, Platinum Wire, and forty-eight specimens of Minerals, including complete sets to illustrate the scales of fusibility and hardness. It is neatly fitted into separate compartments of a handsomely finished white-wood box. With this apparatus the Student is able to make the tests described in the Instruction Paper on Blowpiping. He also becomes familiar with the characteristics and appearance of many of the Minerals described in the Instruction Paper on Mineralogy, which enables him to recognize similar specimens in the field, and to verify by actual tests the determination made from observation. With our outfit, which can easily be carried, the careful Student can, with a few weeks' practice, learn to determine any mineral specimen by a few simple tests. Such knowledge is of great value.

PRICES OF COURSES:

PROSPECTING	\$22 00
METAL MINING	40 00
FULL MINING	60 00

ABOVE RATES REFERRED TO.

To which add \$4.00 to cover duty and express charges on Blowpipe Outfit.

A Reduction of 10 per cent. will be made to Clubs of three persons on above rates. The enrollers need not all reside in the same place or take the same course.

The Prospectors' Course must be paid for in advance, but the Metal Mining and Full Mining Courses may be paid for in instalments of \$10 down and \$5 monthly, by paying an increase of \$4.50 on the above rates.

CITY OF WELLINGTON.

(On the East Coast of Vancouver Island, six miles north of Nanaimo, in the Dominion Electoral District of Vancouver, Provincial of North Nanaimo, Mining Recording Division of Nanaimo. Population about 2,500. The town is divided into two parts, the older part being the property of the Wellington Colliery Co., and the new part, commonly called New Townsite. The latter is an incorporated town covering a little over eighty acres, is situated about three miles from the salt water and shipping point, which is Departure Bay, where

vessels of all sizes can be loaded at all stages of the tides. W. is the northern terminus of the E. & N. Ry. for repairing their cars. It is noted for its coal mines, the coal being supplied to all parts of the Coast and commanding the highest prices on the California market. There are two fine hotels and a number of boarding houses, four general stores, Post Office and savings bank, opera house and drug store. There are also fine athletic grounds and a quarter-mile bicycle track, the latter the fastest in B.C.

See Alphabetical List for Additional Information.

ALPHABETICALLY ARRANGED.

Abbotsford.

Postmaster, F. Munroe.

Abbotsford, situated in the Dominion Electoral District of New Westminster, Provincial of New Westminster, Chilliwack Riding, Mining Recording Division of New Westminster, is on the crossing of the Mission Branch of the C. P. Ry. and the New Westminster and Yale waggon road. The surrounding country is especially noted for its fruit raising and dairying. It also affords every convenience to shippers by railway communication and to business men, as well as farmers, there being telephone communication, in connection with telegraph, to all parts. Daily mail service from east and west by C. P. R. It is also the distributing point for mails to Aldergrove, Shortreed, Otter and Peardonville.

Abbotsford contains a general store, Post Office, hotel, blacksmith shop, Odd Fellows' Hall and school house, in which religious services are held every Sunday.

Alberni.

(See also Beaver Creek.)

Postmistress, Mrs. Agnes Erickson.

In the Dominion Electoral District of Vancouver, and Provincial of Cowichan-Alberni, Mining Recording Division of Alberni, is situated at the head of Alberni Canal, on Stamp Harbour, V. I., 130 miles distant from Victoria, with which there is at present a tri-monthly communication by the C.P. N. Co.'s steamer. A stage running bi-weekly carries the mails to and from Nanaimo, 55 miles.

The harbour, one of the finest on the Pacific Coast, can accommodate the largest vessels afloat; has good wharf accommodation; the canal is free from obstructions of any nature.

The townsite is situated near the mouth of the Sumas River, and is surrounded by a growing agricultural settlement of about 300 inhabitants, and contains a Court House, Post Office, telegraph office, three hotels, five stores, two butcher shops, barber, two livery stables, Presbyterian Church and Mission, two sawmills, etc.

There are resident here the Government Agent and Gold Commissioner, Indian Agent, clergyman, two doctors, Deputy Customs Collector and Prov. police officer.

Alberni is the distributing point for the West Coast Mining District.

As a sportsman's resort its fishing, shooting and boating cannot be excelled, and, having many good roads,

Alert Bay.

Postmaster, Stephen A. Spencer.

Alert Bay (on Cormorant Island) is in the Dominion Electoral District of Vancouver. Provincial of Comox, Mining Recording Division of Nanaimo, 170 miles from Nanaimo and 240 miles from Victoria. Mails twice a month. Nearest telegraph and express office, Nanaimo. Communication with Victoria by steamer almost once a week. Fishing and canning are the chief industries. The island, which is well timbered, is a small one, containing about 1,100 acres, but on it are to be found coal and sandstone of a good quality. The Nimkish Indians make this their home.

Central Park.

Postmaster, M. M. Smith.

In the Dominion Electoral District of New Westminster, Provincial of New Westminster, is Vancouver's newest suburb and is located six miles east of Carrall St., on the boundary between South Vancouver and Burrard Inlet and Fraser River, 400 feet above the sea level. The Park comprises over 200 acres of Government land, officially set apart for public recreation grounds and park purposes, the improved portion of which has already become a popular pleasure resort. The Presbyterian Church, grocery store, post office, telephone office, and tram station are all located near the north-west corner of the Park, and there is a large public school one-half mile west, and another one mile east of this point. Central Park has a daily mail service to and from Vancouver and New Westminster. The pure air, freedom from fogs, cheapness of property and the excellent car service to and from the city make the place a most desirable residential district for those wishing a pleasant suburban home.

Chilliwack.

Postmaster, Samuel Mellard.

In the Dominion Electoral District of New Westminster, Provincial of Chilliwack, Mining Recording Division of New Westminster. The county town of the Riding of Chilliwack is situated on the south of the Fraser about one mile from the river. Chilliwack is one of the oldest, and is the most prosperous rural municipality on the Mainland of British Columbia. It extends along the Fraser River, which is its northern boundary, a distance of about 20 miles and a breadth between the mountains and the river about 12 miles. Embraced within this area are to be found some of the finest and best managed farms in the Province. The land under cultivation forms but a small proportion of the total acreage, much of

which is prairie land, and can be put under cultivation at a trifling cost; it is estimated that 90 per cent. of the entire municipality can safely be classed as first-class land, and the soil of which is a rich alluvial loamy one, will produce crops either in cereals, fruits, roots or vegetables which will always retain for Chilliwack the fame of being the leading agricultural and fruit growing section of the Province. Situated about 50 miles from New Westminster and 70 miles from Vancouver, with which cities it has daily communication by boat or rail, it is a desirable place to live, having a climate similar to that of the South of England, and being a resort for tourists and sportsmen, and noted for its excellent gravel roads. The Government Experimental Farm and the famous Harrison Hot Springs are only about 12 miles from Chilliwack. There are 9 churches and 12 schools in the municipality; there is also a court house with residential Registrar, a good post office in the town with money order office and savings bank; a telegraph and telephone office, a cheese factory, a first-class creamery, a cannery, a grist mill and three saw mills, a bank and a newspaper. Secret societies are well represented in Chilliwack, besides the Masons, Odd Fellows, Woodmen, Foresters and Orangemen there is also a good lodge of the Sons of England, of which Mr. S. Melard was the first president and is now District Deputy.

Fairview.

Postmaster, Thos. Elliott.

In the Dominion Electoral District of Yale-Cariboo, Provincial East Riding of Yale. Mining Recording Division of Osoyoos. Just what the name indicates, one of the prettiest spots in the vast interior of British Columbia, 15 miles east of Keremeos, 40 miles southwest of Penticton, Fairview is not behind other spots in the great mineral regions of British Columbia. Some of the richest prospects in the Province are found near by.

(Formerly called Port Simpson.)

Pastmaster, Chas. W. D. Clifford.

In the Dominion Electoral District of Burrard and Provincial of Cassiar, Mining Recording Division of Skeena, is situated on the northeast end of the Simshean Peninsula, in the Cassiar District, and is separated from the south end of Alaska by the Portland Inlet. It possesses a fine harbour, and at Georgetown, 7 miles distant, is a sawmill and ship building yard. A fine hospital with 20 wards has been built, also a handsome church, Church of England. Coal has been discovered in the district. The Methodist Mission have here a home and school for the Indians. Mails weekly, via Victoria, 600 miles distant.

of Fort Steele. With the immediate building of the Crows' Nest Pass Ry., which will give direct and quick communication to East Kootenay, the possibilities of the Fort Steele District are difficult to estimate. The mines so far developed give abundant proof of the vast wealth of this section, ten miles from Cranbrook, 99 miles from Crows' Nest Pass.

Grand Forks.

Postmaster, L. A. Manly.

An incorporated city in the Dominion Electoral District of Yale and Cariboo, Provincial East Riding of Yale, and Mining Recording Division of Grand Forks. Is beautifully situated on Kettle River, about 8 miles from the international boundary line and close to the famous Greenwood mining camp. The "Grand Forks Miner," a weekly journal that is alive to the splendid prospects of the district, and Grand Forks in particular, is published here by Messrs. F. H. McCarter & Son. The whole district is more or less mineralized, and as development work on the numerous valuable mines in the immediate neighbourhood of Grand Forks progresses the city is bound to grow into a highly important and prosperous place, depending not alone upon her

Illecillewaet.

Postmaster, A. L. Stewart.

In the Dominion Electoral District
 of Yale-Cariboo, Provincial North
 Riding of West Kootenay. Illecille-
 waet (pronounced Illy-cilly-wait) is
 one of the principal stations on the Pa-
 cific Division of the C. P. R., 407 miles
 east of Vancouver, in the Selkirk range
 of mountains. It is in a rich mining
 district, and is an excellent country for
 hunting big game. Has a money or-
 der, telegraph and express office. Mails
 daily.

Kelowna, geographically the hub of the Okanagan Valley, is beautifully situated on the east shore of Okanagan Lake, in the Dominion Electoral District of Yale-Cariboo and Provincial of the East Riding, of Yale and Mining Recording Division of Vernon, on a broad expanse of almost level land. Mill Creek empties into the lake at this point and is fringed with a luxuriant growth of poplars, cottonwood and other trees. Further south Mission Creek finds its terminus in the same lake. This is the centre of the largest area of agricultural lands in the Yale District and is called the garden town of British Columbia, from the numerous small holdings of from eight to forty acres, although there are some holdings consisting of hundreds of acres. Vegetation is very luxuriant and large crops of vegetables, hay, grain and fruits of nearly every description are successfully grown. Tobacco culture has been carried on for the past three years with marked success. Cattle and hog raising are important factors in the success of the community. The mining indus-

BRITISH COLUMBIA DIRECTORY, 1897-98.

try, as yet in its infancy, is bound to become of vast importance in the near future. The Agricultural and Trades Association is a valued institution formed about four years ago, and last year gave an agricultural exhibition at which the best display of fruit ever collected at one place in the Province was exhibited. Communication is had to the markets of the Province, and especially with the mining districts, by the SS. "Aberdeen" of the C. P. R. service, making daily trips, connecting with the C. P. R. line at Okanagan Landing and Penticton, at the foot of Okanagan Lake. A large amount of produce has been shipped within the past three years, and the business has hardly commenced. The Kelowna Shippers' Union Co. Ltd. are the principal handlers of produce, together with individual shippers, of which there are many. The industries of the Valley are represented by a saw and planing mill, which turns out all descriptions of work in that line: a grist mill; a pork packing establishment, carried on by the Kelowna Shippers' Union, which has turned out during the past season a very superior article in hams, shoulders, spiced rolls, etc. Schools are advantageously situated to suit the needs of their respective districts. Four religious denominations are represented. The sporting proclivities of the inhabitants are much in evidence, there being lacrosse, cricket, football, curling and gun clubs. A brass band is successfully maintained. Fishing and shooting are excellent in the neighborhood, and altogether Kelowna is a pleasant place to live in.*

Ladner.

Postmaster, Thos. McNeely.

Is one of the most important towns on the Fraser River, 12 miles below New Westminster, in the Dominion and Provincial Electoral District of New Westminster, Delta Riding, Mining Recording Division of New Westminster, has post, money order, telegraph and express offices. It is the main outlet for the settlements in the Delta municipality. The regular mail steamers from Victoria and New Westminster call at this place three times a week each way; the Nanaimo and Vancouver steamers twice per week, and ferry boats make daily trips to and from New Westminster. The industries of this section are creamery butter, salmon canning, stock raising and general farming. The district is well provided with schools and churches; the lands are all dyked and are, without ex-

ception, the finest on the Pacific Coast. Reeve—Wm McKee. Councillors—Wm Arthur, T E Ladner, R E Kittson, S Henchcliffe, Thos McNeely.

(See Illecillewaet.)

In the Dominion Electoral District of Yale and Cariboo, Provincial North Riding of West Kootenay, Mining Recording Division of Illecillewaet, is on the main line of the C.P.R., a few miles east of Illecillewaet. It has no Post Office now, but will have one shortly, mails are now handled from Illecillewaet. Trains arrive from the west at 11:10 am, and from the east at 2:50 pm. The Lanark mine and concentrator is situated here and operated by the Lil-loo-et Fraser River & Cariboo Gold Fields Co. The present population is between 100 and 150.

Lillooet.

Postmaster, C. A. Phair.

In the Dominion Electoral District of Yale and Cariboo and Provincial West Riding of Lillooet, Mining Recording Division of Lillooet, is situated on the right bank of the Fraser River. It is connected with Clinton and Ashcroft by a good waggon road, over which communication is made once a week by stage from Clinton, connecting with the Cariboo stage. There is also communication by trail from Lytton, distant 40 miles. Nearest telegraph office, Clinton, 47 miles; railway station, Ashcroft, 60 miles; banking point, Kamloops. Pemberton Meadows is the only part of the district which needs no irrigation. The development of the Golden Cache mines and other mine deposits found in Lillooet District will be the means of causing a very large amount of work in the mining line in the District.

Metchosin.

Postmaster, T. Stothard.

In the Dominion Electoral District of Victoria and Provincial of Esquimalt, is a very pretty rural settlement on Vancouver Island, 15 miles from Victoria, in a westerly direction. The roads through the district are excellent. Big Lake, or Dr. Ash's Vines, Bilston Falls, Happy Valley, Pedder Bay, Rocky Point, William's Head, Sangster's Plains and Race Rocks, on which stands the lighthouse, are all in the vicinity. It is a most enjoyable section for picnicking, hunting and fishing, and a charming resort for riding and driving parties. Communication by stage; mails are received twice a week. The nearest railway station is Langford, on the E. & N. Ry.

Postmaster, John Cunningham.

In the Dominion Electoral District of Burrard, in the Cassiar District, Skeena Division, Mining Recording Division of Skeena, is a village, 550 miles from Victoria, situated on the north-west coast. It is reached by Canadian Pacific Navigation Co.'s steamers every ten days from Victoria; nearest telegraph and express office, Nanaimo. His Lordship Bishop Ridley has here the headquarters of his diocese of Caledonia.

Midway.

(Boundary Creek.)

Postmaster, T. McAuley.

In the Dominion Electoral District of Yale-Cariboo- Kootenay, Provincial of East Yale, Mining Recording Division of Kettle River, Boundary Creek (Midway) includes all the immense district from Osoyoos east to Christina Lake. The means of communication are very poor, through travel necessitating crossing the boundary line, either travelling north to Pentuicton or south to Marcus. The chief industries are farming (cattle, sheep and grain principally) and mining. Population about 1,000.

New Denver.

Postmaster, G. L. Estabrooke.

In the Dominion Electoral District of Yale, Provincial South Riding of West Kootenay, and Mining Recording Division of Slocan. The town is well named after its famous namesake to the south and situated, as it is, right in the heart of the most important mines on Slocan Lake, it is building up quickly; 40 miles west of Kaslo, about the same distance north of Slocan City. The "Ledge," a well edited paper, is published here. Communication by rail and steamer.

Plumper Pass.

North Victoria District.

(Including Mayne Island, Galiano, Saturna, Samuel, Gossip and Tumbo Islands.)

Postmaster, W. T. Collinson.

In the Dominion Electoral District of Vancouver, Province of North Victoria, and Mining Recording Division of Victoria, is situated on the shore of

Miner's Bay, on the south side of Active Pass, Mayne Island. The settlement is rapidly growing, many settlers having taken up land in the vicinity. The Post Office serves for Mayne Island, Samuel, Gossip and nearly all of Galiano. Pender and Saturna Islands have offices of their own. The C.P.N. steamers communicate with the islands almost every day. Victoria, Vancouver, New Westminster and Nanaimo are all equally distant to the settlement, about 35 miles. The whole district is very fertile, and game is plentiful.

Saturna.

Postmaster, W. J. Drummond.

In the Dominion Electoral District of Vancouver, Provincial of North Victoria, and Mining Recording Division of Victoria. Mails arrive Wednesdays and Saturdays by steamer from Victoria and New Westminster. The land on Saturna and Pender Islands consists chiefly of mountains covered with timber and rich alder bottom valleys, which raise heavy crops of grain, fruit and vegetables. Sheep farming is well developed, and the salmon fisheries in the different fine bays and harbours are attracting attention.

Sechelt.

Postmaster, Herbert Whitaker.

In the Dominion Electoral District of New Westminster, Provincial of N.-W. Richmond Riding, and Mining Recording Division of New Westminster. The nearest railway station is Vancouver. Sechelt is an Indian mission of over 100 population. It is a fine summer resort of which many take advantage, and an excellent place for shooting ducks, geese, grouse, deer, snipe and all wild fowl. The Vancouver market is supplied with the above-named game, and also with fish, cod and salmon principally. The store is known as the Sechelt Trading Co., and was located here in 1890.

Shawnigan Lake.

Postmaster, G. Koenig.

Situated on the E. & N. Railway, is the most southern sub-division of the Provincial Electoral District of Cowichan-Alberni, and is in the Dominion Electoral District of Vancouver, and Mining Recording Division of Victoria. Nearest telegraph and express office, Cobble Hill, 3 miles distant. The industry of this section of Shawnigan is the large sawmill of the Shawnigan Lake Lumber Co., which has a very large capacity, and gives employment to a number of hands.

Sidney.

Postmaster, J. Critchley.

Sidney, the northern terminus of the Victoria & Sidney Railway, is a thriving little town in the Dominion Electoral District of Vancouver, Provincial of North Victoria, and Minin' Recording Division of Victoria. The harbour affords excellent accommodation for heavy draught boats at almost any stage of the tide or state of the weather, and the regular service which it is contemplated to establish between this port and the Mainland will shorten the sea

passage by some hours. There is good hotel accommodation at Sidney, a Post Office, general stores, blacksmith shop, butcher's stall and a spacious public hall. Trains daily to Victoria, distant 16 miles.

Silverton.

In the Dominion Electoral District of Yale-Kootenay, Provincial South Riding of West Kootenay, and Mining Recording Division of Slocan. Mails arrive tri-weekly from east and west C. P. R. points to Nakusp, thence by rail to Roseberry, thence by C. P. R. steamer to Silverton. From U.S. points via Spokane, Kaslo, Sandon to New Denver by rail, thence by steamer "W. Hunter" and C.P.R. to Silverton. There is a steady building boom on here and numerous buildings are in course of construction. The only drawback is lack of lumber. The population at present is about 750 and is increasing daily.

Slocan City.

Postmaster, R. A. Bradshaw.

Sixty-five miles north of Robson, at the south end of Slocan Lake, 32 miles south of New Denver, in the Dominion Electoral District of Yale and Cariboo, Provincial South Riding of West Kootenay, and Mining Recording Division of Slocan City. There are two papers

published in the city, the "Pioneer" and the "News." The principal communication is via Slocan Lake, which affords an excellent outlet to the north, and thence via the C. P. R. Slocan City possesses many advantages that will in the near future cause a very rapid growth and a vast increase in her present population. The chief industry, like the whole of the inexhaustible Slocan country, is mining.

In the Dominion Electoral District of Yale-Kootenay, Provincial West Riding of Yale, and Mining Recording Division of Yale, is a station on the main line of the Canadian Pacific Railway, 114 miles from Vancouver, 12 miles from Yale and 15 miles from North Bend. The railway company have been doing some extensive bridge work in this vicinity. Mails arrive twice daily by the C. P. R. The population consists of about 250 whites, Indians and Chinese. Placer mining on the Fraser River and railway work are the principal industries of the people. The place is very mountainous, which opens a field for prospectors. There is also splendid trout fishing. Seven miles from here is Camp 16, where the C. P. R. have their stone quarry and where a large number of men are employed. A list of this camp is not given, as the men are constantly changing.

Stickeen Div. of Cassiar.

Post Office, Wrangel, Alaska.

In the Dominion Electoral District of Vancouver, Provincial of Cassiar, and Mining Recording Division comprised under three headings: McDame, Laketon and Stickeen Division. Although during the last few years but comparatively little gold has been pro-

duced in that portion of the District, yet there are great opportunities for further development, both in placer and quartz, no attention having been paid to the quartz up to date. This year some parties have gone into that country to prospect for the latter with every chance of success. It is a question whether the granting with its conditions of a charter for the building of the Cassiar Central Railway will facilitate that further development which the country warrants; some say yes, while others express the opposite opinion. The quantity of furs brought out by the way of Stickeen continues year after year to be about the same, which is quite a trade in itself. The Yukon country, lying to the north of Cassiar, which is calling at present the attention of the world, will in all probability make the Stickeen River a very important portion of a route to the rich mines of the Yukon District, as the Teslin Lake, which is partly in Cassiar, can be reached from the head of navigation on the Stickeen River by what can be made a good road, distance about 140 miles. It is believed that river steamers can be run from the head of Teslin Lake to the mouth of the Yukon River if necessary, while the distance from the head of the Lake to the celebrated Klondyke does not exceed 475 miles. From Telegraph, on the Stickeen, good grass is to be found for animals that would be engaged in packin' goods. Sheep, cattle and horses could be easily taken in by this route.

Salmo.

Postmaster, Robt. Ince.

In the Dominion Electoral District
of Cariboo, Provincial South Riding of
West Kootenay, and Mining Record-
ing Division of Nelson, located on the
Nelson & Fort Sheppard Railroad, at
the junction of the North Fork of Sal-
mon River, is the centre of numerous
mining claims on the Salmon River,
North Fork, Lost Creek, Sheep Creek,
Pend d'Oreille, and their tributaries.
It is distant from Nelson 35 miles, and
from Rossland 52 miles; has daily
trains northward to Kaslo, Ainsworth,
Pilot Bay and Balfour, and south to
Trail, Waneta, Northport, Rossland
and Spokane. Salmo is located on a
level prairie, and has an ample supply
of timber, with a sawmill having a daily
capacity of 25,000 feet, with abundance
of water power for domestic and manu-
facturing purposes. The latest infor-
mation from the district places the
mineral locations surrounding Salmo
at about 2,300 claims.

Thomson's Landing.

Postmaster, J. W. Thomson.

In the Dominion Electoral District of Cariboo, Provincial North Riding of West Kootenay, and Mining Recording Division of Lardeau, is a mining village at the head of the North-West Arm of the Upper Arrow Lake. It contains a post office and hotel, and is surrounded by beautiful scenery and exquisite walks and drives. There is trout fishing on Salmon Creek and good boating on the Arm. It is connected with Arrowhead by steamer "Illecillewaet" and "Lardeau," running twice a day. A stage leaves daily for Trout Lake City.

Thurlow

Postmaster, Jno Crawford

In the Dominion Electoral District
of Burrard, Provincial of Comox, and
Mining Recording Division of Comox.
Mails arrive Wednesdays and Saturdays
by the S.S. "Comox" and by S.S.
"Rainbow," Tuesdays and Fridays from
Vancouver. Quartz mining is the chief
industry. Thurlow post office is in
Shoal Bay, an excellent harbour, on the
north side of Thurlow Island in Car-
dero Channel, and facing Phillips, Arm.
Shoal Bay is the centre of the mining
district which will soon be one of the
most flourishing in the province. There
are two stores and two hotels here, one
the property of the Shoal Bay Trading
Co., and the other, the Thurlow Hotel,
adjoining the premises of Messrs. Arch-
ibald & Co., general storekeepers and
traders; also the assay office of Mr. J.
B. Farquhar. Being the distributing
point for the mines in the Phillips'
Arm, Fanny Bay, Frederick Arm, Val-
dez Island, Estero Basin, Channe Is-
land, Thurlow Island, Cardero Chan-
nel, Longborough Inlet, and outlying
points, this place is rapidly growing in
importance. The mines are notable for
the abundance of copper galena and
iron pyrites, most of them carrying
gold, and many assaying high in the
precious metals. Very large develop-
ments are taking place, and experts
prophecy a brilliant future for the dis-

trict. The population is about one hun-
dred.

Ucuelet

Postmaster, Jas Sutton

In the Dominion Electoral District of Vancouver, Provincial of Cowichan-Alberni, and Mining Recording Division of Alberni, a thriving settlement 110 miles from Victoria, at the western entrance of Barclay Sound, West Coast of Vancouver Island. Harbour four miles long, half a mile wide, safe and commodious anchorage for any size of vessel, opening out to Pacific Ocean. Abundance of fresh water. The C. P. N. Company's mail steamer "Tees" calls both ways, leaving Victoria every ten days. The land adjacent to the harbour, comprising about 60,000 acres, is suitable for all the requirements of agriculture. There are two wharves, two stores, a saw mill and a mission school. With all these natural advantages it is one of the most desirable fields for intending settlers on the West Coast.

Union

Postmaster, J. L. Roe

This town, the eastern part of which is called Cumberland, is finely situated on the foot hills of the Buford Mountains, about 500 feet above the waters of the Georgian Strait, and 60 miles north of Nanaimo. It is connected with Bayne Sound by a line of railway 13 miles in length. Its principal industry is coal mining. It turns out from 700 tons to 1,000 tons per day of the best steam coal. This is transferred over the railway to Union wharf (Bayne Sound) to the ships, steamers and tugs, with scows awaiting to receive it. The fine coal is manufactured here into a good article of coke, which bids fair to grow into an immense industry of itself. Extensive bunkers are being constructed at the wharf in connection with the coal industry.

Union is the market place for the Comox farming settlement, and contains a population of 3,000. It has one large department store besides two general stores, four large hotels, two saw mills, two merchant tailoring establishments, various shops, such as dry goods, tin and hardware, metal harness, and saddlery, livery, jewellery, stationery, bakeries, barber shops, photograph gallery, brass band, a graded school, four churches, and a newspaper.

It has a fine water supply, which is taken from Hamilton Creek, a mountain stream; this water has just been introduced into the place by an incorporated company, at an expense of about \$30,000. The town is divided into two parts—the Camp, and Cumberland, each having about the same population. Cumberland will be incorporated as a city on January 1st, 1898. A petition complying with the Act for the incorporation of cities, having already been filed with the Provincial Secretary. The Post Office will then be changed to Cumberland. It is reached by steamer from Victoria and Nanaimo every Wednesday. It is located in Nelson District, adjoining Comox District.

Vevey is a registered townsite with wharf for Slocan Lake steamers, situated on Slocan Lake, 12 miles south of New Denver, which is its post and money order office, 6 miles from Slocan City. It is known by the C.P.R. as Ashburn Flag Station. The Rossland Gold Mining, Development & Investment Co., Ltd., head office 114 Yonge St., Toronto, are working the Batchelor, Let Her Go Eli, V and M claims under the management of G. A. Farini, president of the company. G. A. Farini is working the Coronation and Memphis. Allan & Cory are working the Scotchman group. There are

also many other galena and gold and copper claims in this neighbourhood. Waggon roads from Vevey lead to all claims between Ten and Twelve-Mile Creeks. Supplies and ore are packed through Vevey.

Wanborough

Postmaster, Robert Chambers

In the Dominion Electoral District of New Westminster, Provincial of Cassiar, and Mining Recording Division of Victoria. Situated on River's Inlet and reached by steamers from Victoria and Vancouver every week. There are five canneries in the immediate vicinity, which is the only industry.

Postmanter, Jas R Hunne

In the Dominion Electoral District of Yale, Provincial of West Kootenay, and Mining Recording Division of Rossland, on the Columbia River, 16 miles north of Trail, 4 miles south of Robson. From the latter the Nelson & Fort Sheppard line of railway is easily reached. Mails arrive tri-weekly by steamer "Nakusp." The principal industries are mining and lumbering. In addition to the inhabitants of Waterloo proper, there are tributary to the town the nearby logging and lumbering camps of Champion Creek, Boomers' Landing, Ritaville and Burns' & Jordan's camp.

Whitewater

(Formerly known as Bell's Camp.)

Postmaster, J W Bell

In the Dominion Electoral District
 of Yale and Cariboo, Provincial South
 Riding of East Kootenay, and Mining
 Recording Division of Slocan, situated
 on the K. & S. Ry., 17 miles from
 Kaslo and 13 from Sandon. Shipping
 points for Whitewater and Jackson
 Basins. Present population about 300.
 Whitewater boasts of three first-class
 hotels, large general store (Nivin &
 Bell;) saw and planing mill (Bell

Bros.), capacity, 10,000 feet per day.

C. P. R. has surveyed a line in here,
 and will build to Whitewater from
 Three Forks this fall. Immediately at
 hand are the following shipping mines,
 all of which make this town their head-
 quarters and base of supplies: White-
 water, Northern Belle, Wellington,
 Luke Jim, London Hill, Charleston,
 Sunset, Ibex, and many others not as
 yet developed into shippers.

Mails daily from the United States,
 the East, and Coast.

Ymir

Formerly Quartz Creek, a town on Salmon River, about 18 miles from Nelson, Township 17, Lot 1,242, Block 6, population between 500 and 600, is on the line of the Nelson & Fort Sheppard Ry., and has depot, telegraph and express offices. The Wild Horse Creek, 15 miles in length, on which are situated the Ymir, Blackcock, Wilcox, Elise, and many other promising properties. Porcupine Creek, on which are the Porcupine, Blue-eyed Nellie, and others; Barrett and Stewart Creeks with the Porto Rico, and Quartz and Bear Creeks, are all tributary to this town, as well as the Dundee mine.

A lumber mill operated by Blue & Co., is in operation, and a water works system is under construction. The character of the properties varies greatly, the Dundee and Ymir being chiefly galena carrying large gold values, while the Porto Rico is a free milling proposition which so far has given excellent results.
